Project No: S-07-040.B-2
JWPP Sandblast and Paint Traveling Screen Support Structure

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3,4 and 5. Attach to MOA (JOC Approval Letter)

1. Please describe the major features of this project.

The Intake Basin will be taken out of service when water demand is reduced. At that time blast clean existing traveling screen structural support steel and paint with The Sherwin Williams Company Polyurea Lining System.

2. Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.

This work needs to be performed as soon as the West Intake Basins can be shut down for cleaning. This will complete a JOC assignment that was started in December 2007 but could not be completed due to pump repairs that delayed shut down of the West Basin.

3. If the project is a one trade project, please provide additional explanation of why it would not be in the city's best interest to do the project under JOC.

N/A.

4. If it is anticipated that over 25% of the project will consist of Non-prepriced items, please provide an explanation on why JOC should be used.

No NPP items anticipated unless steel repairs are discovered during the steel cleaning.

5. If some elements of the proposed JOC Project scope of work are covered by city term agreements, these elements should be removed from the JOC Project.
