RE: Proposed Rules for Large Recycling Facilities

Dear Dr. Morita,

I represent VJ Auto Parts Limited, DBA Aero Auto Parts (Aero) located at 6339 S. Wentworth Avenue, Chicago. Aero is a licensed auto parts recycler, and has a current permit from the City of Chicago Department of Public Health as a Class IV(A) recycler. Aero is not an industrial scrap metal processor. Aero does not conduct auto shredding, crushing, sheering, bailing, torch cutting or other industrial scrap processing. A copy of Aero's current Class IV(A) recycling permit is attached. A copy of Aero's latest permit application is also attached. On behalf of Aero, we provide the following comments to the Department's Proposed Rules for Large Recycling facilities:

The current rules, application process and permits for auto parts recyclers like Aero are all designed to protect the public health, safety, and environment. In fact, Aero's current permit has standard and special conditions designed to do just that, including conditions for operating hours; material handling of used vehicles, tires, batteries, mercury switches; material storage; site requirements; housekeeping, dust control and maintenance; and closure. The permit also has conditions for waste handling and removal; inspection and rejection of unauthorized materials; dust control and site maintenance; and proper collection and storage of liquid waste.

Your proposed rules are not necessary regarding Class IV(A) auto parts recyclers, and should not apply to Aero. The provisions for air monitoring, noise monitoring, reporting of explosions, building and structural plans, plot plans, surveys, water pollution, street sweeping,

Dr. Julie Morita
June 20, 2019
Page 2

etc. are all sufficiently covered by the existing regulations. If the proposed regulations were to apply to auto parts recyclers like Aero, these small companies that provide vital recycling services would no longer be able to operate.

We strongly suggest that any revised rules that the Department will ultimately pass apply only to industrial scrap processors that shred, bail, compact, sheer, separate or torch cut. The existing rules are more than sufficient to protect the public health and safety regarding auto parts recyclers like Aero.

If you have any questions or are in need of additional information, please do not hesitate to contact me.

Very truly yours,

Mark A. LaRose

ATTN: Recycling Permits (Mr. Renante Marante)

Re: Aero Auto Parts – Recycling Renewal Permit Application

Dear Mr. Marante,

Enclosed is the Recycling Facility Application for a renewal permit for Aero Auto Parts for a Recycler Class IVA permit. We understand the invoice for the permit fee will be issued upon approval of the application.

We appreciate your prompt processing of this application. If you have any questions or require any additional information, please do not hesitate to contact me. Thank you.

Very truly yours,

Mark A. LaRose

7. Site Plan: Drawings of the site must accompany the application form. All objects on the site plans must be named. The maximum site plan allowed is 11" x 17". Blueprints are not acceptable. For new permits only, the site plan must be drawn to scale. For all permits, the site plan must identify the following items: (Check off items and fill in all blanks.)

- A. Location of all buildings and structures *MARKED ON SKETCH*
- B. Location of all surrounding fences and screens. Indicate approximate height: *8 ft. - see sketch*
- C. Location of all employee and customer parking areas. Clearly indicate the number of parking spaces. *24 spaces*
- D. Location of all customer queuing areas *#9 ON SKETCH*
- E. Location where customers will unload their recyclable materials for purchase *#10 ON SKETCH*
- F. Location where facility vehicles will load recyclable materials for transport off site *#10 ON SKETCH*
- G. Location of parking area for facility vehicles used to transport materials from the facility *#10 ON SKETCH*
- H. Location of all scales *NONE*
- J. Location of recyclable material storage areas *#2, #3, #4, #5, #17 & "CAR STORAGE ON CONCRETE" ON SKETCH*
- K. Location where facility equipment will be staged and used *See "CAR STORAGE ON CONCRETE" & #11 ON SKETCH*
- I. Location of recyclable material processing areas *#11 ON SKETCH*
- L. Traffic flow for customer vehicles *#13 ON SKETCH (IN & OUT OF GATE)*
- M. Traffic flow for walk-in customers *#12 ON SKETCH (CENTER/EXIT THROUGH OFFICE)*
- N. Traffic flow for facility vehicles used to transport recyclable materials from the facility *#13 ON SKETCH (IN & OUT OF GATE)*
- O. Location of any other facility operation not already identified in this question *NONE*
- P. Location of water sources for fire protection and dust control *#3 "SPIGOT" ON SKETCH*
- Q. Location of all fire extinguishers. Indicate type, i.e. water, chemical, etc *MARKED ON SKETCH*
- R. Location of covered material storage area *#2, #3, #4, #5 & #7 ON SKETCH*
- S. Location of liquid waste storage area *#6 ON SKETCH*
- T. Location of surrounding streets and avenues *MARKED ON SKETCH*
- U. Location of sewers *MANHOLES MARKED ON SKETCH*
- V. Location of all paved surfaces and type of paving *ENTIRE YARD PAVED WITH CONCRETE.*
- W. Location of required records *RECORDS KEPT IN OFFICE - #1 ON SKETCH*
- X. Does the facility have a proper signage per ordinance and regulations? Show location of signage. ** ON SKETCH*
- Y. Location of recyclable material storage areas *See J, above*
- Z. Is the facility adequately lighted after dark? Show location of all exterior light fixtures. *Yes. (YARD LIGHTING & STREET LIGHTS)*

8. Accepted Materials: Check and/or list all the materials proposed to be accepted at the facility:

Type A Recyclables	Type A Recyclables (Continued)	Type B Recyclables
<input type="checkbox"/> Aluminum Cans	<input type="checkbox"/> Polyethylene Terapthalate (PET)	<input type="checkbox"/> Landscape Waste
<input type="checkbox"/> Bimetal or Tin Cans	<input type="checkbox"/> High Density Polyethylene (HDPE)	<input type="checkbox"/> Food Scraps (with meat, dairy, or cooked fruits/vegetables)
<input checked="" type="checkbox"/> Aluminum Scraps	<input type="checkbox"/> Low Density Polyethylene (LDPE)	<input type="checkbox"/> Food Scraps (without meat, dairy, or cooked fruits/vegetables)
<input type="checkbox"/> Ferrous Metal Scrap (non-vehicle Sources)	<input type="checkbox"/> Polystyrene	<input type="checkbox"/> Livestock Waste
<input type="checkbox"/> Non-Ferrous Metal Scrap (non-vehicle sources)	<input type="checkbox"/> Polypropylene	Type C Recyclables
<input type="checkbox"/> Other Metal Scrap (List all below*)	<input type="checkbox"/> Wheels	<input checked="" type="checkbox"/> Motor Vehicles
<input type="checkbox"/> Glass containers	<input checked="" type="checkbox"/> Batteries	<input type="checkbox"/> Vehicle Parts (other than batteries and wheels)
<input type="checkbox"/> Textiles	<input type="checkbox"/> Propane Tanks/Cylinder Tanks	Type D Recyclables
<input type="checkbox"/> Corrugated Cardboard	<input type="checkbox"/> Refrigerators and Air Conditioners	<input type="checkbox"/> Commingled Construction and Demolition Debris
<input type="checkbox"/> Newsprint	<input type="checkbox"/> Computers, Tablets, Mobile Phones	<input type="checkbox"/> Untreated Wood and Lumber
<input type="checkbox"/> Office Paper	<input type="checkbox"/> Other Electronics	<input type="checkbox"/> Stone, Brick, Asphalt, Concrete
<input type="checkbox"/> Other Paper		<input type="checkbox"/> Uncontaminated Dirt

Other Materials: (Please list all)

Tires with rims that are delivered with the autos that we purchase; batteries that are delivered with the autos that we purchase.

For Class IV applications, please describe how vehicles and vehicle parts will be handled, processes, and disposed:

See Attached. (#12 Facility Description)

9. Operations: Please answer the following questions. An answer must be provided for each question or the application will be deemed incomplete. The phrase "not applicable" or "N/A" is not a complete answer.

A. Days and Hours of Operation*: (**Normal facility hours are 7:00 a.m. until 9:00 p.m. Monday through Saturday or Sunday through Friday. If you plan to operate outside of these hours, you must submit a noise abatement plan along with your permit application.*)

Monday - Friday: 8:30 a.m. to 5:00 p.m.; Saturday: 8:30 a.m. to 4:00 p.m.

B. Total material handling capacity (tons/day): 1,000 - 2,000

C. Number of full-time employee positions: 16

D. Number of part-time employee positions: 2

E. How will incoming materials be monitored?

See attached.

F. From which sources will materials be accepted (*public, businesses, scavenged materials, alleyways, etc.*)?

Majority from automobile auctions and UDL license holders -- very few from the public.

G. How will materials be separated and stored?

See Attached.

H. How often will material be transported from the facility? (Indicate the average size of each out-going load, including weight and vehicle type.):

Approximately 4-5 loads/day are transported from the facility by J L Martinez Trucking, Inc. Each load contains approximately 9-12 cars, for a total tonnage per day of approximately 100 tons.

I. Are any additional methods used to process the materials (*including heat processes, bailing, shredding, crushing, etc.*)?

Automobiles are dismantled by using hand tools and acetylene torches.

J. List all other equipment and/or machinery that will be used:

1 Clark End Loader; 1 Gayle Bobcat; 1 Clark LP Gas Forklift; 2016 Ford F550 Flatbed, tow truck, License Plate #116026; 2014 Ford F550 Flatbed tow truck, License Plate #115760; 2004 GMC Savana, License Plate #1427330

K. How will odor, noise and dust emissions be handled?

All of the heavy equipment is equipped with mufflers. If any dust problem arises, we will apply water as a dust suppressant as needed. This facility does not emit odors. If an odor problem arises, we will address that on a case-by-case basis and in a manner necessary to eliminate or control the source of the odor.

HEALTHY CHICAGO

CHICAGO DEPARTMENT OF PUBLIC HEALTH

RECYCLING FACILITY APPLICATION

DEPARTMENT OF PUBLIC HEALTH**

Page 7 of 8

L. Describe daily cleaning/housekeeping activities, including parking lots, staging areas and adjacent public ways:

See Attached.

M. Where and how will incidental solid waste be handled (unloaded, processed, loaded out)?

The facility does not accept solid waste. Any solid waste detected at inspection is rejected. All miscellaneous solid waste not detected during inspection will be placed in dumpsters for pick-up 2 times/week by Auburn Disposal or other qualified solid waste hauler.

N. Please describe how you will screen for unauthorized materials including, but not limited to, municipal solid waste, hazardous materials and stolen goods. (Include information pertaining to the schedule for removal of materials.)

See Attached.

O. Where and how will liquid waste be handled?

See Attached.

10. Liquid Waste Handling Information: Please list the name of the company with whom you contract to remove/handle liquid waste. *Required for all facilities accepting motor vehicles and other materials likely to contain liquid waste.*

Company	Address	Phone
* Future Environmental, Inc.* (oil & antifreeze)	19701 S. 97th Avenue, Mokena, IL 60448	708-479-6900

11. Recordkeeping: Please describe the facility's system for maintaining required records, including records of regulated and prohibited materials and records of regular customer accounts.

A written log is kept for every vehicle. The log contains the date acquired, make, year, model, stock #, VIN, name of purchaser, title #, UDL # if applicable, and driver/owner information. Copies of all vehicle information are retained and filed accordingly. The information in the written log is then entered into the computer. Aero complies with 625 ILCS/5 Art. IV under the Illinois Vehicle Code (Records Required to be Kept).

12. Facility Description: Provide a detailed description of the operations that take place at the facility.

See Attached.

1. Property Owner: If Title of Property is held in trust, attach to this form the names and address of all beneficiaries and other persons authorized to deal with this property.

The name and address of the sole beneficiary of Chicago Title Land Trust Co. #134762 and the person authorized to deal with this property is as follows:

Frank Mistretta
155 Sommerset Court
Willowbrook, IL 60527

2. Facility Owner: If the facility owners are a partnership or corporation, include as an attachment to this form the names, addresses, phone numbers and social security numbers of all persons holding a share in the partnership or corporation.

The following person holds a share in the corporation:

Frank Mistretta
155 Sommerset Court
Willowbrook, IL 60527
Office (773) 483-2628
Cell Phone: (773) 842-4287

The FEIN of the corporation is: 36-3450190. If Mr. Mistretta's social security is required in addition to the corporation's FEIN, it will be provided upon confirmation that it will be held in the strictest confidence and used solely for the purpose of this application.

9. Operations

E. How will incoming materials be monitored?

This facility purchases and receives cars from the auto auction, from companies with State of Illinois uniform dealer licenses, and from the public. The majority of the cars received are from the auto auction and UDL license holders – very few from the public. There is little or no unauthorized material delivered. Any miscellaneous solid waste that is delivered in a car from the auto auction is placed in a dumpster on-site and removed twice per week by Auburn Disposal or another qualified disposal company.

G. How will materials be separated and stored?

The automobiles are stored in the yard. Automobile parts that have been dismantled are stored inside the warehouses/dismantling garage and on racks. Tires are removed from the rims. To ensure that there are never more than 99 tires at the site at any one time, an employee picks up the tires at the facility several times throughout the day, and stores them in a semi-trailer off-site. Cobalt Holdings picks up the tires approximately once per month. Rims from the tires are stored in the warehouse and are delivered to Universal Scrap Metal for recycling and disposal. Batteries are removed from the automobiles, placed on a pallet, shrink-wrapped, and periodically sold to a battery recycler. Mercury switches are also removed manually from all automobiles and are manifested and shipped to EQ Industrial Services in Ypsilanti, Michigan. They are stored in specific recycling containers supplied by ELVS for recycling by the State of Illinois.

L. Describe daily cleaning/housekeeping activities, including parking lots, staging areas and adjacent public ways: Wentworth Avenue is swept from corner to corner at 5:00 p.m. every day. The driveway and paved areas are swept two times per day. The concrete processing area is cleaned once per day. All miscellaneous solid waste is placed in a dumpster at the end of each day. All miscellaneous scrap is placed in roll-off boxes each day. All fluids are maintained in a fluid management area.

N. Please describe how you will screen for unauthorized materials including, but not limited to, municipal solid waste, hazardous materials and stolen goods. (Include information pertaining to the schedule for removal of materials.) When the cars come into the facility, they are inspected by an inspector. Any solid waste detected by the inspector is rejected. Any other unauthorized materials are placed in a dumpster for disposal twice per week by Auburn Disposal or other qualified disposal company. If any liquid or suspected hazardous waste is discovered, it is rejected at the source. If any suspected stolen materials are received, they are placed in a designated holding area, and the police department is called.

O. Where and how will liquid waste be handled? We do not accept any liquid waste, except those fluids that come in the cars that we purchase. Before a scrap automobile is sold or dismantled for parts, workers drain oil, gasoline, transmission fluid and antifreeze in a dismantling area on the 100 x 50 concrete pad in our yard. The gasoline is stored in a 30 gallon drum on a secondary containment pallet and recycled. The oil and transmission fluid are placed in drums and marked "Used oil." Antifreeze is placed in separate drums and marked "Used Antifreeze." All drums of waste fluid are stored in a metal shed with a concrete floor. The shed shields the drums from the elements. The drums are stored with secondary containment consisting of Poly-Spill pallets made by Consolidated Plastics Co. Oil, transmission fluid and antifreeze are picked up by our oil recycler approximately twice per month.

12. Facility Description: Provide a detailed description of the operations that take place at the facility. Aero purchases only automobiles (including tires and batteries appurtenant to the automobiles) from the auto auction and from companies having State of Illinois uniform dealer licenses, and very few from the public. The automobiles are brought into the yard. Cars are checked for leaking fluids. Those cars that are leaking fluids are drained on the concrete dismantling pad prior to storage. All others are stored in the car storage areas to await dismantling. Prior to dismantling any automobile, workers drain oil, gasoline, transmission fluid and antifreeze on the concrete dismantling pad. Anti-freeze and oil machines are used to extract the anti-freeze/oil from the automobiles, and a freon machine is used to extract the freon. Approximately once per month, freon is shipped to Hudson Technologies. All dismantling occurs on the concrete dismantling pad, which protects the cars and dismantlers from the elements. The gasoline is stored in a 30 gallon drum on a secondary containment pallet and recycled. The oil and transmission fluid are placed in drums and marked "Used Oil." Antifreeze is placed in separate drums marked "Used Antifreeze." All drums of waste fluid are stored in a metal shed, with a concrete floor, next to the concrete dismantling pad. The shed shields the drums from the elements. The drums are stored with secondary containment consisting of Poly-Spill pallets made by Consolidated Plastics Co. Oil, transmission fluid and antifreeze are picked up by our oil recycler approximately twice per month. The parts that are dismantled from the automobile are sold to the public. Auto hulks are sold to scrap processors. Prior to sale, miscellaneous parts are stored up on racks in our warehouse. After all useable/saleable parts are dismantled from the automobiles, the car hulks are sold to industrial

scrap metal recyclers for further processing. Water is available from an outside water source to be used as a dust suppressant when necessary. The tires on the automobiles are removed from the rims. To ensure that there are never more than 99 tires at the site at any one time, an employee picks up the tires at the facility several times throughout the day, and stores them in a semi-trailer off-site. Cobalt Holdings picks up the tires approximately once per month. Rims from the tires are stored in the warehouse and are delivered to Universal Scrap Metal for recycling and disposal. Batteries are removed from the cars, shrink-wrapped, and stored on pallets until approximately 300 are collected. They are then sold to our battery recycler, battery sales, for further recycling.

11a. If box 11 and 11a are different, you **MUST** file a BCA 14.30.

12. The State of Illinois requires all For Profit Corporations to pay a franchise tax. You must choose the method in which you will calculate your franchise tax from the 3 options listed below. You **MUST** fill in your choice in box 12.

A. All Property of the corporation is in Illinois and ALL business of the corporation is transacted at or from places of business in Illinois. Skip boxes 12a through 12d and Enter 1.000000 in box 12e.

B. The corporation **ELECTS** to pay franchise tax on the basis of 100% of its total paid-in capital. Skip boxes 12a through 12d and Enter 1.000000 in box 12e.

C. The corporation has assets and/or transacts business outside of the State of Illinois, boxes 12a through 12d **MUST** be completed.

"Property" means gross assets, including all real, personal, tangible and intangible property, without qualification. "Business" means gross receipts, from whatever source derived.

Note: The figures used in 12a) through 12d) will be given as of the close of the corporation's fiscal year on or immediately preceding the date printed in Item 11. Enter date in Item 12 FYE.

12a) Enter the value of the property owned by the corporation, wherever located: **GROSS ASSETS**.

12b) Enter the value of the property owned by the corporation, located in Illinois: **ILLINOIS GROSS ASSETS**.

12c) Enter the gross amount of business transacted by the corporation everywhere.

12d) Enter the gross amount of business transacted by the corporation at or from places of business in the State of Illinois.

12e) Divide (12b + 12d) by (12a + 12c). This figure **MUST BE 6** decimal places and **ENTERED** into box 12e.

12f) Multiply box 11 by box 12e. If the annual report is late, multiply the greater of box 11 or 11a by box 12e.

12g) Multiply box 12f by 0.001. If this figure is less than \$25.00 enter \$25.00. If greater than \$2,000,000.00 enter \$2,000,000.00.

13. If submitting after due, complete worksheet below.

Late annual report
Multiply box 12g by 0.10 _____

Late Franchise Tax
Multiply box 12g by .02 by number of months late (minimum \$1.00). _____

Enter total in box 13.

TOTAL _____

14) \$75.00 filing fee.

15) Total due: add boxes 12g+13+14 (MINIMUM \$100.00).

16) Make check payable to Secretary of State. Please detach check stub.

CHECKLIST

Boxes 5 and 11 have been completed.

Box 12 has been completed and choice for Franchise tax was given.

Box 12e has been completed.

Box 12g is not less than \$25.00.

Box 15 is not less than \$100.00.

Box 7b is signed by an officer.

Place File number on check. Do not staple or paper clip check to annual report.

If submitting a form BCA 14.30, your previous allocation factor is 1.000000

Additional forms available at www.cyberdriveillinois.com or call (217) 782-6961 to make requests. For questions regarding this form please call 217-782-7809.

DEPARTMENT OF PUBLIC HEALTH
CITY OF CHICAGO

November 26, 2018

Mr. Frank Mistretta
Aero Auto Parts
6330 S Wentworth
Chicago, Illinois 60621

**Subject: City of Chicago Class IVA Recycling Facility Permit (ENVREC110564)
Aero Auto Parts – 6339 S Wentworth Ave
Effective date: November 16, 2018 to November 15, 2021**

Dear Mr. Mistretta,

A permit is hereby granted by the City of Chicago Department of Public Health ("CDPH") to VJ Auto Parts, LTD. dba Aero Auto Parts ("the Permittee") to operate a Class IVA Recycling Facility located within the corporate limits of the City of Chicago at 6339 S Wentworth Ave ("the Facility").

Please carefully review all conditions outlined in this permit. Incorporated into this permit by reference are the following: 1) the application dated October 31, 2018 ("the Application"); and 2) all other supplemental information submitted as part of this application including drawings, sheets, and specifications. In the event of a conflict with said references, the terms and conditions of this permit shall prevail.

The Permittee shall fully comply with Article XX, Chapter 11-4 of the Municipal Code of Chicago ("the Ordinance") and the Recycling Facility Rules and Regulations ("the Regulations"). The Permittee shall also fully comply with the Standard Conditions outlined in Attachment A and the Special Conditions outlined in Attachment B of this permit.

This permit allows for the operation of the Facility from November 16, 2018 through November 15, 2021 upon which time the permit shall terminate by its own terms. On or before November 15, 2021, the Permittee may apply to the CDPH for a new operating permit for the following year. If a subsequent operating permit is applied for on or before November 15, 2021, this permit shall remain in effect until the CDPH acts on the pending permit application. If you have any questions concerning this permit, please contact me at (312) 745-3136.

Sincerely,

Renante Marante
Environmental Engineer III

ATTACHMENT A STANDARD CONDITONS

1. The Permittee shall comply with all applicable local, State, and Federal laws, regulations and standards regarding the construction, operation, maintenance, and closure of the subject Facility, including but not limited to those regulations and standards concerning noise, vibrations, and particulate emissions.
2. Construction, operation, maintenance, and closure of the Facility shall be in accordance with the plans, drawings, and specifications referenced by this permit and included in these Standard Conditions and the Special Conditions.
3. Any changes, modifications, and additions to the Facility's permit or the approved plans and documentation shall be submitted to the CDPH for review and approval. Such a request shall be made in writing to the CDPH.
4. Issuance of this permit shall not transfer, assign or otherwise affect any liability to the City of Chicago, the CDPH, their employees, or agents as a result of the construction, operation, maintenance, and closure of this Facility.
5. Issuance of this permit does not relieve the Permittee of any liability with regards to the subject Facility.
6. The CDPH or its authorized representatives may inspect the Facility and the Facility records at any reasonable time to ensure compliance with this permit and all applicable rules, regulations, and standards, as well as all conditions necessary to protect the public health and safety.
7. The CDPH may revoke this permit on the basis of any of the grounds set forth in the City of Chicago, CDPH, Article XX Recycling Facility Permits Rules and Regulations.
8. The Permittee shall notify the CDPH of any notices of violations or administrative, civil or criminal citations received by the Facility or any of its operators relating to any alleged violation of any federal, state, or local laws, regulations, standards, or ordinances in the operation of any junk facility, recycling facility, or any other type of waste or recyclable materials handling facility or site. Such notifications shall be provided by email to EnvWastePermits@cityofchicago.org.
9. The Permittee shall provide the CDPH, if so requested, with copies of all correspondence to or from the IEPA and USEPA pertaining to the Facility, including, but not limited to notices of violation, letters, permit applications, reports, groundwater monitoring reports, and annual reports.
10. The Permittee shall comply with all requirements and conditions set forth in this permit. Should any portion of this permit be declared illegal or non-binding, the conditions of the remainder of the permit shall remain in effect.

ATTACHMENT B SPECIAL CONDITIONS

The following Special Conditions are attached to the operating permit for the Aero Auto Parts Class IVA Recycling Facility located at 6339 S Wentworth Ave:

OPERATING HOURS

1. The Permittee may operate 8:30 a.m. to 5:00 p.m. Monday through Friday, and between 8:30 a.m. and 4:00 p.m. on Saturday. CDPH reserves the right to amend the Permittee's operating hours and days of operation if the facility operation causes a nuisance to neighborhood uses.

MATERIAL HANDLING

2. The Facility is permitted to accept and handle Type C recyclable materials consisting of batteries; used vehicles; and vehicle parts. The Permittee may also receive packaging materials (e.g. cardboard, wood, plastic, etc.) that are shipped with the above-authorized recyclables.

The Facility is not allowed to receive other recyclable materials not explicitly authorized above. The Facility shall not accept hazardous special waste, reactive metals, sealed containers, municipal solid waste, or stolen goods.

The Permittee shall inspect all loads entering the Facility for unauthorized wastes. Loads containing waste other than recyclable materials as authorized above shall not be accepted at this Facility.

3. The Permittee shall handle all unauthorized wastes inadvertently admitted into the Facility as follows:
 - a. The Permittee shall separately containerize special waste, including hazardous waste, non-hazardous special waste, and PCB waste, and arrange for the immediate removal of such waste by a waste hauler authorized to accept such wastes for transport to a disposal facility that has obtained all necessary Federal, State, and local authorization.
 - b. The Permittee shall isolate reactive metals upon discovery and place such material in a sealed, waterproof container. The Permittee shall arrange for proper disposal of the reactive metals and shall immediately notify the CDPH.
 - c. The Permittee shall isolate all municipal solid waste and properly store such waste in an enclosed waste receptacle for disposal at a properly permitted facility.
 - d. The Permittee shall isolate all suspected stolen property upon discovery and immediately notify the City of Chicago Police Department ("CPD").
 - e. After unauthorized waste has been removed from the Facility, the Permittee shall thoroughly clean the affected area in a manner consistent with the type of unauthorized waste managed.
4. The Permittee shall not accept, receive, purchase or acquire any material that is delivered to the Facility in any city- owned or government-owned garbage container or cart; or city-owned or government-owned recycling container or cart; or retail store shopping cart of the type

ATTACHMENT B SPECIAL CONDITIONS

commonly provided by big-box stores and supermarkets for use by customers to transport merchandise to the checkout counter during shopping.

5. The Permittee shall not purchase, or otherwise acquire for consideration of any type, any catalytic converter that is not attached to a motor vehicle unless the detached catalytic converter is accompanied by the motor vehicle from which it was removed, or any portion of a dismantled catalytic converter that is reasonably identifiable as such, unless the person selling, disposing of or otherwise transferring such catalytic converter or portion thereof to the Permittee: (1) is a properly licensed motor vehicle repair shop under Chapter 4-228 of this Code and provides the permittee with a copy of the invoice required under Section 4-228-217(b), or (2) is another properly permitted Class IVA or Class IVB recycling facility under Chapter 11-4 of this Code, and in addition (3) is a regular customer of the permittee with an established customer account within the meaning of Section 11-4-2625 (a) containing proof of the required licensure and meeting the criteria for an established customer account as set forth in the Regulations.
6. The Permittee may accept regulated or prohibited recyclable materials as defined in the Ordinance and the Regulations under the following conditions:
 - a. The regulated or prohibited material is consistent with the types of recyclable materials authorized under Special Condition No. 2;
 - b. The Facility follows all surveillance requirements specified in 11-4-2640(g) of the Ordinance; and
 - c. The Permittee complies with the documentation requirements set forth in Section 9 of the Regulations.
7. The Facility may receive and process no more than 1,000 tons per day of recyclable materials as authorized in Special Condition No. 2. If the Permittee desires additional capacity, the Permittee must submit a revised application to the CDPH for approval. A revised application must demonstrate that the Facility is adequately handling the currently permitted volumes and is sufficiently sized and staffed to accept, store, and process the desired quantity of material.
8. When transporting material to and from the site, the material shall fit entirely within the truck or trailer. Additionally, the truck or trailer shall have its tailgates in place, and the load covered with a tarp as necessary to control dust or loss of material.
9. When transporting material to and from the site, the Permittee shall prevent any fluids or material from spilling into the streets.
10. Material handling at the Facility shall be limited to disassembling of used vehicles and sorting. The Permittee is authorized to move materials at the Facility with the aid of vehicles; front-end loaders; Bobcats; and fork lifts.

USED VEHICLES

11. The Permittee shall thoroughly drain and separately collect all fluids from incoming used vehicles as soon as possible upon receipt at the Facility, including fluids from the engine, fuel tank, transmission, radiator, differential, window washing fluid tank, heater core, and all lines and hoses. The Permittee shall use a liquid drainage system that includes the use of funnels or pumps when transferring or disposing of fluids. Fluids must be stored, labeled and managed according to Federal, State, and Local Codes.

ATTACHMENT B SPECIAL CONDITIONS

TIRES

12. The Permittee shall comply with the Illinois Environmental Protection Act, 415 ILCS 5/55 for purposes of storing used tires. The Permittee shall not allow used tires to accumulate for more than 90 days. If the Facility has 100 or more tires on site at any one time, the facility shall comply with the requirements for tire facilities under Section 4-228-305 of the Municipal Code.

BATTERIES

13. The Permittee shall properly dispose of or recycle all batteries offsite within one calendar year of their receipt at the Facility.
14. Batteries shall be stored inside the building, away from sources of heat, spark, and open flame, and isolated from incompatible materials.
15. The Permittee shall store batteries, other than lead-acid batteries, inside a non-conducting, leak proof, and acid-resistant container with no evidence of leakage, spillage, or damage. The Permittee shall take all appropriate measures to prevent the batteries from short circuiting. Such measures shall include, but not be limited to, the covering of terminals or individually wrapping each battery in a plastic bag.
16. The Permittee shall label each battery or battery container with any one of the following phrases: i) Universal Waste Batteries; or ii) Waste Batteries; or iii) Used Batteries.
17. The Permittee shall store lead-acid batteries as follows:
 - a. Place lead-acid batteries on acid resistant pallets. The Permittee shall only use pallets with no broken or missing boards and free of protruding nails.
Working lead-acid batteries intended for resale at the Facility may be stored on racks in accordance with Special Condition No. 27;
 - b. Lead-acid batteries shall be stacked no more than three layers high. Layers of cardboard, waffle board, or similar materials shall be placed between all battery layers, underneath the bottom layer and over the top layer to prevent puncturing and short circuiting.
18. The Permittee shall handle damaged batteries and conduct the clean-up of released acids as follows:
 - a. Damaged or leaking batteries shall be placed in a structurally sound, acid-resistant, and leak-proof container. Such containers shall be kept closed at all times when not placing or removing batteries.
 - b. Spilled acids shall be neutralized with an appropriate base solution, and disposed of properly.

MERCURY SWITCHES AND SENSORS

19. The Permittee shall remove mercury-containing light switches and anti-lock braking system sensors from vehicles manufactured before 2004 using procedures prescribed in IEPA's Recycling Mercury Vehicle Switches in Illinois ("IEPA mercury manual") guidance manual, the End of Life Vehicle Solutions (ELVS) website, or pertinent auto manuals.

ATTACHMENT B SPECIAL CONDITIONS

20. The Permittee shall store removed switches in a durable screw top plastic bucket that is structurally sound with no evidence of leakage, spillage, or damage. The Permittee shall affix a "Universal Waste" sticker on the outside of the bucket and mark the month, day, and year of the first switch placed inside it.
21. The Permittee shall send the mercury switch bucket, whether full or not, to a properly permitted recycler offsite within one year of placing the first switch inside the bucket. Upon shipping of the mercury switch bucket offsite, the Permittee shall complete and sign the IEPA's mercury switch log form and maintain a copy of said record at the Facility.
22. The Permittee shall maintain mercury spill kits at areas of the Facility where mercury leaks and spills can occur.

MATERIAL STORAGE

23. The Permittee shall always store materials within the permitted property. At no time shall material be stored on neighboring properties or the public way.
24. The Permittee shall maintain a minimum aisle width of 36 inches, or wider to accommodate workers, equipment, cleaning, and emergency response.
25. The Permittee shall handle and store all recyclable materials that may leak fluids or leave an oily residue on a dedicated, impervious concrete pad. The concrete pad shall be sloped, bermed, or otherwise constructed to minimize storm water run-on and run-off, and facilitate the capture and collection of fluids. The Permittee must properly dispose of all liquid waste collected at the Facility.
26. The Permittee shall segregate and store recyclable materials in durable receptacles or enclosures such as drums, boxes, bins, or storage bunkers. The Permittee may store recyclables in cardboard boxes provided they are placed indoors, on pallets or otherwise kept off the ground.
27. The Permittee may store recyclable materials on sturdy racks or shelving provided the stored materials are kept at least 18 inches off the ground and are not leaking.
28. The Permittee shall store newsprint, paper, corrugated paper and cardboard in closed containers.
29. The Permittee shall clearly mark all storage receptacles with the type of recyclable material stored. Letters shall not be less than three inches high, outward facing and not hidden. The Permittee shall not deposit other materials than that specified on the receptacle.
30. The Permittee shall maintain the area surrounding all storage containers in a clean and neat manner. No recyclable materials or waste materials of any kind shall be allowed to accumulate around any receptacle or to overflow from any receptacle.
31. The Permittee may not store recyclable materials at the Facility for a period longer than 90 days except materials ready for shipment offsite as finished product or raw material in the manufacturing of new, reused or reconstituted products.
32. The Permittee shall store all waste materials in such a way as to ensure adequate site safety. Flammable materials shall be stored away from sources of heat, sparks and open flames, and

ATTACHMENT B SPECIAL CONDITIONS

in accordance with applicable fire codes. Incompatible materials shall be segregated or stored away from each other.

33. The Permittee shall ensure that all tanks, drums or other vessels containing liquid materials such as, but not limited to, solvents and petroleum products, are:
- a. Kept in good condition. The Permittee shall immediately replace, repair, or overpack damaged containers;
 - b. Compatible with their contents to avoid reactions or impairment of the container's integrity;
 - c. Always be closed except when adding or removing materials;
 - d. Appropriately labeled in accordance with all local, state, and federal requirements; and
 - e. Are provided with secondary containment complying with all local, state, and federal requirements.

SITE REQUIREMENTS

34. The Facility shall be entirely surrounded by a solid eight feet fence or higher that obscures all material stored or kept outdoors at the Facility. Such fencing must be located at least eight feet from all public ways surrounding the property
35. The Permittee shall pave and maintain all material handling areas, driveways, and access/haul roads to prevent migration of contaminants off-site. The acceptable paving material shall include, but not be limited to, asphalt, concrete or gravel. The CDPH reserves the right to require any additional or alternate paving as deemed necessary by CDPH.
36. The Facility shall have a sign, clearly visible to the public, which states the name, address and telephone number of the Permittee, the type of recyclable materials accepted, the types of materials prohibited, and the Facility's operating hours.

HOUSEKEEPING, DUST CONTROL, AND MAINTENANCE

37. The Permittee shall sweep Facility pavements and affected adjacent streets each working day, and on an as-needed basis. Such sweeping shall be performed using a mechanical street sweeper to effectively remove dust and litter.
38. The Permittee shall make a water source available at all times for purposes of Facility cleaning, dust control, and fire safety.
39. The Permittee shall control and suppress dust and other air-borne materials created by Facility activities so that the off-site migration of these materials does not occur. This control and suppression may include, but are not limited to:
- a. Employing watering methods as often as necessary;
 - b. Sheltering dust-emitting activities from the wind or suspending such activities during high wind conditions; and
 - c. Enclosing and containerizing materials that are susceptible to becoming wind-borne.

ATTACHMENT B SPECIAL CONDITIONS

40. The Permittee shall promptly repair damaged or broken pavements to sustain their integrity, prevent standing water, and minimize the generation of dust and mud. The Permittee shall promptly backfill all potholes and depressions at the Facility with aggregate or suitable fill material. In addition, The Permittee shall resurface worn gravel pavements with fresh aggregate as needed.
41. The Permittee shall place garbage inside a covered container. The Permittee shall not allow such containers to overflow and shall immediately empty or remove and replace them when full.
42. The Permittee shall install and maintain filter inserts in all Facility catch basins and storm water inlets to keep sediments, oily liquids, and floatables from discharging into the City of Chicago sewer system.
43. The Permittee shall promptly contain, and clean-up spilled or leaked fluids. The Permittee shall provide spill response kits in all areas of the Facility where chemical, oil, and fuel spills or leaks of one gallon or more may occur. Such kits shall be fully stocked with appropriate materials such as socks, brooms, adsorbent material, and proper personal protective equipment.
44. The Permittee shall routinely remove oil and grease stains from site pavements, walls, and equipment by steam cleaning, pressure washing, or scrubbing these surfaces clean. Such cleaning shall be conducted at least bi-weekly and as needed.
45. The Permittee shall inspect the Facility for vectors twice per month or retain the services of a vector control specialist to conduct said inspections. The Permittee shall employ vector control measures that may include, but are not limited to, bait stations and traps, as often as necessary.
46. The Permittee shall follow applicable requirements in Part 722 of the Illinois Administrative Code, Title 35 in the management and disposal of potentially hazardous waste such as, but not limited to, spilled battery acids, mercury-containing waste, and spent oils or chemicals.

RECORD KEEPING

47. All logs, receipts, and other documentation required under this permit shall be kept at the Facility a minimum of three years and shall be made available to the CDPH and the CPD upon request.
48. The Permittee shall maintain a written record of all vector inspections and vector control installations including date, time and a detailed description of each inspection and any installations or applications to control vectors.
49. The Permittee shall keep a log of liquid waste pickups that documents the dates and the volumes of liquid waste removed and disposed of offsite. Further, the Permittee shall keep all disposal receipts as proof of proper waste disposal.
50. The Permittee shall maintain a log of all vehicles entering and leaving the Facility. This log shall indicate the date, vehicle type, hauling company name if any, and the material type and quantity being transported. The Permittee shall maintain copies of all load ticket receipts.
51. The Permittee shall maintain a written log documenting all cleaning and maintenance activities performed at the Facility under the Housekeeping, Dust Control, and Maintenance section of

ATTACHMENT B SPECIAL CONDITIONS

this permit. Such log shall include a description of the cleaning operation or maintenance activity performed, the signature of the employee that performed it, and the date and time the employee started and completed the task.

52. The Permittee shall maintain a written record of all emergencies occurring at the Facility, including the date and time of each incident, along with a detailed description of the emergency. The Permittee shall notify the CDPH each day that the Facility is affected by the emergency. Such notification shall be sent by email to EnvWastePermits@cityofchicago.org.
53. The Permittee shall timely comply with the requirements contained in Chapter 11-5, Reduction and Recycling Program of the Chicago Municipal Code. The Permittee shall submit annual reports to the Department of Streets and Sanitation ("DSS") Recycling Coordinator, on forms provided by the DSS.

SITE SAFETY

54. The Permittee shall undertake all necessary steps to ensure that the Facility is secure from unauthorized entry, is sufficiently screened from the surrounding area and is adequately lighted after dark.
55. The Permittee shall provide training to all Facility employees on fire prevention, emergency procedures and hazardous material identification and handling procedures.
56. The Permittee shall install and maintain fire suppressant equipment in accordance with the Municipal Code of the City of Chicago.
57. The Permittee shall correct all violations identified by the City of Chicago Fire Department inspections. Failure to comply with these actions may result in revocation of this permit.

PERMITS

58. The Permittee shall maintain an active Certificate of Operation from the CDPH, pursuant to Section 11-4-660 of the Code, for all existing regulated equipment or areas requiring an Air Pollution Control (APC) permit. The Permittee shall obtain an APC Permit from CDPH, pursuant to Section 11-4-620 of the Code, for any new regulated equipment or area installed at the Facility.
59. The Permittee shall acquire all necessary permits and approvals for the Facility including but not limited to those required by the CDPH, Department of Business Affairs and Consumer Protection, Zoning Board of Appeals, Metropolitan Water Reclamation District of Greater Chicago and the IEPA. The Permittee shall provide copies of all such permits and approvals to the CDPH upon request.
60. The Permittee shall always maintain copies of all Facility permits on site and shall make these available for inspection upon request by the CDPH.

CLOSURE

61. If the Permittee permanently closes or ceases operations at the site ("closure"), the Permittee must submit a written closure notification to the CDPH within 30 days of closure. If the permit is not renewed for any reason, or the Permittee ceases operations at the site, the Permittee

ATTACHMENT B SPECIAL CONDITIONS

must clean up, remove and properly dispose of or recycle all material and waste on the site within 30 days of permit expiration or closure. The Permittee must submit disposal and recycling receipts as proof of proper disposal.

VEHICLES

62. Every vehicle used by the Facility for the collection, transportation or disposal of any recyclable material shall display on each side of the vehicle in letters not less than two inches in height, in contrasting color, the name, address, telephone number and permit number of the recycling facility.
