Reason why the MOA differs from the Sub Order

Project No: OVC-07-005.A

1869 Building - BIS Disaster Recovery Room Build Out

1. The Sub Order amount differs from the MOA estimate for the following reasons:

BIS is lacking this type of space. Their need is immediate and the City's need for this type of back up is very critical. Having this disaster recovery room up and operational will allow BIS / Unisys to bring up critical operations and applications in a 2-4 hour window. Such applications are: Admin Hearings, NSR, City Database, and IRIS.

We request this MOA be used for the entire project as the project will be completed in multiple Job Orders.

A package = studs, drywall, painting, taping, concrete work, and floor patching.

B & C packages = security, door access, electrical, cooling, office buildout and flooring.

D Package = Changes/Additions

The B & C Scope items are split separately as they are still in the design phase but BIS would like to have the structure built (A Package) while the remaining items are determined. The D Package is for changes that may occur during the course of the project.

The "A" Package will cost approximately \$100,000 and this amount is identified on the cover of the MOA as it is the only funding we have at this point.

When adding "B, C and D" Packages to the \$100,000 "A" Package, the entire cost of the Project will be approximately \$350,000. If the sum of A, B, C and D exceed \$350,000 by more than 5%, an additional MOA will be submitted.

Utilizing JOC For City Construction Projects

1869 Building
1869 W. Pershing

Project No: OVC-07-005.A

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3,4 and 5. Attach to MOA (JOC Approval Letter)

1. Please describe the major features of this project.

Buildout a Disaster Recovery room for BIS. It will provide BIS with the ability to respond to an interruption in services by implementing a disaster recovery plan to restore the city's critical business functions.

Buildout approx 1000SF Disaster Recovery Room for BIS. This room is to be built per drawings dated 10-31-07.

2. Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.

BIS is lacking this type of space. Their need is immediate and the City's need for this type of back up is very critical. Having this disaster recovery room up and operational will allow BIS / Unisys to bring up critical operations and applications in a 2-4 hour window. 3. If the project is a one trade project, please provide an explanation of why it would not be in the city's best interest to do the project using DGS trades or existing term agreements.

Multi -Trade - carpenters, electricians, painters and laborers

4. If it is anticipated that over 25% of the project will consist of Non Pre-Priced items, please provide an explanation on why JOC should be used.

All items contained in the CTC

5. If some elements of the proposed JOC Project scope of work are covered by city term agreements, these elements should be removed from the JOC Project.
