UTILIZING JOC FOR CITY CONSTRUCTION PROJECTS

For all proposed projects please complete items 1 and 2 below. As appropriate, complete items 3, 4 and 5.

(Attach to the MOA)

1. Please describe the major features of the project:

The scope of work to be performed under this sub-order was revised to include additional sidewalk removal, additional installation of portland cement concrete sidewalk, and the installation of new lightpoles instead of relocation of the old ones.

2. Please explain why this project could not be bid using the City's traditional bid process and the need to use the JOC procurement system:

This project has a priority completion by Spring of 2004 since it will be in conjunction with the rehabilitation being done in the adjacent building at the above address. Traditional bidding process requires more time than a JOC contract.

3. If this project is a one trade project, please provide additional explanation of why it would be in the City's best interest to do the project under JOC:

This project is not a one trade project.

4. If it is anticipated that over 25% of the project will be non-prepriced, please provide an explanation on why JOC should be used:

This project will be priced fully by the JOC contractor.

5. If some elements of the proposed JOC project scope of work are covered by City Term Agreements, these elements should be removed from the JOC project scope of work. If it is not desirable to do so, please explain:

No elements are covered under city term agreement.
