Utilizing JOC For City Construction Projects

Project Number: 09-84-9-026.A

Department: Transportation

Project Manager: Jerry Kalwasinski

Telephone #: (312) 744-5887

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3,4 and 5. Attach to MOA (JOC Approval Letter)

1. Please describe the major features of this project.

This is extra work for existing JOC project # 09-84-9-026. Additional curb and gutter removal and replacement is required for an existing and active JOC project

2. Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.

This project is time sensitive in order to correct an existing unsafe condition. During excavation for the original job order #09-84-9-026, it was discovered that the standard curb and gutter cross section did not exist beneath the sidewalk surface. These existing conditions make it impossible to install the new decorative pavers planned in the original scope of work, and as such, additional curb and gutter is required. Work has stopped on this project pending approval of this additional scope of work, leaving an excavated and unsafe condition. CDOT is requesting that approval for this additional scope of work be granted as soon as possible in order to correct this unsafe condition.

3. If the project is a one trade project, please provide additional explanation of why it would be in the city's best interest to do the project under JOC:

This project involves the use of multiple trades

4. If it is anticipated that over 25% of the project will consist of Non-prepriced items, please provide an explanation on why JOC should be used.

NA

5. If some elements of the proposed JOC project scope of work are covered by city term agreements, explain why they are included in this JOC project instead of being procured through the term agreements.

This proposal is for a line item change to an existing and active JOC project.
