Utilizing JOC For City Construction Projects

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3,4 and 5. Attach to MOA (JOC Approval Letter)

1. Please describe the major features of this project.

The scope of work to be performed under this sub-order is to install streetscape elements, sidewalk, curb & gutter, and lighting on the north side of Madison Street- Menard Avenue to Parkside Avenue.

2. Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.

We are requesting to use the JOC procurement system to complete this project. We would like to have the project completed by the end of Summer 2006. The Scope of Work is being finalized and will be ready shortly. If we use JOC, we can procure the work immediately and start construction by the beginning of Summer which will put us in a good position to have the work completed by end of Summer. If we were to use the traditional bid process, we would not be able to start construction as early, which could jeopardize our having the work completed by the end of this construction season. We feel it is in the City's best interest to use JOC to procure this work. Work on the Northside of the Street was included in a previously approved JOC request (July 1, 2004) and the scope of work for the Northside was to be completed in advance of the opening of the 15th District Police Station in June, 2005. However, the contractor for the Public Building Commission failed to complete the construction of the police station parking lot on the north side of Madison Street in advance of the opening. Due to the PBC Contractor not completing the Northside Parking Lot, we were unable to move forward with the JOC streetscape work on the Northside. While streetscape elements, sidewalk, curb and gutter and lighting were completed on the south side of Madison Street in front of the police building proper, the North side work had to be deferred pending completion of the parking lot. Now that the police station, its adjacent facilities and North side parking lot are operational, it is imperative that the North side streetscape elements of lighting, sidewalk, curb and gutter be completed as soon as possible. By using JOC, we will be able to complete the Northside streetscape elements by the end of Summer 2006. We feel utilizing the JOC contract is the optimum way to complete this work in a timely manner.

3. If the project is a one trade project, please provide additional explanation of why it would be in the city's best interest to do the project under JOC:

N/A

4. If it is anticipated that over 25% of the project will consist of Non-prepriced items, please provide an explanation on why JOC should be used.

N/A

5. If some elements of the proposed JOC project scope of work are covered by city term agreements, explain why they are included in this JOC project instead of being procured through the term agreements.

Purchasing has determined Landscape Term Agreements can not be used for the purpose of construction.
