**MEMORANDUM**

**Date:** 3/15/06  
**To:** Barbara Lumpkin

 Department of Procurement Services  
**From:** *Brian S. Murphy*  
 Brian S. Murphy  
 Commissioner  
 Department of Water Management  
**Subject:** Request for Emergency Authorization (Rx 26267)

The Department of Water Management requires trenching/ shoring equipment. These goods are necessary in order to comply with OSHA regulation 29 CFR 1926- Subpart B(excavation). Any excavations or trenches that are five feet deep or greater must be guarded by a shoring system to protect our employees from imminent danger or fatality from excavation cave-in. We currently do not have enough equipment to properly protect all employees. Without these goods this could become a public health and safety issue. Accordingly, the Department of Water Management is requesting emergency authorization for this purchase in the amount of \$187,511.68.

Attached please find three quotations. We are recommending Lee Jensen Sales Co. as they were the lowest bidder and have all goods necessary.

I certify that this emergency poses a clear and imminent danger, requiring immediate procurement services, supplies or equipment to prevent or mitigate the loss or impairment of life, health, property, or essential public services and would not have been avoided by due care and diligence.

Thank you for your assistance. If you have any questions, please call Molly Longanecker at 747- 1684.
