

Commission on Chicago Landmarks

CERTIFIED LOCAL GOVERNMENT ANNUAL REPORT FOR 2014

The Commission on Chicago Landmarks (the “Commission”), whose members are appointed by the Mayor and the City Council, was established in 1968 by city ordinance. The Commission is responsible for recommending to the City Council which areas, districts, places, buildings, structures, works of art, and other similar objects within the City of Chicago (the “City”) should be designated as Chicago Landmarks, which protects them by law.

This report has been prepared in fulfillment of the City’s annual reporting requirement under the National Park Service’s Certified Local Government Program established under the National Historic Preservation Act. The City of Chicago has been a “Certified Local Government” since 1985.

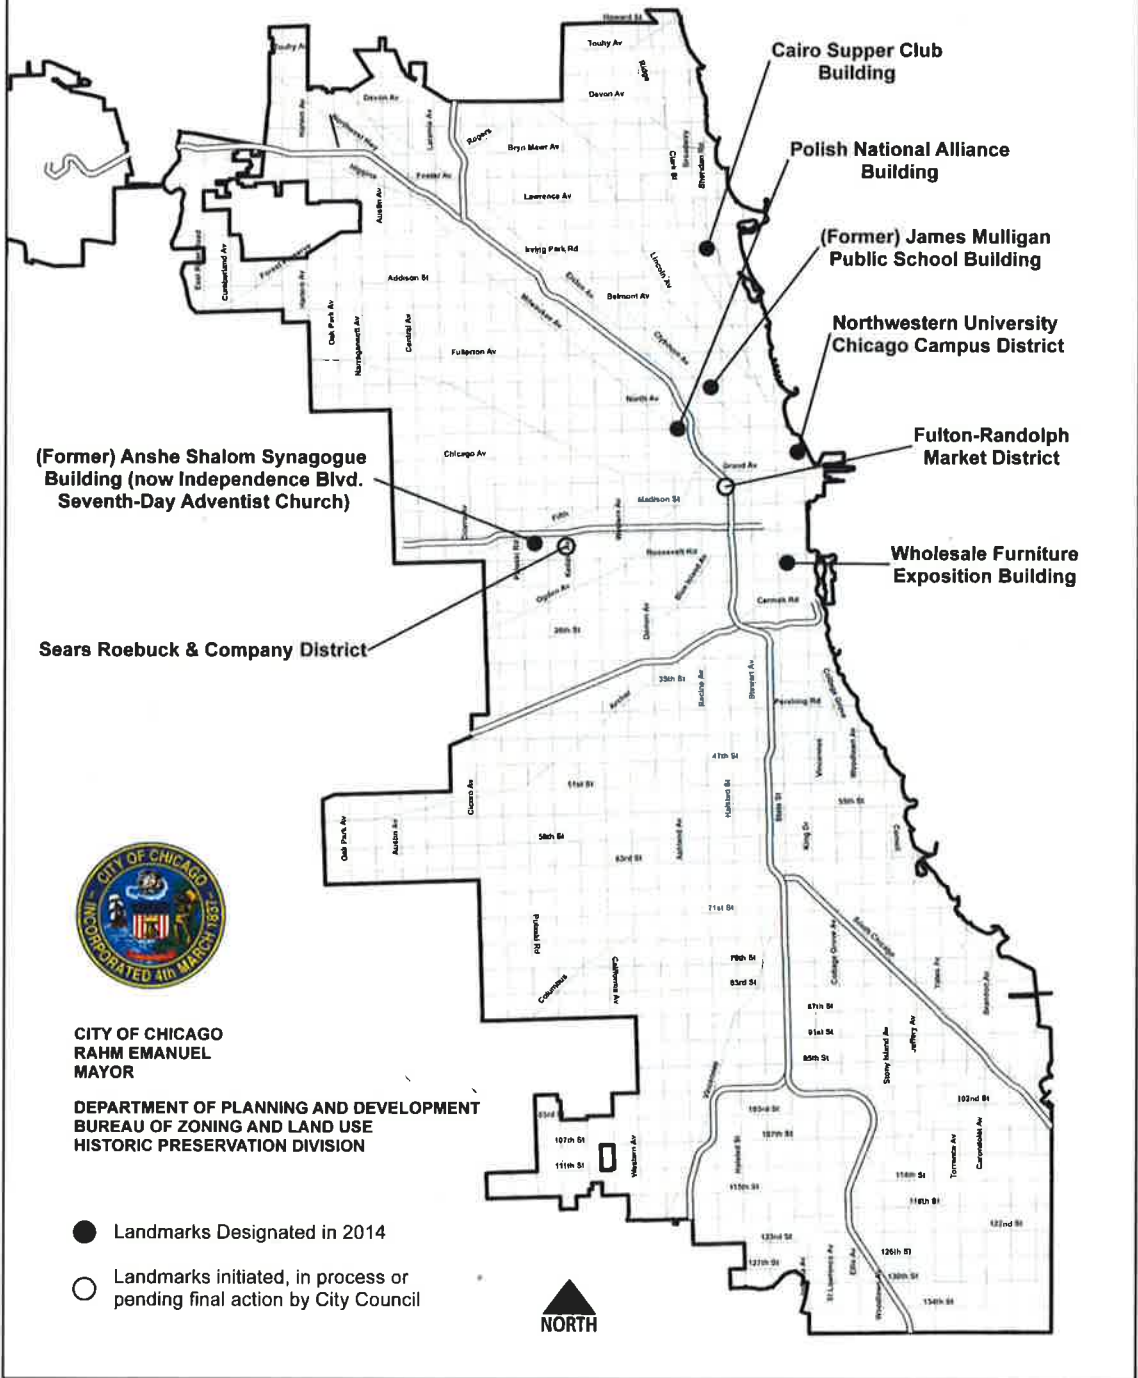

The Commission is staffed by the Historic Preservation Division in the Department of Planning and Development (the “Department”). Though the division participates in Department-wide planning and economic development initiatives, the majority of the work performed by staff is focused on the duties outlined in the Landmarks Ordinance and the Rules and Regulations of the Commission on Chicago Landmarks. This work includes, but is not limited to, landmark designations, permit review, economic incentives for landmark properties, and the demolition delay process.

1. CHICAGO LANDMARK DESIGNATION

The landmark designation process begins with a preliminary vote by the Commission. This vote not only initiates the formal designation process, but places the review of building permits for the proposed landmark under the jurisdiction of the Commission unless there is a final denial action by the Commission or City Council.

In 2014, eight proposed designations were considered by the Commission, with six landmark designations approved by the City Council. As of December 31, 2014 two properties were under consideration by the Commission.

Chicago Landmark Designations in 2014

SIX LANDMARKS DESIGNATED BY CITY COUNCIL

(Former) Anshe Sholom Synagogue Building – Ward 24

754 S. Independence
Blvd./3808 W. Polk St.
(Designated June 25, 2014)

This Classical Revival-style building was one of the earliest Orthodox synagogues founded in Chicago by Eastern-European immigrants.

(Former) James Mulligan Public School Building – Ward 43

1855-63 N. Sheffield Ave.
(Designated April 2, 2014)

This former school exemplifies late-nineteenth century ideas about school architecture with its large scale, rectangular form, masonry construction. The large classrooms have high ceilings and tall windows for ample light and air circulation.

Northwestern University Chicago Campus District – Ward 42

303-361 E. Chicago Ave.

(Designated September 10, 2014)

This group of three finely-designed Gothic Revival-style buildings comprise the historic core of Northwestern University's Chicago campus.

Cairo Supper Club – Ward 46

4015-4017 N. Sheridan Rd.

(Designated October 8, 2014)

Located in the Uptown community area, this unusual one-story commercial building is designed in the Egyptian-Revival architectural style and is one of a small number of Chicago buildings designed in this style.

Wholesale Furniture Exposition Building – Ward 3
1323 S. Michigan Ave.
(Designated October 8, 2014)

This seven-story commercial loft building was designed in the Chicago School architectural style. It was commissioned as an expansion to an existing furniture showroom at the heart of “Furniture Row” in Chicago’s Near South Side neighborhood.

Polish National Alliance Building – Ward 2
1514-1520 W. Division St.
(Designated November 5, 2014)

This building served as the headquarters of the United States' largest Polish-American fraternal organization from 1938-1976.

As of December 31, 2014, two proposed designations remain in process (date report was submitted to the Commission is in parentheses):

- **Sears Roebuck & Company District – Ward 24**
3301 W. Arthington St., 3333 W. Arthington St., 900 S. Homan Ave., 931 S. Homan Ave., and the North Side of W. Arthington St. Between S. Homan and Spaulding Avenues. (December 4, 2014)
The four buildings, a park, and pergola exemplifies the historic importance of Sears as one of Chicago's most important companies and America's leading retailer for much of the 20th century.
- **Fulton-Randolph Market District – Ward 27**
Primarily the 800- to 1100-blocks of W. Fulton Market St., the 900-block of W. Lake St., and the 700- to 1000-block of W. Randolph St. (April 3, 2014)
This proposed district conveys Chicago's importance as a wholesale market. It was the gateway for the agricultural bounty that flowed into the Midwest and West. It has historically and currently functioned as a meatpacking area, one of Chicago's most important industries. The district also includes a significant number of loft manufacturing and warehouse buildings that exemplify the importance of industry to the city's economic development.

The Commission's Program Committee held two meetings in 2014 to receive suggestions from the public for possible future Chicago Landmark designations. Suggestions received were forwarded to the Department of Planning and Development (DPD) for further review and consideration.

2. PERMIT REVIEW FOR CHICAGO LANDMARKS

Total Number of Approvals by District/Landmark

(for seven or more permits approved in the 2014 calendar year)

Note: Permits for the Historic Michigan Boulevard District includes work in the following categories: 3 environmental, 17 exterior only, 33 interior only, 6 exterior and interior (combined scope of work), 82 mechanical, 10 scaffold, 11 sign, and 14 miscellaneous.

Upon a preliminary landmark recommendation initiating the consideration process, and continuing until a final action by the Commission or the City Council, the Commission reviews permit applications for work on proposed and designated landmark properties. Prior to issuing permits, the Commission must approve proposed construction projects as part of the review process. The Commission urges applicants to discuss proposed changes prior to seeking permits, and often reviews proposals on a preliminary “pre-permit” basis.

The Permit Review Committee (PRC), comprised of five Commission members, typically reviews pre-permit applications, for major projects such as new infill construction, significant alterations, construction of visible additions, demolitions, as well as decides design policy issues. PRC meets once per month. Historic Preservation Division staff reviews all other applications on behalf of the Commission.

In 2014, the Commission reviewed 2416 permit applications and performed 2791 reviews in total:

- The number of permits reviewed in 2014 was 199 more than in 2013.
- 88% of reviews were performed the same day, 91% in one business day, and 100% within fourteen days.
- Two permit applications were denied.
- The Permit Review Committee reviewed 71 projects in 2014; 63 projects were reviewed in 2013.

In 2014, the full Commission reviewed and approved the relocation of the Harriet F. Rees House and coach house from 2110 S. Prairie to a vacant lot at 2017 S. Prairie to accommodate plans for development by the Metropolitan Pier Exposition Authority. The Harriet F. Rees House is a Chicago Landmark and is individually listed on the National Register of Historic Places.

Phase one of the expansion of Wrigley Field began in October 2014 with the reconstruction of the bleachers and structural repairs to the grandstands. CCL staff conducts weekly site visits and monitors this important project on behalf of the Commission. In 2014 the full Commission reviewed additional plans for the renovation of Wrigley Field at two regular meetings (July 10 and December 6) and at one permit review committee meeting (November 6). The 5-year Master Plan and Master Sign plan as approved by the CCL and updated, will guide this multi-phase renovation.

3. MONITORING AND STEWARDSHIP

At the close of 2014, the Historic Preservation Division staff continued to monitor approximately 25-30 active court cases. The City’s Department of Law initiates cases against owners of historic properties for violations of the City’s building and other codes. The administrative hearing process is also used to enforce building code violations. Historic Preservation staff works with the Department of Buildings, Department of Law, and owners to address violations and propose possible alternatives to demolition.

4. ECONOMIC INCENTIVES FOR LANDMARKS

The City of Chicago promotes the use of local, state and federal preservation incentives, as well as other available city development incentives (e.g. Tax Increment Financing [TIF], facade rebate program, etc.), to assist in the preservation of the City's landmark buildings and other historic properties.

Class 'L' Property Tax Incentive

A special property tax assessment classification for landmark rehabilitation was developed by the City of Chicago along with the Cook County Assessors' Office and approved by the Cook County Board in 1998. The Class L incentive reduces the tax assessment level over a twelve-year period for commercial and industrial buildings designated as local landmarks; provided their owners invest at least half of the building's value in an approved rehabilitation program. The Class L incentive was expanded in 2002 to include buildings used for multi-family rental (7 units or more) and certain not-for-profit-owned, income-producing properties. Individually designated buildings and contributing buildings in landmark districts are both eligible for the Class L incentive.

Granting a Class L incentive for a building begins with the review of the proposed scope of work and budget by the Commission to determine if the proposal meets the minimum investment threshold and the standards and guidelines for rehabilitation of historic buildings. The Commission then recommends that City Council approve an ordinance for the proposed project. Once the ordinance is passed, project work can begin. Certification is the final step of the Class L incentive process and occurs when the Commission reviews the project to determine if the proposed scope of work has been substantially completed according to the approved Class L budget.

In 2014 the Commission recommended that six building projects receive the Class L incentive. Five of those projects were subsequently approved by City Council. One project, the Three Arts Club located at 1300 N. Dearborn Parkway, is still pending. Introduction to the City Council is scheduled for 2015.

2014 Class 'L' Ordinances

The City Council adopted Class L Ordinances for the following properties in 2014:

333 North Michigan Avenue Building

This project is an exterior and interior rehabilitation for continued use of the commercial office building with retail spaces on the ground and second floors. The exterior scope of work included masonry repairs and cleaning; recreation of the historic main entry; storefront replacement; recladding of the existing rooftop addition; installation of reflective energy-star coating on existing roofs; and installation of architectural accent lighting.

The interior scope of work includes restoration of the historically significant main lobby; elevator modernization and all new elevator cab interiors; exit stair modifications; upgrades to mechanical, plumbing, electrical and fire protection systems; and phase one installation of new sprinklers.

Amount invested by the applicant: \$47,877,495
Other Financing: 20% Federal Tax Credit
Estimated completion date: Spring 2015

Milwaukee Avenue District – 1606-08 N. Milwaukee Avenue

This project is an exterior and interior rehabilitation to convert the office building into a new 70-room boutique hotel with retail spaces on the ground floor. The exterior scope of work includes extensive masonry repairs and cleaning; repair of the storefronts at the 2-story base and repair/replacement of windows; construction of a one-story rooftop addition for amenity space; installation of a vegetative 'green' roof and exterior lighting. Interior work includes the rehabilitation of the first-floor lobby; elevator modernization; installation of a new sprinkler system; and new HVAC, plumbing, electrical, and fire protection systems.

Amount invested by the applicant: \$22,179,705 (including acquisition cost)
Other Financing: 20% Federal Tax Credit
Estimated completion date: Fall 2015

Chicago Motor Club Building – 68 East Wacker Place

The project is a conversion of the long-vacant Chicago Motor Club office building into a new select service hotel with 143 rooms. The exterior scope of work includes masonry repairs and cleaning; repairs to the ornamental cast iron entry; window repairs, installation of a new entrance canopy, installation of a vegetative 'green' roof; and installation of architectural accent lighting. The interior scope of work includes restoration of the historically significant main lobby; elevator modernization and all new elevator cab interiors; exit stair modifications; upgrades to mechanical, plumbing, electrical and fire protection systems; and installation of new sprinklers.

Amount invested by the applicant: \$40,524,931
Other Financing: 20% Federal Tax Credit
Estimated completion date: Summer 2015

London Guarantee and Accident Building – 360 N. Michigan Avenue

The proposed project is to convert the London Guarantee and Accident office building into a new hotel. The exterior scope of work includes masonry repairs and cleaning; removal of fire escapes, window repair and replacement, a new one-story rooftop addition and rooftop deck. The interior scope of work includes the build-out for 375 hotel rooms, meeting and ballroom spaces, fitness center, and retail spaces; elevator modernization; upgrades to mechanical, plumbing, and electrical systems. A new 22-story, 75-room side addition is proposed to be constructed on the adjacent vacant parcel. The cost and scope of work for the side-addition are not eligible for the Class L tax incentive. However, the entire project will be LEED Certified.

Amount invested by the applicant: \$126,123,062
Other Financing: 20% Federal Tax Credit
Estimated completion date: June 2016

Polish National Alliance Building – 1514-20 W. Division Street

An exterior and interior rehabilitation was proposed in order to redevelop this two-story office building to house Studio Gang Architects. A portion of the building located on the basement level and first floor will be leased for restaurant or retail space. Class L improvements include spot masonry repair; removal of all signage; window replacement to match the historic configuration on street facades; repair and recoating of decorative metal and spandrel panels; installation of architectural accent lighting and vegetative ‘green’ roof; and construction of a new one-story rooftop addition and deck. Interior work includes restoration of main lobby stair; installation of a new elevator; and rehabilitation for owner’s offices.

Amount invested by the applicant: \$6,475,000 (including \$2.2M in acquisition costs)
Other Financing: N/A
Estimated completion date: End of 2015

Roanoke Building – 11 S. LaSalle Street

The project rehabilitates this office building into a new 375-room Residence Inn. The proposed exterior scope of work included repair of historic steel windows on floors two and four; replacement of non-historic windows on floors three and 5-21; rehabilitation of storefront transoms at the base of the building and a new canopy on LaSalle Street; limited masonry work and installation of a vegetative ‘green’ roof. The interior of the building will be rehabilitated to accommodate a hotel lobby and meeting rooms on the second floor, meeting rooms and hotel rooms on the third floor and floors 4–35. Interior work also includes the replacement of mechanical, electrical, plumbing and fire protection systems.

Amount invested by the applicant: \$87,850,000
Other Financing: 20% Federal Tax Credit
Estimated completion date: November 2015

2014 Class ‘L’ Property Certifications

In 2014 the Commission reviewed and issued final certifications for the rehabilitation of three properties:

CLASS “L” INCENTIVE – COMPLETED PROJECTS

IBM Building - 330 N. Wabash Avenue

The adaptive reuse of the former office building included the conversion of floors 2-13 and a portion of the ground-floor lobby to a new hotel with 316 rooms. The remaining floors were rehabilitated and retained as office floors. Exterior improvements included a new hotel canopy and entrances on the ground floor along Wabash Avenue, a new green roof and new roofing, exterior column cladding repair, and select window replacement. A new sky hotel lobby was created as well as ballrooms, meeting spaces, a restaurant, a new indoor pool, and a spa and fitness center. The ground-floor lobby, included in the designation ordinance as a significant feature, was restored and new glass walls inserted to divide the hotel and office lobbies. Renovations on the office floors included rehabilitation of the common areas and elevator modernization. Also, in 2010, the Building was awarded a Leadership in Energy and Environmental De-

sign (“LEED”) Existing Building Operations and Maintenance Silver Certification.

Investment:	\$243.8 MM (excluding acquisition cost)
Other Financing:	20% Federal Tax Credit

IMPACT

Occupancy Pre-Class L	63%
Occupancy Post-Class L	94%
Building Classification Pre-Class L	A-
Building Classification Post-Class L	A
Employment	1,240 temporary jobs 1,038 permanent jobs retained 2,539 new permanent jobs Up to 100 additional temporary hotel jobs during the year to meet seasonal demands

Inland Steel Building - 30 W. Monroe Street

The rehabilitation of this 19-story office building included the restoration of the historically significant ground-floor lobby; select repair of the exterior wall and windows; installation of a new vegetative 'green' roof; repair/replacement of ceilings; installation of new energy efficient lighting; upgrades to the bathrooms including new energy efficient plumbing fixtures, new finishes for the elevator cabs and lobbies; and upgrades to the mechanical, electrical, plumbing, and fire protection systems. Due to all of the energy efficient upgrades, the building's typical office floor energy usage has been reduced by 65%.

Investment: \$32,950,093 MM
Other Financing: 20% Federal Tax Credit

IMPACT

Occupancy Pre-Class L 55%
Occupancy Post-Class L 87%
Building Classification Pre-Class L B
Building Classification Post-Class L A
Employment
150 temporary jobs
500 permanent jobs retained
300 new permanent jobs

Old Republic Building - 307 N. Michigan Avenue

The owner rehabilitated this 23-story building for continued use as an office building with retail. Exterior work included the repair of the historic terra-cotta cornice, masonry parapet and a new roof and roof pavers. Non-historic front doors were replaced with three new accessible doors and a non-historic, incompatible storefront was removed and a new storefront installed. The bulk of the project was for mechanical upgrades including new chillers, sprinklers and elevator equipment. With these renovations and new equipment, the building now exceeds ASHREA 90.1-2004 energy performance standards by at least 14% as required by the City's Sustainable Development Policy. The main lobby and upper-level elevator lobbies and corridors were also restored as part of the project.

Investment: \$14,943,562 MM
 Other Financing: 20% Federal Tax Credit

IMPACT

Occupancy Pre-Class L 90%
 Occupancy Post-Class L 90%
 Building Classification Pre-Class L B+
 Building Classification Post-Class L A
 Employment 80 temporary jobs
 150 permanent jobs retained

Other Projects

Another notable City-assisted restoration project involving an historic landmark building was the completed rehabilitation of the Union Park Hotel at 1519 W. Warren Boulevard which was redeveloped for affordable rental housing. The rehabilitation of the Rosenwald Apartments at 4600 S. Michigan Ave. is scheduled to begin in 2015. This property is not a designated Chicago landmark but is identified in the Chicago Historic Resources Survey as potentially historically significant and is listed on the National Register of Historic Places.

PERMIT FEE WAIVER APPLICATIONS APPROVED IN 2014

Total Count: 21

	<u>Project Address</u>	<u>Landmark/District Name</u>	<u>Ward</u>
1	1514 N. Leavitt	Wicker Park	1st Ward

20	1725 N. Hudson	Old Town Triangle	43rd Ward
21	4550 N. Hermitage	All Saints Church and Rectory	47th Ward

Permit Fee Waiver

On February 26, 1997, the City Council passed legislation to enable owners of landmark properties to apply to receive a waiver of Chicago building permit fees. Twenty-one permit fee waivers were approved for landmark properties in 2014 compared with 19 in 2013.

5. HISTORIC PRESERVATION PLANNING

The Historic Preservation Division staff initiated a comprehensive planning study of its landmark designation program in 2013. Work continued on this plan in 2014; the Division applied for a grant to prepare a context statement on the city's industrial architecture for the plan. This would be the first historic context statement developed by the Division and it is hoped that this document will serve as a model for additional context statements to inform the overall designation plan. In carrying out this study, staff is following the Secretary of the Interior's Standards and Guidelines for Preservation Planning as well as the National Park Service's (NPS) "History in the National Park Service: Themes and Concepts" published in 1994.

In April of 2014 the Commission on Chicago Landmarks adopted a preliminary landmark recommendation for the Fulton-Randolph Market District. The designation process for this district is ongoing and will continue into 2015 according to the Chicago Landmarks Ordinance procedures. In terms of preservation planning, this landmark designation is significant in two ways: first, it is a component of a larger comprehensive planning effort, and second, design guidelines are being developed specifically tailored to the architectural character and needs of the district.

The comprehensive plan, known as the Fulton Market Innovation District and adopted by the Chicago Plan Commission in July 2014, is intended to coordinate development patterns that balance the area's historic role as a center for food production and distribution, along with its more recent evolution as a home to innovative industries, culture, nightlife, and housing. The planning area is bounded by Hubbard Street, Halsted Street, Randolph Street and Ogden Avenue and includes the proposed landmark district. The Fulton-Market Innovation District plan recognizes the historic character of the area and recommends the adoption of the proposed landmark district. The plan also provides the framework for more than \$42 million in area infrastructure improvements to address a variety of above- and below-grade public works for both current and future uses in the district. CDOT streetscape improvements focusing on pedestrian safety and loading operations for the length of Fulton Market Street are currently being developed and reviewed by the Commission on Chicago Landmarks.

In addition to being part of a comprehensive planning effort, the proposed landmark designation of the Fulton-Randolph Market District is also noteworthy in that it includes design guidelines. These design guidelines, which are in draft form, have been prepared to guide the treatment of properties and streetscapes throughout the proposed landmark district in order to preserve and enhance its unique character. Overall these guidelines aim to help strengthen the identity of this area and support existing uses, while encouraging new, compatible development. Renovation of existing buildings for contemporary use is encouraged and new construction and additions are allowed throughout. Streetscape guidelines aim to maintain existing uses, such as loading, to best serve existing businesses, while improving pedestrian safety and comfort and promoting other streetscape improvements. The draft guidelines were developed with property owners in

the district and design professionals, and the draft document is currently available for public comment and input. The Commission on Chicago Landmarks will consider formal adoption of the design guidelines in 2015.

City staff continues to work with National Park Service, the Illinois Historic Preservation Agency and the National Parks Conservation Association to advance Chicago's first National Park in the Pullman District. The National Parks Conservation Association, with the City of Chicago, has been awarded a Chicago Metropolitan Area Planning Grant to develop a heritage tourism plan for Pullman and Roseland to accommodate visitors to the park. Work on this plan will begin in 2015.

As was noted in last year's annual report, the Historic Preservation Division remains a consulting party in Federal Section-106 reviews for the proposed redevelopment of three Chicago Housing Authority (CHA) complexes: the Julia C. Lathrop Homes, Altgeld Gardens and the Frances Cabrini Row Homes. The Division will continue in that role as these projects move forward. The Division's overall objective with these projects is to ensure that the resources remain listed or eligible for listing on the National Register so that their redevelopment can leverage the Federal Rehabilitation Tax Credits for Historic Buildings.

The Division also continued to be a consulting party in Federal Section-106 and State Section-107 reviews for Chicago Transit Authority (CTA) projects, including the rehabilitation of the Damen Avenue station on the Blue Line, the Red Line Extension, and the Red-Purple Bypass, the latter two projects will continue into 2015. In late 2014 the Division also participated in the initiation of the Section 106 consultation process for the Wilson and Four Mile water intake cribs; this consultation will continue into 2015.

6. DEMOLITION-DELAY ORDINANCE

Conducted from 1983-95, and published in 1996, the Chicago Historic Resources Survey (CHRS) identified more than 17,000 properties throughout the city that were considered to have some potential architectural and historical importance. This information is available at City libraries and research institutions, as well as on the Chicago Landmarks website. The two-highest survey ratings ("red" and "orange") are also mapped as a GIS layer on the city's online Zoning Map.

In 2003, the City Council passed an amendment to the Chicago Building Code to establish a delay of up to 90 days for the issuance of any demolition permits for certain historically significant buildings identified in the CHRS (those rated as "red" or "orange"). The delay allows DPD to explore options, as appropriate, to preserve the structures, including possible landmark designation as an option.

In 2014, some 1354 applications were reviewed with a total of 34 permit applications involving partial or full demolition triggering review by DPD under the provisions of the Demolition-Delay Ordinance (26 applications were reviewed in 2013). The majority of the demolition applications were for neighborhood residential buildings including worker's cottages, single family residences, flat and apartment buildings.

Four of the reviewed applications (7148 S. Dorchester Ave., 2725 W. Evergreen Ave., 4901 W. Ferdinand Ave., 7630 S. Union Ave.), were in response to court-ordered demolitions as the result of fires or other dangerous and hazardous conditions. The demolition delay ordinance does not apply in these cases.

At time of writing there are three permit applications in the 90-day hold demolition-delay process: a masonry building at 1100 W. 18th St., a 2-story portion of a masonry school building at 2100 E. 87th St., a church at 873 N. Sedgwick Ave. These applications were submitted in 2014 and are under review with the 90-day period continuing into 2015.

While we can report on demolition applications which triggered the Demolition-Delay Ordinance in 2014, it is impossible to measure how often the Ordinance deterred property owners, or potential purchasers of property, from even considering demolition as an option for real estate development.

7. NATIONAL REGISTER NOMINATIONS

During 2014, the Commission reviewed two Chicago nominations to the National Register of Historic Places:

- **Chrysler Village District, Roughly bounded by S. Long Ave., S. Lavergne Ave., W. 63rd St., and W. 65th St. – 13th Ward**
- **Portage Park Bungalow District, Roughly bounded by W. Pensacola Ave., N. Lockwood Ave., W. Hutchinson St., and N. Central Ave. – 38th Ward**

These projects were reviewed at the February and June meetings of the Commission's Program Committee. The full Commission subsequently voted to recommend National Register listing for both of the nominations. As of December 31, 2014, both of the recommended nominations were listed by the Keeper of the National Register.

8. PRESERVATION ENVIRONMENTAL CLEARANCES FOR SECTION-106 REVIEW

In 2014 the Historic Preservation Division reviewed a total of 1450 projects pursuant to the Section 106 review process and the City's status as a Certified Local Government, compared to 1047 projects in 2013. The Division also continued to coordinate with the City's Department of Environment, other City departments, the Chicago Transit Authority (CTA), and the Illinois Historic Preservation Agency on City projects triggering Federal Section-106 and State Section-107 reviews, including the CTA's Red Line Extension and CTA Red Purple Bypass both of which will continue into 2015. In late 2014 the Division participated in the initiation of the Section 106 consultation process for the Wilson and Four Mile water intake cribs; this consultation will continue into 2015.

In fulfillment of the Section-106 review process, the City and the Illinois Historic Preservation

the Community Development Block Grant (CDBG) program of the Department of Housing and Urban Development (HUD); and the Neighborhood Stabilization Program (NSP) funded through the Housing and Economic Development Recovery Act of 2008 (aka, stimulus funds). Both agreements established conditions and stipulations to streamline the Section-106 review of undertakings in these two programs. In the course of 2014, review times averaged 5-10 days for 95% of submittals. In 2015 the Division intends to update our agreements on categorical exclusions to further streamline these routine reviews.

9. PUBLIC OUTREACH AND OTHER ACTIVITIES

During the year the Historic Preservation Division staff assisted the public with over 10,000 information requests, including questions on Chicago history and architecture, individual house history, permit review, the historic resources survey, economic incentives, technical assistance, and local and National Register designations. The public also uses the Commission's website, library and photo collection. Historic Preservation Division staff answers inquiries by phone, e-mail, and in person.

Historic Preservation Division staff attended several meetings, conferences, and training sessions in 2014, including participating as speakers, panelists, moderators, and committee members. These activities included:

- Past Forward 2014 National Preservation Conference of the National Trust for Historic Preservation
- Lecture at the Chicago Chapter of the American Institute of Architects
- Lunchtime lecture at the Chicago Architecture Foundation
- Attended the National Alliance of Preservation Commissions' Forum in Philadelphia, a biennial training program
- American Planning Association, 2014 National Conference
- 2014 Chicago AIA Conference
- Illinois Historic Preservation Agency, Section 106/707 Seminar, Springfield, IL
- Tours, community and public outreach meetings for the proposed Fulton Randolph Market District and Pullman National Monument
- Participating on the Chicago Religious Properties task force

10. COMMISSION MEMBERS AND MEETINGS

Members of the Commission on Chicago Landmarks for 2014 were:

Rafael M. Leon, Chairman
(Reappointed 7.28.11, to serve through 3.11.15)

James Houlihan, Vice Chairman
(Appointed 7.28.11, to serve through 3.11.15)

Andrew Mooney, Secretary, Ex-Officio Member as Commissioner of DPD
(Appointed 1.1.11)

Dr. Anita Blanchard, Program Committee Chair
(Appointed 7.28.11, to serve through 3.11.15)

Victor Ignacio Dziekiewicz
(Appointed 1.17.13, to serve through 3.11.15)

Tony Hu
(Appointed 7.28.11, to serve through 3.11.15)

Mary Ann Smith
(Appointed 7.28.11, to serve through 3.11.15)

Richard Tolliver
(Appointed 3.5.14, to serve through 3.11.15)

Ernest Wong, Permit Review Committee Chair
(Reappointed 7.28.11, to serve through 3.11.15)

The Commission customarily meets the first Thursday of every month. The list of meeting attendance follows:

January 9:	Leon, Mooney, Dziekiewicz, Smith, Wong
February 6:	Leon, Mooney, Dziekiewicz, Smith, Wong
March 6:	Leon, Mooney, Blanchard, Dziekiewicz, Smith, Wong
April 3:	Leon, Houlihan, Mooney, Blanchard, Dziekiewicz, Smith, Tolliver, Wong
May 1:	Leon, Houlihan, Mooney, Dziekiewicz, Hu, Tolliver, Wong
June 5:	Houlihan, Mooney, Blanchard, Smith, Tolliver, Wong
July 10:	Leon, Mooney, Dziekiewicz, Hu, Smith, Tolliver, Wong
August 7:	Leon, Houlihan, Mooney, Blanchard, Dziekiewicz, Hu, Smith, Tolliver
September 4:	Leon, Houlihan, Mooney, Dziekiewicz, Smith, Tolliver
October 2:	CANCELLED
November 6:	Leon, Houlihan, Mooney, Blanchard, Dziekiewicz, Tolliver
December 4:	Houlihan, Mooney, Dziekiewicz, Hu, Smith, Tolliver, Wong

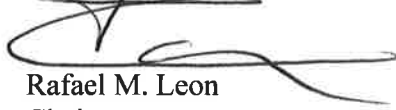

In 2014, the Commission operated with the following committees:

Program Committee (Chair: Blanchard): The Commission's Program Committee reviews public suggestions generally two times a year and forwards them to DPD for further review and consideration; and also reviews nominations to the National Register of Historic Places as part

of the City's Certified Local Government responsibilities. The committee meets as needed.

Permit Review Committee (Chair: Wong): Reviews permit applications for proposed work on designated and proposed landmark buildings to assure compliance with preservation standards. This committee meets monthly.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Rafael M. Leon', with a long, sweeping underline that extends to the right.

Rafael M. Leon
Chairman
Commission on Chicago Landmarks

Permit Review Activity for 2014

Report to the Commission on Chicago Landmarks

2014 PRESERVATION EXCELLENCE AWARDS

Chicago Landmark Awards for Preservation Excellence 2014

In its fifteenth year, the Chicago Landmark Awards for Preservation Excellence are given by the Commission on Chicago Landmarks for designated Chicago Landmarks, properties within Chicago Landmark Districts and other projects that promote Chicago's architectural history as a way to recognize and acknowledge the critical role property owners, businesses, and citizens play in the preservation of the city's historic and cultural heritage.

Selected by the Commission's Permit Review Committee, this year's projects represent a great cross-section drawn from throughout the city—from the rehabilitation and adaptive reuse of a factory building to a residential restoration to the rehabilitation of a downtown architectural icon. What the projects all have in common is an exceptional commitment to Chicago's historic architecture.

The Commission on Chicago Landmarks, whose nine members are appointed by the Mayor and the City Council, was established in 1968 by City ordinance. It is responsible for recommending to the City Council individual buildings, sites, objects or entire districts for designation as Chicago Landmarks, which protects them by law. The Commission is staffed by the Chicago Department of Planning and Development, Historic Preservation Division, 121 N. LaSalle St., Room 1101, Chicago, IL 60602; phone 312-744-3200; fax 312-744-9140; web site, <http://www.cityofchicago.org/landmarks/>.

2014 PRESERVATION EXCELLENCE AWARDS

1519 W. Warren Blvd. Union Park Hotel (formerly Viceroy Hotel) Exterior and Interior Rehabilitation

Recipient: Heartland Housing / Heartland Alliance

The Union Park Hotel was built in 1929 as an apartment hotel building. This Art-Deco style building, also known as the Viceroy Hotel, is clad in brick and multi-colored terra cotta with elaborate details. In 2008, the City of Chicago purchased the vacant building as well as an adjacent triangular parcel. The City solicited rehabilitation proposals for the site, and Heartland Housing was chosen as the developer. The project entailed the conversion of the former hotel into 90 units, including support services and job training programs. The rehabilitation work included terra-cotta repairs, new windows, a new vegetative 'green' roof and solar panels, geothermal heating and cooling, and the installation of small one-story side additions next to a newly landscaped garden and urban farm in the adjacent lot. A negotiated land sale, Tax Increment Financing, low-income tax credits, and the 20% Federal Rehabilitation Tax Credit were approved for the project. The Union Park Hotel was listed on the National Register of Historic Places in 2010 and was designated a Chicago Landmark on June 9, 2010.

2545 W. Diversey Pkwy. Vassar Swiss Underwear Co. Building Exterior Rehabilitation and Adaptive Reuse

Recipient: Baum Development, LLC

The Vassar Swiss Underwear Co. Building was designed by the Chicago architectural firm of Lawrence G. Hallberg & Co. and built in two stages between 1913 and 1924. Vassar Swiss and its associated companies occupied the four-story warehouse loft building for more than 50 years and produced high-quality men's underwear. The building had been vacant for several years until Gx Chicago LLC purchased the property in 2008. The building conversion included the creation of upper-floor offices in addition to ground-floor retail spaces and parking. Exterior work included masonry repairs, cleaning, tuckpointing, tower clock repairs, construction of new penthouse enclosures; construction of a landscaped outdoor terrace courtyard with a new addition, installation of new storefronts, new double-hung windows, and architectural lighting. The building achieved LEED Platinum certification, the highest possible energy-savings rating in the real-estate industry. Both the Class L property tax incentive and the 20% Federal Rehabilitation Tax Credit were used to finance the project. The Vassar Swiss Underwear Company was listed on the National Register of Historic Places in 2007 and was designated a Chicago Landmark on July 30, 2008.

2014 PRESERVATION EXCELLENCE AWARDS

330 N. Wabash Ave. IBM Building Rehabilitation and Adaptive Reuse

Recipient: 330 N. Wabash Avenue, LLC and Pacific Chicago, LLC

The IBM Building, completed in 1972, was the last American office building designed by internationally renowned architect Ludwig Mies van der Rohe. At the time of its construction, the building boasted technological innovations designed specifically for the company, including a state-of-the-art electric heating and cooling system run by an IBM computer. The adaptive use of the former office building included renovations of upper-floor offices and common areas. A portion of the ground-floor lobby and floors 2-13 were converted to space for a new hotel. Exterior improvements included the installation of a new hotel canopy and entrances along Wabash Avenue, a new green roof installation, the repair of exterior column cladding, and select window replacement. Interior rehabilitation work was a significant part of the project and included asbestos abatement, installation of sprinklers throughout the building, elevator modernization, as well as installation of new mechanical, electrical, and plumbing systems to support the hotel. The ground-floor lobby was restored, and new glass walls were inserted to divide the hotel and office spaces. The Class L property tax incentive and the 20% Federal Rehabilitation Tax Credit were approved for the project. The IBM Building was listed on the National Register of Historic Places in 2010 and was designated a Chicago Landmark on February 6, 2008.

2014 PRESERVATION EXCELLENCE AWARDS

2778 N. Milwaukee Ave. Milwaukee-Diversey-Kimball District Exterior Rehabilitation

Recipients: Fox Chicago, LLC

This three-story commercial building was built in 1927 and for many years housed a branch of the Goldblatt Brothers department store, an important pioneer in chain-store retailing in Chicago. Designed by Rissman & Hirschfeld, the building is richly decorated in the Classical Revival style with elaborate terra-cotta detailing. Exterior and interior alterations included terra-cotta repair, masonry cleaning, the replacement of non-historic glass block windows with new windows to match the historic configuration, storefront repairs, the removal of fire escapes and abandoned sign metal work, and the installation of new light fixtures along the parapet to restore this original feature. The upper floors were converted into residential units. The rehabilitation of this building contributes to the continued growth of this important six-corner intersection. The 20% Federal Rehabilitation Tax Credit was approved for this project. The Milwaukee-Diversey-Kimball District was designated a Chicago Landmark on February 9, 2005.

2014 PRESERVATION EXCELLENCE AWARDS

John Baird Award for Stewardship in Historic Preservation Façade Legacy Project

Recipient: Pullman Civic Organization - Beman Committee

Pullman was the combined vision of company owner George M. Pullman, architect Solon S. Beman, and landscape architect Nathan F. Barrett. This industrial town was constructed between 1880 and 1884. In addition to cultural, religious, and recreational buildings, the community included over 1750 dwelling units. The residences were built with a wide range of design details to reflect the economic and social status of the employees who resided in them.

The Beman Committee of the Pullman Civic Organization is dedicated to promoting the historical significance of Pullman and preserving the architectural integrity of the district in accordance with the standards and guidelines for rehabilitation established by the Secretary of the Interior. In 2007, the group began to survey every residential building in the south section of Pullman to document existing conditions and the remaining historic details of each individual façade. This documentation, in addition to thousands of hours of research, led to the creation of the Façade Legacy Project and the development of a guide that contains measured architectural drawings of each primary façade type, complete with porch, window, and door configurations. The project was completed in 2013 and the reference guide is now available for residents to use when considering a rehabilitation project.

The Pullman Historic District was listed as a National Historic Landmark on October 8, 1969. Pullman was designated a Chicago Landmark District on October 16, 1972 (south section) and June 9, 1993 (north section).

2014 PRESERVATION EXCELLENCE AWARDS

530 W. 18th St. Schoenhofen Administration Building Exterior Rehabilitation and Addition

Recipient: Graceland Development

The Schoenhofen Brewery, started in 1860 by Prussian and German immigrants, was a prominent Chicago brewery through the 19th and early 20th centuries. German architect Adolph Cudell designed the Administration Building, which was constructed in 1886. The building had been vacant for more than two years when the project began. Rehabilitation work included some masonry repair and replacement, the installation of a green roof, and new wood windows. All secondary elevations of the building were substantially rebuilt because of damage due to water infiltration, in addition to complete replacement of the interior floor system at each level. The building is now used as offices. The Class L tax reduction and the 20% Federal Rehabilitation Tax Credit incentives were approved for this project. The Schoenhofen Brewery Historic District was listed on the National Register of Historic Places in 1978. The Schoenhofen Brewery Powerhouse and Administration Building were designated as Chicago Landmarks on July 13, 1988.

2014 PRESERVATION EXCELLENCE AWARDS

400-410 N. Michigan Ave. Wrigley Building Exterior Rehabilitation

Recipient: Zeller Realty Group

One of the city's iconic buildings, the Wrigley Building is a gleaming 24-story terra-cotta-clad office high-rise building with a 16-story annex. Architects Graham, Anderson, Probst and White designed both the original building, constructed in 1921, and the 1924 annex. The current owner purchased the building in 2011 and requested Chicago Landmark designation as part of the redevelopment project. The rehabilitation included extensive exterior and interior work, including terra-cotta restoration and storefront and window replacement. A non-historic screen infill under the 3rd-floor connecting bridge was removed, and the plaza between the two buildings was enhanced for pedestrian use. Interior lobbies were renovated and upper-office floors were extensively upgraded. Exterior architectural lighting was also installed. The Class L property tax incentive and 20% Federal Rehabilitation Tax Credit were approved for the project. The Wrigley Building was listed on the National Register of Historic Places in 1978 as a contributing building to the Michigan-Wacker Historic District, and it was designated as a Chicago Landmark on May 9, 2012.

2014 PRESERVATION EXCELLENCE AWARDS

319 W. Concord Place Old Town Triangle District Rehabilitation

Recipient: Matthew Barenberg

This two-story masonry and frame single-family residence, located in the Old Town Triangle District, was vacant for a number of years. The building had been significantly altered over time, and it was resting on a substandard foundation, which contributed to other structural issues. Extensive exterior and interior work was completed to rehabilitate the building and bring it up to current building code standards. A new foundation was constructed, non-historic metal and asphalt cladding was removed, and a non-historic sloped roof canopy and posts on the front façade were also taken down. Based on physical evidence, second-floor window openings were enlarged to match historic opening sizes and new, historically-appropriate windows and trim were installed. A new rear addition and garage were also constructed. The Old Town Triangle District was listed on the National Register of Historic Places in 1984 and designated as a Chicago Landmark on September 28, 1977.

2014 PRESERVATION EXCELLENCE AWARDS

7415 N. Sheridan Rd. Emil Bach House Restoration

Recipient: Tawani Enterprises, Inc.

The Emil Bach House was designed by world-famous architect Frank Lloyd Wright for a German immigrant businessman. When originally built in 1915, this compact Prairie-style single-family house had a clear view to Lake Michigan. The building's restoration was based on careful historic research and materials investigation. Site improvements were made, including the replication of garden walls and pavers. The building required new exterior stucco to match the historic color and texture of the original stucco. The historic masonry was repaired and repointed with new mortar that matched the original mortar. Exterior woodwork was stained to match the historic color and finish. The balconies were restored and the second-floor porch was opened. Missing interior features and millwork were restored and missing art-glass windows were replaced throughout. The Emil Bach House was listed on the National Register of Historic Places in 1979 and was designated a Chicago Landmark on September 28, 1977.

2014 PRESERVATION EXCELLENCE AWARDS

2500 W. Lunt Ave. Indian Boundary Field House Restoration and Reconstruction

Recipient: Chicago Park District

The Indian Boundary Fieldhouse was built in 1929 by Chicago architect Clarence Hatzfield, a prominent architect of fieldhouse buildings during the 1920s. The building is notable for its rare and unusual combination of picturesque Tudor Revival design and Native American imagery, and it exemplifies the changing role of parks in Chicago in the early 20th century from pastoral settings devoted to passive recreation to landscapes more intensively programmed with recreational and social uses. In 2012 the building was significantly damaged by fire. Restoration work included the replication of the first-floor ballroom based on historic documentation and original drawings, the reinstallation of salvaged timbers, and the restoration of salvaged lighting fixtures. Existing steel casement windows were retained and repaired as necessary. The multi-colored slate roof was retained and repaired, and masonry was cleaned. Indian Boundary Park was listed on the National Register of Historic Places in 1995, and the Indian Boundary Park Fieldhouse was designated a Chicago Landmark on May 11, 2005.

5454 S. South Shore Dr. Shoreland Hotel Rehabilitation

Recipients: Sillman Group, LLC

Designed by architects Friedstein & Company and built from 1925 to 1926, the Shoreland Hotel is one of the largest apartment hotels in the Hyde Park neighborhood on Chicago's South Side. It is significant for the high quality of its overall design, its impressive entry, and elaborately-detailed Baroque-style terra cotta. The building was used by the University of Chicago as housing for students and faculty for 35 years. The new owner requested Chicago Landmark designation as part of an extensive residential rehabilitation project. The original terra-cotta terrace walls and balustrade at the front of the building were repaired. All non-historic windows above the 2nd floor were replaced with historically-appropriate, double-hung windows, and historic metal windows at the building's base were restored, as was the historic porte-cochere. In addition, the building's double-height lobby, redesigned in the Art Deco style in the late 1930s, was rehabilitated. The project also included the excavation and reconstruction of the front court yard for new lower-level parking, and a new garage structure to the south of the historic building was built. The Shoreland Hotel was listed on the National Register of Historic Places in 1986 and designated a Chicago Landmark on September 8, 2010.

6016 S. Ingleside Ave. Lorado Taft Midway Studios Exterior Rehabilitation

Recipient: University of Chicago

The Lorado Taft Midway Studios is a complex of structures that includes a 3-story masonry house, a barn (moved to the site in 1929), and various additions constructed of salvaged materials. It is significant for its associations with Lorado Taft, an important, early-20th century sculptor and educator; many of his most famous works were created here. A renovation project was conceived as part of the work to create a larger cultural complex for the University of Chicago – the Reva and David Logan Center for the Arts. The scope of work included the replacement of various skylights, the installation of new roofing, the replacement of a deteriorated cupola, and exterior wall repairs. Extensive work for the 3-story house included limestone replacement, masonry repair, and window replacement with historically-appropriate wood windows. A new front porch was constructed based on a historic photo and physical evidence found on the building. The Lorado Taft Midway Studios was listed as a National Historic Landmark in 1966 and designated a Chicago Landmark on December 1, 1993.

2014 PRESERVATION EXCELLENCE AWARDS

1407 N. Hoyne Avenue Wicker Park District Exterior Rehabilitation

Recipient: Tim Sheehan

The Wicker Park District is comprised predominantly of brick single-family houses, two- and three-story town houses, and flats, and it is home to many fine examples of the Victorian, Italianate, Queen Anne, and Second Empire architectural styles. Rehabilitation of this three-story Second-Empire residence included the repair and replication of pressed-metal ornamental features, the restoration of cast-iron porches, and repairs to historic cast-iron fencing. An existing non-historic garage on the side of the building was replaced with a new garage and a three-story stair enclosure. A new three-story rear addition and below-grade terrace areas in the south and east yards were also added. The Wicker Park Historic District was listed on the National Register of Historic Places in 1979 and designated a Chicago Landmark on April 12, 1991.
