Attachment A

Utilizing JOC For City Construction Projects

Project Number: 07-84-8-051

Department: Transportation

Project Manager: Lynn Hollenberg

Telephone #: (312) 742-4771

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3,4 and 5. Attach to MOA (JOC Approval Letter)

1. Please describe the major features of this project.

Repair of path will redirect runoff through minor grading changes. Work includes installation of concrete gutter and replacement of granular sub-grade. Project also includes removal and replacement of iron fence and installation of rip rap to shore up a section of river bank. Temporary pedestrian/bicyclist traffic control will be required as well as restoration of pavement marking lines.

2. Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.

Erosion to path has created a safety hazard to pedestrians and bicyclists. Repairs to path must be done quickly to correct unsafe conditions and avoid further deterioration.

3. If the project is a one trade project, please provide additional explanation of why it would be in the city's best interest to do the project under JOC:

The scope of work is to be covered by multiple trades.

4. If it is anticipated that over 25% of the project will consist of Non-prepriced items, please provide an explanation on why JOC should be used.

N/A - The value of non-prepriced items is expected to be minimal.

5. If some elements of the proposed JOC project scope of work are covered by city term agreements, explain why they are included in this JOC project instead of being procured through the term agreements.

The work is not covered under a term agreement.
