

Code: 8345

Family: Construction, Maintenance, and Skilled Labor
Service: Operation and Construction
Group: Street, Water, Sewer and Disposal
Series: Water and Sewer Maintenance and Construction

CLASS TITLE: FOREMAN OF SEWER CLEANING

CHARACTERISTICS OF THE CLASS

Under general supervision, supervises, coordinates and inspects the activities of crews engaged in the inspection and cleaning of sewers and drainage structures and scraping and flushing of main sewers in a designated sewer district within the Department of Water Management, and performs related duties as required

ESSENTIAL DUTIES

- Makes work assignments, prioritizes jobs, and directs the work of crews to ensure inspection and cleaning work is performed efficiently and in compliance with departmental and federal standards (e.g., US Environmental Protection Agency)
- Monitors work operations at work sites, observing work activities of crews engaged in operating specialized equipment (e.g., vactor trucks and trucks with orange peels) to clean, flush and remove water and debris in and around sewers and drainage structures including catch basins, gutter boxes, valve basins and main sewer lines
- Checks supply levels, initiates orders to produce needed materials, tools and equipment and arranges for delivery to work sites
- Ensures that work sites and crews are equipped with required safety equipment and that required safety barricades are set-up at sites
- Implements safety work procedures and practices to minimize employee accidents and promote a safe work environment
- Reviews daily manpower reports for accuracy and completeness, coordinates with departmental divisions to ensure sewer repair work identified during cleaning is addressed and closes out work order requests
- Approves time off requests, conducts performance evaluations and initiates and enforces disciplinary actions
- Supervises the preparation of and prepares productivity and work activity reports utilizing various manual and computerized systems
- Oversees the training of crews in the proper and efficient use of tools, equipment and machinery
- Coordinates response activities related to advanced complaints and flooding

NOTE: *The list of essential duties is not intended to be inclusive; there may be other duties that are essential to particular positions within the class.*

MINIMUM QUALIFICATIONS

Education, Training, and Experience

- Four years of work experience in the maintenance, repair, cleaning or construction of water and/or sewer distribution systems.
