 Commissioner
 Department of Water Management

SUBJECT: Request for Emergency Authorization
South Kenwood Avenue Emergency Sewer Lining,
Contract 06-A
 6656 S. to 6700 S. Kenwood Avenue
Project No. 1228

The Department of Water Management requires the immediate lining of approximately 145 Lineal Feet of the 24-inch diameter brick sewer at the subject location. This work is necessary as the existing sewer has been found to be in very poor condition. The condition of the sewer presents a safety and/or health threat to the public as the worst sections of the sewer may collapse anytime if the situation is not addressed immediately.

Attached please find the price quotations from the following contractors:

| 2. | Insituform Technologies USA, Inc. | \$ 33,930.00 |
| 3. | Kenny Construction Co. | \$ 39,460.00 |

We are recommending George W. Kennedy Construction, Inc. for the following reasons:

1. Their proposed cost is lower than Insituform Technologies USA, Inc. and Kenny Construction Company.
