Re: Emergency Purchase for Replacement Parts for Portable Data
Terminals

Pursuant to Section 2-92-644 of the Municipal Purchasing Act, I am authorizing you to make an Emergency purchase from Nova Mobility Solutions. Based upon information received from members of your staff, I have determined that this procurement is necessary to meet bona fide operating emergencies.

You are hereby authorized to purchase the Replacement Parts for Portable Data Terminals in the amount of \$245,762.24 as requested in your letter dated March 8, 2006. Any amount in excess of the \$245,762.24 approved here will be subject to additional authorization and will be limited so as not to exceed the \$250,000 limit established by statute.

MEMORANDUM

DATE: March 8, 2006

TO: Barbara A. Lumpkin
Chief Procurement Officer
Department of Procurement Services

FROM: Andrew Velasquez III 
Executive Director
Office of Emergency Management and Communications

RE: Request for Emergency Authorization

The Office of Emergency Management and Communications (OEMC) requires spare and replacement parts for 2,800 existing portable data terminals (PDTs) used by the Chicago Police Department. These goods are necessary because the PDTs are used by all CPD field officers to access essential databases, and currently there are over 400 inoperable units waiting for replacement parts. Because the number of functional PDTs is running critically low for the Chicago Police Department, OEMC is requesting emergency authorization for the purchase of \$245,762.24 of replacement parts.

Attached please find price quotations. We are recommending Nova Mobility Solutions for the following reasons: OEMC had pursued a contract extension with the former supplier, MicroSlate, but that company declared bankruptcy just prior to finalizing negotiations. Bankruptcy proceedings indicate that Nova Mobility Solutions has taken possession of the MicroSlate parts inventory. Because these PDT parts were unique to MicroSlate (and now Nova Mobility Solutions), OEMC cannot use other vendors. The Sole Source Board recognized the uniqueness of this product by approving the original contract in 1998 and re-approving another in 2005. Over \$10 Million has been invested in the MicroSlate/Nova PDT technology. While OEMC plans a multi-year transition to newer technology through more sound companies, the existing PDTs must be maintained to support Police in the field. Maintenance and repair requires long lead-time; in certain repair situations parts can take over 10 weeks to be ordered and installed. To address the large backlog of downed PDTs, a contract is needed on an emergency basis to overcome delays due to unexpected supplier bankruptcy.

Please contact Andy Sheils at (312) 746-9420 if you have any questions.

I certify that this emergency poses a clear and imminent danger, requiring immediate procurement of services, supplies or equipment to prevent or mitigate the loss or impairment of life, health, property, or essential public services and would not have been avoided by due care and diligence.

Thank you for your assistance.

Andrew Velasquez III
Executive Director
