Subject: RE: Confidential - RE: Request for AIS IT Team - Dell World 2023

Hello Rich,

Kevin and Roderick attended the Dell conference. The city paid for the travel expenses. The Dell Technologies World 2023 conference was very beneficial as the conference featured industry experts, thought leaders, and keynote speakers who provided valuable insights into the latest trends, innovations, and challenges in the technology industry. There were educational opportunities conferences typically offer a wide range of sessions, workshops, and training programs. to help enhance our knowledge and skills in areas such as cloud computing, data management, cybersecurity, artificial intelligence, and more. Thank you again as attending a Dell Technologies conference provided valuable knowledge, networking opportunities, industry insights, and inspiration, all of which can contribute to our organization's growth in technology.

Best Regards,

**Rod Warren - Managing Deputy
