

Decarbonization RFI Questions & Answers

- 1. Are the questions the City has received to date regarding this RFI published?**
 - Yes! However, these are the first three questions that we have received regarding the RFP, so these are the first questions that will be posted.

- 2. I'm curious if the submittal of a response to this RFI will be a prerequisite to respond to future related solicitations?**
 - Response is not a prerequisite, though we are asking folks who are potentially interested in future solicitations to respond formally, rather than speaking with us informally. If you're not interested in responding to future related solicitations, then I'd be happy to set up a more informal conversation on any feedback or thoughts you have on the RFI content.

- 3. Similarly, if two organizations submit a joint response to the RFI, would we be required to respond jointly to future RFPs?**
 - No, there is no requirement like this.
