Project Coordinator Kandalyn Hahn,

Dear Commissioner Maurice Cox,

I want Promontory Point, at South 55th Street and the Chicago lakefront in Hyde Park, preserved and protected by making it a Chicago Landmark. I urge the Commission on Chicago Landmarks to begin the designation process for the Point at its upcoming meeting on December 8th. The Point has been woven into my life for as long as I can remember. My family picnicked there when I was a child. As a teenager, in the 1960s, it was my favorite hangout in the summer, and I also loved (and still love) to walk there in the winter, to watch the waves crash on the limestone and to see the strange, beautiful ice formations. When my dad died in 1995, my mother, my brothers and I gathered around one of the fire pits at sunrise on the day after his death for a family memorial. My dad used to swim at the Point as an undergrad at the U of C, not long after it was built. I love the Point. It is a part of my soul. A concrete revetment would be soulless and sterile.

The Point's limestone revetment is beautiful, unique and historic. The Prairie School Caldwell landscape at the Point is graceful, peaceful and majestic.

The Point is where City-wide residents go to escape the chaos of the City, to meet friends and family, and to enjoy Lake Michigan.

Please listen to the community and designate Promontory Point a Chicago landmark now.

[Warning: External email]

Project Coordinator Kandalyn Hahn,

Dear Commissioner Maurice Cox,

I'm writing to ask you to support making Promontory Point, at South 55th Street and the Chicago lakefront in Hyde Park, a Chicago Landmark. Please, please, please protect this irreplaceable asset.

Promontory Point is such a wonderful place. Its limestone revetment is beautiful, unique and historic; its Prairie School Caldwell landscape is graceful, peaceful and majestic. Because of these aesthetic features, it brings the community together. I've made new friends out there, heard news about the neighborhood, watched children grow up, and mourned losses. I've noticed that areas without these advantages have fewer visitors.

It would be great for the Commission on Chicago Landmarks to begin the designation process for the Point at its upcoming meeting on December 8th.

Our community will rejoice when The Point is a Chicago landmark, safe and protected for generations to come.

[Warning: External email]

Project Coordinator Kandalyn Hahn,

Dear Chicago Landmark Commission,

I am writing to strongly support the motion to grant landmark status to Promontory Point in Chicago, and to preserve its limestone revetment along that stretch of lakefront.

The parks are a vital natural resource, where hard-working citizens can find respite and reconnect with trees, grass, birds and other wildlife—and also the lithosphere, the native rock. Chicago is a limestone place, and one of the few places we can touch base with our rock is the natural cut limestone steps at Promontory Point. They are one of its most attractive features, and a reminder of what Chicago is built on. What better landmark than that? The cut steps allow toddlers to practice climbing, and swimmers and toe-dippers to access the water. Most of all, they are beautiful, and natural, like the parks. Trees, limestone, water make a lovely natural space. Trees, concrete slabs, water, not so much.

It is entirely possible to engineer a sound water barrier while preserving the limestone. All this has been worked out, and a full restoration plan approved! We can have a sound shore without destroying its character.

Please, please, please, we all beg you, don't let the stone be replaced with impersonal, industrial concrete! I have seen what has been done to the rest of the lakefront, and it is monstrous. How many families do you see sitting on the concrete, hanging their toes in the water, enjoying the sunset? Not many. How many on the limestone? Hundreds. So many, it's difficult some days to find a spot.

Please support our community in our effort to keep a little beauty in the world. We could all use it.

Sincerely,

Elizabeth Huyck

Project Coordinator Kandalyn Hahn,

Dear Commissioner Maurice Cox,

So many in Hyde Park, I, and especially my young daughter, want Promontory Point, at South 55th Street and the Chicago lakefront in Hyde Park, preserved and protected by making it a Chicago Landmark. I urge the Commission on Chicago Landmarks to begin the designation process for the Point at its upcoming meeting on December 8th.

The Point's limestone revetment is beautiful, unique and historic. The Prairie School Caldwell landscape at the Point is graceful, peaceful and majestic.

We have literally raised our daughter there; we have so many important relationships that we have created there, thanks to the welcoming environment of the Point. There's no surprise that everyone gathers there and really no one gathers any of the concrete places.

I love the Point. The Point is where City-wide residents go to escape the chaos of the City, to meet friends and family, and to enjoy Lake Michigan.

Please listen to the community and designate Promontory Point a Chicago landmark now.

Project Coordinator Kandalyn Hahn,

Dear Commissioner Maurice Cox,

I want Promontory Point, at South 55th Street and the Chicago lakefront in Hyde Park, preserved and protected by making it a Chicago Landmark. I urge the Commission on Chicago Landmarks to begin the designation process for the Point at its upcoming meeting on December 8th.

The Point's limestone revetment is beautiful, unique and historic. The Prairie School Caldwell landscape at the Point is graceful, peaceful and majestic. I have been going there for 3 years now and my family has been going there for 50 years. It is a place unlike any other that I've ever visited in the world. Having the limestone gives a soft European feel that makes it as close to heaven with the clear blue water and the sense of community this place brings to the area is unmatched.

I love the Point. The Point is where City-wide residents go to escape the chaos of the City, to meet friends and family, and to enjoy Lake Michigan. The Point has saved my life. In a period where I felt so low and just wanted to swim in the water someone told me about this place. A distance swimmer that I met while nannying. I took myself there and felt such a sense of peace and tranquility that I started going all the time. Swimming to the buoys and jumping off the stones into the water. Watching people relax and read, play music and how people seem to all have this sense of family there that you don't get living in the city. I think a better use of city funds would be to maybe plant some daffodils, gladiolas and tulips for the spring and keep the weeds from growing on the rocks, and reward the community for its cleanup efforts. Restore the fountain at the entrance, and do a beautiful tile mural in the entrance tunnel and spray for spiders! The limestone also needs to be kept and restored. It seems like there's a perfect plan in place to maintain and restore what's already there.

Please listen to the community and designate Promontory Point a Chicago landmark now.

Dear Commissioner Maurice Cox,

I want Promontory Point, at South 55th Street and the Chicago lakefront in Hyde Park, preserved and protected by making it a Chicago Landmark. I urge the Commission on Chicago Landmarks to begin the designation process for the Point at its upcoming meeting on December 8th.

The Point's limestone revetment is beautiful, unique and historic. The Prairie School Caldwell landscape at the Point is graceful, peaceful and majestic.

I love the Point. The Point is where City-wide residents go to escape the chaos of the City, to meet friends and family, and to enjoy Lake Michigan.

Please listen to the community and designate Promontory Point a Chicago landmark now.

Project Coordinator Kandalyn Hahn,

Dear Commissioner Maurice Cox,

Promontory Point is a true treasure for the city. The graceful blending of nature, city, and history is unique, and depends on the limestone council rings and limestone blocks leading to the water. It should be landmarked as it is to preserved or restored for the future.

[Warning: External email]

Project Coordinator Kandalyn Hahn,

Dear Commissioner Maurice Cox,

The Point has held a special in my family's heart since the 1970's, when my uncle first discovered it as a med student at UChicago. He told my dad about it and my dad immediately fell in love.

He has taken my sisters and I there since the 90's. Now he takes the grandkids. Throughout the years, we have brought friends and visiting family members to this very special spot on the lake. I don't live in Chicago anymore, but anytime I go back, rain/snow/wind or shine, we go back. My dad, older sister (who was visiting from South Africa) and I were there in October, watching the waves crash against the rocks. There is literally no place like it in Chicago.

Aside from just my family, The Point brings people together from all walks of life. It is a true melting pot where people do a whole range of activities. They have cookouts, play music, dance, exercise, read, nap, and, of course, swim.

Please preserve and protect The Point and keep it in its current beautiful state. The paved "remodeling" looks sterile and soulless. I don't know what plans are being made to "improve" The Point, but those planners should take their ideas elsewhere. The Point ain't broke, so don't fix it.

Thank you,
Jack

To: Kandalyn Hahn <Kandalyn.Hahn@cityofchicago.org>

[Warning: External email]

Project Coordinator Kandalyn Hahn,

Dear Commissioner Maurice Cox,

I want Promontory Point, at South 55th Street and the Chicago lakefront in Hyde Park, preserved and protected by making it a Chicago Landmark. I urge the Commission on Chicago Landmarks to begin the designation process for the Point at its upcoming meeting on December 8th.

The Point's limestone revetment is beautiful, unique and historic. The Prairie School Caldwell landscape at the Point is graceful, peaceful and majestic.

I love the Point. The Point is where City-wide residents go to escape the chaos of the City, to meet friends and family, and to enjoy Lake Michigan.

Please listen to the community and designate Promontory Point a Chicago landmark now.

Dear Commissioner Maurice Cox,

I want Promontory Point, at South 55th Street and the Chicago lakefront in Hyde Park, preserved and protected by making it a Chicago Landmark. I urge the Commission on Chicago Landmarks to begin the designation process for the Point at its upcoming meeting on December 8th.

My family and I have enjoyed the point for more than 25 years. It is an important part of what makes Hyde Park and Chicago special. Please work to preserve it!

Thanks much and regards,

Ian

Project Coordinator Kandalyn Hahn,

Dear Commissioner Maurice Cox,

I want Promontory Point, at South 55th Street and the Chicago lakefront in Hyde Park, preserved and protected by making it a Chicago Landmark. I urge the Commission on Chicago Landmarks to begin the designation process for the Point at its upcoming meeting on December 8th.

As an active 5th ward voter, protecting the Point is my number one most important issue. I will absolutely oppose any candidate who doesn't come out in full support of protecting the Point and its historic limestone revetment.

Before making your decision, I urge you to take a walk along the Point's limestone revetment, and notice the decades of carvings beneath your feet. The revetment is part of our collective history in Chicago. Destroying it would be a crime against history. And, as Save the Point has shown repeatedly, there would be little gain, since repairing the limestone revetment would be the cheaper option. The city's "preferred plan" would also require the destruction of many of the mature shade trees that populate the point. It would take many years for the Point to return to its current state of beauty.

Please listen to the community and designate Promontory Point a Chicago landmark now.

Sincerely,

Alexander Torgovitsky

The Point's limestone revetment is beautiful, unique and historic. To be clear, there is no place like this along the lakefront and hundreds, if not thousands of us LOVE the point precisely for what it is. Please do not destroy and make generic!!! I beg of you to appreciate the special grace and majesty of the Point, and to hear all our voices!

Please listen to the community and designate Promontory Point a Chicago landmark now. In this day and age of generic homogenized less satisfying environs, food, and culture, the Point is spectacularly important AS IT IS.

Sincerely, and with all my heart and brain,

[Warning: External email]

Project Coordinator Kandalyn Hahn,

Dear Commissioner Maurice Cox,

I want Promontory Point, at South 55th Street and the Chicago lakefront in Hyde Park, preserved and protected by making it a Chicago Landmark. I urge the Commission on Chicago Landmarks to begin the designation process for the Point at its upcoming meeting on December 8th.

The Point's limestone revetment is beautiful, unique and historic. The Prairie School Caldwell landscape at the Point is graceful, peaceful and majestic.

I love the Point. The Point is where City-wide residents go to escape the chaos of the City, to meet friends and family, and to enjoy Lake Michigan.

Please listen to the community and designate Promontory Point a Chicago landmark now.

Make Promontory Point a Landmark

Pierre Wagenseil <info@sg.actionnetwork.org>

Sun 12/4/2022 3:41 PM

To: Kandalyn Hahn <Kandalyn.Hahn@cityofchicago.org>

[Warning: External email]

Project Coordinator Kandalyn Hahn,

Dear Commissioner Cox,

Promontory Point is the most beautiful place in the city. We've got a lot of nice parks, but the Point is my favorite! I've heard that you are considering making Promontory Point a Chicago landmark to protect it for the future. Please do!

Ever since I moved to Chicago, the Point has been part of my home. I've gone there for birthday parties in the council circles, Fourth of July firework viewing, and even a glorious lunar eclipse! The park was packed that night, and when the eclipse began we all gasped in amazement together.

When the summer is hot, the lake breeze keeps the Point cool. When winter freezes the lake, the Point has the most spectacular ice formations in the city. Please protect Promontory Point, which so many people love so much!

Thank you for your work,
Pierre Wagenseil

The point has been an important part of my life and the lives of many in a variety of ways.

As an artist, photographer, as a family member who enjoys outing there and as a friend who can sit on a bench, look at the view and have a good conversation.

This magic location means so much to thousands of people!!

I love the Point. The Point is where City-wide residents go to escape the chaos of the City, to meet friends and family, and to enjoy Lake Michigan. I live a 10-15 minute walk from the Point and it's my favorite place in the city to be close to the water, get some sunshine, watch the stars, and more. I've celebrated birthdays, engagements, and weddings there. In order to protect this special place for future generations to enjoy and give it the maintenance, upkeep, and repairs it deserves, the Point needs to be a Landmark.

Please listen to the community and designate Promontory Point a Chicago landmark now.

Project Coordinator Kandalyn Hahn,

Dear Commissioner Maurice Cox,

In the summer of 2021 I went to a memorial service at Promontory Point. One of my staff had a young adult daughter who had committed suicide. At the end of the service, we all went out to the limestone rocks and released environmentally friendly, paper Chinese lanterns over Lake Michigan. It was a beautiful way to remember the young woman.

Promontory Point is a special place that marks rites of passages for so many of Chicago's residents: weddings, anniversaries, family reunions, birthdays graduations and even memorials. I want Promontory Point, at South 53rd Street and the Chicago lakefront in Hyde Park, preserved and protected by making it a Chicago Landmark. I urge the Commission on Chicago Landmarks to begin the designation process for the Point at its upcoming meeting on December 8th.

The Point's limestone revetment is beautiful, unique and historic. The Prairie School Caldwell landscape at the Point is graceful, peaceful and majestic.

Project Coordinator Kandalyn Hahn,

Dear Commissioner Maurice Cox,

I strongly recommend that Promontory Point, located at South 55th Street and the Chicago lakefront in Hyde Park, be preserved and protected by designating it a Chicago Landmark. I urge the Commission on Chicago Landmarks to begin the designation process for the Point at its upcoming meeting on December 8th.

One of the truly iconic designs by the incomparable Prairie School Landscape Architect Alfred Caldwell, the Point is graceful, peaceful and majestic. The Point's limestone revetment is beautiful, unique and historic. The Point is where City-wide residents go to escape the chaos of the City, to meet friends and family, and to enjoy Lake Michigan. The Point is majestic throughout the year, celebrating its indigenous native landscape and limestone rock outcroppings in all Chicago seasons.

Please ensure that this masterfully composed Landscape paradise is protected forever for the enjoyment of generations of Chicagoans to come by designating Promontory Point a Chicago Landmark immediately.

I want Promontory Point, at South 55th Street and the Chicago lakefront in Hyde Park, preserved and protected by making it a Chicago Landmark. I urge the Commission on Chicago Landmarks to begin the designation process for the Point at its upcoming meeting on December 8th.

The Point's limestone revetment is beautiful, unique and historic. The Prairie School Caldwell landscape at the Point is graceful, peaceful and majestic. As a student of landscape architecture here in the city, I've studied first hand this amazing landscape. As a remnant of the New Deal and all of the variety of projects which it supported, this space is of importance to the history of this city as well as this country.

I love the Point. The Point is where City-wide residents go to escape the chaos of the City, to meet friends and family, and to enjoy Lake Michigan.

Please listen to the community and designate Promontory Point a Chicago landmark now.

Dear Commissioner Maurice Cox,

Please make Promontory Point, at South 55th Street and the Chicago lakefront in Hyde Park, a Chicago Landmark. I urge the Commission on Chicago Landmarks to begin the designation process for the Point at its upcoming meeting on December 8th. Promontory Point is as Chicago as the Chicago skyline, deep dish pizza, and Chicago sports (all teams!). As a child, it was a serene destination. Now an adult, it is a peaceful sanctuary to take in the Chicago vibe. Over the years I have gathered with friends new and old to best view & enjoy Lake Michigan.

Please listen to the community and designate Promontory Point a Chicago landmark now. Please let it be more than a historical memory to be eroded over the passages of time. Preserve and protect the Point's limestone revetment; beautiful, unique and historic. The Prairie School Caldwell landscape at the Point is graceful, peaceful and majestic. Have Promontory Point become part of Chicago's legacy. Thank you!

[Warning: External email]

Project Coordinator Kandalyn Hahn,

Dear Commissioner Maurice Cox,

I want Promontory Point, at South 55th Street and the Chicago lakefront in Hyde Park, preserved and protected by making it a Chicago Landmark. I urge the Commission on Chicago Landmarks to begin the designation process for the Point at its upcoming meeting on December 8th.

The Point's limestone revetment is beautiful, unique and historic. The Prairie School Caldwell landscape at the Point is graceful, peaceful and majestic. I love the Point. The Point is where City-wide residents go to escape the chaos of the City, to meet friends and family, and to enjoy Lake Michigan. To bike down to the Point and see families spending time there is one of those fulfilling, community-based experiences that makes me feel proud to be a resident of Chicago. And likewise, it is high on the list of places I will take my visiting friends and family, who understand its importance immediately.

Please listen to the community and designate Promontory Point a Chicago landmark.

Thank you,
Nick

[Warning: External email]

Project Coordinator Kandalyn Hahn,

Dear Commissioner Maurice Cox,

I am writing as Promontory Point is being considered for Chicago Landmark status.

The Point's limestone revetment is beautiful, unique and historic. The Prairie School Caldwell landscape at the Point is graceful, peaceful and majestic. These are basic and undisputable features of The Point and all excellent reasons to preserve this place.

Personally, as a Hyde Park resident who lives only a 10 minute walk from The Point, it is all those things and more. It is magical to so easily be surrounded by the majesty of Lake Michigan thanks to this tiny peninsula. For 40 years I have enjoyed having The Point be part of my runs for exercise and mental recharging. I can be there instantly, all year long, and I'm never alone out there. I don't think I have ever been there when at least one other person wasn't also enjoying what it offers. I love that it's there for everyone as it was originally intended.

At a time when our culture is too quickly being swallowed up by technology, having the beauty of The Point to escape to is priceless.

Please listen to the community and designate Promontory Point a Chicago landmark now.

The Point's limestone revetment is beautiful, unique and historic. The Prairie School Caldwell landscape at the Point is graceful, peaceful and majestic. It blends with the lake in a natural way as opposed to the hard, stark concrete edging that has been installed along so much of the Shore.

I love the Point. I grew up in Hyde Park. The Point has been a feature in my life since the first weeks of my life in 1948. My parents took me there in a stroller for picnics. My middle school friends and I used to ride our bikes there. My first dates were often to walk around the Point. My father took me swimming off the rocks. The Point is where City-wide residents go to escape the chaos of the City, to meet friends and family, and to enjoy Lake Michigan.

To: Kandalyn Hahn <Kandalyn.Hahn@cityofchicago.org>

[Warning: External email]

Project Coordinator Kandalyn Hahn,

Dear Commissioner Maurice Cox,

I want Promontory Point, at South 55th Street and the Chicago lakefront in Hyde Park, preserved and protected by making it a Chicago Landmark. I urge the Commission on Chicago Landmarks to begin the designation process for the Point at its upcoming meeting on December 8th.

The Point's limestone revetment is beautiful, unique and historic. The Prairie School Caldwell landscape at the Point is graceful, peaceful and majestic.

I love the Point. The Point is where City-wide residents go to escape the chaos of the City, to meet friends and family, and to enjoy Lake Michigan.

Please listen to the community and designate Promontory Point a Chicago landmark now.

I want Promontory Point, at South 55th Street and the Chicago lakefront in Hyde Park, preserved and protected by making it a Chicago Landmark. I urge the Commission on Chicago Landmarks to begin the designation process for the Point at its upcoming meeting on December 8th.

The Point's limestone revetment is beautiful, unique and historic. The Prairie School Caldwell landscape at the Point is graceful, peaceful and majestic. Replacing it with concrete will not only be a travesty but the concrete WILL NOT ENDURE the rough winter weather. The limestone can withstand this weather; it has for more than 80 years.

I love the Point. The Point is where City-wide residents go to escape the chaos of the City, to meet friends and family, and to enjoy Lake Michigan.

Please listen to the community and designate Promontory Point a Chicago landmark now.

Since I was a young child, the Point has been a recreational destination for me in all seasons, as it is for countless residents and visitors to the neighborhood, young and old. It has endured not only through my lifetime of course, but for generations. The limestone itself reflects a kind of natural wear over time that other areas along the lakefront which are fitted with concrete cannot convey. Family photographs of my parents at the Point as university students on these same limestone blocks, yield the strongest sense of continuity to this place. Preserving and protecting the entire Promontory Point with a landmark designation would represent a commitment to the conservation of this unique sense of continuity, to the unity of its design and the way that it functions, which is to say: the way that people in the community use it.

Please listen to the community and designate Promontory Point a Chicago landmark now.

[Warning: External email]

Project Coordinator Kandalyn Hahn,

Dear Commissioner Maurice Cox,

On behalf of the College of Architecture at Illinois Institute of Technology (IIT), I write today in support of listing Promontory Point as a Chicago Landmark.

Promontory Point is a landscape of national significance for both its design and its cultural history. The limestone revetment along the lakeshore has hosted diverse and distinct social communities for almost ninety years. Moreover, Promontory Point's landscape architect, Alfred Caldwell, was one of the leading designers and thinkers of his day, and a member of the IIT College of Architecture faculty. His work directly presaged what we call sustainability today, so we are especially committed to the conservation and preservation of his work. Our own campus landscape, perhaps his most well known work, has been carefully renewed, restored, and extended over the last two decades.

The artful design and historical significance of this landscape has made it a treasured park for people for decades, and it is well worthy of recognition as a Chicago Landmark. I recommend its listing with great enthusiasm. If IIT can be of any additional support, please don't hesitate to ask.

Respectfully,

Reed Kroloff

Project Coordinator Kandalyn Hahn,

Dear Commissioner Maurice Cox,

I want Promontory Point, at South 55th Street and the Chicago lakefront in Hyde Park, preserved and protected by making it a Chicago Landmark. I urge the Commission on Chicago Landmarks to begin the designation process for the Point at its upcoming meeting on December 8th.

The Point's limestone revetment is beautiful, unique and historic. The Prairie School Caldwell landscape at the Point is graceful, peaceful and majestic.

I love the Point. The Point is where City-wide residents go to escape the chaos of the City, to meet friends and family, and to enjoy Lake Michigan.

Please listen to the community and designate Promontory Point a Chicago landmark now.

The Point's limestone revetment is beautiful, unique and historic. The Prairie school Caldwell landscape at the Point is graceful, peaceful and majestic, offering great views of downtown Chicago and a transcendent experience.

I have great appreciation for the experience of being on the Point. I live in the South Loop and am frequently in Hyde Park. The Point is where residents from many neighborhoods go to escape the noise of the city, to meet friends and family, and to enjoy Lake Michigan. I was fortunate to hear its designer, Alfred Caldwell, speak about creation of the park a few years before he died in 1998, an experience I will always treasure.

Please listen to the community and designate Promontory Point a Chicago Landmark now.

Susanne J. Davis, P.E.
Chief, Planning Branch
U.S. Army Engineer Chicago District
231 S Lasalle Street, Suite 1500
Chicago, IL 60604

Ref: *Inquiry on Status of U.S. Army Corps of Engineers Illinois Shoreline Erosion Interim 3 Project, Chicago Shoreline General Reevaluation Report, and Promontory Point Chicago, Illinois*
ACHP Project Number: 018785

Dear Ms. Davis:

On September 8, 2022, the Advisory Council on Historic Preservation (ACHP) was contacted by the Promontory Point Conservancy, Landmarks Illinois, Preservation Chicago, and the National Trust for Historic Preservation regarding the Chicago Shoreline Protection Project and implementation of the 1993 *Memorandum of Agreement for the Illinois Shoreline Erosion Interim 3 Project among the Advisory Council on Historic Preservation, the City of Chicago, the Chicago Park District, the Army Corps of Engineers and the Illinois Historic Preservation Officer* (1993 MOA), specifically as it relates to unfinished construction associated with the repair of the revetment at Promontory Point (enclosed). The original undertaking, which was authorized pursuant Water Resources Development Act (WRDA) 1996 and WRDA 1999, sought to provide storm damage protection to the Lake Michigan shoreline and Lake Shore Drive in Chicago through a variety of features and improvements constructed through the support of local sponsors at the City of Chicago Department of Transportation and the Chicago Park District. The 1993 MOA evidences the U.S. Army Corps of Engineers (Corps), Chicago District, compliance under Section 106 of the National Historic Preservation Act and its implementing regulations, "Protection of Historic Properties" (36 CFR Part 800). Further, the ACHP is aware that the Corps is also conducting the Chicago Shoreline General Reevaluation Study, which seeks to assess the feasibility of additional work within the original project area to protect the shoreline from storm damage and erosion.

The concerns voiced in the recent letter appear to relate to the Corps communication under the 1993 MOA, specifically as it relates to unfinished components of the undertaking associated with the repair of the step-stone and limestone revetment at Promontory Point, a historic property listed on the National Register of Historic Places. Prior this letter, the ACHP was not aware of any recent communications regarding the status of this undertaking or the Corps compliance with the terms of the 1993 MOA, which stipulates specific preservation conditions for repairs occurring to historic properties. The recently initiated reevaluation study coupled with the indication of additional funding for a preservation study focused on repairs at Promontory Point, consistent with the *Secretary of the Interior's Standards* appears to indicate that the remaining components of the original undertaking may be resuming and/or require modification.

ADVISORY COUNCIL ON HISTORIC PRESERVATION

401 F Street NW, Suite 308 • Washington, DC 20001-2637
Phone: 202-517-0200 • Fax: 202-517-6381 • achp@achp.gov • www.achp.gov

The ACHP is supportive of the concerns indicated in the Conservancy's letter and echo the request for clarity regarding how, given the myriad of ongoing efforts, the Corps proposes to continue to comply with Section 106 regarding the original undertaking, as well as how this will be impacted by the ongoing feasibility study and the preservation study, including an recommencement of the 106 process. At this time, we request the Corps provide an update on the status of the Chicago Shoreline Protection Project, as consulted on under the 1993 MOA, which requires the Corps to submit a written report annually summarizing the actions taken to comply with the terms of the agreement. This report should account for all the above mentioned and any other concurrent efforts that would affect Promontory Point. Such an update you be provided to all identified consulting parties.

Thank you for your cooperation. If you have any questions regarding this request, please contact Mr. Christopher Daniel at (202) 517-0223 or by e-mail at cdaniel@achp.gov and reference the ACHP Project Number above.

Sincerely,

A handwritten signature in black ink that reads "Christopher Koeppel". The signature is written in a cursive style with a large, sweeping initial 'C'.

Re: Promontory Point, Chicago, Illinois (National Register-Listed Property)

Dear Dr. Eddins and Ms. Loichinger:

This letter is written on behalf of several interested stakeholders in regards to Promontory Point, a historic site listed on the National Register of Historic Places located along the southern part of Chicago's Lakefront.

In 1993, a Memorandum of Agreement ("MOA") was signed by key parties and agreed upon by various stakeholders (including those signing below) in regards to work being performed along Lake Michigan's shoreline. One of the key elements of that MOA is its express determination that the design and construction associated with the repair of Promontory Point's step-stone, limestone revetment would be done such that the construction would be performed as a preservation project consistent with the Secretary of the Interior's Standards for historic preservation. *See* Exhibit 1, ¶2a. This MOA was signed by the Army Corps of Engineers ("Army Corps"), the Illinois State Historic Preservation Officer, and the Advisory Council on Historic Preservation (the "Advisory Council"), among others.

Subsequent to the MOA, there were numerous discussions and follow up that led to various agreements about the process to be implemented towards the preservation of Promontory Point. However, while work was completed on other parts of the Lake Michigan shoreline, funds ran out before work commenced at Promontory Point. This project remains unfinished, but there have been ongoing effort to obtain funds and achieve completion of the project over the past 15 years. At this time, U.S. Congresswomen Robin Kelly has secured a federal funding authorization of \$500,000 for a preservation study for Promontory Point conducted by an independent, third-party to be selected by the Buffalo and Seattle Army Corps offices in the 2022/23 federal budget. This preservation study will be based on the historic limestone step-stone revetment as the agreed-upon design and will plan its repair, restoration and rehabilitation.

Ms. Jamie Loichinger
Dr. John Eddins
September 8, 2022
Page 2

However, despite the earlier work and agreements about the preservation of Promontory Point, and the efforts of Congresswoman Kelly, we are concerned that the current efforts being undertaken by the City of Chicago (“City”) and the Chicago Park District, along with the Army Corps, require close monitoring and input from stakeholders including the Advisory Council. The City, the Park District, and the Army Corps are moving forward to create their own study for work at Promontory Point, using funds from the Army Corps and the municipal entities. We are concerned that the purpose of moving forward with this study is to support what the City is advocating as a plan to demolish Promontory Point’s limestone revetment and replace it with concrete. Many, including the undersigned consulting parties, have objected to any such plan as it is inconsistent with preservation. Preservation Chicago has placed Promontory Point on its Chicago 7 Most Endangered list for 2022, and previously Landmarks Illinois placed Promontory Point on its statewide list of most endangered places in 2004.

The Army Corps, the Park District, and the City are aware of Congresswoman Kelly’s efforts and the preservation study that will be funded, and we are concerned that they may be attempting to circumvent those efforts as well as avoiding compliance with the MOA and subsequent work towards preservation of Promontory Point. Some of the undersigned organizations have requested that they halt the current efforts and allow the preservation study associated with Congresswoman Kelly to be completed per prior agreements. The Corps, the Park District, and the City have refused.

Relatedly, the Army Corps has been inconsistent in regards to the issues of when and how a Section 106 process would proceed. During recent quarterly meetings hosted by the Army Corps associated with Promontory Point (which expressly are not part of any Section 106 consultation), the Army Corps has acknowledged that a Section 106 process should occur, but has not initiated such a review. Many have suggested that such a process should already be engaged in as a continuation of the MOA, and should impact the studies being performed. Indeed, the Army Corps, the Park District, and the City, by funding and pursuing a non-preservation plan, should have initiated a Section 106 review examining how concrete can possibly be construed as a preservation option. More importantly, a preservation approach consistent with the MOA means there would not be a need to spend time and resources on a demolition plan for Promontory Point, one that is inconsistent with the MOA and with the work performed for years in the effort to develop a plan for Promontory Point. In any event, as noted, Congresswoman Kelly’s work to obtain funds for a preservation study, which should be available this October, is consistent with the MOA and should also be part of all ongoing Section 106 discussions given that this project remains a prior undertaking, which is currently incomplete.

In light of the long history of conflict here, we plan to encourage the Army Corps to involve their staff outside Chicago in the Section 106 review, for instance, Army Corps staff with preservation expertise in Buffalo or Seattle or Fort Worth.

Based on the prior history and current status, the undersigned all request that the Advisory Council, as a signatory to the MOA, join the current discussions and continue in the important role that it has previously held on this matter to ensure that the Section 106 process and related activities

Ms. Jamie Loichinger
Dr. John Eddins
September 8, 2022
Page 3

are initiated and properly performed. To that end, we also hope that the Advisory Council would be in a position to join the next Army Corps-hosted, quarterly meeting of partners and stakeholders, which is scheduled for September 13, 2022 at 2:00 p.m. Central time/3:00 p.m. Eastern time.

We look forward to hearing from you.

Very truly yours,

MEMORANDUM OF AGREEMENT
FOR THE
ILLINOIS SHORELINE EROSION INTERIM 3 PROJECT
AMONG

THE ADVISORY COUNCIL ON HISTORIC PRESERVATION
THE CITY OF CHICAGO, THE CHICAGO PARK DISTRICT,
THE ARMY CORPS OF ENGINEERS AND
THE ILLINOIS HISTORIC PRESERVATION OFFICER

WHEREAS, the Chicago District, U.S. Army, Corps of Engineers (Corps) has determined that the Illinois Shoreline Erosion Interim 3 Project will have an effect upon historic properties included in and eligible for listing on the National Register of Historic Places, and

WHEREAS The Corps has consulted with the Advisory Council on Historic Preservation (Council) and the Illinois State Historic Preservation Officer (SHPO) pursuant to 36 CFR Part 800, regulations implementing Section 106 of the National Historic Preservation Act (16 U.S. C. 470f); and

WHEREAS, the Chicago Park District and the City of Chicago participated in the consultation and have been invited to concur in this Memorandum of Agreement;

NOW, THEREFORE, the Corps, the City, the Park District, the Council and the SHPO agree that the undertaking shall be implemented in accordance with the following stipulations in order to take into account the effect of the undertaking on historic properties.

STIPULATIONS

The Corps will ensure that the following measures are carried out:

1. The Corps will carry out the construction and rehabilitation of step-stone revetment along five (5) reaches of the Lake Michigan shoreline within the City of Chicago over a fifteen (15) year period as outlined in Illinois Shoreline Erosion/Lake Michigan/Storm Damage Reduction--Interim III Wilmette to Illinois-Indiana State Line, U.S. Army Corps of Engineers, Chicago District, December, 1992.

2. The Corps agrees to consult with the SHPO during the engineering for each reach, prior to construction to identify those properties on or eligible for listing on the National Register of Historic Places and possible project effects on those properties.

* a. Where the effect consists of the repair or reconstruction of contributing step stone revetment, the Corps shall consult with the SHPO, the City of Chicago and the Chicago Park District to ensure that the design and construction of the revetment will match the existing in accordance with the recommendations of the Secretary of the Interior's "Standards and Guidelines for Archeology and Historic Preservation".

b. Where the effect consists of new construction of step stone revetment within or adjacent to identified historic properties, the Corps shall consult with the SHPO, the City of Chicago and the Chicago Park District to ensure that the new construction is designed and constructed to minimize impacts to the historic property.

3. The Corps shall submit a written report to the City of Chicago, Chicago Park District, Illinois SHPO and the Council annually summarizing the actions taken to comply with the terms of this Agreement. The first report will be due April 1993 and subsequent reports will be submitted each January thereafter.

Execution of this Memorandum of Agreement by the Corps, the Illinois SHPO, and by the Council, and implementation of its terms, evidence that the Corps has afforded the Council an opportunity to comment on the undertaking and its effects on historic properties, and that the Corps has taken in to account the effects of the undertaking on historic properties.

[Warning: External email]

Project Coordinator Kandalyn Hahn,

Dear Commissioner Maurice Cox,

I want Promontory Point, at South 55th Street and the Chicago lakefront in Hyde Park, preserved and protected by making it a Chicago Landmark. I urge the Commission on Chicago Landmarks to begin the designation process for the Point at its upcoming meeting on December 8th.

The Point's limestone revetment is beautiful, unique and historic. The Prairie School Caldwell landscape at the Point is graceful, peaceful and majestic.

I love the Point. As a Kenwood Academy graduate from the class of 1987, the point was pivotable and made building long lasting friendships. We would go to the point regularly during the warm months. The Point is where City-wide residents go to escape the chaos of the City, to meet friends and family, and to enjoy Lake Michigan.

Please listen to the community and designate Promontory Point a Chicago landmark now.

Thank you for reading this letter and for your consideration.

Project Coordinator Kandalyn Hahn,

Dear Commissioner Cox,

I want Promontory Point, at South 55th Street and the Chicago lakefront in Hyde Park, preserved and protected by making it a Chicago Landmark. I urge the Commission on Chicago Landmarks to begin the designation process for the Point at its upcoming meeting on December 8.

The Point's limestone revetment is beautiful, unique and historic. The Prairie school Caldwell landscape at the Point is graceful, peaceful and majestic, offering great views of downtown Chicago and a transcendent experience.

I have great appreciation for the experience of being on the Point. I live in the South Loop and am frequently in Hyde Park. The Point is where residents from many neighborhoods go to escape the noise of the city, to meet friends and family, and to enjoy Lake Michigan. I was fortunate to hear its designer, Alfred Caldwell, speak about creation of the park a few years before he died in 1998, an experience I will always treasure.

Please listen to the community and designate Promontory Point a Chicago Landmark now.

Project Coordinator Kandalyn Hahn,

Dear Commissioner Maurice Cox,

I am a longtime employee at University of Chicago and resident of Hyde Park. I live near the Point and make frequent use of it by using the trails and the swimming access. I also officiated a wedding at the parks structure about 5 years ago. Last month I purchased a wetsuit so that I can swim earlier in spring and later in fall. This location is a haven for a community including but not limited to the students who need a pleasant getaway from the rigors of campus. I want Promontory Point, at South 55th Street and the Chicago lakefront in Hyde Park, preserved and protected by making it a Chicago Landmark. I urge the Commission on Chicago Landmarks to begin the designation process for the Point at its upcoming meeting on December 8th.

The Point's limestone revetment is beautiful, unique and historic. The Prairie School Caldwell landscape at the Point is graceful, peaceful and majestic.

c/o Chairman Ernie Wong

Re: Promontory Point, S. DuSable Lake Shore Drive, between 54th and 56th Street, Chicago

Dear Mr. Chairman and Members of the Commission on Chicago Landmarks,

We at Preservation Chicago fully support the "Preliminary Landmark Recommendation" for Promontory Point, located east of South DuSable Lake Shore Drive, between 54th and 56th Streets, in the Hyde Park Community Area.

Promontory Point is indeed a special place for all Chicagoans, but especially for so many residents of Chicago's South Side. It's a much beloved site for all sorts of gatherings, including family picnics, social gatherings, and nature walks, as well as being a place for enjoying all of the aspects of our Lakefront and Lake Michigan.

Comprised of a peninsula extending out into Lake Michigan, "The Point" as it's often referred to, was a landfill project, designed and attributed to noted landscape architect, Alfred Caldwell (1903-1998). Caldwell is known for his landscape projects, most notably the "Alfred Caldwell Lily Pool," a designated Chicago Landmark, located on Chicago's North Side, and situated adjacent to Lincoln Park Zoo and the Lincoln Park Conservatory. Also, his design of Columbus Park, with Jens Jensen on the City's West Side in the Austin Community, and Eagle Point Park in Dubuque, Iowa, among other projects.

Caldwell was also a highly respected professor for many years, at the Illinois Institute of Technology in the university's Department of Architecture, Planning and Urban Development. He was hired under architect and department Chairman, Ludwig Mies van der Rohe from 1944 to 1959. He later returned in 1981, at the request of George Schipporeit, as a professor of Architectural and Masonry Construction for second year students, along with a theory course, called "Architecture and Civilization." Many of us studying architecture at IIT, were students of Professor Caldwell, and his influences and theories follow us to this day.

Preservation Chicago has worked for many years, with community partners, The Promontory Point Conservancy the Hyde Park Historical Society, our preservation partners and community members and

our statewide sister organization, Landmarks Illinois, for many years towards this day and this Landmark Designation, bestowed by the City of Chicago.

In 2022, Promontory Point was nominated as one of our “Chicago 7 Most Endangered Places,” as The Point’s integrity would have been severely compromised, with a plan that would have destroyed the historic Limestone revetments and replaced them with concrete. We’ve encouraged a “Secretary of the Interiors Standards for Restoration” level work, for repair and restoration of Promontory Point’s historic Limestone revetments. We are hopeful that this repair work will be sensitive to the original design and that the Chicago Landmark Designation of Promontory Point will encourage restoration to the highest standards of The Point’s many significant features, looking to the future.

Many thanks to the 600 letters from individuals, residents and elected officials that supported the preservation and encouraged the Chicago Landmark Designation of Promontory Point. These individuals include Congresswoman Robin Kelly, State Senator Robert Peters, State Representative Curtis Tarver, Cook County Commissioner Bill Lawry, Alderwoman Hairston, Commissioner Maurice Cox, DPD-Historic Preservation Division Staff, Jack Spicer, Debra Hammond and Julia Bachrach for their tremendous support of Promontory Point and this great honor.

We at Preservation Chicago enthusiastically support the designation of Promontory Point as a Chicago Landmark.

Sincerely,

Ward Miller

Dear Landmarks Commissioners,

It isn't understanding the Board of Landmarks Commissioners soon will meet to consider the future of Promontory Point of the 5500 block of Lake Shore Drive and Lake Michigan. This important feature of the City's shoreline serves many purposes: recreation, including the sports of running, bicycling, swimming, recreational therapy, and enjoyment of nature. It holds memories for family members, a number of whom have established memorial benches for their loved ones.

This special place deserves the recognition that landmarking can bestow upon it. Please give serious consideration to this request.

Sincerely,

Frances S. Vandervoort

Promontory Point Landmark Status

Betsy McGurk-Mensah <bammensah@gmail.com>

Wed 1/11/2023 12:12 PM

To: ccl <ccl@cityofchicago.org>

[Warning: External email]

Dear City,

When I came to Chicago and discovered Promontory Point, I was amazed. I felt like I was on the Riviera, with fresh water. It seemed so much like a natural place, where one goes to feel the refreshing effects of nature. Each rock is unique; many people have favorite rocks. So many of the rocks carry permanent expressions of love in their carvings. You are surrounded by natural elements, in a place which has its own microclimates depending on the wind direction. The unevenness of the rocks makes climbing down to the water and back up a mental challenge, but provides hand-holds, steps, and endless possibilities.

As I said, it took me a while to believe it was built this way, giving the feeling that you are in a historical place, an exotic location. It's as good as the Amalfi Coast, without the cost.

Please do all you can to preserve the limestone, preserve the natural beauty and warmth of the point as Caldwell envisioned it.

Respectfully,
Betsy Mensah

[Warning: External email]

Dear Members of the Commission on Chicago Landmarks,

As a resident of Chicago I wish to register my strong support of the proposed plan to designate Promontory Point on our lakefront between 54th and 56th Streets as an official City Landmark. The Point is a unique and a valuable green space resource for all.

I am in support of Preservation Chicago's position on restoration of the Point's historic limestone revetment. This should not be replaced by the City and Park District's proposal to use masses of concrete which would forever alter the esthetic naturalistic architecture of the area.

Our lakefront is an extraordinary feature of our City and access locations like Promontory Point are precious locations in the life our residents, both human and wild.

Thank you for your consideration,
Ms Adair Small
