#### Utilizing JOC For City Construction Projects

Project Number: 06-84-8-015.A

Department: Transportation

Project Manager: John Cecchin

Telephone #: (312) 744-2255

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3,4 and 5. Attach to MOA (JOC Approval Letter)

**1. Please describe the major features of this project.**

The scope of work to be performed under this sub-order is to install additional catch basins and sewer work, asphalt and striping on the north side of Madison Street- Menard Avenue to Parkside Avenue.

**2. Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.**

The original project is currently under construction using JOC. The additional sewer items were added when grading was revisited to update to current ADA standards. Due to the ADA revisions and late season start, it makes sense to use the same JOC contractor to construct the asphalt.

**3. If the project is a one trade project, please provide additional explanation of why it would be in the city's best interest to do the project under JOC:**

Asphalt, Sewer, Striping

**4. If it is anticipated that over 25% of the project will consist of Non-prepriced items, please provide an explanation on why JOC should be used.**

N/A

**5. If some elements of the proposed JOC project scope of work are covered by city term agreements, explain why they are included in this JOC project instead of being procured through the term agreements.**
