

# **JUVENILE INTERVENTION AND SUPPORT CENTER (JISC) PERFORMANCE MANAGEMENT**

---

26 October 2022

# Agenda

## Agenda

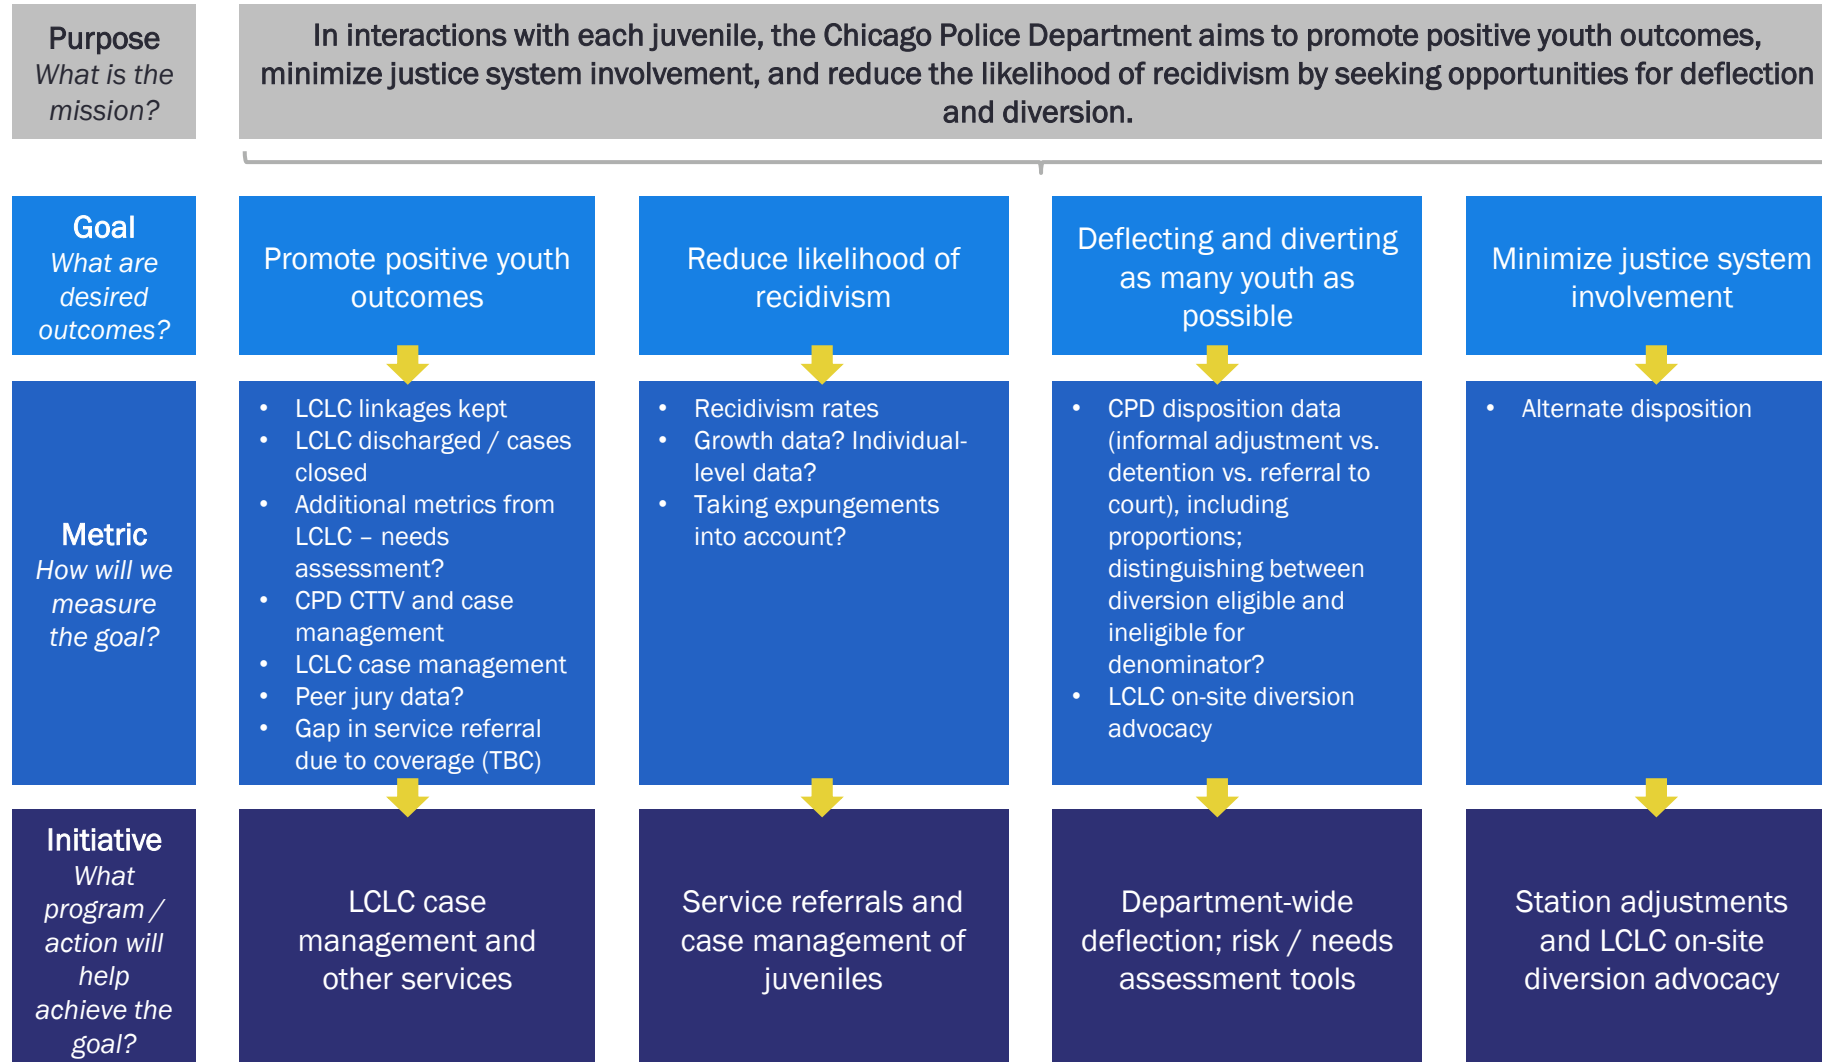

1. Review prior action items
2. Review high-level summary for the month
  - Demographic trends (CPD)
3. Assess progress against goals
  - Promote positive youth outcomes
  - Reduce likelihood of recidivism
  - Deflect and divert as many youth as possible
  - Minimize justice system involvement
4. Deep dive
  - Review disposition types, categories, and Detective's referral process and LCLC's support

## Guiding Questions

1. What trends can be seen in the data?
2. What factors – either positive or negative – might be contributing to these trends?
3. What actions – either reinforcing or corrective – should be taken to address these trends? Who will be responsible?

# JISC Goals, Metrics, and Initiatives

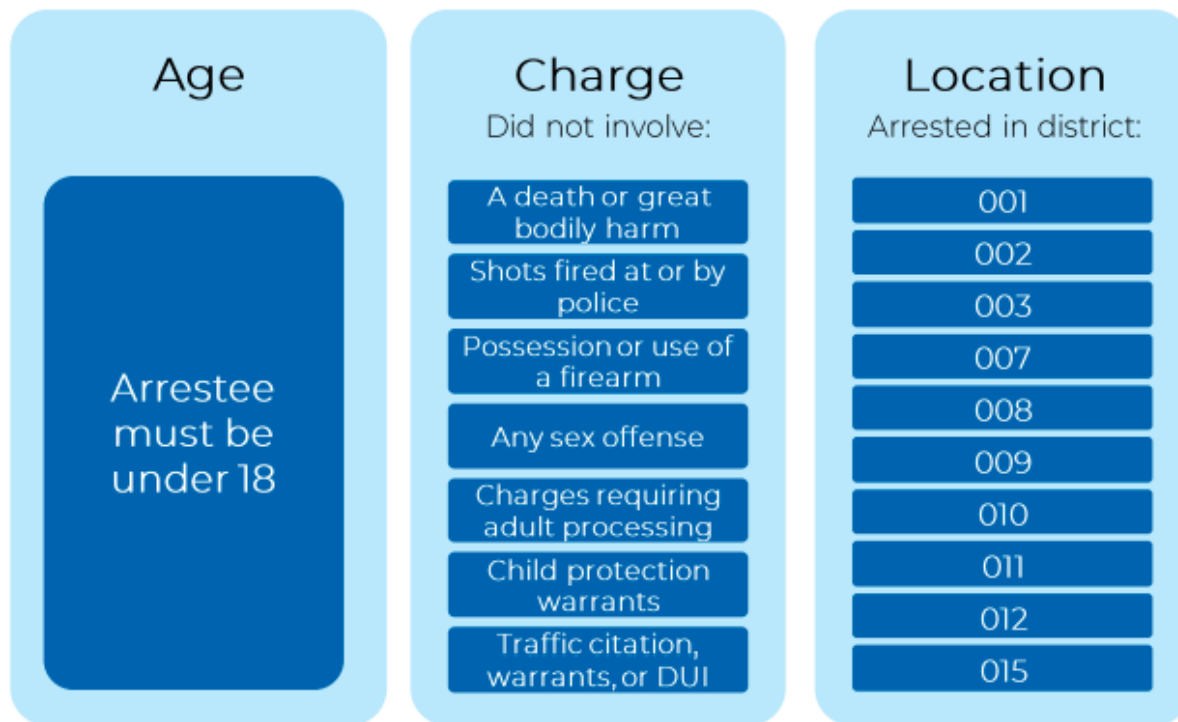

*Goals, metrics, and initiatives should regularly be reevaluated*

Note: Basic, high-level data should also be considered on a monthly basis (e.g. demographics, arrest type, location of arrests, time of arrest, transit time, etc.). All metrics should be as a proportion of total juveniles processed at JISC.

CPD's Special Order S06-04-06 outlines eligibility criteria for youth arrestees' JISC eligibility, shown in Figure 6.<sup>18</sup> Youth arrested for serious offenses such as homicide, possession of a firearm, or sex offenses are not eligible for processing at JISC.

FIGURE 6: Arrests meeting age, charge, and location requirements must be processed at JISC

2022

This page provides a monthly movement time breakdown of juveniles by JISC personnel. Prior to December 11, 2021, movement time is based on the difference between arrest time and arrival time at JISC, given in minutes. A small number of arrests have one or more incorrect time entered. Some movement time outliers (times greater than 300 minutes) are the result of these data inaccuracies. Beginning in April, 2022, movement time is based on the difference between arrest time and the date and time entered in the Arrest Juvenile Work Queue by a processing Juvenile Detective indicating when a juvenile arrived at Area 1. Only entries containing completed arrival times will appear. Movement time is not provided between December 11, 2021, and April 1, 2022.

Totals can be filtered by arrest year, month, and district. Data run some time apart may result in slightly different totals due to expungements.

## Guiding Questions

1. Aside from the summer, it looks as though 2022 is following a similar trend to 2021. Are there any reasons we think this might look different through the end of the year?

# Community Narratives

- NLC: One client has maintained good grades and he has consistently been working part-time at Ross. Another client has been attending all of his classes and he has been working part-time at Subway.
- BUILD: One success story for this month is that we were able to successfully discharge one of our participants. He has made a lot of progress and has been engaging consistently with his mentor. His commitment to completing the program and working towards his goals is to be celebrated.
- LCLC: I have had success with connecting with my most recent clients. They have been very responsive to services and have been openly honest about their lives which makes it easier on both client and case manager. My recent clients are thrilled to be in our case management program to better their selves and their future.
