

# AMES MIDDLE SCHOOL PROGRAM EXPANSION

## Project Description

The renovation is proposed to support the expansion of the existing middle school program at Ames to include a high school program as well. It would provide another high quality option for the community's high school aged children, while enhancing the learning environment of the 7th and 8th graders that Ames currently serves.

Renovations would include:

**Classroom and Other Interior Improvements:**

- Grades 7-8: Upgrading existing science and computer labs
- Grades 9-12: Adding new science and computer labs
- Grades 9-12: Adding new music and art classrooms
- Grades 9-12: Adding additional administrative spaces
- Replacing the gymnasium floor
- Installing new classroom doors and markerboards

**Building Site and Exterior Improvements:**

- Installing new turf soccer field and surrounding track
- Repairing parking lot
- Adding signage
- Repairing masonry (facade tuck-pointing)

**Accessibility improvements:** Upgrading ADA accessibility

**Control system improvements:** Installing new HVAC system controls
