APPLICATION UNDER THE LAKE MICHIGAN AND CHICAGO LAKEFRONT PROTECTION ORDINANCE 640 West Irving Park Road/4030 North Marine Drive

NARRATIVE

The property that is the subject of the requested approval is commonly known as 640 W. Irving Park Road/4030 N. Marine Drive (the “Property”) and consists of approximately 143,536 sq. ft. of land. The property has frontage on West Irving Park Road, North Marine Drive and West Bittersweet Place. It is west of the Lakeshore Parks, Lake Shore Drive and Marine Drive. It is improved with a complex of three and four-story buildings that was originally used as a school housing at its peak approximately 1,200 students (the “Immaculata Buildings”). The original portion of the Immaculata Buildings was constructed in 1922 with additional buildings constructed in 1954-55. It is currently owned by the American Islamic College (“AIC”) and underutilized. The Immaculata Buildings were designated a Chicago Landmark on July 27, 1983. It was included in the National Register of Historic Places on August 30, 1977. The Property is currently zoned RT-4. Companion applications have been submitted for approval of the proposed development pursuant to the Chicago Landmarks Ordinance and for a Planned Development pursuant to the Chicago Zoning Ordinance.

The proposed development consists of the preservation, rehabilitation and adaptive reuse of the of the Immaculata Buildings into 250 residential units and construction of new 22-story senior residence building in the area currently occupied by the existing main surface parking lot. In terms of the exterior of the Immaculata Building, only minor changes are proposed consisting of removal of some non-historic elements and the addition of a few window openings on the secondary north façade facing the surface parking. In addition, the tuckpointing of the exterior masonry, the repair of the clay roof and copper gutters and retention and restoration of other existing windows to the extent their energy efficiency can be confirmed to perform at 90% of new aluminum windows is envisioned. In the interior of the Immaculata Building, the existing corridors and circulation spaces, including main stairs, will be retained. The existing auditorium and gymnasium spaces in the 1922 building will also be retained to be used as common areas by the building’s residents. The original cafeteria, also known as the Sky Lounge, has been reconfigured into classrooms. The reconfigured space as well as the former classroom and other interior spaces are to be reconfigured by removal and relocation of interior partitions to accommodate the proposed residential units.

The new senior building (the “Senior Building”) will be free-standing and not attached at any point to the Immaculata Buildings. The configuration of the Senior Building was the subject of an extensive review by DPD, including Landmarks Staff, to arrive at its current configuration. The resulting building massing in plan resembles an upside-down “T” shape with the western portion receding starting above the fourth floor to achieve a centered “L” shape of a compact approximately 12,900 sq. ft. floorplate as it rises above the fifth floor. The ground floor will contain the lobby, common space for the residents and loading and service areas. The second to fourth floors will contain parking for 98 cars and from the fifth floor up the residential units

consisting of 32 memory care units, 60 assisted living units and 108 independent living units and amenity space. The top occupiable floor, the twenty-second floor, is recessed with a reduced floor plate of 8,000 sq. ft. and contains amenity space. A 3,000 sq. ft. mechanical penthouse and other mechanical equipment is located above. The aesthetic expressed by the proposed exterior is one that like the two portions of the Immaculata Buildings and in the words of Barry Byrne “bespeaks our own time”¹. The base of the building is to be clad in warm brick/metal panels compatibly distinguishing it from the historic building and providing a material palette that also is consistent with the neighborhood. The fenestration is inspired by the vertical expression of the windows in the Immaculata Buildings. The upper stories are distinctively but compatibly clad with the eastern portion of the “L” clad in glass with a vertical expression evoking the verticality of the 1922 Immaculata Building. On the northern and western portions, a light earth toned metal panel exterior with punch windows is introduced evoking the fenestration of the convent addition to the Immaculata Buildings.

RESPONSES TO POLICIES AND PURPOSES

I. Fourteen Basic Policies

1. Complete the publicly owned and locally controlled park system along the entire Chicago lakefront.

Response: The subject property is on the west side of Marine Drive within the Private Use Zone. The lakefront park system has been completed in this portion of the City for quite a number of years and, as a result, is not affected by the proposed development.

2. Maintain and enhance the predominantly landscaped, spacious and continuous character of the lake shore parks.

Response: The subject property and proposed development are not within the lake shore parks but rather within the Private Use Zone. As a result, the proposed development does not affect the nature of the existing parks but does enhance them by providing additional nearby residents that can use such park areas.

3. Continue to improve the water quality and ecological balance of Lake Michigan. Preserve the cultural, historical, and recreational heritage of the lakeshore parks.

Response: The proposed development will be connected to the existing Chicago Sewer System and will provide on-site detention as required. As a development located in the Private Use Zone, it does not directly impact the cultural, historical and recreation heritage of the lakeshore parks. The development is consistent with the pattern of development along the west side of Lake Shore Drive and as such is consistent with the

1. Landmark Designation Report at page 7.

historical nature of the park edge along this portion of the City and the restoration of the Immaculata Buildings in accordance with applicable City and federal regulations will help preserve the historic community edge. The improvement of the main parking lot with the Senior Building, as well as the reuse of the Immaculata Buildings for residential units, will provide additional users for the parks, which furthers their recreational heritage.

4. Preserve the cultural, historical, and recreational heritage of the lakeshore parks.

Response: The subject property is not located in the lakeshore parks. As a result, this policy is not impacted by the proposed development. The proposed development does, however, seek to restore and preserve a landmark building along the community edge and construct a new senior building that does not impact the landmark building and is compatible therewith.

5. Maintain and improve the formal character and open water vista of Grant Park with no new above-ground structures permitted.

Response: The subject site is nowhere near Grant Park and as such has no negative impact on this policy.

6. Increase the diversity of recreational opportunities while emphasizing lake-oriented leisure time activities.

Response: The proposed development does not impact recreational opportunities within the lakeshore parks but does provide additional users for those opportunities .

7. Protect and develop natural lakeshore park and water areas for wildlife habitation.

Response: The subject site is not within the lakeshore parks but rather in the Private Use Zone and is not a site that has been identified as one to be developed for wildlife habitation.

8. Increase personal safety.

Response: The proposed development will increase personal safety by replacing an underutilized property with occupied buildings that will bring additional residents to the area. As a result, the increased in residential activity will enhance safety, while the design of the proposal suitably accommodates vehicle activities.

9. Design all lake edge and lake construction to prevent detrimental shoreline erosion.

Response: The subject site is not along the shoreline and as such its development does not impact this policy.

10. Ensure a harmonious relationship between the lakeshore parks and the community edge, but in no instance will further private development be permitted East of Lake Shore Drive.

Response: As a site that is located on the west side of Marine Drive, it is removed from the lakeshore parks and does not impact the policy related to construction east of Lake Shore Drive. The existing Immaculata Buildings will be retained and restored preserving an important building along the community edge. The Senior Building is in keeping with the nature of other buildings in the immediate area and, the Senior Building is more modest in size than numerous other buildings along the park/community edge.

11. Improve access to the lakeshore parks and reduce through vehicular traffic on secondary park roads.

Response: All access to the proposed development is from established streets, none of which are secondary park roads. The subject site is in an area with multiple public transit options, including the 136, 146 and 151 CTA bus lines and is approximately 2,230 feet from the Sheridan Red Line Station. The availability of public transit and the proposed development of smaller (studio and one-bedroom) apartments in the Immaculata Buildings and the Senior Building, both of which tend to have lower incidence of automobile ownership, will result in a development that does not have an appreciable negative impact on area traffic.

12. Strengthen the parkway characteristics of Lake Shore Drive and prohibit roadway of expressway standards.

Response: The subject site is not located within the Lake Shore Drive right-of-way and, as a result, does not impact this policy.

13. Ensure that all port, water supply, and public facilities are designed to enhance lakefront character.

Response: The proposed development is not a port or public facility and its water supply and sewage discharge will be connected to the City's existing water and sewer system. As a result, the proposed development does not impact this policy.

14. Coordinate all public and private development within the water, park, and community zones.

Response: The required review of the proposed development by City staff and the Chicago Plan Commission furthers this policy.

II. **Thirteen Purposes**

1. To promote and protect the health, safety, comfort, convenience, and the general welfare of the people, and to conserve our natural resources;

Response: The proposed development will comply with all applicable codes and regulations adopted by the City to ensure that public health, safety and welfare is protected. The review of the development to ensure consistency with the Policies and Purposes of the Lake Michigan and Chicago Lakefront Protection Ordinance further ensures such. Natural resources are conserved in the retention and rehabilitation of the Immaculata Buildings and by the construction of the Senior Building on an existing surface parking lot all in a highly urban area.

2. To identify and establish the Lake Michigan and Chicago Lakefront Protection District and to divide that District into several zones wherein any and all development or construction, as specified in Article V hereinafter, shall be specifically restricted and regulated;

Response: The subject site is in the Private Use Zone and proposed to be developed in accordance with applicable regulations.

3. To maintain and improve the purity and quality of the waters of Lake Michigan;

Response: The proposed development will be connected to the City's existing water and sewer system and as a result it will not affect the purity and quality of the Lake Michigan waters.

4. To insure that construction in the Lake or modification of the existing shoreline shall not be permitted if such construction or modification would cause environmental or ecological damage to the Lake or would diminish water quality; and to insure that the life patterns of fish, migratory birds and other fauna are recognized and supported;

Response: The proposed development does not involve any construction in the Lake or modification of the existing shoreline.

5. To insure that the Lakefront Parks and the Lake itself are devoted only to public purposes and to insure the integrity of and expand the quantity and quality of the Lakefront Parks;

Response: The proposed development will be located within the Private Use Zone and as a result this purpose is not applicable.

6. To promote and provide for continuous pedestrian movement along the shoreline;

Response: The proposed development is not along the shoreline and as a result it does not impact pedestrian movement along that area.

7. To promote and provide for pedestrian access to the Lake and Lakefront Parks from and through areas adjacent thereto at regular intervals of one-fourth mile and additional

places wherever possible, and to protect and enhance vistas at these locations and wherever else possible;

Response: The proposed development does not affect this purpose as the areas for pedestrian access are pre-established and not impacted by the improvement of this private parcel on the west side of Marine Drive. As the proposed development is located on a private parcel, it does not affect vistas along established public pedestrian passageways.

8. To promote and provide for improved public transportation access to the Lakefront;

Response: The proposed development does not detract from public transportation access to the Lakefront but accommodates and further it by providing additional ridership that helps support existing and future investments in area public transit.

9. To insure that no roadway of expressway standards, as hereinafter defined, shall be permitted in the Lakefront Parks;

Response: The subject site is not within the Lakefront Parks and does not propose the construction of any new roadways.

10. To insure that development of properties adjacent to the Lake or the Lakefront Parks is so defined as to implement the above-stated purposes, provided, however, that with respect to property located within the Private Use Zone as established by Article V, VI, and IX of this Ordinance, the permitted use, special use, lot area per dwelling unit, and floor area ratio provisions of the Chicago Zoning Ordinance, Chapter 194A of the Municipal Code of Chicago, shall govern except where such provisions are in substantial conflict with the purposes of this Ordinance or the Fourteen Basic Policies of the Lakefront Plan of Chicago;

Response: The subject site is separated from the Lakeshore Parks by two roadways, Marine Drive and Lakeshore Drive. It is not adjacent to the Lake itself. The proposed development's use, lot area per dwelling unit and floor area ratio will all be in compliance with the proposed Planned Development and consistent with the existing zoning designations that are most prevalent along the community edge. There are no substantial conflicts between the proposed development and the Purposes or Policies of the Lakefront Plan of Chicago.

11. To achieve the above-stated purposes, the appropriate public agency should acquire such properties or rights as may be necessary and desirable;

Response: As the subject property is located west of the Lakefront and not adjacent to the Lakeshore Parks, its development does not affect this policy.

12. To define and limit the powers and duties of the administrative body and officers as provided herein;

Response: This purpose is accomplished through the adoption of the Lake Michigan and Chicago Lakefront Protection Ordinance and the regulations promulgated thereunder and is not affected by the proposed development.

13. Nothing contained in the Lake Michigan and Chicago Lakefront Protection Ordinance shall be deemed to be a waiver or consent, license or permit to use any property or to locate, construct or maintain any building, structure or facility or to carry on any trade, industry, occupation or activity which may be otherwise required by law.

Response: This purpose is acknowledged by the Applicant and on waiver, consent, license or permit is presumed.
