7. For purposes of height measurement, the definitions in the Zoning Ordinance shall apply. The height of any building shall also be subject to height limitations, if any, established by the Federal Aviation Administration.

8. The maximum permitted Floor Area Ratio (“FAR”) for the site shall be in accordance with the attached Bulk Regulations and Data Table. For the purposes of FAR calculations and measurements, the definitions in the Zoning Ordinance shall apply. The permitted FAR identified in the Bulk Regulations and Data Table has been determined using a Net Site Area of 526,128 square feet.

9. Prior to the Department of Planning and Development issuing a determination pursuant to Section 17-13-0610 of the Chicago Zoning Ordinance (a “Part II Approval”) for development of any portion of the Property for a drive-through facility, a site plan for the proposed drive-through facility shall be submitted to the Department of Planning and Development for Site Plan Approval. Such site plan need only include the area within the Property for which approval is being sought by the applicant. No Part II Approval for such area shall be granted until an applicable Site Plan has been approved.

The planned development at time of passage does not include a site plan for a drive-through use. The burden of proof remains with the applicant that a drive-through can be located on the site in such a way that does not adversely affect traffic or the physical character and pattern of development in the surrounding neighborhood. The Department of Planning and Development and the Department of Transportation reserve the right to deny the site plan if both departments agree that the drive-through cannot be accommodated appropriately on the site.

If the Department of Planning and Development and the Department of Transportation agree that the applicant has demonstrated that the drive-through is appropriately sited within the planned development and has met all of the other requirements with respect to site plan approval within this statement number 9, then the Department of Planning and Development shall approve said site plan. Following approval of a site plan by the Department of Planning and Development, the site plan shall be kept on permanent file within the Department of Planning and Development and shall be deemed to be an integral part of this Planned Development.

After approval of a Site Plan Approval or Part II Approval by the Department of Planning and Development concerning the Property or a portion thereof, the same may be changed or modified pursuant to the provisions of statement number 9 of this planned development. In the event of any inconsistency between an approved site plan and the terms of this planned development (including any amendments hereto that may be in effect at the time of such approval), the terms of this planned development (as the same may be so amended) shall govern.

A site plan shall, at a minimum, provide the following information with respect to the proposed improvements within the boundaries of the area to be developed:

- a. building elevations;

Plan Commission:

- b. footprint of the improvements;
- c. preliminary landscaping plan;
- d. vehicular and pedestrian circulation;
- e. preliminary cross-sections of the improvements; and
- f. statistical information applicable to the area, including floor area and floor area ratio, uses to be established, building heights and setbacks.

A site plan shall include such other information as may be necessary to illustrate conformance with the applicable provisions of this planned development and any City ordinances or policies in effect at the time of submission of the site plan. Prior to approval of a site plan by the Department of Planning and Development, applicant shall also submit a site plan to the Chicago Department of Transportation for review and approval along with a traffic study describing the impact of the proposed drive-through facility should said traffic study be determined to be required by CDOT. The Department of Planning and Development will not approve the site plan until CDOT has approved the site plan.

10. Upon review and determination, “Part II Review”, pursuant to Section 17-13-0610 of the Zoning Ordinance, a Part II Review Fee shall be assessed by the Department of Planning and Development. The fee, as determined by staff at the time, is final and binding on the applicant and must be paid to the Department of Revenue prior to the issuance of any Part II Approval.

11. The site and landscape plans shall be in substantial conformance with the Landscape Ordinance and any other corresponding regulations and guidelines. Final landscape plan review and approval will be by the Department of Planning and Development. Any interim reviews associated with site plan review or Part II Reviews, are conditional until final Part II Approval.

12. The applicant shall comply with the Rules and Regulations for the Maintenance of Stockpiles, promulgated by the Commissioners of the Departments of Streets and Sanitation, Environment and Buildings, under Section 13-32-125 of the Municipal Code, or any other provision of that Code.

13. The terms and conditions of development under this planned development ordinance may be modified administratively, pursuant to Section 17-13-0611-A of the Zoning Ordinance by the Zoning Administrator upon the application for such a modification by the applicant, its successors and assigns and, if different than the applicant, the legal titleholders and any ground lessors.

14. The applicant acknowledges that it is in the public interest to design, construct and maintain the project in a manner which promotes, enable and maximizes universal access throughout the Property. 15. The applicant acknowledges that it is in the public interest to design, construct, and maintain all buildings in a manner that provides healthier indoor environments, reduces operating costs and conserves energy and natural resources. At the time of a hearing before the Chicago Plan Commission, all developments must be in substantial compliance with the current City of Chicago Sustainable Development Policy set forth by the Department of Planning and Development. The project will exceed ASHRAE 90.1-2004 and will provide a 100 percent green roof for all new net roof area. Included in the 100 percent green roof calculation is not only green roof area but also rainwater harvesting. Rainwater shall be collected into cisterns and pumped back into the irrigation system to maintain the landscape throughout the Property. “Net roof area” is defined as total roof area minus any required perimeter setback, roof top structures, and roof-mounted equipment.
