

**MINUTES OF THE MEETING
COMMISSION ON CHICAGO LANDMARKS
July 6, 2017**

The Commission on Chicago Landmarks held its regularly scheduled meeting on July 6, 2017. The meeting was held at City Hall, 121 North LaSalle Street, Room 201-A, Chicago, Illinois. The meeting began at 12:50 p.m.

PHYSICALLY PRESENT:

Rafael Leon, Chairman
Jim Houlihan, Vice Chairman
Eleanor Gorski (Designee of Commissioner David Reifman)
Deputy Commissioner of Planning, Design and Historic Preservation,
Department of Planning and Development
Gabriel Dziekiewicz
Carmen Rossi
Ernest Wong

ABSENT:

David Reifman, Secretary,
Commissioner of the Department of Planning and Development
Juan Moreno
Mary Ann Smith
Richard Tolliver

ALSO PHYSICALLY PRESENT:

Dijana Cuvalo, Architect IV, Department of Planning and Development
Lisa Misher, Department of Law, Real Estate Division
Members of the Public
(The list of those in attendance is on file at the Commission office.)

A recording of this meeting is on file at the Department of Planning and Development/Planning, Design and Historic Preservation Division offices and is part of the public record of the regular meeting of the Commission on Chicago Landmarks.

Chairman Leon called the meeting to order.

1. Approval of the Minutes of Previous Meeting

Regular Meeting of June 1, 2017

Motioned by Wong, seconded by Rossi. Approved unanimously (5-0).

2. Class L Property Tax Incentive – Final Certification

**MILWAUKEE AVENUE DISTRICT
1606 North Milwaukee Avenue**

WARD 2

David Trayte presented the report. Vote to approve the resolution that the project has been substantially completed in accordance with the approved ordinance and meets the eligibility requirements for the Class L incentive for 1606 North Milwaukee Avenue.

Motioned by Rossi, seconded by Dziekiewicz. Approved unanimously (5-0).

3. Partial Demolition and Reconstruction of a Building to Address Violations

**OLD TOWN TRIANGLE DISTRICT
1720 North Sedgwick Street**

WARD 43

David Trayte presented the report. Vote to adopt resolution to approve partial demolition and reconstruction of a two-story, frame house at 1720 North Sedgwick including recommendation that Court impose maximum fines pursuant to the City's complaint regarding partial demolition contrary to permit.

Motioned by Wong, seconded by Houlihan. Approved unanimously (5-0).

4. Report from the Department of Planning and Development

**QUINCY ELEVATED STATION
220 South Wells Street**

WARD 42

Deputy Commissioner Eleanor Gorski stated that the Department of Planning and Development did not have a formal report for the Quincy Elevated Station but recommended approval of the proposed designation. Vote to take the next step in the designation process for the Quincy Elevated Station to request consent from the property owners.

Motioned by Rossi, seconded by Houlihan. Approved unanimously (5-0).

5. Permit Review Committee Reports

Report on Projects Reviewed at the June 1, 2017, Permit Review Committee Meeting

Commissioner Wong presented the report from the Permit Review Committee meeting of June 1, 2017 (see attached).

Report on Permit Decisions by the Commission Staff for the month of June 2017

David Trayte presented the staff report for the month of June 2017 (see attached). This included a report on the emergency demolition of the fire-damaged 115th Street/Morgan Park

Station of the Beverly/Morgan Park Railroad Stations District for information only.

6. Adjournment

There being no further business, the meeting was adjourned at 1:37 p.m.

Motioned by Houlihan, seconded by Rossi. Approved unanimously (5-0).

David Reifman, Secretary

REVISED

PERMIT REVIEW COMMITTEE COMMISSION ON CHICAGO LANDMARKS August 3, 2017

The Permit Review Committee (PRC) met on July 6, 2017, at 1:45 p.m. The meeting was held at 121 N. LaSalle St., in Room 201-A.

Present: Gabriel Ignacio Dziekiewicz
James Houlihan
Ernest Wong, Chair

Staff: Dijana Cuvalo
Kandalyn Hahn
David Trayte

The following projects were reviewed by the PRC:

**1. 1020 W. Sheridan 49th Ward
Mundelein College Skyscraper Building**

Proposed replacement of select exterior doors including door leafs, decorative grilles, and hardware components with existing original components to be salvaged where possible.

Action: Approved unanimously with the following conditions:

1. As proposed, replacement doors are to match the historic configuration, dimensions, and profiles based on photographic and physical evidence;
2. Replacement door grilles are to match all components of the historic grilles in size, profile, and design;
3. Original steel transom grilles are to be retained and repaired;
4. New doors and grilles are to receive a painted finish to match existing color scheme of the building as proposed; and,
5. Replacement door details, existing and proposed elevation drawings, and cut sheets are to be included with permit application for Historic Preservation staff review and approval.

**2. 10353 S. Seeley 19th Ward
Longwood Drive District**

Proposed rehabilitation of an existing 2-story frame residence, including a new 2-story rear addition with a raised deck and trellis in the side yard.

Action: Approved unanimously with the following conditions:

1. The proposed open front porch, matching the historic configuration based on original drawings of the home, and the new 2-story rear addition are approved as shown on drawings dated 6/8/17;
2. As proposed, the new windows shall match the historic windows in size, glass size, operation, muntin arrangement and muntin size based on historic documentation. The windows can be simulated divide lite windows. Existing and proposed details of exterior profiles shall be submitted with the permit application; and,
3. Areas of wood shingle cladding beyond repair may be replaced with new shingles to match the historic siding in size, type and profile. Historic Preservation staff shall review the condition of the siding prior to any work beginning and shall approve any areas of replacement and the replacement siding.

3. 3407 S. Prairie

4th Ward

Calumet-Giles-Prairie District

Proposed new construction of a 2-story single family residence and a detached garage

Action: Approved unanimously with the following conditions:

1. The applicant's preferred option of cladding the front gable in metal may be approved provided that the cornice line is modified or extended down to create a uniform termination of materials along the facade;
2. The distance of the brick "wrap" on the North elevation shall extent to the projecting bay, approximately 30' due to the wide side yard and angle of visibility on this side of the property;
3. The project shall be modified to eliminate or minimize the sloped roof overhang on the north elevation.
4. Historic Preservation staff shall review and approve material samples prior to order and installation. Materials shall be within the historic range of colors and textures found within the district. Fiber Cement Siding shall have a smooth finish, and the lap exposure shall match the typical lap exposure of historic wood clapboard and the color shall be consistent with the color of the proposed brick; and,
5. Building permit plans shall include all window and door details for review and approval.

4. Fiber Cement Siding Policy

Preliminary review of proposed policy to use fiber cement siding as a substitute replacement material for wood siding in limited circumstances

Action: Introduction of the draft fiber cement siding policy was deferred to a future meeting. Public input will be solicited as part of this process.

5. 328 W. Willow

43rd Ward

Old Town Triangle District

Continued Review: Proposed replacement of existing non-historic cladding with new fiber cement cladding.

Action: Approved unanimously with the following conditions:

- 1 As proposed, non-historic siding shall be removed from all elevations of the existing building. Per applicant, non-historic siding will require complete removal at one time in order to comply with abatement procedures and minimize access restrictions to the property. Upon removal of the non-historic siding, Historic Preservation staff shall be notified and make a site visit to verify if any historic wood siding remains, to review its condition, and determine if it can be retained and repaired;
- 2 Should no historic wood siding exist on the front elevation and the two side elevations, new beveled wood clapboard siding or HardieArtisan® fiber cement siding, as submitted, may be installed provided it is smooth finish and maintains a 4” lap exposure to be consistent with the characteristics of historic wood clapboard.
- 3 If historic wood siding remains on any of the three visible elevations (front and two side elevations) and the historic siding is beyond repair, fiber cement siding may be installed provided it is smooth finish and matches the historic siding in design, lap exposure, profile, and dimensions;
- 4 If historic wood siding remains and can be repaired, select areas of deterioration are to be replaced in kind with wood clapboard to match design, lap exposure, profile, dimensions, and finish of the existing historic siding;
- 5 Replacement siding shall be installed in a timely manner to minimize exposure to the elements and exterior sheathing is to remain intact at all time. All existing window and door trim, and decorative cornice elements are to be retained and repaired; and,
- 6 Product specification details, drawings, and material samples are to be submitted to Historic Preservation staff for review and approval at time of permit application.

6. 227 W. Menomonee

43rd Ward

Old Town Triangle District

Proposed raising of historic cottage to 3’ above grade with new foundations and exterior alterations including new roofing, siding, windows, door, and front stair.

Action: Approved unanimously with the following conditions:

- 1) The project shall be modified to permit the 227 Building to be raised by a maximum of 2'-6" above existing grade to accommodate the construction of a new foundation;
- 2) A licensed structural engineer shall submit a separate report as part of the permit plans addressing the proposed foundation replacement and structural modifications, relative to how the 227 Building and the attached frame cottage to the west should be braced and protected during construction and to ensure the adjacent property to the east will

not be damaged or require underpinning. The recommended measures, sequencing, and protections shall be incorporated in the structural and architectural drawings. A licensed structural engineer shall perform on-site monitoring of the structural work during the demolition and construction work;

- 3) As part of the permit application, a survey of the existing floor and roof heights of the 227 Building shall be submitted. Upon completion of the foundation construction, another survey shall be submitted indicating the height of the top of the foundation from grade before proceeding with lowering the 227 Building on the new foundation. Upon completion of the project, another survey shall be submitted indicating the final floor and roof heights of the 227 Building. The surveys shall be stamped by licensed surveyors and submitted to the Historic Preservation Division;
- 4) The existing non-historic siding shall be removed and Historic Preservation Division staff shall be contacted to inspect the condition of the historic wood clapboard siding and to confirm if any scarring exists indicating any original features. The historic wood siding for the front façade shall remain and be repaired, wherever possible. Areas beyond repair, as confirmed by staff, may be replaced with new wood siding to match the historic siding in size, type and profile. The west facade, considering the majority of this side is obscured with the adjacent structure, may be re-sided with new wood siding with a lap dimension to match the historic siding. The east facade may be re-sided with smooth-faced fiber cement siding to meet code requirements with a thickness and lap dimension to closely match the historic siding. Samples shall be submitted to Historic Preservation staff for review and approval as part of permit application and any replacement of siding per the stated conditions shall be done elevation-by-elevation;
- 5) The existing roof and wall sheathing shall be retained with select replacement only as needed. Any areas of replacement shall be reviewed for approval by Historic Preservation staff prior to work occurring;
- 6) The new front façade windows, trim, and cornice shall be installed to match the original features in location, shape, and size based on any physical evidence uncovered. Enlarged dimensioned details of the clad-wood windows, wood trim and cornice, and paneled wood door shall be submitted with the permit application;
- 7) The front stair risers shall be closed, the wood shall be painted or stained, and the railings shall incorporate decorative newel posts at the top and base of the steps with a pipe rail consistent with historic stair and railing designs of similar building types. Enlarged details shall be included in the permit plans; and,
- 8) The project as proposed may require a zoning variation and/or adjustment, and the Commission takes no position regarding any requested variance/adjustment relative to the zoning code requirements.
