Subject: FIGHT PETCOKE CHICAGO petitions week #3
Attachments: faxpetitions3.pdf

2/4/14

Dear Sir or Madam:

We recently reached a landmark of 500 petition signatures collected; we are on target to have 2000 by end of May, 2014. We will continue collecting after that, however, because our goal is more than the 2000.

Sent By: Lh We are sending ~~11~~¹⁰ pages, including this cover sheet.

Attached please find 9 pages of our petition, totaling 108 signatures. You received 108 signatures last week and another 108 signatures the week before.

Next week you will receive an additional 108 signatures (9 pages). After that, you may expect to continue to receive the same, or more. We are on target to collect and transmit 2000 signatures by the end of May, 2014, at which time we will plan to have a community meeting to celebrate, along with a "WALK for Clean Air and Clean Water," but we will continue collecting, because 2000 signatures is NOT our final goal. If you are interested in attending our celebration/rally in early June, please advise. You are all invited to address the community.

Thank you to our Congressista Robin Kelly for appropriately calling this "environmental discrimination," when she was in our neighborhood for a press conference and tour of the petcoke problem during December, along with Senator Durbin.
