Date: November 3, 2014

Re: Request for Information from Annual Appropriation Committee Hearing

The information provided below is in response to questions posed at our department's hearing on October 29, 2014, to discuss the proposed 2015 budget.

Alderman John Arena asked for the 2015 projected Divvy Revenues.

The 2015 projected Divvy Revenues are as follows:

Advertising:	\$366,250
<u>Sponsorship:</u>	<u>\$2,220,000</u>
Total:	\$2,586,250

As always, please let me know if you have any further questions.

Date: November 3, 2014

Re: Request for Information from Annual Appropriation Committee Hearing

The information below is in response to questions posed at our department's hearing on October 29, 2014, to discuss the proposed 2015 budget.

Chairman Austin inquired about construction signage which was posted on the 1400 block of West 112th Place.

CDOT performed the installation of speed humps on the 1400 block of West 112th Street. The construction signage was inadvertently posted on the 1400 block of West 112th Place. CDOT has corrected this oversight and the signage has been removed

As always, please let me know if you have any further questions.

Re: Request for Information from Annual Appropriation Committee Hearing

The information provided below is in response to questions posed at our department's hearing on October 29, 2014, to discuss the proposed 2015 budget.

Alderman Leslie Hairston requested additional information regarding pothole crews.

A standard pothole crew is comprised of 4 persons: 1 Asphalt Foreman, 2 Asphalt Laborers, and 1 Motor Truck Driver. During the winter months, some of the crews are also assigned a Hoisting Engineer with a tag roller. The city is divided into 4 districts and each district has an assigned Dispatcher. The Dispatcher assigns crews in all wards within the district. Pothole crews are routed within the district based on CSR data and other identified priority needs. The pothole crews are rotated equitable throughout the wards located in the district. CDOT tracks the daily ward assignments to make sure that all wards receive service.

As always, please let me know if you have any further questions.

Re: Request for Information from Annual Appropriation Committee Hearing

The attached information is in response to questions posed at our department's hearing on October 29, 2014, to discuss the proposed 2015 budget.

Alderman Smith requested information on absenteeism, disability improvements, permanent/temporary disability numbers, workman's comp., and FMLA.

Spreadsheets detailing the requested information are attached.

As always, please let me know if you have any further questions.

Actions taken to reduce Injuries and Duty Disability | 2014

- Duty Disability cost (Workers' compensation costs) has dropped from \$10,145,408.57 in 2011 to \$5,264,283.18 in 2014. (2014 last quarter is projection taken from the last three years 4th quarter average)
*Data is Jan 1,2014-Sept 30,2014
- Duty Disability overall cost has been reduced by 48% since 2011. Proactive steps include hiring a Safety Administrator, Labor Relations Supervisor and an Injury on Duty Manager. Medical cost has decreased by 34% and payments made to employees have decreased by 54%.
- This shows that individuals are having less severe injuries as well as not staying on duty disability as long. The corresponding cost of managing the claim by Committee on Finance has also decreased by 65% due to changes CDOT has implemented.
- CDOT has held 3 OSHA 10hr General Industry & Construction trainings for 82 City of Chicago employees. CDOT offered the training to all operating divisions and representatives from DWM, DSS & 2FM joined CDOT in the bi-annual training performed by CDOT's Safety Administrator and Environmental Compliance Coordinator. The cost to each department was \$5.00 a person as opposed to the several hundred if this would have been performed by a contractor.

Actions taken to reduce Workplace Injuries by CDOT

- Monthly Tool box talks required for all operations employees
- Quarterly OSHA training given to employees over a variety of topics
- Updated Health and Safety Programs
- Union / Management Safety Committee quarterly meetings
- Targeted trainings based on historical injury trends

Actions taken to reduce Duty Disability cost by CDOT Injury on Duty Manager

- Communicate with the Department's Deputy's, to see if they can accommodate employees who are off work on Duty Disability with restrictions.
- Communicate with the Nurse that is on the employee's file who has restrictions to see if the employee can do the job that the Department is offering.
- Stay in communication with employee's who are on duty disability.
- Maintain a file of employee's on Duty Disability doctor notes, payments stop to employee if notes are not kept up to date. Injury on Duty Manager informs COF who cuts off benefits.

Actions taken by CDOT & Committee on Finance once a person has been determined to have reached Maximum Medical Improvement (MMI)

Once an employee is placed on MMI, the employee is monitor thru Med Voc Rehabilitation

- Med Voc Rehabilitation's works with injured employees to promote a return to work. If this is not possible due to the claimant's work restrictions, and the department cannot accommodate the work restrictions.
- Med Voc job placement specialist selectively identifies open jobs, schedules interviews and assists claimants in ways to effectively perform their own job search with new employers.
- Personalized vocational assessment interview
- Vocational testing
- Vocational Planning & Implementation
- Job analysis
- Job Placement
- Job fair
- Job seeking skills training
- Resume writing
- Video mock interviewing
- Job coaching
- GED Program
- Community College
- Job leads are provided to claimants on a weekly basis.
- Job placement specialists meet with a claimant twice per month for application completions and job interviews.
- Job placement specialist review of a claimant's personal job log on a weekly basis.
- Claimants are provided with a laptop computer as well as one-on-one supervision by a Med Voc Rehabilitation computer training monitor. Claimants will be assessed on their computer skills and then be placed in one or more of the following classes:
- Microsoft Office 2010

Re: Request for Information from Annual Appropriation Committee Hearing

The information provided below is in response to questions posed at our department's hearing on October 29, 2014, to discuss the proposed 2015 budget.

Alderman Leslie Hairston requested information on the current project costs for the 71st Street Streetscape Project.

The current 71st Street Streetscape Project is broken down as follows:

Phase I – Jeffery to South Shore Parkways: Streetscape improvements within the parkway including new sidewalk, curb and gutter, ADA ramps, updated lighting with identifiers and hanging baskets, permeable pavers, trees in tree grates, and street furniture.

Phase II – Jeffery to South Shore Medians: Median and roadway improvements including asphalt resurfacing, reconfigured travel lanes, bike lane, median planters, pedestrian refuges at railroad crossings, and enhanced crosswalks. This phase also includes a community identifier at Stony and 71st.

The City has identified funding for portions of 71st Street Streetscape Project. These costs are broken down as follows:

Phases I & II Design:	\$ 625,000
<u>Phase I Construction and Construction Management:</u>	<u>\$5,430,000</u>
Total:	\$6,055,000

As always, please let me know if you have any further questions.

Date: November 3, 2014

Re: Request for Information from Annual Appropriation Committee Hearing

The information provided below is in response to questions posed at our department's hearing on October 29, 2014, to discuss the proposed 2015 budget.

Alderman Jason Ervin requested additional information regarding initiatives for pedestrian safety at 4300-4400 West Madison Street because of the high volume of pedestrian accidents.

CDOT has been working to reduce pedestrian crashes along Madison Street, from Central Park to Central. We have directed infrastructure and enforcement resources to this area with additional projects in design.

During 2013 arterial resurfacing, CDOT restriped Madison from Central to Pulaski with narrower travel lanes, buffered bike lanes, high visibility crosswalks, and corner clearance/no parking markings for pedestrian safety. These improvements were designed to reduce vehicle speeds and provide a buffer between pedestrians and vehicles with bike lanes. In addition, medians were extended beyond crosswalks where possible. Curbs, gutter, sidewalks and driveways from Kilbourn to Kildare were replaced before resurfacing, with aldermanic support and TIF funds. Pedestrian refuge islands are funded separately at the intersections of Pine, Long, Leamington, LeClaire, and Lamon and construction is estimated for 2016.

CHICAGO DEPARTMENT OF TRANSPORTATION
CITY OF CHICAGO

Since 2012, CDOT has worked with CPD to direct additional on-duty and overtime traffic enforcement officers to Madison Street. Regular duty traffic officers, when not scheduled for special events, go to the area and ticket for pedestrian safety-related violations, such as red light violations and failure to yield as well as non-hazards. They coordinate with district officers and thus increase crash-safety awareness among district police. In addition, CDOT has directed overtime crosswalk enforcement missions to uncontrolled intersections on Madison. Due to pedestrian crash rates, Garfield Park is a Child Safety Zone and speed cameras are active at 3646 W Madison.

CDOT applied to IDOT for 2014 Highway Safety Improvement Project (HSIP) funds for a second phase of upgrades on Madison Street from Central to Hamlin. This project would include two additional pedestrian refuge islands, pedestrian countdown timers at 10 intersections (including Kildare and Kostner), and curb bump outs. IDOT's decision is expected before the end of 2014.

As always, please let me know if you have any further questions.

CHICAGO DEPARTMENT OF TRANSPORTATION
CITY OF CHICAGO

MEMORANDUM

To: The Honorable Carrie M. Austin
Chairman, Committee on the Budget and Government Operations

From: Rebekah Scheinfeld
Commissioner
Department of Transportation

CC: Farzin Parang
Mayor's Office of Legislative Counsel and Government Affairs

Date: November 3, 2014

Re: Request for Information from Annual Appropriation Committee Hearing

The attached information is in response to questions posed at our department's hearing on October 29, 2014, to discuss the proposed 2015 budget.

Alderman Brendan Reilly requested a citywide summary of all sidewalk torts litigation.

A citywide summary of all sidewalk torts litigation is attached.

As always, please let me know if you have any further questions.
