RE: Sewer Main Replacement Project #7220

Dear Neighbor,

In coordination with Mayor Rahm Emanuel's "Building a New Chicago" infrastructure improvement program, and at Alderman Ervin's request, I would like to provide you with information about an upcoming sewer main construction project in your neighborhood.

In mid-November, the Department of Water Management's private contractor will begin preliminary construction work around W. Washington Boulevard and N. Lockwood Avenue. Following, our in-house crews will install a new sewer pipe in W. Washington Boulevard (Lorel-Laramie) and in N. Latrobe Avenue (Washington-650' north). The old sewer dates back to 1923 and needs to be replaced.

During our contractor's work, Washington Boulevard will be fully closed from Laramie to Lorel, with the following detour: Southbound on Central to Eastbound on Madison to Northbound on Cicero. Southbound Laramie will be closed at Washington, with the following detour: Eastbound on Lake to Southbound on Cicero to Westbound on Madison. One lane of Laramie (northbound) will be open.

Otherwise, when we are working in the street, we may close it to traffic for safety reasons, but you will always be able to reach your home or business. Outside of working hours, a travel lane will be left open for local traffic only.

We will post our work area for "No Parking" as needed during work hours (generally 7am-4pm). We are agreeable to parking outside of those hours, but cars will need to be moved by the start of the next workday. We will try to preserve as much parking as possible.

We know that construction always involves inconveniences and noise. We will do everything possible to maintain your quality of life throughout these projects, and conducting ourselves as good and thoughtful neighbors in the course of our presence on your street.

Should you have any questions or concerns, you can either ask the construction foreman during the project, or call any of the following numbers:

- 24-Hour Service and Information Line: 311
- 28th Ward Office: 773-533-0900

- DWM Office of Public Affairs: 312-744-6635

Lastly, if you don't already have one, I ask you to consider the installation of a water meter in your home to help you save money on your water bill. For more information on this free program, go to www.metersave.org.

Thank you in advance for your patience and cooperation during this important infrastructure improvement project.

Sincerely,

Barrett B. Murphy
Commissioner
