DEPARTMENT OF FLEET AND FACILITY MANAGEMENT
CITY OF CHICAGO

MEMORANDUM

TO: The Honorable Carrie Austin
Chairman, Committee on Budget and Government Operations

FROM: David Reynolds
Commissioner

DATE: November 15, 2013

RE: Request for Information

CC: Maria Guerra, Mayor's Office of Legislative Counsel and Government Affairs

Ref ID: 038 – 1 and 7 Equipment Donation Requests

During our recent hearing to discuss the 2014 proposed budget, Aldermen Moreno and Burnett requested additional information regarding the equipment donations request list. Additionally, Alderman Burnett requested specific information on the availability of any wood chippers.

Fleet and Facility Management has subsequently contacted Alderman Moreno's office regarding requests from his office that may not be included on the donation list. The Alderman's staff will research and locate the request/ordinance and forward to Fleet and Facility Management. Once received, the list will be updated and adjusted accordingly.

In regards to available wood chippers, Fleet and Facility Management reviewed the fleet of wood chippers currently held in inventory. At this time there are not any wood chippers that would be suitable for donation.

If a request or ordinance is put into place, Fleet and Facility Management will update and adjust the list accordingly.

The current equipment donation request list is attached for your reference.

DEPARTMENT OF FLEET AND FACILITY MANAGEMENT
CITY OF CHICAGO

MEMORANDUM

TO: The Honorable Carrie Austin
Chairman, Committee on Budget and Government Operations

FROM: David Reynolds
Commissioner, Fleet and Facility Management

DATE: November 15, 2013

RE: Request for Information

CC: Maria Guerra, Mayor's Office of Legislative Counsel and Government Affairs

Ref ID: 038 – 2 Energy Efficiency Lighting & Audit

During our recent hearing to discuss the 2014 proposed budget, Alderman Cullerton requested additional information regarding three energy efficiency projects explained below.

- City Hall Elevator Lights: The cab lights have been upgraded to compact fluorescent lamps reducing wattage from 50 to 14 watts. The lamps were selected to maintain the look and color of incandescent lights, yet gain the energy savings of compact fluorescent. The fixtures are dimmable and as LED lamp technology improves and costs are reduced these fixtures will be considered for upgrade.
- City Hall Exit Signs: As a pilot, all exit signs in Room 509 were retrofitted from 16 watt compact fluorescent lamps to 5 watt LED strip lights earlier this year. Due to the positive results from this pilot, all spaces being renovated as part of the City Hall restacking program, have also had 5 watt LED exit signs installed. The remaining exit signs not addressed through the re-stacking project are scheduled for replacement in the 1st Qtr. of 2014.
- Energy Audits of City of Chicago Facilities: Through the Retrofit Chicago program 232 facilities were assessed with 112 determined to be viable for detailed energy audits. Of those 112 facility energy audits, 75 facilities have been finalized as part of the Retrofit Chicago Program. Those 75 buildings will receive 225 energy efficiency projects as part of the program. The facility energy audits not included in the Retrofit Program will be utilized by 2FM to develop in-house energy projects in 2014.
