PROCUREMENT HISTORY

- The boiler to be procured via sole-source procurement authorization is to be installed on board the City of Chicago, Department of Water Management Tugboat James J. Versluis during the next dry dock inspection/shipyard period scheduled for 2013.
It is a direct replacement for the existing boiler installed on board the tugboat, which dates back to 1957.
- This is a first time requirement.
- As the aforementioned company, Ray Burner, is the only United States Company authorized to sell this boiler, no attempt has been made to competitively bid this item.
- An internet search was done in order to locate all authorized distributors concerning this item.
- This is a one-time request.
- I do not believe competitive bidding is possible, as we have not been able to identify other authorized distributors concerning this product.

ESTIMATED COST

- The estimated cost for this requirement is \$18,624.00
The Funding source is 001-09-0504-088-2020-0558-1W706-220550110101990
- The estimated cost would be \$18,624.99 for the fiscal year 2010.
- A quotation was obtained from Ray Burner Co., the only U.S. authorized area distributor that we were able to identify.

4. If we were to consider a boiler from a different manufacturer, a naval Architect would have to be hired in order to determine feasibility, and other installation issues, including but not limited to how the center of buoyancy would be affected.

The required item as manufactured by Way-Wolff Associates, Inc., is a direct replacement for the existing boiler, and will bolt in place after removal of the existing boiler.

SCHEDULE REQUIREMENTS

1. We would like to be in possession of the required item in anticipation of the next inspection/Dry-Dock period concerning the Chicago Department of Water Management Tugboat. This is scheduled for 2013.
2. Note that Ray Burner is the only United States authorized distributor that we have been able to identify concerning this product. They are privy to specifications concerning the existing boiler and the required item.
3. It is critical that we are in possession of the required item prior to the next Inspection/Dry-Dock period concerning the CDWM Tugboat.
4. Competitive bidding may not be possible if Ray Burner Co. chooses not to sell their item to someone other than the end user.

EXCLUSIVE OR UNIQUE CAPABILITY

1. Proposed supplier, Ray Burner Company, is a predominant distributor of marine boilers.
2. The proposed Company is the only United States authorized distributor of the required item that we have been able to identify.
3. Proposed supplier, Ray Burner will ensure that the required item, as manufactured by Way-Wolff and Associates, meets or exceeds all specifications before it is shipped to the City of Chicago, Department of Water Management.
4. It is the intent of the Department of Water Management to have the required aboard the CDWM Tugboat during the next Dry Dock inspection period scheduled for 2013. It is critical that the required item be compatible with existing machinery and appurtenances aboard the CDWM Tugboat in order to ensure proper operation of related environmental control equipment. Proper ambient temperatures have to be maintained aboard the boat in order to ensure reliable operation of critical systems such as the steering and navigation systems.
5. As the only authorized distributor of Way-Wolff products in the U.S., Ray Burner Company is privy to specifications and other proprietary data concerning the required item.

RE: Regulations Governing Waiver of MBE/WBE Goals

To whom it may concern,

We are requesting a waiver of the requirement to meet the MBE/WBE for our contract to supply a replacement sole source Way Wolff Hot Water Heating Boiler for the Department of Water Tub Boat. In an effort to meet the requirement, we telephoned all of the firms on the list of Certified Vendors - Hauling Services and Office Suppliers. The list is attached.

The Hauling Services persons said they only do hauling within the Chicago area and do not do long hauls. They also said they do not do Class 70, items 115540-0, which are burners and boilers.

We then contacted the Office Service firms and they said they do not offer office supplies for the West Coast.

We are requesting a waiver from the Chief Procurement Officer, based on our good faith effort to comply with the requirement of MBE/WBE.

Yours truly,

Russ Westover
President

SUBJECT: Sole Source Procurement
Ray Burner Company
Marine Boiler

DATE: November 23, 2010

The Department of Water Management, Bureau of Water Supply, Division of Water Pumping is requesting a sole source purchase for a Way Wolffe Hot Water Boiler, with Ray Burner Company. The marine boiler to be procured is to be installed in the Chicago Department of Water Management tugboat, the James J. Versluis. The existing boiler was initially installed in 1957 and is currently over (30) years old and is at the end of its useful life cycle.

The marine boiler in operation was initially manufactured by Way-Wolff Associates and Ray Burner Company is the only United States Company an authorized distributor to sell this boiler. Ray Burner Company is also privy to specifications concerning the existing boiler. Also, the proposed Supplier, Ray Burner will ensure that the required item as manufactured by Way-Wolff and Associates meets or exceeds all specifications before it is shipped to the City of Chicago Department of Water Management.

It is the intent of the DWM to have the required item installed aboard the DWM Tugboat during the next Dry Dock inspection period scheduled for 2013. In addition, the required item as manufactured by Way-Wolf and Associates, Inc. is a direct replacement of the existing boiler and will bolt in place after removal of the existing boiler.

Therefore, we would like to request your consideration for a sole source contract with Ray Burner Company for the marine boiler. The estimated cost for this marine boiler is \$18,624 for the fiscal year 2010. This purchase will allow DWM to replace the marine boiler and insure compatibility & proper operation with existing machinery and appurtenances aboard the DWM Tugboat.

NEIGHBORHOODS

In an effort to comply with the City of Chicago MBE/WBE compliance program, Ray Burner Company made a good faith effort by contacting City of Chicago minority Hauling Services (see attached documentation) and was unsuccessful. Therefore, DWM would like to request that this contract be awarded with no stated MBE/WBE compliance goals.

Thank you in advance for your immediate attention. If you have any questions or require additional information in order to process this request, please contact Felicia Rawlings, Supervisor of Contracts at 745-0581.
