**ID#:** 70-06 Zero-Based Budgeting

---

The attached information is in response to questions posed at our department's hearing on November 5, 2019 to discuss the proposed 2020 budget.

Alderman Reilly asked for a list of savings and cost-efficiencies due to zero-based budgeting.

BACP is proud to have submitted a budget based only on essentials and the Department's core mission as defined in the municipal code.

BACP eliminated three vacancies, identified tech cost savings of \$100,000, and saved \$37,000 in other non-personnel costs including:

- Postage
- Equipment Repair
- Travel
- Materials and Commodities

- Meeting Costs

As always, please let me know if you have any further questions.

**ID#:** 70-08 Grant of Privilege

---

The attached information is in response to questions posed at our department's hearing on November 5, 2019 to discuss the proposed 2020 budget.

Alderman Reilly asked for a list of locations issued a notice to correct for failure to obtain a permit (Grant of Privilege) for private use of a vaulted sidewalk space (2017 – 2019 YTD).

From 2017 through 2019, there were 23 locations issued a notice to correct for failure to obtain a permit for private use of a vaulted sidewalk space. All 23 instances occurred in 2017.

**ID#:** 70-09 Liquor License Pre-Disciplinary

---

The attached information is in response to questions posed at our department's hearing on November 5, 2019 to discuss the proposed 2020 budget.

Alderman Reilly asked for the total fines collected through liquor license pre-disciplinary hearings as well as into what fund the fine revenue is deposited and what the current balance is of that fund.

<b>Year</b>	<b>Total Fines Collected</b>
2019 through Sep 30	\$58,850
2018 through Sep 30	\$114,450
2018 total	\$156,600

Fine revenues are deposited into AA02 (legal fines), which has a current balance of \$71,350.

**Re:** Request for Information from Annual Appropriation Committee Hearing

**ID#:** 70-10 Airbnb

---

The attached information is in response to questions posed at our department's hearing on November 5, 2019 to discuss the proposed 2020 budget.

Alderman Reilly asked for a list of Airbnb buildings (with the understanding that the Department cannot disclose addresses of individual units within the building), the number of units per building, the number of units in the ward that are registered to other platforms, and the number of citations issued (2017-2019 YTD).

There are currently 175 Airbnb units located at 62 unique addresses in the 42<sup>nd</sup> Ward.

In terms of units registered to other platforms, there are currently 29 HomeAway units located at 15 unique addresses in the 42<sup>nd</sup> Ward.

Pursuant to the Quality of Life Plans entered into by the City and licensed Intermediaries, BACP must treat host data as confidential. While removing the Unit number may sufficiently anonymize

some data, for other buildings, such as single-family homes, the address alone would disclose such confidential information. BACP will work through the Law Department to determine if such a building list could be provided.

In the 42<sup>nd</sup> Ward, no citations were issued to Airbnb and 18 citations were issued to hosts in regard to Airbnb units from January 1, 2017 through September 30, 2019.

As always, please let me know if you have any further questions.

---

The attached information is in response to questions posed at our department's hearing on November 5, 2019 to discuss the proposed 2020 budget.

Alderman Reilly asked for the average length of time for a typical liquor license revocation case and corresponding appeals process for problem liquor license holders.

We have had cases result in revocation in as little as 26 days and have had revocation cases that have taken a year or more.

Many factors come into play when determining the typical length of time for a liquor license revocation case. These factors include, but are not limited to, the number of charges presented in the City's Complaint; the complexity of the charges (i.e. proving nuisance v. debt); the availability of witnesses (including whether or not witnesses are City employees or members of the public); and whether the Licensee is presenting a defense or if the case is defaulted. Once a matter is

appealed to the LAC or Circuit Court, these factors become more unpredictable and are outside the control of BACP.

**ID#:** 70-26 Salvage

---

The attached information is in response to questions posed at our department's hearing on November 5, 2019 to discuss the proposed 2020 budget.

Alderman Reilly asked for the amount of salvage (turn over) dollars, year to date.

The actual salvage as of October 30, 2019 was \$1,440,821. The 2019 target is \$713,152.

We work closely with OBM and DHR to stick to our hiring plan and fill positions according to the determined plan. This year, due to the Restricted Hiring Plan, we have exceeded our target salvage, bringing greater savings to the City.

---

The attached information is in response to questions posed at our department's hearing on November 5, 2019 to discuss the proposed 2020 budget.

Alderman Reilly asked for an explanation of what BACP is doing to diversify hiring.

BACP works closely with OBM and DHR to ensure that job postings are posted widely, and diverse candidates are recruited. Over two-thirds of Department staff are minority.

---

The attached information is in response to questions posed at our department's hearing on November 5, 2019 to discuss the proposed 2020 budget.

Alderman Reilly asked who the new Director of Labor Standards is.

Andrew Fox was recently hired as the Director of Labor Standards. After considering a number of candidates, it was determined that Mr. Fox's unique combination of experience as a prosecutor, his past work on issues pertaining to labor, and his fluency in Spanish was the best for the position of Director.

---

The attached information is in response to questions posed at our department's hearing on November 5, 2019 to discuss the proposed 2020 budget.

Alderman Reilly asked for BACP's intern / law clerk budget and the breakdown of the interns and clerks.

In the City of Chicago Budget, line 0039 "For the Employment of Students as Trainees" was zeroed out accidentally in BACP's Budget. BACP has restored \$18,000 to that line through technical amendments. In order to reach the historically funded amount of \$21,800, BACP plans to re-appropriate \$3,800 out of line 0338, "License Sticker, Tag and Plates," as this fund is used less every year due to the general decline of the taxicab industry.

BACP has five Law Clerks:

- 3 Black Males
- 1 White Male

- 1 White Female

BACP has two interns:

- 1 White Male
- 1 Black Female

---

The attached information is in response to questions posed at our department's hearing on November 5, 2019 to discuss the proposed 2020 budget.

Alderman Reilly asked how many on-duty disabilities BACP had this year, how many employees are on PIPs and, in regard to overt absenteeism, who is it and why.

There are zero on-duty disability.

There are currently no PIPs (there were three during 2019).

Current, overt absenteeism is zero. We have been addressing absenteeism issues directly with employees and building an Attendance & Punctuality section into the Annual Performance Review for each employee to address our minimal issues. The Overt Absenteeism rate in 2018 as a whole was less than 0.1%

The attached information is in response to questions posed at our department's hearing on November 5, 2019 to discuss the proposed 2020 budget.

Alderman Waguespack asked what the Office of Labor Standards has done to date, and what is the plan moving forward.

The Department of Business Affairs and Consumer Protection on-boarded its Director of Labor Standards, Andrew Fox, on October 21, 2019. Mr. Fox is undertaking three initiatives to operationalize the Office, which will be responsible for enforcing Chicago's landmark labor laws:

1. Begin the hiring process to staff the office
2. Mapping an operational plan that outlines workflow and data tracking
3. Devising a strategy to engage communities in order to most effectively reach out to those most likely to need the Office's services, gather and process their complaints, and conduct thorough investigations

4. Begin the rulemaking process for the Chicago Fair Workweek Ordinance

The attached information is in response to questions posed at our department's hearing on November 5, 2019 to discuss the proposed 2020 budget.

Alderman Waguespack asked why does it take so long to handle scooter in river complaints.

When scooters become damaged, often the GPS stops working, making it challenging for companies to locate and collect scooters. Therefore, it was essential for residents to notify the company and/or the City to collect scooters in the river or in any other improper location. In both instances that were brought to the City, the companies immediately responded to requests from the City and collected the scooters within the required 24 hours.

**ID#:** 70-40 Rideshare

---

The attached information is in response to questions posed at our department's hearing on November 5, 2019 to discuss the proposed 2020 budget.

Alderman Lopez asked will neighborhood-to-neighborhood ride share costs increase as part of Mayor Lightfoot's congestion tax.

No, the cost will not increase for neighborhood-to-neighborhood shared rides.

Rideshare trips that do not start or end in the downtown zone during weekdays between 6am and 10pm will not be subject to the downtown zone surcharge. Neighborhood-to-neighborhood rides that are requested as "shared," meaning that the passenger selects the option to share with another passenger that separately requests the ride, will see a decrease in Ground Transportation Tax from \$0.60 to \$0.53. In order to incentivize more customers to choose shared rides that are better for congestion and the environment, single rides will see an increase in fee from \$0.60 to \$1.13.

Our data indicates that in the majority of cases, 9 out of 10 trips from South and West Side communities do not enter the downtown zone during surcharge hours, and that more than 50 percent of those trips that do enter the zone are shared. As such, many South and West Side riders will see a decrease in fee. Furthermore, riders can avoid a higher fee in the neighborhoods by choosing a shared ride.

Alderman Lopez asked what measures is BACP taking to address the concern revealed by studies that show that rideshare drivers often earn less than the state's minimum wage, let alone the city's.

Currently, the City receives data from the rideshare companies on total fare, fees and tip per trip. However, we do not receive any information on driver compensation. Therefore, as part of this initiative, we will be receiving additional data points from the companies on driver compensation, which will help us better understand driver welfare in Chicago and can be used to develop policies that better support drivers.

The attached information is in response to questions posed at our department's hearing on November 5, 2019 to discuss the proposed 2020 budget.

Alderman Lopez asked for the per-machine fine for having a sweepstakes machine.

When BACP finds sweepstakes machines, the Department conducts a fact-based investigation and then refers it to vice for enforcement. BACP therefore does not levy any per-machine fine on these machines.

However, BACP does enforce against any electronic gaming device that does not bear a tax stamp, and against establishments that have more than four electronic gaming devices without holding a PPA license.

**ID#:** 70-48 24-hour Licenses

---

The attached information is in response to questions posed at our department's hearing on November 5, 2019 to discuss the proposed 2020 budget.

Alderman Waguespack asked how many complaints BACP received for 24-hour licenses for non-liquor licensees (e.g. a 24-hour McDonald's) last year.

Pursuant to law, there are limited license types the City has put forth justification in order to limit hours of operation. As such, for any license that does not have Code-based limits on the hours of operation, BACP is not capturing what hours a business plans to operate.

As always, please let me know if you have any further questions.

---

The attached information is in response to questions posed at our department's hearing on November 5, 2019 to discuss the proposed 2020 budget.

Alderman Waguespack asked for complaints against rideshares for 2019.

Through the City of Chicago 311 complaint system, BACP received 264 rideshare complaints from January to October 2019.

**ID#:** 70-51 Minority Owned Business

---

The attached information is in response to questions posed at our department's hearing on November 5, 2019 to discuss the proposed 2020 budget.

Alderman Hairston asked for the name of the Black-owned businesses that the Department spent less money with as compared to 2018.

The Department's spending with Black-owned businesses decreased by approximately \$4,816 from \$6,037 in 2018 to \$1,220 in 2019. This decrease in spending was accounted for by a decrease in spending with two Black-owned businesses, as follows:

Name of Business	Spending in 2018	Spending in 2019*	Difference	Services
Directions Training	\$4,250.00	\$375.00	-\$3,875.00	Staff training services
Production Distribution	\$941.40	\$0.00	-\$941.40	Electronic equipment
<b>TOTAL</b>	<b>\$5191.40</b>	<b>\$375.00</b>	<b>\$4,816.40</b>	

\*Through October 9

The Department spent less money with Directions Training because fewer people signed up for Business Objects training. The Department bought two hand trucks from Production Distribution in 2018, but bought nothing in 2019.

The Department spent the same amount of money with a third Black-owned business, T & N Chicago, in both 2018 and 2019 (\$845.25).

The attached information is in response to questions posed at our department's hearing on November 5, 2019 to discuss the proposed 2020 budget.

Alderman Hairston asked for an explanation of why Asian-owned business spending went up.

The Department's spending with one Asian-owned business, Kamaltech, went up from 2018 to 2019, from \$2,428.19 to \$3,414.62.

The spending went up compared to 2018 due to the Department's purchasing more lights, cables, wire adapters, transformers, microphones, and headphones from Kamaltech.

The attached information is in response to questions posed at our department's hearing on November 5, 2019 to discuss the proposed 2020 budget.

Alderman Hairston asked for an explanation of why Hispanic-owned business spending went up.

The spending went up compared to 2018 due to the Department's purchasing more sensors, gauge sticks, gaskets, Teflon rings, carts, and sensors from Tri-Angle Fabrication (from \$0.00 in 2018 to \$6,349.00 in 2019).

The attached information is in response to questions posed at our department's hearing on November 5, 2019 to discuss the proposed 2020 budget.

Alderman Lopez asked whether the City informs the Cook County Assessor of residential properties generating income as part of shared home platforms.

BACP is not currently relaying this information to the County Assessor due to the Quality of Life Plans entered into by the City and the Shared Housing Intermediaries, which limits the Department in how it can share data. This matter would need to be reviewed by the Law Department to determine if such reporting would be allowed under the data sharing agreements in place with Intermediaries.

The attached information is in response to questions posed at our department's hearing on November 5, 2019 to discuss the proposed 2020 budget.

Alderman Lopez asked whether BACP is licensing third party food delivery services.

BACP licenses the restaurant where the food is being made and picked up from. Further, the delivery companies would need a Limited Business License for the office space they hold for such business. But there is not currently a license for purely food delivery services.

The attached information is in response to questions posed at our department's hearing on November 5, 2019 to discuss the proposed 2020 budget.

Alderman Dowell asked for a list of Airbnb buildings and locations, the number of Airbnb units per building, and citations issued to Airbnb for every Ward.

Pursuant to the Quality of Life Plans entered into by the City and licensed Intermediaries, BACP must treat host data as confidential. While removing the Unit number may sufficiently anonymize some data, for other buildings, such as single family homes, the address alone would disclose such confidential information. BACP will work through the Law Department to determine if such a building list could be provided.

There were 0 citations issued to Airbnb and 189 citations issued to Airbnb hosts from January 1, 2017 through September 30, 2019, listed by ward in the following table.

**ID#:** 70-64 Collection Bins

---

The attached information is in response to questions posed at our department's hearing on November 5, 2019 to discuss the proposed 2020 budget.

Alderman Dowell asked for a follow up on the conclusion of the 2018 collection bin mission.

This project originated as a referral from the Mayor's Office at the time. BACP and DSS targeted over 121 locations where collection bins were installed. The investigation revealed several bins were dilapidated and unpermitted. The project resulted in over 60 citations issued and 50 bins referred to DSS for removal. BACP received confirmation from DSS that all 50 bins were removed.

Further detail in regard to the 2018 collection bin mission will be provided in a future report.

**ID#:** 70-66 Data Sharing Agreement

---

The attached information is in response to questions posed at our department's hearing on November 5, 2019 to discuss the proposed 2020 budget.

Alderman Waguespack asked for the data sharing agreements BACP has with rideshare companies.

The common definition of a "data sharing agreement" is a formal contract which identifies what data will be shared between the contractual entities and how the data can be used.

BACP/City of Chicago has not entered into "data sharing agreements" pursuant to this definition.

Chapter 9-115 of the Municipal Code of Chicago and the Transportation Network Provider Rules identify the data sets Transportation Network Provider companies must report to BACP/City of Chicago. Those data sets are as follows:

1. The number and percentage of the licensee's customers within the city who requested wheelchair accessible vehicles and the number of filled requests;
2. The number and percentage of rides requested and accepted, and the number of rides requested and not accepted, by the licensee's drivers, organized according to the geographic parameters and time frames specified by the Commissioner;
3. Information on any of the licensee's drivers who were alleged to have committed a violation of this chapter or their terms of service or who have been suspended or banned from driving for the licensee, including any zero-tolerance complaints and the outcome of the investigation into those complaints.
4. Information on any accident or other incident that involved the licensee's driver and that was reported to the licensee, the cause of the incident, and the amount paid, if any, for compensation to any party in each incident. The report will contain information as to the date of the incident, the time of the incident, and the amount that was paid pursuant to the licensee's insurance policy. Also, the report will provide the total number of incidents involving the licensee's driver during the year;
5. The average and mean number of hours and miles each of the licensee's drivers spent driving for the licensee; and
6. Only for purposes of law enforcement or emergency response, real-time tracking of the licensee's drivers and vehicles, including access to the driver's identifying information, GPS location data, and whether or not the driver is engaged with a passenger. If specialized hardware or software is required for real-time tracking, the licensee shall provide the specialized hardware or software to the City.

As always, please let me know if you have any further questions.

**ID#:** 70-67 TNP

---

The attached information is in response to questions posed at our department's hearing on November 5, 2019 to discuss the proposed 2020 budget.

Alderman Hairston asked for a breakdown of the 100 accessible TNP vehicles by how many are dedicated to picking up only wheelchair passengers.

The Transportation Network Provides (TNPs) implemented their accessible service programs mid-year 2017. Today, a Lyft, Uber, or Via customer/ user may request a wheelchair accessible vehicle (with ramp) directly through the respective ride-hail app.

In August 2019, the TNPs had a combined total of 104 wheelchair accessible vehicles on their platforms. From January to August 2019, TNPs have completed 23,920 wheelchair accessible vehicle trips.

Uber and Via pay for contracted private wheelchair accessible vehicle service to respond to

wheelchair accessible vehicle passenger requests. Uber and Via's private contracted service is dedicated to service wheelchair accessible vehicle requests.

Lyft has on-boarded wheelchair accessible taxicabs in response to Lyft passenger requests for wheelchair accessible service. Lyft pays the wheelchair accessible taxicab drivers to respond these specific trips. Wheelchair accessible taxicab drivers are free to pick up passengers who do not use wheelchairs.

The attached information is in response to questions posed at our department's hearing on November 5, 2019 to discuss the proposed 2020 budget.

Alderman Hairston asked what is the breakdown between Uber, Lyft, and Via in regard to the 100 accessible vehicles.

In August 2019, the TNPs had a combined total of 104 wheelchair accessible vehicles on their platforms.

- Uber reported 74 dedicated commercial wheelchair accessible vehicles.
- Via reported 4 dedicated commercial wheelchair accessible vehicles.
- Lyft reported 26 wheelchair accessible taxicabs.

**ID#:** 70-69 Vehicle Safety Checks

---

The attached information is in response to questions posed at our department's hearing on November 5, 2019 to discuss the proposed 2020 budget.

Alderman Lopez asked what efforts are being made to ensure vehicle safety checks are done by city inspection of the ridesharing industry as they do the taxi industry.

Transportation Network Provider vehicles must be inspected annually to ensure the following 21 components meet safety standards: 1. Foot brakes; 2. Emergency brakes; 3. Steering mechanism; 4. Windshield; 5. Rear window and other glass; 6. Windshield wipers; 7. Headlights; 8. Tail lights; 9. Turn indicator lights; 10. Stop lights; 11. Front seat adjustment mechanism; 12. Doors (open, close, lock); 13. Horn; 14. Speedometer; 15. Bumpers; 16. Muffler and exhaust system; 17. Condition of tires, including tread depth; 18. Interior and exterior rear view mirrors; 19. Safety belts for driver and passenger(s); 20. Drivetrain, including the transmission and universal joints; and 21. Axles and wheels, including ball joints.

Transportation Network Provider (TNP) companies report inspection month and year with the reported quarterly vehicle information data.

The TNP driver must have proof of annual vehicle inspection compliance in the vehicle while operating on a TNP platform.

BACP investigators do issue enforcement citations to TNP drivers for failure to produce proof of annual vehicle inspection.

In addition, wheelchair accessible TNP vehicles must be inspected at the City of Chicago Public Passenger Vehicle Inspection Facility to confirm the vehicle is side-entry, has proper ramps and securement devices.
