Subject: Advisory Board - 2020 Chicago Digital Government Summit

Hi Steve,

It was a pleasure speaking with you this afternoon. Per our conversation, I attended the advisory board meeting for the Chicago Digital Government Summit hosted by Government Technology magazine. This was the first of 2 planning meetings in preparation for the Chicago Digital Government Summit which will be held June 9th. The purpose of the meeting was to review the agenda and socialize session topics. The summit is co-hosted by Chicago and Cook County IT staff. Members of the advisory board include several of our senior IT staff, as well as IT staff from the Cook county, the state and sounding municipalities. Lunch was served (salad and chicken w/vegetables).

Let me know if you need any additional information.

Thank you,
Tamika
