MEMORANDUM

To: Jamie L. Rhee, Chief Procurement Officer
Department of Procurement Services

From:  4-2-10
Jose A. Santiago
Acting Executive Director
Office of Emergency Management and Communications

Re: Blanket Memorandum of Authorization
PO 14256
City Lights, Ltd/ZSL Electric

Date: April 2, 2010

The Office of Emergency Management (OEMC) has been approved to use PO 14256: City Lights/Ltd/ZSL Electric under the Bureau of Electricity's (BOE) JOC contract. OEMC was approved to use BOE's JOC contract for the following:

- Joint OEMC/CPD Camera Surveillance program
- Fire Alarm Box Installation and Connectivity Program

All of the work for these projects is similar in scope and cost that BOE has under their JOC requirements.

OEMC is submitting a Memorandum of Authorization (MOA) for all new construction work done under this contract. It would be redundant and unnecessary to submit an individual MOA for each project.

We request that this MOA, with the following Attachment A, be sufficient for all emergency work done utilizing the BOE JOC contract. We propose that for each project, this MOA will be included in the Sub Order Release Package to DPS.

Please see Attachment A for additional details regarding the program.

If you concur with our recommendation, please sign below and return. Thank you.

Utilizing JOC For City Construction Projects

Project Number: J07-805.A

Department: OEMC

Project Manager: Frank Kelly

Telephone #: (312) 746-4414

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3,4 and 5. Attach to MOA (JOC Approval Letter)

1. Please describe the major features of this project.

The scope of this project is to complete an emergency repair of an OEMC duct package damaged by the water department that caused the duct package to become filled with sand and are unable to rod ducts to replace failing communication cable.

2. Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.

By using the JOC process, the time required is much less than the traditional bid process. The reason OEMC needs the JOC Procurement system is because we do not have personnel or proper equipment to complete this type of underground work.

3. If the project is a one trade project, please provide additional explanation of why it would be in the city's best interest to do the project under JOC:

This is a one trade project because OEMC does not have the manpower to complete this task along with all other tasks

4. If it is anticipated that over 25% of the project will consist of Non-pre-priced items, please provide an explanation on why JOC should be used.

This project will be priced fully by the JOC contractor

5. If some elements of the proposed JOC project scope of work are covered by city term agreements, explain why they are included in this JOC project instead of being procured through the term agreements.

No elements are covered under city term agreement
