### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. b. Governmental-Wide and Fund Financial Statements

The financial statements of the SSA have been prepared in conformity with accounting principles generally accepted in United States of America as

applied to governmental units, hereinafter referred to as GAAP (generally accepted accounting principles). The accepted standard-setting body for establishing governmental accounting and financial reporting principles is GASB (the Governmental Accounting Standards Board).

Governmental-Wide financial statements (statement of net position and statement of activities) are prepared using the economic resources measurement focus and the accrual basis of accounting for all of the SSA's activities. The Fund Financial Statements, which focus on the SSA's governmental funds current financial resources measurement focus, are prepared on the modified accrual basis.

Governmental-wide financial statements (statement of net position and statement of activities) are prepared using the economic resources measurement focus and the accrual basis of accounting for all of the SSA's activities. The fund financial statements, which focus on the SSA's governmental funds current financial resources measurement focus, are prepared on the modified accrual basis.

The SSA accounts for its activities in one fund, its general fund.

**c. Measurement Focus, Basis of Accounting and Financial Statement Presentation**

The government-wide financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year in which they are levied.

The governmental fund financial statements are prepared on the modified accrual basis of accounting with only current assets and liabilities included on the balance sheet. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, both measurable and

available to finance expenditures of the current period. Available means collected within the current period or soon enough thereafter to be used to pay liabilities of the current period. Property taxes as susceptible to accrual and recognized as a receivable in the year levied. Revenue recognition is deferred unless the taxes are received within 60 days subsequent to year-end. Expenditures are recorded when the liability is incurred.

The preparation of financial statements in conformity with generally accepted accounting principles accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reported period. Actual results could differ from those estimates.

d. Assets, Liabilities, and Net Position

Cash and cash equivalents

The SSA's cash and cash equivalents are considered to be short term liquid investments such as cash in banks, money markets, and other financial instruments that can be reduced to cash in thirty days or less.

Receivables

All property tax receivables are shown net of allowances. As of December 31, 2014, the allowance is estimated to be 2% of the outstanding property taxes.

Fund Equity / Net Position

Governmental fund equity is classified as fund balance. Fund balance is further classified as nonspendable, restricted, committed, assigned, or unassigned. Nonspendable fund balance cannot be spent because of its form. Restricted fund balance has limitations imposed by the SSA board

through approval of resolutions. Assigned fund balance is a limitation imposed by a designee of the SSA board. Unassigned fund balance is the net resources in excess of what can be properly classified in one of the above four categories.

When both restricted and unrestricted fund balances are available for use, it is the SSA's policy to use restricted fund balance first, then unrestricted fund balance. Furthermore, committed fund balance is reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications can be used.

For the government-wide financial statements, net position is reported as invested in capital assets net of related debt, restricted or unrestricted. Invested in capital assets, net of related debt, if applicable, is comprised of the net capital asset balance less any related debt. Restricted net position is when restrictions are placed on net assets from 1) externally imposed by creditors, grantors, contributors, or laws, or regulations of other governments or 2) imposed by law through constitutional provisions or enabling legislation. The remaining net position is classified as unrestricted.

e. Subsequent Events

Subsequent events have been evaluated through April 20, 2015, which is the date the financial statements were available to be issued.

**NOTE 2 – Cash and cash equivalents**

The SSA defines cash and cash equivalents as short term liquid investments such as cash in banks, money markets, and other financial instruments that can be reduced to cash in thirty days or less. The SSA maintains its cash balance in a financial institution located in Chicago, IL. The balance is insured by the Federal Deposit Insurance Corporation up to \$250,000. The SSA's cash balance did not exceed the insurance level as of December 31, 2014.

**NOTE 3 – Property taxes**

The SSA's principal source of revenue is from real estate taxes levied on certain property located in its boundaries. Property taxes become an enforceable lien on real property on January 1 of the year it is levied. Taxes are payable in two installments in the subsequent year. The first installment is an estimate based on the prior year billed levy (55%) and is due March. The second installment is due in August or 30 days from the mailing of the tax bills, if issued later than July 1. The second installment is based on the remaining amount of the levy on file with the County. Bills are issued and collected by Cook County who remits the SSA's share to the City who then remits the monies to the SSA.

**NOTE 4 – Deferred Inflows of Revenue**

A deferred inflow of resources / property tax revenue represents an acquisition of fund balance that applies to a future period and therefore will not be recognized as an inflow of resources (revenue) until that future time.

**NOTE 5 – Fund Equity / Net Position**

During 2014, the City of Chicago Special Service Areas changed their basis of accounting to follow the standards established by the Government Accounting Standards Board (GASB) applicable to governmental entities. Previously, the City of Chicago Special Service Areas was following a basis of accounting similar to a not-for-profit entity under the standards of the Financial Accounting Standards Board (FASB).

The SSA is required to present information regarding its financial position and activities according to the Agreement for Sauganash Chamber of Commerce Special Service Area 62 between the City of Chicago and Sauganash Chamber of Commerce. As of December 31, 2014, the SSA had total fund balance of \$37,128. These funds will be utilized in this special service area during future years. If the SSA would have continued

to follow the basis of accounting by the standards under FASB, the ending carry over amount / fund balance / net assets would have been \$35,779, this represents 48% of the original approved 2014 budget.

Sauganash Chamber of Commerce Special Service Area 62 was advised by Sauganash Chamber of Commerce, sole service provider of SSA 62, that approval was made for a carryover of \$35,779, 48% of the 2014 budget, to be allocated to a reserve directly related to the following future projects related to hardscape and other initiated projects.

**NOTE 6 – Related Party Transactions**

The SSA is affiliated with Sauganash Chamber of Commerce as its sole service provider. Special service area 62 shares office space, equipment, and employees through this affiliation.
