Utilizing JOC For City Construction Projects

10th District
3315 West Ogden

Project No: JV5-055.A

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3,4 and 5. Attach to MOA (JOC Approval Letter)

1. Please describe the major features of this project.

Modify a masonry, steel & wooden compactor enclosure to allow access for the service truck.

2. Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.

JOC is an effective, time efficient method to perform multi-diiscipline projects that are relatively small in scope, but critical to the daily operations.

3. If the project is a one trade project, please provide an explanation of why it would not be in the city's best interest to do the project using DGS trades or existing term agreements.

This work requires multiple trades - iron workers, carpenters, brick masons & construction laborers.

4. If it is anticipated that over 25% of the project will consist of Non-prepriced items, please provide an explanation on why JOC should be used.

There will be no NPP items.

5. If some elements of the proposed JOC project scope of work are covered by city term agreements, explain why they are included in this JOC project instead of being procured through the term agreements.

Presently the city does not have active term agreements in place to perform this work.
