This certification also includes the Chicago Public Schools.
G. Which City agency or department is requesting this EDS? City of Chicago Department of Finance

If the Matter is a contract being handled by the City's Department of Procurement Services, please complete the following:

Specification \# $\qquad$ and Contract \# $\qquad$

## SECTION II -- DISCLOSURE OF OWNERSHIP INTERESTS

## A. NATURE OF THE DISCLOSING PARTY

1. Indicate the nature of the Disclosing Party:
[ ] Person
[ ] Publicly registered business corporation
[ ] Privately held business corporation
[ ] Sole proprietorship
[ ] General partnership
[ ] Limited partnership
[ ] Trust
[ ] Limited liability company
[ ] Limited liability partnership
[ ] Joint venture
[ ] Not-for-profit corporation
(Is the not-for-profit corporation also a $501(\mathrm{c})(3)$ )?
[ ] Yes [ ] No
[X] Other (please specify)
National Banking Association
2. For legal entities, the state (or foreign country) of incorporation or organization, if applicable:

Disclosing party is organized under the federal laws of the United States of America.
3. For legal entities not organized in the State of Illinois: Has the organization registered to do business in the State of Illinois as a foreign entity?
[ ] Yes
[x] No
[ ] Organized in Illinois

## B. IF THE DISCLOSING PARTY IS A LEGAL ENTITY:

1. List below the full names and titles, if applicable, of: (i) all executive officers and all directors of the entity; (ii) for not-for-profit corporations, all members, if any, which are legal entities (if there are no such members, write "no members which are legal entities"); (iii) for trusts, estates or other similar entities, the trustee, executor, administrator, or similarly situated party; (iv) for general or limited partnerships, limited liability companies, limited liability partnerships or joint ventures, each general partner, managing member, manager or any other person or legal entity that directly or indirectly controls the day-to-day management of the Applicant.

NOTE: Each legal entity listed below must submit an EDS on its own behalf.

SEE ATTACHMENT A
2. Please provide the following information concerning each person or legal entity having a direct or indirect, current or prospective (i.e. within 6 months after City action) beneficial interest (including ownership) in excess of $7.5 \%$ of the Applicant. Examples of such an interest include shares in a corporation, partnership interest in a partnership or joint venture, interest of a member or manager in a
limited liability company, or interest of a beneficiary of a trust, estate or other similar entity. If none, state "None."

NOTE: Each legal entity listed below may be required to submit an EDS on its own behalf.

| Name <br> JPMorgan Chase \& Co. | Business Address <br> 383 Madison Avenue | Percentage Interest in the Applicant <br> $100 \%$ |
| :--- | :--- | :--- |

[^0]
## SECTION III -- INCOME OR COMPENSATION TO, OR OWNERSHIP BY, CITY ELECTED OFFICIALS

Has the Disclosing Party provided any income or compensation to any City elected official during the 12-month period preceding the date of this EDS? ] Yes [x] No

Does the Disclosing Party reasonably expect to provide any income or compensation to any City elected official during the 12 -month period following the date of this EDS? [ ] Yes [x] No

If "yes" to either of the above, please identify below the name(s) of such City elected official(s) and describe such income or compensation:
SEE ATTACHMENT A

Does any City elected official or, to the best of the Disclosing Party's knowledge after reasonable inquiry, any City elected official's spouse or domestic partner, have a financial interest (as defined in Chapter 2-156 of the Municipal Code of Chicago ("MCC")) in the Disclosing Party?
[ ] Yes [x] No
If "yes," please identify below the name(s) of such City elected official(s) and/or spouse(s)/domestic partner(s) and describe the financial interest(s).

## SECTION IV -- DISCLOSURE OF SUBCONTRACTORS AND OTHER RETAINED PARTIES

The Disclosing Party must disclose the name and business address of each subcontractor, attorney, lobbyist (as defined in MCC Chapter 2-156), accountant, consultant and any other person or entity whom the Disclosing Party has retained or expects to retain in connection with the Matter, as well as the nature of the relationship, and the total amount of the fees paid or estimated to be paid. The Disclosing Party is not required to disclose employees who are paid solely through the Disclosing Party's regular payroll. If the Disclosing Party is uncertain whether a disclosure is required under this Section, the Disclosing Party must either ask the City whether disclosure is required or make the disclosure.

Name (indicate whether retained or anticipated to be retained)

Business Address

Relationship to Disclosing Party (subcontractor, attorney, lobbyist, etc.)

Fees (indicate whether paid or estimated.) NOTE:
"hourly rate" or "t.b.d." is not an acceptable response.
(Add sheets if necessary)
[X] Check here if the Disclosing Party has not retained, nor expects to retain, any such persons or entities.

## SECTION V -- CERTIFICATIONS

## A. COURT-ORDERED CHILD SUPPORT COMPLIANCE

Under MCC Section 2-92-415, substantial owners of business entities that contract with the City must remain in compliance with their child support obligations throughout the contract's term.

Has any person who directly or indirectly owns $10 \%$ or more of the Disclosing Party been declared in arrearage on any child support obligations by any Illinois court of competent jurisdiction?
[ ] Yes [ ] No [X] No person directly or indirectly owns $10 \%$ or more of the Disclosing Party.
If "Yes," has the person entered into a court-approved agreement for payment of all support owed and is the person in compliance with that agreement?

## [ ] Yes [ ] No

## B. FURTHER CERTIFICATIONS

1. [This paragraph 1 applies only if the Matter is a contract being handled by the City's Department of Procurement Services.] In the 5-year period preceding the date of this EDS, neither the Disclosing Party nor any Affiliated Entity [see definition in (5) below] has engaged, in connection with the performance of any public contract, the services of an integrity monitor, independent private sector inspector general, or integrity compliance consultant (i.e., an individual or entity with legal, auditing, investigative, or other similar skills, designated by a public agency to help the agency monitor the activity of specified agency vendors as well as help the vendors reform their business practices so they can be considered for agency contracts in the future, or continue with a contract in progress).
2. The Disclosing Party and its Affiliated Entities are not delinquent in the payment of any fine, fee, tax or other source of indebtedness owed to the City of Chicago, including, but not limited to, water and sewer charges, license fees, parking tickets, property taxes and sales taxes, nor is the Disclosing Party delinquent in the payment of any tax administered by the Illinois Department of Revenue.

SEE ATTACHMENT A
3. The Disclosing Party and, if the Disclosing Party is a legal entity, all of those persons or entities identified in Section II(B)(1) of this EDS: SEE ATTACHMENT A
a. are not presently debarred, suspended, proposed for debarment, declared ineligible or voluntarily excluded from any transactions by any federal, state or local unit of government;
b. have not, during the 5 years before the date of this EDS, been convicted of a criminal offense, adjudged guilty, or had a civil judgment rendered against them in connection with: obtaining, attempting to obtain, or performing a public (federal, state or local) transaction or contract under a public transaction; a violation of federal or state antitrust statutes; fraud; embezzlement; theft; forgery; bribery; falsification or destruction of records; making false statements; or receiving stolen property;
c. are not presently indicted for, or criminally or civilly charged by, a governmental entity (federal, state or local) with committing any of the offenses set forth in subparagraph (b) above;
d. have not, during the 5 years before the date of this EDS, had one or more public transactions (federal, state or local) terminated for cause or default; and
e. have not, during the 5 years before the date of this EDS, been convicted, adjudged guilty, or found liable in a civil proceeding, or in any criminal or civil action, including actions concerning environmental violations, instituted by the City or by the federal government, any state, or any other unit of local government.
4. The Disclosing Party understands and shall comply with the applicable requirements of MCC Chapters 2-56 (Inspector General) and 2-156 (Governmental Ethics).
5. Certifications (5), (6) and (7) concern: SEE ATTACHMENT A

- the Disclosing Party;
- any "Contractor" (meaning any contractor or subcontractor used by the Disclosing Party in connection with the Matter, including but not limited to all persons or legal entities disclosed under Section IV, "Disclosure of Subcontractors and Other Retained Parties");
- any "Affiliated Entity" (meaning a person or entity that, directly or indirectly: controls the Disclosing Party, is controlled by the Disclosing Party, or is, with the Disclosing Party, under common control of another person or entity). Indicia of control include, without limitation: interlocking management or ownership; identity of interests among family members, shared facilities and equipment; common use of employees; or organization of a business entity following the ineligibility of a business entity to do business with federal or state or local government, including the City, using substantially the same management, ownership, or principals as the ineligible entity. With respect to Contractors, the term Affiliated Entity means a person or entity that directly or indirectly controls the Contractor, is controlled by it, or, with the Contractor, is under common control of another person or entity;
- any responsible official of the Disclosing Party, any Contractor or any Affiliated Entity or any other official, agent or employee of the Disclosing Party, any Contractor or any Affiliated Entity, acting pursuant to the direction or authorization of a responsible official of the Disclosing Party, any Contractor or any Affiliated Entity (collectively "Agents").

Neither the Disclosing Party, nor any Contractor, nor any Affiliated Entity of either the Disclosing Party or any Contractor, nor any Agents have, during the 5 years before the date of this EDS, or, with respect to a Contractor, an Affiliated Entity, or an Affiliated Entity of a Contractor during the 5 years before the date of such Contractor's or Affiliated Entity's contract or engagement in connection with the Matter:
a. bribed or attempted to bribe, or been convicted or adjudged guilty of bribery or attempting to bribe, a public officer or employee of the City, the State of Illinois, or any agency of the federal government or of any state or local government in the United States of America, in that officer's or employee's official capacity;
b. agreed or colluded with other bidders or prospective bidders, or been a party to any such agreement, or been convicted or adjudged guilty of agreement or collusion among bidders or prospective bidders, in restraint of freedom of competition by agreement to bid a fixed price or otherwise; or
c. made an admission of such conduct described in subparagraph (a) or (b) above that is a matter of record, but have not been prosecuted for such conduct; or
d. violated the provisions referenced in MCC Subsection 2-92-320(a)(4)(Contracts Requiring a Base Wage); (a)(5)(Debarment Regulations); or (a)(6)(Minimum Wage Ordinance).
6. Neither the Disclosing Party, nor any Affiliated Entity or Contractor, or any of their employees, officials, agents or partners, is barred from contracting with any unit of state or local government as a result of engaging in or being convicted of (1) bid-rigging in violation of 720 ILCS 5/33E-3; (2) bid-rotating in violation of 720 ILCS $5 / 33 \mathrm{E}-4$; or (3) any similar offense of any state or of the United States of America that contains the same elements as the offense of bid-rigging or bid-rotating.
7. Neither the Disclosing Party nor any Affiliated Entity is listed on a Sanctions List maintained by the United States Department of Commerce, State, or Treasury, or any successor federal agency.
8. [FOR APPLICANT ONLY] (i) Neither the Applicant nor any "controlling person" [see MCC Chapter 1-23, Article I for applicability and defined terms] of the Applicant is currently indicted or charged with, or has admitted guilt of, or has ever been convicted of, or placed under supervision for, any criminal offense involving actual, attempted, or conspiracy to commit bribery, theft, fraud, forgery, perjury, dishonesty or deceit against an officer or employee of the City or any "sister agency"; and (ii) the Applicant understands and acknowledges that compliance with Article I is a continuing requirement for doing business with the City. NOTE: If MCC Chapter 1-23, Article I applies to the Applicant, that Article's permanent compliance timeframe supersedes 5-year compliance timeframes in this Section V.
9. [FOR APPLICANT ONLY] The Applicant and its Affiliated Entities will not use, nor permit their subcontractors to use, any facility listed as having an active exclusion by the U.S. EPA on the federal System for Award Management ("SAM").
10. [FOR APPLICANT ONLY] The Applicant will obtain from any contractors/subcontractors hired or to be hired in connection with the Matter certifications equal in form and substance to those in Certifications (2) and (9) above and will not, without the prior written consent of the City, use any such
contractor/subcontractor that does not provide such certifications or that the Applicant has reason to believe has not provided or cannot provide truthful certifications.
11. If the Disclosing Party is unable to certify to any of the above statements in this Part B (Further Certifications), the Disclosing Party must explain below: SEE ATTACHMENT A

If the letters "NA," the word "None," or no response appears on the lines above, it will be conclusively presumed that the Disclosing Party certified to the above statements.
12. To the best of the Disclosing Party's knowledge after reasonable inquiry, the following is a complete list of all current employees of the Disclosing Party who were, at any time during the 12month period preceding the date of this EDS, an employee, or elected or appointed official, of the City of Chicago (if none, indicate with "N/A" or "none").
SEE ATTACHMENT A
13. To the best of the Disclosing Party's knowledge after reasonable inquiry, the following is a complete list of all gifts that the Disclosing Party has given or caused to be given, at any time during the 12 -month period preceding the execution date of this EDS, to an employee, or elected or appointed official, of the City of Chicago. For purposes of this statement, a "gift" does not include: (i) anything made generally available to City employees or to the general public, or (ii) food or drink provided in the course of official City business and having a retail value of less than $\$ 25$ per recipient, or (iii) a political contribution otherwise duly reported as required by law (if none, indicate with "N/A" or "none"). As to any gift listed below, please also list the name of the City recipient. SEE ATTACHMENT A

## C. CERTIFICATION OF STATUS AS FINANCIAL INSTITUTION

1. The Disclosing Party certifies that the Disclosing Party (check one)
$[X]$ is $\quad[\quad]$ is not
a "financial institution" as defined in MCC Section 2-32-455(b).
2. If the Disclosing Party IS a financial institution, then the Disclosing Party pledges:
"We are not and will not become a predatory lender as defined in MCC Chapter 2-32. We further pledge that none of our affiliates is, and none of them will become, a predatory lender as defined in MCC Chapter 2-32. We understand that becoming a predatory lender or becoming an affiliate of a predatory lender may result in the loss of the privilege of doing business with the City."

If the Disclosing Party is unable to make this pledge because it or any of its affiliates (as defined in MCC Section 2-32-455(b)) is a predatory lender within the meaning of MCC Chapter 2-32, explain here (attach additional pages if necessary):

If the letters "NA," the word "None," or no response appears on the lines above, it will be conclusively presumed that the Disclosing Party certified to the above statements.

## D. CERTIFICATION REGARDING FINANCIAL INTEREST IN CITY BUSINESS

Any words or terms defined in MCC Chapter 2-156 have the same meanings if used in this Part D.

1. In accordance with MCC Section 2-156-110: To the best of the Disclosing Party's knowledge after reasonable inquiry, does any official or employee of the City have a financial interest in his or her own name or in the name of any other person or entity in the Matter?
[ ] Yes [X] No SEE ATTACHMENT A
NOTE: If you checked "Yes" to Item $D(1)$, proceed to Items $D(2)$ and $D(3)$. If you checked "No" to Item $\mathrm{D}(1)$, skip Items $\mathrm{D}(2)$ and $\mathrm{D}(3)$ and proceed to Part E.
2. Unless sold pursuant to a process of competitive bidding, or otherwise permitted, no City elected official or employee shall have a financial interest in his or her own name or in the name of any other person or entity in the purchase of any property that (i) belongs to the City, or (ii) is sold for taxes or assessments, or (iii) is sold by virtue of legal process at the suit of the City (collectively, "City Property Sale"). Compensation for property taken pursuant to the City's eminent domain power does not constitute a financial interest within the meaning of this Part D.

Does the Matter involve a City Property Sale?
[ ] Yes [ ] No
3. If you checked "Yes" to Item $\mathrm{D}(1)$, provide the names and business addresses of the City officials or employees having such financial interest and identify the nature of the financial interest:

Name
Business Address
Nature of Financial Interest
4. The Disclosing Party further certifies that no prohibited financial interest in the Matter will be acquired by any City official or employee. SEE ATTACHMENT A

## E. CERTIFICATION REGARDING SLAVERY ERA BUSINESS

Please check either (1) or (2) below. If the Disclosing Party checks (2), the Disclosing Party must disclose below or in an attachment to this EDS all information required by (2). Failure to comply with these disclosure requirements may make any contract entered into with the City in connection with the Matter voidable by the City.
$\qquad$ 1. The Disclosing Party verifies that the Disclosing Party has searched any and all records of the Disclosing Party and any and all predecessor entities regarding records of investments or profits from slavery or slaveholder insurance policies during the slavery era (including insurance policies issued to slaveholders that provided coverage for damage to or injury or death of their slaves), and the Disclosing Party has found no such records.
2. The Disclosing Party verifies that, as a result of conducting the search in step (1) above, the Disclosing Party has found records of investments or profits from slavery or slaveholder insurance policies. The Disclosing Party verifies that the following constitutes full disclosure of all such records, including the names of any and all slaves or slaveholders described in those records: SEE ATTACHMENT B

## SECTION VI -- CERTIFICATIONS FOR FEDERALLY FUNDED MATTERS

NOTE: If the Matter is federally funded, complete this Section VI. If the Matter is not
federally funded, proceed to Section VII. For purposes of this Section VI, tax credits allocated by the City and proceeds of debt obligations of the City are not federal funding.

## A. CERTIFICATION REGARDING LOBBYING

1. List below the names of all persons or entities registered under the federal Lobbying Disclosure Act of 1995, as amended, who have made lobbying contacts on behalf of the Disclosing Party with respect to the Matter: (Add sheets if necessary): NOT APPLICABLE
(If no explanation appears or begins on the lines above, or if the letters "NA" or if the word "None" appear, it will be conclusively presumed that the Disclosing Party means that NO persons or entities registered under the Lobbying Disclosure Act of 1995, as amended, have made lobbying contacts on behalf of the Disclosing Party with respect to the Matter.)
2. The Disclosing Party has not spent and will not expend any federally appropriated funds to pay any person or entity listed in paragraph $\mathrm{A}(1)$ above for his or her lobbying activities or to pay any person or entity to influence or attempt to influence an officer or employee of any agency, as defined by applicable federal law, a member of Congress, an officer or employee of Congress, or an employee Ver.2018-1
of a member of Congress, in connection with the award of any federally funded contract, making any federally funded grant or loan, entering into any cooperative agreement, or to extend, continue, renew, amend, or modify any federally funded contract, grant, loan, or cooperative agreement.
3. The Disclosing Party will submit an updated certification at the end of each calendar quarter in which there occurs any event that materially affects the accuracy of the statements and information set forth in paragraphs $A(1)$ and $A(2)$ above.
4. The Disclosing Party certifies that either: (i) it is not an organization described in section 501(c)(4) of the Internal Revenue Code of 1986; or (ii) it is an organization described in section 501(c)(4) of the Internal Revenue Code of 1986 but has not engaged and will not engage in "Lobbying Activities," as that term is defined in the Lobbying Disclosure Act of 1995, as amended.
5. If the Disclosing Party is the Applicant, the Disclosing Party must obtain certifications equal in form and substance to paragraphs $\mathrm{A}(1)$ through $\mathrm{A}(4)$ above from all subcontractors before it awards any subcontract and the Disclosing Party must maintain all such subcontractors' certifications for the duration of the Matter and must make such certifications promptly available to the City upon request.

## B. CERTIFICATION REGARDING EQUAL EMPLOYMENT OPPORTUNITY

If the Matter is federally funded, federal regulations require the Applicant and all proposed subcontractors to submit the following information with their bids or in writing at the outset of negotiations.

Is the Disclosing Party the Applicant?
[ ] Yes [ ] No
If "Yes," answer the three questions below:

1. Have you developed and do you have on file affirmative action programs pursuant to applicable federal regulations? (See 41 CFR Part 60-2.)
[ ] Yes [ ] No
2. Have you filed with the Joint Reporting Committee, the Director of the Office of Federal Contract Compliance Programs, or the Equal Employment Opportunity Commission all reports due under the applicable filing requirements?
[ ] Yes [ ] No [ ] Reports not required
3. Have you participated in any previous contracts or subcontracts subject to the equal opportunity clause?
[ ] Yes [ ] No
If you checked "No" to question (1) or (2) above, please provide an explanation:

## SECTION VII -- FURTHER ACKNOWLEDGMENTS AND CERTIFICATION

The Disclosing Party understands and agrees that:
A. The certifications, disclosures, and acknowledgments contained in this EDS will become part of any contract or other agreement between the Applicant and the City in connection with the Matter, whether procurement, City assistance, or other City action, and are material inducements to the City's execution of any contract or taking other action with respect to the Matter. The Disclosing Party understands that it must comply with all statutes, ordinances, and regulations on which this EDS is based.
B. The City's Governmental Ethics Ordinance, MCC Chapter 2-156, imposes certain duties and obligations on persons or entities seeking City contracts, work, business, or transactions. The full text of this ordinance and a training program is available on line at www.cityofchicago.org/Ethics, and may also be obtained from the City's Board of Ethics, 740 N. Sedgwick St., Suite 500, Chicago, IL 60610, (312) 744-9660. The Disclosing Party must comply fully with this ordinance.
C. If the City determines that any information provided in this EDS is false, incomplete or inaccurate, any contract or other agreement in connection with which it is submitted may be rescinded or be void or voidable, and the City may pursue any remedies under the contract or agreement (if not rescinded or void), at law, or in equity, including terminating the Disclosing Party's participation in the Matter and/or declining to allow the Disclosing Party to participate in other City transactions. Remedies at law for a false statement of material fact may include incarceration and an award to the City of treble damages.
D. It is the City's policy to make this document available to the public on its Internet site and/or upon request. Some or all of the information provided in, and appended to, this EDS may be made publicly available on the Internet, in response to a Freedom of Information Act request, or otherwise. By completing and signing this EDS, the Disclosing Party waives and releases any possible rights or claims which it may have against the City in connection with the public release of information contained in this EDS and also authorizes the City to verify the accuracy of any information submitted in this EDS.
E. The information provided in this EDS must be kept current. In the event of changes, the Disclosing Party must supplement this EDS up to the time the City takes action on the Matter. If the Matter is a contract being handled by the City's Department of Procurement Services, the Disclosing Party must update this EDS as the contract requires. NOTE: With respect to Matters subject to MCC Chapter 1-23, Article I (imposing PERMANENT INELIGIBILITY for certain specified offenses), the information provided herein regarding eligibility must be kept current for a longer period, as required by MCC Chapter 1-23 and Section 2-154-020.

## CERTIFICATION

Under penalty of perjury, the person signing below: (1) warrants that he/she is authorized to execute this EDS, and all applicable Appendices, on behalf of the Disclosing Party, and (2) warrants that all certifications and statements contained in this EDS, and all applicable Appendices, are true, accurate and complete as of the date furnished to the City.

# CITY OF CHICAGO <br> ECONOMIC DISCLOSURE STATEMENT AND AFFIDAVIT <br> APPENDIX A 

## FAMILIAL RELATIONSHIPS WITH ELECTED CITY OFFICIALS AND DEPARTMENT HEADS

#### Abstract

This Appendix is to be completed only by (a) the Applicant, and (b) any legal entity which has a direct ownership interest in the Applicant exceeding 7.5\%. It is not to be completed by any legal entity which has only an indirect ownership interest in the Applicant.

Under MCC Section 2-154-015, the Disclosing Party must disclose whether such Disclosing Party or any "Applicable Party" or any Spouse or Domestic Partner thereof currently has a "familial relationship" with any elected city official or department head. A "familial relationship" exists if, as of the date this EDS is signed, the Disclosing Party or any "Applicable Party" or any Spouse or Domestic Partner thereof is related to the mayor, any alderman, the city clerk, the city treasurer or any city department head as spouse or domestic partner or as any of the following, whether by blood or adoption: parent, child, brother or sister, aunt or uncle, niece or nephew, grandparent, grandchild, father-in-law, mother-in-law, son-in-law, daughter-in-law, stepfather or stepmother, stepson or stepdaughter, stepbrother or stepsister or half-brother or half-sister.
"Applicable Party" means (1) all executive officers of the Disclosing Party listed in Section II.B.1.a., if the Disclosing Party is a corporation; all partners of the Disclosing Party, if the Disclosing Party is a general partnership; all general partners and limited partners of the Disclosing Party, if the Disclosing Party is a limited partnership; all managers, managing members and members of the Disclosing Party, if the Disclosing Party is a limited liability company; (2) all principal officers of the Disclosing Party; and (3) any person having more than a $7.5 \%$ ownership interest in the Disclosing Party. "Principal officers" means the president, chief operating officer, executive director, chief financial officer, treasurer or secretary of a legal entity or any person exercising similar authority.

Does the Disclosing Party or any "Applicable Party" or any Spouse or Domestic Partner thereof currently have a "familial relationship" with an elected city official or department head?

To the Authorized Representative's knowledge, information
[ ] Yes
[X] No and belief after reasonable inquiry.
If yes, please identify below (1) the name and title of such person, (2) the name of the legal entity to which such person is connected; (3) the name and title of the elected city official or department head to whom such person has a familial relationship, and (4) the precise nature of such familial relationship.

## CITY OF CHICAGO <br> ECONOMIC DISCLOSURE STATEMENT AND AFFIDAVIT APPENDIX B

## BUILDING CODE SCOFFLAW/PROBLEM LANDLORD CERTIFICATION

This Appendix is to be completed only by (a) the Applicant, and (b) any legal entity which has a direct ownership interest in the Applicant exceeding 7.5\% (an "Owner"). It is not to be completed by any legal entity which has only an indirect ownership interest in the Applicant.

1. Pursuant to MCC Section 2-154-010, is the Applicant or any Owner identified as a building code scofflaw or problem landlord pursuant to MCC Section 2-92-416?
[ ] Yes [X] No
2. If the Applicant is a legal entity publicly traded on any exchange, is any officer or director of the Applicant identified as a building code scofflaw or problem landlord pursuant to MCC Section 2-92-416? *
[ ] Yes [ ] No [X] The Applicant is not publicly traded on any exchange.
3. If yes to (1) or (2) above, please identify below the name of each person or legal entity identified as a building code scofflaw or problem landlord and the address of each building or buildings to which the pertinent code violations apply.

## CITY OF CHICAGO ECONOMIC DISCLOSURE STATEMENT AND AFFIDAVIT APPENDIX C

## PROHIBITION ON WAGE \& SALARY HISTORY SCREENING - CERTIFICATION

This Appendix is to be completed only by an Applicant that is completing this EDS as a "contractor" as defined in MCC Section 2-92-385. That section, which should be consulted (www.amlegal.com), generally covers a party to any agreement pursuant to which they: (i) receive City of Chicago funds in consideration for services, work or goods provided (including for legal or other professional services), or (ii) pay the City money for a license, grant or concession allowing them to conduct a business on City premises.

On behalf of an Applicant that is a contractor pursuant to MCC Section 2-92-385, I hereby certify that the Applicant is in compliance with MCC Section 2-92-385(b)(1) and (2), which prohibit: (i) screening job applicants based on their wage or salary history, or (ii) seeking job applicants' wage or salary history from current or former employers. I also certify that the Applicant has adopted a policy that includes those prohibitions.
[X] Yes
[ ] No
[ ] N/A - I am not an Applicant that is a "contractor" as defined in MCC Section 2-92-385.

This certification shall serve as the affidavit required by MCC Section 2-92-385(c)(1).

If you checked "no" to the above, please explain.

## SECTION III: INCOME OR COMPENSATION TO, OR OWNERSHIP BY, CITY ELECTED OFFICIALS

Based on knowledge and belief, upon due inquiry, the Disclosing Party does not reasonably expect to provide any income or compensation to any City elected official during the 12-month period following the date of this EDS.

## SECTION IV: DISCLOSURE OF SUBCONTRACTORS AND OTHER RETAINED PARTIES

#### Abstract

With respect to Section IV, the Authorized Representative certifies based on the Authorized Representative's knowledge, information and belief, upon due inquiry, that the Disclosing Party has not retained a subcontractor, attorney, lobbyist, accountant or consultant in connection with the Matter.

## SECTION V: CERTIFICATIONS

## B. FURTHER CERTIFICATIONS

B. 2 The Authorized Representative certifies on behalf of the Disclosing Party, as to the statements contained in Section V. B. 2 that based on the Authorized Representative's knowledge, information, and belief, upon due inquiry, that neither the Disclosing Party nor its affiliates are delinquent in paying any fine, fee, tax or other charge owed to the City of Chicago except for taxes that are being contested in good faith by appropriate legal proceeding and possible delinquencies in paying a fine, fee, tax or other charge related to (i) property mortgaged to the Disclosing Party or its affiliates, (ii) property owned by the Disclosing Party or its affiliates and leased to others, (iii) foreclosed property now owned by the Disclosing Party or its affiliates, (iv) property owned or held by the Disclosing Party or its affiliates as a fiduciary or nominee, and (v) fines, fees, taxes or other charges that are being contested in good faith by the Disclosing Party or its affiliates by appropriate legal proceeding. If there are any outstanding claims that the Disclosing Party is notified of that Disclosing Party was not aware of previously, Disclosing Party will immediately address them.
B. 3 (a-e) With respect to Section V, B. 3 (a-e) of the EDS, the Authorized Representative, certifies based on the Authorized Representative's knowledge, information, and belief, upon due inquiry, that such statements are accurate with respect to the executive officers and directors of the Disclosing Party. Based on the Disclosing Party's knowledge, information, and belief, upon due inquiry, JPMorgan Chase \& Co. and/or its subsidiaries (collectively, the "Firm") are defendants or putative defendants in numerous legal proceedings, including private civil litigations and regulatory/government investigations. The litigations range from individual actions involving a single plaintiff to class action lawsuits with potentially millions of class members. Investigations involve both formal and informal proceedings, by both governmental agencies and self-regulatory organizations. These legal proceedings are at varying stages of adjudication, arbitration or investigation, and involve each of the Firm's lines of business and geographies and a wide variety of claims (including common law tort and contract claims and statutory antitrust, securities and consumer protection claims), some of which present novel legal theories. Based on current knowledge, the Firm believes it has asserted meritorious defenses to the claims asserted against it in its currently outstanding legal proceedings, intends to defend itself vigorously in all such matters and does not believe that any pending legal proceeding would have a
material effect on the Firm's performance of the services contemplated by the RFP. For further discussion, please refer to JPMorgan Chase \& Co.'s publicly-filed disclosures, including its most recent Annual Report on Form 10-K and Quarterly Reports on Form 10Q filed with the U.S. Securities and Exchange Commission (available at: https://investor.shareholder.com/jpmorganchase/sec.cfm.
B. 5 (a-d);
B.6; B. 7;
B. 8

The Authorized Representative certifies on behalf of the Disclosing Party the accuracy of the statements contained in sections 5, 6, 7 and 8 of Section V only as to the Disclosing Party and its executive officers and directors. Based on the Disclosing Party's knowledge, information, and belief, upon due inquiry, JPMorgan Chase \& Co. and/or its subsidiaries (collectively, the "Firm") are defendants or putative defendants in numerous legal proceedings, including private civil litigations and regulatory/government investigations. The litigations range from individual actions involving a single plaintiff to class action lawsuits with potentially millions of class members. Investigations involve both formal and informal proceedings, by both governmental agencies and self-regulatory organizations. These legal proceedings are at varying stages of adjudication, arbitration or investigation, and involve each of the Firm's lines of business and geographies and a wide variety of claims (including common law tort and contract claims and statutory antitrust, securities and consumer protection claims), some of which present novel legal theories. Based on current knowledge, the Firm believes it has asserted meritorious defenses to the claims asserted against it in its currently outstanding legal proceedings, intends to defend itself vigorously in all such matters and does not believe that any pending legal proceeding would have a material effect on the Firm's performance of the services contemplated by the RFP. For further discussion, please refer to JPMorgan Chase \& Co.'s publicly-filed disclosures, including its most recent Annual Report on Form 10-K and Quarterly Reports on Form 10-Q filed with the U.S. Securities and Exchange Commission (available at: https://investor.shareholder.com/jpmorganchase/sec.cfm.

Furthermore, with respect to Section V. B.5. (d), the Minimum Wage ordinance, the Disclosing Party has not, during the five years before the execution date of this EDS, been determined to have violated the provisions of Municipal Code Section 2-92-320 (Minimum Wage Ordinance) as it relates to base wages.
B. 11 Except as otherwise set forth in this Attachment A, the Authorized Representative on behalf of the Disclosing Party does not make any certification whatsoever with respect to any Applicable Party other than the Disclosing Party. The Authorized Representative on behalf of the Disclosing Party also certifies that it has not engaged any sub-contractor with respect to this transaction.
B. 12 Please note that due to the size and scope of our organization, we are unable to determine whether any employees of the Disclosing Party were previously employed by the City of Chicago during the 12 -month period preceding the date of this EDS; without limiting the immediately foregoing statement, we do not believe there are any such employees of the Disclosing Party upon knowledge, information and belief. Further, we can state that no member of the JPMC deal team directly working on this matter was previously employed by the City of Chicago during this time period.
B. 13 The Authorized Representative certifies as to the statement in Section V, paragraph B. 13 that, based on the Authorized Representative's knowledge, information, and belief, upon due inquiry, the following gifts were provided by employees of the Bank to the following:

- None

## D. INTEREST IN CITY BUSINESS

D. 1 \& D. 4 As to the disclosures set forth in Section V, paragraphs D. 1 \& D.4, based on the Authorized Representative's knowledge, information, and belief, upon due inquiry, on behalf of the Disclosing Party, to the extent the Disclosing Party has any control the Authorized Representative certifies that no official or employee of the City of Chicago has a financial interest in his or her own name or in the name of any other person in this transaction.

# ATTACHMENT B <br> TO <br> CITY OF CHICAGO <br> ECONOMIC DISCLOSURE STATEMENT AND AFFIDAVIT FILED BY <br> JPMORGAN CHASE BANK, N.A. <br> (as the Disclosing Party and the Applicant) 

The following response is true, accurate and complete based on the Authorized Representative's knowledge, information, and belief relying on information prepared on February 24, 2009, by a consultant at the direction of JPMorgan Chase \& Co.

## SECTION V -- CERTIFICATIONS

## E. CERTIFICATION REGARDING SLAVERY ERA BUSINESS.

The Disclosing Party assumed its current name on November 13, 2004, when JPMorgan Chase Bank, a New York banking corporation, was converted into a national banking association under the name JPMorgan Chase Bank, National Association, and both Bank One, National Association (main office Chicago) and Bank One, National Association (main office Columbus) merged into it with the Disclosing Party being the surviving entity.

With regard to predecessors of the Disclosing Party as it existed prior to such merger ("JPMorgan Chase"), the Disclosing Party reports that J. Pierpont Morgan, Sr. was associated with George Peabody \& Company and J.S. Morgan \& Company (the "Peabody Firms") before he founded Drexel Morgan \& Company, which ultimately became part of JPMorgan Chase. Capital supplied by Junius S. Morgan and J. Pierpont Morgan, Sr. appears to have been used to capitalize Drexel Morgan \& Company in 1871. Upon the death of Junius S. Morgan, J.S. Morgan \& Company came under the control of J. Pierpont Morgan, Sr. and became affiliated with J.P. Morgan \& Co. Records indicate that the Peabody Firms had customers that appear to have used enslaved individuals.

JPMorgan Chase and the Bank One banks referred to above (collectively, "Bank One") had predecessor banks in states outside the South that purchased notes issued by, issued letters of credit or made loans to, and/or maintained correspondent accounts with municipalities, banks, companies and individuals located in Southern states where slavery was practiced during the slavery era. These municipalities, banks, companies and individuals are listed on Attachment 1.

Bank One had predecessor banks before 1866 in three Southern states: Kentucky, Louisiana and Virginia. Searches revealed slavery-related information about two Louisiana banks, the Canal Bank (formed in 1831) and the Citizens Bank (formed in 1833), and the Lexington branch of the second Bank of Kentucky (formed in 1835). In 1924 Citizens Bank and Canal Bank merged. Predecessors of JPMorgan Chase had longstanding banking relationships with Canal Bank and its predecessors (see Attachment 1), were creditors of Canal Bank and, in 1931, it appears that a predecessor of JPMorgan Chase led a group of investors that provided capital to Canal Bank and this predecessor of JPMorgan Chase became a shareholder and took a controlling management interest in the Canal Bank. The Canal Bank was placed into liquidation in March-May 1933 based on actions by the State of Louisiana and the federal government. In May 1933, The National Bank of Commerce in New Orleans was formed pursuant to an executive order approved by President Roosevelt and its assets included some of the deposits and loans of the old Canal Bank. Most of the capital for The National Bank of Commerce was provided by the Reconstruction Finance Corporation (owned by the U.S. government), with the remainder coming
from new shareholders. The U.S. government also provided over $\$ 13$ million toward the liquidation of the old Canal Bank. In 1947 and 1969, The National Bank of Commerce in New Orleans made two grants to Tulane University, which included archives of the Citizens Bank and Canal Bank. These materials are held at the Tulane Manuscripts Department, Special Collections Division, Howard-Tilton Memorial Library at Tulane University in New Orleans, Louisiana (collectively, the "Tulane Records"). In 1865, the First National Bank of Lexington (subsequently a part of First Security Corporation of Kentucky which was acquired by Bank One in 1992) was formed and assumed the operations of the Lexington Branch of the second Bank of Kentucky. Public records pertaining to the Lexington Branch of the second Bank of Kentucky have been discovered that contain records relevant to this certification (the "Lexington Records"). The Tulane Records, the Lexington Records and other records indicate that:

1. Citizens Bank and Canal Bank provided credit to plantation owners and accepted mortgages from them. The collateral covered by these mortgages included land, equipment and/or enslaved individuals. The available records do not always provide the names of enslaved individuals. The Disclosing Party, however, estimates that, from 1831 to 1865, taking into account the duplication and/or absence of exact data, approximately 21,000 enslaved individuals were listed among the collateral covered by mortgages given to the Louisiana banks.
2. The Lexington Branch of the second Bank of Kentucky also provided credit to plantation owners and accepted mortgages from them. The collateral covered by these mortgages included land, equipment and/or enslaved individuals. The available records do not always provide the names of enslaved individuals. The Disclosing Party, however, estimates that, from 1835 to 1865 , taking into account the duplication and/or absence of exact data, approximately 55 enslaved individuals were listed among the collateral covered by mortgages given to the Lexington Branch of the second Bank of Kentucky.
3. When mortgages went unpaid, the banks could initiate foreclosure proceedings. When this occurred, the bank could take ownership of the collateral. The available records do not always provide the names of enslaved individuals. The Disclosing Party, however, estimates that, from 1831 to 1865 , taking into account the duplication and/or absence of exact data, approximately 1,300 enslaved individuals were listed among the collateral that the Louisiana banks came to own. There is no evidence of foreclosure proceedings initiated by the Lexington Branch of the second Bank of Kentucky.

Attachment 2 lists information on mortgages as to which one of the Louisiana banks came to own enslaved individuals through foreclosure proceedings, including, where available, the names of those individuals and their prior or subsequent owners. Attachment 3 lists information on mortgages as to which one of the three banks held collateral that included enslaved individuals, including, where available, the names of those individuals and their prior or subsequent owners. The attachments will be supplemented as necessary to reflect any additional information located.

On September 25, 2008, the Disclosing Party acquired from the Federal Deposit Insurance Corporation, as the Receiver of Washington Mutual Bank, Henderson, NV (the "Receiver") certain assets of Washington Mutual Bank.

A review of the records of Washington Mutual Bank, including the records of its predecessor entities, has disclosed no evidence that Washington Mutual Bank nor any of its predecessors had any investments or profits from slavery, any direct involvement in the slave trade, any direct ownership in slaves, or any slaveholder insurance policies from the slavery era. There is evidence, however, that one predecessor entity, The Bowery Savings Bank, New York (1834)
("Bowery Savings"), purchased a $\$ 100,000$ bond of a slave holding state, North Carolina. A total of $\$ 44,000$ was paid to Bowery Savings by North Carolina in 1868 on account of the bond.

# CITY OF CHICAGO <br> ECONOMIC DISCLOSURE STATEMENT <br> AND AFFIDAVIT 

## SECTION I -- GENERAL INFORMATION

A. Legal name of the Disclosing Party submitting this EDS. Include $\mathrm{d} / \mathrm{b} / \mathrm{a} /$ if applicable:

JPMorgan Chase \& Co.

## Check ONE of the following three boxes:

Indicate whether the Disclosing Party submitting this EDS is:

1. $[x]$ the Applicant OR
2. $[X]$ a legal entity currently holding, or anticipated to hold within six months after City action on the contract, transaction or other undertaking to which this EDS pertains (referred to below as the "Matter"), a direct or indirect interest in excess of $7.5 \%$ in the Applicant. State the Applicant's legal name: JPMorgan Chase Bank, N.A.

OR
3. [ ] a legal entity with a direct or indirect right of control of the Applicant (see Section II(B)(1)) State the legal name of the entity in which the Disclosing Party holds a right of control:
B. Business address of the Disclosing Party:

383 Madison Avenue
New York, NY 10179
C. Telephone: (312)732-6988 Fax: N/A Email: joanne.baer@jpmorgan.com
D. Name of contact person: Joanne Baer
E. Federal Employer Identification No. (if you have one): 13-2624428
F. Brief description of the Matter to which this EDS pertains. (Include project number and location of property, if applicable):

The City has distributed an RFP for Depository Certification to remain in the pool eligible to provide banking services and products to the City of Chicago.
This certification also includes the Chicago Public Schools.
G. Which City agency or department is requesting this EDS? City of Chicago Department of Finance

If the Matter is a contract being handled by the City's Department of Procurement Services, please complete the following:

Specification \# $\qquad$ and Contract \# $\qquad$

## SECTION II -- DISCLOSURE OF OWNERSHIP INTERESTS

## A. NATURE OF THE DISCLOSING PARTY

1. Indicate the nature of the Disclosing Party:
[ ] Person
[X] Publicly registered business corporation
[ ] Privately held business corporation
[ ] Sole proprietorship
[ ] General partnership
[ ] Limited partnership
[ ] Trust
[ ] Limited liability company
[ ] Limited liability partnership
[ ] Joint venture
[ ] Not-for-profit corporation
(Is the not-for-profit corporation also a 501 (c)(3))?
[ ] Yes [ ] No
[X] Other (please specify)
2. For legal entities, the state (or foreign country) of incorporation or organization, if applicable:

Delaware
3. For legal entities not organized in the State of Illinois: Has the organization registered to do business in the State of Illinois as a foreign entity?
[X] Yes [X] No ] Organized in Illinois

## B. IF THE DISCLOSING PARTY IS A LEGAL ENTITY:

1. List below the full names and titles, if applicable, of: (i) all executive officers and all directors of the entity; (ii) for not-for-profit corporations, all members, if any, which are legal entities (if there are no such members, write "no members which are legal entities"); (iii) for trusts, estates or other similar entities, the trustee, executor, administrator, or similarly situated party; (iv) for general or limited partnerships, limited liability companies, limited liability partnerships or joint ventures, each general partner, managing member, manager or any other person or legal entity that directly or indirectly controls the day-to-day management of the Applicant.

NOTE: Each legal entity listed below must submit an EDS on its own behalf.

SEE ATTACHMENT A
2. Please provide the following information concerning each person or legal entity having a direct or indirect, current or prospective (i.e. within 6 months after City action) beneficial interest (including ownership) in excess of $7.5 \%$ of the Applicant. Examples of such an interest include shares in a corporation, partnership interest in a partnership or joint venture, interest of a member or manager in a
limited liability company, or interest of a beneficiary of a trust, estate or other similar entity. If none, state "None."

NOTE: Each legal entity listed below may be required to submit an EDS on its own behalf.
Name
Business Address
Percentage Interest in the Applicant
SEE ATTACHMENT A

## SECTION III -- INCOME OR COMPENSATION TO, OR OWNERSHIP BY, CITY ELECTED OFFICIALS

Has the Disclosing Party provided any income or compensation to any City elected official during the 12 -month period preceding the date of this EDS? ] Yes [X] No

Does the Disclosing Party reasonably expect to provide any income or compensation to any City elected official during the 12 -month period following the date of this EDS? [ ] Yes [X] No

If "yes" to either of the above, please identify below the name(s) of such City elected official(s) and describe such income or compensation:
SEE ATTACHMENT A

Does any City elected official or, to the best of the Disclosing Party's knowledge after reasonable inquiry, any City elected official's spouse or domestic partner, have a financial interest (as defined in Chapter 2-156 of the Municipal Code of Chicago ("MCC")) in the Disclosing Party?
[ ] Yes [X] No
If "yes," please identify below the name(s) of such City elected official(s) and/or spouse(s)/domestic partner(s) and describe the financial interest(s).

## SECTION IV -- DISCLOSURE OF SUBCONTRACTORS AND OTHER RETAINED PARTIES

The Disclosing Party must disclose the name and business address of each subcontractor, attorney, lobbyist (as defined in MCC Chapter 2-156), accountant, consultant and any other person or entity whom the Disclosing Party has retained or expects to retain in connection with the Matter, as well as the nature of the relationship, and the total amount of the fees paid or estimated to be paid. The Disclosing Party is not required to disclose employees who are paid solely through the Disclosing Party's regular payroll. If the Disclosing Party is uncertain whether a disclosure is required under this Section, the Disclosing Party must either ask the City whether disclosure is required or make the disclosure.

Name (indicate whether retained or anticipated to be retained)

Business Address

Relationship to Disclosing Party (subcontractor, attorney, lobbyist, etc.)

Fees (indicate whether paid or estimated.) NOTE:
"hourly rate" or "t.b.d." is not an acceptable response.
(Add sheets if necessary)
[X] Check here if the Disclosing Party has not retained, nor expects to retain, any such persons or entities.

## SECTION V -- CERTIFICATIONS

## A. COURT-ORDERED CHILD SUPPORT COMPLIANCE

Under MCC Section 2-92-415, substantial owners of business entities that contract with the City must remain in compliance with their child support obligations throughout the contract's term.

Has any person who directly or indirectly owns $10 \%$ or more of the Disclosing Party been declared in arrearage on any child support obligations by any Illinois court of competent jurisdiction?
[ ] Yes [ ] No [X] No person directly or indirectly owns $10 \%$ or more of the Disclosing Party.
If "Yes," has the person entered into a court-approved agreement for payment of all support owed and is the person in compliance with that agreement?

## [ ] Yes [ ] No

## B. FURTHER CERTIFICATIONS

1. [This paragraph 1 applies only if the Matter is a contract being handled by the City's Department of Procurement Services.] In the 5-year period preceding the date of this EDS, neither the Disclosing Party nor any Affiliated Entity [see definition in (5) below] has engaged, in connection with the performance of any public contract, the services of an integrity monitor, independent private sector inspector general, or integrity compliance consultant (i.e., an individual or entity with legal, auditing, investigative, or other similar skills, designated by a public agency to help the agency monitor the activity of specified agency vendors as well as help the vendors reform their business practices so they can be considered for agency contracts in the future, or continue with a contract in progress).
2. The Disclosing Party and its Affiliated Entities are not delinquent in the payment of any fine, fee, tax or other source of indebtedness owed to the City of Chicago, including, but not limited to, water and sewer charges, license fees, parking tickets, property taxes and sales taxes, nor is the Disclosing Party delinquent in the payment of any tax administered by the Illinois Department of Revenue.

SEE ATTACHMENT A

3. The Disclosing Party and, if the Disclosing Party is a legal entity, all of those persons or entities identified in Section II(B)(1) of this EDS: SEE ATTACHMENT A
a. are not presently debarred, suspended, proposed for debarment, declared ineligible or voluntarily excluded from any transactions by any federal, state or local unit of government;
b. have not, during the 5 years before the date of this EDS, been convicted of a criminal offense, adjudged guilty, or had a civil judgment rendered against them in connection with: obtaining, attempting to obtain, or performing a public (federal, state or local) transaction or contract under a public transaction; a violation of federal or state antitrust statutes; fraud; embezzlement; theft; forgery; bribery; falsification or destruction of records; making false statements; or receiving stolen property;
c. are not presently indicted for, or criminally or civilly charged by, a governmental entity (federal, state or local) with committing any of the offenses set forth in subparagraph (b) above;
d. have not, during the 5 years before the date of this EDS, had one or more public transactions (federal, state or local) terminated for cause or default; and
e. have not, during the 5 years before the date of this EDS, been convicted, adjudged guilty, or found liable in a civil proceeding, or in any criminal or civil action, including actions concerning environmental violations, instituted by the City or by the federal government, any state, or any other unit of local government.
4. The Disclosing Party understands and shall comply with the applicable requirements of MCC Chapters 2-56 (Inspector General) and 2-156 (Governmental Ethics).
5. Certifications (5), (6) and (7) concern: SEE ATTACHMENT A

- the Disclosing Party;
- any "Contractor" (meaning any contractor or subcontractor used by the Disclosing Party in connection with the Matter, including but not limited to all persons or legal entities disclosed under Section IV, "Disclosure of Subcontractors and Other Retained Parties");
- any "Affiliated Entity" (meaning a person or entity that, directly or indirectly: controls the Disclosing Party, is controlled by the Disclosing Party, or is, with the Disclosing Party, under common control of another person or entity). Indicia of control include, without limitation: interlocking management or ownership; identity of interests among family members, shared facilities and equipment; common use of employees; or organization of a business entity following the ineligibility of a business entity to do business with federal or state or local government, including the City, using substantially the same management, ownership, or principals as the ineligible entity. With respect to Contractors, the term Affiliated Entity means a person or entity that directly or indirectly controls the Contractor, is controlled by it, or, with the Contractor, is under common control of another person or entity;
- any responsible official of the Disclosing Party, any Contractor or any Affiliated Entity or any other official, agent or employee of the Disclosing Party, any Contractor or any Affiliated Entity, acting pursuant to the direction or authorization of a responsible official of the Disclosing Party, any Contractor or any Affiliated Entity (collectively "Agents").

Neither the Disclosing Party, nor any Contractor, nor any Affiliated Entity of either the Disclosing Party or any Contractor, nor any Agents have, during the 5 years before the date of this EDS, or, with respect to a Contractor, an Affiliated Entity, or an Affiliated Entity of a Contractor during the 5 years before the date of such Contractor's or Affiliated Entity's contract or engagement in connection with the Matter:
a. bribed or attempted to bribe, or been convicted or adjudged guilty of bribery or attempting to bribe, a public officer or employee of the City, the State of Illinois, or any agency of the federal government or of any state or local government in the United States of America, in that officer's or employee's official capacity;
b. agreed or colluded with other bidders or prospective bidders, or been a party to any such agreement, or been convicted or adjudged guilty of agreement or collusion among bidders or prospective bidders, in restraint of freedom of competition by agreement to bid a fixed price or otherwise; or
c. made an admission of such conduct described in subparagraph (a) or (b) above that is a matter of record, but have not been prosecuted for such conduct; or
d. violated the provisions referenced in MCC Subsection 2-92-320(a)(4)(Contracts Requiring a Base Wage); (a)(5)(Debarment Regulations); or (a)(6)(Minimum Wage Ordinance).
6. Neither the Disclosing Party, nor any Affiliated Entity or Contractor, or any of their employees, officials, agents or partners, is barred from contracting with any unit of state or local government as a result of engaging in or being convicted of (1) bid-rigging in violation of 720 ILCS 5/33E-3; (2) bid-rotating in violation of 720 ILCS $5 / 33 \mathrm{E}-4$; or (3) any similar offense of any state or of the United States of America that contains the same elements as the offense of bid-rigging or bid-rotating.
7. Neither the Disclosing Party nor any Affiliated Entity is listed on a Sanctions List maintained by the United States Department of Commerce, State, or Treasury, or any successor federal agency.
8. [FOR APPLICANT ONLY] (i) Neither the Applicant nor any "controlling person" [see MCC Chapter 1-23, Article I for applicability and defined terms] of the Applicant is currently indicted or charged with, or has admitted guilt of, or has ever been convicted of, or placed under supervision for, any criminal offense involving actual, attempted, or conspiracy to commit bribery, theft, fraud, forgery, perjury, dishonesty or deceit against an officer or employee of the City or any "sister agency"; and (ii) the Applicant understands and acknowledges that compliance with Article I is a continuing requirement for doing business with the City. NOTE: If MCC Chapter 1-23, Article I applies to the Applicant, that Article's permanent compliance timeframe supersedes 5-year compliance timeframes in this Section V.
9. [FOR APPLICANT ONLY] The Applicant and its Affiliated Entities will not use, nor permit their subcontractors to use, any facility listed as having an active exclusion by the U.S. EPA on the federal System for Award Management ("SAM").
10. [FOR APPLICANT ONLY] The Applicant will obtain from any contractors/subcontractors hired or to be hired in connection with the Matter certifications equal in form and substance to those in Certifications (2) and (9) above and will not, without the prior written consent of the City, use any such
contractor/subcontractor that does not provide such certifications or that the Applicant has reason to believe has not provided or cannot provide truthful certifications.
11. If the Disclosing Party is unable to certify to any of the above statements in this Part B (Further Certifications), the Disclosing Party must explain below: SEE ATTACHMENT A

If the letters "NA," the word "None," or no response appears on the lines above, it will be conclusively presumed that the Disclosing Party certified to the above statements.
12. To the best of the Disclosing Party's knowledge after reasonable inquiry, the following is a complete list of all current employees of the Disclosing Party who were, at any time during the 12month period preceding the date of this EDS, an employee, or elected or appointed official, of the City of Chicago (if none, indicate with "N/A" or "none").
SEE ATTACHMENT A
13. To the best of the Disclosing Party's knowledge after reasonable inquiry, the following is a complete list of all gifts that the Disclosing Party has given or caused to be given, at any time during the 12 -month period preceding the execution date of this EDS, to an employee, or elected or appointed official, of the City of Chicago. For purposes of this statement, a "gift" does not include: (i) anything made generally available to City employees or to the general public, or (ii) food or drink provided in the course of official City business and having a retail value of less than $\$ 25$ per recipient, or (iii) a political contribution otherwise duly reported as required by law (if none, indicate with "N/A" or "none"). As to any gift listed below, please also list the name of the City recipient. SEE ATTACHMENT A

## C. CERTIFICATION OF STATUS AS FINANCIAL INSTITUTION

1. The Disclosing Party certifies that the Disclosing Party (check one)
$[X]$ is $\quad[\quad]$ is not
a "financial institution" as defined in MCC Section 2-32-455(b).
2. If the Disclosing Party IS a financial institution, then the Disclosing Party pledges:
"We are not and will not become a predatory lender as defined in MCC Chapter 2-32. We further pledge that none of our affiliates is, and none of them will become, a predatory lender as defined in MCC Chapter 2-32. We understand that becoming a predatory lender or becoming an affiliate of a predatory lender may result in the loss of the privilege of doing business with the City."

If the Disclosing Party is unable to make this pledge because it or any of its affiliates (as defined in MCC Section 2-32-455(b)) is a predatory lender within the meaning of MCC Chapter 2-32, explain here (attach additional pages if necessary):

If the letters "NA," the word "None," or no response appears on the lines above, it will be conclusively presumed that the Disclosing Party certified to the above statements.

## D. CERTIFICATION REGARDING FINANCIAL INTEREST IN CITY BUSINESS

Any words or terms defined in MCC Chapter 2-156 have the same meanings if used in this Part D.

1. In accordance with MCC Section 2-156-110: To the best of the Disclosing Party's knowledge after reasonable inquiry, does any official or employee of the City have a financial interest in his or her own name or in the name of any other person or entity in the Matter?
[ ] Yes [X] No SEE ATTACHMENT A
NOTE: If you checked "Yes" to Item $D(1)$, proceed to Items $D(2)$ and $D(3)$. If you checked "No" to Item $\mathrm{D}(1)$, skip Items $\mathrm{D}(2)$ and $\mathrm{D}(3)$ and proceed to Part E .
2. Unless sold pursuant to a process of competitive bidding, or otherwise permitted, no City elected official or employee shall have a financial interest in his or her own name or in the name of any other person or entity in the purchase of any property that (i) belongs to the City, or (ii) is sold for taxes or assessments, or (iii) is sold by virtue of legal process at the suit of the City (collectively, "City Property Sale"). Compensation for property taken pursuant to the City's eminent domain power does not constitute a financial interest within the meaning of this Part D.

Does the Matter involve a City Property Sale?
[ ] Yes [ ] No
3. If you checked "Yes" to Item $\mathrm{D}(1)$, provide the names and business addresses of the City officials or employees having such financial interest and identify the nature of the financial interest:

Name
Business Address
Nature of Financial Interest
4. The Disclosing Party further certifies that no prohibited financial interest in the Matter will be acquired by any City official or employee. SEE ATTACHMENT A

## E. CERTIFICATION REGARDING SLAVERY ERA BUSINESS

Please check either (1) or (2) below. If the Disclosing Party checks (2), the Disclosing Party must disclose below or in an attachment to this EDS all information required by (2). Failure to comply with these disclosure requirements may make any contract entered into with the City in connection with the Matter voidable by the City.
$\qquad$ 1. The Disclosing Party verifies that the Disclosing Party has searched any and all records of the Disclosing Party and any and all predecessor entities regarding records of investments or profits from slavery or slaveholder insurance policies during the slavery era (including insurance policies issued to slaveholders that provided coverage for damage to or injury or death of their slaves), and the Disclosing Party has found no such records.
$\qquad$ 2. The Disclosing Party verifies that, as a result of conducting the search in step (1) above, the Disclosing Party has found records of investments or profits from slavery or slaveholder insurance policies. The Disclosing Party verifies that the following constitutes full disclosure of all such records, including the names of any and all slaves or slaveholders described in those records: SEE ATTACHMENT B

## SECTION VI -- CERTIFICATIONS FOR FEDERALLY FUNDED MATTERS

NOTE: If the Matter is federally funded, complete this Section VI. If the Matter is not
federally funded, proceed to Section VII. For purposes of this Section VI, tax credits allocated by the City and proceeds of debt obligations of the City are not federal funding.

## A. CERTIFICATION REGARDING LOBBYING

1. List below the names of all persons or entities registered under the federal Lobbying Disclosure Act of 1995, as amended, who have made lobbying contacts on behalf of the Disclosing Party with respect to the Matter: (Add sheets if necessary): NOT APPLICABLE
(If no explanation appears or begins on the lines above, or if the letters "NA" or if the word "None" appear, it will be conclusively presumed that the Disclosing Party means that NO persons or entities registered under the Lobbying Disclosure Act of 1995, as amended, have made lobbying contacts on behalf of the Disclosing Party with respect to the Matter.)
2. The Disclosing Party has not spent and will not expend any federally appropriated funds to pay any person or entity listed in paragraph $\mathrm{A}(1)$ above for his or her lobbying activities or to pay any person or entity to influence or attempt to influence an officer or employee of any agency, as defined by applicable federal law, a member of Congress, an officer or employee of Congress, or an employee Ver.2018-1
of a member of Congress, in connection with the award of any federally funded contract, making any federally funded grant or loan, entering into any cooperative agreement, or to extend, continue, renew, amend, or modify any federally funded contract, grant, loan, or cooperative agreement.
3. The Disclosing Party will submit an updated certification at the end of each calendar quarter in which there occurs any event that materially affects the accuracy of the statements and information set forth in paragraphs $A(1)$ and $A(2)$ above.
4. The Disclosing Party certifies that either: (i) it is not an organization described in section 501(c)(4) of the Internal Revenue Code of 1986; or (ii) it is an organization described in section 501(c)(4) of the Internal Revenue Code of 1986 but has not engaged and will not engage in "Lobbying Activities," as that term is defined in the Lobbying Disclosure Act of 1995, as amended.
5. If the Disclosing Party is the Applicant, the Disclosing Party must obtain certifications equal in form and substance to paragraphs $\mathrm{A}(1)$ through $\mathrm{A}(4)$ above from all subcontractors before it awards any subcontract and the Disclosing Party must maintain all such subcontractors' certifications for the duration of the Matter and must make such certifications promptly available to the City upon request.

## B. CERTIFICATION REGARDING EQUAL EMPLOYMENT OPPORTUNITY

If the Matter is federally funded, federal regulations require the Applicant and all proposed subcontractors to submit the following information with their bids or in writing at the outset of negotiations.

Is the Disclosing Party the Applicant?
[ ] Yes [ ] No
If "Yes," answer the three questions below:

1. Have you developed and do you have on file affirmative action programs pursuant to applicable federal regulations? (See 41 CFR Part 60-2.)
[ ] Yes [ ] No
2. Have you filed with the Joint Reporting Committee, the Director of the Office of Federal Contract Compliance Programs, or the Equal Employment Opportunity Commission all reports due under the applicable filing requirements?
[ ] Yes [ ] No [ ] Reports not required
3. Have you participated in any previous contracts or subcontracts subject to the equal opportunity clause?
[ ] Yes [ ] No
If you checked "No" to question (1) or (2) above, please provide an explanation:

## SECTION VII -- FURTHER ACKNOWLEDGMENTS AND CERTIFICATION

The Disclosing Party understands and agrees that:
A. The certifications, disclosures, and acknowledgments contained in this EDS will become part of any contract or other agreement between the Applicant and the City in connection with the Matter, whether procurement, City assistance, or other City action, and are material inducements to the City's execution of any contract or taking other action with respect to the Matter. The Disclosing Party understands that it must comply with all statutes, ordinances, and regulations on which this EDS is based.
B. The City's Governmental Ethics Ordinance, MCC Chapter 2-156, imposes certain duties and obligations on persons or entities seeking City contracts, work, business, or transactions. The full text of this ordinance and a training program is available on line at www.cityofchicago.org/Ethics, and may also be obtained from the City's Board of Ethics, 740 N. Sedgwick St., Suite 500, Chicago, IL 60610, (312) 744-9660. The Disclosing Party must comply fully with this ordinance.
C. If the City determines that any information provided in this EDS is false, incomplete or inaccurate, any contract or other agreement in connection with which it is submitted may be rescinded or be void or voidable, and the City may pursue any remedies under the contract or agreement (if not rescinded or void), at law, or in equity, including terminating the Disclosing Party's participation in the Matter and/or declining to allow the Disclosing Party to participate in other City transactions. Remedies at law for a false statement of material fact may include incarceration and an award to the City of treble damages.
D. It is the City's policy to make this document available to the public on its Internet site and/or upon request. Some or all of the information provided in, and appended to, this EDS may be made publicly available on the Internet, in response to a Freedom of Information Act request, or otherwise. By completing and signing this EDS, the Disclosing Party waives and releases any possible rights or claims which it may have against the City in connection with the public release of information contained in this EDS and also authorizes the City to verify the accuracy of any information submitted in this EDS.
E. The information provided in this EDS must be kept current. In the event of changes, the Disclosing Party must supplement this EDS up to the time the City takes action on the Matter. If the Matter is a contract being handled by the City's Department of Procurement Services, the Disclosing Party must update this EDS as the contract requires. NOTE: With respect to Matters subject to MCC Chapter 1-23, Article I (imposing PERMANENT INELIGIBILITY for certain specified offenses), the information provided herein regarding eligibility must be kept current for a longer period, as required by MCC Chapter 1-23 and Section 2-154-020.

## CERTIFICATION

Under penalty of perjury, the person signing below: (1) warrants that he/she is authorized to execute this EDS, and all applicable Appendices, on behalf of the Disclosing Party, and (2) warrants that all certifications and statements contained in this EDS, and all applicable Appendices, are true, accurate and complete as of the date furnished to the City.

# CITY OF CHICAGO <br> ECONOMIC DISCLOSURE STATEMENT AND AFFIDAVIT <br> APPENDIX A 

## FAMILIAL RELATIONSHIPS WITH ELECTED CITY OFFICIALS AND DEPARTMENT HEADS

#### Abstract

This Appendix is to be completed only by (a) the Applicant, and (b) any legal entity which has a direct ownership interest in the Applicant exceeding 7.5\%. It is not to be completed by any legal entity which has only an indirect ownership interest in the Applicant.

Under MCC Section 2-154-015, the Disclosing Party must disclose whether such Disclosing Party or any "Applicable Party" or any Spouse or Domestic Partner thereof currently has a "familial relationship" with any elected city official or department head. A "familial relationship" exists if, as of the date this EDS is signed, the Disclosing Party or any "Applicable Party" or any Spouse or Domestic Partner thereof is related to the mayor, any alderman, the city clerk, the city treasurer or any city department head as spouse or domestic partner or as any of the following, whether by blood or adoption: parent, child, brother or sister, aunt or uncle, niece or nephew, grandparent, grandchild, father-in-law, mother-in-law, son-in-law, daughter-in-law, stepfather or stepmother, stepson or stepdaughter, stepbrother or stepsister or half-brother or half-sister.
"Applicable Party" means (1) all executive officers of the Disclosing Party listed in Section II.B.1.a., if the Disclosing Party is a corporation; all partners of the Disclosing Party, if the Disclosing Party is a general partnership; all general partners and limited partners of the Disclosing Party, if the Disclosing Party is a limited partnership; all managers, managing members and members of the Disclosing Party, if the Disclosing Party is a limited liability company; (2) all principal officers of the Disclosing Party; and (3) any person having more than a $7.5 \%$ ownership interest in the Disclosing Party. "Principal officers" means the president, chief operating officer, executive director, chief financial officer, treasurer or secretary of a legal entity or any person exercising similar authority.

Does the Disclosing Party or any "Applicable Party" or any Spouse or Domestic Partner thereof currently have a "familial relationship" with an elected city official or department head?
[ ] Yes [X] No To the Authorized Representative's knowledge, information and belief after reasonable inquiry.

If yes, please identify below (1) the name and title of such person, (2) the name of the legal entity to which such person is connected; (3) the name and title of the elected city official or department head to whom such person has a familial relationship, and (4) the precise nature of such familial relationship.

## CITY OF CHICAGO <br> ECONOMIC DISCLOSURE STATEMENT AND AFFIDAVIT APPENDIX B

## BUILDING CODE SCOFFLAW/PROBLEM LANDLORD CERTIFICATION

This Appendix is to be completed only by (a) the Applicant, and (b) any legal entity which has a direct ownership interest in the Applicant exceeding 7.5\% (an "Owner"). It is not to be completed by any legal entity which has only an indirect ownership interest in the Applicant.

1. Pursuant to MCC Section 2-154-010, is the Applicant or any Owner identified as a building code scofflaw or problem landlord pursuant to MCC Section 2-92-416?
[ ] Yes [X] No
2. If the Applicant is a legal entity publicly traded on any exchange, is any officer or director of the Applicant identified as a building code scofflaw or problem landlord pursuant to MCC Section 2-92-416?
[ ] Yes [ ] No [X] The Applicant is not publicly traded on any exchange.
3. If yes to (1) or (2) above, please identify below the name of each person or legal entity identified as a building code scofflaw or problem landlord and the address of each building or buildings to which the pertinent code violations apply.

## CITY OF CHICAGO ECONOMIC DISCLOSURE STATEMENT AND AFFIDAVIT APPENDIX C

## PROHIBITION ON WAGE \& SALARY HISTORY SCREENING - CERTIFICATION

This Appendix is to be completed only by an Applicant that is completing this EDS as a "contractor" as defined in MCC Section 2-92-385. That section, which should be consulted (www.amlegal.com), generally covers a party to any agreement pursuant to which they: (i) receive City of Chicago funds in consideration for services, work or goods provided (including for legal or other professional services), or (ii) pay the City money for a license, grant or concession allowing them to conduct a business on City premises.

On behalf of an Applicant that is a contractor pursuant to MCC Section 2-92-385, I hereby certify that the Applicant is in compliance with MCC Section 2-92-385(b)(1) and (2), which prohibit: (i) screening job applicants based on their wage or salary history, or (ii) seeking job applicants' wage or salary history from current or former employers. I also certify that the Applicant has adopted a policy that includes those prohibitions.
[X] Yes
[ ] No
[X] N/A - I am not an Applicant that is a "contractor" as defined in MCC Section 2-92-385.

This certification shall serve as the affidavit required by MCC Section 2-92-385(c)(1).

If you checked "no" to the above, please explain.

## SECTION II B.2: DISCLOSURE OF OWNERSHIP INTERESTS

JPMorgan Chase \& Co. has nearly three billion shares of common stock outstanding as of September 30, 2023 that are bought and sold by investors in the normal course. At various points of time, a limited number of large institutional investors may own in excess of $7.5 \%$ and those companies are required to make related regulatory filings with the SEC.

## SECTION III: INCOME OR COMPENSATION TO, OR OWNERSHIP BY, CITY ELECTED OFFICIALS

Based on knowledge and belief, upon due inquiry, the Disclosing Party does not reasonable expect to provide any income or compensation to any City elected official during the 12-month period following the date of this EDS.

## SECTION IV: DISCLOSURE OF SUBCONTRACTORS AND OTHER RETAINED PARTIES

With respect to Section IV, the Authorized Representative certifies based on the Authorized Representative's knowledge, information, and belief, upon due inquiry, that the Disclosing Party has not retained a subcontractor, attorney, lobbyist, accountant, or consultant in connection with the Matter.

## SECTION V: CERTIFICATIONS

## B. FURTHER CERTIFICATIONS

B. 2 The Authorized Representative certifies on behalf of the Disclosing Party, as to the statements contained in Section V.B. 2 that based on the Authorized Representative's knowledge, information, and belief, upon due inquiry, that neither the Disclosing Party nor its affiliates are delinquent in paying any fine, fee, tax or other charge owed to the State of Illinois or the City of Chicago except for taxes that are being contested in good faith by appropriate legal proceeding and possible delinquencies in paying a fine, fee, tax or other charge related to (i) property mortgaged to the Disclosing Party or its affiliates, (ii) property owned by the Disclosing Party or its affiliates and leased to others, (iii) foreclosed property now owned by the Disclosing Party or its affiliates, (iv) property owned or held by the Disclosing Party or its affiliates as a fiduciary or nominee, and (v) fines, fees, taxes or other charges that are being contested in good faith by the Disclosing Party or its affiliates by appropriate legal proceeding. If there are any outstanding claims that the Disclosing Party is notified of that Disclosing Party was not aware of previously, Disclosing Party will immediately address them.
B. 3 (a-e) With respect to Section V, B. 3 (a-e) of the EDS, the Authorized Representative certifies based on the Authorized Representative's knowledge, information, and belief, upon due inquiry, that such statements are accurate with respect to the executive officers and directors of the Disclosing Party. Based on the Disclosing Party's knowledge, information, and belief, upon due inquiry, JPMorgan Chase \& Co. and/or its subsidiaries (collectively, the "Firm") are defendants or putative defendants in numerous legal proceedings, including private civil litigations and regulatory/government investigations. The litigations range from individual actions involving a single plaintiff to class action lawsuits with potentially millions of class members. Investigations involve both formal and informal proceedings, by both governmental agencies and self-regulatory organizations. These legal proceedings are at varying stages of adjudication, arbitration or investigation, and involve each of the Firm's lines of business and geographies and a wide variety of claims (including common law tort and contract claims and statutory antitrust, securities and consumer protection claims), some of which present novel legal theories. Based on current knowledge, the Firm believes it has asserted meritorious defenses to the claims asserted against it in its currently outstanding legal proceedings, intends to defend itself vigorously in all such matters and does not believe that any pending legal proceeding would have a material effect on the Firm's performance of the services contemplated by the RFP. For further discussion, please refer to JPMorgan Chase \& Co.'s publicly-filed disclosures, including its most recent Annual Report on Form 10-K and Quarterly Reports on Form 10Q filed with the U.S. Securities and Exchange Commission (available at: https://investor.shareholder.com/ipmorganchase/sec.cfm.
B. 5 (a-d);B.6,
B. 7

The Authorized Representative certifies on behalf of the Disclosing Party the accuracy of the statements contained in sections 5, 6, and 7 of Section V only as to the Disclosing Party and its executive officers and directors. Based on the Disclosing Party's knowledge, information, and belief, upon due inquiry, JPMorgan Chase \& Co. and/or its subsidiaries are defendants or putative defendants in numerous legal proceedings, including private civil litigations and regulatory/government investigations. The litigations range from individual actions involving a single plaintiff to class action lawsuits with potentially millions of class members. Investigations involve both formal and informal proceedings, by both governmental agencies and self-regulatory organizations. These legal proceedings are at varying stages of adjudication, arbitration or investigation, and involve each of the Firm's lines of business and geographies and a wide variety of claims (including common law tort and contract claims and statutory antitrust, securities and consumer protection claims), some of which present novel legal theories. Based on current knowledge, the Firm believes it has asserted meritorious defenses to the claims asserted against it in its currently outstanding legal proceedings, intends to defend itself vigorously in all such matters and does not believe that any pending legal proceeding would have a material effect on the Firm's performance of the services contemplated by the RFP. For further discussion, please refer to JPMorgan Chase \& Co.'s publicly-filed disclosures, including its most recent Annual Report on Form 10-K and Quarterly Reports on Form 10-Q filed with the U.S. Securities and Exchange Commission (available at: https://investor.shareholder.com/jpmorganchase/sec.cfm.

Furthermore, with respect to Section V. B.5. (d), the Minimum Wage ordinance, the Disclosing Party has not, during the five years before the execution date of this EDS, been
determined to have violated the provisions of Municipal Code Section 2-92-320 (Minimum Wage Ordinance) as it relates to base wages.
B. 11 Except as otherwise set forth in this Attachment A, the Authorized Representative on behalf of the Disclosing Party does not make any certification whatsoever with respect to any Applicable Party other than the Disclosing Party. The Authorized Representative on behalf of the Disclosing Party also certifies that it has not engaged any sub-contractor with respect to this transaction.
B. 12 Please note that due to the size and scope of our organization, we are unable to determine whether any employees of the Disclosing Party were previously employed by the City of Chicago during the 12 -month period preceding the date of this EDS; without limiting the immediately foregoing statement, we do not believe there are any such employees of the Disclosing Party upon knowledge, information and belief. Further, we can state that no member of the JPMC deal team directly working on this matter was previously employed by the City of Chicago during this time period.
B. 13 The Authorized Representative certifies as to the statement in Section V, paragraph B. 13 that, based on the Authorized Representative's knowledge, information, and belief, upon due inquiry, the following gifts were provided by employees of the Disclosing Party to the following:

- None

## D. INTEREST IN CITY BUSINESS

D. 1 \& D. 4 As to the disclosures set forth in Section V, paragraphs D. 1 \& D.4, based on the Authorized Representative's knowledge, information, and belief, upon due inquiry, on behalf of the Disclosing Party, to the extent the Disclosing Party has any control the Authorized Representative certifies that no official or employee of the City of Chicago has a financial interest in his or her own name or in the name of any other person in this transaction.

# ATTACHMENT B <br> TO <br> CITY OF CHICAGO ECONOMIC DISCLOSURE STATEMENT AND AFFIDAVIT FILED BY <br> JPMORGAN CHASE \& CO. (as a Disclosing Party holding an interest in the Applicant) 

The following response is true, accurate and complete based on the Authorized Representative's knowledge, information, and belief relying on information prepared on February 24, 2009, by a consultant at the direction of JPMorgan Chase \& Co.

## SECTION V -- CERTIFICATIONS

## E. CERTIFICATION REGARDING SLAVERY ERA BUSINESS.

The Disclosing Party was formed on July 1, 2004, when JPMorgan Chase \& Co. acquired Bank One Corporation ("Bank One").

With regard to predecessors of the Disclosing Party as it existed prior to the Bank One Corporation acquisition ("JPMorgan Chase"), the Disclosing Party reports that J. Pierpont Morgan, Sr. was associated with George Peabody \& Company and J.S. Morgan \& Company (the "Peabody Firms") before he founded Drexel Morgan \& Company, which ultimately became part of JPMorgan Chase. Capital supplied by Junius S. Morgan and J. Pierpont Morgan, Sr. appears to have been used to capitalize Drexel Morgan \& Company in 1871. Upon the death of Junius S. Morgan, J.S. Morgan \& Company came under the control of J. Pierpont Morgan, Sr. and became affiliated with J.P. Morgan \& Co. Records indicate that the Peabody Firms had customers that appear to have used enslaved individuals.

JPMorgan Chase and Bank One had predecessor banks in states outside the South that purchased notes issued by, issued letters of credit or made loans to, and/or maintained correspondent accounts with municipalities, banks, companies and individuals located in Southern states where slavery was practiced during the slavery era. These municipalities, banks, companies and individuals are listed on Attachment 1.

Bank One had predecessor banks before 1866 in three Southern states: Kentucky, Louisiana and Virginia. Searches revealed slavery-related information about two Louisiana banks, the Canal Bank (formed in 1831) and the Citizens Bank (formed in 1833), and the Lexington branch of the second Bank of Kentucky (formed in 1835). In 1924 Citizens Bank and Canal Bank merged. Predecessors of JPMorgan Chase had longstanding banking relationships with Canal Bank and its predecessors (see Attachment 1), were creditors of Canal Bank and, in 1931, it appears that a predecessor of JPMorgan Chase led a group of investors that provided capital to Canal Bank and this predecessor of JPMorgan Chase became a shareholder and took a controlling management interest in the Canal Bank. The Canal Bank was placed into liquidation in March-May 1933 based on actions by the State of Louisiana and the federal government. In May 1933, The National Bank of Commerce in New Orleans was formed pursuant to an executive order approved by President Roosevelt and its assets included some of the deposits and loans of the old Canal Bank. Most of the capital for The National Bank of Commerce was provided by the Reconstruction Finance Corporation (owned by the U.S. government), with the remainder coming from new shareholders. The U.S. government also provided over $\$ 13$ million toward the liquidation of the old Canal Bank. In 1947 and 1969, The National Bank of Commerce in New

Orleans made two grants to Tulane University, which included archives of the Citizens Bank and Canal Bank. These materials are held at the Tulane Manuscripts Department, Special Collections Division, Howard-Tilton Memorial Library at Tulane University in New Orleans, Louisiana (collectively, the "Tulane Records"). In 1865, the First National Bank of Lexington (subsequently a part of First Security Corporation of Kentucky which was acquired by Bank One in 1992) was formed and assumed the operations of the Lexington Branch of the second Bank of Kentucky. Public records pertaining to the Lexington Branch of the second Bank of Kentucky have been discovered that contain records relevant to this certification (the "Lexington Records"). The Tulane Records, the Lexington Records and other records indicate that:

1. Citizens Bank and Canal Bank provided credit to plantation owners and accepted mortgages from them. The collateral covered by these mortgages included land, equipment and/or enslaved individuals. The available records do not always provide the names of enslaved individuals. The Disclosing Party, however, estimates that, from 1831 to 1865, taking into account the duplication and/or absence of exact data, approximately 21,000 enslaved individuals were listed among the collateral covered by mortgages given to the Louisiana banks.
2. The Lexington Branch of the second Bank of Kentucky also provided credit to plantation owners and accepted mortgages from them. The collateral covered by these mortgages included land, equipment and/or enslaved individuals. The available records do not always provide the names of enslaved individuals. The Disclosing Party, however, estimates that, from 1835 to 1865, taking into account the duplication and/or absence of exact data, approximately 55 enslaved individuals were listed among the collateral covered by mortgages given to the Lexington Branch of the second Bank of Kentucky.
3. When mortgages went unpaid, the banks could initiate foreclosure proceedings. When this occurred, the bank could take ownership of the collateral. The available records do not always provide the names of enslaved individuals. The Disclosing Party, however, estimates that, from 1831 to 1865 , taking into account the duplication and/or absence of exact data, approximately 1,300 enslaved individuals were listed among the collateral that the Louisiana banks came to own. There is no evidence of foreclosure proceedings initiated by the Lexington Branch of the second Bank of Kentucky.

Attachment 2 lists information on mortgages as to which one of the Louisiana banks came to own enslaved individuals through foreclosure proceedings, including, where available, the names of those individuals and their prior or subsequent owners. Attachment 3 lists information on mortgages as to which one of the three banks held collateral that included enslaved individuals, including, where available, the names of those individuals and their prior or subsequent owners. The attachments will be supplemented as necessary to reflect any additional information located.

On September 25, 2008, JPMorgan Chase Bank, National Association (a subsidiary of the Disclosing Party) acquired from the Federal Deposit Insurance Corporation, as the Receiver of Washington Mutual Bank, Henderson NV, certain assets of Washington Mutual Bank.

A review of the records of Washington Mutual Bank, including the records of its predecessor entities, has disclosed no evidence that Washington Mutual Bank nor any of its predecessors had any investments or profits from slavery, any direct involvement in the slave trade, any direct ownership in slaves, or any slaveholder insurance policies from the slavery era. There is evidence, however, that one predecessor entity, The Bowery Savings Bank, New York (1834)
("Bowery Savings"), purchased a $\$ 100,000$ bond of a slave holding state, North Carolina. A total of $\$ 44,000$ was paid to Bowery Savings by North Carolina in 1868 on account of the bond.

LEXINGTON BRANCH OF THE SECOND BANK OF KENTUCKY

## Attachment 2

The following list identifies enslaved individuals owned by Citizens Bank of Louisiana and New Orleans Canal \& Banking Company in Louisiana from 1831 to $1865 .{ }^{1}$ The information is drawn from two sources. The first is a collection of Citizens Bank minute books and papers held at Tulane University. The second is a survey of conveyance and land records held either at the New Orleans Public Library or at local parishes throughout Louisiana.

The list includes every reference to ownership of enslaved individuals by the banks located in these records. The list is arranged by parish and thereafter by date. General references to ownership that did not indicate a specific parish are listed separately.

Each entry includes information on previous $(\mathrm{P})$ and subsequent $(\mathrm{S})$ owners where known. Any available information on the location of the plantation is also recorded and appears in brackets after the previous and subsequent owners. Each entry includes a reference identifying the historical sources used to compile the information.

The information on individuals includes all names identified in the records. In some cases, the same individuals appear to have been involved in several different transactions. However, the records are often not consistent in the spelling of names and are often only partially or poorly indexed. Accordingly, each transaction is listed separately. The names in italics are ones that were difficult to decipher because of handwriting or because the records have faded over time.

## Attachment 3

The following list identifies cases where enslaved individuals were pledged to Citizens Bank of Louisiana, the New Orleans Canal Bank, or the Bank of Kentucky (Lexington Branch) as collateral for mortgages or loans from 1831 to $1865 .{ }^{1}$ The information is drawn from three sources. The first is a collection of Citizens Bank minute books and papers held at Tulane University. The second consists of conveyance and mortgage records held at local parishes throughout Louisiana. The final source consists of conveyance records held at the Fayette County Courthouse in Lexington, Kentucky.

The list includes every reference to Citizens Bank, Canal Bank, or Bank of Kentucky (Lexington Branch) customers who secured loans or mortgages with enslaved individuals. The list is arranged alphabetically by parish or county and thereafter by owner. Each entry also includes information on the property and individual names included in the records. Names in italics reflect places where the documents were difficult to decipher because of the handwriting or because the documents have faded over time. The final column identifies the source for the information.

Many loans or mortgages were recorded more than once, including when borrowers died and plantations were sold or passed to others by will or other conveyance, or when loans were changed and had to be re-recorded. The existing records do not always provide enough information to identify when this occurred. Thus, related transactions may appear in separate entries listed under separate individuals. Complicating matters, there was no standardized spelling for many names in the source materials, and no standardized descriptions for many of the properties involved. Duplicate entries were avoided wherever possible, but where there was doubt, multiple entries were provided. Accordingly, some enslaved individuals listed may appear in several different entries.

## Anti-Predatory Lending Pledge* for Municipal Depositories

We pledge that we are not and will not become a predatory lender as defined in Chapter 2-32 of the Municipal Code of Chicago. We further pledge that none of our affiliates is, and none of them will become, a predatory lender as defined in Chapter 2-32 of the Municipal Code of Chicago. We understand that becoming a predatory lender or becoming an affiliate of a predatory lender may result in the loss of our designation as a municipal depository.

## Loan Policy Pledge for Municipal Depositories

We pledge not to arbitrarily reject mortgage loans for residential properties within a specific geographic area in Chicago because of the location and/or age of the property, or in the case of proposed borrower to arbitrarily vary the terms of those loans or the application procedures for those loans on the basis of race, color, religion, national origin, age, sex, marital status, ancestry, sexual orientation, parental status, source of income, disability or military discharge status. In addition, we pledge to make loans available to low- and moderate-income residential property in the neighborhoods of the City of Chicago within the limits of our legal restriction and prudent financial practices.

We understand that arbitrarily rejecting or varying the terms and/or application procedures of mortgage loans on the basis of the factors listed above may result in the lost of our designation as a municipal depository.

# AFFIDAVIT OF COMMITMENT TO COMMUNITY REINVESTMENT, RESPONSIBILITY AND TRANSPARENCY CITY OF CHICAGO OFFICE OF THE COMPTROLLER 

I, Nicole Holsopple a duly authorized representative of JPMorgan Chase Bank, N.A. represent and say as follows:

That for the purpose of becoming an eligible depository for active deposits of the City of Chicago, the undersigned Affiant states that it will use reasonable efforts to provide lending, financing, and banking opportunities as a commitment of community reinvestment to Chicago's low and moderate income (LMI) communities; Affiant states that such reasonable efforts shall include, but are not limited to:
A. Assignment of identifiable personnel to answer and respond to questions, concerns and inquiries by the citizens of Chicago, City Treasurer, City Comptroller, and the City Council regarding financial services, investment and lending products, services and related issues, including the Community Reinvestment Act (CRA) of 1977;
B. Cooperate with non-profit neighborhood development/redevelopment organizations in the implementation of "neighborhood economic development" strategies that focus on revitalization of communities that are more locally focused where an institution has a branch or market presence;
C. Commit to use reasonable effort to market and make available banking services throughout Chicago's low and moderate income communities;
D. Prepare an annual report of CRA activities, presented to the Comptroller, the Treasurer, and the City Council, that is made publicly available, demonstrating investment in all Chicago Communities, as well as reinvestment in LMI communities of Chicago, by community area that includes the number of loans and amount of loans in the following (6) categories:

1. Home Purchase within LMI communities;
2. Refinancing within LMI communities;
3. Home Improvement;
4. Small Business Loans (to companies with revenues under \$1 Million);
5. Community Development Loans including multi-family lending; and
6. Community Development Investments to eligible Community Development Financial Institutions (CDFI) and other community intermediaries to further the goals of an institution to meet its obligations to the Community Reinvestment Act of 1977 and this Affidavit.

Such a Municipal Depository annual CRA report will include, by community area, the number of mortgage loans originated and other strategies to minimize the impact of foreclosure and neighborhood instability.
E. An institution acknowledges that failure to comply with this Affidavit may result in discontinued status as a municipal depository.

# J.P.Morgan 

Joanne Beer
Relationship Executive
JPMorgan Chase Bank, N.A. - Government Banking

November 14, 2023
Mr. Chasse Rehwinkel, City Comptroller
Ms. Melissa Conyears-Ervin, City Treasurer
City of Chicago
121 North LaSalle Street
Chicago, Illinois 60602

## RE: 2023 RFP for Designation as a 2024 Municipal Depository for City of Chicago and Chicago Board of Education Funds

## Dear Comptroller Rehwinkel and Treasurer Conyears-Ervin:

On behalf of JPMorgan Chase Bank, N.A. ("J.P. Morgan") we respectfully submit the requested documents and information ("Information") in response to the above referenced Request for Proposal, including addendums one and two. J.P. Morgan is honored to be one of the City of Chicago's primary banking service providers for many years. It would be our privilege to continue to serve in this role and we are committed to your continued success.

Because of the confidential and sensitive nature of the Information, we respectfully request that the City maintain the Information and any memoranda, notes or other writings of any kind made by an employee or agent of the City in confidence and not make the Information and documents including writings of the Information available for copying or inspection.

The Information contains detailed lending, savings and account data of residents and businesses of the City which has been compiled and submitted in a unique format for the City and, if compromised, could constitute an unwarranted invasion of privacy. We trust the City will follow its policies regarding security of personal and confidential information.

In addition, the Information and document including the Information contain commercial and financial Information of J.P. Morgan which constitute trade secrets and are exempt from public disclosure under the federal Freedom of Information Act and the Illinois Freedom of Information Act. As such, the information is privileged and confidential. Enclosed we have provided a REDACTED version.

We appreciate your consideration of our submittal. Please contact me, Joanne Beer, for any items concerning this RFP. I can be reached at 312-732-6988 or joanne.baer@jpmorgan.com.

Sincerely,
Joanne Boer

## EXECUTIVE SUMMARY

J.P. Morgan deeply values its relationship and history with the City of Chicago and Board of Education of the City of Chicago. It is a privilege to be a depository bank for the City of Chicago and Board of Education and look forward to continuing our relationship, providing depository services, backed by the balance sheet of J.P. Morgan.

| Objective | Solutions and Considerations |
| :--- | :--- |
|  | J.P. Morgan has developed and maintained strong financial discipline throughout <br> fluctuating market conditions. We have the financial stability to provide our clients <br> with a broad, complete and high-quality set of products and services- while <br> leveraging the benefits and efficiencies that come with economies of scale. <br> - Strong long-term issuer ratings of Aa2/A+/AA <br> - Total deposits of more than $\$ 2.4$ trillion and total assets of more than $\$ 3.6$ <br> trillion |

# Consolidated Reports of Condition and Income for A Bank With Domestic and Foreign Offices - FFIEC 031 

## Report at the close of business March 31, 2023

This report is required by law: 12 U.S.C. $\S 324$ (State member banks); 12 U.S.C. §1817 (State non member banks); 12 U.S.C. §161 (National banks); and 12 U.S.C. §1464 (Savings associations).

NOTE: Each bank's board of directors and senior management are responsible for establishing and maintaining an effective system of internal control, including controls over the Reports of Condition and Income. The Reports of Condition and Income are to be prepared in accordance with federal regulatory authority instructions. The Reports of Condition and Income must be signed by the Chief Financial Officer (CFO) of the reporting bank (or by the individual performing an equivalent function) and attested to by not less than two directors (trustees) for state non member banks and three directors for state member banks, national banks, and savings associations.

I, the undersigned CFO (or equivalent) of the named bank, attest that the Reports of Condition and Income (including the supporting

Unless the context indicates otherwise, the term "bank" in this report form refers to both banks and savings associations.
schedules) for this report date have been prepared in conformance with the instructions issued by the appropriate Federal regulatory authority and are true and correct to the best of my knowledge and belief.

We, the undersigned directors (trustees), attest to the correctness of the Reports of Condition and Income (including the supporting schedules) for this report date and declare that the Reports of Condition and Income have been examined by us and to the best of our knowledge and belief have been prepared in conformance with the instructions issued by the appropriate Federal regulatory authority and are true and correct.

## $\overline{\text { Director (Trustee) }}$

Director (Trustee)

Director (Trustee)

## FDIC Certificate Number 628 (RSSD 9050)

To fulfill the signature and attestation requirement for the Reports of Condition and Income for this report date, attach your bank's completed signature page (or a photocopy or a computer generated version of this page) to the hard-copy record of the data file submitted to the CDR that your bank must place in its files.
The appearance of your bank's hard-copy record of the submitted data file need not match exactly the appearance of the FFIEC's sample report forms, but should show at least the caption of each Call Report item and the reported amount.

## USA PATRIOT Act Section 314(a) Anti-Money Laundering Contact Information

This information is being requested to identify points-of-contact who are in charge of your bank's USA PATRIOT Act Section 314(a) information requests. Bank personnel listed could be contacted by law enforcement officers or the Financial Crimes Enforcement Network (FinCEN) for additional information related to specific Section 314(a) search requests or other anti-terrorist financing and anti- money laundering matters. Communications sent by FinCEN to the bank for purposes other than Section 314(a) notifications will state the intended purpose and should be directed to the appropriate bank personnel for review. Any disclosure of customer records to law enforcement officers or FinCEN must be done in compliance with applicable law, including the Right to Financial Privacy Act (12 U.S.C. 3401 et seq.).

Please provide information for a primary and secondary contact. Information for a third and fourth contact may be provided at the bank's option. Enter "none" for the contact's e-mail address if not available. This contact information is for the confidential use of the Agencies, FinCEN, and law enforcement officers and will not be released to the public.

| 5. Number of full-time equivalent employees at end of current period (round to nearest whole number)..................... | RIAD4150 | 221852 | M. |
| 6. Not applicable |  |  | M.6. |

[^11]Dollar amounts in thousands
7. If the reporting institution has applied pushdown accounting this calendar year, report the date of the institution's acquisition (see instructions) ${ }^{2}$
8. Trading revenue (from cash instruments and derivative instruments) (sum of Memorandum items 8.a through 8.e must equal Schedule RI, item 5.c):

Memorandum items 8.a through 8.e are to be completed by banks that reported average trading assets (Schedule RC-K, item 7) of $\$ 2$ million or more for any quarter of the preceding calendar year.
a. Interest rate exposures.
...........
b. Foreign exchange exposures.............
c. Equity security and index exposures
d. Commodity and other exposures.
e. Credit exposures.

Memorandum items $8 . f$ through $8 . h$ are to be completed by banks with $\$ 100$ billion or more in total assets that are required to complete Schedule RI, Memorandum items 8.a through 8.e, above.
f. Impact on trading revenue of changes in the creditworthiness of the bank's derivatives counterparties on the bank's derivative assets (year-to-date changes) (included in Memorandum items 8.a through 8.e above):

1. Gross credit valuation adjustment (CVA).
2. CVA hedge
g. Impact on trading revenue of changes in the creditworthiness of the bank on the bank's derivative liabilities (year-to-date changes) (included in Memorandum items 8.a through 8.e above):
3. Gross debit valuation adjustment (DVA).
4. DVA hedge.
h. Gross trading revenue, before including positive or negative net CVA and net DVA
5. Net gains (losses) recognized in earnings on credit derivatives that economically hedge credit exposures held outside the trading account:
a. Net gains (losses) on credit derivatives held for trading.
b. Net gains (losses) on credit derivatives held for purposes other than trading.
6. Credit losses on derivatives (see instructions)
7. Does the reporting bank have a Subchapter $S$ election in effect for federal income tax purposes for the current tax year?.
Memorandum item 12 is to be completed by banks that are required to complete Schedule RC-C, Part I, Memorandum items 8.b and 8.c and is to be completed semiannually in the June and December reports only.
8. Noncash income from negative amortization on closed-end loans secured by 1-4 family residential properties (included in Schedule RI, item 1.a.(1)(a)(1)).
Memorandum item 13 is to be completed by banks that have elected to account for assets and liabilities under a fair value option. 13. Net gains (losses) recognized in earnings on assets and liabilities that are reported at fair value under a fair value option:
a. Net gains (losses) on assets.
9. Estimated net gains (losses) on loans attributable to changes in instrument-specific credit risk.
b. Net gains (losses) on liabilities
10. Estimated net gains (losses) on liabilities attributable to changes in instrument-specific credit risk
11. Other-than-temporary impairment losses on held-to-maturity and available-for-sale debt securities ${ }^{2}$.

Memorandum item 15 is to be completed by institutions with $\$ 1$ billion or more in total assets that answered "Yes" to Schedule RC-E, Part I, Memorandum item 5.
15. Components of service charges on deposit accounts in domestic offices (sum of Memorandum items 15.a through 15.d must equal Schedule RI, item 5.b):
a. Consumer overdraft-related service charges levied on those transaction account and nontransaction savings account deposit products intended primarily for individuals for personal, household, or family use. b. Consumer account periodic maintenance charges levied on those transaction account and nontransaction savings account deposit products intended primarily for individuals for personal, household, or family use.
c. Consumer customer automated teller machine (ATM) fees levied on those transaction account and nontransaction savings account deposit products intended primarily for individuals for personal, household, or family use.
d. All other service charges on deposit accounts.

## Schedule RI-E - Explanations (Form Type - 031)

Schedule RI-E is to be completed each quarter on a calendar year-to-date basis.
Detail all adjustments in Schedule RI-A and RI-B, all extraordinary items and other adjustments in Schedule RI, and all significant items of other noninterest income and other noninterest expense in Schedule RI. (See instructions for details.)

Dollar amounts in thousands

1. Other noninterest income (from Schedule RI, item 5.I) Itemize and describe amounts greater than \$100,000 that exceed 7 percent of Schedule RI, item 5.I:
a. Income and fees from the printing and sale of checks.
b. Earnings on/increase in value of cash surrender value of life insurance.
c. Income and fees from automated teller machines (ATMs).
d. Rent and other income from other real estate owned.
e. Safe deposit box rent.
f. Bank card and credit card interchange fees.
g. Income and fees from wire transfers.
h. Disclose component and the dollar amount of that component:
2. Describe component..
3. Amount of component
i. Disclose component and the dollar amount of that component:
4. Describe component.
5. Amount of component.
j. Disclose component and the dollar amount of that component:
6. Describe component.
7. Amount of component.
8. Other noninterest expense (from Schedule RI, item 7.d) Itemize and describe amounts greater than $\$ 100,000$ that exceed 7 percent of Schedule RI, item 7.d:
a. Data processing expenses.
b. Advertising and marketing expenses.
c. Directors' fees.
d. Printing, stationery, and supplies.
e. Postage
f. Legal fees and expenses.
g. FDIC deposit insurance assessments.
h. Accounting and auditing expenses.
i. Consulting and advisory expenses.
j. Automated teller machine (ATM) and interchange expenses
k. Telecommunications expenses.
I. Other real estate owned expenses.
m . Insurance expenses (not included in employee expenses, premises and fixed asset expenses, and other real estate owned expenses)
n . Disclose component and the dollar amount of that component:
9. Describe component.
10. Amount of component
o. Disclose component and the dollar amount of that component:
11. Describe component..
12. Amount of component
p. Disclose component and the dollar amount of that component:
13. Describe component.
14. Amount of component
15. Discontinued operations and applicable income tax effect (from Schedule RI, item 11) (itemize and describe each discontinued operation):
a. Disclose component, the gross dollar amount of that component, and its related income tax:
16. Describe component.
17. Amount of component

## Schedule RC-C Part I - Loans and Leases(Form Type - 031)

Do not deduct the allowance for loan and lease losses or the allocated transfer risk reserve from amounts reported in this schedule. Report (1) loans and leases held for sale at the lower of cost or fair value, (2) loans and leases held for investment, net of unearned income, and (3) loans and leases accounted for at fair value under a fair value option. Exclude assets held for trading and commercial paper.

1. Loans secured by real estate ${ }^{2}$.
a. Construction, land development, and other land loans:
2. 1-4 family residential construction loans.
3. Other construction loans and all land development and other land loans.
b. Secured by farmland (including farm residential and other improvements).
c. Secured by 1-4 family residential properties:
4. Revolving, open-end loans secured by 1-4 family residential properties and extended under lines of credit.
5. Closed-end loans secured by 1-4 family residential properties:
a. Secured by first liens.
b. Secured by junior liens.
d. Secured by multifamily (5 or more) residential properties.
e. Secured by nonfarm nonresidential properties:
6. Loans secured by owner-occupied nonfarm nonresidential properties.
7. Loans secured by other nonfarm nonresidential properties
8. Loans to depository institutions and acceptances of other banks:
a. To commercial banks in the U.S.
9. To U.S. branches and agencies of foreign banks.
10. To other commercial banks in the U.S.
b. To other depository institutions in the U.S.
c. To banks in foreign countries
11. To foreign branches of other U.S. banks.
12. To other banks in foreign countries.
13. Loans to finance agricultural production and other loans to farmers.
14. Commercial and industrial loans:
a. To U.S. addressees (domicile).
b. To non-U.S. addressees (domicile)
15. Not applicable
16. Loans to individuals for household, family, and other personal expenditures (i.e., consumer loans) (includes purchased paper):
a. Credit cards.
b. Other revolving credit plans.
c. Automobile loans.
d. Other consumer loans (includes single payment and installment loans other than automobile loans, and all student loans).
17. Loans to foreign governments and official institutions (including foreign central banks).
18. Obligations (other than securities and leases) of states and political subdivisions in the
U.S..
19. Loans to nondepository financial institutions and other loans.
a. Loans to nondepository financial institutions.
b. Other loans:
20. Loans for purchasing or carrying securities (secured and unsecured).
21. All other loans (exclude consumer loans)..
22. Lease financing receivables (net of unearned income)
a. Leases to individuals for household, family, and other personal expenditures (i.e.,
consumer leases).
b. All other leases.
23. LESS: Any unearned income on loans reflected in items 1-9 above
24. Total loans and leases held for investment and held for sale (item 12, column A must equal Schedule RC, sum of items 4.a and 4.b).

Dollar amounts in thousands

1. Loans restructured in troubled debt restructurings that are in compliance with their modified terms (included in Schedule RC-C, part 1, and not reported as past due or nonaccrual in Schedule RC-N, Memorandum item 1):
a. Construction, land development, and other land loans in domestic offices:
2. 1-4 family residential construction loans.
3. Other construction loans and all land development and other land loans.
b. Loans secured by 1-4 family residential properties in domestic offices.
c. Secured by multifamily ( 5 or more) residential properties in domestic offices
d. Secured by nonfarm nonresidential properties in domestic offices:
4. Loans secured by owner-occupied nonfarm nonresidential properties.
5. Loans secured by other nonfarm nonresidential properties.
e. Commercial and industrial loans:
6. To U.S. addressees (domicile).
7. To non-U.S. addressees (domicile).
f. All other loans (include loans to individuals for household, family, and other personal expenditures).

Itemize loan categories included in Memorandum item 1.f, above that exceed 10 percent of total loans restructured in troubled debt restructurings that are in compliance with their modified terms (sum of Memorandum items 1.a through 1.f):

1. Loans secured by farmland in domestic offices.
2. Not applicable
3. Loans to finance agricultural production and other loans to farmers.
4. Loans to individuals for household, family, and other personal expenditures:
a. Credit cards.
b. Automobile loans
c. Other (includes revolving credit plans other than credit cards and other consumer loans).
g. Total loans restructured in troubled debt restructurings that are in compliance with their modified terms (sum of Memorandum items 1.a.(1) through 1.f)..
5. Maturity and repricing data for loans and leases (excluding those in nonaccrual status):
a. Closed-end loans secured by first liens on 1-4 family residential properties in domestic offices (reported in

Schedule RC-C, part I, item 1.c.(2)(a), column B) with a remaining maturity or next repricing date of:

1. Three months or less..
2. Over three months through 12 months.
3. Over one year through three years.
4. Over three years through five years.
5. Over five years through 15 years.
6. Over 15 years.
b. All loans and leases (reported in Schedule RC-C, part I, items 1 through 10, column A) EXCLUDING closed-end loans secured by first liens on 1-4 family residential properties in domestic offices (reported in Schedule RC-C, part I, item 1.c.(2)(a), column B) with a remaining maturity or next repricing date of:
7. Three months or less.
8. Over three months through 12 months.
9. Over one year through three years.
10. Over three years through five years.
11. Over five years through 15 years.
12. Over 15 years.
c. Loans and leases (reported in Schedule RC-C, part I, items 1 through 10, column A) with a REMAINING MATURITY of one year or less (excluding those in nonaccrual status).
13. Loans to finance commercial real estate, construction, and land development activities (not secured by real estate) included in Schedule RC-C, part I, items 4 and 9, column A ${ }^{4}$.
14. Adjustable rate closed-end loans secured by first liens on 1-4 family residential properties in domestic offices (included in Schedule RC-C, part I, item 1.c.(2)(a), column B)..
15. Loans secured by real estate to non-U.S. addressees (domicile) (included in Schedule RC-C, Part I, item 1, column A, or Schedule RC-C, Part I, items 1.a.(1) through 1.e.(2), column A, as appropriate).
Memorandum item 6 is to be completed by banks that (1) together with affiliated institutions, have outstanding credit card receivables (as defined in the instructions) that exceed $\$ 500$ million as of the report date, or (2) are credit card specialty banks as defined for Uniform Bank Performance Report purposes.
16. Outstanding credit card fees and finance charges included in Schedule RC-C, part I, item 6.a, column A.

## Schedule RC-C Part II - Loans to Small Businesses and Small Farms(Form Type - 031)

Report the number and amount currently outstanding as of the report date of business loans with "original amounts" of \$1,000,000 or less and farm loans with "original amounts" of $\$ 500,000$ or less. The following guidelines should be used to determine the "original amount" of a loan:
(1) For loans drawn down under lines of credit or loan commitments, the "original amount" of the loan is the size of the line of credit or loan commitment when the line of credit or loan commitment was most recently approved, extended, or renewed prior to the report date. However, if the amount currently outstanding as of the report date exceeds this size, the "original amount" is the amount currently outstanding on the report date. (2) For loan participations and syndications, the "original amount" of the loan participation or syndication is the entire amount of the credit originated by the lead lender. (3) For all other loans, the "original amount" is the total amount of the loan at origination or the amount currently outstanding as of the report date, whichever is larger.

| Dollar amounts in thousands | (Column A) Number of Loans |  | (Column B) Amount Currently Outstanding |  |
| :---: | :---: | :---: | :---: | :---: |

## Schedule RC-M - Memoranda(Form Type - 031)

Dollar amounts in thousands

[^36]Dollar amounts in thousands
b. URLs of all other public-facing Internet Web sites that the reporting institution uses to accept or solicit deposits from the public, if any (Example: www.examplebank.biz): ${ }^{1}$

1. URL 1.
$\qquad$
2. URL 3.
3. URL 4
4. URL 5
5. URL 6
6. URL 7
7. URL 8
8. URL 9
9. URL 10.
c. Trade names other than the reporting institution's legal title used to identify one or more of the institution's physical offices at which deposits are accepted or solicited from the public, if any:
10. Trade name 1
11. Trade name 2.
12. Trade name 3
13. Trade name 4
14. Trade name 5
15. Trade name 6

Item 9 is to be completed annually in the December report only.
9. Do any of the bank's Internet Web sites have transactional capability, i.e., allow the bank's customers to execute transactions on their accounts through the Web site?.

## 10. Secured liabilities:

a. Amount of "Federal funds purchased in domestic offices" that are secured (included in Schedule RC, item 14.a).
b. Amount of "Other borrowings" that are secured (included in Schedule RC-M, items 5.b.(1)(a) - (d))
11. Does the bank act as trustee or custodian for Individual Retirement Accounts, Health Savings Accounts, and other similar accounts?
12. Does the bank provide custody, safekeeping, or other services involving the acceptance of orders for the sale or purchase of securities?
13. Assets covered by loss-sharing agreements with the FDIC:
a. Loans and leases (included in Schedule RC, items 4.a and 4.b):

1. Loans secured by real estate in domestic offices:
a. Construction, land development, and other land loans:
2. 1-4 family residential construction loans
3. Other construction loans and all land development and other land loans.
b. Secured by farmland.
c. Secured by 1-4 family residential properties:
4. Revolving, open-end loans secured by 1-4 family residential properties and extended under lines of credit.
5. Closed-end loans secured by 1-4 family residential properties:
a. Secured by first liens
b. Secured by junior liens
d. Secured by multifamily (5 or more) residential properties
e. Secured by nonfarm nonresidential properties:
6. Loans secured by owner-occupied nonfarm nonresidential properties
7. Loans secured by other nonfarm nonresidential properties.
8. Not applicable
9. Not applicable
10. Not applicable
11. All other loans and all leases.

## Schedule RC-O - Other Data for Deposit Insurance and FICO Assessments(Form Type -031)

All FDIC-insured depository institutions must complete items 1 through 9, 10, and 11, Memorandum item 1, and, if applicable, item 9.a, Memorandum items 2, 3, and 6 through 18 each quarter. Unless otherwise indicated, complete items 1 through 11 and Memorandum items 1 through 3 on an "unconsolidated single FDIC certificate number basis" (see instructions) and complete Memorandum items 6 through 18 on a fully consolidated basis.

Dollar amounts in thousands

1. Total deposit liabilities before exclusions (gross) as defined in Section 3(I) of the Federal Deposit Insurance Act and FDIC regulations.
2. Total allowable exclusions, including interest accrued and unpaid on allowable exclusions (including foreign deposits)
3. Total foreign deposits, including interest accrued and unpaid thereon (included in item 2 above).
4. Average consolidated total assets for the calendar quarter.
a. Averaging method used (for daily averaging, enter 1 ; for weekly averaging, enter 2).
5. Average tangible equity for the calendar quarter ${ }^{1}$
6. Holdings of long-term unsecured debt issued by other FDIC-insured depository institutions.
7. Unsecured "Other borrowings" with a remaining maturity of (sum of items 7. a through 7. d must be less than or equal to Schedule RC-M, items 5.b.(1)(a)-(d) minus item 10.b):
a. One year or less.
b. Over one year through three years.
c. Over three years through five years.
d. Over five years.
8. Subordinated notes and debentures with a remaining maturity of (sum of items 8.a through 8.d must equal Schedule RC, item 19):
a. One year or less
b. Over one year through three years.
c. Over three years through five years.
d. Over five years.
9. Brokered reciprocal deposits (included in Schedule RC-E, Part I, Memorandum item 1.b).

Item 9 .a is to be completed on a fully consolidated basis by all institutions that own another insured depository institution.
a. Fully consolidated brokered reciprocal deposits.
10. Banker's bank certification: Does the reporting institution meet both the statutory definition of a banker's bank and the business conduct test set forth in FDIC regulations? If the answer to item 10 is "YES," complete items 10.a and 10.b.

If the answer to item 10 is "YES," complete items 10.a and 10.b.
a. Banker's bank deduction.
b. Banker's bank deduction limit.
11. Custodial bank certification: Does the reporting institution meet the definition of a custodial bank set forth in FDIC regulations? If the answer to item 11 is "YES," complete items 11.a and 11.b..

If the answer to item 11 is "YES," complete items 11.a and 11.b.
a. Custodial bank deduction.
b. Custodial bank deduction limit.

1. Total deposit liabilities of the bank (including related interest accrued and unpaid) less allowable exclusions (including related interest accrued and unpaid) (sum of Memorandum items 1.a.(1), 1.b.(1), 1.c.(1), and 1.d.(1) must equal Schedule RC-O, item 1 less item 2):
a. Deposit accounts (excluding retirement accounts) of $\$ 250,000$ or less: ${ }^{1}$
2. Amount of deposit accounts (excluding retirement accounts) of $\$ 250,000$ or less
3. Number of deposit accounts (excluding retirement accounts) of $\$ 250,000$ or less.

## Schedule RC-P - 1-4 Family Residential Mortgage Banking Activities in Domestic Offices(Form Type - 031)

Schedule RC-P is to be completed by banks at which either 1-4 family residential mortgage loan originations and purchases for resale from all sources, loan sales, or quarter-end loans held for sale or trading in domestic offices exceed $\$ 10$ million for two consecutive quarters. Dollar amounts in thousands

1. Retail originations during the quarter of 1-4 family residential mortgage loans for sale ${ }^{1}$
2. Wholesale originations and purchases during the quarter of 1-4 family residential mortgage loans for sale ${ }^{2}$.
3. 1-4 family residential mortgage loans sold during the quarter.
4. 1-4 family residential mortgage loans held for sale or trading at quarter-end (included in Schedule RC, items 4.a and 5)..
5. Noninterest income for the quarter from the sale, securitization, and servicing of 1-4 family residential mortgage loans (included in Schedule RI, items 5.c, 5.f, 5.g, and 5.i).
6. Repurchases and indemnifications of 1-4 family residential mortgage loans during the quarter.
7. Representation and warranty reserves for 1-4 family residential mortgage loans sold:
a. For representations and warranties made to U.S. government agencies and government-sponsored agencies..
b. For representations and warranties made to other parties
c. Total representation and warranty reserves (sum of items 7.a and 7.b). $\qquad$

## Schedule RC-R Part I-Regulatory Capital Components and Ratios(Form Type - 031)

Part I is to be completed on a consolidated basis.

| Dollar amounts in thousands |  |  |  |
| :---: | :---: | :---: | :---: |
| 1. Common stock plus related surplus, net of treasury stock and unearned employee stock ownership plan (ESOP) shares. | RCFAP742 | 120,321,000 | 1. |
| 2. Retained earnings ${ }^{1}$ | RCFAKW00 | 204,884,000 | 2. |
| To be completed only by institutions that have adopted ASU 2016-13: <br> a. Does your institution have a CECL transition election in effect as of the quarter-end report date? (enter " 0 " for No; enter "1" for Yes with a 3-year CECL transition election; enter "2" for Yes with a 5-year 2020 CECL transition election.). | RCOAJJ29 | 2 | 2.a. |
| 3. Accumulated other comprehensive income (AOC) | RCFAB530 | -14,748,000 | 3. |
| a. AOCI opt-out election (enter "1" for Yes; enter "0" for No.) (Advanced approaches institutions must enter "0" for No.) | RCOAP838 | 0 | 3.a. |
| 4. Common equity tier 1 minority interest includable in common equity tier 1 capital | RCFAP839 | 0 | 4. |
| 5. Common equity tier 1 capital before adjustments and deductions (sum of items 1 through 4) | RCFAP840 | 310,457,000 | 5. |
| 6. LESS: Goodwill net of associated deferred tax liabilities (DTLs) | RCFAP841 | 40,891,000 | 6. |
| 7. LESS: Intangible assets (other than goodwill and mortgage servicing assets (MSAs)), net of associated DTLs | RCFAP842 | 76,000 | 7. |
| 8. LESS: Deferred tax assets (DTAs) that arise from net operating loss and tax credit carryforwards, net of any related valuation allowances and net of DTLs. | RCFAP843 | 22,000 | 8. |
| 9. AOCI-related adjustments (items 9.a through 9.e are effective January 1, 2015) (if entered "1" for Yes in item 3.a, complete only items 9.a through 9.e; if entered "0" for No in item 3.a, complete only item 9.f): |  |  | 9. |
| a. LESS: Net unrealized gains (losses) on available-for-sale debt securities (if a gain, report as a positive value; if a loss, report as a negative value). | RCFAP844 | NR | 9.a. |
| b. Not applicable. |  |  | 9.b. |
| c. LESS: Accumulated net gains (losses) on cash flow hedges (if a gain, report as a positive value; if a loss, report as a negative value). | RCFAP846 | NR | 9.c. |
| d. LESS: Amounts recorded in AOCI attributed to defined benefit postretirement plans resulting from the initial and subsequent application of the relevant GAAP standards that pertain to such plans (if a gain, report as a positive value; if a loss, report as a negative value). | RCFAP847 | NR | 9.d. |
| e. LESS: Net unrealized gains (losses) on held-to-maturity securities that are included in AOCI (if a gain, report as a positive value; if a loss, report as a negative value). | RCFAP848 | NR | 9.e. |
| f. LESS: Accumulated net gain (loss) on cash flow hedges included in AOCI, net of applicable income taxes, that relate to the hedging of items that are not recognized at fair value on the balance sheet (if a gain, report as a positive value; if a loss, report as a negative value) (To be completed only by institutions that entered " 0 " for No in item 3.a). | RCFAP849 | -4,859,000 | 9.f. |
| 10. Other deductions from (additions to) common equity tier 1 capital before threshold-based deductions: |  |  | 10. |
| a. LESS: Unrealized net gain (loss) related to changes in the fair value of liabilities that are due to changes in own credit risk (if a gain, report as a positive value; if a loss, report as a negative value). | RCFAQ258 | 327,000 | 10.a |
| b. LESS: All other deductions from (additions to) common equity tier 1 capital before threshold-based deductions. | RCFAP850 | 449,000 | 10.b |

| Dollar amounts in thousands | (Column A) Non-advanced Approaches Institutions |  | (Column B) Advanced Approaches Institutions |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 11. LESS: Non-significant investments in the capital of unconsolidated financial institutions in the form of common stock that exceed the 10 percent threshold for non-significant investments. |  |  | RCFWP851 | 0 | 11. |
| 12. Subtotal (for column A, item 5 minus items 6 through $10 . \mathrm{b}$; for column $B$, item 5 minus items 6 through 11). | RCFAP852 | NR | RCFWP852 | 273,551,000 | 12. |
| 13. Not available |  |  |  |  | 13. |
| a. LESS: Investments in the capital of unconsolidated financial institutions, net of associated DTLs, that exceed 25 percent of item 12. | RCFALB58 | NR |  |  | 13.a. |
| b. LESS: Significant investments in the capital of unconsolidated financial institutions in the form of common stock, net of associated DTLs, that exceed the 10 percent common equity tier 1 capital deduction threshold. |  |  | RCFWP853 | 0 | 13.b. |
| 14. Not available |  |  |  |  | 14. |
| a. LESS: MSAs, net of associated DTLs, that exceed 25 percent of item 12. | RCFALB59 | NR |  |  | 14.a. |
| b. LESS: MSAs, net of associated DTLs, that exceed the 10 percent common equity tier 1 capital deduction threshold. |  |  | RCFWP854 | 0 | 14.b. |
| 15. Not available |  |  |  |  | 15. |
| a. LESS: DTAs arising from temporary differences that could not be realized through net operating loss carrybacks, net of related valuation allowances and net of DTLs, that exceed 25 percent of item 12. | RCFALB60 | NR |  |  | 15.a |
| b. LESS: DTAs arising from temporary differences that could not be realized through net operating loss carrybacks, net of related valuation allowances and net of DTLs, that exceed the 10 percent common equity tier 1 capital deduction threshold...................................... |  |  | RCFWP855 | 0 | 15.b |
| 16. LESS: Amount of significant investments in the capital of unconsolidated financial institutions in the form of common stock, net of associated DTLs; MSAs, net of associated DTLs; and DTAs arising from temporary differences that could not be realized through net operating loss carrybacks, net of related valuation allowances and net of DTLs; that exceeds the 15 percent common equity tier 1 capital deduction threshold.. |  |  | RCFWP856 | 0 | 16. |
| 17. LESS: Deductions applied to common equity tier 1 capital due to insufficient amounts of additional tier 1 capital and tier 2 capital to cover deductions. | RCFAP857 | NR | RCFWP857 | 0 | 17. |
| 18. Total adjustments and deductions for common equity tier 1 capital ${ }^{3}$ | RCFAP858 | NR | RCFWP858 | 0 | 18. |
| 19. Common equity tier 1 capital (item 12 minus item 18).................................................. | RCFAP859 | NR | RCFWP859 | 273,551,000 | 19. |

# Consolidated Reports of Condition and Income for A Bank With Domestic and Foreign Offices - FFIEC 031 

## Report at the close of business June 30, 2023

This report is required by law: 12 U.S.C. §324 (State member banks); 12 U.S.C. §1817 (State non member banks); 12 U.S.C. §161 (National banks); and 12 U.S.C. §1464 (Savings associations).

NOTE: Each bank's board of directors and senior management are responsible for establishing and maintaining an effective system of internal control, including controls over the Reports of Condition and Income. The Reports of Condition and Income are to be prepared in accordance with federal regulatory authority instructions. The Reports of Condition and Income must be signed by the Chief Financial Officer (CFO) of the reporting bank (or by the individual performing an equivalent function) and attested to by not less than two directors (trustees) for state non member banks and three directors for state member banks, national banks, and savings associations.

I, the undersigned CFO (or equivalent) of the named bank, attest that the Reports of Condition and Income (including the supporting

## Contact Information for the Reports of Condition and Income

To facilitate communication between the Agencies and the bank concerning the Reports of Condition and Income, please provide contact information for (1) the Chief Financial Officer (or equivalent) of the bank signing the reports for this quarter, and (2) the person at the bank-other than the Chief Financial Officer (or equivalent)-to whom questions about the reports should be directed. If the Chief Financial Officer (or equivalent) is the primary contact for questions about the reports, please provide contact information for another person at the bank who will serve as a secondary contact for communications between the Agencies and the bank concerning the Reports of Condition and Income. Enter "none" for the contact's e-mail address or fax number if not available. Contact information for the Reports of Condition and Income is for the confidential use of the Agencies and will not be released to the public.

## USA PATRIOT Act Section 314(a) Anti-Money Laundering Contact Information

This information is being requested to identify points-of-contact who are in charge of your bank's USA PATRIOT Act Section 314(a) information requests. Bank personnel listed could be contacted by law enforcement officers or the Financial Crimes Enforcement Network (FinCEN) for additional information related to specific Section 314(a) search requests or other anti-terrorist financing and anti- money laundering matters. Communications sent by FinCEN to the bank for purposes other than Section 314(a) notifications will state the intended purpose and should be directed to the appropriate bank personnel for review. Any disclosure of customer records to law enforcement officers or FinCEN must be done in compliance with applicable law, including the Right to Financial Privacy Act (12 U.S.C. 3401 et seq.).

Please provide information for a primary and secondary contact. Information for a third and fourth contact may be provided at the bank's option. Enter "none" for the contact's e-mail address if not available. This contact information is for the confidential use of the Agencies, FinCEN, and law enforcement officers and will not be released to the public.

## Schedule RC-C Part II - Loans to Small Businesses and Small Farms(Form Type - 031)

Report the number and amount currently outstanding as of the report date of business loans with "original amounts" of \$1,000,000 or less and farm loans with "original amounts" of $\$ 500,000$ or less. The following guidelines should be used to determine the "original amount" of a loan:
(1) For loans drawn down under lines of credit or loan commitments, the "original amount" of the loan is the size of the line of credit or loan commitment when the line of credit or loan commitment was most recently approved, extended, or renewed prior to the report date. However, if the amount currently outstanding as of the report date exceeds this size, the "original amount" is the amount currently outstanding on the report date. (2) For loan participations and syndications, the "original amount" of the loan participation or syndication is the entire amount of the credit originated by the lead lender. (3) For all other loans, the "original amount" is the total amount of the loan at origination or the amount currently outstanding as of the report date, whichever is larger.

| Dollar amounts in thousands | (Column A) Number of Loans |  | (Column B) Amount Currently Outstanding |  |

## Schedule RC-M - Memoranda(Form Type - 031)

Dollar amounts in thousands

[^81]Dollar amounts in thousands
b. URLs of all other public-facing Internet Web sites that the reporting institution uses to accept or solicit deposits from the public, if any (Example: www.examplebank.biz): ${ }^{1}$

1. URL 1.
2. URL 5
3. URL 6.
4. URL 7
5. URL 8
6. URL 9
7. URL 10.
c. Trade names other than the reporting institution's legal title used to identify one or more of the institution's physical offices at which deposits are accepted or solicited from the public, if any:
8. Trade name 1
9. Trade name 2
10. Trade name 3
11. Trade name 4
12. Trade name 5
13. Trade name 6

Item 9 is to be completed annually in the December report only.
9. Do any of the bank's Internet Web sites have transactional capability, i.e., allow the bank's customers to execute transactions on their accounts through the Web site?.

## 10. Secured liabilities:

a. Amount of "Federal funds purchased in domestic offices" that are secured (included in Schedule RC, item 14.a).
b. Amount of "Other borrowings" that are secured (included in Schedule RC-M, items 5.b.(1)(a) - (d))
11. Does the bank act as trustee or custodian for Individual Retirement Accounts, Health Savings Accounts, and other similar accounts?.
12. Does the bank provide custody, safekeeping, or other services involving the acceptance of orders for the sale or purchase of securities?
13. Assets covered by loss-sharing agreements with the FDIC:
a. Loans and leases (included in Schedule RC, items 4.a and 4.b):

1. Loans secured by real estate in domestic offices:
a. Construction, land development, and other land loans:
2. 1-4 family residential construction loans
3. Other construction loans and all land development and other land loans.
b. Secured by farmland.
c. Secured by 1-4 family residential properties:
4. Revolving, open-end loans secured by 1-4 family residential properties and extended under lines of credit.
5. Closed-end loans secured by 1-4 family residential properties:
a. Secured by first liens.
b. Secured by junior liens
d. Secured by multifamily (5 or more) residential properties.
e. Secured by nonfarm nonresidential properties:
6. Loans secured by owner-occupied nonfarm nonresidential properties.
7. Loans secured by other nonfarm nonresidential properties.
8. Not applicable
9. Not applicable
10. Not applicable
11. All other loans and all leases.

## Schedule RC-O - Other Data for Deposit Insurance and FICO Assessments(Form Type -031)

All FDIC-insured depository institutions must complete items 1 through 9, 10, and 11, Memorandum item 1, and, if applicable, item 9.a, Memorandum items 2, 3, and 6 through 18 each quarter. Unless otherwise indicated, complete items 1 through 11 and Memorandum items 1 through 3 on an "unconsolidated single FDIC certificate number basis" (see instructions) and complete Memorandum items 6 through 18 on a fully consolidated basis.

Dollar amounts in thousands

1. Total deposit liabilities before exclusions (gross) as defined in Section 3(I) of the Federal Deposit Insurance Act and FDIC regulations.
2. Total allowable exclusions, including interest accrued and unpaid on allowable exclusions (including foreign deposits).
3. Total foreign deposits, including interest accrued and unpaid thereon (included in item 2 above).
4. Average consolidated total assets for the calendar quarter.
a. Averaging method used (for daily averaging, enter 1 ; for weekly averaging, enter 2).
5. Average tangible equity for the calendar quarter ${ }^{1}$
6. Holdings of long-term unsecured debt issued by other FDIC-insured depository institutions.
7. Unsecured "Other borrowings" with a remaining maturity of (sum of items 7. a through 7. d must be less than or equal to Schedule RC-M, items 5.b.(1)(a)-(d) minus item 10.b):
a. One year or less.
b. Over one year through three years.
c. Over three years through five years.
d. Over five years.
8. Subordinated notes and debentures with a remaining maturity of (sum of items 8.a through 8.d must equal Schedule RC, item 19):
a. One year or less
b. Over one year through three years
c. Over three years through five years.
d. Over five years.
9. Brokered reciprocal deposits (included in Schedule RC-E, Part I, Memorandum item 1.b).

Item 9 .a is to be completed on a fully consolidated basis by all institutions that own another insured depository institution.
a. Fully consolidated brokered reciprocal deposits.
10. Banker's bank certification: Does the reporting institution meet both the statutory definition of a banker's bank and the business conduct test set forth in FDIC regulations? If the answer to item 10 is "YES," complete items 10.a and 10.b.

If the answer to item 10 is "YES," complete items 10.a and 10.b.
a. Banker's bank deduction.
b. Banker's bank deduction limit.
11. Custodial bank certification: Does the reporting institution meet the definition of a custodial bank set forth in FDIC regulations? If the answer to item 11 is "YES," complete items 11.a and 11.b..

If the answer to item 11 is "YES," complete items 11.a and 11.b.
a. Custodial bank deduction.
b. Custodial bank deduction limit.

1. Total deposit liabilities of the bank (including related interest accrued and unpaid) less allowable exclusions (including related interest accrued and unpaid) (sum of Memorandum items 1.a.(1), 1.b.(1), 1.c.(1), and 1.d.(1) must equal Schedule RC-O, item 1 less item 2):
a. Deposit accounts (excluding retirement accounts) of $\$ 250,000$ or less: ${ }^{1}$
2. Amount of deposit accounts (excluding retirement accounts) of $\$ 250,000$ or less
3. Number of deposit accounts (excluding retirement accounts) of $\$ 250,000$ or less.

## Schedule RC-P - 1-4 Family Residential Mortgage Banking Activities in Domestic Offices(Form Type - 031)

Schedule RC-P is to be completed by banks at which either 1-4 family residential mortgage loan originations and purchases for resale from all sources, loan sales, or quarter-end loans held for sale or trading in domestic offices exceed $\$ 10$ million for two consecutive quarters. Dollar amounts in thousands

1. Retail originations during the quarter of 1-4 family residential mortgage loans for sale ${ }^{1}$.
2. Wholesale originations and purchases during the quarter of 1-4 family residential mortgage loans for sale ${ }^{2}$.
3. 1-4 family residential mortgage loans sold during the quarter.
4. 1-4 family residential mortgage loans held for sale or trading at quarter-end (included in Schedule RC, items 4.a and 5)..
5. Noninterest income for the quarter from the sale, securitization, and servicing of 1-4 family residential mortgage loans (included in Schedule RI, items 5.c, 5.f, 5.g, and 5.i).
6. Repurchases and indemnifications of 1-4 family residential mortgage loans during the quarter.
7. Representation and warranty reserves for 1-4 family residential mortgage loans sold:
a. For representations and warranties made to U.S. government agencies and government-sponsored agencies..
b. For representations and warranties made to other parties.
c. Total representation and warranty reserves (sum of items 7.a and 7.b). $\qquad$

## FDIC COVERAGE RATE

J.P. Morgan charges a balance based charge (BBC), which is a monthly administrative fee assessed to address various regulatory and other charges affecting the bank. The rate is set by the bank and subject to periodic review and adjustment.

The following formula is used to calculate the BBC:

Balance-based charge calculation (monthly)
Average positive ledger balance $x$ charge rate $x$ number of calendar days in the month
Actual number of days in the year

Since January 2, 2010, our BBC rate has been $0.13 \%$.
As with other eligible fees, the monthly Balance Based Charge may be offset by earnings credit provided by J.P. Morgan. This charge is included in the monthly account analysis statements.

Greater Chicago is more than a place where we do business. ${ }^{5}$ It is home to our customers, clients, employees and community partners. The strength of our company allows us to leverage our resources, expertise, and data insights to help bolster communities and create a more inclusive economy for all.

## Business Growth and Entrepreneurship

Provided over $\$ 6.6 \mathrm{M}$ in philanthropic capital to the Entrepreneurs of Color Fund to provide minority-owned small businesses and real estate projects with flexible, lowinterest loans, technical assistance and other critical resources.
\$1.6M new markets tax credit equity investment to support the acquisition and construction of Culver's, a sit-down restaurant in Chicago's far South Side neighborhood of Pullman. The project created 70 jobs, most of which were filled by local residents.

## Careers and Skills

\$2.4M new markets tax credit equity investment to establish the North Lawndale Employment Network's (NLEN) new headquarters in North Lawndale and provided \$1M in philanthropic capital to NLEN to expand job training, alleviate the stigma of criminal records and improve wages.

Provided $\mathbf{\$ 3 5 2 K}$ in philanthropic capital to Working Credit to expand financial coaching and credit so students with college debt can continue to take courses while they complete financial empowerment services for debt forgiveness.

180 fellows sponsored since 2014 as part of The Fellowship Initiative (TFI), a program that supports young men of color through high school and college.

JPMorgan Chase is committed to honoring those who have served. We have hired more than $\mathbf{1 K}$ veterans in Illinois since 2014. ${ }^{6}$

## Community Development

Committed $\$ 7.2 \mathrm{M}$ to the Resurrection Project to provide financial support for homebuyers, renovation funds for homeowners, mortgage products for first-time homeowners, and innovation projects to lower the cost of housing.

Provided $\$ 2.5 \mathrm{M}$ in philanthropic capital to the Chicago Neighborhood Initiative for Reclaiming Chicago to build or rehab 1,000 homes on the South Side and West Side of Chicago.

Committed $\$ \mathbf{6 0 0}$ M to increase homeownership and originate approximately 3,000 home purchase loans for Black, Hispanic and Latino families by 2025.

## Financial Health and Wealth Creation

Provided $\$ 200 \mathrm{~K}$ in philanthropic capital to Capital Good Fund, a nonprofit offering low-cost, short-term lending alternatives to payday loans.

Deepening relationships and expanding our presence with 16 community branches, including the Stony Island Community Center branch, and our Community Managers, Community Home Lending, Advisors and Senior Business Consultants.

Hosted more than 975 free financial health events since 2021 supporting customers, community members and employees.?

## Did You Know?

The firm's total business and philanthropic investments toward underserved communities in Chicago will reach $\mathbf{\$ 8 0 0 M}$ by 2025.

## Overall Community Reinvestment Act (CRA) Rating

## Institution's CRA Rating: This institution is rated Satisfactory

The following table indicates the performance level of JPMorgan Chase Bank, N.A. (Chase or bank) with respect to the Lending, Investment, and Service Tests:

| Performance Levels | JPMorgan Chase, N.A. <br> Performance Tests |  |  |
| :--- | :---: | :---: | :---: |
|  | Lending Test* | Investment Test | Service Test |
|  |  |  |  |
| High Satisfactory | X | X | X |
| Low Satisfactory |  |  |  |
| Needs to Improve |  |  |  |
| Substantial Noncompliance |  |  |  |

* The Lending Test is weighted more heavily than the Investment and Service Tests when arriving at an overall rating.

The major factors that support this rating include:

## Lending Test

- Chase's overall lending performance is rated High Satisfactory based on good lending performance in 17 of the 30 rated areas, which included two of the bank's most significant markets. Lending performance was excellent in 10 rated areas and adequate in the three remaining rated areas.
- The bank achieved excellent or good distribution of loans to borrowers and small businesses of different income levels in all 30 rating areas. Distribution of loans to borrowers in different geographies was excellent or good in 18 of the bank's rating areas, including a majority of the markets where the bank has the most significant presence.
- Chase's lending levels reflect excellent responsiveness to the credit needs in the majority of assessment areas (AAs). In a majority of AAs, the bank's lending market share, as measured by its ranking or percentage, exceeds its ranking or percentage market share of deposits.
- The institution is a leader in making community development (CD) loans. Chase's volume and nature of CD lending has a significantly positive influence on the Lending Test performance. CD lending has a significantly positive influence on 12 of the 30 rating areas and a positive influence on 7 of the 30 rating areas.
- The institution makes significant use of innovative and/or flexible loan products to meet the AA's credit needs.

## Investment Test

- Chase's overall investment performance is rated High Satisfactory based on excellent investment performance in 20 of the 30 rated areas. Investment performance was good in the 9 of the 30 rated areas.

## Service Test

- Chase's overall service performance is rated High Satisfactory based on excellent service performance in 14 of the 30 rated areas and good service in 13 of the 30 rated areas.
- Retail delivery systems are readily accessible in a majority of the rating areas.
- In a majority of the rating areas, Chase provides banking services through a number of alternative delivery systems (ADS), including full-service deposit-taking ATMs, mobile banking, telephone banking, and online banking.
- In 21 of 30 rating areas including the largest rating areas, the bank is a leader in providing CD services. In the other rating areas, CD services are good or adequate.

## Description of Institution

JPMorgan Chase Bank, N.A. is a national bank with its main office in Columbus, Ohio, and headquarters in New York City. Chase is a multistate financial institution and the lead banking subsidiary of JPMorgan Chase \& Co. (JPMCC), a global financial holding company also headquartered in New York City. JPMCC has bank and non-bank subsidiaries in investment banking, financial services for consumers, small business, commercial banking, financial transaction processing, asset management, and private equity products and services. On December 31, 2019, JPMCC held $\$ 2.7$ trillion in total assets and domestic deposits of $\$ 1.4$ trillion. JPMCC provides global financial services to millions of consumers and businesses in the United States (U.S.) as well as prominent corporate, institutional and government clients in 60 countries globally under the JPMorgan and Chase brands.

Chase is a full-service, interstate commercial bank with over $\$ 2.4$ trillion in total assets as of December 31, 2019. The bank provides a full suite of consumer and commercial banking services in 38 states and Washington, DC through a branch network of 4,975 branches and 16,475 automated teller machines (ATMs). All 16,475 ATMs are deposit-taking and offer a full range of services, including but not limited to: (i) cash withdrawals from a checking or savings account; (ii) cash advances from a credit card; (iii) cash and check deposits; (iv) account transfers; (v) payments (e.g., Chase credit card); (vi) view account balances and transactions. The bank's lending products include commercial lending, small business loans, consumer loans, residential real estate loans, Small Business Administration (SBA) guaranteed loans and other specialized lending programs. Deposit products include business and personal checking, money market, savings, time deposit and individual retirement accounts. Chase retail products and services are also available through call centers and mobile or internet access on a 24 hour basis.

For this analysis, the bank's geographic footprint is the District of Columbia and 31 states including: Arizona, California, Colorado, Connecticut, Delaware, Florida, Georgia, Idaho, Illinois, Indiana, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Nevada, New Jersey, New York, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Utah, Virginia, Washington, West Virginia, and Wisconsin. Recent geographic expansion of the branch network has been almost entirely comprised of de novo branching, with no material external mergers or acquisitions over the evaluation period. In May 2019, JPMorgan Chase Bank, N.A and Chase Bank USA, N.A. (Chase USA) merged, with JPMorgan Chase Bank, N.A. being the surviving bank. This was a consolidation of the bank's corporate structure and did not involve an external acquisition.

Chase entered seven AAs at the latter part of the current examination period which are therefore considered as performance context for these recent market entries. These seven AAs are summarized in the table below:

| Assessment Area Name (OMB Naming) | Entry Date |
| :--- | ---: |
| Washington-Arlington-Alexandria, DC-VA-MD-WV MD | $9 / 4 / 2018$ |
| Philadelphia, PA MD | $10 / 17 / 2018$ |
| Pittsfield, MA MSA | $3 / 19 / 2019$ |
| Worcester, MA-CT MSA | $3 / 20 / 2019$ |
| Springfield, MA MSA | $3 / 20 / 2019$ |
| Cambridge-Newton-Framingham, MA MD | $3 / 21 / 2019$ |
| Frederick-Gaithersburg-Rockville, MD | $4 / 30 / 2019$ |

In 2019, the bank's net loans comprised 40.6 percent of total assets. Domestic loans were distributed as follows: residential real estate 28 percent, commercial 15.9 percent, consumer (excluding credit card) 6.6 percent, commercial real estate 14 percent, credit card 17.4 percent, and other loans 18.1 percent. Total deposits at year-end 2019 were $\$ 1.65$ trillion, including $\$ 296$ billion held in foreign branches, or 17.9 percent of total deposits. Foreign deposits are not Federal Deposit Insurance Corporation (FDIC)insured and are held in non-U.S. branches. The impact of foreign deposits on the bank's lending and investment capacity was considered in the analysis of community development (CD) loans and investments. On December 31, 2019, JPMCC held tier 1 capital of $\$ 207$ billion and adjusted tier 1 capital of $\$ 170$ billion.

JPMCC's principal nonbank subsidiary is J.P. Morgan Securities LLC, the domestic investment-banking firm. JPMCC and the bank have numerous other significant affiliates that deal with venture capital, asset management, insurance, and other financial services. JPMCC operates domestically and globally through subsidiaries, affiliates, joint ventures, representative offices, international branches, and subsidiary foreign banks.

Bank subsidiaries include trust operations, property management companies and leasing companies. The bank also operates through affiliates and joint ventures. Chase requested that the activities, loans, and services of certain affiliates, subsidiaries, and joint ventures be considered in this evaluation. Applicable loans originated by these parties within Chase AAs were included in the review. Chase also requested consideration for grants made by its affiliated JPMorgan Chase Foundation. Please see appendix A: Scope of Evaluation, for detail about affiliates, subsidiaries and joint ventures and their products reviewed for each entity.

Chase has no subsidiaries that negatively impacted the bank's capacity to lend or invest in its communities. Neither the bank nor any of its affiliates were constrained by legal or financial impediments that would hamper its ability to help meet the credit needs of its communities during the evaluation period.

Chase's business strategy is to provide an extensive range of financial services in the U.S. and globally. The organizational structure contains four business segments as well as a Corporate segment. The four business segments are categorized as follows: Consumer and Community Banking, Corporate and Investment Banking, Commercial Banking and Asset and Wealth Management.

Chase received a Satisfactory rating in its previous CRA evaluation, for the evaluation period of January 1, 2011 through December 31, 2013.

## Scope of the Evaluation

## Evaluation Period/Products Evaluated

The bank's CRA performance evaluation (PE) was evaluated using Large Institution CRA Examination Procedures. The evaluation covers the bank's CRA-related activities from January 1, 2014, through December 31, 2019. With an evaluation period end date of December 31, 2019, qualifying activities performed in response to the significant impact of the coronavirus pandemic across the United States are not addressed in this evaluation. Bank qualifying activities related to COVID-19 will be considered in the subsequent evaluation. The Office of the Comptroller of the Currency (OCC) considered Chase's Home Mortgage Disclosure Act (HMDA)-reportable loans (home mortgage lending consisting of home purchase, home improvement and home refinance) and small business lending (including business credit cards), small farm lending, CD lending grants, donations, and other investments for CRA purposes. The OCC also considered any other loan data such as letters of credit used to support CD activities. Management did not request consideration for its consumer lending, which includes automobile loans and consumer credit cards; therefore, this lending is not presented herein.

The lending test evaluation period covers calendar years 2014-2019 and is based on the 2010 Census data changes beginning on January 1, 2012, as well as the Office of Management and Budget (OMB) Metropolitan Area (MA) geographic boundary changes beginning on January 1, 2014. Analysis of data related to calendar years 2014 to 2016 is based on 2010 Census data, 2013 OMB MA boundaries, 20142016 Federal Financial Institutions Examination Council (FFIEC) estimated median family income (MFI) for borrower analysis, and the 2010 American Community Survey (ACS) MFI (updated to reflect 2013 OMB MA boundaries for geographic analysis of CRA performance). For CRA purposes, the ACS replaced the decennial census. Analysis of data related to calendar years 2017-2019 is based on 2015 ACS data, 2013 OMB MA boundaries (2019 is evaluated separately from 2017-2018 if impacted by MA boundaries changes), 2017 FFIEC-estimated MFI for borrower analysis, and the 2015 ACS MFI for geographic analysis of CRA performance.

Since the lending test evaluation period is January 1, 2014 through December 31, 2019, there could be up to three separate analyses for an AA lending performance. The chart below shows when two analyses are required versus three.

| Evaluation Period Years Breakdown | 2010 Census/ACS Data, <br> 2014-2016 FFIEC MFI, <br> and 2010 ACS MFI | 2015 ACS data, 2017 <br> FFIEC MFI, and 2015 <br> ACS MFI |  |  |
| :--- | :---: | :---: | :---: | :---: |
|  | $\mathbf{2 0 1 4 - 2 0 1 6}$ | $\mathbf{2 0 1 7 - 2 0 1 8}$ | $\mathbf{2 0 1 9}$ |  |
|  | Analysis 1 | Analysis 2 | Analysis 3 |  |
| Not Impacted by 2013 OMB MA Boundaries Changes | Analysis 1 | Analysis 2 |  |  |

The investment test, service test, and CD investments and services evaluations, respectively, are combined for the calendar years 2014 through 2019.

The bank merged with Chase USA in May 2019. Chase USA received an Outstanding rating during its last PE dated December 31, 2014. Chase USA was one of the largest issuers of consumer and small business credit cards in the U.S. At the time of the merger, Chase USA had $\$ 141$ billion in total assets, $\$ 54$ billion in total deposits, and $\$ 24$ billion in tier 1 capital. All of Chase USA's assets, deposits, and capital were absorbed into Chase. Chase USA's AA was comprised of three counties, New Castle County, Delaware County, and Philadelphia County, within the Philadelphia-Camden-Wilmington, PA-NJ-DEMMSA. The current evaluation includes Chase USA's small loans to businesses, small loans to farms, and community development services for the years 2015 through May 2019.

## Selection of Areas for Full-Scope Review

In each state where the bank has an office, one or more AAs within that state were selected for a fullscope review. For purposes of this evaluation, bank delineated AAs located within the same MSA, MMSA as Combined Statistical Areas (CSA) are evaluated as a single AA. Similarly, bank delineated non-metropolitan (Non-Metro) AAs within the same state are combined and are evaluated as a single AA. These combined AAs may be evaluated as full- or limited-scope. Refer to the Scope section under each State Rating section for details regarding how full-scope AAs were selected.

The states and CSAs comprise the 30 rating areas assessed in this evaluation: 22 states and eight CSAs. Performance in the limited-scope AAs was considered in developing state ratings. For states with AAs in Non-Metro areas, the analysis is based on the combined Non-Metro areas within each state. For analysis purposes, the OCC combined Non-Metro AAs within each state. From each rating area, the OCC selected one or more AAs for full-scope reviews. In states with multiple large AAs such as California and Texas, the OCC selected more than one AA for a full-scope review. Across all rating areas, the OCC selected 38 full-scope AAs. The OCC based these selections on several criteria, including the bank's deposits and loans and the AA's geographic size and population relative to the rating area. The OCC also selected smaller AAs that had not previously been reviewed as full-scope AAs during prior evaluations. All AAs consisted of whole geographies and met the requirements of the regulation. The AAs reasonably reflect the different trade areas that the bank's branches could service and did not arbitrarily exclude any low- and moderate-income (LMI) areas.

Refer to appendix A: Scope of Examination, for a list of full- and limited-scope AAs. For AAs comprised of contiguous MDs/MSAs that are part of a CSA, the bank's performance is presented at the CSA level. For each full-scope review, economic information is separately detailed for each MSA area within a CSA.

## Ratings

The bank's overall rating is a blend of the state ratings, and CSA ratings. The PE is presented by CSA rated areas followed by each state in alphabetical order.

While the ratings, conclusions, and analyses are based on the bank's activities over a six-year evaluation period, this PE only includes narratives and supporting tables for the years 2017, 2018, and 2019, which is the period of activity of greatest significance to overall conclusions. Additional discussion is included in the narrative when OMB boundary changes significantly impacted the bank's performance context or where performance in the 2014-2016 period differs significantly from performance in 2017-2019.

CSA ratings are based on the one AA. State ratings are based on conclusions of the AA(s) reviewed using full-scope evaluation procedures; however, limited-scope AA ratings were also considered.

Limited-scope procedures focused primarily on quantitative data, with consideration of qualitative data generally limited to demographic and competitive factors. Performance in limited-scope AAs was considered as stronger than, weaker than, or consistent with overall performance in full-scope AAs within the rating area. Based on these conclusions, there was a positive, negative, or neutral impact on the state rating.

In rating areas where there was a significant difference in weighting, as explained later, it is noted under the Scope of the Evaluation section. The loan distribution analyses compared HMDA loans and loans to small businesses to demographic and aggregate data under the applicable lending test components. Aggregate data illustrates how the bank is performing relative to other lenders in the AA and provides context as to the reasonableness of the bank's performance. All peer aggregate lending data used in the analysis is from 2014-2018. Aggregate lending data for 2019 was not available at the time this evaluation was completed.

The state of California, the New York-Newark, NY-NJ-CT-PA CSA (New York-Newark CSA), the state of Texas, the Chicago-Naperville, IL-IN-WI CSA and the state of Michigan represent the bank's most significant markets in terms of lending, deposits, and branch distribution and carried the greatest weight in our overall conclusions. The state of California accounts for 36.7 percent of bank's home mortgage, community development, small business, and small farm loans (by number of loans), 11.2 percent of total allocated deposits, 20 percent of the branch network, and 23.5 percent of total ATMs. The New York-Newark CSA rating area accounts for 14.7 percent of bank's home mortgage, community development, small business, and small farm loans, 42.1 percent of total allocated deposits, 17.4 percent of the branch network, and 19.8 percent of total ATMs. The state of Texas accounts for 8.8 percent of bank's home mortgage, community development, small business, and small farm loans, 18.3 percent of total allocated deposits, 10.9 percent of the branch network, and 24.2 percent of total ATMs. The Chicago-Naperville, IL-IN-WI CSA rating area accounts for 8.7 percent of bank's home mortgage, community development, small business, and small farm loans, 6.3 percent of total allocated deposits, 6.6 percent of the branch network, and 8.7 percent of total ATMs. The state of Michigan accounts for 2.3 percent of bank's home mortgage, community development, small business, and small farm loans, 3.2 percent of total allocated deposits, 4.2 percent of the branch network, and 3.0 percent of total ATMs. When these top five rating areas were combined, they contained 71.2 percent of bank's home mortgage, community development, small business, and small farm loans, 81.1 percent of the bank's total allocated deposits and 41.1 percent of the branch network during the evaluation period.

Under the Lending Test, the OCC considered the weighting of both the number and dollar volume of loans to determine the weighting of loan products. The number of small loans to business represented 70.0 percent of the total number of loans compared to home mortgages representing 29.1 percent of total loans. However, when comparing the dollar amount of loans, home mortgages represented 88.5 percent of the total dollar amount of loans versus the total dollar amount of small loans to business representing 11.5 percent of total loans; the results of both analyses yield similar conclusions. Therefore, the OCC weighted home mortgages and small loans to businesses products equally. The loan product weighting was calculated equally for each rating area, and those weights were applied to each AA within the rating area. Farm lending is not a strategic focus of the bank. Small loans to farms represented less than 1.0 percent of the loan volume within a substantial majority of rating areas ( 21 rating areas) and less than 2.5 in the remaining rating areas.

The CSA and state ratings are based on performance in all bank AAs. Refer to the Scope section under each State and CSA Rating section for details regarding how areas were weighted in arriving at the respective ratings.

## Description of Factors Considered Under Each Performance Test

General themes regarding the various impacts on CRA performance over the evaluation period were:

## Lending Test

Due to the changes in census data during the evaluation period, the bank's Lending Test performance was evaluated separately for 2014-2016 and 2017-2019. When arriving at overall rating area conclusions, significant weight was placed on the bank's lending performance in 2017-2019 when performance in low- or moderate-income geographies was inconsistent during the 2014-2016 time period. Greater significance was placed on the moderate-income borrower performance due to the challenges limiting opportunities in lending to low-income persons. The bank's lending in all AAs was evaluated.

- Performance in low-income geographies between 2014 and 2016 was consistent with other periods.
- Inconsistent performance in moderate-income geographies between 2014 and 2016 did not impact overall excellent performance.
- Loan Products Evaluated -The OCC evaluated home mortgage, small loans to business, and small loans to farms in each AA. All home mortgage products were reviewed, and conclusions were reached in the aggregate. As indicated above, farm loans are not a strategic focus or primary product in any of the bank's AAs. Small farm data analysis indicated that farm lending did not significantly affect the conclusions or ratings in any of the bank's rating areas. Therefore, a discussion of farm loans is not included in the rating areas. However, the data used in the analysis is included in appendix D.
- Lending Activity -To assess the bank's lending activity in each AA, the OCC compared the bank's market share and rank of loans using peer loan data to its market share and rank in deposits using FDIC deposit market share data as of June 30, 2019. Deposit market share data includes deposit data for FDIC-insured institutions such as banks and savings and loan associations (depository financial institutions). Deposit market share data does not include credit unions.
- Home Mortgage Products - For the various loan products considered under the Lending Test, home mortgage loans were weighted equally to small loans to business in developing conclusion. Home mortgages accounts for 88.5 percent of the total dollar amount of total loan volume and 29.1 percent of total number of loans. All home mortgage products including home purchase, home improvement, and home refinance loans were reviewed with conclusions based on home mortgage loan aggregate data and consideration of performance context that is discussed in each applicable rating area section within the Lending Test.
- Home Mortgage Products -Loan Distribution Analysis -Throughout all rating areas, as data was available, equal emphasis was given to the geographic and borrower distribution components of the Lending Test. The analysis of the distribution of loans to geographies with different income levels was given greater consideration to the bank's performance in moderate-income geographies when there were a small number of owner-occupied housing units in the low-income geographies. For the analysis of the distribution of loans by income level of the borrower, consideration was given to the impact that income and poverty levels, housing costs, and homeownership opportunities has on low-
and moderate-income individuals and families. In these higher cost markets, it is difficult for many low- and moderate-income individuals and families to afford a home as the area's median housing value is typically too high for conventional mortgage loan qualification. As such, more emphasis was placed on the bank's lending results to low- and moderate-income borrowers relative to the aggregate's performance rather than demographic data.
- Small Business Lending - Loan Distribution Analysis -The loan distribution analyses compared loans to small businesses to demographic and aggregate data under the applicable lending test components. Aggregate data illustrates how the bank is performing relative to other lenders in the AA and provides context as to the reasonableness of the bank's performance. All peer aggregate lending data used in the analysis is from 2014-2018. Aggregate lending data for 2019 was not available and not used due to timing of evaluation.

The OCC compared the bank's lending performance against available demographic data and aggregate lender performance. Any relevant performance context information available was considered. Expectations for lending in low-income geographies were the same for lending in moderate-income geographies. Performance in moderate-income geographies were weighted more heavily if there was a small number of businesses in low-income geographies. More weight was given to the bank's lending performance relative to demographics and less weight to performance relative to aggregate lenders. In some cases, it was more appropriate to place more weight on performance relative to aggregate lenders such as when bank performance exceeded aggregate, but bank performance and aggregate are less than demographic data. In those cases, performance relative to aggregate lenders can be more reflective of market conditions such as loan demand and opportunities.

- CD Lending - CD lending based on volume, complexity, and responsiveness provided a significantly positive, positive, neutral, or negative effect to the rating area's Lending Test rating, as applicable. Lending programs were limited by various factors over the examination period, the most significant of which included tier 1 capital requirement increases and competition in the Low-Income Housing Tax Credit (LIHTC) market.
- Flexible and Innovative Lending Products - Chase offered flexible home mortgage and small business lending programs in order to serve AAs credit needs. Flexible lending programs included government insured Federal Housing Administration (FHA), Veterans Administration (VA), Home Affordable Refinance Program (HARP), United States Department of Agriculture (USDA), and SBA loans. During the evaluation period, the bank launched a new flexible lending program called DreaMaker. Since January 2014, the bank provided 288,246 flexible mortgage and small loans to businesses totaling $\$ 54.6$ billion to low- and moderate-income borrowers, small businesses, or in low- and moderate-income geographies.
- Other Loan Data -The OCC also considered, at the bank's option, letters of credit used to support CD lending activities. The letters of credit were given positive consideration under the Lending Test if they supported or addressed an identified community development need in the AA. Chase issued over 180 letters of credit or standby bond purchase agreements totaling nearly $\$ 3.5$ billion. This other loan data helped many financing deals to come to fruition to create over 13,000 units of affordable housing.

## Investment Test

- Qualified Investments -The analysis considered the volume of qualified investments and grants made during the current evaluation period and qualified investments that were made prior to the current evaluation period, which were still outstanding and continued to benefit the bank's AA. Emphasis was placed on those investments that were particularly innovative, complex, or responsive to the needs of the AA. The amount of consideration given to the current and prior period investments is based on the responsiveness of the investments to the needs in the AAs.

The analysis compared the dollar amount of qualified investments made in the current evaluation period and prior evaluation periods to the tier 1 capital allocated to the AAs to gain a common perspective regarding the volume of investment activity. The OCC compared the CD investment activity volume in each AA to the tier 1 capital allocated to the rating areas and AAs based on the percentage of bank total deposits therein.

- Complex and Innovative Investment Products - The bank makes extensive use of complex CD investments, often in a leadership role. Many investments are complex LIHTC, and New Markets Tax Credits (NMTC). The LIHTC provides a tax incentive to construct or rehabilitate affordable rental housing for low- and moderate-income households. Other investments are complex as they include the participations from federal and state governments, local housing agencies, and real estate developers. Complex investments also require bank expertise and capacity in selecting projects and partners, negotiating agreements, overseeing project development and operations, and ensuring compliance with legal and tax requirements.

## Service Test

- Distribution of Branch Delivery Systems/Openings and Closings -The OCC placed primary consideration on the distribution of the bank's branches and their accessibility to low- and moderateincome individuals and geographies. Impact to the AA from the opening and closing of branches was considered. During the evaluation period, the bank continued to execute their ongoing control processes when determining whether to close or consolidate its retail branches. The bank considered the following factors in the decision-making process: 1) branch redundancy or proximity to other Chase locations or ATMs, 2) real estate costs for branches with expiring leases, 3) customer behaviors in the market, including transaction migration to the bank's growing digital capabilities, and 4) results of a detailed analysis of LMI service levels in each assessment area. Chase includes several departments of the bank, including its CRA personnel, in discussions to assess and mitigate any negative impact of branch consolidations to LMI customers and communities.
- Alternative Delivery Systems -The systems were assessed to determine if they improved access to retail banking services where financial centers may be limited. The alternative delivery systems included the following delivery channels: full-service deposit-taking ATMs, mobile banking, telephone banking, online banking, and the bank's own Secure Banking retail deposit product. To determine the effect alternative delivery systems have on the bank's service delivery systems, the OCC compared the number of enrolled customers residing in low- and moderate-income geographies for mobile banking, telephone banking, online banking, and Secure Banking to the population residing in low- and moderate-income geographies. The OCC also compared the number of full-service deposit-taking ATMs in low- and moderate-income geographies to the population in low- and moderate-income geographies.
- Adjacent Branches - In full-scope AAs, the OCC considered if adjacent branches, in middle- and upper-income (MUI) geographies, provided accessibility to individuals in low- and moderate-
income geographies. The OCC analyzed adjacent branches that are located within one-half-mile of a low- and moderate-income geographies. OCC verified and confirmed that these branches held deposit accounts of, and mortgage loans to individuals in adjacent low- and moderate-income geographies. OCC also verified that there are no barriers or other impediments that would prevent a resident of the low- and moderate-income geography from obtaining full use of the bordering branch's banking services. The OCC determined if it had a neutral or positive impact on the distribution of branch delivery systems.
- Banking Hours -The OCC considered banking hours, products and services, and the level of community development services.
- CD Services -The bank's record of providing CD services was evaluated in AAs that received fullscope reviews. The primary consideration of the analysis of CD services was the responsiveness to the needs of the AA.

## Other Information

- Assessment Areas-All AAs consisted of whole geographies and met the requirements of the regulation.

For AAs comprised of contiguous MSAs that are part of a CSA, the analysis of the bank's performance was conducted at the MSA level. If there were no anomalies at the MSA level, the bank's performance is presented for AAs at the CSA level. For each full-scope review, economic information is separately detailed for each MSA area within a CSA AA.

- Lending Gap Analysis -Summary reports and maps were reviewed, and lending activity of home mortgage loans, small loans to business, and small loans to farms were analyzed over the evaluation period to identify any gaps in the geographic distribution of loans in all full-scope AAs.
- Bank-wide Activities -During the past six years, the bank has provided $\$ 26$ billion in CD loans and $\$ 16$ billion in CD investments across its aggregate AAs and broader regional areas. Most were provided for the specific purpose of affordable rental housing development.

## Community Contacts

The OCC gathered contact information to assist in understanding the AAs community profile and learn about opportunities for bank participation in helping to meet local needs. The information was used to assist in the evaluation of the bank's performance in the various AAs. The OCC's Community Affairs Officers conducted or updated contact information in the full-scope AAs for this evaluation. The Officers held interviews with a variety of large community organizations including housing agencies, small business development centers, and social service and community action organizations. Other OCC personnel gathered information from community groups, local government representatives, realtors, and business leaders. The OCC reviewed and considered comments received from the public in assessing the bank's performance during the evaluation period. Community contact information for the most significant rating areas is summarized within each MMSA or State rating areas.

Community contact information indicates that urban and rural areas continue to have various affordable housing, CD, and economic development needs that are not being met. Contact information noted that the economy in the respective areas has stabilized and/or is improving. Although unemployment rates in
most areas have declined, they remain high in some of the AAs. Affordable housing was consistently noted by numerous community contacts as a credit need throughout the AAs. Community contacts involved with economic development indicated that flexible financing options for small loans to businesses are important to creating additional job growth in communities. Small loans to businesses were identified as a major factor in expanding employment opportunities in both urban and rural areas. Many contacts noted that small loans to businesses have faced limited access to credit in recent years due to tightened lending standards. Many contacts noted that demand for micro small loans to business is strong, but these loans are not generally available from banks. In addition, contacts identified needs for small dollar consumer loans, affordable mortgage loans, and flexible lending standards for small businesses.

## Lending in Assessment Area

A substantial majority of the bank's loans are in its AA. This analysis is performed at the bank, rather than the AA, level.

The bank originated and purchased 76 percent of its total loans inside the bank's AA during the evaluation period. This percentage does not include extensions of credit by affiliates that may be considered under the other performance criteria.

## Discriminatory or Other Illegal Credit Practices Review

Pursuant to 12 C.F.R. §25.28(c) or §195.28(c), respectively, in determining a national bank's or federal savings association's (collectively, bank) CRA rating, the OCC considers evidence of discriminatory or other illegal credit practices in any geography by the bank, or in any assessment area by an affiliate whose loans have been considered as part of the bank's lending performance. As part of this evaluation process, the OCC consults with other federal agencies with responsibility for compliance with the relevant laws and regulations, including the U.S. Department of Justice, the U.S. Department of Housing and Urban Development (HUD), and the Bureau of Consumer Financial Protection (CFPB), as applicable.

The OCC identified the following public information regarding non-compliance with the statutes and regulations prohibiting discriminatory or other illegal credit practices with respect to this institution:

CFPB Enforcement Action: Real Estate Settlement Procedures Act Kickbacks (File No. 2015-CFPB0001), effective January 22, 2015. Terminated January 22, 2020.

- The CFPB and the State of Maryland's Office of the Attorney General's Consumer Protection Division took action against the bank for an illegal marketing-services-kickback scheme they participated in with Genuine Title, now a defunct title company that went out of business in April 2014.
- From 2010 through 2013, Genuine Title offered loan officers valuable services to increase the amount of loan business generated. The CFPB found that at least six bank loan officers in three different branches in Maryland, Virginia, and New York were involved. These officers referred settlement business to Genuine Title on almost 200 loans. The CFPB also alleged that Chase did not have an adequate system in place to ensure that its loan officers were following the law.
- Civil Money Penalties Paid to the CFPB: $\$ 500,000$.
- Per the Consent Order approximately $\$ 300,753$ in redress was provided to injured consumers, including but not limited to refund of moneys, restitution, damages, or other monetary relief, and for any attendant expenses for the administration of any such redress.
- The bank has enhanced their compliance program, including policies and procedures addressing the prohibition of mortgage loan officers receiving kickbacks for a business referral specific to a real estate settlement service involving a federally related mortgage loan.

The OCC found evidence of a violation of Section 5 of the Federal Trade Commission (FTC) Act, 15 USC 45 - Prohibition of unfair or deceptive acts or practices in or affecting commerce (UDAP). The bank failed to remediate 477 borrowers who were affected by a loss mitigation processing error. Estimated reimbursement to affected borrowers is $\$ 6,131,400$. The bank corrected its processing system and enhanced its policies and procedures to ensure that the violation does not recur.

The OCC does not have additional public information regarding non-compliance with statutes and regulations prohibiting discriminatory or other illegal credit practices with respect to this institution. In determining this institution's overall CRA rating, the OCC has considered information that was made available to the OCC on a confidential basis during its consultations.

The CRA performance rating was not lowered as a result of these findings. The OCC considered the nature, extent, and strength of the evidence of the practices; the extent to which the institution had policies and procedures in place to prevent the practices; and the extent to which the institution has
taken or has committed to take corrective action, including voluntary corrective action resulting from self-assessment; and other relevant information.

The OCC will consider any information that this institution engaged in discriminatory or other illegal credit practices, identified by, or provided to the OCC before the end of the institution's next performance evaluation in that subsequent evaluation, even if the information concerns activities that occurred during the evaluation period addressed in this performance evaluation.

## Multistate Metropolitan Statistical Area Rating

## New York-Newark, NY-NJ-CT-PA CSA (NY CSA)

CRA rating for the NY CSA ${ }^{\mathbf{1}}$ : Satisfactory
The Lending Test is rated: High Satisfactory
The Investment Test is rated: High Satisfactory
The Service Test is rated: High Satisfactory
The major factors that support this rating include:

- An excellent level of lending activity.
- An excellent geographic distribution of home mortgage loans and small loans to businesses.
- A good borrower distribution of home mortgage loans and small loans to businesses.
- An adequate level of CD loans that has a neutral effect on the rating.
- The extensive use of flexible products, and issuance of letters of credit that positively affected the rating.
- A significant level of qualified CD investments that demonstrated excellent responsiveness to credit and community economic development needs.
- The occasional use of complex investments and investments that serve as catalysts for additional development.
- The significant level of broader statewide investments further supports the bank's Investment Test performance.
- Retail service delivery systems that are accessible to geographies and individuals of different income levels in the bank's AA.
- Leadership in providing CD services that are responsive to AA needs.

## Description of Institution's Operations in NY CSA

The NY CSA represents the largest retail market for the bank in terms of deposits, branches, and lending. Chase had $\$ 597.6$ billion in deposits in the NY CSA representing 42.1 percent of the bank's total deposits. As of December 31, 2019, the bank operated 861 branches and 3,256 deposit-taking ATMs within the rating area, representing 17.4 percent of total branches and 19.8 percent of total ATMs. The bank originated and purchased approximately $\$ 102.5$ billion in loans or 14.7 percent of total bank loan originations and purchases during the evaluation period in the NY CSA.

The local banking environment is highly competitive with 216 FDIC-insured institutions operating 6,042 branches. Chased ranked first in deposit market share with 30.3 percent. The next three banks by deposit market share are Bank of America, N.A. ( 8.0 percent), BNY Mellon ( 6.3 percent), and Citibank, N.A. ( 6.0 percent). In addition to FDIC-insured institutions, this area is served by several credit unions, mortgage lenders and brokers, and money service businesses.

Chase's AA in the NY CSA is comprised of geographies in New York, New Jersey, and Connecticut. Refer to appendix A for a complete list of counties included in the AA.

[^99]
## Description of Full-Scope AA

The following table provides a summary of the demographics that includes housing and business information for the NY CSA. The NY CSA poses challenges to home mortgage lenders in the AA, including Chase. The NY CSA is a high cost housing area, limiting access to affordable homeownership among LMI borrowers. The median housing value in the CSA is $\$ 444,639$ while the National Association of Realtors (NAR) 4Q2019 median sales price of a single-family home is $\$ 428,000$. One simplistic method used to determine housing affordability assumes a maximum monthly principal and interest payment of no more than 30 percent of the applicant's income.

Assuming a 30-year mortgage with a 5 percent interest rate, and not accounting for down payment, homeowners insurance, real estate taxes, or any additional monthly expenses, a low-income borrower making $\$ 44,686$ per year (or less than 50 percent of the FFIEC adjusted median family income in the AA) could afford a $\$ 161,198$ mortgage with a payment of $\$ 865$ per month; a moderate-income borrower earning $\$ 71,498$ per year (or less than 80 percent of the FFIEC adjusted median family income in the AA) could afford a $\$ 257,918$ mortgage with a payment of $\$ 1,385$ per month.

The poverty level across the AA was considered in the evaluation of lending performance. Families living below the stated poverty rate are identified as having difficulty meeting basic financial needs and as such are less likely to have the financial wherewithal to qualify for a home loan than those with income above poverty. In the NY CSA, the overall household poverty level was 10.8 percent. However, in low-income geographies, the household poverty level increases to 36 percent and in moderate-income geographies it increases to 20 percent. In MUI geographies, the combined poverty level is just 8 percent.

## Economic Data

According to the November 2019 Moody's Analytics report, in the New York-Jersey City-White Plains, NY-NJ portion of the CSA, the housing market remains stagnant with both single-family and condo prices moving sideways or lower and multifamily building well below its mid-decade peak. As the financial capital of the world, the area has a high per capita income and limited exposure to manufacturing. It has strong international immigration. However, high costs, including taxes, housing, office rents and energy, a rapidly aging infrastructure, and an overreliance on wealthy overseas buyers to support real estate market are major challenges. Major industries include education and health services, professional and business services, and government. Major employers in the area include Montefiore Health System, Mount Sinai Health System, JPMorgan Chase \& Co., Bank of America, N.A., and New York-Presbyterian Healthcare System.

The Nassau County-Suffolk County, NY portion of the CSA has a robust healthcare sector and a highly skilled workforce. The proximity to New York City contributes to the high per capita income. However, there are high housing costs and a lack of land available for development. The high taxes are a burden for residents and firms. Population growth is weak, and a rapidly rising number of retirementage seniors exist. Major industries include education and health services, government, and professional and business services. Major employers in the area include Northwell Health, Henry Schein Inc., Cablevision Systems Corp., CA Inc., and Pall Corp.

Newark, NJ-PA has a well-educated and productive workforce matched with financial services, pharmaceuticals, and high-tech industries. However, prescription-drug price reform led to layoffs among major pharmaceutical companies located in the area. Also, Newark has weak population growth as well as high business and living costs. Major industries include professional and business services, education and health services, and government. Major employers in the area include Newark International Airport, Verizon, University of Medicine and Dentistry of New Jersey, NJ Transit and United Airlines Inc.

Bridgeport-Stamford-Norwalk struggled from the middle of 2016 until the middle of 2019. The area experienced employment declines in recent years, but added jobs in the second half of 2019, primarily from healthcare and professional/business services. There are high living and business costs. Since Stamford has higher incomes, it skews the income distribution across the area. It does have a highly educated labor force and above-average exposure to high-tech. Major industries include education and health services, professional and business services, and retail trade. Major employers in the area include Sikorsky Aircraft Corp., St. Vincent's Medical Center, Stamford Hospital, Frontier Communications, and Bridgeport Hospital.

New Haven-Milford, CT MSA has the highest jobless rate among Connecticut's four metro areas. It does have a large, stable university concentration and a strong commitment by Yale to urban development. Business costs are lower here than in New York and Boston. Major industries include education and health services, as well as government, professional and business services. Major employers in the area include Yale New Haven Health System, Yale University, Verizon, Bozzuto's Inc., and Southern Connecticut State University.

Poughkeepsie-Newburgh-Middletown, NY MSA is among the nation's 10 most dependent areas on computer and electronic product manufacturing and the area is experiencing a shrinking semiconductor industry. Job growth here is the slowest in New York. Lower living costs and proximity to New York City attract commuters. Housing is affordable and single-family housing is modestly undervalued. The area has a highly educated workforce with a strong healthcare and university presence. There is a rapidly expanding senior population. Major industries include education and health services, government, and retail trade. Major employers in the area include Health Quest, IBM, GlobalFoundries, Bard College and Mid-Hudson Regional Hospital.

Trenton-Princeton, NJ MSA has a highly educated and highly skilled workforce with a concentration of white-collar and high-tech jobs. There are strong talent pipelines from Princeton University and The College of New Jersey. The workforce attracts investment in technology, finance, and professional services. Business costs are low relative to the state. The affordability of housing is above-average and close to-average living costs. The unemployment rate is among the lowest for metro areas in the Middle Atlantic region. Trenton is New Jersey's state capital and government positions make up 27 percent of total employment. As a result, the area is vulnerable to the state's poor financial condition. Major industries include government, education, and health services as well as professional and business services. Major employers in the area include Bank of America, N.A., Princeton University, BristolMyers Squibb, Capital Health System and New Jersey Manufacturers Insurance.

Allentown-Bethlehem-Easton, PA-NJ MSA experienced a downtown revitalization which stimulating investment and hiring. The area has below-average employment volatility and strong migration patterns with people coming from surrounding high cost areas. There is a high concentration of jobs in manufacturing. Aging infrastructure exists. The rate of appreciation of home prices is slower than elsewhere in the state. Local government finances are weak. Major industries include education and health services, professional and business services, retail trade, government, and manufacturing. Major employers in the area include Lehigh Valley Health Network, St. Luke's University Health Network, Air Products and Chemicals, Sands Bethworks Gaming LLC, and Dorney Park/Wildwater Kingdom.

The Kingston, NY MSA has below-average employment instability but also has a below-average concentration of high-wage jobs. Business costs are low for the Northeast. However, it does have an overreliance on government and few private sector growth drivers. Vacancy rates for residential properties are high and the working-age population is shrinking. Major industries include government,
education and health services and retail trade. Major employers in the area include Health Alliance of the Hudson Valley, State University of New York at New Paltz, Eastern New York Correctional Facility, Northeast Center for Special Care and Ulster-Greene ARC.
Community Contacts
A review was conducted of ten community contacts completed during the examination period with organizations located throughout the area. The organizations contacted focus on areas such as affordable housing, small business development, community services and housing/urban policy and research. The contacts noted the need for affordable housing programs, both homeownership and rental housing due to the high cost areas across the AA. Affordable rental housing is particularly necessary in high cost metropolitan areas such as New York City, where two-thirds of its residents remain renters. Often these renters experience a high rent burden. Multifamily lending is also a need in these areas, many of which have experienced gentrification during the rating period. For homeowners across the AA, affordable mortgages with down payment assistance and home improvement loans are needed for low- and moderate-income families purchase and repair homes. Support for seniors is necessary as many areas throughout the AA report a growing senior population. Seniors will need access to various community services as well as low-cost loans to maintain homes. Job training is noted as experienced workers age out of the workforce without enough qualified replacements. For small businesses, there is an increased need especially for small-scale businesses that struggle most to access capital. In the high cost areas across the AA, it is difficult for businesses to survive due to rising commercial real estate leases and large chains entering the local retail markets. Capacity building for community organizations including providing access to technical training and leadership development was noted. Other needs identified include:

- Access to affordable banking products and services including low cost checking and savings products and credit repair products
- Access to traditional financial services
- Financial literacy
- Financial education for start-up businesses
- Small dollar mortgage and small business loans
- Affordable rehabilitation loans
- Affordable small dollar emergency credit
- Homebuyer Education and Counseling
- Support for youth after-school programs
- Support for youth aging out of foster care
- Job training and resources

## Scope of Evaluation in NY CSA

The NY CSA received a full-scope review. Bank delineated MDs and the MSA were combined in evaluating performance under each test. The NY CSA represents one of the bank's most significant markets in terms of lending, deposits, and branch distribution. The performance in the NY CSA was weighted more heavily in determining the bank's overall CRA rating.

## CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS IN NY CSA

## LENDING TEST

The bank's performance under the Lending Test in the NY CSA is rated High Satisfactory.
Based on a full-scope review, the bank's performance in the NY CSA is good.

## Lending Activity

Lending levels reflect excellent responsiveness to credit needs in the AA.
Examiners considered the number and dollar amount of home mortgage, small business, and small farm loans originated or purchased relative to Chase's capacity based on deposits, competition, and market presence. Lending activity for home mortgage and small loans to businesses received the most weight in reaching conclusions. Respectively, home mortgage lending and small loans to businesses account for 18.3 percent and 81.3 percent of the loan volume in the CSA by number and 81.0 and 16.0 percent of loan volume by dollar. Small farm lending is not a strategic focus of the bank and received minimal weight in reaching conclusions. Farm loans represented 0.2 percent of the loan volume in the NY CSA by number and 0.02 percent loan volume by dollar.

| Number of Loans |  |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | Home <br> Mortgage | Small <br> Business | Small <br> Farm | Community <br> Development | Total |  |
| NY CSA | 163,731 | 725,875 | 2,098 | 640 | 892,344 |  |

| Dollar Volume of Loans (000s) |  |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Home <br> Mortgage | Small <br> Business | Small <br> Farm | Community <br> Development | Total |  |
| Assessment Area | $83,149,235$ | $16,387,828$ | 26,221 | $2,968,920$ | $102,532,204$ |  |
| NY CSA |  |  |  |  |  |  |

As of June 30, 2019, Chase ranked first in deposits out of 216 institutions with 30.3 percent market share.

In overall home mortgage lending, Chase ranked second with 7.7 percent market share. The top three lenders in the market are Wells Fargo Bank, N.A. (8.6 percent), Bank of America, N.A. (4.6 percent), and Quicken Loans, Inc. (4.2 percent).

In small loans to businesses, Chase ranked second out of 334 lenders with a 21.7 percent market share. Other major lenders are American Express National Bank (31.0 percent), Bank of America, N.A. (7.1 percent), and Citibank, N.A. (6.53 percent).

In small loans to farms, Chase ranked first out of 31 lenders with a 46.7 percent market share. The other major lenders in the market are Bank of America, N.A. (12.4 percent), U.S. Bank, N.A. (10.7 percent), and Wells Fargo Bank, N.A. (10.4 percent).

## Distribution of Loans by Income Level of the Geography

The bank exhibits excellent geographic distribution of loans in its AA.

## Home Mortgage Loans

Refer to Table O in the Multi State New York section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of home mortgage loan originations and purchases for this evaluation is good. The following information was taken into consideration when determining this rating.

- The limited proportion of housing units in low-income geographies, particularly OOUs ( 3.0 percent) and constrained lending opportunities were noted; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of OOUs in those geographies.
- The high level of competition in the AA, with a number of major home mortgage lenders, was also considered and examiners placed greater significance on performance compared to the aggregate of lenders.
- Between 2017 and 2019, the proportion of loans in low-income areas was near to the percentage of owner-occupied units and well below the aggregate distribution of loans. In moderate-income areas the proportion of loans was near to both the percentage of owner-occupied units and aggregate distribution of loans.
- During 2014 through 2016, performance in low-income geographies was below the percentage of owner-occupied units and below the aggregate distribution of loans, while performance in moderateincome geographies was below the percentage of owner-occupied units and near to the aggregate distribution of loans.

## Small Loans to Businesses

Refer to Table Q in the Multi State New York section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to businesses.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to businesses for this evaluation is excellent. The following information was taken into consideration when determining this rating.

- The smaller proportion of businesses in low-income geographies ( 7.5 percent) and competition between 334 lenders constrained lending opportunities to existing businesses. Therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of businesses in those geographies.
- Between 2017 and 2019, the proportion of small loans to businesses in low-income geographies was near to both the proportion of businesses and the aggregate distribution, while the proportion of small loans to businesses in moderate-income geographies exceeded both the proportion of businesses and the aggregate distribution.
- During 2014 to 2016, the proportion of small loans to businesses in low- and moderate-income geographies exceeded both the proportion of businesses and the aggregate distribution.

## Small Loans to Farms

Refer to Table S in the Multi State New York section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to farms.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to farms is good. The following information was taken into consideration when determining this rating.

- The limited number of farms in low-income geographies, ( 2.6 percent) and constrained lending opportunities were noted; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher number of farms in those geographies.
- The fact that farm lending is not a focus of the bank was also considered.
- Between 2017 and 2019, the proportion of loans to small farms in low-income geographies was below the proportion of farms in those geographies and significantly exceeded the aggregate distribution of all lenders. The proportion of loans to small farms in moderate-income geographies was well below the proportion of farms in those geographies and near to the aggregate distribution of all lenders.
- During the 2014 to 2016 period, the proportion of loans to small farms in both low- and moderateincome geographies exceeded the proportion of farms in those geographies and exceeded the aggregate distribution of all lenders.

## Lending Gap Analysis

A review of home mortgage loans, small loans to business, and small loans to farms including summary reports and AA maps did not identify any unexplained conspicuous lending gaps in the bank's activities.

## Distribution of Loans by Income Level of Borrower

The bank exhibits good distribution of loans among individuals of different income levels and business of different sizes.

## Home Mortgage Loans

Refer to Table P in the Multi State New York section of appendix D for the facts and data used to evaluate the borrower distribution of the institution's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall borrower distribution of home mortgage loan originations and purchases for this evaluation is adequate. The following information was taken into consideration when determining this rating.

- Greater significance was placed on performance against the aggregate distribution as it reflects the difficulties all lenders are experiencing due to competition and the economic constraints discussed above under the Description of this Full-Scope AA.
- Examiners particularly considered housing affordability challenges for low- and moderate-income borrowers.
- Between 2017 and 2019, the proportion of loans to low-income borrowers was well below the percentage of low-income families and near to the aggregate distribution of lenders. The proportion of moderate-income loans was near to both the proportion of moderate-income families and the aggregate distribution.
- During 2014 to 2016, the bank's performance was consistent with performance between 2017 to 2019. The proportion of loans to low-income borrowers was well below the percentage of lowincome families and near to the aggregate distribution of lenders. The proportion of moderateincome loans was below both the proportion of moderate-income families and the aggregate distribution.

## Small Loans to Businesses

Refer to Table R in the Multi State New York section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's originations and purchases of small loans to businesses.

Based on the data in the tables and the following considerations, the distribution of the bank's originations and purchases of small loans to businesses by revenue category is good. The following information was taken into consideration when determining this rating.

- Greater significance was placed on performance against the aggregate distribution of lenders as it reflects the difficulties all lenders are experiencing due to competition and the economic constraints discussed above under the Description of the Full-Scope AA.
- Between 2017 and 2019, the bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and significantly exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was weaker than performance between 2017 and 2019. The bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was well below the percentage of businesses and significantly exceeded the aggregate distribution.

## Small Loans to Farms

Refer to Table T in the Multi State New York section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's origination and purchase of small loans to farms.

Based on the data in the table and the following considerations, the distribution of the bank's originations and purchases of small loans to farms by revenue category is good. The following information was taken into consideration when determining this rating.

- The fact that farm lending is not a focus of the bank was considered.
- Between 2017 and 2019, the bank's percentage of loans to farms with revenues of $\$ 1$ million or less was below the percentage of farms and significantly exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was consistent with performance between 2017 and 2019. The bank's percentage of loans to farms with revenues of $\$ 1$ million or less was well below the percentage of farms and significantly exceeded the aggregate distribution.

## Community Development Lending

The bank has made an adequate level of CD loans.
The Lending Activity Tables, shown above, set forth the information and data used to evaluate the bank's level of CD lending. These tables include all CD loans, including multifamily loans that also qualify as CD loans.

There were 640 CD loans made for a total of $\$ 2.9$ billion. This represents 3.9 percent of the tier 1 capital allocated to the AA. The majority (or 66 percent) of CD loans were for affordable housing purposes, which is a critical need in this AA. Examples of CD loans in the AA include:

- In December 2015, Chase provided four loans totaling $\$ 108.0$ million to a neighborhood revitalization project that was a part of the Downtown Brooklyn Redevelopment Plan. The mixeduse housing development resulted in 129 affordable housing units in a moderate-income tract and the activity was a catalyst for other community development activities.
- In February 2018, Chase provided a $\$ 29.7$ million loan to renovate affordable housing, which consisted of a portfolio of 13 buildings in the Bronx, NY. More than one-third of the borough's residents are considered low-income. More than 50 percent of the 497 apartment units are restricted to low- and moderate-income households.
- In December 2017, Chase helped to preserve affordable housing and provided a $\$ 18.5$ million loan to renovate a multifamily property. The building is located in a moderate-income tract of Far Rockaway, NY. Of the 132 units in the building, 130 are affordable to low- and moderate-income households.

## Other Loan Data

In addition to the bank's community development loans, Chase also issued 80 letters of credit totaling $\$ 1.65$ billion that had a qualified CD purpose. The letters of credit were given positive consideration to the Lending Test conclusion and supported the creation or preservation of affordable housing within the AA.

## Product Innovation and Flexibility

The bank makes extensive use of innovative and/or flexible lending practices to serve AA credit needs. As shown in the table below, a total of 24,504 loans were funded in the amount of $\$ 6.2$ billion. Refer to the comments in the Product Innovation and Flexibility section of this performance evaluation for additional details regarding the programs.

| Loan Type | Number of <br> Loans | Dollar Amount <br> $\mathbf{( \$ 0 0 0 s )}$ |
| :--- | :---: | :---: |
| DreaMaker | 8,822 | $2,394,176$ |
| Federal Housing Administration (FHA) | 6,351 | $1,797,508$ |
| Home Affordable Refinance Program (HARP) | 4,549 | 833,250 |
| Veteran's Administration (VA) | 973 | 323,766 |
| Small Business Administration (SBA) | 3,428 | 796,115 |
| U.S. Department of Agriculture (USDA) | 381 | 73,998 |

## INVESTMENT TEST

The bank's performance under the Investment Test in NY CSA is rated High Satisfactory.
Based on a full-scope review, the bank's performance in the NY CSA is good.
The bank has a significant level of qualified CD investment and grants, occasionally in a leadership position, particularly those that are not routinely provided by private investors. The current and prior period investments qualified investments represent 4.6 percent of tier 1 capital allocated to the AA. A significant majority, or 81.7 percent of total investments, represents current period investments.

The bank exhibits excellent responsiveness to credit and community economic development needs identified in the AA, including affordable housing, community services, and revitalization/stabilization for low- and moderate-income individuals and geographies. Over 96.0 percent of the dollar volume of the bank's current period and almost all prior period investments focus on affordable housing, a primary community development need in the AA. Two percent support community services and one percent revitalization/stabilization. Additionally, the bank provided 517 grants totaling $\$ 65.2$ million to a variety of organizations that primarily support community services. The grants also supported affordable housing, economic development and to a lesser extent revitalization/stabilization. In total, the bank's investments helped create or retain 59,498 affordable housing units including housing units for low- and moderate-income senior citizens.

The bank makes occasional use of complex investments to support CD initiatives. Exclusive of grants, the bank has 347 current period CD investments. These include 70 complex Direct Investment LIHTC and NMTC transactions. Prior period investments include 88 complex Direct Investment LIHTC and NMTC investments. Forty-three current period CD investments serve as catalysts as part of a local government plan for revitalization or stabilization to encourage further growth or improvements. In addition, the bank shows leadership with nine investments which supports the bank-developed New Skills at Work initiative, or the Healthcare Workforce Pathways with Hostos and Montefiore initiative. Leadership also included the bank's commitment to support and strengthen Community Development Financial Institutions (CDFIs).

* Prior Period Investments' means investments made in a previous evaluation period that are outstanding as of the examination date.
** Unfunded Commitments' means legally binding investment commitments that are tracked and recorded by the bank's financial reporting system.
Examples of CD Investments in the AA include:
- In December 2019, the bank made a $\$ 23.7$ million equity investment to a community development project for affordable housing in the AA. Eighty-eight housing units were created for low- and moderate-income seniors. This is a Direct Investment LIHTC transaction supporting affordable housing.
- In December 2016, the bank made three investments totaling $\$ 20.4$ million in the New York State Housing Finance Agency (HFA) 2016 Affordable Housing Revenue Bonds (Series I). The purpose of the proceeds of these bonds was to finance the 2016 Series I Project. HFA's mission is to create and preserve high quality affordable multi-family rental housing units that serves communities across the state of New York.
- From 2014 through 2019, five grants totaling $\$ 800,000$ were provided to a nonprofit organization for continued support of its financial center. The mission of this small business development organization is to improve the economic prospects of traditionally underserved groups, with a focus on providing training and financial assistance to low- and moderate-income entrepreneurs and their communities to help grow revenue and create jobs thereby stimulating economic stability and growth within the bank's AA.

## Statewide Investments in Connecticut and New Jersey

The bank has 78 current and prior period investments totaling $\$ 108.9$ million with and without a $\mathrm{P} / \mathrm{M} / \mathrm{F}$ to serve AAs in Connecticut and New Jersey. These CD investments primarily support affordable housing and community services, with revitalization/stabilization to a lesser extent. These investments represent 3.1 percent of total qualified investments in and surrounding the NY CSA broader area including Connecticut and New Jersey. Of the $\$ 108.9$ million, 89 percent have a P/M/F to serve AAs. The investments supported the bank's overall performance in the NY CSA.

## SERVICE TEST

The bank's performance under the Service Test in NY CSA is rated High Satisfactory.
Based on a full-scope review, the bank's performance in the NY CSA is good.

## Retail Banking Services

Service delivery systems are accessible to geographies and individuals of different income levels in the bank's AA.

Examiners evaluated the data as outlined in the Scope section at the front of this document including bank-provided data on usage of branches adjacent to low- and moderate-income geographies by individuals residing in those geographies and on increases in the usage of alternative delivery systems.

Based on the data in the table below and performance context, the branch distribution is good. In lowand moderate-income geographies, the distribution is respectively below and near to the percentage of the population. The bank had 54 branches in low-income geographies and 139 branches in moderateincome geographies. The distribution was augmented by 13 MUI tract branches that serve low-income tracts and 115 MUI tract branches that serve moderate-income tracts. Examiners reviewed data on the accounts held and transactions conducted at the MUI branches and confirmed they were serving the adjacent low- and moderate-income populations.

| Distribution of Branch Delivery System |  |  |  |  |  |  |  | As of December 31, 2019 |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | Deposits | Branches |  |  |  |  |  | Population |  |  |  |

| New York- <br> Newark, NY- <br> NJ-CT-PA <br> CSA | 100 | 865 | 99.8 | 6.2 | 16.1 | 29.1 | 47.7 | 11.6 | 21.7 | 32.4 | 34.1 |

*May not add up to 100 percent due to geographies with unknown tract income level and rounding.
Alternative delivery systems enhanced the delivery of banking services to geographies and individuals of all income levels. The OCC considered the availability and use of alternative delivery systems over the evaluation period. This included review of the bank's 3,259 deposit-taking ATMs, online banking, mobile banking, and telephone banking to determine the effectiveness of these systems to make retail banking services available to individuals in low- and moderate-income geographies. The bank increased the deposit-taking ATMs in low- and moderate-income geographies by 27.9 percent over the prior rating period to 243 ( 7.5 percent) deposit-taking ATMs in low-income geographies and 602 ( 18.5 percent) ATMs in moderate-income geographies. Additionally, bank-provided data on use of online, mobile, and telephone banking showed significant increases in the adoption of these services by low- and moderateincome individuals from the prior rating period.

| Distribution of Branch Openings/Closings |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment <br> Area | \# of Branch <br> Openings | \# of Branch <br> Closings | Net change in Location of Branches <br> $(+$ or -$)$ |  |  |  |
|  | Low | Mod | Mid | Upp |  |  |
|  | 44 | 79 | +4 | -3 | -26 | -10 |

bank's opening and closing of branches have not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and/or to low- and moderate-income individuals. The bank opened four branches in low-income geographies and closed three branches in moderate-income geographies. The closures in moderate-income geographies were the results of reduced customer usage trends and proximity to other Chase branches based on the bank's retail branch consolidation strategy. Despite the branch closures, branch locations remained accessible to geographies and individuals of different income levels in the bank's AA.

Services, including where appropriate, business hours, did not vary in a way that inconvenienced the AA, particularly low- and moderate-income geographies and/or individuals. Generally, branches are open Monday through Friday 8:30 am to 6:00 pm and Saturday 9:00 am to 2:00 pm. A limited number of branches are open on Sunday from 10:00 am to 2:00 pm. All retail banking services are available within the low- and moderate-income branches.

## Community Development Services

The bank was a leader in providing CD services that are responsive to AA needs. The CD services positively affected the service test performance.

Bank employees provided 9,400 CD services to 287 organizations. These employees provided a total of 49,000 hours of service. A substantial amount of the bank's assistance was to organizations that provide community services to low- and moderate-income individuals and families. The CD services provided were responsive to the needs identified in the community, particularly financial literacy, and programs for low- and moderate-income youth. The following are examples of CD services provided in this AA:

- A bank employee provided 250 hours of board service to an organization focused on serving children from low- and moderate-income backgrounds. The employee played an integral role in shaping the nonprofit's strategic goals and executing directives that benefit the needs of the community.
- A bank employee provided 220 hours of board service to a community foodbank that serves as the state's largest anti-hunger and anti-poverty organization.
- Bank employees assisted a nonprofit with a financial literacy workshop focused on teaching the basics of money management and credit building to low-income women/clients. The workshop is responsive to the needs of these low-income women, many of whom lack the skills to build financial freedom.

## Multistate Metropolitan Statistical Area Rating

## Chicago-Naperville, IL-IN-WI CSA (Chicago CSA)

CRA rating for the Chicago CSA ${ }^{2}$ : Outstanding
The Lending Test is rated: High Satisfactory
The Investment Test is rated: Outstanding
The Service Test is rated: Outstanding
The major factors that support this rating include:

- An excellent level of lending activity.
- An adequate geographic distribution of home mortgage loans and small loans to businesses.
- A good borrower distribution of home mortgage loans and small loans to businesses.
- A relatively high level of CD loans that positively affected the rating.
- The extensive use of flexible products, which positively affected the rating.
- An excellent level of qualified CD investments that demonstrated excellent responsiveness to credit and economic develop needs.
- Some use of complex investments.
- Retail service delivery systems that are readily accessible to geographies and individuals of different income levels in the bank's AA.
- Leadership in providing CD services that are responsive to AA needs.

## Description of Institution's Operations in Chicago CSA

The Chicago CSA is the bank's 4th largest rating area based on its total deposits in the CSA of $\$ 87.8$ billion, representing 6.3 percent of the bank's total deposits. As of December 31, 2019, the bank operated 328 branches and 1,400 deposit-taking ATMs within the rating area, representing 6.6 percent of total branches and 8.7 percent of total ATMs. The bank originated and purchased approximately $\$ 60.5$ billion in loans or 8.7 percent of total bank loan originations and purchases during the evaluation period in the CSA.

According to FDIC Deposit Market Share data as of June 30, 2019, there were 180 banks s operating 2,638 branches in the Chicago CSA. The bank had deposits of $\$ 87.8$ billion, ranking it first in deposit market share with 21.1 percent. The next three largest competitors and their deposit market shares are BMO Harris Bank (15.3 percent), Bank of America, N.A. (8.6 percent), and Fifth Third Bank (5.8 percent).

Chase has delineated a significant portion of the Chicago-Naperville-Elgin, IL-IN-WI MSA and Michigan City-LaPorte, IN MSA within the CSA as its AA. Refer to appendix A for a complete listing of the counties included in the AA.

## Description of Full-Scope AA

The following table provides a summary of the demographics that includes housing and business information for the Chicago CSA. The CSA poses challenges to home mortgage lenders in the AA, including Chase. The CSA is a high cost housing area, limiting access to affordable homeownership among many low-income and some moderate-income borrowers. The median housing value in the CSA is $\$ 444,639$, which ranges from 2.7 to 4.0 times the median income in each MSA for the CSA, 4.0 times the averaged moderate-income, and 6.4 times the averaged low-income. One simplistic method used to determine housing affordability assumes a maximum monthly principal and interest payment of no more than 36 percent of the applicant's income.

Assuming a 30-year mortgage with a five percent interest rate, three percent down payment and not accounting for homeowners insurance, real estate taxes, or any additional monthly expenses, a lowincome borrower making $\$ 36,555$ per year (or less than 50 percent of the FFIEC adjusted median family income in the AA) could afford a $\$ 174,233$ mortgage with a payment of $\$ 1,097$ per month; a moderateincome borrower earning $\$ 58,488$ per year (or less than 80 percent of the FFIEC adjusted median family income in the AA) could afford a $\$ 278,796$ mortgage with a payment of $\$ 1,755$ per month.

The poverty level across the AA was considered in the evaluation of lending performance. Families living below the stated poverty rate are identified as having difficulty meeting basic financial needs and as such are less likely to have the financial wherewithal to qualify for a home loan than those with income above poverty. In the Chicago CSA, the overall household poverty level was 10.6 percent.

| Table A - Demographic Information of the Assessment Area |  |  |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area: Chicago CSA 2017-2019 |  |  |  |  |  |  |  |

## Economic Data

According to the November 2019 Moody's Analytics report, employment growth in the Chicago area has decelerated or abated in most industries and the housing market is among the weakest in the top U.S. metro areas. The area is a major center for business, distribution, transportation, and finance. It has a large talent pool as well as several highly regarded educational institutions. However, the area is showing weak population trends and has struggled with high crime rates. Chicago and Illinois are both grappling with mounting pension obligations and a shrinking population, both of which are placing added financial strain on city and state budgets. Major industries include professional and business services; educational and health services; and leisure and hospitality. Major employers in the area include Advocate Health Care System; Northwestern Memorial Healthcare; University of Chicago; JP Morgan Chase; and Amazon.

## Community Contacts

A review was conducted of five community contacts completed during the examination period with organizations located throughout the area. The organizations contacted focus on areas such as housing/urban policy and research and affordable housing. The contacts noted the need for access to traditional financial services for residents of LMI communities, particularly in the southside of Chicago; Gary, Indiana; East Chicago; and Hammond in Lake County, Indiana. Contacts also noted the need for smaller dollar mortgage loans as nonprofit organizations seem to hold a disproportionate share of the single-family mortgage market in low-income areas with lower property values. Contacts also discussed affordable housing and the need to construct more affordable rental housing in areas that provide lowincome households with access to better employment and workforce development opportunities that can lead to financial self-sufficiency. Other needs identified include:

- Access to affordable rental housing
- Access to affordable, conventional mortgages
- Smaller dollar mortgage loans
- Down payment assistance programs
- Smaller dollar loans for smaller businesses
- Access to second chance checking accounts, credit builder loans, and branches in low- and moderate-income areas
- Financial literacy training

## Scope of Evaluation in Chicago CSA

The Chicago CSA received a full-scope review. The MSAs within the CSA were combined in evaluating performance with each test.

## CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS IN CHICAGO CSA

## LENDING TEST

The bank's performance under the Lending Test in the Chicago CSA is rated High Satisfactory.
Based on a full-scope review, the bank's performance in the Chicago CSA is good.

## Lending Activity

Lending levels reflect excellent responsiveness to the credit needs in the AA.
Examiners considered the number and dollar amount of home mortgage, small business, and small farm loans originated or purchased relative to Chase's capacity based on deposits, competition, and market presence. Lending activity for home mortgage and small loans to businesses received the most weight in reaching conclusions. Respectively, home mortgage lending and small loans to businesses account for 36.8 percent and 62.8 percent of the loan volume in the CSA by number and 88.8 percent and 9.5 percent of loan volume by dollar. Small farm lending is not a strategic focus of the bank and received minimal weight in reaching conclusions. Farm loans represented 0.2 percent of the loan volume in the CSA by number and 0.02 percent loan volume by dollar.

| Number of Loans |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | Home <br> Mortgage | Small <br> Business | Small Farm | Community <br> Development | Total |
| Chicago CSA | 166,548 | 284,344 | 967 | 369 | 452,228 |
| Dollar Volume of Loans (000s) Home Small <br> Business Small Farm Community <br> Development Total <br> Assessment Area Mortgage 13,585 $1,028,313$ $60,471,122$  <br> Chicago CSA $53,688,554$ $5,740,670$ 10   |  |  |  |  |  |

Chase ranked first in deposits within the CSA with 21.1 percent market share.
In overall home mortgage lending, Chase ranked first with 8.5 percent market share. This is a very competitive market with 1,057 home mortgage lenders and 180 depository institutions. The other top lenders were Wells Fargo Bank, N.A. (6.3 percent), Guaranteed Rate Inc. (5.9 percent), and U.S. Bank, N.A. (4.2 percent).

In small loans to businesses, Chase ranked first with 26.9 percent market share. This is a highly competitive market with 233 small business lenders. The other top lenders were American Express National Bank (16.6 percent) and Citibank, N.A. (8.8 percent).

In small loans to farms, Chase ranked first out of 44 lenders with a 20.3 percent market share. The other major lenders in the market are John Deere Financial, F.S.B. (13.6 percent), First Midwest Bank (13.5 percent), and First National Bank of Omaha (11.4 percent).

## Distribution of Loans by Income Level of the Geography

The bank exhibits an adequate geographic distribution of loans in its AA.

## Home Mortgage Loans

Refer to Table O in the Multi State Chicago section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of home mortgage loan originations and purchases for this evaluation is adequate. The following information was taken into consideration when determining this rating.

- The limited proportion of housing units in low-income geographies, particularly OOUs (4.4 percent), constrained lending opportunities; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of OOUs in those geographies.
- The high level of competition in the AA, with 1,057 home mortgage lenders, was also considered and examiners placed greater significance on performance compared to the aggregate of lenders.
- Between 2017 and 2019, the proportion of loans in low-income areas was well below both the percentage of owner-occupied units and the aggregate distribution of loans. In moderate-income areas the proportion of loans was below the percentage of owner-occupied units and near to the aggregate distribution of loans.
- During 2014 through 2016, performance in low-income geographies was well below the percentage of owner-occupied units and near to the aggregate distribution of loans, while performance in moderate-income geographies was well below the percentage of owner-occupied units and below the aggregate distribution of loans.

## Small Loans to Businesses

Refer to Table Q in the Multi State Chicago section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to businesses.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to businesses for this evaluation is adequate. The following information was taken into consideration when determining this rating:

- The smaller proportion of businesses in low-income geographies (4.9 percent) and competition between 233 lenders constrained lending opportunities to existing businesses. Therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of businesses in those geographies.
- Between 2017 and 2019, the proportion of small loans to businesses in low-income geographies was well below both the proportion of businesses and the aggregate distribution, while the proportion of small loans to businesses in moderate-income geographies was near to the proportion of businesses and below the aggregate distribution.
- During 2014 to 2016, the proportion of small loans to businesses in low-income geographies was well below both the proportion of businesses and below the aggregate distribution, while the proportion of small loans to businesses in moderate-income geographies was below the proportion of businesses and near to the aggregate distribution.

## Small Loans to Farms

Refer to Table S in the Multi State Chicago section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to farms.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to farms is poor. The following information was taken into consideration when determining this rating.

- The limited number of farms in low-income geographies ( 2.6 percent) constrained lending opportunities; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher number of farms in those geographies.
- The fact that farm lending is not a focus of the bank was also considered.
- Between 2017 and 2019, the proportion of loans to small farms in low-income geographies was well below the proportion of farms in those geographies and significantly exceeded the aggregate distribution of all lenders. The proportion of loans to small farms in moderate-income geographies was well below the proportion of farms in those geographies and near to the aggregate distribution of all lenders.
- During the 2014 to 2016 period, performance was weaker. The proportion of loans to small farms in both low- and moderate-income geographies was well below both the proportion of farms in those geographies and the aggregate distribution of all lenders.

## Lending Gap Analysis

A review of home mortgage loans, small loans to business, and small loans to farms including summary reports and AA maps did not identify any unexplained conspicuous lending gaps in the bank's activities.

## Distribution of Loans by Income Level of the Borrower

The bank exhibits a good distribution of loans among individuals of different income levels and business of different sizes.

## Home Mortgage Loans

Refer to Table P in the Multi State Chicago section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall borrower distribution of home mortgage loan originations and purchases for this evaluation is good. The following information was taken into consideration when determining this rating:

- Greater significance was placed on performance against the aggregate distribution as it reflects the difficulties all lenders are experiencing due to competition and the economic constraints discussed above under the Description of this Full-Scope AA.
- Examiners particularly considered housing affordability challenges for low- and moderate-income borrowers.
- Between 2017 and 2019, the proportion of loans to low-income borrowers was well below the percentage of low-income families and below the aggregate distribution of lenders. The proportion of loans to moderate-income families exceeded both the proportion of moderate-income families and the aggregate distribution.
- During 2014 to 2016, the bank's performance was weaker than 2017 to 2019. The proportion of loans to low-income borrowers was well below the percentage of low-income families and below the aggregate distribution of lenders. The proportion of moderate-income loans was below both the proportion of moderate-income families and the aggregate distribution.

## Small Loans to Businesses

Refer to Table R in the Multi State Chicago section of appendix D for the facts and data used to evaluate the borrower distribution of the institution's originations and purchases of small loans to businesses.

Based on the data in the tables and the following considerations, the distribution of the bank's originations and purchases of small loans to businesses by revenue category is good. The following information was taken into consideration when determining this rating:

- Greater significance was placed on performance against the aggregate distribution of lenders as it reflects the difficulties all lenders are experiencing due to competition and the economic constraints discussed above under the Description of the Full-Scope AA.
- Between 2017 and 2019, the bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and significantly exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was weaker than performance between 2017 and 2019. The bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was well below the percentage of businesses and significantly exceeded the aggregate distribution.

## Small Loans to Farms

Refer to Table T in the Multi State Chicago section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's origination and purchase of small loans to farms.

Based on the data in the table and the following considerations, the distribution of the bank's originations and purchases of small loans to farms by revenue category is good. The following information was taken into consideration when determining this rating.

- The fact that farm lending is not a focus of the bank was considered.
- Between 2017 and 2019, the bank's percentage of loans to farms with revenues of $\$ 1$ million or less was below the percentage of farms and exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was consistent with performance between 2017 and 2019. The bank's percentage of loans to farms with revenues of $\$ 1$ million or less was below the percentage of farms and exceeded the aggregate distribution.

## Community Development Lending

The bank has made a relatively high level of CD loans.
The Lending Activity Tables, shown above, set forth the information and data used to evaluate the bank's level of CD lending. These tables include all CD loans, including multifamily loans that also qualify as CD loans

There were 369 CD loans made for a total of $\$ 1$ billion. This represents 8.7 percent of the allocated tier 1 capital. The loans were responsive to the identified needs of the AA. The majority ( 56 percent) of CD loans were for affordable housing purposes followed by community services ( 42 percent). Examples of CD loans in the AA include:

- In October 2014, Chase provided a $\$ 10.0$ million loan to a school district that primarily serves LMI students in the community. The funds were used to facilitate the purchase of equipment and construction/reconstruction projects.
- In June 2016, Chase provided a $\$ 13.3$ million loan to improve a multifamily property in a middleincome census tract of Chicago. Of the 124 units, 121 are occupied by LMI families.
- In April 2019, Chase funded a $\$ 5.6$ million loan located in a low-income census tract in Chicago. The loan helped to preserve 112 affordable units occupied by LMI families.

## Product Innovation and Flexibility

The bank makes extensive use of innovative and/or flexible lending practices to serve AA credit needs. As shown in the table below, a total of 26,643 loans were funded in the amount of $\$ 4.9$ billion. Refer to the comments in the Product Innovation and Flexibility section of this PE for additional details regarding the programs.

| Loan Type | Number of <br> Loans | Dollar Amount <br> $\mathbf{( \$ 0 0 0 ' s )}$ |
| :--- | :---: | :---: |
| DreaMaker | 9,202 | $1,735,384$ |
| FHA | 7,983 | $1,338,818$ |
| HARP | 5,363 | 807,306 |
| VA | 2,048 | 480,720 |
| SBA | 1,731 | 462,999 |
| USDA | 316 | 42,594 |

## INVESTMENT TEST

The bank's performance under the Investment Test in the Chicago CSA is rated Outstanding.
Based on a full-scope review, the bank's performance in the Chicago CSA is excellent.

The bank has an excellent level of qualified CD investments and grants, particularly those that are not routinely provided by private investors, although rarely in a leadership position. Current and prior period investments represent 28.3 percent of tier 1 capital allocated to the AA. A significant majority, or 95.8 percent, of total investments are current period investments.

The bank exhibits excellent responsiveness to credit and community economic development needs. Qualified investments primarily supported affordable housing and community services including economic and workforce development. Eighty-one percent of qualified investments were provided for community service needs. Seventeen percent supported affordable housing. The remaining supported economic development and the revitalization/stabilization of distresses areas. Affordable housingrelated investments created or retained 26,921 housing units for low- and moderate-income individuals and families. Of total qualified investments, grants totaled $\$ 43.9$ million to a variety of organizations primarily supporting community service and economic development. In some occurrences, grants were made over multiple years.

The bank rarely uses complex investments to support CD initiatives. Complex investments represent 13.9 percent of total investments and 2.6 percent of total investments serve as catalysts for future growth and other improvements. The bank's complex investments include Direct Investor LIHTC and NMTC transactions. Direct Investor LIHTC require bank expertise and capacity in selecting projects and partners, negotiating agreements, overseeing project development and operations, and ensuring compliance.

| Qualified Investments - Chicago-Naperville, IL-IN-WI CSA |  |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area (AA) | Prior Period* |  | Current Period |  | Total |  |  |  | Unfunded Commitments** |  |
|  | \# | \$(000's) | \# | \$(000's) | \# | \% of Total \# | \$(000’s) | \% of <br> Total \$ | \# | \$(000`s) |
| $\begin{aligned} & \text { Chicago-Naperville, IL- } \\ & \text { IN-WI CSA } \end{aligned}$ | 137 | 132,996 | 542 | 3,064,189 | 679 | 100 | 3,197,185 | 100 | 0 | 0 |

Prior Period Investments' means investments made in a previous evaluation period that are outstanding as of the examination date.
** Unfunded Commitments' means legally binding investment commitments that are tracked and recorded by the institution's financial reporting system.

Examples of CD Investments in the AA include:

- Between September 2015 and July 2018, the bank provided twelve Educational Purposes Tax and Grant Anticipation Notes totaling $\$ 2.5$ billion to the Chicago Board of Education (Board), in Chicago, Illinois. The Board is responsible for the governance, organizational, and financial oversight of Chicago Public Schools (CPS) - City of Chicago School District 299. The proceeds were used, together with certain funds available to the Board, to pay ordinary and necessary expenditures for educational purposes, and to pay the issuance costs. Per the National Center for Education Statistics, the majority or 83.5 percent of the local student population is eligible for the Federal Free or Reduced Lunch program in the CPS.
- In December 2018, the bank made a $\$ 16.5$ million investment in a LIHTC Direct Investor project. The investment supports the development of a four-story building containing 60 housing units restricted to those 62 years or older and at 60 percent or less of AMI. Sixteen of the units will receive a rental subsidy through a Project-Based Section 8 contract. A non-profit organization will provide supportive services with a full-time on-site manager available to help link and refer residents to area services according to their individual needs. There is strong demand in the market for senior
affordable housing evidenced by two older adult LIHTC properties in the market which had current occupancies of 100 percent and waitlists, as well as a significant senior population growth in the area since 2010.
- In September 2019, the bank made a $\$ 12.1$ million equity investment in a LIHTC project located in Pleasant Prairie, Wisconsin. The investment will support new construction of a 140 -unit family development with 84 units set aside for low- and moderate-income families. Service organizations will provide and coordinate services for job skills training, financial literacy, community building, and federal benefits assistance.

## SERVICE TEST

The bank's performance under the Service Test in the Chicago CSA is rated Outstanding.
Based on a full-scope review, the bank's performance in the Chicago CSA is excellent.

## Retail Banking Services

Service delivery systems are readily accessible to geographies and individuals of different income levels in the bank's AA.

Examiners evaluated the data as outlined in the Scope section at the front of this document including bank-provided data on usage of branches adjacent to low- and moderate-income geographies by individuals residing in those geographies and on increases in the usage of alternative delivery systems. Based on the data in the table below and performance context, the branch distribution is excellent. In low- and moderate-income geographies, the distribution is near to the percentage of the population. The bank had 24 branches in low-income geographies and 54 branches in moderate-income geographies. The distribution was augmented by five MUI tract branches near low-income tracts and 41 MUI tract branches near moderate-income tracts. Examiners reviewed data on the accounts held and transactions conducted at the adjacent MUI branches and determined they were serving the adjacent low- and moderate-income populations.

| Distribution of Branch Delivery System |  |  |  |  |  |  |  | As of December 31, 2019 |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Deposits | Branches |  |  |  |  |  | Population |  |  |  |

| Area |  |  |  | Low | Mod | Mid | Upp | Low | Mod | Mid | Upp |
| Chicago- <br> Naperville, <br> IL-IN-WI <br> CSA | 100 | 328 | 98.9 | 7.3 | 16.5 | 27.4 | 48.8 | 9.8 | 23.4 | 32.4 | 34.2 |

*May not add up to 100 percent due to geographies with unknown tract income level and rounding.
Alternative delivery systems enhanced the delivery of banking services to geographies and individuals of all income levels. The OCC considered alternative delivery systems over the evaluation period. This included review of the bank's 1,400 deposit-taking ATMs, online banking, mobile banking, and telephone banking to determine the effectiveness of these systems to make retail banking services available to individuals in low- and moderate-income geographies. The bank increased the deposit-
taking ATMs in low- and moderate-income geographies by 33.7 percent over the prior rating period to 115 (8.2 percent) deposit-taking ATMs in low-income geographies and 247 ( 17.6 percent) ATMs in moderate-income geographies. Additionally, bank-provided data on use of online, mobile, and telephone banking showed increases in the adoption of these services by low- and moderate-income individuals from the prior rating period.

| Distribution of Branch Openings/Closings |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | \# of Branch Openings | \# of Branch Closings | Net change in Location of Branches (+ or -) |  |  |  |
|  |  |  | Low | Mod | Mid | Upper |
| Chicago- <br> Naperville, IL-IN- <br> WI CSA | 16 | 67 | 0 | -6 | -18 | -27 |

The bank's opening and closing of branches generally has not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and/or to low- and moderateincome individuals. The bank opened four branches and closed four branches in low-income geographies and opened one branch and closed seven branches in moderate-income geographies. Branch closures were due to reduced customer usage, and proximity to other Chase branches. The branch closures in moderate-income geographies generally did not adversely affect the distribution of branches relative to the population residing in the geographies. Branch locations remained accessible to geographies and individuals of different income levels in the bank's AA.

Services, including where appropriate, business hours, do not vary in a way that inconveniences the AA, particularly low- and moderate-income geographies and/or individuals. Generally, branches are open Monday through Friday 8:30 am to 6:00 pm, and Saturday 9:00 am to 2:00 pm. A limited number of branches offer Sunday hours, often from 10:00 am to 2:00 pm. All retail banking services are available at all branches within the low- and moderate-income geographies.

## Community Development Services

The bank was a leader in providing CD services that are responsive to AA needs. The CD services positively affected the service test performance.

Bank employees provided their financial or job-specific expertise and/or technical assistance for 6,100 CD services to 130 organizations since the last evaluation. This is a total of 34,300 hours over a sixyear period. A substantial amount of the bank's assistance was to organizations that provide services to low- and moderate-income individuals and families. The CD services provided were responsive to the needs identified in the community, particularly financial literacy training:

- A bank employee facilitated financial literacy workshops for over 300 low- and moderate-income individuals. These workshops were often performed in coordination with a nonprofit organization that served the low- and moderate-income community. The education helped equip participants with the knowledge and skills necessary to make good financial decisions and become self-sufficient.
- Five bank employees provided training to low- and moderate-income individuals, through service to a nonprofit organization dedicated to educating students in grades K-12 about entrepreneurship, work readiness, and financial literacy through the experiential, hands-on program.

# Multistate Metropolitan Statistical Area Rating 

## Philadelphia-Reading-Camden, PA-NJ-DE MMSA (Philadelphia MMSA)

CRA rating for the Philadelphia MMSA ${ }^{\text {3 }}$ : Outstanding

The Lending Test is rated: High Satisfactory
The Investment Test is rated: Outstanding
The Service Test is rated: Outstanding
The major factors that support this rating include:

- An excellent level of lending activity.
- A good geographic distribution of home mortgage loans and small loans to businesses.
- A good borrower distribution of home mortgage loans and small loans to businesses.
- Leadership in CD lending that had a significantly positive affect on the rating.
- The extensive use of flexible loan products, that positively affected the rating.
- An excellent level of qualified CD investments that demonstrated excellent responsiveness to credit and community economic development needs.
- The extensive use of innovative and/or complex investments.
- Retail service delivery systems that are readily accessible to geographies and individuals of different income levels in the bank's AA.
- Leadership in providing CD services that are responsive to AA needs.

## Description of Institution's Operations in Philadelphia MMSA

The Philadelphia MMSA is Chase's $28^{\text {th }}$ largest rating area based on its deposits of $\$ 198.4$ million, representing less than one percent of the bank's total deposits. As of December 31, 2019, the bank operated 14 branches and 80 deposit-taking ATMs within the rating area, representing 0.2 percent of total branches and 0.4 percent of total ATMs. The bank originated and purchased approximately $\$ 1.1$ billion in loans or 0.2 percent of total bank loan originations and purchases during the evaluation period in the MMSA.

According to the FDIC Deposit Market Share Data, as of June 30, 2019, there were 109 banks s operating 1,631 branches in the area. Chase ranked $55^{\text {th }}$ with a 0.05 percent market share. Capital One, N.A. had the largest deposit market share with 29.9 percent followed by TD Bank, N.A. ( 26.5 percent), and Wells Fargo Bank, N.A. (6.7 percent).

Chase's AA is comprised of geographies in Delaware, New Jersey, and Pennsylvania and contains a substantial portion of the MDs within Philadelphia-Camden-Wilmington MSA. Refer to appendix A for a complete listing of counties included in the AA.

[^100]
## Description of Full-Scope AA

The following table provides a summary of the demographics that includes housing and business information for the Philadelphia MMSA. Table A indicates that approximately 22.2 percent of families in the AA are low-income. The Philadelphia MMSA's cost of housing is generally affordable for some low-income and most moderate-income borrowers. The median housing value in the Philadelphia MMSA ranges from 2.4 to 4.3 times the median income across the MMSA, 3.7 times the average moderate-income, and approximately six times the average low-income, indicating OOUs are not affordable to some low-income borrowers. One simplistic method used to determine housing affordability assumes a maximum monthly principal and interest payment of no more than 36 percent of the applicant's income.

In the Philadelphia MMSA, assuming a 30-year mortgage with a 5 percent interest rate, 3.0 percent down payment, and not accounting for homeowners insurance, real estate taxes, or any additional monthly expenses, a low-income borrower making \$40,524 per year (or less than 50 percent of the FFIEC adjusted median family income in the MMSA) could afford a $\$ 193,166$ mortgage with a payment of $\$ 1,216$ per month; a moderate-income borrower earning $\$ 64,838$ per year (or less than 80 percent of the FFIEC adjusted median family income in the AA) could afford a $\$ 309,055$ mortgage with a payment of $\$ 1,945$ per month.

## Economic Data

According to the November 2019 Moody's Analytics report, the area economy is strong. The area has world-class educational institutions and is a center for healthcare and medical research. Growth in total employment is in the top 10 among metro areas in the Northeast and firmly outpaces the national average. The unemployment rate has been historically low for the area due to an expanding labor force. The housing market is also making inroads. After a brief slowdown in 2018, homebuilding picked up in the first three quarters of 2019, and house price appreciation outpaced the Pennsylvania and U.S. averages. Major employment industries include college, universities and professional schools, and federal government. Top employers include University of Pennsylvania Health System, Thomas Jefferson University, Comcast, Drexel University and Aramark, Corp. Collectively, the federal, state, and local government is a significant employer in the area. The area has a relatively low population growth. Prohibitive business taxes push firms out of the area. The 2018 poverty levels across the AA are the greatest in the Philadelphia, PA MD at 20.4 percent compared to the national average of 13.1 percent. This had an impact on meeting basic financial needs and home mortgage lending.

## Community Contacts

A review was conducted of five community contacts completed during the examination period. The contacts were conducted with organizations located throughout the rating area. The mission of the organizations contacted focused on affordable housing, economic development, and community services. Contacts noted concerns regarding foreclosures and negative equity, low-income wage earners being able to earn a living wage, aging housing stock, rent burden, poverty levels, and access to credit for small business. The contacts identified the following needs in the area:

- Affordable housing and commercial rehabilitation and preservation
- Foreclosure prevention
- Financing for small businesses including micro-loans for small business working capital
- Small dollar loans
- Financial literacy
- Technical assistance for small business
- Workforce housing
- Branches in low- to moderate-income neighborhoods

## Scope of Evaluation in the Philadelphia MMSA

The rating for the Philadelphia MMSA is based on a full-scope evaluation. Since the bank did not enter the Philadelphia MMSA until December 2018, there was less than one month of performance to evaluate for 2018, which would not provide meaningful conclusions. Therefore, the evaluation for the Philadelphia MMSA includes only 2019 performance.

## CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS IN PHILADELPHIA MMSA

## LENDING TEST

The bank's performance under the Lending Test in the Philadelphia MMSA is rated High Satisfactory.

Based on a full-scope review, the bank's performance in the Philadelphia MMSA is good. Aggregate lending data for 2019 was not available at the time this evaluation was completed and was not used in the lending test analysis for the Philadelphia MMSA.

## Lending Activity

Lending levels reflect excellent responsiveness to credit needs in the AA.
Examiners considered the number and dollar amount of home mortgage, small business, and small farm loans originated or purchased relative to Chase's capacity based on deposits, competition, and market presence. Lending activity for home mortgage and small loans to businesses received the most weight in reaching conclusions. Respectively, home mortgage lending and small loans to businesses account for 20.8 percent and 78.8 percent of the loan volume in the MMSA by number and 84.2 and 13.9 percent of loan volume by dollar. Small farm lending is not a strategic focus of the bank and received minimal weight in reaching conclusions. Farm loans represented 0.3 percent of the loan volume in the MMSA by number and 0.05 percent loan volume by dollar.

| Number of Loans |  |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | Home <br> Mortgage | Small <br> Business | Small <br> Farm | Community <br> Development | Total |  |
| Philadelphia MMSA | 3,081 | 11,659 | 53 | 2 | 14,795 |  |

| Dollar Volume of Loans (\$000's) |  |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | Home Mortgage | Small <br> Business | Small Farm | Community <br> Development | Total |  |
| Philadelphia MMSA | 909,346 | 150,631 | 513 | 18,995 | $1,079,485$ |  |

As of June 30, 2019, Chase ranked 55th in deposits out of 109 institutions with 0.05 percent market share.

In overall home mortgage lending, Chase ranked ninth out of 796 lenders with 2.1 percent market share. The top three lenders in the market are Wells Fargo Bank, N.A. (10.1 percent), PNC Bank, N.A. (3.3 percent), Citizens Bank of PA (3.1) and Quicken Loans, Inc. (3.1 percent).

In small loans to businesses, Chase ranked second out of 219 lenders with a 9.7 percent market share. Other major lenders are American Express National Bank (24.3 percent), Wells Fargo Bank, N.A. (7.4 percent), and Citibank, N.A. (7.0 percent).

In small loans to farms, Chase ranked second out of 31 lenders with a 17.7 percent market share. The other major lenders in the market are Branch Banking and Trust Co. (20.2 percent), John Deere Financial, F.S.B. (11.3 percent), and U.S. Bank, N.A. (7.9 percent).

## Distribution of Loans by Income Level of the Geography

The bank exhibits good geographic distribution of loans in its AA.

## Home Mortgage Loans

Refer to Table O in the Multi State Philadelphia section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of home mortgage loan originations and purchases for this evaluation is good. The following information was taken into consideration when determining this rating.

- The limited proportion of housing units in low-income geographies, particularly OOUs (3.9 percent), constrained lending opportunities; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of OOUs in those geographies.
- The high level of competition in the AA, with 796 home mortgage lenders, was also considered.
- During 2019, the proportion of loans in low-income areas was well below the percentage of owneroccupied units, while in moderate-income areas the proportion of loans exceeded the percentage of owner-occupied units.

## Small Loans to Businesses

Refer to Table Q in the Multi State Philadelphia section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to businesses.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to businesses for this evaluation is adequate. The following information was taken into consideration when determining this rating.

- The smaller proportion of businesses in low-income geographies (4.0 percent) and competition between 219 lenders constrained lending opportunities to existing businesses. Therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of businesses in those geographies.
- During 2019, the proportion of small loans to businesses in low-income geographies was well below the proportion of businesses, while the proportion of small loans to businesses in moderate-income geographies was below the proportion of businesses.

## Small Loans to Farms

Refer to Table S in the Multi State Philadelphia section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to farms.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to farms is good. The following information was taken into consideration when determining this rating.

- The limited number of farms in low-income geographies (1.6 percent) constrained lending opportunities; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher number of farms in those geographies.
- The fact that farm lending is not a focus of the bank was also considered.
- During 2019, the bank made no loans to small farms in low-income geographies. The proportion of loans to small farms in moderate-income geographies exceeded the proportion of farms in those geographies.

## Lending Gap Analysis

A review of home mortgage loans, small loans to business, and small loans to farms including summary reports and AA maps did not identify any unexplained conspicuous lending gaps in the bank's activities.

## Distribution of Loans by Income Level of the Borrower

The bank exhibits a good distribution of loans among individuals of different income levels and business of different sizes.

## Home Mortgage Loans

Refer to Table P in the Multi State Philadelphia section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall borrower distribution of home mortgage loan originations and purchases for this evaluation is good. The following information was taken into consideration when determining this rating.

- Examiners considered the competition and the economic constraints discussed above under the Description of this Full-Scope AA, particularly the cost of housing and level of poverty in portions of the MMSA.
- During 2019, the proportion of loans to low-income borrowers was well below the percentage of low-income families, while the proportion of loans to moderate-income borrowers exceeded the proportion of moderate-income families.

## Small Loans to Businesses

Refer to Table R in the Multi State Philadelphia section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's originations and purchases of small loans to businesses.

Based on the data in the tables and the following factors, the distribution of the bank's originations and purchases of small loans to businesses by revenue category is adequate. The following information was taken into consideration when determining this rating.

- During 2019, the proportion of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of small businesses located in the AA.

## Small Loans to Farms

Refer to Table T in the Multi State Philadelphia section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's origination and purchase of small loans to farms.

Based on the data in the table and the following considerations, the distribution of the bank's originations and purchases of small loans to farms by revenue category is good. The following information was taken into consideration when determining this rating.

- The fact that farm lending is not a focus of the bank was considered.
- During 2019, the bank's percentage of loans to farms with revenues of $\$ 1$ million or less was near to the percentage of farms.

## Community Development Lending

The bank is a leader in CD lending.
The Lending Activity Tables, shown above, set forth the information and data used to evaluate the bank's level of CD lending. These tables include all CD loans, including multifamily loans that also qualify as CD loans.

There were two CD loans made for a total of $\$ 19.0$ million. This represents 74.4 percent of tier 1 capital. Eighty-four percent supported revitalization/stabilization and 16 percent supported affordable housing.

The following two CD loans were made in the AA:

- In March 2019, Chase originated a $\$ 13.0$ million bridge loan for the purposes of revitalizing a community in Camden, NJ. The purpose was to facilitate the NMTC financing for the construction of a new manufacturing facility in a low-income census tract of Camden, NJ. The project is part of three city plans (Future Camden Master Plan, Comprehensive Revitalization Plan and General Reexamination of the Master Plan) to revitalize the area. It will help redevelop 31 acres of a former brownfield into four buildings in an underutilized area. The opening of the manufacturing facility will result in the creation of 210 jobs.
- In November 2019, Chase originated a $\$ 3.0$ million term loan to an apartment complex in Philadelphia, PA. The building has 55 units for LMI individuals and families. The Philadelphia Housing Authority Department sponsored the project.

## Product Innovation and Flexibility

The bank makes extensive use of innovative and/or flexible lending practices in order to serve AA credit needs. As shown in the table below, the bank originated 1,486 loans totaling nearly $\$ 255.2$ million in the AA. Refer to the comments in the Product Innovation and Flexibility section of this performance evaluation for additional details regarding the programs.

| Loan Type | Number of <br> Loans | Dollar Amount <br> $\mathbf{( \$ 0 0 0 ' s )}$ |
| :--- | :---: | :---: |
| DreaMaker | 592 | 116,142 |
| FHA | 548 | 79,269 |
| HARP | 201 | 26,093 |
| VA | 107 | 23,697 |
| SBA | 9 | 4,556 |
| USDA | 29 | 5,435 |

## INVESTMENT TEST

The bank's performance under the Investment Test in Philadelphia MMSA is rated Outstanding.
Based on a full-scope review, the bank's performance in the Philadelphia MMSA is excellent.
The bank has an excellent level of qualified CD investments and grants, occasionally in a leadership position, particularly those that are not routinely provided by private investors. Current and prior period investments represent 94.1 percent of tier 1 capital allocated to the AA. Bank operations commenced in the AA December 2018.

The bank exhibits excellent responsiveness to credit and community economic development needs identified in the AA including affordable housing and affordable rental housing, community service, and economic development. Current period dollar investments were 74.7 percent revitalization/stabilization, 12.9 percent community service, and 12.4 percent affordable housing. Current period affordable housing investments created 293 low- and moderate-income housing units for individuals and families. The bank provided 67 grants totaling $\$ 10.9$ million to a variety of community organizations, primarily revitalization/stabilization and community service.

The bank makes extensive use of innovative and/or complex investments to support CD initiatives. Current period complex dollar investments represent 54.4 percent or $\$ 13.1$ million of investments and included two NMTC transactions totaling $\$ 10.6$ million. Twelve or 74.7 percent of investment dollars are catalysts for future growth and other improvements.

| Qualified Investments - Philadelphia-Reading-Camden PA-NJ-DE MD CSA |  |  |  |  |  |  |  |  |  |  |

| Statewide Investments with No Purpose, Mandate, or Function ( $\mathrm{P} / \mathrm{M} / \mathrm{F}$ ) to Serve AAs | 41 | 6,607 | 10 | 23,565 | 51 | 10.5 | 30,172 | 1.5 | 0 | 0 |

Prior Period Investments' means investments made in a previous evaluation period that are outstanding as of the examination date.
** Unfunded Commitments' means legally binding investment commitments that are tracked and recorded by the institution's financial reporting system.

Examples of CD Investments in the AA include:

- In December 2019, the bank provided a $\$ 1.5$ million grant for a three-year investment to a collaborative aimed at promoting inclusive growth in three impoverished neighborhoods in Wilmington, (West, East and Northeast) Delaware. The collaborative will use the funds to support affordable housing development, small businesses, and community facilities, while addressing social determinants of health, including access to healthy foods, and health care facilities, through partnerships with the healthcare sector. The grant will build the capacity of community-based organizations to preserve or rehab over 100 affordable housing units; provide 48 small business loans totaling $\$ 1.0$ million; and develop community facilities that create assets and resources for the LMI community.
- In May 2019, the bank provided a $\$ 2.5$ million grant to an organization for PRO-N 2018 located in Philadelphia, PA. Along with CDFI partners, the organization will prioritize economic development and housing outcomes of the Kensington Avenue commercial corridor, all composed of low- and moderate-income tracts. Aligning with the Heart of Kensington Neighborhood Development Plan to build community capacity and wealth and protect long-term residents and businesses from displacement, the CDFIs will implement an equitable investment strategy and support affordable housing options on surrounding blocks.

CDFIs will also identify and cultivate local entrepreneurs, support existing and attract new businesses, finance redevelopment of small-scale and large-scale mixed-use properties to meet local needs, provide flexible capital tailored to business needs, deliver individualized coaching and technical assistance to businesses, and support pathways to homeownership and affordable rental housing options. The efforts will attract/retain 85 businesses, create/preserve 300 jobs, 115 residential units, 20 new homeowners, address 45 vacant/blighted properties, and drive $\$ 85.0$ million in additional public/private investments. This activity serves as a catalyst for other community development activities and is part of a local government plan for revitalization or stabilization

- In March 2019, the bank originated a $\$ 7.9$ million equity investment to construct a new manufacturing facility located in Camden NJ using NMTC and other capital sources. The Project is in a low-income census tract and part of three city plans to revitalize this area: Future Camden Master Plan, Comprehensive Revitalization Plan, and General Reexamination of the Master Plan and Master Plan Amendment.

Four buildings totaling approximately $379,000 \mathrm{SF}$ will be constructed on 31 acres. When the facility opens, it will create 210 permanent jobs. This development will revitalize an underutilized industrial area and eliminate a large, blighted fronting on a heavily trafficked corridor to the heart of Camden.

## Statewide Investments in Delaware and Pennsylvania

The bank has 250 current and prior period investments totaling $\$ 329.0$ million with and without a $\mathrm{P} / \mathrm{M} / \mathrm{F}$ to serve AAs in the states of Delaware and Pennsylvania. These CD investments primarily support affordable housing, community services and revitalization/stabilization. Qualified investments in the broader statewide areas represent 71.8 percent of total qualified investments. These investments support the bank's overall excellent performance in the Philadelphia MMSA.

## SERVICE TEST

The bank's performance under the Service Test in Philadelphia MMSA is rated Outstanding.
Based on a full-scope review, the bank's performance in the Philadelphia MMSA is excellent.

## Retail Banking Services

Service delivery systems are readily accessible to geographies and individuals of different income levels in the bank's AA.

Examiners evaluated the data as outlined in the Scope section at the front of this document including bank-provided data on usage of branches adjacent to low- and moderate-income geographies by individuals residing in those geographies and on increases in the usage of alternative delivery systems.

Based on the data in the table below and performance context, the branch distribution is good. In lowand moderate-income geographies, the distribution is respectively near to and exceeds the percentage of the population. The bank had one branch in a low-income geography and four branches in moderateincome geographies. The distribution was augmented by four MUI tract branches that serve moderateincome tracts. Examiners reviewed data on the accounts held and transactions conducted at the MUI branches and confirmed they were serving the adjacent low- and moderate-income populations.

| Distribution of Branch Delivery System |  |  |  |  |  |  |  | As of December 31, 2019 |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | Deposits <br> \% of Rated Area <br> Deposits in AA | Branches |  |  |  |  |  | Population |  |  |  |
|  |  | \# of <br> BANK <br> Branches | \% of <br> Rated <br> Area <br> Branches <br> in AA | Location of Branches by Income of Geographies (\%) |  |  |  | \% of Population within Each Geography |  |  |  |
|  |  |  |  | Low | Mod | Mid | Upper | Low | Mod | Mid | Upper |
| Philadelphia <br> -ReadingCamden, PA-NJ-DEMD CSA | 100 | 14 | 100 | 7.1 | 28.6 | 14.3 | 50.0 | 9.0 | 25.7 | 32.0 | 33.0 |

*May not add up to 100 percent due to geographies with unknown tract income level and rounding.
Alternative delivery systems did not significantly enhance the delivery of banking services to geographies and individuals of all income levels. The OCC considered the availability and use of alternative delivery systems over the evaluation period. This included review of the bank's 80 deposittaking ATMs, online banking, mobile banking, and telephone banking to determine the effectiveness of these systems to make retail banking services available to individuals in low- and moderate-income geographies. The bank had 3 (3.7 percent) deposit-taking ATMs in low-income geographies and 18 ( 22.5 percent) ATMs in moderate-income geographies. Bank-provided data on use of online, mobile, and telephone banking showed negligible change in the adoption of these services by low- and moderate-income individuals from the prior rating period.

| Distribution of Branch Openings/Closings |  |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | \# of Branch <br> Openings | \# of Branch <br> Closings | Net change in Location of Branches <br> $(+$ or -$)$ |  |  |  |
|  |  | Low | Mod | Mid | Upper |  |
| Philadelphia- <br> Reading-Camden, <br> PA-NJ-DE-MD <br> CSA | 14 | 0 | +1 | +4 | +2 | +7 |

The bank's opening and closing of branches has improved the accessibility of its delivery systems, particularly in low- and moderate-income geographies and/or to low- and moderate-income individuals. The bank did not close any branches in the low- and moderate-income geographies and opened one and four branches, respectively, in low- and moderate-income geographies.

Services, including where appropriate, business hours, do not vary in a way that inconveniences the various portions of its AA, particularly low- and moderate-income geographies and/or low- and moderate-income individuals. Generally, branches are open Monday through Friday from 9:00 am to 5:00 pm and Saturday from 9:00 am to 1:00 pm. All retail banking services are available within the low- and moderate-income branches.

## Community Development Services

The bank was a leader in providing CD services that are responsive to AA needs. The CD services positively affected the service test performance.

Bank employees provided 875 CD service activities consisting of technical assistance and/or jobspecific expertise to 41 organizations for a total of 5,666 hours of service, including 1,896 hours of board service over a three-year period. The bank's assistance was primarily to organizations that provide services to low- and moderate-income individuals and families. The CD services were responsive to the needs identified in the community, particularly affordable housing, and foreclosure prevention. The following are examples of CD services provided in this AA:

- A bank employee provided 98 hours of board service over a two-year period to a community organization that provides affordable housing construction and home renovation to low- and moderate-income families.
- Two bank employees provided 443 hours of board service during a three-year period to a community organization that provides homebuyer education, foreclosure prevention programs, training, education in personal finance management, self-employment, and work readiness to low- and moderate-income women and minorities.

# Multistate Metropolitan Statistical Area Rating 

## Washington-Arlington-Alexandria MMSA (DC MMSA)

CRA rating for the DC MMSA is Outstanding
The Lending Test is rated: Outstanding
The Investment Test is rated: Outstanding
The Service Test is rated: Outstanding
The major factors that support this rating include:

- An excellent level of lending activity.
- A good geographic distribution of home mortgage loans and small loans to businesses.
- A good borrower distribution of home mortgage loans and small loans to businesses.
- Leadership in CD lending, which had a significantly positive affect on the rating.
- The extensive use of flexible products, which positively affected the rating.
- An excellent level of qualified CD investments, that demonstrated excellent responsiveness to credit and community economic development needs.
- The extensive use of innovative and/or complex investments.
- Retail service delivery systems that are readily accessible to geographies and individuals of different income levels in the bank's AA.
- Leadership in providing CD services that are responsive to AA needs.

## Description of Institution's Operations in the DC MMSA

The DC MMSA is Chase's $27^{\text {th }}$ largest rating area based on its total deposits of $\$ 269.0$ million, representing less than one percent of the bank's total deposits. As of December 31, 2019, the bank operated 30 branches and 149 ATMs within the rating area, representing 0.6 percent of total branches and 0.9 percent of total ATMs. The bank originated and purchased approximately $\$ 4.0$ billion in loans or 0.6 percent of total bank loan originations and purchases during the evaluation period in the MMSA.

The bank initially entered the DC MMSA in September 2018 and further expanded its presence in April 2019. According to FDIC Deposit Market Share Data, as of June 30, 2019, there were 75 banks operating 1,491 branches in the MMSA. Chase ranked $39^{\text {th }}$ with a deposit market share of 0.1 percent. The top three banks and their deposit market share were E*TRADE Bank ( 15.6 percent), Bank of America, N.A. (14.6 percent), and Capital One, N.A. (13.9 percent). Both Bank of America, N.A. and Capital One, N.A. have substantially larger branch networks.

Chase's AA within the DC MMSA consists of geographies within the District of Columbia (DC), Maryland, and Virginia. Refer to appendix A for a complete list of the geographies.

## Description of Full-Scope AA

The following table provides a summary of the demographics that includes housing and business information for the DC MMSA. Table A indicates that approximately 22.0 percent of families in the AA are low-income. The MMSA is a high cost housing area, limiting access to affordable homeownership among LMI borrowers. The median housing value in the MMSA is $\$ 427,189$ while the

NAR 4Q2019 median sales price of a single-family home is $\$ 436,200$. One simplistic method used to determine housing affordability assumes a maximum monthly principal and interest payment of no more than 30 percent of the applicant's income.

Assuming a 30-year mortgage with a 5 percent interest rate, and not accounting for down payment, homeowners insurance, real estate taxes, or any additional monthly expenses, a low-income borrower making $\$ 58,327$ per year (or less than 50 percent of the FFIEC adjusted median family income in the AA) could afford a $\$ 210,405$ mortgage with a payment of $\$ 1,130$ per month; a moderate-income borrower earning \$93,322 per year (or less than 80 percent of the FFIEC adjusted median family income in the AA) could afford a $\$ 336,644$ mortgage with a payment of $\$ 1,807$ per month.

| Table A - Demographic Information of the Assessment Area |  |  |  |  |  |  |

(*) The NA category consists of geographies that have not been assigned an income classification. $_{\text {a }}$

## Economic Data

According to the November 2019 Moody's Analytics report, the area economy is strong. The area has a high per capita income and educated workforce. The area is a major center for computer system design and tech-related professional services as well as a popular tourist destination. The labor market is strong and the pace of employment growth in the area is ahead of the U.S. average. Amazon has designated the area for its second headquarters location and the first employees have started work. Federal payrolls have stabilized in the past year after two years of declines. The unemployment rate has dropped to a
cycle low of 3.0 percent even as the labor force has continued to grow. Major employment industries include professional and business services, government, and education and health services. Collectively, the federal, state, and local government is a significant employer in the area. Other major employers include Naval Support Activity Washington, Joint Base Andrews-Naval Facility, MedStar Health, Marriott International, Inc. and Inova Health System. The area does have above average living costs and high business costs. In terms of housing, lean inventories and improvement in sales will continue to put upward pressure on house prices at the expense of affordability.

## Community Contacts

A review was conducted of six community contacts completed during the examination period. The contacts were conducted with organizations located throughout the rating area. The mission of the organizations contacted focused on several areas including affordable housing, economic development, community services, as well as asset development and financial stability. Contacts noted concerns regarding housing affordability and access to affordable housing. Low-income individuals and households are being pushed out of communities as more affluent individuals move in causing home prices to increase dramatically. Despite the growing economic prosperity in the area most low-income residents are being left behind. The contacts identified the following needs in the area:

- Affordable housing development and preservation
- Financing for small businesses
- Workforce development and job training programs to help individuals obtain living wage jobs
- Employment readiness for youth and youth programming
- Support for non-English speakers
- Asset development for low- and moderate-income households
- Access to healthy foods and health services
- Access to traditional financial services

## Scope of Evaluation in DC MMSA

The DC MMSA received a full-scope review. Since the bank did not enter the DC MMSA until September 2018, there was less than three months of performance to evaluate for 2018, which would not provide meaningful conclusions. Therefore, the evaluation for the DC MMSA includes only 2019 performance.

## CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS IN DC MMSA

## LENDING TEST

The bank's performance under the Lending Test in the DC MMSA is rated Outstanding.
Based on a full-scope review, the bank's performance in the DC MMSA is excellent. Aggregate lending data for 2019 was not available at the time this evaluation was completed and was not used in the lending test analysis for the DC MMSA.

## Lending Activity

Lending levels reflect excellent responsiveness to credit needs in the AA.

Examiners considered the number and dollar amount of home mortgage, small business, and small farm loans originated or purchased relative to Chase's capacity based on deposits, competition, and market presence. Lending activity for home mortgage and small loans to businesses received the most weight in reaching conclusions. Respectively, home mortgage lending and small loans to businesses account for 17.0 percent and 82.6 percent of the loan volume in the MMSA by number and 83.9 and 9.2 percent of loan volume by dollar. Small farm lending is not a strategic focus of the bank and received minimal weight in reaching conclusions. Farm loans represented 0.3 percent of the loan volume in the MMSA by number and 0.03 percent loan volume by dollar.

| Number of Loans |  |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | Home <br> Mortgage | Small <br> Business | Small Farm | Community <br> Development | Total |  |
| DC MMSA | 6,016 | 29,268 | 130 | 30 | 35,444 |  |

| Dollar Volume of Loans (\$000's) |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | Home <br> Mortgage | Small <br> Business | Small Farm | Community <br> Development | Total |
| DC MMSA | $3,343,722$ | 366,352 | 1,252 | 274,392 | $3,985,718$ |

As of June 30, 2019, Chase ranked 39th in deposits out of 75 institutions with 0.1 percent market share.
In overall home mortgage lending, Chase's rank and market share exceeded its deposit market share competing with 744 mortgage lenders. The top three lenders in the market are Wells Fargo Bank, N.A. (8.4 percent), Navy Federal Credit Union (4.0 percent), and Branch Banking and Trust Co. (3.20 percent).

In small loans to businesses, Chase ranked second out of 190 lenders with a 12.7 percent market share. Other major lenders are American Express National Bank (24.4 percent), Bank of America, N.A. (12.3 percent), and Branch Banking and Trust Co. (7.4 percent).

In small loans to farms, Chase ranked first out of 27 lenders with a 26.0 percent market share. The other major lenders in the market are John Deere Financial, F.S.B (20.5 percent), Wells Fargo Bank, N.A. (13.3 percent), and Bank of America, N.A. (11.6 percent).

## Distribution of Loans by Income Level of the Geography

The bank exhibits a good geographic distribution of loans in its AA.

## Home Mortgage Loans

Refer to Table O in the Multi State Washington section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of home mortgage loan originations and purchases for this evaluation is good. The following information was taken into consideration when determining this rating.

- The limited proportion of housing units in low-income geographies particularly OOUs (3.9 percent) as well as high competition constrained lending opportunities; therefore, performance in moderateincome geographies was given slightly more consideration due to the higher percentage of OOUs in those geographies.
- During 2019, the proportion of loans in low-income geographies exceeded the percentage of owneroccupied units, while in moderate-income areas the proportion of loans was below the percentage of owner-occupied units.

## Small Loans to Businesses

Refer to Table Q in the Multi State Washington section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to businesses.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to businesses for this evaluation is adequate. The following information was taken into consideration when determining this rating.

- The smaller proportion of businesses in low-income geographies (4.7 percent) and competition between 190 lenders constrained lending opportunities to existing businesses. Therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of businesses in those geographies.
- During 2019, the proportion of small loans to businesses in low- and moderate-income geographies was below the proportion of businesses.

## Small Loans to Farms

Refer to Table S in the Multi State Washington section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to farms.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to farms is poor. The following information was taken into consideration when determining this rating.

- The limited number of farms in low-income geographies (3.9 percent) constrained lending opportunities; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher number of farms in those geographies.
- The fact that farm lending is not a focus of the bank was also considered.
- During 2019, the bank made no loans to small farms in low-income geographies. The proportion of loans to small farms in moderate-income geographies was well below the proportion of farms in those geographies.

## Lending Gap Analysis

A review of home mortgage loans, small loans to business, and small loans to farms including summary reports and AA maps did not identify any unexplained conspicuous lending gaps in the bank's activities.

## Distribution of Loans by Income Level of the Borrower

The bank exhibits a good distribution of loans among individuals of different income levels and business of different sizes.

## Home Mortgage Loans

Refer to Table P in the Multi State Washington section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall borrower distribution of home mortgage loan originations and purchases for this evaluation is good. The following information was taken into consideration when determining this rating.

- Examiners considered the competition and the economic constraints discussed above under the Description of this Full-Scope AA, particularly, the cost of housing and level of poverty in portions of the MMSA.
- During 2019, the proportion of loans to low-income borrowers was well below the percentage of low-income families, while the proportion of loans to moderate-income borrowers exceeded the proportion of moderate-income families.

## Small Loans to Businesses

Refer to Table R in the Multi State Washington section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's originations and purchases of small loans to businesses.

Based on the data in the tables and the following factors, the distribution of the bank's originations and purchases of small loans to businesses by revenue category is good. The following information was taken into consideration when determining this rating.

- Examiners considered competition and the economic constraints discussed above under the Description of this Full-Scope AA.
- During 2019, the proportion of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of small businesses located in the AA.

## Small Loans to Farms

Refer to Table T in the Multi State Washington section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's origination and purchase of small loans to farms.

Based on the data in the table and the following considerations, the distribution of the bank's originations and purchases of small loans to farms by revenue category is good. The following information was taken into consideration when determining this rating.

- The fact that farm lending is not a focus of the bank was considered.
- During 2019, the bank's percentage of loans to farms with revenues of $\$ 1$ million or less was near to the percentage of farms.

## Community Development Lending

The bank is a leader in making CD loans.
The Lending Activity Tables, shown above, set forth the information and data used to evaluate the bank's level of CD lending. These tables include all CD loans, including multifamily loans that also qualify as CD loans.

There were 30 CD loans made for a total of $\$ 274.4$ million. This represents 792 percent of the tier 1 capital allocated to the AA. The funding focused on the area's revitalization, stabilization, and affordable housing, all of which are community needs.

Examples of CD loans in the AA include:

- In February 2019, Chase originated $\$ 21.1$ million loan to partially finance and redevelop an apartment complex in the Washington, DC. area. The complex has 13 buildings and 272 units for low- and moderate-income households.
- In October 2018, Chase funded a $\$ 115$ million loan for a mixed-use project in the low-income Brookland neighborhood of Washington, DC. The project meets the mission of the Brookland/CUA Metro station Small Area Plan which aims for growth, development, and revitalization of underutilized areas within a quarter mile (or 10 -minute walk) from the Brookland/CUA Metro Station. It consists of 562 apartment units, 46,000 square feet of retail space, and 27 artist studios. Brookland is known for high crime, 30 percent of residents living below the poverty line, and 51 percent of children living in poverty. This loan helped to revitalize and stabilize four out of the seven surrounding census tracts which are also low- and moderate-income areas. The project helped encourage additional investments to this underserved community so that the efforts in this and the surrounding neighborhoods continue.

## Product Innovation and Flexibility

The bank makes extensive use of innovative and/or flexible lending practices in order to serve AA credit needs. As shown in the table below, the bank originated 1,614 loans totaling nearly $\$ 480$ million in the AA. Refer to the comments in the Product Innovation and Flexibility section of this performance evaluation for additional details regarding the programs.

| Loan Type | Number of <br> Loans | Dollar Amount <br> $\mathbf{( \$ 0 0 0 ' s )}$ |
| :--- | :---: | :---: |
| DreaMaker | 760 | 247,357 |
| FHA | 302 | 79,237 |
| HARP | 306 | 52,916 |
| VA | 220 | 95,517 |
| SBA | 5 | 560 |
| USDA | 21 | 4,387 |

## INVESTMENT TEST

The bank's performance under the Investment Test in DC MMSA is Outstanding.
Based on a full-scope review, the bank's performance in the DC MMSA is excellent.
The bank has an excellent level of qualified CD investments and grants, often in a leadership position, particularly those that are not routinely provided by private investors. Investments represent 97.7 percent of tier 1 capital allocated to the AA. Bank operations commenced in the AA December 2018.

The bank exhibits excellent responsiveness to credit and community economic development needs, including affordable housing, community services, and economic and workforce development. Qualified investment allocations were 85.0 percent affordable housing, 5.5 percent community services, 5.0 percent economic and workforce development, and 4.5 percent revitalization/stabilization. Affordable housing investments created or retained 227 low- and moderate-income housing units for individuals and families. Twenty-nine grants totaling $\$ 5.7$ million were provided to a variety of organizations primarily supporting community services, economic development, and revitalization/stabilization.

The bank makes extensive use of innovative and/or complex investments to support CD initiatives. Five complex investments totaled $\$ 28.8$ million and included one Direct Investor LIHTC transaction and one innovative investment structure. The LIHTC transaction requires bank expertise and capacity in selecting projects and partners, negotiating agreements, overseeing project development and operations, and ensuring compliance. An $\$ 1.5$ million grant was a catalyst for future growth and other improvements under a local government plan.

## Number and Amount of Qualified Investments

| Qualified Investments - Washington-Baltimore-Arlington, DC-MD-VA-WV-PA CSA |  |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area (AA) | Prior Period* |  | Current Period |  | Total |  |  |  | UnfundedCommitments** |  |
|  | \# | \$(000's) | \# | \$(000's) | \# | \% of <br> Total \# | \$(000's) | \% of <br> Total \$ | \# | \$(000's) |
| DC MMSA | 0 | 0 | 31 | 33,838 | 31 | 22.5 | 33,838 | 17.0 | 0 | 0 |
| Other: |  |  |  |  |  |  |  |  |  |  |
| Statewide Investments with Purpose, Mandate, or Function ( $\mathrm{P} / \mathrm{M} / \mathrm{F}$ ) to Serve AAs | 31 | 25,933 | 37 | 128,580 | 68 | 49.3 | 154,513 | 77.6 | 0 | 0 |
| Statewide Investments with No Purpose, Mandate, or Function (P/M/F) to Serve AAs | 26 | 9,531 | 13 | 1,255 | 39 | 28.2 | 10,786 | 5.4 | 0 | 0 |

Examples of CD Investments in AA include:

- In June 2019, the bank provided a $\$ 1.0$ million grant (first installment of $\$ 3.3$ million) to a CDFI based in Arlington VA for its program in the Washington DC Metro Region. Funding will be used to implement a program targeting diverse low- and moderate-income entrepreneurs with revenues of
$\$ 1$ million or less in Washington DC area and the nearby suburbs in Maryland and Virginia. The program is a partnership between three CDFIs. The three-year program will provide loan capital to entrepreneurs with a focus on the footprint of participating CDFIs.
- In April 2019, the bank invested $\$ 10.0$ million in 501(c)(3) bonds used to finance a portion of cost acquisition and improvement of mixed-income affordable workforce housing rental projects by nonprofit entities in the Washington DC region. The subject property is a qualified low-income building. Fifty-one percent of capital commitments were allocated for affordable housing projects where at least 51.0 percent of residential units are reserved for households earning less than 80 percent AMI. Households meeting this requirement will pay rents that are no more than 30 percent of 80 percent AMI. Local non-profit developers in the DC region viewed the investment structure as an innovative solution to a housing affordability requirement that is typically only extended for 15 years.
- In December 2018, the bank provided an $\$ 18.1$ million Low Income Housing Tax Credit (LIHTC) investment for a new construction family property located in Triangle, VA. The project consists of 227 LIHTC units restricted at 60.0 percent AMI. A nonprofit community development corporation that serves the needs of low-income individuals and families is the developer and will also provide resident services to the tenants.

## Statewide Investments in Maryland

The bank has 107 current and prior period investments totaling $\$ 165.2$ million with and without a $\mathrm{P} / \mathrm{M} / \mathrm{F}$ to serve AAs in the state of Maryland. These CD investments primarily support affordable housing and community services, with revitalization/stabilization and economic development to a lesser extent. Qualified investments in the broader statewide or regional area represent 83.0 percent of total qualified investments in and surrounding the Washington-Baltimore-Arlington broader regional area. The bank was investing in this broader area before its official CRA entry into the market with the opening of branch locations. These investments support the bank's overall excellent performance in the DC MMSA.

## SERVICE TEST

The bank's performance under the Service Test in the DC MMSA is rated Outstanding.
Based on a full-scope review, the bank's performance in the DC- MMSA is excellent.

## Retail Banking Services

Service delivery systems are readily accessible to geographies and individuals of different income levels in the bank's AA.

Examiners evaluated the data as outlined in the Scope section at the front of this document including bank-provided data on usage of branches adjacent to low-and moderate-income geographies by individuals residing in those geographies and on increases in the usage of alternative delivery systems.

Based on the data in the table below and performance context, the branch distribution is excellent. In low- and moderate-income geographies, the distribution respectively exceeds and is near to the percentage of the population. The bank had four branches in the low-income geographies and five
branches in moderate-income geographies. The distribution was augmented by one MUI tract branch that served moderate-income tracts. Examiners reviewed data on the accounts held and transactions conducted at the MUI branch and confirmed it serves the adjacent moderate-income population.

| Distribution of Branch Delivery System |  |  |  |  |  |  |  | As of December 31, 2019 |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | Deposits Area Deposits in AA | \# of <br> BANK <br> Branches | Branches |  |  |  |  | Population |  |  |  |
|  |  |  | \% of Rated | Location of Branches by Income of Geographies (\%) |  |  |  | \% of Population within Each Geography |  |  |  |
|  |  |  | Branches in AA | Low | Mod | Mid | Upp | Low | Mod | Mid | Upp |
| $\begin{aligned} & , \mathrm{DC} \\ & \mathrm{MMSA} \end{aligned}$ | 100 | 30 | 100 | 13.3 | 16.7 | 16.7 | 53.3 | 10.9 | 20.9 | 33.9 | 33.8 |

* May not add up to 100 percent due to geographies with unknown tract income level and rounding

Alternative delivery systems had a neutral effect on the delivery of banking services to geographies and individuals of all income levels. The OCC considered the availability and use of alternative delivery systems over the evaluation period. This included review of the 149 deposit-taking ATMs, online banking, mobile banking, and telephone banking to determine the effectiveness of these systems to make retail banking services available to individuals in low- and moderate-income geographies. The bank had 13 (8.7 percent) deposit-taking ATMs in low-income geographies and 28 ( 18.8 percent) ATMs in moderate-income geographies. This is a new rating area and bank-provided data demonstrates customer adoption of online, mobile, and telephone banking delivery systems.

| Distribution of Branch Openings/Closings |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | \# of Branch Openings | \# of Branch Closings | Net change in Location of Branches (+ or -) |  |  |  |
|  |  |  | Low | Mod | Mid | Upp |
| DC MMSA | 30 | 0 | +4 | +5 | +5 | +16 |

The bank's opening of branches improved the accessibility of its delivery systems, particularly in lowand moderate-income geographies and/or to low- and moderate-income individuals. The bank entered this AA in 2019, closing no branches and opening 30 branches, four of which are in low-income geographies and five are in moderate-income geographies.

Services, including where appropriate, business hours, do not vary in a way that inconveniences the various portions of the AA, particularly low- and moderate-income geographies and/or individuals. Generally, branches are open Monday through Friday from 9:00 am to 6:00 pm and Saturday from 9:00 am to $1: 00 \mathrm{pm}$. All retail banking services are available at all branches within the low- and moderateincome geographies.

## Community Development Services

The bank was a leader in providing CD services that are responsive to AA needs. The level and responsiveness of CD services positively affected the service test performance.

Bank records show that employees provided technical assistance and/or job-specific expertise for 573 CD service activities to 35 organizations for a total of 3,580 qualified hours of service within the AA, including 178 hours of board service over 16 months. Much of the bank's assistance was to organizations that provide community services to low- and moderate-income individuals and families. The activities were responsive to AA needs, particularly affordable housing. The following are examples of CD services provided in the AA:

- A bank employee provided 40 hours of board service to a community development organization that provides private financing for affordable housing and neighborhood revitalization.
- Five bank employees provided 230 hours of technical expertise to a non-profit organization that provides low-cost, short-term financing to non-profits, for-profits, and government entities engaged in developing affordable housing for low-income individuals.
- Four bank employees provided 600 hours of technical assistance to a nonprofit community development fund that provides capital financing to low- and moderate-income entrepreneurs.

# Multistate Metropolitan Statistical Area Rating 

## Portland-Vancouver-Salem, Oregon-Washington CSA (Portland CSA)

CRA rating for the Portland CSA ${ }^{4}$ : Outstanding<br>The Lending Test is rated: Outstanding<br>The Investment Test is rated: Outstanding<br>The Service Test is rated: Outstanding

The major factors that support this rating include:

- An excellent level of lending activity.
- An excellent geographic distribution of home mortgage loans and small loans to businesses.
- A good borrower distribution of home mortgage loans and small loans to businesses.
- Leadership in CD lending, which significantly positively affected the rating.
- The extensive use of flexible products, which positively affected the rating.
- An excellent level of qualified CD investments that displayed excellent responsiveness to community economic development needs.
- Retail service delivery systems that are readily accessible to geographies and individuals of different income levels in the bank's AA.
- Leadership in providing CD services that are responsive to AA needs.

## Description of Institution's Operations in Portland CSA

The Portland CSA is Chase's $15^{\text {th }}$ largest rating area based on its total deposits of $\$ 7.0$ billion, representing 0.5 percent of the bank's total deposits. As of December 31, 2019, the bank operated 92 branches and 160 ATMs in the rating area, representing 1.8 percent of total branches and 0.9 percent of total ATMs. The bank originated and purchased approximately $\$ 10.6$ billion in loans or 1.5 percent of total bank loan originations and purchases during the evaluation period in the CSA.

According to FDIC Deposit Market Share data as of June 30, 2019, there were 36 banks s operating 635 branches in the rating area. Chase ranked fourth with deposit market share of 11.4 percent. The top three banks and their deposit market share were U.S. Bank, N.A. (21 percent), Bank of America, N.A. (17.6 percent), and Wells Fargo Bank, N.A. with 16.3 percent.

Chase's AA consists of geographies in the states of Oregon and Washington. Refer to appendix A for a complete listing of the counties included in the AA.

## Description of Full-Scope AA

The following table provides a summary of the demographics that includes housing and business information for the Portland CSA. Table A indicates that approximately 21.4 percent of families in the AA are low-income. The Portland CSA's cost of housing generally makes homeownership difficult for many LMI borrowers. The median housing value across the Portland CSA ranges from three to five

[^101]times the median income, three times the moderate-income, and approximately four times the lowincome, indicating OOUs are not affordable to some moderate- and most low-income borrowers. One simplistic method used to determine housing affordability assumes a maximum monthly principal and interest payment of no more than 36 percent of the applicant's income.

In the Portland CSA, assuming a 30-year mortgage with a 5 percent interest rate, 3.0 percent down payment, and not accounting for homeowners insurance, real estate taxes, or any additional monthly expenses, a low-income borrower making $\$ 32,074$ per year (or less than 50 percent of the FFIEC adjusted median family income in the MMSA) could afford a $\$ 152,897$ mortgage with a payment of $\$ 962$ per month; a moderate-income borrower earning $\$ 51,318$ per year (or less than 80 percent of the FFIEC adjusted median family income in the AA) could afford a $\$ 244,647$ mortgage with a payment of $\$ 1,540$ per month.

## Economic Data

According to Moody's Analytics November 2019 report, the economy in the Portland region is improving. Job growth has picked up and the jobless rate is near a three-decade low which is pressuring employers to raise wages. The area has a diversified economy; highly educated and skilled workforce; and above average incomes. Employment in professional, scientific, and technical services is growing, driven by an active start-up culture and expansion at existing firms. Major employment industries include business and professional services; education and health services; and government. Major employers in the area include Intel, Providence Health Systems, Oregon Health and Science University, Legacy Health System, and Nike. Higher pay and lower mortgage rates are bolstering residential real estate. Home sales are at a one-year high and housing starts have picked up recently, with gains in single- and multifamily building.

## Community Contacts

Four community contacts and community needs assessments completed during the examination period were reviewed. The organizations contacted focused on areas including affordable housing, small business assistance, community services, and community and non-profit support. Contacts noted that there is insufficient affordable housing in the region due in part to a construction industry that does not have the capacity to meet the housing demand. Contacts also noted that many employers have difficulty finding qualified workers with the needed education and experience to fill vacant job positions. Workforce development programs are needed to assist low-income individuals in developing the skills necessary to access higher paying jobs. Other identified needs in the area include:

- Down payment assistance programs for first time homebuyers
- Small business loans for start-ups and recently established businesses
- Increase the supply of affordable housing

## Scope of Evaluation in Portland-Vancouver-Salem, OR-WA CSA

The Portland CSA received a full-scope review.

## CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS IN PORTLAND CSA

## LENDING TEST

The bank's performance under the Lending Test in the Portland CSA is rated Outstanding.
Based on a full-scope review, the bank's performance in the Portland CSA is excellent.

## Lending Activity

Lending levels reflect excellent responsiveness to credit needs in the AA.
Examiners considered the number and dollar amount of home mortgage, small business, and small farm loans originated or purchased relative to Chase's capacity based on deposits, competition, and market presence. Lending activity for home mortgage and small loans to businesses received the most weight in reaching conclusions. Respectively, home mortgage lending and small loans to businesses account for 32.9 percent and 65.8 percent of the loan volume in the MMSA by number and 86.4 percent and 8.5
percent of loan volume by dollar. Small farm lending is not a strategic focus of the bank and received minimal weight in reaching conclusions. Farm loans represented 1.0 percent of the loan volume in the MMSA by number and 0.09 percent loan volume by dollar.

| Number of Loans |  |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | Home Mortgage | Small <br> Business | Small Farm | Community <br> Development | Total |  |
| Portland CSA | 25,878 | 51,757 | 841 | 178 | 78,654 |  |

| Dollar Volume of Loans (\$000's) |  |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | Home <br> Mortgage | Small <br> Business | Small Farm | Community <br> Development | Total |  |
| Portland CSA | $9,145,893$ | 898,337 | 9,749 | 527,275 | $10,581,254$ |  |

As of June 30, 2019, Chase ranked fourth in deposits out of 36 institutions with 11.4 percent market share.

In overall home mortgage lending, Chase ranked fourth with 3.8 percent market share. The top three lenders in the market are Wells Fargo Bank, N.A. (6.8 percent), U.S. Bank, N.A. (5.1 percent), OnPoint Service Group, LLC (4.1 percent), and Umpqua Bank (3.7 percent).

In small loans to businesses, Chase ranked first out of 156 lenders with a 16.8 percent market share. Other major lenders are U.S. Bank, N.A. (16.1 percent), American Express National Bank (12.3 percent), and Bank of America, N.A. (10.9 percent).

In small loans to farms, Chase ranked second out of 29 lenders with a 17.5 percent market share. The other major lenders in the market are U.S. Bank, N.A. (24.3 percent), Wells Fargo Bank, N.A. (14.9 percent), Columbia State Bank (11.6 percent), and John Deere Financial, F.S.B (10.3 percent).

## Distribution of Loans by Income Level of the Geography

The bank exhibits an excellent geographic distribution of loans in its AA.

## Home Mortgage Loans

Refer to Table O in the Multi State Portland section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of home mortgage loan originations and purchases for this evaluation is excellent. The following information was taken into consideration when determining this rating.

- Between 2017 and 2019, the proportion of loans in LMI areas exceeded the percentage of owneroccupied units and was near to the aggregate distribution of loans.
- During 2014 through 2016, performance in low-income geographies exceeded the percentage of owner-occupied units and the aggregate distribution of loans, while performance in moderateincome geographies was near to the percentage of owner-occupied units and the aggregate distribution of loans.

## Small Loans to Businesses

Refer to Table Q in the Multi State Portland section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to businesses.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to businesses for this evaluation is good. The following information was taken into consideration when determining this rating.

- The smaller proportion of businesses in low-income geographies (3.1 percent) and competition between 156 lenders constrained lending opportunities to existing businesses. Therefore, performance in moderate-income geographies and against the aggregate distribution of all lenders was given slightly more consideration.
- Between 2017 and 2019, the proportion of small loans to businesses in low-income geographies was below the proportion of businesses and the aggregate distribution, while the proportion of small loans to businesses in moderate-income geographies was near to the proportion of businesses and the aggregate distribution.
- During 2014 to 2016, the proportion of small loans to businesses in low-income geographies was below the proportion of businesses and exceeded the aggregate distribution, while the proportion of small loans to businesses in moderate-income geographies was near to the proportion of businesses and met the aggregate distribution.

## Small Loans to Farms

Refer to Table S in the Multi State Portland section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to farms.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to farms is good. The following information was taken into consideration when determining this rating.

- The limited number of farms in low-income geographies (2.6 percent) constrained lending opportunities and that farm lending is not a focus of the bank was considered.
- Between 2017 and 2019, the proportion of loans to small farms in low-income geographies met the proportion of farms in those geographies and significantly exceeded the aggregate distribution of all lenders. The proportion of loans in moderate-income geographies was well below the proportion of farms in those geographies and met the aggregate distribution of all lenders.
- During the 2014 to 2016 period, the bank made no loans to small farms in low-income geographies. The proportion of loans to small farms in moderate-income geographies was below the proportion of farms in those geographies and exceeded the aggregate distribution of all lenders.

## Lending Gap Analysis

A review of home mortgage loans, small loans to business, and small loans to farms including summary reports and AA maps did not identify any unexplained conspicuous lending gaps in the bank's activities.

## Distribution of Loans by Income Level of the Borrower

The bank exhibits a good distribution of loans among individuals of different income levels and business of different sizes.

## Home Mortgage Loans

Refer to Table P in the Multi State Portland section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall borrower distribution of home mortgage loan originations and purchases for this evaluation is good. The following information was taken into consideration when determining this rating.

- Examiners considered the competition and the economic constraints discussed above under the Description of this Full-Scope AA, particularly, the cost of housing and level of poverty in portions of the MMSA. Higher consideration was given to performance against the aggregate of all lenders.
- Between 2017 and 2019, the proportion of loans to low-income borrowers was well below the percentage of low-income families and met the aggregate distribution of lenders. The proportion of loans to moderate-income borrowers exceeded the proportion of moderate-income families and was near to the aggregate distribution of loans by all lenders.
- During 2014 to 2016, the proportion of loans to low-income borrowers was well below the percentage of low-income families and met the aggregate distribution of lenders. The proportion of loans to moderate-income borrowers exceeded the proportion of moderate-income families and was near to the aggregate distribution.

## Small Loans to Businesses

Refer to Table R in the Multi State Portland section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's originations and purchases of small loans to businesses.

Based on the data in the tables and the following factors, the distribution of the bank's originations and purchases of small loans to businesses by revenue category is excellent. The following information was taken into consideration when determining this rating.

- Slightly greater significance was placed on performance against the aggregate distribution as it reflects the difficulties all lenders are experiencing due to competition and the economic constraints discussed above under the Description of this Full-Scope AA.
- Between 2017 and 2019, the bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and significantly exceeded the aggregate distribution.
- During 2014 to 2016, the percentage of loans to businesses with revenues of $\$ 1$ million or less was near to the percentage of businesses and significantly exceeded the aggregate distribution.

## Small Loans to Farms

Refer to Table T in the Multi State Portland section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's origination and purchase of small loans to farms.

Based on the data in the table and the following considerations, the distribution of the bank's originations and purchases of small loans to farms by revenue category is good. The following information was taken into consideration when determining this rating.

- The fact that farm lending is not a focus of the bank was considered.
- Between 2017 and 2019, the bank's percentage of loans to farms with revenues of $\$ 1$ million or less was below the percentage of farms and significantly exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was consistent with performance between 2017 and 2019. The bank's percentage of loans to farms with revenues of $\$ 1$ million or less was below the percentage of farms and significantly exceeded the aggregate distribution.

## Community Development Lending

The bank is a leader in CD lending which had a significantly positive affect on the overall Lending Test rating.

The Lending Activity Tables, shown above, set forth the information and data used to evaluate the bank's level of CD lending. These tables include all CD loans, including multifamily loans that also qualify as CD loans.

There were 178 CD loans made for a total of $\$ 527.3$ million. This represents 58.3 percent of the tier 1 capital allocated to the AA. The majority (or 98.6 percent) of CD loans were for affordable housing purposes, which is a critical need in this AA.

Examples of CD loans in the AA include:

- In May 2014, Chase originated a $\$ 7.4$ million loan to develop a 124-unit mixed income housing project in Salem, OR. The housing project is divided into two parcels. The bank's financing was used to develop 108 housing units in one of the parcels, which includes 62 one-bedroom units restricted to seniors aged 55 and older and the remaining units restricted to individuals and families with incomes up to 50 percent of the AMI.
- In June 2015, Chase provided a $\$ 29.4$ million loan to acquire and renovate an existing 301-unit apartment building in the Portland area. Ninety-five percent of the units were for low- and moderate-income seniors with incomes that are 60.0 percent or less of the AMI. The loan helped to preserve affordable housing units for seniors and the building has an on-staff service coordinator to assist residents in networking with community-based services.
- In March 2019, Chase provided a $\$ 22.4$ million construction loan for new affordable housing units in Portland, OR and Hermiston, OR. A total of 207 affordable units will be created for families with incomes of 60 percent or less of the AMI. The property managers will provide tenants with housingrelated services (eviction prevention, lease compliance, issue resolution) and other community services (learning and recreation).

## Product Innovation and Flexibility

The bank makes extensive use of innovative and/or flexible lending practices in order to serve AA credit needs. As shown in the table below, the bank originated 4,679 loans totaling nearly $\$ 964.6$ million in the AA. Refer to the comments in the Product Innovation and Flexibility section of this performance evaluation for additional details regarding the programs.

| Loan Type | Number of <br> Loans | Dollar Amount <br> $\mathbf{( \$ 0 0 0 ' s )}$ |
| :--- | :---: | :---: |
| DreaMaker | 663 | 178,523 |
| FHA | 762 | 156,301 |
| HARP | 1,124 | 168,801 |
| VA | 534 | 146,962 |
| SBA | 176 | 35,143 |
| USDA | 1,420 | 278,826 |

## INVESTMENT TEST

The bank's performance under the Investment Test in the Portland CSA is rated Outstanding.
Based on a full-scope review, the bank's performance in the Portland CSA is excellent.
The bank has an excellent level of qualified CD investments and grants, but rarely in a leadership position, particularly those that are not routinely provided by private investors. The current and prior period qualified investments represent 13.9 percent of tier 1 capital allocated to the AA. A significant majority, or 79.5 percent, were current period investments. Leadership was displayed with two current period investments.

The bank exhibits excellent responsiveness to credit and community economic development needs. All current and prior period investments are considered responsive to credit and community economic development needs such as affordable housing, community service, economic development, and revitalizing/stabilization efforts. Ninety-eight percent of the dollar amount of current period CD investments support affordable housing, which is an identified need. A total of 4,437 housing units for low- and moderate-income individuals were created or retained. Additionally, the bank made 41 grants totaling $\$ 2.1$ million, of which $\$ 1.7$ million or 79.7 percent supported community service. One and two grants supported revitalization/stabilization and economic development, respectively. All prior period CD investments are LIHTC-related investments that support affordable housing.

The bank occasionally uses innovative and/or complex investments to support CD initiatives. Of 115 total qualified investments, 26.3 percent of the total dollar amount were complex. Six current period investments are considered complex as they are mainly related to Direct Investment LIHTC transactions and NMTC financings. Additionally, five prior period investments are considered complex as they are related to Direct Investment LIHTC transactions. Three CD investments or 1.7 percent of the total
dollar amount of total qualified investments are considered catalyst investments that will encourage future job growth, area improvements and community revitalization.

| Qualified Investments - Portland-Vancouver-Salem, Oregon-Washington CSA |  |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

|  | \# | \$(000's) | \# | \$(000's) | \# | \% of Total \# | \$(000's) | \% of Total \$ | \# | \$(000's) |
| Portland- CSA | 46 | 25,910 | 69 | 100,225 | 115 | 100.00 | 126,135 | 100.00 | 0 | 0 |

* Prior Period Investments' means investments made in a previous evaluation period that are outstanding as of the examination date.
** Unfunded Commitments' means legally binding investment commitments that are tracked and recorded by the institution's financial reporting system.

Examples of CD Investments in the AA include:

- The bank provided a $\$ 1.6$ million NMTC investment for the renovation of a historic post office building in Portland, now part of the Pacific Northwest College of Art. The additional space was needed to continue growing the overall student enrollment. The major program elements included instructional spaces, classrooms, studies, laboratories, and supporting administrative and faculty spaces. The project created $40-50$ new jobs and approximately 70 construction jobs, 15 percent of which will be filled by low-income persons.
- The bank provided a $\$ 14$ million LIHTC investment which contributed to the creation of 127 affordable housing units.
- The bank invested $\$ 1.1$ million in a LIHTC Fund, of which the bank had a $\$ 45$ million share of the $\$ 271$ million total fund. The fund will create opportunities for low- and moderate-income people through affordable housing in diverse communities. This investment contributed to the creation of 215 affordable housing units.

## SERVICE TEST

The bank's performance under the Service Test in Portland CSA is rated Outstanding.
Based on a full-scope review, including the data in the tables below, the bank's performance in the Portland CSA is excellent.

## Retail Banking Services

Service delivery systems are readily accessible to geographies and individuals of different income levels in the bank's AA.

Examiners evaluated the data as outlined in the Scope section at the front of this document including bank-provided data on usage of branches adjacent to low- and moderate-income geographies by individuals residing in those geographies and on increases in the usage of alternative delivery systems.

Based on the data in the table below and performance context, the branch distribution is excellent. In low- and moderate-income geographies, the distribution exceeds the percentage of the population. The bank had three branches in low-income geographies and 26 branches in moderate-income geographies. The distribution was augmented by three MUI tract branches that serve low-income tracts and 27 MUI
tract branches that serve moderate-income tracts. Examiners reviewed data on the accounts held and transactions conducted at the MUI branches and confirmed they were serving the adjacent low- and moderate-income populations.

| Distribution of Branch Delivery System |  |  |  |  |  |  |  | As of December 31, 2019 |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | $\begin{gathered} \text { Deposits } \\ \% \text { of Rated } \\ \text { Area } \\ \text { Deposits in } \\ \text { AA } \end{gathered}$ | Branches |  |  |  |  |  | Population |  |  |  |
|  |  | \# of <br> BANK <br> Branches | \% of <br> Rated <br> Area <br> Branches <br> in AA | Location of Branches by Income of Geographies (\%) |  |  |  | \% of Population within Each Geography |  |  |  |
|  |  |  |  | Low | Mod | Mid | Upp | Low | Mod | Mid | Upp |
| Portland- <br> Vancouver- <br> Salem, OR- <br> WA CSA | 100 | 92 | 100 | 3.3 | 28.3 | 41.3 | 26.1 | 2.7 | 24.7 | 45.9 | 26.5 |

* May not add up to 100 percent due to geographies with unknown tract income level and rounding.

Alternative delivery systems generally enhanced the delivery of banking services to geographies and individuals of all income levels. The OCC considered the availability and use of alternative delivery systems over the evaluation period. This included review of the bank's 160 deposit-taking ATMs, online banking, mobile banking, and telephone banking to determine the effectiveness of these systems to make retail banking services available to individuals in low- and moderate-income geographies. The bank did not increase the deposit-taking ATMs. In low- and moderate-income geographies, the bank had 6 ( 3.68 percent) deposit-taking ATMs in low-income geographies and 42 (26.3 percent) ATMs in moderate-income geographies. Bank-provided data on use of online, mobile, and telephone banking showed nominal change in the adoption of these services by low- and moderate-income individuals from the prior rating period.

| Distribution of Branch Openings/Closings |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | \# of Branch Openings | \# of Branch Closings | Net change in Location of Branches (+ or -) |  |  |  |
|  |  |  | Low | Mod | Mid | Upp |
| Portland- <br> Vancouver- <br> Salem, OR-WA CSA | 0 | 6 | -1 | -1 | -3 | -1 |

The bank's opening and closing of branches has not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and/or to low- and moderate-income individuals. The bank did not open any branches in low-and moderate-income geographies and closed one branch each in low- and moderate-income geographies. Branch closures were due to reduced customer usage. Despite the branch closures, branch locations remained accessible to geographies and individuals of different income levels in the bank's AA.

Services, including where appropriate, business hours, do not vary in a way that inconveniences the various portions of its AA, particularly low- and moderate-income geographies and/or individuals. Generally, branches are open Monday through Friday from 9:00 am to 6:00 pm and Saturday from 9:00 am to $1: 00 \mathrm{pm}$. All retail banking services are available within the low- and moderate-income geographies.

## Community Development Services

The bank was a leader in providing CD services that are responsive to AA needs. The CD services positively affected the service test performance.

Bank records show employees provided technical assistance and/or job-specific expertise for 400 CD service activities to six organizations for over 2,100 qualified hours of service, including 611 hours of board service. Much of the bank's assistance was to organizations that provide community services to low- and moderate-income individuals and families that were responsive to the identified need for affordable housing. The following are examples of CD services provided in this AA:

- Two bank employees provided 239 hours of Board service to community organizations that provide affordable housing to low- and moderate-income families.
- A bank employee provided 372 hours of Board service to a community organization that provides homebuyer education, foreclosure prevention programs, training and education in personal finance management, and self-employment.

# Multistate Metropolitan Statistical Area Rating 

## Louisville/Jefferson County-Elizabethtown-Madison, KY-IN CSA (Louisville CSA)

CRA rating for the Louisville CSA ${ }^{5}$ : Satisfactory

The Lending Test is rated: Low Satisfactory
The Investment Test is rated: Outstanding
The Service Test is rated: High Satisfactory
The major factors that support this rating include:

- A good level of lending activity.
- An overall adequate geographic distribution of home mortgage loans and small loans to businesses.
- An overall good borrower distribution of home mortgage loans and small loans to businesses.
- No CD loans were made, which has a negative effect on the Lending Test rating.
- The extensive use of innovative/flexible products, which positively affected the rating.
- An excellent level of qualified CD investments and grants that displayed excellent responsiveness to credit and community economic development needs.
- The use of innovative and/or complex qualified investments.
- Retail service delivery systems are accessible to geographies and individuals of different income levels in the bank's AA.
- A relatively high level of CD services that were responsive to AA needs.

## Description of Institution's Operations in Louisville CSA

The Louisville CSA is Chase's $17^{\text {th }}$ largest rating area based on its total deposits of $\$ 4.5$ billion, representing 0.3 percent of the bank's total deposits. As of December 31, 2019, the bank operated 35 branches and 79 ATMs in the rating area, representing 0.70 percent of the bank's branches and 0.5 percent of the bank's deposit-taking ATMs. The bank originated and purchased approximately $\$ 1.9$ billion in loans or 0.3 percent of total bank loan originations and purchases during the evaluation period in the CSA.

According to FDIC Deposit Market Share Data, as of June 30, 2019, there were 40 banks s operating 374 branches s in the AA. Chase ranked second in deposit market share with 16 percent. Major competitors and their deposit market share are PNC Bank, N.A. (23.7 percent), Fifth Third Bank (10 percent), and Republic Bank and Trust ( 9.8 percent).

Chase has delineated the entire Louisville CSA as its AA. Refer to appendix A for a complete listing of counties that comprise the MMSA.

## Description of Full-Scope AA

The following table provides a summary of the demographics that includes housing and business information for the Louisville CSA. Table A indicates that approximately 21.0 percent of families in the

[^102]AA are low-income. The Louisville CSA's cost of housing generally makes homeownership affordable for most moderate-income and some low-income borrowers. The median housing value in the Louisville CSA ranges from two to three times the median income, over three times the moderateincome, and five times the low-income, indicating a proportion of OOUs are not affordable to some lowincome borrowers. One simplistic method used to determine housing affordability assumes a maximum monthly principal and interest payment of no more than 36 percent of the applicant's income.

In the Louisville CSA, assuming a 30-year mortgage with a 5.0 percent interest rate, 3.0 percent down payment, and not accounting for homeowners insurance, real estate taxes, or any additional monthly expenses, a low-income borrower making $\$ 29,636$ per year (or less than 50 percent of the FFIEC adjusted median family income in the AA) could afford a $\$ 141,228$ mortgage with a payment of $\$ 889$ per month; a moderate-income borrower earning $\$ 47,418$ per year (or less than 80 percent of the FFIEC adjusted median family income in the AA) could afford a $\$ 226,057$ mortgage with a payment of $\$ 1,423$ per month.

## Economic Data

According to the December 2019 Moody's Analytics report, the area economy is slow with nominal growth. The area has a below average per capita income and below-average educational attainment. The economy is primarily driven by transportation manufacturing with a high demand for locally produced trucks and SUVs than for cars. The declining labor market was attributed to the downward trend in job growth from mid-2018 to mid-2019. This revealed that the metro area barely added any new jobs with a substantial drop likely for the large manufacturing industry. In 2019, the unemployment
rate changed slightly, partially due to the weak labor market growth. Other economic drivers for the area are Logistics and Insurance. UPS and Amazon have a commanding presence in the area. UPS recently announced plans to invest $\$ 750$ million in the area and create approximately 1,000 positions over the next decade at a new facility. The area logistic positions will provide above average wages resulting in a boost to the economy with anticipated consumer spending. Further the area remains a strategic location for logistic firms given nearly half of the US population lives within reasonable distance. A top insurance employer in the area is Humana. In 2020, job growth is expected to pick up supported by an evolving composition of the population in the area. The graying US population will give health insurance firms an uptick as the number of Americans in their peak healthcare spending age surges. Health insurance will have to adapt quickly to the needs of the patients all while addressing the health reform (i.e., Affordable Care Act) requirements along with assessments or fees. The top three employers in the area are: Fort Knox, Ford Motor Co., and Humana Inc. The area does have relatively low living costs and business costs which makes it a desirable locale. In terms of housing, sixty percent of homes are owned-occupied.

## Community Contacts

A review was conducted of five community contacts completed during the examination period. The contacts were conducted with organizations located throughout the rating area. The mission of the organizations contacted focused on several areas including affordable housing, community development fund, entrepreneurial start-ups, economic and workforce development. Contacts noted concerns with business and home mortgage financing in low- and moderate-income areas as evidenced by large numbers of state and local government redevelopment. Contacts noted that community banks now constitute the bulk of financing investors as decisions at large banks are made out-of-town and makes them less responsive to local needs. Contacts noted that the surrounding counties continue to improve but there is a close watch due to recent layoffs by plant facilities. The housing market is tight because of the availability of land. The redevelopment of areas has caused an increase in prices ultimately pushing out predominantly low- and moderate-income and African American populations. The contacts identified the following needs in the area:

- Affordable housing and affordable rental housing
- Down payment assistance
- Financing for small business development to assist in revitalization strategy
- Financial literacy
- Neighborhood and environmental revitalization programs
- Economic and workforce development
- Financing for start-up businesses
- Financing for economically challenged individuals relative to business and home mortgage lending

## Scope of Evaluation in Louisville CSA

Examiners performed a full-scope review of the Louisville.
CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS IN THE LOUISVILLE CSA

## LENDING TEST

The bank's performance under the Lending Test in the Louisville CSA is rated Low Satisfactory.
Based on a full-scope review, the bank's performance in the Louisville CSA is adequate.

## Lending Activity

Lending levels reflect good responsiveness to credit needs in the AA.
Examiners considered the number and amount of home mortgage, small business, and small farm loans originated or purchased relative to Chase's capacity based on deposits, competition, and market presence. Lending activity for home mortgage and small loans to businesses received the most weight in reaching conclusions. Respectively, home mortgage lending and small loans to businesses account for 33.5 percent and 65.6 percent of the loan volume in the CSA by number and 78.1 and 21.8 percent of loan volume by dollar. Small farm lending is not a strategic focus of the bank and received minimal weight in reaching conclusions. Farm loans represented 0.9 percent of the loan volume in the CSA by number and 0.1 percent loan volume by dollar.

| Number of Loans |  |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | Home <br> Mortgage | Small <br> Business | Small <br> Farm | Community <br> Development | Total |  |
| Louisville CSA | 8,341 | 16,366 | 212 | 0 | 24,919 |  |

| Dollar Volume of Loans (\$000's) |  |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | Home <br> Mortgage | Small <br> Business | Small <br> Farm | Community <br> Development | Total |  |
| Louisville CSA | $1,484,280$ | 413,723 | 2,227 | 0 | $1,900,230$ |  |

As of June 30, 2019, Chase ranked second in deposits out of 40 institutions with 15.9 percent market share.

In overall home mortgage lending, Chase ranked sixth out of 457 lenders with 3.6 percent market share. This is a competitive market. The top three lenders in the market are PNC Bank, N.A. (5.4 percent), Republic Bank \& Trust Co. (5.1 percent), and Wells Fargo Bank, N.A. (4.7 percent).

In small loans to businesses, Chase ranked first out of 116 lenders with 17.5 percent market share. Other major lenders are American Express National Bank (16.8 percent), and PNC Bank, N.A. (12.9).

In small loans to farms, Chase ranked second out of 24 lenders with a 23.6 percent market share. The other major lender in the market is John Deere Financial, F.S.B with a 39.15 percent market share. Wells Fargo Bank, N.A. and U.S. Bank, N.A. are the next largest lenders, each holding 6.2 percent market share.

## Distribution of Loans by Income Level of the Geography

The bank exhibits an adequate geographic distribution of loans in its AA.

## Home Mortgage Loans

Refer to Table O in the Multi State Louisville section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of home mortgage loan originations and purchases for this evaluation is adequate. The following information was taken into consideration when determining this rating.

- The limited proportion of housing units in low-income geographies, particularly OOUs (4.2 percent), constrained lending opportunities; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of OOUs in those geographies.
- The high level of competition in the AA (457 home mortgage lenders) was also considered and examiners placed greater significance on performance compared to the aggregate of lenders.
- Between 2017 and 2019, the proportion of loans in low- income areas were well below the percentage of owner-occupied units and below the aggregate distribution of loans. In moderateincome areas the proportion of loans was below the percentage of owner-occupied units and aggregate distribution of loans.
- During 2014 through 2016, performance in low-income geographies was well below the percentage of owner-occupied units and below the aggregate distribution of loans, while performance in moderate-income geographies was below the percentage of owner-occupied units and near to the aggregate distribution of loans.

## Small Loans to Businesses

Refer to Table Q in the Multi State Louisville section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to businesses.

Based on the data in the tables and the following considerations, the overall geographic distribution of the bank's originations and purchases of small loans to businesses is adequate. The following information was taken into consideration when determining this rating.

- The smaller proportion of businesses in low-income geographies (7.1 percent) and competition between 116 lenders constrained lending opportunities to existing businesses. Therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of businesses in those geographies.
- Performance against the aggregate distribution of lenders was given additional consideration as it reflects the difficulties all lenders are experiencing due to the economic constraints discussed above under the Description of the Full-Scope AA.
- Between 2017 and 2019, the proportion of small loans to businesses in low-income geographies was below the proportion of businesses and well below the aggregate distribution, while the proportion of small loans to businesses in moderate-income geographies was below both the proportion of businesses and the aggregate distribution
- During 2014 to 2016, the bank's proportion of small loans to businesses in low- and moderateincome geographies was below both the proportion of businesses and the aggregate distribution.

Charter Number: 8

## Small Loans to Farms

Refer to Table S in the Multi State Louisville section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to farms.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to farms is adequate. The following information was taken into consideration when determining this rating.

- The limited number of farms in low-income geographies ( 2.8 percent) constrained lending opportunities; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher number of farms in those geographies.
- The fact that farm lending is not a focus of the bank was also considered.
- Between 2017 and 2019, the bank made no loans to small farms in low-income geographies. The proportion of loans to small farms in moderate-income geographies was well below the proportion of farms in those geographies and significantly exceeded the aggregate distribution of all lenders.
- Performance in low- and moderate-income geographies during the 2014 to 2016 period was generally consistent with performance during the 2017 to 2019 period. The bank made no loans to small farms in low-income geographies during the period. The proportion of loans to small farms in moderate-income geographies was well below the proportion of farms in those geographies and significantly exceeded the aggregate distribution of all lenders.

## Lending Gap Analysis

A review of home mortgage loans, small loans to business, and small loans to farms including summary reports and AA maps did not identify any unexplained conspicuous lending gaps in the bank's activities.

## Distribution of Loans by Income Level of the Borrower

The bank exhibits a good distribution of loans among individuals of different income levels and business of different sizes.

## Home Mortgage Loans

Refer to Table P in the Multi State Louisville section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall borrower distribution of home mortgage loan originations and purchases is good. The following information was taken into consideration when determining this rating.

- Examiners considered the competition and the economic constraints discussed above under the Description of this Full-Scope AA, particularly, the cost of housing and level of poverty in portions of the CSA.
- Between 2017 and 2019, the proportion of loans to low-income borrowers was well below the percentage of low-income families and the aggregate distribution of lenders. The proportion of loans to moderate-income borrowers exceeded the proportion of moderate-income families and the aggregate distribution of loans by all lenders
- During 2014 to 2016, the bank's performance in lending to low-income borrowers was stronger than its performance between 2017 to 2019. The proportion of loans to low-income borrowers was below the percentage of low-income families and near to the aggregate distribution of lenders. The proportion of loans to moderate-income borrowers exceeded the proportion of moderate-income families and was near to the aggregate distribution.

## Small Loans to Businesses

Refer to Table R in the Multi State Louisville section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's originations and purchases of small loans to businesses.

Based on the data in the table and the following considerations, the distribution of the bank's originations and purchases of small loans to businesses by revenue category for this evaluation is good. The following information was taken into consideration when determining this rating.

- Greater significance was placed on performance against the aggregate distribution as it reflects the difficulties all lenders are experiencing due to competition and the economic constraints discussed above under the Description of this Full-Scope AA.
- Between 2017 and 2019, the bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was consistent with performance between 2017 and 2019. The bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and exceeded the aggregate distribution.

## Small Loans to Farms

Refer to Table T in the Multistate Louisville section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's origination and purchase of small loans to farms.

Based on the data in the table and the following considerations, the distribution of the bank's originations and purchases of small loans to farms by revenue category is good. The following information was taken into consideration when determining this rating.

- The fact that farm lending is not a focus of the bank was considered.
- Between 2017 and 2019, the bank's percentage of loans to farms with revenues of $\$ 1$ million or less was below the percentage of farms and exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was consistent with performance between 2017 and 2019. The bank's percentage of loans to farms with revenues of $\$ 1$ million or less was below the percentage of farms and exceeded the aggregate distribution.

## Community Development Lending

The bank has made no CD loans in the AA during the evaluation period, which negatively affected the rating.

While the bank was unable to make any CD loans during the period, the bank continued to meet the needs of the low- and moderate-income individuals and geographies in Louisville CSA through qualified $C D$ investments and service activities.

The Lending Activity Tables, shown above, set forth the information and data used to evaluate the bank's level of CD lending. These tables include all CD loans, including multifamily loans that also qualify as CD loans.

## Product Innovation and Flexibility

The bank makes extensive use of innovative and/or flexible lending practices in order to serve AA credit needs. As shown in the table below, a total of 2,443 loans were funded totaling $\$ 343.1$ million. Refer to the comments in the Product Innovation and Flexibility section of this performance evaluation for additional details regarding the programs.

| Loan Type | Number of <br> Loans | Dollar Amount <br> (\$000's) |
| :--- | :---: | :---: |
| DreaMaker | 472 | 72,111 |
| FHA | 752 | 85,186 |
| HARP | 301 | 33,055 |
| VA | 387 | 69,143 |
| SBA | 75 | 21,412 |
| USDA | 456 | 62,159 |

## INVESTMENT TEST

The bank's performance under the Investment Test in the Louisville CSA is rated Outstanding.
Based on a full-scope review, the bank's performance in the Louisville CSA is excellent.
The bank has an excellent level of qualified CD investments and grants, occasionally in a leadership position, particularly those that are not routinely provided by private investors. Current and prior period investment dollar volume represents 9.3 percent of tier 1 capital allocated to the AA. A significant majority or 84.5 percent of total investments represent current period investments.

The bank exhibits excellent responsiveness to credit and community economic development needs identified in the AA, including affordable housing and affordable rental housing, economic and workforce development, community service, and revitalization/stabilization for low- and moderateincome individuals and geographies. Current period investments include 92.6 percent or $\$ 42.3$ million affordable housing and 7.3 percent or $\$ 3.4$ million community service. All prior period investments were allocated to affordable housing. Current and prior period affordable housing investments created 3,129 low- and moderate-income units for individual and families. The bank provided 27 grants or $\$ 3.4$ million to a variety of organizations that primarily support community service through economic and workforce development. In some occurrence's grants were provided in multiple years.

The bank occasionally uses innovative and/or complex investments to support CD initiatives. Current and prior period complex investments represent 38.4 percent or $\$ 20.8$ million of total investments. They included Direct Investor LIHTC transactions with participations from federal and state governments, local housing agencies, and real estate developers. Direct LIHTC require bank expertise and capacity in selecting projects and partners, negotiating agreements, overseeing project development and operations, and ensuring compliance.

** Unfunded Commitments' means legally binding investment commitments that are tracked and recorded by the bank's financial
Examples of CD Investments in the AA include:
- In November 2014 and in April and December of 2019, the bank made $\$ 1.3$ million in grants to an organization that provides community service intended to provide technology skills to low-income individuals within the AA, with a focus on the six lowest-income neighborhoods. The goal of the project was to expand access to career pathways for low- and moderate-income individuals in those six Louisville neighborhoods. A total of 500 individuals were expected to enroll and participate in the program. The median income for individuals in the focus area was $\$ 18$ thousand per annum compared to $\$ 31$ thousand in the AA.
- In 2018 and 2019, the bank originated five grants totaling $\$ 600,000$ to a foundation project responsible for the Academies of Louisville/Workforce initiatives in Louisville KY. The Foundation provides low- and moderate-income youth who need a first work experience and have barriers to finding work, the opportunity to acquire the skills, resources, and networks needed to connect to employment opportunities leading to lifelong careers. Funding was expected to support the initiatives and to launch the new Summer Youth Tech Program in Louisville KY. The Foundation will prepare, inspire, and empower students by offering meaningful and relevant learning experiences through career pathways connected to core academic subjects. All students are low- and moderate-income with 6.0 percent identified as homeless. Academic experiences include career exploration field trips, job shadows, internships/co-ops, and solving real-world challenges through project-based learning.
- In December 2019, the bank made a $\$ 7$ million investment to a community development project for affordable housing in this AA. Plans were to renovate the homes in the apartment complex and use as affordable independent living units for people aged 62 or older, with 51 low- and moderateincome units available.
- From June 2016 through July 2018, the bank made three investments totaling $\$ 1.6$ million towards providing affordable housing through various LIHTC funds. Participation purchases represented 272 low- and moderate-income affordable housing units and exhibited the bank's responsiveness to community needs.

## SERVICE TEST

The bank's performance under the Service Test in the Louisville CSA is rated High Satisfactory.
Based on a full-scope review, the bank's performance in the Louisville CSA is good.

## Retail Banking Services

Service delivery systems are accessible to geographies and individuals of different income levels in the bank's full-scope AAs.

Examiners evaluated the data as outlined in the Scope section at the front of this document including bank-provided data on usage of branches adjacent to low- and moderate-income geographies by individuals residing in those geographies and on increases in the usage of alternative delivery systems.

Based on the data in the table below and performance context, the branch distribution is good. In lowand moderate-income geographies, the distribution respectively exceeds and is well below the percentage of the population. The bank had three branches in low-income geographies and two branches in moderate-income geographies. The distribution was augmented by eight MUI tract branches that serve moderate-income tracts. Examiners reviewed data on the accounts held and transactions conducted at the MUI branches and confirmed they were serving the adjacent low- and moderate-income populations.

* May not add up to 100 percent due to geographies with unknown tract income level and rounding

Alternative delivery systems did not significantly enhance the delivery of banking services to geographies and individuals of all income levels. The OCC considered the availability and use of alternative delivery systems over the evaluation period. This included review of the bank's 79 deposittaking ATMs, online banking, mobile banking, and telephone banking to determine the effectiveness of these systems to make retail banking services available to individuals in low- and moderate-income geographies. The bank did not increase the deposit-taking ATMs in low-and moderate-income geographies during the evaluation period. The bank had 14 (17.7 percent) deposit-taking ATMs in lowincome geographies and five ( 6.3 percent) ATMs in moderate-income geographies. Bank-provided data on use of online, mobile, and telephone banking showed nominal change in the adoption of these services by low- and moderate-income individuals from the prior rating period.

Charter Number: 8

| Distribution of Branch Openings/Closings |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | \# of Branch Openings | \# of Branch Closings | Net change in Location of Branches$(+$ or -$)$ |  |  |  |
|  |  |  | Low | Mod | Mid | Upp |
| Louisville/Jefferson County-Elizabethtown-Madison, KY-IN | 0 | 10 | -3 | -1 | -5 | -1 |

The bank's opening and closing of branches has generally not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and/or to low- and moderateincome individuals. The bank did not open any branches in low- and moderate-income geographies and closed three branches in low-income and one branch in moderate-income geographies. Branch closures were due to reduced customer usage and proximity to other Chase branches. Despite the branch closures, branch locations generally remained accessible to geographies and individuals of different income levels in the bank's AA.

Services, including where appropriate, business hours, do not vary in a way that inconveniences the various portions of its AA, particularly low- and moderate-income geographies and/or individuals. Generally, branches are open Monday through Thursday from 9:00 am to 5:00 pm, 9:00 am to 6:00 pm on Friday and 9:00 am to $12: 00 \mathrm{pm}$ or 1:00 pm on Saturdays. Branches also have drive-up hours Monday through Thursday from 9:00 am to 5:00 pm, Friday from 9:00 am to 6:00 pm, and Saturday from 9:00 am to 12:00 pm or 1:00 pm. All retail banking services are available within the low- and moderate-income branches.

## Community Development Services

The bank provides a relatively high level of CD services.
Review of bank records show that employees provided financial or job-specific expertise and/or technical assistance for 399 qualified CD service activities to 22 organizations since the last evaluation, for a total of 1,674 hours over a six-year period. All the bank's assistance was to organizations that provide services to low- and moderate-income individuals and families. The bank's CD services were responsive to the identified needs in the AA, particularly affordable housing, and financial literacy. The following are examples of CD services provided:

- Three bank employees provided homebuyer education over five years benefitting 391 low- and moderate-income customers.
- Forty-two bank employees provided financial literacy assistance over four years to low- and moderate-income participants of a national nonprofit whose program teaches K-12 students the basic concepts of financial literacy as it relates to everyday economics, and how they apply this information into adulthood.

## Multistate Metropolitan Statistical Area Rating

## Cincinnati-Wilmington-Maysville, OH-KY MMSA (Cincinnati MMSA)

CRA rating for the Cincinnati MMSA ${ }^{6}$ : Outstanding

The Lending Test is rated: High Satisfactory
The Investment Test is rated: Outstanding
The Service Test is rated: Outstanding
The major factors that support this rating include:

- A good level of lending activity.
- A good geographic distribution of home mortgage loans and small loans to businesses.
- A good borrower distribution of home mortgage loans and small loans to businesses.
- A relatively high level of CD lending, which positively affected the rating.
- The extensive use of innovative/flexible products, which positively affected the rating.
- An excellent level of qualified CD investments that displayed excellent responsiveness to credit and community economic development needs.
- Significant use of complex qualified investments.
- Retail service delivery systems that are readily accessible to geographies and individuals of different income levels in the bank's AA.
- Leadership in providing CD services that are responsive to AA needs.

## Description of Institution's Operations in the Cincinnati MMSA

The Cincinnati MMSA is Chase's $22^{\text {nd }}$ largest rating area based on its total deposits of $\$ 2.5$ billion, representing 0.2 percent of the bank's total deposits. As of December 31, 2019, the bank operated 35 branches and 69 ATMs in the rating area, representing 0.70 percent of total bank branches and 0.4 percent of total ATMs. The bank originated and purchased approximately $\$ 1.9$ billion in loans or 0.3 percent of total bank loan originations and purchases during the evaluation period in the MMSA.

According to FDIC Deposit Market Share Data, as of June 30, 2019, there were 62 financial institutions operating 699 offices in the AA. Chase ranked sixth with deposit market share of 1.8 percent. The top three banks and their deposit market share include U.S. Bank, N.A. (52.4 percent), Fifth Third Bank (26.5 percent), and PNC Bank, N.A. (5.3 percent).

Chase's AA consists of geographies within Ohio and Kentucky. Refer to appendix A for a complete listing of counties included in the AA.

## Description of Full-Scope AA

The following table provides a summary of the demographics that includes housing and business information for the Cincinnati MMSA. Table A indicates that approximately 21.9 percent of families in

[^103]the AA are low-income. The Cincinnati MMSA's cost of housing generally makes homeownership affordable for many LMI borrowers. The median housing value in the Cincinnati MMSA is approximately two times the median income, three times the moderate-income, and approximately four times the low-income, indicating OOUs are not affordable to some low-income borrowers. One simplistic method used to determine housing affordability assumes a maximum monthly principal and interest payment of no more than 36 percent of the applicant's income.

In the Cincinnati MMSA, assuming a 30-year mortgage with a 5 percent interest rate, 3.0 percent down payment, and not accounting for homeowners insurance, real estate taxes, or any additional monthly expenses, a low-income borrower making $\$ 34,975$ per year (or less than 50 percent of the FFIEC adjusted median family income in the MMSA) could afford a $\$ 166,740$ mortgage with a payment of $\$ 1,049$ per month; a moderate-income borrower earning $\$ 55,959$ per year (or less than 80 percent of the FFIEC adjusted median family income in the AA) could afford a $\$ 266,726$ mortgage with a payment of $\$ 1,679$ per month.

## Economic Data

According to the February 2020 Moody's Analytics report, the area economy is strong. The area has a high per capita income and educated workforce. The area is a major center for manufacturing, healthcare, and financial services. The labor market is strong and the pace of employment growth in the area clocked in at its fastest since 1998. The unemployment rate has been in the mid 3 percent for the last quarters even as the labor force has continued to grow. More encouraging, Kroger, a major food chain, is expanding its digital headquarters and planned to add high e-commerce jobs by end of 2020. In
addition, healthcare investment has been spurred by a new $\$ 600$ million critical care center along with emergency facilities. Top three major employers include Cincinnati Children's Hospital Medical Center, Kroger Co., and Cincinnati/Northern Kentucky International Airport. The area has low living and business costs with affordable housing.

## Community Contacts

A review was conducted of five community contacts completed during the examination period. The contacts were conducted with organizations located throughout the rating area. The mission of the organizations contacted focused on several areas including affordable housing, economic development, redevelopment of older homes, community services, and asset development and financial stability. Contacts noted concerns regarding housing affordability and access to affordable housing. Gentrification has driven prices up and pushed out low- to moderate-income residents that that were living in the area prior to redevelopment. The contacts identified the following needs in the area:

- Neighborhood and environmental revitalization programs
- Affordable housing and affordable rental housing
- Loan programs to support the rehabilitation of older housing
- Purchase of Low-Income Housing Tax Credits
- Workforce development and job training programs to help individuals obtain living wage jobs
- Asset development for low- and moderate-income households
- Community services that address basic living needs
- Economic and workforce development
- Small business Education/Training/Technical Assistance

## Scope of Evaluation in Cincinnati MMSA

Examiners performed a full-scope review of the Cincinnati MMSA.

## CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS IN THE CINCINNATI MMSA

## LENDING TEST

The bank's performance under the Lending Test in the Cincinnati MMSA is rated High Satisfactory.
Based on a full-scope review, the bank's performance in the Cincinnati MMSA is good.

## Lending Activity

Lending levels reflect good responsiveness to credit needs in the AA.
Examiners considered the number and dollar amount of home mortgage, small business, and small farm loans originated or purchased relative to Chase's capacity based on deposits, competition, and market presence. Lending activity for home mortgage and small loans to businesses received the most weight in reaching conclusions. Respectively, home mortgage lending and small loans to businesses account for 31.3 percent and 68.1 percent of the loan volume in the MMSA by number and 79.7 and 18.8 percent of loan volume by dollar. Small farm lending is not a strategic focus of the bank and received minimal
weight in reaching conclusions. Farm loans represented 0.4 percent of the loan volume in the MMSA by number and 0.05 percent loan volume by dollar.

| Number of Loans |  |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | Home <br> Mortgage | Small <br> Business | Small <br> Farm | Community <br> Development | Total |  |
| Cincinnati MMSA | 8,417 | 18,305 | 118 | 16 | 26,856 |  |
|  |  |  |  |  |  |  |
| Dollar Volume of Loans (\$000's) | Home <br> Mortgage | Small <br> Business | Small <br> Farm | Community <br> Development | Total |  |
| Assessment Area | $1,532,957$ | 360,655 | 1,102 | 28,661 | $1,923,375$ |  |
| Cincinnati MMSA |  |  |  |  |  |  |

As of June 30, 2019, Chase ranked sixth in deposits out of 62 institutions with 1.8 percent market share.
In overall home mortgage lending, Chase ranked eleventh with 3.6 percent market share. The top three lenders in the market are U.S. Bank, N.A. ( 6.0 percent), The Huntington National Bank ( 6.0 percent), Union Savings Bank (5.3 percent), and Wells Fargo Bank, N.A. (4.6 percent).

In small loans to businesses, Chase ranked third out of 126 lenders with a 11.4 percent market share. Other major lenders are American Express National Bank (20.0 percent), U.S. Bank, N.A. (14.3 percent), and PNC Bank, N.A. (10.4 percent).

In small loans to farms, Chase ranked third out of 19 lenders with a 13.2 percent market share. The other major lenders in the market are U.S. Bank, N.A. (29.5 percent), John Deere Financial, F.S.B (18.9 percent), and The Huntington National Bank (10.6) market share.

## Distribution of Loans by Income Level of the Geography

The bank exhibits good geographic distribution of loans in its AA.

## Home Mortgage Loans

Refer to Table O in the Multi State Cincinnati section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of home mortgage loan originations and purchases for this evaluation is good. The following information was taken into consideration when determining this rating.

- The limited proportion of housing units in low-income geographies, particularly OOUs (4.2 percent) constrained lending opportunities; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of OOUs in those geographies.
- The high level of competition in the AA, with a number of major home mortgage lenders, was also considered and examiners placed greater significance on performance compared to the aggregate of lenders.
- Between 2017 and 2019, the proportion of loans in low- income areas were below the percentage of owner-occupied units and near to the aggregate distribution of loans. In moderate-income areas the proportion of loans was near to both the percentage of owner-occupied units and aggregate distribution of loans.
- During 2014 through 2016, performance in low-income geographies was well below the percentage of owner-occupied units and below the aggregate distribution of loans, while performance in moderate-income geographies was below the percentage of owner-occupied units and near to the aggregate distribution of loans.

## Small Loans to Businesses

Refer to Table Q in the Multi State Cincinnati section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to businesses.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to businesses for this evaluation is adequate. The following information was taken into consideration when determining this rating.

- The smaller proportion of businesses in low-income geographies ( 7.0 percent) and competition between 126 lenders constrained lending opportunities to existing businesses. Therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of businesses in those geographies.
- Between 2017 and 2019, the proportion of small loans to businesses in low-income geographies was below both the proportion of businesses and the aggregate distribution, while the proportion of small loans to businesses in moderate-income geographies was below both the proportion of businesses and the aggregate distribution.
- During 2014 to 2016, the proportion of small loans to businesses in low-income geographies was well below both the proportion of businesses and the aggregate distribution, while the proportion of small loans to businesses in moderate-income geographies was below both the proportion of businesses and the aggregate distribution.

## Small Loans to Farms

Refer to Table S in the Multi State Cincinnati section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to farms.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to farms is good. The following information was taken into consideration when determining this rating.

- The limited number of farms in low-income geographies (2.6 percent) constrained lending opportunities; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher number of farms in those geographies.
- The fact that farm lending is not a focus of the bank was also considered.
- Between 2017 and 2019, the bank made no loans to small farms in low-income geographies. The proportion of loans to small farms in moderate-income geographies was well below the proportion of farms in those geographies and significantly exceeded the aggregate distribution of all lenders.
- During the 2014 to 2016 period, the bank made no loans to small farms in low-income geographies. The proportion of loans to small farms in moderate-income geographies was below the proportion of farms in those geographies and exceeded the aggregate distribution of all lenders.

## Lending Gap Analysis

A review of home mortgage loans, small loans to business, and small loans to farms including summary reports and AA maps did not identify any unexplained conspicuous lending gaps in the bank's activities.

## Distribution of Loans by Income Level of the Borrower

The bank exhibits a good distribution of loans among individuals of different income levels and business of different sizes.

## Home Mortgage Loans

Refer to Table P in the Multi State Cincinnati section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall borrower distribution of home mortgage loan originations and purchases for this evaluation is good. The following information was taken into consideration when determining this rating.

- Examiners considered the competition and the economic constraints discussed above under the Description of this Full-Scope AA, particularly, the cost of housing and level of poverty in portions of the MMSA. Higher consideration was given to performance against the aggregate of all lenders.
- Between 2017 and 2019, the proportion of loans to low-income borrowers was well below the percentage of low-income families and exceeded the aggregate distribution of lenders. The proportion of loans to moderate-income borrowers exceeded the proportion of moderate-income families and the aggregate distribution of loans by all lenders.
- During 2014 to 2016, the bank's performance in lending to low-income borrowers was stronger than its performance between 2017 to 2019. The proportion of loans to low-income borrowers was below the percentage of low-income families and met the aggregate distribution of lenders. The proportion of loans to moderate-income borrowers exceeded the proportion of moderate-income families and was near to the aggregate distribution.

## Small Loans to Businesses

Refer to Table R in the Multi State Cincinnati section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's originations and purchases of small loans to businesses.

Based on the data in the tables and the following factors, the distribution of the bank's originations and purchases of small loans to businesses by revenue category is good. The following information was taken into consideration when determining this rating.

- Slightly greater significance was placed on performance against the aggregate distribution as it reflects the difficulties all lenders are experiencing due to competition and the economic constraints discussed above under the Description of this Full-Scope AA.
- Between 2017 and 2019, the bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and significantly exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was consistent with performance between 2017 and 2019. The bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and significantly exceeded the aggregate distribution.

## Small Loans to Farms

Refer to Table T in the Multi State Cincinnati section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's origination and purchase of small loans to farms.

Based on the data in the table and the following considerations, the distribution of the bank's originations and purchases of small loans to farms by revenue category is good. The following information was taken into consideration when determining this rating.

- The fact that farm lending is not a focus of the bank was considered.
- Between 2017 and 2019, the bank's percentage of loans to farms with revenues of $\$ 1$ million or less was well below the percentage of farms and significantly exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was consistent with performance between 2017 and 2019. The bank's percentage of loans to farms with revenues of $\$ 1$ million or less was below the percentage of farms and significantly exceeded the aggregate distribution.

## Community Development Lending

The bank has made a relatively high level of CD loans.
The Lending Activity Tables, shown above, set forth the information and data used to evaluate the bank's level of CD lending. These tables include all CD loans, including multifamily loans that also qualify as CD loans.

There were 16 CD loans made for a total of $\$ 28.7$ million. This represents 9.0 percent of the tier 1 capital allocated to the AA. Nine ( 25.8 percent) of the CD loans are for revitalization or stabilization purposes, which is a critical need in this AA. Sixty percent supported affordable housing and 14.2 percent supported community services.

Examples of CD loans in the AA include:

- In June 2017, the bank originated a $\$ 339,300$ loan to rehabilitate and construct 12 historic buildings in a low-income area of the Over-The-Rhine neighborhood. The project met the city's Comprehensive Plan to revitalize the low- and moderate-income area and included eight mixed-use apartment buildings, commercial space, and a social enterprise restaurant that provides job training and placement for positions targeting low-income individuals and residents in this severely distressed community.
- Chase originated a $\$ 7.1$ million construction loan for bonds that were issued by the Ohio Housing Finance Agency. The purpose was to provide financing for the full rehabilitation of a low-income housing project in Cincinnati. The project contained 50 units on 8 sites with all units under 60 percent AMI. Ten of the units were specifically reserved for individuals with special needs.
- Chase originated a $\$ 9.4$ million loan to finance a 44 -unit Low Income Housing Tax Credit (LIHTC) housing project in Cincinnati. The project is an affordable housing community designed for lowincome single parents. The project's rent restrictions were up to 60.0 percent Area Median Income (AMI) with the project's operations supported by a 20 -year project-based Housing Assistance Payment (HAP) contract used to provide Section 8 tenant-based assistance on all 44 units.

## Product Innovation and Flexibility

The bank makes extensive use of innovative and/or flexible lending practices in order to serve AA credit needs. As show in the table below, the bank originated 2,652 loans totaling $\$ 368.4$ million in the AA. Refer to the comments in the Product Innovation and Flexibility section in the front of this performance evaluation for additional details regarding the programs.

| Loan Type | Number of <br> Loans | Dollar Amount <br> $\mathbf{( \$ 0 0 0 ' s )}$ |
| :--- | :---: | :---: |
| DreaMaker | 341 | 48,108 |
| FHA | 855 | 99,492 |
| HARP | 406 | 43,626 |
| VA | 295 | 51,365 |
| SBA | 41 | 24,336 |
| USDA | 714 | 101,483 |

## INVESTMENT TEST

The bank's performance under the Investment Test in Cincinnati MMSA is rated Outstanding.
Based on a full-scope review, the bank's performance in the Cincinnati MMSA is excellent.
The bank has an excellent level of qualified CD investment and grants, although rarely in a leadership position, particularly those that are not routinely provided by private investors. The current and prior period qualified investments represent 52.3 percent of tier 1 capital allocated to the AA. A significant majority, or 74 percent of total investments represent current period investments. All prior period investments support a specific property in a LIHTC fund investment that supports affordable rental housing.

The bank exhibits excellent responsiveness to credit and community economic development needs, including affordable housing, community services, and revitalization/stabilization for low- and moderate-income individuals and geographies. CD investments of 70.1 percent and 24.7 percent focused on affordable housing and revitalization/stabilization, respectively, which are primary community development needs in the AA. Thirty grants totaled $\$ 2.1$ million with 82.9 percent supporting community services and 7.2 percent supporting affordable housing, respectively. All prior period investments support a specific property in a LIHTC fund investment that supports affordable rental housing.

The bank makes significant use of complex investments to support CD initiatives. Nine (29.4 percent) current period investments used NMTC financings which combines tax credit equity with other capital sources. They also serve as catalyst investments that encourage future growth and improvements in the area. Three other investments, overall total of 58.9 percent combined with complexity, serve as a catalyst for other community development activities for revitalization or stabilization that will encourage future growth and improvements in the area.

| Qualified Investments- Cincinnati MMSA |  |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | Prior Period* |  | Current Period |  | Total |  |  |  | Unfunded Commitments** |  |
|  | \# | \$(000's) | \# | \$(000's) | \# | \% of Total \# | \$(000's) | \% of Total \$ | \# | \$(000's) |
| Cincinnati MMSA | 32 | 43,281 | 79 | 122,479 | 111 | 100 | 165,760 | 100 | 0 | 0 |

* Prior Period Investments' means investments made in a previous evaluation period that are outstanding as of the examination date.
** Unfunded Commitments' means legally binding investment commitments that are tracked and recorded by the institution's financial reporting system.

Examples of CD Investments in the AA include:

- In March 2018, there was a $\$ 1.3$ million equity investment to a redevelopment foundation for the renovation and development of 20,313 square feet of commercial space to be located outside downtown Cincinnati, Ohio. It is estimated that the project will create 40 full-time construction jobs, 20 part-time permanent positions and 10 full-time permanent positions. The tenant will post vacancies with the Walnut Hills Job bank (operated by the Foundation), a workforce development initiative designed to connect residents in the area to jobs with special emphasis on career pathway jobs in the neighborhood. The project will also generate foot traffic in an underutilized Peebles Corner Historic District in the Walnut Hills Neighborhood. The investment was complex with the creation of a sub-Community Development Entity (CDE) to help finance the project and use of the NMTC that will encourage future growth and improvements in the area. The investment supports the community needs of economic development, neighborhood revitalization, job creations and workforce training
- In June 2017, the bank originated a $\$ 8.3$ million federal investment and a $\$ 660,000$ million state investment for a project that will preserve and revitalize twelve historic buildings. The buildings are in 13 low-income census tracts within Cincinnati, Ohio Over-The-Rhine neighborhood adjacent to the city's Findlay Market. The renovated buildings will be used to support small business ownership, plus job creation, training and placement for low-income persons and residents of the surrounding severely distressed low-income community. The specific project is supported by the city's plan to revitalize and stabilize The Over Rhine neighborhood. The plan outlines goals for mixed-use developments, enhance small business and microenterprise support programs. The investment supports the community needs of economic development, neighborhood revitalization,
and workforce training. The investments were responsive to revitalize a distressed and blighted neighborhood. The investments were complex with the use of the NMTC model which combines tax credit equity with other capital sources that serve as leverage to generate tax credit subsidies.
- In 2014 through 2018, six grants totally $\$ 525,420$ were provided to a non-profit organization for continued support of its financial center whose mission is to help willing and capable people living in poverty achieve economic self-sufficiency through employment. Financial services are integrated with employment services such that, as members become job ready, secure employment, and advance to higher page jobs over time, they are making sound financial decisions to build financial security. All the individuals served by the organizations are economically disadvantaged and financially needy. The investment was responsive by helping to serve the unemployed and the underemployed, and by providing financial education, job training and placement.

## SERVICE TEST

The bank's performance under the Service Test in the Cincinnati MMSA is rated Outstanding.
Based on a full-scope review, the bank's performance in the Cincinnati MMSA is excellent.

## Retail Banking Services

Service delivery systems are readily accessible to geographies and individuals of different income levels in the bank's AA.

Examiners evaluated the data as outlined in the Scope section at the front of this document including bank-provided data on usage of branches adjacent to low-and moderate-income geographies by individuals residing in those geographies and on increases in the usage of alternative delivery systems.

Based on the data in the table below and performance context, the branch distribution is excellent. The branch distribution in low-income geographies is below and in moderate-income geographies exceeds the percentage of the population in these respective geographies. The bank had two branches in the lowincome geographies and eight branches in moderate-income geographies. The distribution was augmented by one MUI tract branch near low- and moderate-income tracts. Examiners reviewed data on the accounts held and transactions conducted at the adjacent MUI branches and confirmed they were serving the adjacent low- and moderate-income populations.

| Distribution of Branch Delivery System |  |  |  |  |  |  |  | As of December 31, 2019 |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | Deposits | Branches |  |  |  |  |  | Population |  |  |  |
|  | $\%$ of Rated <br> Area <br> Deposits in AA | \# of <br> BANK <br> Branches | \% of <br> Rated <br> Area <br> Branches in AA | Location of Branches by Income of Geographies (\%) |  |  |  | \% of Population within Each Geography* |  |  |  |
|  |  |  |  | Low | Mod | Mid | Upp | Low | Mod | Mid | Upp |
| Cincinnati MMSA |  |  |  |  |  |  |  |  |  |  |  |
|  | 100 | 35 | 100 | 5.7 | 22.9 | 37.1 | 31.4 | 8.7 | 17.7 | 39.0 | 33.4 |

[^104]Alternative delivery systems enhanced the delivery of banking services to geographies and individuals of all income levels. The OCC considered the availability and use of alternative delivery systems over the evaluation period. This included review of the bank's 69 deposit-taking ATMs, online banking, mobile banking, and telephone banking to determine the effectiveness of these systems to make retail banking services available to individuals in low- and moderate-income geographies. The bank increased the deposit-taking ATMs in low- and moderate-income geographies by 10.0 percent over the prior rating period to six (8.7 percent) deposit-taking ATMs in low-income geographies and 16 (23.2 percent) ATMs in moderate-income geographies. Additionally, bank-provided data on use of online, mobile, and telephone banking showed increases in the adoption of these services by low- and moderate-income individuals from the prior rating period.

| Distribution of Branch Openings/Closings |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | \# of Branch Openings | \# of Branch Closings | Net change in Location of Branches (+ or -) |  |  |  |
|  |  |  | Low | Mod | Mid | Upp |
| Cincinnati MMSA | 2 | 4 | 0 | +1 | -4 | +1 |

The bank's opening and closing of branches improved the accessibility of its delivery systems, particularly in moderate-income geographies and/or to low- and moderate-income individuals. The bank did not open or close any branches in low-income geographies and opened one branch in a moderate-income geography and one branch in an upper-income geography. The bank closed four branches in middle-income geographies. The branch closures did not adversely impact the accessibility to retail banking services. Branch closures were due reduced customer usage and proximity to other Chase branches. Despite the branch closures, branch locations remained accessible to geographies and individuals of different income levels in the bank's AA.

Services, including where appropriate, business hours, do not vary in a way that inconveniences the various portions of the AA, particularly low- and moderate-income geographies and/or individuals. Generally, branches are open Monday through Friday from 9:00 am to 6:00 pm and Saturday from 9:00 am to 2:00 pm. Branches also have drive-up hours of 8:30 am to $6: 00 \mathrm{pm}$ Monday through Friday and on Saturday 9:00 am to 2:00 pm. All retail banking services are available at all branches within the lowand moderate-income geographies.

## Community Development Services

The bank is a leader in providing CD services that are responsive to AA needs. CD services positively affected the service test performance in the MMSA.

Bank employees provided financial, job-specific expertise, or technical assistance for 389 CD service activities to 22 organizations, for a total of 1,424 hours during the evaluation period. All the bank's assistance was to organizations that provide community services to low- and moderate-income individuals and families. The bank's community development services were responsive to the community needs in the AA, particularly affordable housing, and workforce development needs. The following are examples of CD services provided:

- Over the six-year evaluation period, three bank employees provided homebuyer education activities to 528 low- and moderate-income bank customers.
- For two years, seven bank employees provided technical assistance to a local nonprofit whose mission is to partner with all willing and capable people living in poverty, to assist them in developing job skills to become self-sufficient.

# Multistate Metropolitan Statistical Area Rating 

## Wheeling, WV-OH MMSA (Wheeling MMSA)

CRA rating for the Wheeling, WV-OH MMSA ${ }^{7}$ : Satisfactory<br>The Lending Test is rated: High Satisfactory<br>The Investment Test is rated: Outstanding<br>The Service Test is rated: Needs to Improve

The major factors that support this rating include:

- A good level of lending activity.
- An overall good geographic distribution of home mortgage loans and small loans to businesses.
- An overall good borrower distribution of home mortgage loans and small loans to businesses.
- No CD loans were made, which has a negative effect on the Lending Test rating.
- The extensive use of innovative/flexible lending products, which positively affected the rating.
- An excellent level of qualified CD investments that displayed excellent responsiveness to credit and community economic development needs.
- Retail service delivery systems that are unreasonably inaccessible to geographies and individuals of different income levels in the bank's AA.
- A record of opening and closing branches that adversely affected the accessibility of delivery systems, particularly in moderate-income geographies.

## Description of Institution's Operations in Wheeling MMSA

The Wheeling MMSA is Chase's $29^{\text {th }}$ largest rating area based on deposits of $\$ 198.3$ million, representing less than one percent of the bank's total deposits. As of December 31, 2019, the bank operated two branches and three deposit-taking ATMs in the rating area. The bank originated and purchased approximately $\$ 65.7$ million in loans during the evaluation period in the MMSA.

According to FDIC Deposit Market Share Data, as of June 30, 2019, there were 14 banks s operating 59 branches s in the MMSA. Chase ranked eighth in deposit market share with 5.2 percent. The top three banks and market share are WesBanco Bank, Inc. ( 36.3 percent), United Bank (10.7 percent), and Unified Bank (8.7 percent).

Chase has delineated the entire multistate Wheeling MMSA as its AA. Refer to appendix A for a complete listing of counties that comprise the MMSA.

## Description of Full-Scope AA

The following table provides a summary of the demographics that includes housing and business information for the Wheeling MMSA. Due to ACS and OMB boundary changes, there are no lowincome census tracts in the MMSA during the 2017 to 2019 period.

[^105]Table A indicates that approximately 19.1 percent of families in the AA are low-income. The Wheeling MMSA's cost of housing generally makes homeownership affordable for most LMI borrowers. The median housing value in the Wheeling MMSA is approximately 1.7 times the median income, 2.1 times the moderate-income, and 3.4 times the low-income, indicating a large proportion of OOUs are affordable to low- and moderate-income borrowers. One simplistic method used to determine housing affordability assumes a maximum monthly principal and interest payment of no more than 36 percent of the applicant's income.

In the Wheeling MMSA, assuming a 30 -year mortgage with a 5 percent interest rate, 3.0 percent down payment, and not accounting for homeowners insurance, real estate taxes, or any additional monthly expenses, a low-income borrower making $\$ 28,426$ per year (or less than 50 percent of the FFIEC adjusted median family income in the MMSA) could afford a $\$ 135,508$ mortgage with a payment of $\$ 853$ per month; a moderate-income borrower earning $\$ 45,482$ per year (or less than 80 percent of the FFIEC adjusted median family income in the AA) could afford a $\$ 216,790$ mortgage with a payment of \$1,364 per month.

## Economic Data

According to the November 2019 Moody's Analytics report, the area economy is weak. The area has a low per capita income and low educational attainment. The population is declining and rapidly aging. The area is a major center for natural resources (i.e., mining) and health care professional services, however, the labor market is weak. From mid-2018 to mid-2019 employment fell approximately one percent. Natural resources and construction, which propelled net hiring in 2018 is now shedding staff. Healthcare is struggling because of hospital closures. In 2019, health care jobs fell by five percent
following the closure of two local hospitals, one of which was a major employer of the area. As a result, the unemployment rate shot up by more than a full percentage point to 6.1 percent and is the highest in West Virginia. Experts noted that employment in the natural resources sector will taper off in 2019. The coal export business has been a major contributor for increased earnings in the area. However, the demand for the coal export business may not rise at a faster rate than to the amount of coal used in domestic electricity production, resulting in flat employment for the mining industry. The top three major employers include Wheeling Hospital Inc, Murray Energy, and Ohio Valley Medical Center, which closed in 2019. It is anticipated that the falling population will limit the demand on the housing market putting downward pressure on the house prices.

## Community Contacts

A review was conducted of three community contacts completed during the examination period. The contacts were conducted with organizations located throughout the rating area. The mission of the organizations contacted focused on several areas including affordable housing, economic development, workforce development, community services, and asset development and financial stability. Contacts noted concerns regarding financing for affordable housing and volunteers for community service efforts. Contacts observed that there could be more opportunities for involvement with local financial institutions. Due to the demographic composite, diversity is limited in the community profile. Drug addiction is a growing concern in the area and as a result many grandparents are serving as the primary guardian to children in the area. The contacts identified the following needs in the area:

- Financing for low- to moderate-income housing
- Affordable housing and affordable rental housing
- Community services
- Neighborhood and environmental revitalization programs
- Homebuyer education and counseling programs for first time homebuyers
- Economic and Workforce Development

## Scope of Evaluation in Wheeling MMSA

The Wheeling MMSA received a full-scope review.

## CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS IN WHEELING, WV-OH MMSA

## LENDING TEST

The bank's performance under the Lending Test in the Wheeling MMSA is rated High Satisfactory.
Based on a full-scope review, the bank's performance in the Wheeling MMSA is good.

## Lending Activity

Lending levels reflect good responsiveness to AA credit needs in the AA.
Examiners considered the number and amount of home mortgage, small business, and small farm loans originated or purchased relative to Chase's capacity based on deposits, competition, and market
presence. Lending activity for home mortgage and small loans to businesses received the most weight in reaching conclusions. Respectively, home mortgage lending and small loans to businesses account for 31.2 percent and 67.5 percent of the loan volume in the MMSA by number and 64.1 and 35.4 percent of loan volume by dollar. Small farm lending is not a strategic focus of the bank and received minimal weight in reaching conclusions. Farm loans represented 1.2 percent of the loan volume in the state by number and 0.4 percent loan volume by dollar.

| Number of Loans |  |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | Home <br> Mortgage | Small <br> Business | Small <br> Farm | Community <br> Development | Total |  |
| Wheeling MMSA | 441 | 951 | 17 | 0 | 1,409 |  |

| Dollar Volume of Loans (\$000's) |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | Home <br> Mortgage | Small <br> Business | Small <br> Farm | Community <br> Development | Total |
| Wheeling MMSA | 42,213 | 23,287 | 256 | 0 | 65,756 |

As of June 30, 2019, Chase ranked eighth in deposits out of 14 institutions with 5.2 percent market share.

In overall home mortgage lending, Chase ranked seventh out of 186 lenders with 3.1 percent market share. This is a competitive market. The top three lenders in the market are WesBanco Bank (14.1 percent), Huntington National Bank ( 8.6 percent), and Quicken Loans ( 6.5 percent)

In small loans to businesses, Chase ranked first out of 59 lenders with 15 percent market share. Other major lenders are Synchrony Bank ( 14.5 percent) and American Express National Bank (13.2 percent).

In small loans to farms, Chase ranked second out of 8 lenders with an 18.5 percent market share. The other major lenders and respective market shares are Wells Fargo Bank, N.A. ( 25.9 percent), Farmers National Bank (14.8 percent), Capital One, N.A. (11.1 percent), and U.S. Bank, N.A. (11.1 percent).

## Distribution of Loans by Income Level of the Geography

The bank exhibits good geographic distribution of loans in its AA.

## Home Mortgage Loans

Refer to Table O in the Multi State Wheeling section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of home mortgage loan originations and purchases for this evaluation is adequate. The following information was taken into consideration when determining this rating.

- The percentage of OOU in MI geographies dropped from 18.7 percent between 2014 and 2016 to 6.3 percent between 2017 and 2019. The additional challenge of high competition resulted in a poor proportion of loans to OOUs in moderate-income areas and poor performance against the aggregate.
- Between 2017 and 2019, the proportion of loans in moderate-income areas was well below both the percentage of owner-occupied units and the aggregate distribution of loans. There were no lowincome geographies in the AA during this period.
- Stronger performance in low- and moderate-income geographies between the 2014 and 2016 time periods affected overall conclusions. The proportion of loans in low-income areas was well below the percentage of owner-occupied units but near to the aggregate distribution of loans. The proportion of loans in moderate-income areas exceeded both the percentage of owner-occupied units and the aggregate distribution of loans.

## Small Loans to Businesses

Refer to Table Q in the Multi State Wheeling section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to businesses.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to businesses for this evaluation is good. The following information was taken into consideration when determining this rating.

- Between 2017 and 2019, the proportion of small loans to businesses in moderate-income geographies exceeded the proportion of businesses and was near to the aggregate distribution of all lenders.
- During 2014 to 2016, the bank's performance was weaker, particularly in low-income geographies, and negatively affected aggregated conclusions. The proportion of small loans to businesses in lowincome geographies was below the proportion of businesses and the aggregate distribution, while the proportion of small loans to businesses in moderate-income geographies was near to both the proportion of businesses and aggregate distribution.

## Small Loans to Farms

Refer to Table S in the Multi State Wheeling section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to farms.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to farms is poor. The following information was taken into consideration when determining this rating.

- The fact that farm lending is not a focus of the bank was considered.
- Between 2017 and 2019, the bank made no small loans to farms in moderate-income geographies.
- During the 2014 to 2016 period, the bank made no small loans to farms in low- and moderateincome geographies.

## Lending Gap Analysis

A review of home mortgage loans, small loans to business, and small loans to farms including summary reports and AA maps did not identify any unexplained conspicuous lending gaps in the bank's activities.

## Distribution of Loans by Income Level of the Borrower

The bank exhibits a good distribution of loans among individuals of different income levels and businesses of different sizes.

## Home Mortgage Loans

Refer to Table P in the Multi State Wheeling section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall borrower distribution of home mortgage loan originations and purchases for this evaluation is good. The following information was taken into consideration when determining this rating.

- Examiners considered the competition and the economic constraints discussed above in the description of this full-scope AA.
- Between 2017 and 2019, the proportion of loans to low-income borrowers was below the percentage of low-income families and near to the aggregate distribution of lenders. The proportion of loans to moderate-income borrowers exceeded the proportion of moderate-income families and was near to the aggregate distribution.
- During 2014 to 2016, the bank's performance was weaker than performance between 2017 to 2019. The proportion of loans to low-income borrowers was well below the percentage of low-income families and below the aggregate distribution of lenders. The proportion of loans to moderateincome borrowers exceeded the proportion of moderate-income families and was below the aggregate distribution.

## Small Loans to Businesses

Refer to Table R in the Multi State Wheeling section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's originations and purchases of small loans to businesses.

Based on the data in the tables and the following factors, the distribution of the bank's originations and purchases of small loans to businesses by revenue category is good. The following information was taken into consideration when determining this rating.

- Greater significance was placed on performance against the aggregate distribution as it reflects the difficulties all lenders are experiencing due to competition and the economic constraints discussed above under the Description of this Full-Scope AA.
- Between 2017 and 2019, the bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was consistent with performance between 2017 and 2019. The bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and exceeded the aggregate distribution.

## Community Development Lending

The bank did not make any CD loans.
Wheeling MMSA is a very small market that receives one or two LIHTC allocations on average, annually. This market receives no LIHTC allocations in some years. While the bank was unable to make any CD loans during the period, the bank continued to meet the needs of the low- and moderateincome individuals and geographies in Wheeling MMSA through qualified CD investments and service activities.

The Lending Activity Tables, shown above, set forth the information and data used to evaluate the bank's level of CD lending. These tables include all CD loans, including multifamily loans that also qualify as CD loans.

## Product Innovation and Flexibility

The bank made extensive use of innovative and/or flexible lending practices in order to serve AA credit needs. As shown in the table below, the bank originated 249 loans totaling $\$ 20.3$ million in the AA. Refer to the comments in the Product Innovation and Flexibility section of this performance evaluation for additional details regarding the programs.

| Loan Type | Number of <br> Loans | Dollar Amount <br> $\mathbf{( \$ 0 0 0 ' s )}$ |
| :--- | :---: | :---: |
| DreaMaker | 36 | 3,974 |
| FHA | 21 | 2,118 |
| HARP | 15 | 1,406 |
| VA | 12 | 1,890 |
| SBA | 3 | 222 |
| USDA | 162 | 10,707 |

## INVESTMENT TEST

The bank's performance under the Investment Test in Wheeling MMSA is rated Outstanding.
Based on a full-scope review, the bank's performance in the Wheeling MMSA is excellent. The bank has an excellent level of qualified CD investment and grants, but not in a leadership position, particularly those that are not routinely provided by private investors. Current and prior period investment dollar volume represents 11.2 percent of tier 1 capital allocated to the AA. A significant majority or 90.9 percent of total investments represent current period investments.

The bank exhibits excellent responsiveness to credit and community economic development needs identified in the AA, which includes affordable housing for low- and moderate-income individuals and geographies. All current and prior period investments focused on affordable housing. The bank created or supported 189 low- and moderate-income housing units for individuals and families.

The bank does not use innovative and/or complex investments to support CD initiatives. However, all affordable housing investments were placed into LIHTC funds for the AA.

| Qualified Investments - Wheeling MMSA |  |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area (AA) | Prior Period* |  | Current Period |  | Total |  |  |  | UnfundedCommitments** |  |
|  | \# | \$(000's) | \# | \$(000's) | \# | \% of Total \# | \$(000's) | \% of Total \$ | \# | \$(000's) |
| Wheeling MMSA | 3 | 259 | 4 | 2,589 | 7 | 100 | 2,848 | 100 | 0 | 0 |

* Prior Period Investments' means investments made in a previous evaluation period that are outstanding as of the examination date.
** Unfunded Commitments' means legally binding investment commitments that are tracked and recorded by the bank's financial reporting system.
Examples of CD Investments in the AA include:
- From May 2014 through June 2016, the bank invested $\$ 2$ million in a LIHTC housing fund to provide 40 affordable rental units to low- and moderate-income individuals and families in the AA. Investments were in partnership with a nonprofit financial intermediary based in Columbus, Ohio.
- From December 2016 through July 2018, the bank invested \$600,000 in a LIHTC fund to provide 19 affordable rental units to low- and moderate-income individuals and families in the AA.
Investments were in partnership with a nonprofit financial intermediary based in Columbus, Ohio.

## SERVICE TEST

The bank's performance under the Service Test in Wheeling MMSA is rated Needs to Improve.
Based on a full-scope review, including the data in the tables below and performance context, the bank's performance in the Wheeling MMSA is poor.

## Retail Banking Services

Service delivery systems are unreasonably inaccessible to portions of the AA, particularly moderateincome geographies and/or moderate-income individuals.

Examiners evaluated the data as outlined in the Scope section at the front of this document including bank-provided data on usage of branches adjacent to low- and moderate-income geographies by individuals residing in those geographies and on increases in the usage of alternative delivery systems. As there are no low-income geographies, the analysis and discussion are based on performance in moderate-income geographies and to low- and moderate-individuals.

Based on the data in the table below and performance context, the branch distribution is poor. In moderate-income geographies, the distribution is well below the percentage of the population as there are no branches. The distribution was augmented by two MUI tract branches that serve the moderateincome tracts. Examiners reviewed data on the accounts held and transactions conducted at the MUI branches and confirmed they were serving the adjacent moderate-income populations.

| Distribution of Branch Delivery System |  |  |  |  |  |  |  | As of December 31, 2019 |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

* May not add up to 100 percent due to geographies with unknown tract income level and rounding

Alternative delivery systems did not enhance the delivery of banking services to geographies and individuals of all income levels. The OCC considered the availability and use of alternative delivery systems over the evaluation period. This included review of the bank's three deposit-taking ATMs, online banking, mobile banking, and telephone banking to determine the effectiveness of these systems to make retail banking services available to individuals in moderate-income geographies. The bank did not increase ATMs in the AA during the evaluation period and had no ATMs in moderate-income geographies. Additionally, bank-provided data on use of online, mobile, and telephone banking showed decreases in the adoption of these services by low- and moderate-income individuals from the prior rating period.

| Distribution of Branch Openings/Closings |  |  |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | Net change in Location of Branches <br> $(+$ or -$)$ |  |  |  |  |
| Assessment <br> Area | \# of Branch <br> Openings | \# of Branch <br> Closings | Low | Mod | Mid | Upp |  |
| Wheeling <br> MSA | 0 | 3 | 0 | -2 | -1 | 0 |  |

The bank's closing of branches has significantly adversely affected the accessibility of its delivery systems, particularly in moderate-income geographies and/or to moderate-income individuals. The bank closed its two branches in moderate-income geographies. Prior to the branch closures, the branch distribution in moderate-income geographies exceeded the percentage of the population in those geographies. Branch closures were due to reduced customer usage and unprofitability. The branch closures reduced the accessibility to geographies and individuals of different income levels in the bank's AA.

Services, including where appropriate, business hours, vary in a way that significantly inconveniences the various portions of its AA, particularly moderate-income geographies and/or low-and moderateincome individuals. Generally, branches are open Monday through Friday from 9:00 am to 6:00 pm and on Saturday from 9:00 am to $2: 00 \mathrm{pm}$. However, due to the branch closures, the availability of low-cost or no-cost cash withdrawal services were negatively affected.

## Community Development Services

The bank provided an adequate level of CD services.
Bank records show that one employee provided technical assistance and/or job-specific expertise for 56 CD service activities to four organizations for a total of 65 qualified hours of service within the AA over a six-year period. Much of the bank's assistance was to organizations that provide community services
to low- and moderate-income individuals and families. The CD services provided were responsive to the identified need to homebuyer education. The following is an example of CD services provided in the AA:

- The bank employee provided 19 hours of homebuyer education to 36 moderate-income individuals on homeownership and the home loan approval process.

## State Rating

## State of Arizona

CRA rating for the State of Arizona ${ }^{8}$ : Satisfactory
The Lending Test is rated: High Satisfactory
The Investment Test is rated: High Satisfactory
The Service Test is rated: Outstanding
The major factors that support this rating include:

- An excellent level of lending activity.
- Adequate geographic distribution of home mortgage loans and small loans to businesses.
- Good borrower distribution of home mortgage loans and small loans to businesses.
- A relatively high level of CD loans, which positively affected the rating.
- The extensive use of innovative/flexible products, which positively affected the rating.
- A significant level of qualified investments that displayed excellent responsiveness to community development needs.
- The extensive use of complex investments.
- Retail service delivery systems that are readily accessible to geographies and individuals of different income levels.
- A high level of CD services that are responsive to AA needs.

## Description of Institution's Operations in Arizona

The state of Arizona is Chase's $7^{\text {th }}$ largest rating area based on aggregate deposits of $\$ 33.3$ billion, representing 2.5 percent of the bank's total deposits. As of December 31, 2019, the bank operated 227 branches and 648 deposit-taking ATMs within the rating area, representing 4.7 percent of total branches and 3.9 percent of total ATMs. The bank originated and purchased approximately $\$ 22.8$ billion in loans or 3.2 percent of total bank loan originations and purchases during the evaluation period in the state.

According to FDIC Deposit Market Share Data, as of June 30, 2019, there were 68 banks operating 1,157 branches in the state of Arizona. Chase ranked first in deposit market share with 23.5 percent. Major competitors in the state based on deposit market share include Wells Fargo Bank N.A. (21.5 percent); Bank of America, N.A. (17.5 percent), and Western Alliance Bank ( 6.7 percent).

The bank delineated eight AAs in Arizona. The Phoenix-Mesa-Chandler MSA and Tucson MSA, which respectively account for 77.0 percent and 11.3 percent of the bank's deposits in Arizona, received fullscope reviews. The Flagstaff MSA, Lake Havasu City-Kingman MSA, Prescott Valley-Prescott MSA, Sierra Vista-Douglas MSA, Yuma MSA, and AZ Non-MSA AA received limited-scope reviews. Refer to appendix A for a complete description of the AAs.

## Description of Full-Scope AAs

## Phoenix-Mesa-Chandler, AZ MSA

[^106]The following table provides a summary of the demographics that includes housing and business information for the Phoenix MSA AA. Table A indicates that the volume of OOUs is very small in lowincome CTs and over 21.9 percent of families in the AA are low-income. The area's median housing value in the Phoenix MSA AA is three times the MSA median income, but four times the moderate- and more than six times low-income, indicating a limited proportion of OOUs are affordable to LMI. Median rents and the significant percentage of families below poverty level suggest rental housing is also unaffordable for many low-income residents.

## Economic Data

According to Moody's Analytics November 2019 report, the strengths of the Phoenix-Mesa-Chandler, AZ MSA include robust population growth and in-migration; a hub for the relocation and expansion of financial and business services firms; and lower business costs than California. The large construction industry as well as undersize manufacturing and transportation and warehousing are propelling the economy, with each expanding headcount by more than 6.0 percent in the past year. The area remains a magnet for relocating residents and expanding businesses. There is ample demand to build new homes, healthcare facilities, stores, restaurants, offices, factories, and warehouses. Construction makes up an above-average 6.0 percent of total jobs. Major employment industries include professional and business services; education and health services; and government. The area is heavily reliant on finance jobs because its reasonable costs, large and fast-growing labor pool, and friendly business environment make it ideal for back-office and operations roles. Major employers in the area include Banner Health System; Walmart; Wells Fargo Bank, N.A.; and Arizona State University. Home price growth in the area has slowed in 2019 but is still faster than the nation. Some of the deceleration is due to a greater supply of single-family homes as housing starts accelerating.

## Community Contacts

Examiners considered four community contacts completed during the review period with entities serving the area. The contacts were with organizations focused on providing financing for affordable housing and economic development, and technical assistance to small businesses. Contacts noted that the area has a growing wealth gap. While there continues to be an influx of older and affluent individuals, many low-income residents struggle. There is a large population of young, Hispanic residents that is struggling and underserved. Housing costs in the city center are increasing and many low-income individuals must relocate to suburban areas and commute into Phoenix for work. According to the contacts, small businesses need access to smaller dollar loans for working capital purposes. Many smaller businesses utilize credit cards to meet short term smaller dollar amount credit needs. Also, nonprofit organizations in the area need support to help expand their capacity.

## Tucson, AZ MSA

The following table provides a summary of the demographics that includes housing and business information for the Tucson CSA AA. Table A below indicates that the volume of OOUs is very small in low-income CTs and over 39 percent of families in the AA are LMI. The area's median housing value in the Tucson CSA AA is three times the MSA median income, but over four times moderate-income, and more than six times low-income, indicating a limited proportion of OOUs are affordable to LMI. Median rents and the significant percentage of families below poverty level suggest rental housing is also unaffordable for many low-income residents.

## Economic Data

According to Moody's Analytics November 2019 report, the Tucson area economy is expanding. The area has a highly educated workforce thanks to the presence of the University of Arizona. The area has significant healthcare and hospitality industries due to robust tourism and retirement inflows. The area also has strength in defense related aerospace manufacturing as it is the location of the headquarters and factory of Raytheon's Missile Systems Division. The aerospace industry has accounted for 12.0 percent of the net job creation in the Tucson area since 2015. Since aerospace roles in Arizona pay an average annual wage of more than $\$ 100,000$, spending by aerospace workers in the area boosts the construction, healthcare, hospitality, and retail industries. Raytheon plans to add 1,000 employees during the next couple of years. Major employment industries include government; education and health services; and professional and business services. Major employers in the area include the University of Arizona, Raytheon Missile Systems; Davis Monthan Airforce Base, Walmart, Inc., and U.S. Customs and Border Patrol. House price gains exceed those nationally, however, this is due in part to a lack of supply. In addition, single-family homebuilding is flat despite accelerating population growth.

## Community Contacts

Examiners considered information from a Community contact completed during the examination period. The contact was with an organization focused on affordable housing and small business support and development. The contact noted that Hispanic small business owners are underserved and need assistance and support to gain access to mainstream banking services. The contact also noted that there is a need to bring equity to the community. Other needs identified in the community include affordable housing, fair wages, financial literacy, employee ownership, access to healthy food, and support for environmental sustainability initiatives.

## Scope of Evaluation in Arizona

The Phoenix-Mesa-Chandler, AZ MSA and Tucson, AZ MSA received full-scope reviews. The two MSAs combined account for 88.3 percent of the deposits and 90.3 percent of lending in the state. The Phoenix-Mesa Chandler, AZ MSA received greater weight based on the volume of deposits and lending. The remaining six AAs received a limited-scope review. Performance in limited-scope AAs and its effect on the CRA rating is discussed at the end of each test.

## CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS IN ARIZONA

## LENDING TEST

The bank's performance under the Lending Test in the state of Arizona is rated High Satisfactory.
Performance in AAs receiving limited-scope reviews was factored together with performance from AAs receiving full-scope reviews to determine the state's overall High Satisfactory Lending Test rating. Limited-scope conclusions did not significantly affect the initial overall conclusions based on the AAs receiving full-scope review.

## Conclusions for Areas Receiving Full-Scope Reviews

Based on full-scope reviews, the bank's performance in the Phoenix-Mesa-Chandler and TucsonNogales MSAs is good. Overall excellent lending levels and good borrower distribution of loans offset
weaker adequate geographic distribution. Product innovation and flexibility was considered favorably, and the relatively high level of CD lending positively affected the rating.

## Lending Activity

Lending levels reflect an excellent responsiveness to the credit needs in the bank's AAs.
Examiners considered the number and amount of home mortgage, small business, and small farm loans originated or purchased relative to Chase's capacity based on deposits, competition, and market presence. Lending activity for home mortgage and small loans to businesses received the most weight in reaching conclusions. Respectively, home mortgage lending and small loans to businesses account for 38.4 percent and 61.1 percent of the loan volume in the state by number and 86.2 and 12.4 percent of loan volume by dollar. Small farm lending is not a strategic focus of the bank and received minimal weight in reaching conclusions. Farm loans represented 0.45 percent of the loan volume in the state by number and 0.05 percent loan volume by dollar.

| Number of Loans* | Home <br> Mortgage | Small <br> Business | Small <br> Farm | Community <br> Development | Total | \% State <br> Loans | \% State <br> Deposits |

| Total | $19,037,901$ | $2,742,150$ | 12,378 | 290,682 | $22,083,111$ | 100.0 | 100.0 |

[^107]Chase ranked first in deposits out of 63 institutions with 23.2 percent market share.
In overall home mortgage lending, Chase ranked second with 5.0 percent market share placing it in the top one percent of lenders. This is a very competitive market with 929 lenders and no single lender dominated the market. Other major home lenders with respective market shares are Wells Fargo Bank, N.A. (7.0 percent), U.S. Bank, N.A. (4.5 percent), and Quicken Loans (3.6 percent). The volume of loan originations made by non-banks to low- and moderate-income borrowers in Arizona increased by 22.0 percent between 2010 and 2018.

Chase ranked first in small loans to businesses with 20.9 percent market share. There were 208 lenders in the MSA. Other major lenders and market share are American Express National Bank (16.6 percent), Citibank, N.A. (14.4 percent), and Wells Fargo Bank, N.A. (10.5 percent).

Chase ranked first in small loans to farms with 33.5 percent market share. There were 30 lenders in the MSA. Other major lenders and market share are Wells Fargo Bank, N.A. (29.9 percent) and John Deere Financial, F.S.B. (10.9 percent).

## Tucson, AZ MSA

Chase ranked second in deposits out of 20 institutions with 23.2 percent market share.
In overall home mortgage lending, Chase ranked fourth with 4.4 percent market share placing it in the top 1 percent of lenders. This is a very competitive market with 557 home mortgage lenders. The top three lenders and market share are Nova Financial (10.6 percent), Wells Fargo Bank, N.A. (8.0 percent), and Sunstreet Mortgage ( 4.9 percent). The volume of loan originations made by non-banks to low- and moderate-income borrowers in Arizona increased by 22.0 percent between 2010 and 2018.

In small loans to business, Chase ranked first with 18.7 percent market share. There were 110 lenders in the MSA. Other major lenders and their market share are Citibank, N.A. (15.1 percent), American Express National Bank (14.1 percent), and Wells Fargo Bank, N.A. (12.1 percent).

Chase ranked first in small loans to farms with 38.6 percent market share. There were 13 lenders in the MSA. Other major lenders and market share are Wells Fargo Bank, N.A. (30.1 percent), Capital One , N.A. (9.9 percent), and U.S. Bank, N.A. (7.23 percent).

## Distribution of Loans by Income Level of the Geography

The bank exhibits an adequate geographic distribution of loans in its AAs.

## Home Mortgage Loans

Refer to Table O in the state of Arizona section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of home mortgage loan originations and purchases is adequate. The following information was taken into consideration when determining this rating.

## Phoenix-Mesa-Chandler MSA

- The limited proportion of housing units in low-income geographies, particularly OOUs (4.5 percent) and constrained lending opportunities were noted; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of OOUs in those geographies.
- The high level of competition in the AA (930 home mortgage lenders) was also considered and examiners placed greater significance on performance compared to the aggregate of lenders.
- Between 2017 and 2019, the proportion of loans in low-income geographies was below the percentage of OOUs and the aggregate distribution of lenders. In moderate-income geographies, the proportion of loans was below the percentage of OOUs and near to the aggregate distribution.
- Performance in low- and moderate-income geographies during the 2014 to 2016 period was consistent with performance during the 2017 to 2019 period.

## Tucson MSA

- The limited proportion of housing units in low-income geographies, particularly OOUs (4.7 percent) and constrained lending opportunities was noted; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of OOUs in those geographies.
- The high level of competition in the AA (930 home mortgage lenders) was also considered and examiners placed greater significance on performance compared to the aggregate of lenders.
- Between 2017 and 2019, the proportion of loans in low-income geographies was below the percentage of OOUs and the aggregate distribution of lenders. In moderate-income geographies, the proportion of loans was below the percentage of OOUs and exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was weaker than performance in 2017 to 2019. The proportion of loans in low- income geographies was well below the percentage of OOUs and the aggregate distribution of lenders. In moderate-income areas, the distribution was below the percentage of OOUs and substantially met the aggregate distribution of lenders.

## Small Loans to Businesses

Refer to Table Q in the state of Arizona section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to businesses.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to businesses is adequate. The following information was taken into consideration when determining this rating.

## Phoenix-Mesa-Chandler MSA

- Between 2017 and 2019, the proportion of loans to small businesses in low- and moderate-income geographies was below the proportion of businesses in those geographies and the aggregate distribution.
- Performance in low- and moderate-income geographies during the 2014 to 2016 period was consistent with performance during the 2017 to 2019 period.

## Tucson MSA

- Between 2017 and 2019, the proportion of loans to small businesses in low- and moderate-income geographies was near to the proportion of businesses in those geographies and substantially met the aggregate distribution.
- During 2014 to 2016, the bank's performance was generally consistent with performance in 2017 to 2019. The 2014 to 2016 performance in low- and moderate-income geographies substantially met the proportion of businesses and respectively met and exceeded the aggregate distribution.

## Small Loans to Farms

Refer to Table S in the state of Arizona section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to farms.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to farms is good. The following information was taken into consideration when determining this rating.

## Phoenix-Mesa-Chandler MSA

- The limited percentage of farms in low-income geographies (5.5 percent) constrained lending opportunities; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of farms in those geographies.
- The high level of competition in the AA (30 lenders) and the fact that farm lending is not a focus of the bank was also considered and examiners placed greater significance on performance compared to the aggregate of lenders.
- Between 2017 and 2019, the proportion of loans to small farms in low- and moderate-income geographies was respectively well below and below the proportion of farms in those geographies and below the aggregate distribution.
- Performance in low- and moderate-income geographies during the 2014 to 2016 period was generally consistent with performance during the 2017 to 2019 period. The proportion of loans to small farms in low- and moderate-income geographies was respectively well below and below the proportion of farms in those geographies and below the aggregate distribution.

## Tucson MSA

- The limited percentage of farms in low-income geographies (4.4 percent) constrained lending opportunities; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of farms in those geographies.
- The high level of competition in the AA (13 lenders) and the fact that farm lending is not a focus of the bank was also considered and examiners placed greater significance on performance compared to the aggregate of lenders.
- Between 2017 and 2019, the bank made no small farm loans in low-income geographies. The proportion of loans to small farms in moderate-income geographies was near to the proportion of farms in those geographies and significantly exceeded the aggregate distribution.
- Performance in low- and moderate-income geographies during the 2014 to 2016 period was generally consistent with performance during the 2017 to 2019 period. The bank made no small farm loans in low-income geographies. The proportion of loans to small farms in moderate-income geographies was well below the proportion of farms in those geographies and the aggregate distribution.

## Lending Gap Analysis

A review of home mortgage loans, small loans to business, and small loans to farms including summary reports and AA maps did not identify any unexplained conspicuous lending gaps in the bank's activities.

## Distribution of Loans by Income Level of the Borrower

The bank exhibits a good distribution of loans among individuals of different income levels and business of different sizes.

## Home Mortgage Loans

Refer to Table P in the state of Arizona section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall borrower distribution of home mortgage loan originations and purchases for this evaluation is good. The following information was taken into consideration when determining this rating.

## Phoenix-Mesa-Chandler MSA

- Greater significance was placed on performance against the aggregate distribution as it reflects the difficulties all lenders are experiencing due to competition and the economic constraints discussed above under the Economic Data for this full-scope AA.
- Between 2017 and 2019, the proportion of loans to low-income borrowers was well below the percentage of low-income families and exceeded the aggregate distribution of lenders. The proportion of moderate-income loans exceeded both the proportion of moderate-income families and the aggregate distribution.
- During 2014 to 2016, the bank's performance was consistent with performance between 2017 to 2019. The proportion of loans to low-income borrowers was well below the percentage of lowincome families and exceeded the aggregate distribution of lenders. The proportion of moderateincome loans exceeded both the proportion of moderate-income families and the aggregate distribution.

## Tucson-Nogales MSA

- Greater significance was placed on performance against the aggregate distribution as it reflects the difficulties all lenders are experiencing due to competition and the economic constraints discussed above under the Description of the Full-Scope AA.
- Between 2017 and 2019, the proportion of loans to low-income borrowers was well below the percentage of low-income families and exceeded the aggregate distribution of lenders. The proportion of moderate-income loans exceeded both the proportion of moderate-income families and the aggregate distribution.
- During 2014 to 2016, the lending performance to low-income borrowers was generally consistent with the 2017 to 2019 performance while lending performance to moderate-income borrowers was slightly weaker. The proportion of loans to low-income borrowers was well below the percentage of low-income families and exceeded the aggregate distribution of lenders. The proportion of moderate-income loans met both the proportion of moderate-income families and the aggregate distribution.

## Small Loans to Businesses

Refer to Table R in the state of Arizona section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's origination and purchase of small loans to businesses.

Based on the data in the table and the following considerations, the distribution of the bank's originations and purchases of small loans to businesses by revenue category is good. The following information was taken into consideration when determining this rating.

## Phoenix-Mesa-Chandler MSA

- Greater significance was placed on performance against the aggregate distribution of lenders as it reflects the difficulties all lenders are experiencing due to competition and the economic constraints discussed above under the Description of the Full-Scope AA.
- Between 2017 and 2019, the bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was consistent with performance between 2017 and 2019. The bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was well below the percentage of businesses and exceeded the aggregate distribution.

## Tucson-Nogales MSA

- Greater significance was placed on performance against the aggregate distribution lenders as it reflects the difficulties all lenders are experiencing due to competition and the economic constraints discussed above under the Description of the Full-Scope AA.
- Between 2017 and 2019, the bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was consistent with performance between 2017 and 2019. The bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and exceeded the aggregate distribution.

## Small Loans to Farms

Refer to Table T in the state of Arizona section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's origination and purchase of small loans to farms.

Based on the data in the table and the following considerations, the distribution of the bank's originations and purchases of small loans to farms by revenue category is good. The following information was taken into consideration when determining this rating.

## Phoenix-Mesa-Chandler MSA

- The high level of competition in the AA (30 lenders) and the fact that farm lending is not a focus of the bank was considered and examiners placed greater significance on performance compared to the aggregate of lenders.
- Between 2017 and 2019, the bank's percentage of loans to farms with revenues of $\$ 1$ million or less was below the percentage of businesses and substantially exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was consistent with performance between 2017 and 2019. The bank's percentage of loans to farms with revenues of $\$ 1$ million or less was below the percentage of businesses and substantially exceeded the aggregate distribution.

## Tucson MSA

- The high level of competition in the AA (13 lenders) and the fact that farm lending is not a focus of the bank was considered and examiners placed greater significance on performance compared to the aggregate of lenders.
- Between 2017 and 2019, the bank's percentage of loans to farms with revenues of $\$ 1$ million or less was well below the percentage of businesses and exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was consistent with performance between 2017 and 2019. The bank's percentage of loans to farms with revenues of $\$ 1$ million or less was well below the percentage of businesses and exceeded the aggregate distribution.

## Community Development Lending

The bank has made a relatively high level of CD loans.
The Lending Activity Tables, shown above, set forth the information and data used to evaluate the bank's level of CD lending. These tables include all CD loans, including multifamily loans that also qualify as CD loans.

## Phoenix-Mesa-Chandler MSA

The bank made 27 CD loans in the AA for a total of $\$ 227$ million, which represents 6.9 percent of the tier 1 capital allocated to the AA. The bank's CD loans within the AA were responsive to identified community needs with the primary purposes of affordable housing and community service. The bank's CD loans for affordable housing helped create or retain approximately 900 affordable housing units.

Examples of CD loans include:

- In December 2018, the bank originated a $\$ 12$ million loan to finance the purchase of tax-exempt construction bonds. Proceeds of the purchase of the bonds were used to finance the new construction of an affordable housing development in Surprise, AZ. The project provided 100 affordable housing units that are restricted to households with income of 60 percent or less of the AMI.
- In May 2018, the bank originated a $\$ 3.8$ million loan to a school district. The school district serves a student population where 85 percent are from low- and moderate-income families. The funding was used to construct and renovate school facilities, including acquisition of land, improvement of the general facility and grounds, purchase of pupil transportation vehicles, and payment of costs associated with the issuance of the bonds.
- In April 2015, the bank funded a $\$ 3.7$ million Taxable Qualified School Construction Bond. The financing was used for the lease-purchase of equipment for three of the schools in district 210.

## Tucson-Nogales MSA

The bank made nine CD loans in the AA for a total of $\$ 53$ million, which represents 10.9 percent of the tier 1 capital allocated to the AA. The bank's CD loans within the AA were for the primary purposes of affordable housing and community service. The bank's CD loans were responsive in providing affordable housing and educational opportunities to meet the needs of those in the AA.

Examples of CD loans include:

- In June 2017, the bank provided a $\$ 1$ million loan to a non-profit organization that serves the rural poor throughout the state of Arizona, including the bank's AA. The entity offers education, training, and practical life skills.
- In June 2017, the bank funded an $\$ 11$ million loan for the construction of 70 units of housing in Tucson. All units were for individuals earning 60 percent or less of the AMI.
- In September 2017, the bank originated a $\$ 4.7$ million loan for construction of 80 affordable housing units in a multifamily project in the AA. The project consists of 100 multifamily units restricted to individuals earning 60 percent or less of the AMI.

## Product Innovation and Flexibility

The bank makes extensive use of innovative and/or flexible lending practices to serve credit needs in each of the full-scope AAs reviewed. Refer to the comments in the Product Innovation and Flexibility section in the front of this performance evaluation for program details.

## Phoenix-Mesa-Chandler MSA

The bank funded 10,237 loans totaling $\$ 2$ billion under the following innovative and/or flexible programs.

| Loan Type | Number of <br> Loans | Dollar Amount <br> $\mathbf{( \$ 0 0 0 ’ s )}$ |
| :--- | :---: | :---: |
| DreaMaker | 2,209 | 418,041 |
| FHA | 2,301 | 362,460 |
| HARP | 1,839 | 269,270 |
| VA | 1,956 | 474,197 |
| SBA | 642 | 268,729 |
| USDA | 1,290 | 180,610 |

## Tucson-Nogales MSA

The bank funded 2,648 loans totaling $\$ 432.7$ million under the following innovative and/or flexible programs.

| Loan Type | Number of <br> Loans | Dollar Amount <br> $\mathbf{( \$ 0 0 0 ’ s )}$ |
| :--- | :---: | :---: |
| DreaMaker | 190 | 27,588 |
| FHA | 699 | 95,629 |
| HARP | 483 | 59,134 |
| VA | 613 | 133,787 |
| SBA | 92 | 28,216 |
| USDA | 571 | 88,346 |

## Conclusions for Areas Receiving Limited-Scope Reviews

Performance in the limited-scope AAs was factored into the state's overall High Satisfactory Lending Test rating and did not significantly change the initial overall conclusions based on the AAs receiving full-scope review. Based on limited-scope reviews, the bank's performance under the Lending Test in the Sierra Vista-Douglas MSA and Yuma MSA is consistent with the bank's overall good performance. The bank's performance in the Flagstaff MSA, Lake Havasu City-Kingman MSA, Prescott ValleyPrescott MSA, and Arizona Non-MSA is weaker than the bank's overall good performance due to weaker geographic distribution of loans and neutral CD lending.

Refer to Tables O through T in the state of Arizona section of appendix D for the facts and data that support these conclusions.

## INVESTMENT TEST

The bank's performance under the Investment Test in the state of Arizona is rated High Satisfactory.

## Conclusions for Areas Receiving Full-Scope Reviews

Based on full-scope reviews, the bank's performance in the Phoenix-Mesa-Chandler MSA and Tucson MSA is good.

## Phoenix-Mesa-Chandler MSA

The bank has a significant level of qualified CD investments and grants particularly those that are not routinely provided by private investors, although not in a leadership position. The current and prior period qualified investments represent 5.1 percent of tier 1 capital allocated to the AA. A large majority (75 percent) of total qualified investments were current period investments.

The bank exhibits excellent responsiveness to credit and community economic development needs. Ninety-two percent of investments support affordable housing, four percent support community services, and four percent support economic development. These categories are CD needs in the MSA. Fifty-five grants totaled $\$ 12$ million with 54.0 percent, 36.0 percent, and 8.0 percent, supporting revitalization/stabilization, community services and affordable housing, respectively. CD investments created or retained 4,592 affordable housing units.

The bank makes extensive use of complex investments to support CD initiatives. Eleven current period investments, or 73.6 percent of the total dollar of current investments are considered complex and are primarily Direct Investor LIHTCs. Direct Investor LIHTCs require bank expertise and capacity in selecting projects and partners, negotiating agreements, overseeing project development and operations, and ensuring compliance. One CD investment and five grants, or 7.5 percent of the total dollar of current investments are catalyst investment as they are related to NMTC financing or are for other community development activities that will encourage future growth and improvements in the area.

Examples of community development investments in the AA include:

- In 2019, the bank provided a $\$ 425$ thousand grant to a community development corporation based in Phoenix for its workforce and transit-oriented housing project. Funding is for predevelopment costs associated with the construction of 190 units of workforce and affordable housing in a low-income area. The project is located on an unoccupied site that is blighted and part of a transit-oriented development, near the Ed Pastor Transit Center (a major bus hub) and the future location of the light rail extension. The project aligns with the City of Phoenix's General Plan (2015), that has a specific component for transit-oriented development that speaks to including affordable and accessible housing for areas around light rail stations, and transit centers and hubs. This involved complex financing due to the number of sources required to support the program. This activity serves as a catalyst for other community development activities as it is part of a local government plan for revitalization or stabilization that will encourage future growth and improvements in the area.
- In 2015, the bank invested $\$ 14.5$ million in a LIHTC affordable housing project. The project is for the redevelopment of a distressed office building and the creation of a 74- units of affordable housing.

## Tucson MSA

The bank has an adequate level of qualified CD investments and grants particularly those that are not routinely provided by private investors, although not in a leadership position. Current and prior period qualified investments represent 2.8 percent of tier 1 capital allocated to the AA. A significant majority, or 98 percent, were current period investments.

The bank exhibits excellent responsiveness to credit and community economic development needs, including community services and affordable housing. All CD investments focused on affordable housing. Thirteen grants totaled $\$ 1.5$ million, with 89.0 percent and 11.0 percent supporting community services and affordable housing, respectively. CD investments created or retained 301 affordable housing units.

The bank makes extensive use of complex investments to support CD initiatives. An $\$ 11$ million Direct Investor LIHTC or 84.0 percent of current period investments was considered complex. Direct Investor transactions require bank expertise and capacity in selecting projects and partners, negotiating agreements, overseeing project development and operations, and ensuring compliance.

An example of a complex community development investments in the AA follows:

- In September 2019, the bank originated a $\$ 11$ million LIHTC equity investment for the new construction of a permanent supportive housing project in Tucson. The project will provide 50 units for homeless and formerly homeless individuals and families with a preference for veterans. Thirty units will be offered at 30 percent of AMI, eleven units at 50 percent and nine units at 60 percent of AMI. There will be 46 units covered by a project-based Section 8 rental assistance from the City of Tucson. An associated nonprofit organization will provide social and supportive services for the project along with the Arizona Department of Veterans Services and the Southern Arizona VA Health Care system. In addition, the bank will provide a $\$ 10.2$ million construction loan and a $\$ 2.2$ million permanent loan to complete the project.

* Prior Period Investments' means investments made in a previous evaluation period that are outstanding as of the examination date.
** Unfunded Commitments' means legally binding investment commitments that are tracked and recorded by the institution's financial reporting system.

## Statewide Investments in State of Arizona

The bank has qualified investments throughout the state of Arizona whose $\mathrm{P} / \mathrm{M} / \mathrm{F}$ include serving the AAs. All are grants to community development organizations supporting community services and economic development. There is one broader statewide investment with no $\mathrm{P} / \mathrm{M} / \mathrm{F}$ to serve a specific AA supporting affordable housing. The level of investments in the broader statewide area further supports the bank's overall good performance under the Investment Test in the state of Arizona.

## Conclusions for Areas Receiving Limited-Scope Reviews

Performance in the limited-scope AAs was factored into the state's overall High Satisfactory Investment Test rating and did not significantly change the initial overall conclusions based on the AAs receiving full-scope review. Based on limited-scope reviews, the bank's performance under the Investment Test in the Sierra Vista-Douglas MSA is consistent with the bank's good performance in the full-scope areas. The bank's performance under the Investment Test in the Yuma MSA and Flagstaff MSA is stronger than the good in the full-scope areas due to higher levels of qualified investments. The bank's performance in the Lake Havasu City-Kingman MSA, Prescott Valley-Prescott MSA, and Arizona NonMSA AA is weaker than the bank's performance in the full-scope areas due to lower level of investments.

## SERVICE TEST

The bank's performance under the Service Test in the state of Arizona is rated Outstanding.

## Conclusions for Areas Receiving Full-Scope Reviews

Based on the full-scope reviews, the bank's performance in the Phoenix-Mesa-Chandler, AZ MSA is excellent and the performance in the Tucson-Nogales, AZ CSA is good. More weight was given to the Phoenix-Mesa-Chandler, AZ AA due to the bank's larger deposit base and branch presence.

## Retail Banking Services

Service delivery systems are readily accessible to geographies and individuals of different income levels in the bank's full-scope AAs.

Examiners evaluated the data as outlined in the Scope section at the front of this document including bank-provided data on usage of branches adjacent to low-and moderate-income geographies by individuals residing in those geographies and on increases in the usage of alternative delivery systems.

## Phoenix-Mesa-Chandler, AZ MSA

Based on the data in the table below and performance context, the branch distribution is excellent. In low- and moderate-income geographies the distribution is respectively below and near to the percentage of the population. The bank had nine branches in low-income geographies and 29 branches in moderate-income geographies. The distribution was augmented by three MUI tract branches that serve low-income tracts and 27 MUI tract branches that serve moderate-income tracts. Examiners reviewed data on the accounts held and transactions conducted at the MUI branches and confirmed they were serving the adjacent low- and moderate-income populations.

## Tucson-Nogales, AZ CSA

Based on the data in the table below and performance context, the branch distribution is good. In lowand moderate-income geographies, the distribution is respectively well below and exceeds the percentage of the population. The bank had one branch in a low-income geography and 12 branches in moderate-income geographies. The distribution was augmented by seven MUI tract branches that serve two low- and seven moderate-income tracts. Examiners reviewed data on the accounts held and transactions conducted at the adjacent MUI branches and confirmed they were serving those low- and moderate-income populations.

## Phoenix-Mesa-Chandler, AZ MSA

Alternative delivery systems enhanced the delivery of banking services to geographies and individuals of all income levels. The OCC considered the availability and use of alternative delivery systems over the evaluation period. This included review of the bank's 466 deposit-taking ATMs, online banking, mobile banking, and telephone banking to determine the effectiveness of these systems to make retail banking services available to individuals in low- and moderate-income geographies. The bank increased the deposit-taking ATMs in low- and moderate-income geographies by 23.3 percent over the prior rating period to 36 ( 7.7 percent) deposit-taking ATMs in low-income geographies and 93 ( 20.0 percent) ATMs in moderate-income geographies. Additionally, bank-provided data on use of online, mobile, and telephone banking showed increases in the adoption of these services by low- and moderate-income individuals from the prior rating period.

## Tucson-Nogales, AZ CSA

Alternative delivery systems enhanced the delivery of banking services to geographies and individuals of all income levels. The OCC considered alternative delivery systems, including the bank's 153 deposit-taking ATMs, online banking, mobile banking, and telephone banking in evaluating the bank's ability to deliver retail banking services to individuals in LMI geographies. The bank increased the deposit-taking ATMs in low- and moderate-income geographies by 25.9 percent over the prior rating period to two ( 2.3 percent) deposit-taking ATMs in low-income geographies and 32 (36.4 percent) ATMs in moderate-income geographies. Bank-provided data for online, mobile, and telephone banking
showed increases in the adoption of these services by low- and moderate-income individuals from the prior rating period.

| Phoenix- <br> Mesa- <br> Chandler <br> MSA | 1 | 42 | 0 | -7 | -20 | -14 |
| Tucson- <br> Nogales CSA | 1 | 7 | -2 | -1 | -1 | -2 |

Phoenix-Mesa-Chandler, AZ MSA
The bank's opening and closing of branches has generally not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and/or to low- and moderateincome individuals. The bank did not open or close any branches in the low-income geographies and closed seven branches in moderate-income geographies. Branch closures were due to the bank's strategy to exit the market, reduced customer usage, and proximity to other Chase branches. Despite the branch closures, branch locations remained accessible to geographies and individuals of different income levels in the bank's AA.

Services, including where appropriate, business hours, do not vary in a way that inconveniences the AA, particularly low- and moderate-income geographies and/or individuals. Generally, branches are open Monday through Friday from 9:00 am to 6:00 pm and on Saturday from 9:00 am to 2:00 pm. All retail banking services are available at all branches within the low- and moderate-income geographies.

## Tucson-Nogales, AZ CSA

The bank's opening and closing of branches has generally not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and/or to low- and moderateincome individuals. The bank closed two branches in low-income geographies and one branch in a moderate-income geography. Branch closures were due to reduced customer usage and proximity to other Chase branches. Bank data indicated the use of nearby branches by individuals residing in lowand moderate-income geographies. The accessibility of the nearby branches to low-income individuals mitigates the impact of the branch closures.

Services, including where appropriate, business hours, do not vary in a way that inconveniences its AA, particularly low- and moderate-income geographies and/or individuals. Generally, branches are open Monday through Friday from 9:00 am to 6:00 pm and Saturday from 9:00 am to 1:00 pm. All retail banking services are available at all branches within the low- and moderate-income geographies.

## Community Development Services

## Phoenix-Mesa-Chandler, AZ MSA

The bank is a leader in providing CD services that are responsive to identified needs in the AA.

Bank employees provided financial, job-specific expertise, or technical assistance for 1,742 CD activities to 30 groups for a total of 8,058 hours during the evaluation period. The majority of the bank's assistance went to organizations that provide services to low- and moderate-income individuals and families. These services were responsive to the needs for financial literacy and affordable housing. The following are examples of CD services provided in this AA.

- Bank employees provided 139 homeownership and financial literacy seminars for low- and moderate-income customers through partnership with a non-profit organization.
- Bank employees provided more than 3,200 hours of financial literacy training through a partnership with a non-profit dedicated to educating students about entrepreneurship, work readiness, and financial literacy.

## Tucson-Nogales, AZ CSA

The bank is a leader in providing CD services that are responsive to identified needs in the AA.
Review of bank records show that employees provided financial or job-specific expertise and/or technical assistance for 240 CD services to eight organizations, for a total of 750 hours. A substantial amount of the bank's assistance was to organizations that provide community services to low- and moderate-income individuals and families. These services were responsive to the identified needs in the AA, including financial literacy, homebuyer education, and financial capability building. The following are examples of CD services provided in this AA.

- A bank employee provided a first-time homebuyer seminar for 26 low- and moderate-income individuals interested in homeownership in coordination with a nonprofit that served the low- and moderate-income community.
- A bank employee provided a financial literacy seminar to 20 low- and moderate-income individuals covering the basic concepts of financial literacy as it relates to everyday economics and how they apply this information into adulthood.

## Conclusions for Areas Receiving Limited-Scope Reviews

Performance in the limited-scope AAs was factored into the state's overall Outstanding Service Test rating and did not significantly change the initial overall conclusions based on the AAs receiving fullscope review. Based on limited-scope reviews, the bank's performance under the Service Test in the Prescott, AZ and Yuma, AZ AAs is stronger than the bank's overall performance under the Service Test in the full-scope areas due to better branch distribution in low- and moderate-income geographies. The bank's performance under the Service Test in the Flagstaff, AZ; Lake Havasu City-Kingman, AZ; Sierra Vista-Douglas, AZ; and Arizona Non-Metropolitan AAs is weaker than the bank's overall performance under the Service Test in the full-scope areas due to weaker percentage of branch distribution in lowand moderate-income geographies.

## State Rating

## State of California

CRA rating for the State of California ${ }^{9}$ : Outstanding
The Lending Test is rated: Outstanding
The Investment Test is rated: Outstanding
The Service Test is rated: High Satisfactory
The major factors that support this rating include:

- An excellent level of lending activity.
- Excellent geographic distribution of home mortgage loans and small loans to businesses.
- Good borrower distribution of home mortgage loans and small loans to businesses.
- A leader in making CD loans, which positively affected the rating.
- The extensive use of innovative/flexible products, which positively affected the rating.
- An excellent level of qualified CD investments that displayed excellent responsiveness to community economic development needs.
- The significant use of complex investments.
- Broader statewide investments, which positively affected the rating.
- Retail service delivery systems that are accessible to geographies and individuals of different income levels.
- Leadership in providing CD services that are responsive to AA needs.

## Description of Institution's Operations in California

The state of California is Chase's $3^{\text {rd }}$ largest rating area based on aggregate deposits of $\$ 157.7$ billion, representing 11.2 percent of the bank's total deposits. As of December 31, 2019, the bank operated 977 branches and 3,875 ATMs within the rating area, representing 20 percent of total branches and 23.5 percent of total ATMs. The bank originated and purchased approximately $\$ 255.9$ billion in loans or 36.7 percent of total bank loan originations and purchases during the evaluation period in the state.

According to FDIC Deposit Market Share Data, as of June 30, 2019, there were 199 banks operating 6,734 branches in the state of California. Chase ranks third in deposit market share with 10.8 percent. Major competitors in the state based on deposit market share include Bank of America, N.A. ranked first (21.3 percent) and Wells Fargo Bank, N.A. ranked second (17.6 percent).

The bank delineated 15 AAs in the state of California. The Los Angeles-Long Beach, CA CSA (Los Angeles or LA CSA), San Jose-San Francisco-Oakland, CA CSA (San Francisco or SF CSA), and Bakersfield MSA, which combined account for nearly 82 percent of the deposits and 79 percent of lending in the state, received full-scope reviews. The Chico MSA, El Centro MSA Fresno-Madera CSA, Modesto-Merced CSA, Redding-Red Bluff CSA, Sacramento-Roseville CSA, Salinas MSA, San Diego-Chula Vista-Carlsbad MSA, San Luis Obispo-Paso Robles MSA

[^108]Santa Maria-Santa Barbara MSA, Visalia-Porterville-Hanford CSA, and the California Non-MSA received limited-scope reviews. The Refer to appendix A for a complete description of each AA.

## Description of Full-Scope AAs

## Los Angeles CSA

The following table provides a summary of the demographics that includes housing and business information for the Los Angeles CSA. Table A indicates that the volume of OOUs is small in lowincome census tracts ( 2.6 percent) and over 23.9 percent of families in the AA are low-income. The Los Angeles CSA's high cost of housing also limits access to affordable homeownership among LMI borrowers. The median housing value in the Los Angeles CSA ranges from five to seven times the median income, over ten times the moderate-income, and up to 14 times the low-income, indicating a limited proportion of OOUs are affordable to low- and moderate-income borrowers. The NAR 4Q2019 median sales price was $\$ 617,300$ for the Los Angeles CSA. One simplistic method used to determine housing affordability assumes a maximum monthly principal and interest payment of no more than 30 percent of the applicant's income.

In the Los Angeles CSA, assuming a 30-year mortgage with a 5 percent interest rate, and not accounting for down payment, homeowners insurance, real estate taxes, or any additional monthly expenses, a lowincome borrower making $\$ 38,576$ per year (or less than 50 percent of the FFIEC adjusted median family income in the MSA) could afford a $\$ 179,650$ mortgage with a payment of $\$ 964$ per month; a moderateincome borrower earning $\$ 61,726$ per year (or less than 80 percent of the FFIEC adjusted median family income in the AA) could afford a $\$ 287,460$ mortgage with a payment of $\$ 1,543$ per month.

Median rents and the significant percentage of families below poverty level suggest rental housing is also unaffordable for many low-income residents.

## Economic Data

According to the Moody's Analytics November 2019 report, the strengths of the Los Angeles area include a strong healthcare base and growing technology presence that provides well-paying jobs: and global links through tourism, entertainment, and tourism. However, the labor market is tight, and at 4.4 percent the jobless rate is at a historic low. Difficulty finding labor is driving up wages and pressuring profits. The area has a high cost of living and a high cost of doing business and is prone to disasters such as drought, wildfires, and earthquakes; all issues that can impact population migration.

The Los Angeles area has long been the epicenter of the entertainment industry, however, the outlook for the area's entertainment industry is uncertain. Los Angeles is losing out to North Carolina, Michigan, Georgia, Louisiana, and other localities that have spent millions to attract film productions.

Major employment sectors include education and health services; professional and business services; government; and leisure and hospitality services. Major employers in the Los Angeles area include University of California Los Angeles; Kaiser Permanente; University of Southern California; and Northrup Grumman Corp. In terms of housing, labor shortages and higher material costs are limiting new residential construction. Multifamily starts are flat this year and single-family starts, though up since the first quarter, are below the 2018 average.

## Community Contacts

Four community contacts completed during the examination period were reviewed to gain an understanding of the needs in the community. Contacts were completed with organizations focused on affordable housing and economic development/small business. Contacts noted that the Los Angeles area has an extremely diverse population. Gentrification and displacement are a concern as low-income individuals get pushed out of certain communities and must relocate to more affordable areas within the region. Parts of the area such as Los Angeles and the Oxnard-Thousand Oaks-Ventura area have a very high cost of living which poses multiple challenges for low-income residents. Contacts also noted that there is a lack of private capital flowing into low- and moderate-income areas. Credit and community development needs mentioned for the area include:

- Affordable rental housing in areas experiencing population growth
- Homebuyer counseling
- Support for financial education/literacy and self-sufficiency programs for low-income households and individuals
- Technical assistance for small businesses
- Flexible capital resources for newer small businesses; and
- More financing for affordable multi-family housing development.

Contacts noted that there are numerous opportunities for banks to help address credit and community development needs by offering flexible lending products for both affordable housing and small businesses; grant support; and technical assistance to non-profit organizations.

## $\underline{\text { San Francisco CSA }}$

The following table provides a summary of the demographics that includes housing and business information for the San Francisco CSA. Table A indicates that the volume of OOUs is small in lowincome census tracts ( 3.9 percent) and over 23.9 percent of families in the AA are low-income. The San Francisco CSA's high cost of housing also limits access to affordable homeownership among LMI borrowers. The area's median housing value in the San Francisco CSA ranges from five to ten times the median income. The NAR 4Q2019 median sales price was $\$ 990,000$ for the San Francisco CSA. One simplistic method used to determine housing affordability assumes a maximum monthly principal and interest payment of no more than 30 percent of the applicant's income.

Using the same assumptions as above for the San Francisco CSA, a low-income borrower making $\$ 57,486$ per year (or less than 50 percent of the FFIEC adjusted median family income in the MSA) could afford a $\$ 267,715$ mortgage with a payment of $\$ 1,437$ per month; a moderate-income borrower earning $\$ 91,985$ per year (or less than 80 percent of the FFIEC adjusted median family income in the AA) could afford a $\$ 428,378$ mortgage with a payment of $\$ 2,300$ per month.

## Economic Data

According to Moody's Analytics November 2019 Report, the economy in the area is strong. The unemployment rate is historically low. The San Francisco and San Jose portions of the AA have a welleducated and highly skilled workforce. Technology firms are the driving force of the economy, particularly in Silicon Valley, located in the southern portion of the region. The Oakland portion of the assessment area benefits from its proximity to Silicon Valley and is a more affordable option for technology firms looking for a Bay Area address with lower cost industrial and office space. The Bay Area is the world's premier destination for the development of new tech products and services, and Oakland is an escape valve for neighboring San Francisco. Educational attainment is also among the nation's highest and the area boasts major universities, national laboratories, and many private sector technology firms. Weaknesses within these portions of the AA include high living costs, congestion, and the high cost of housing. Housing affordability is a significant concern in this portion of the AA. The housing market is tight and low affordability is weighing on housing demand. Major employment industries in the area include professional and business services and education and health services. Major employers include Apple, Inc.; Alphabet; Stanford University; University of California San Francisco, Genentech; and Wells Fargo Bank, N.A.

## Community Contacts

Six community contacts completed with organizations serving the area during the examination period were reviewed to ascertain credit and community development needs. Contacts were completed with organizations focused on affordable housing; small business and economic development; community services; youth services; and workforce development. Contacts noted that housing costs in the area are skyrocketing and that households need incomes more than $\$ 150,000$ to qualify for a mortgage, provided they can even find a house to purchase. This is especially a challenge in Oakland and San Francisco. Many low- and moderate-income households are being displaced as higher wage-earning individuals move into areas that have previously been deemed affordable. There is a growing wealth gap in the area. The "gig economy" (without benefits) is taking the place of full-time employment. Commercial space is hard to find, impacting small businesses. Small mom and pop businesses in what had traditionally been low-income neighborhoods are being displaced. Employees of smaller businesses can
no longer afford to live in the city centers and are being forced to move further away to areas that are more affordable thereby increasing commute times and congestion. Contacts identified multiple community needs and indicated that there are ample opportunities for financial institutions to support these needs. Needs identified include the following:

- Grants for a variety of needs including operations, loan loss reserves, small business, foreclosure prevention, financial education, and technical assistance providers were mentioned;
- Multi-year grant commitments;
- Financial literacy education by partnering with non-profit organizations that is customized for various community needs such as refugees, small businesses, and consumers;
- Small dollar loans for small businesses (\$500-\$50,000);
- Funding for Micro-lending Programs;
- Small business loans including term loans and lines of credit;
- Consumer loans tailored for low- and/or moderate-income;
- Pilot special programs with nonprofits for first time home buyers and small businesses;
- Down Payment Assistance programs;
- CDFI investments; and
- Equity equivalent investments to provide low cost capital.

## Bakersfield MSA

The following table provides a summary of the demographics that includes housing and business information for the Bakersfield MSA. Table A indicates that the volume of OOUs is small in lowincome census tracts ( 5.6 percent) and over 24.8 percent of families in the AA are low-income. The Bakersfield MSA's cost of housing is generally more reasonable than the nearby Los Angeles area making access to homeownership generally more affordable for moderate-income borrowers, though a challenge for low-income borrowers. The median housing value in the Bakersfield MSA $(\$ 160,795)$ is three times the median income. One simplistic method used to determine housing affordability assumes a maximum monthly principal and interest payment of no more than 30 percent of the applicant's income.

Using the similar assumptions as above for the Bakersfield MSA, a low-income borrower making $\$ 26,324$ per year (or less than 50 percent of the FFIEC adjusted median family income in the MSA) could afford a $\$ 74,213$ mortgage with a payment of $\$ 789$ per month; a moderate-income borrower earning $\$ 42,119$ per year (or less than 80 percent of the FFIEC adjusted median family income in the AA) could afford a 154,113 mortgage with a payment of $\$ 1,263$ per month.

## Economic Data

According to Moody's Analytics November 2019 report, the Bakersfield area's strengths include a favorable location for warehousing and distribution: abundant farmland, and a young population with improving migration. The area's weaknesses include low industrial diversity; low educational attainment; and high poverty. The area has fallen behind Fresno as the state's largest agriculturalproducing county, and the area's farming sector will require fewer workers over the short term. Table grapes, the metro area's largest crop, will likely see a smaller harvest in 2019 than in the previous year. Prices hit a five-year low earlier in 2019 and remain below the long-term average, pressuring farmers’ bottom lines. Bakersfield is the world's largest almond producer and according to government estimates, the almond harvest will be similarly reduced. Labor costs remain high, exacerbated by stricter immigration policies that disproportionately affect agriculture by limiting access to seasonal migrant workers. Bakersfield does have a large military presence, which helps to provide some economic stability to the area. Major employers in the area include Edwards Airforce Base; China Lake Naval Weapons Center; Grimmway Farms; and Bolthouse Farms. Despite a stable number of housing starts and steady, above-average price appreciation, low affordability in this high-poverty metro area is holding back stronger growth.

## Community Contacts

Two community contacts completed during the examination period with organizations serving the AA were reviewed. Contacts were completed with organizations focused on affordable housing and small business. Contacts noted that the area has a high percentage of very low-income households. Opportunities exist for local financial institutions to provide direct services like flexible branch hours, low cost savings accounts, and other products tailored to low-income individuals. Contacts indicated that there is a huge need for affordable housing. The county has lower housing costs relative to the rest of the state; however, income levels are also very low. The supply of affordable housing has not kept up with demand. In addition to affordable housing, other needs identified in the area include:

- Small business lending; particularly micro-loans and smaller dollar business loans;
- Collaboration for regional economic development;
- Financial support for start-up businesses; and
- Grants, loan capital or land to non-profit organizations to help with operating costs and other financing programs.

## Scope of Evaluation in California

The Los Angeles CSA, San Francisco CSA, and Bakersfield MSA received full-scope reviews. The Los Angeles CSA and San Francisco CSA combined account for nearly 82 percent of the deposits and 79 percent of lending in the state. More weight was placed on performance in the Los Angeles CSA based on the bank's higher level of deposits and lending. The Bakersfield MSA was also evaluated using fullscope procedures as it has not received a full-scope review in prior performance evaluations. The remaining 12 AAs in the state of California received limited-scope reviews. Performance in limitedscope AAs and their effect on the CRA rating are discussed at the end of each test.

## CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS IN CALIFORNIA

## LENDING TEST

The bank's performance under the Lending Test in the state of California is rated Outstanding.
Performance in AAs receiving limited-scope reviews was factored together with performance from AAs receiving full-scope reviews to determine the state's overall Outstanding Lending Test rating. Limitedscope conclusions did not significantly affect the initial overall conclusions based on the AAs receiving full-scope review.

## Conclusions for Areas Receiving Full-Scope Reviews

Based on full-scope reviews, the bank's performance in the Los Angeles CSA and the San Francisco CSA is excellent and performance in the Bakersfield MSA is good. Overall excellent lending levels, geographic distribution of loans, and CD lending offset weaker but good borrower distribution. Product innovation and flexibility was considered favorably.

## Lending Activity

Lending levels reflect an excellent responsiveness to the credit needs in the bank's AAs.
Examiners considered the number and amount of home mortgage, small business, and small farm loans originated or purchased relative to Chase's capacity based on deposits, competition, and market presence. Lending activity for home mortgage and small loans to businesses received the most weight in reaching conclusions. Respectively, home mortgage lending and small loans to businesses account for 27.4 percent and 71.7 percent of the loan volume in the state by number and 89.3 and 6.5 percent of loan volume by dollar. Small farm lending is not a strategic focus of the bank and received minimal weight in reaching conclusions. Farm loans represented 0.5 percent of the loan volume in the state by number and 0.03 percent loan volume by dollar.

| Number of Loans* |  |  |  |  |  |  |  |

## $\underline{\text { Los Angeles CSA }}$

Chase ranked third in deposits out of 130 institutions with a market share of 13.2 percent.
In overall home mortgage lending, Chase ranked third out of 1,057 lenders with a 5.5 percent market share. No single lender dominated the market. The two lenders ranked first and second in the market are respectively Wells Fargo Bank, N.A. ( 7.7 percent) and Bank of America, N.A. ( 6.9 percent).

In small loans to businesses, Chase ranked second out of 275 lenders with 18.1 percent market share. Other major lenders are American Express National Bank (21.8 percent), Bank of America, N.A. (13.6 percent, and Citibank, N.A. (12.3 percent).

In small loans to farms, Chase ranked first out of 30 lenders with a 29.5 percent market share. The other major lenders and respective market shares are Wells Fargo Bank, N.A. (21.7 percent), Bank of America, N.A. (17.8 percent), and U.S. Bank, N.A. (14.1 percent).

## San Francisco CSA

Chase ranked fifth in deposits out of 92 institutions with a 7.7 percent market share.
In overall home mortgage lending, Chase ranked third out of 855 home mortgage lenders with 6.0 percent market share placing it in the top one percent of lenders. This is a very competitive market. The two lenders ranked first and second in the market are respectively Wells Fargo Bank, N.A. (11.6 percent), and Bank of America, N.A. (8.9 percent).

In small loans to businesses, Chase ranked first out of 208 lenders with 22.7 percent market share. The other major lenders are American Express National Bank (17.9 percent), Bank of America, N.A. (13.1 percent), and Wells Fargo Bank, N.A. (11.4 percent).

In small loans to farms, Chase ranked first out of 32 lenders with a 24.5 percent market share. The other major lenders and respective market shares are Wells Fargo Bank, N.A. (18.4 percent), Bank of America, N.A. (11.0 percent), and Farmers \& Merchants Bank. (10.5 percent).

## Bakersfield MSA

Chase ranked third in deposits out of 20 institutions with 12.9 percent market share.
In overall home mortgage lending, Chase ranked ninth out of 526 lenders with 2.7 percent market share placing it in the top 2 percent of lenders. This is a very competitive market with no single lender dominating. The top four lenders with market share are Wells Fargo Bank, N.A. ( 6.6 percent), Quicken Loans ( 3.7 percent), Loan Depot.com LLC ( 3.6 percent), and Kern Schools Federal Credit Union (3.4 percent).

In small loans to businesses, Chase ranked third out of 95 lenders with 12.2 percent market share. The two lenders ranked first and second in the market are respectively American Express National Bank (15.1 percent) and Citibank, N.A. (14.0 percent).

In small loans to farms, Chase ranked second out of 18 lenders with a 21.9 percent market share. The other major lenders and respective market shares are Wells Fargo Bank, N.A. (31.8 percent), Bank of America, N.A. (14.3 percent), and Capital One, N.A. (9.9 percent).

## Distribution of Loans by Income Level of the Geography

The bank exhibits an excellent geographic distribution of loans in its AAs.

## Home Mortgage Loans

Refer to Table O in the state of California section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of home mortgage loan originations and purchases is excellent. The following information was taken into consideration when determining this rating.

## Los Angeles CSA

- The limited proportion of housing units in low-income geographies, particularly OOUs ( 2.5 percent), and constrained lending opportunities were noted; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of OOUs in those geographies.
- The high level of competition in the AA (1,057 home mortgage lenders) was also considered and examiners placed greater significance on performance compared to the aggregate of lenders.
- Between 2017 and 2019, the proportion of loans in low-income areas exceeded the percentage of owner-occupied units and aggregate distribution of loans. In moderate-income areas, the proportion of loans substantially met the percentage of owner-occupied units and aggregate distribution of loans.
- During 2014 through 2016, performance in low-income geographies exceeded the percentage of owner-occupied units and aggregate distribution of loans, while performance in moderate-income geographies was below the percentage of owner-occupied units and near to the aggregate distribution of loans.

## $\underline{\text { San Francisco CSA }}$

- The limited proportion of housing units in low-income geographies, particularly OOUs (3.9 percent), and constrained lending opportunities were noted; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of OOUs in those geographies.
- The high level of competition in the AA (855 home mortgage lenders) was also considered and examiners placed greater significance on performance compared to the aggregate of lenders.
- Between 2017 and 2019, the proportion of loans in low- and moderate-income geographies respectively exceeded and substantially met the percentage of owner-occupied units and was near to the aggregate distribution of all lenders.
- Between 2014 and 2016, the proportion of loans in low- and moderate-income areas was respectively near to and below the percentage of owner-occupied units and was below the aggregate distribution of loans for low- and moderate-income geographies.

## Bakersfield MSA

- The limited proportion of housing units in low-income geographies, particularly OOUs ( 5.6 percent), and constrained lending opportunities was noted; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of OOUs in those geographies.
- The high level of competition in the AA (526 home mortgage lenders) was also considered and examiners placed greater significance on performance compared to the aggregate of lenders.
- Between 2017 and 2019, the proportion of loans in low-income areas was well below the percentage of owner-occupied units and below the aggregate distribution of loans. The proportion of loans in moderate-income areas was below the percentage of owner-occupied units and near to the aggregate distribution of loans.
- Between 2014 and 2016, the proportion of loans in low-income areas was well below the percentage of owner-occupied units and near to the aggregate distribution of loans. The proportion of loans in moderate-income areas was below the percentage of owner-occupied units and exceeded the aggregate distribution of loans.

## Small Loans to Businesses

Refer to Table Q in the state of California section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to businesses.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to businesses for this evaluation is good. The following information was taken into consideration when determining this rating.

## Los Angeles CSA

- The small proportion of businesses in low-income geographies (4.7 percent) and competition between 275 lenders constrained lending opportunities to existing businesses. Therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of businesses in those geographies.
- Performance against the aggregate distribution of lenders was given additional consideration as it reflects the difficulties all lenders are experiencing due to the economic constraints discussed above
under the Description of the Full-Scope AA. The economic data particularly indicates the high cost of doing business and limited labor force as challenges for businesses.
- Between 2017 and 2019, the proportion of small loans to businesses in low-income geographies was below both the proportion of businesses and the aggregate distribution, while the proportion of small loans to businesses in moderate-income geographies was near to both the proportion of businesses and the aggregate distribution
- During 2014 to 2016, the bank's proportion of small loans to businesses in low- and moderateincome geographies was below the proportion of businesses and near to the aggregate distribution.

## San Francisco CSA

- Performance against the aggregate distribution of lenders was given additional consideration as it reflects the difficulties all lenders are experiencing due to the economic constraints discussed above under the Description of the Full-Scope AA. The economic data particularly indicates the high cost of doing business and limited affordable commercial space.
- Between 2017 and 2019, the proportion of small loans to businesses in low-income geographies was below both the proportion of businesses and the aggregate distribution, while the proportion of small loans to businesses in moderate-income geographies was near to both the proportion of businesses and the aggregate distribution.
- During 2014 to 2016, the bank's proportion of small loans to businesses in low-income geographies was below the proportion of businesses and exceeded the aggregate distribution, while the proportion of small loans to businesses in moderate-income geographies was near to both the proportion of businesses and the aggregate distribution.

## Bakersfield MSA

- Performance against the aggregate distribution of lenders was given additional consideration as it reflects the difficulties all lenders are experiencing due to the economic constraints discussed above under the Description of the Full-Scope AA. The economic data particularly indicates the high cost of doing business, high wage costs and limited migrant workforce needed for some businesses.
- Between 2017 and 2019, the proportion of small loans to businesses in low-income geographies was below both the proportion of businesses and the aggregate distribution, while the proportion of small loans to businesses in moderate-income geographies was respectively below and near to near to both the proportion of businesses and the aggregate distribution.
- During 2014 to 2016, the bank's proportion of small loans to businesses in low-income geographies was respectively well below the proportion of businesses and below the aggregate distribution, while the proportion of small loans to businesses in moderate-income geographies was below both the proportion of businesses and the aggregate distribution.

## Small Loans to Farms

Refer to Table S in the state of California section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to farms.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to farms is good. The following information was taken into consideration when determining this rating.

## Los Angeles CSA

- The limited number of farms in low-income geographies, (3.7 percent), and constrained lending opportunities were noted; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher number of farms in those geographies.
- The fact that farm lending is not a focus of the bank was also considered.
- Between 2017 and 2019, the proportion of loans to small farms in low-income geographies met the proportion of farms in those geographies and exceeded the aggregate distribution of all lenders. The proportion of loans to small farms in moderate-income geographies was below the proportion of farms in those geographies and near to the aggregate distribution of all lenders.
- Performance in low- and moderate-income geographies during the 2014 to 2016 period was weaker than performance during the 2017 to 2019 period. The proportion of loans to small farms in lowand moderate-income geographies was below the proportion of farms in those geographies and well below and below the aggregate distribution for the respective geographies.

## San Francisco CSA

- The limited percentage of farms in low-income geographies, (4.9 percent), and constrained lending opportunities were noted; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of farms in those geographies.
- The fact that farm lending is not a focus of the bank was also considered.
- Between 2017 and 2019, the proportion of loans to small farms in low-income geographies was well below the proportion of farms and exceeded the aggregate distribution of all lenders. The proportion of loans to small farms in moderate-income geographies was below the proportion of farms and exceeded the aggregate distribution.
- Performance in low- and moderate-income geographies during the 2014 to 2016 period was generally consistent with performance during the 2017 to 2019 period. The proportion of loans to small farms in low-income geographies was well below the proportion of farms and near to the aggregate distribution. The proportion of loans to small farms in moderate-income geographies was near to both the proportion of farms and the aggregate distribution.

## Bakersfield MSA

- The limited percentage of farms in low-income geographies, (4.5 percent), and constrained lending opportunities were noted; therefore, performance in moderate-income geographies was given more consideration due to the higher percentage of farms in those geographies.
- The fact that farm lending is not a focus of the bank was also considered.
- Between 2017 and 2019, the proportion of loans to small farms in low-income geographies was well below the proportion of farms and near to the aggregate distribution of all lenders. The proportion of loans to small farms in moderate-income geographies was near to the proportion of farms and below the aggregate distribution.
- Performance in low- and moderate-income geographies during the 2014 to 2016 period was weaker in low-income geographies and stronger in moderate-income geographies than performance during the 2017 to 2019 period. The percentage of farms in low-income geographies was very low during the 2014 to 2016 period and the bank made no small loans to farms in low-income geographies. The proportion of loans to small farms in moderate-income geographies exceeded both the proportion of farms and the aggregate distribution.

## Lending Gap Analysis

A review of home mortgage loans, small loans to business, and small loans to farms including summary reports and AA maps did not identify any unexplained conspicuous lending gaps in the bank's activities.

## Distribution of Loans by Income Level of the Borrower

The bank exhibits good distribution of loans among individuals of different income levels and business and farms of different sizes.

## Home Mortgage Loans

Refer to Table P in the state of California section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall borrower distribution of home mortgage loan originations and purchases for this evaluation is good. The following information was taken into consideration when determining this rating.

## Los Angeles CSA

- Greater significance was placed on performance against the aggregate distribution as it reflects the difficulties all lenders are experiencing due to competition and the economic constraints discussed above under the Description of this Full-Scope AA.
- Examiners particularly considered housing affordability challenges for low- and moderate-income borrowers.
- Between 2017 and 2019, the proportion of loans to low-income borrowers was well below the percentage of low-income families and below the aggregate distribution of lenders. The proportion of moderate-income loans was below the proportion of moderate-income families and significantly exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was generally consistent with performance between 2017 to 2019. The proportion of loans to low-income borrowers was well below the percentage of low-income families and exceeded the aggregate distribution of lenders. The proportion of moderate-income loans was below the proportion of moderate-income families and was near to the aggregate distribution.

## $\underline{\text { San Francisco CSA }}$

- Greater significance was placed on performance against the aggregate distribution as it reflects the difficulties all lenders are experiencing due to competition and the economic constraints discussed above under the Description of this Full-Scope AA.
- Examiners particularly considered housing affordability challenges for low- and moderate-income borrowers.
- Between 2017 and 2019, the proportion of loans to low-income borrowers was well below the percentage of low-income families and below the aggregate distribution of lenders. The proportion of moderate-income loans was below the proportion of moderate-income families and near to the aggregate distribution.
- During 2014 to 2016, the bank's performance was weaker than performance between 2017 to 2019 . The proportion of loans to low-income borrowers was well below the percentage of low-income families and near to the aggregate distribution of lenders. The proportion of moderate-income loans was well below both the proportion of moderate-income families and the aggregate distribution.

## Bakersfield MSA

- Greater significance was placed on performance against the aggregate distribution as it reflects the difficulties all lenders are experiencing due to competition and the economic constraints discussed above under the Description of this Full-Scope AA.
- Examiners particularly considered housing affordability challenges for low-income borrowers.
- Between 2017 and 2019, the proportion of loans to low-income borrowers was well below the percentage of low-income families and exceeded the aggregate distribution of lenders. The proportion of moderate-income loans was below the proportion of moderate-income families and near to the aggregate distribution.
- During 2014 to 2016, the bank's performance was stronger than performance between 2017 to 2019 . The proportion of loans to low-income borrowers was well below the percentage of low-income families and exceeded the aggregate distribution of lenders. The proportion of moderate-income loans exceeded both the proportion of moderate-income families and the aggregate distribution.

## Small Loans to Businesses

Refer to Table R in the state of California section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's origination and purchase of small loans to businesses.

Based on the data in the table and the following considerations, the distribution of the bank's originations and purchases of small loans to businesses by revenue category is good. The following information was taken into consideration when determining this conclusion.

## Los Angeles CSA

- Greater significance was placed on performance against the aggregate distribution of lenders as it reflects the difficulties all lenders are experiencing due to competition and the economic constraints discussed above under the Description of the Full-Scope AA.
- Between 2017 and 2019, the bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was weaker than performance between 2017 and 2019. The bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was well below the percentage of businesses and exceeded the aggregate distribution.

## San Jose-San Francisco-Oakland CSA

- Greater significance was placed on performance against the aggregate distribution of lenders as it reflects the difficulties all lenders are experiencing due to competition and the economic constraints discussed above under the Description of the Full-Scope AA.
- Between 2017 and 2019, the bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was consistent with performance between 2017 and 2019. The bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and exceeded the aggregate distribution.

## Bakersfield MSA

- Greater significance was placed on performance against the aggregate distribution of lenders as it reflects the difficulties all lenders are experiencing due to competition and the economic constraints discussed above under the Description of the Full-Scope AA.
- Between 2017 and 2019, the bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was weaker than performance between 2017 and 2019. The bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and exceeded the aggregate distribution.

## Small Loans to Farms

Refer to Table T in the state of California section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's origination and purchase of small loans to farms.

Based on the data in the table and the following considerations, the distribution of the bank's originations and purchases of small loans to farms by revenue category is good. The following information was taken into consideration when determining this rating.

## Los Angeles CSA

- Greater significance was placed on performance against the aggregate distribution of lenders as it reflects the difficulties all lenders are experiencing due to the economic constraints discussed above under the Description of the Full-Scope AA.
- The fact that farm lending is not a focus of the bank was considered.
- Between 2017 and 2019, the bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was consistent with performance between 2017 and 2019. The bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and exceeded the aggregate distribution.

## San Francisco CSA

- Greater significance was placed on performance against the aggregate distribution of lenders as it reflects the difficulties all lenders are experiencing due to the economic constraints discussed above under the Description of the Full-Scope AA.
- The fact that farm lending is not a focus of the bank was considered.
- Between 2017 and 2019, the bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was consistent with performance between 2017 and 2019. The bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and exceeded the aggregate distribution.

## Bakersfield MSA

- Greater significance was placed on performance against the aggregate distribution of lenders as it reflects the difficulties all lenders are experiencing due to the economic constraints discussed above under the Description of the Full-Scope AA.
- The fact that farm lending is not a focus of the bank was also considered.
- Between 2017 and 2019, the bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was well below the percentage of businesses and exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was consistent with performance between 2017 and 2019. The bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was well below the percentage of businesses and exceeded the aggregate distribution.

## Community Development Lending

The institution is a leader in making CD loans.
The Lending Activity Tables, shown above, set forth the information and data used to evaluate the institution's level of CD lending. These tables include all CD loans, including multifamily loans that also qualify as CD loans.

## Los Angeles CSA

The bank made 2,616 CD loans in the AA with a total of $\$ 4.9$ billion, which represents 44.9 percent of the tier 1 capital allocated to the AA. The bank's CD loans within the AA were responsive to identified community needs, particularly the critical need for affordable housing. The substantial majority ( 98.4 percent) of CD loans were for affordable housing.

Examples of CD loans in the AA include:

- In December 2014, the bank originated a $\$ 24.7$ million loan to a senior housing facility for the construction of a new 108 -unit affordable housing project. The project was a part of the Taylor Yard Transit Village Master Plan to redevelop one of the few remaining vacant areas in Los Angeles.
- In July 2015, the bank provided a $\$ 20$ million loan for improvements on a multifamily property consisting of 197 units, of which 189 units are affordable. The building is in a low-income census tract in Los Angeles.
- In February 2019, the bank originated a $\$ 500,000$ loan to a women's organization whose mission includes building economic mobility, particularly for low- and moderate-income women and their families, through wealth creation, housing, education, entrepreneurship, and civic engagement. A study by Mount Saint Mary's University showed that family households led by women in California were more likely to live in poverty.

## San Francisco CSA

The bank made 842 CD loans in the AA with a total of $\$ 3.1$ billion, which represents 54.9 percent of the tier 1 capital allocated to the AA. The bank's CD loans within the AA were responsive to identified community needs, particularly the critical need for affordable housing. The majority ( 73.1 percent) of CD loans were for affordable housing purposes and loans for economic revitalization and/or stabilization represented 25.6 percent of CD loans.

Examples of CD loans in the AA include:

- In August 2014, the bank funded a $\$ 6$ million loan to improve an existing multifamily property located in a moderate-income census tract of Santa Rosa. Nearly all of the 128 apartments are for low- and moderate-income households.
- In March 2016, the bank provided a $\$ 63$ million loan to a project aimed to revitalize Redwood City's downtown area. The proceeds were used to build a 132,500 square foot office building in a lowincome census tract in the oldest city on the San Francisco Peninsula. The project was part of the Downtown Precise Plan which aimed to revitalize 183 acres of the historic downtown area as hub of the overall city.
- In July 2017, the bank provided a $\$ 14$ million loan for a multifamily property, located in a lowincome census tract in Antioch. The property consists of 300 units, of which, 295 units are affordable to low- and moderate-income households.
- In October 2018, the bank originated a $\$ 73$ million loan for a new residential development in Oakland. The building will contain 324 units, of which, 321 will be for low- and moderate-income households.

## Bakersfield MSA

The bank made 13 CD loans in the AA totaling $\$ 42.6$ million, which represents 27.6 percent of the tier 1 capital allocated to the AA. The bank's CD loans within the AA were responsive to identified community needs, particularly the critical need for affordable housing. The majority ( 75.2 percent) of CD loans were for affordable housing purposes and 22.0 percent of CD lending supported community services, which is also a need for the AA.

Examples of CD loans in the AA include:

- In July 2014, the bank originated a $\$ 5$ million loan to the Taft City Elementary School District (TCESD) in Taft, CA. Funding was used for general working capital. TCESD is comprised of seven school sites in grades K-8 that serve over 2,000 students, where according to the National Center for Education Statistics (NCES), the free and reduced lunch program participation rate is 94.7 percent. The district has a commitment to provide effective instructional practices and a professional work and learning environment for low- and moderate-income students.
- In July 2017, the bank provided a $\$ 7.5$ million loan for a multifamily property. This property is comprised of 129 affordable units for low- and moderate-income households and is in a moderateincome census tract in Bakersfield. By providing the financing, Chase helped to preserve the availability of affordable housing for low- and moderate-income households.
- In May 2017, the bank funded a $\$ 7.8$ million construction loan to acquire and rehabilitate two separate properties in McFarland and Wasco. A total of 88 housing units are affordable to low- and moderate-income families and helped to produce much-needed housing for families in areas with very few multiple housing units.

## Product Innovation and Flexibility

The bank makes extensive use of innovative and/or flexible lending practices to serve AA credit needs in each of the full-scope AAs reviewed. Refer to the comments in the Product Innovation and Flexibility section in the front of this performance evaluation for program details.

Los Angeles-Long Beach CSA
A total of 15,641 loans were funded totaling $\$ 4.5$ billion under the following innovative and/or flexible programs.

| Loan Type | Number of <br> Loans | Dollar Amount <br> (\$000's) |
| :--- | :---: | :---: |
| DreaMaker | 1,748 | 539,456 |

| USDA | 275 | 46,443 |

## Conclusions for Areas Receiving a Limited-Scope Review

Performance in the limited-scope AAs was factored into the state's overall Outstanding Lending Test rating and did not significantly affect the initial overall conclusions based on the AAs receiving fullscope review. Based on limited-scope reviews, the bank's performance under the Lending Test in the Sacramento-Roseville CSA and Chico MSA is consistent with the bank's overall excellent performance under the Lending Test in the full-scope areas. The Fresno-Madera CSA, Modesto-Merced CSA, Redding-Red Bluff CSA, Salinas MSA, San Diego-Carlsbad MSA, San Luis Obispo-Paso Robles MSA, Santa Maria-Santa Barbara MSA, Visalia-Porterville-Hanford CSA, El Centro MSA and the California Non-MSA is weaker than the bank's overall performance under the Lending Test in the full-scope areas due to weaker geographic and borrower distributions.

Refer to Tables O through T in the state of California section of appendix D for the facts and data that support these conclusions.

## INVESTMENT TEST

The bank's performance under the Investment Test in the state of California is rated Outstanding. Stronger performance in the majority of limited-scope AAs and statewide investments enhanced good performance in the full-scope AAs.

## Conclusions for Areas Receiving Full-Scope Reviews

Based on full-scope reviews, the bank's performance under the Investment Test in the Los AngelesLong Beach CSA, San Jose-San Francisco-Oakland CSA, and Bakersfield MSA is excellent.

## Los Angeles-Long Beach CSA,

Based on a full-scope review, the bank's performance in the Los Angeles-Long Beach CSA is excellent.
The bank has an excellent level of qualified CD investments and grants, rarely in a leadership position, particularly those that are not routinely provided by private investors. The current and prior period investments dollar volume represents 7.5 percent of tier 1 capital allocated to the AA. A majority (81.2 percent) of total investments represents current period investments.

The bank's exhibits excellent responsiveness to credit and community economic development needs identified in the AA. Of total qualified investments, 70.8 percent focused on affordable housing, 23.7 percent on community services, 5.4 percent on revitalization/stabilization and less than one percent on economic development. Of these, 228 totaling $\$ 20$ million consisted of grants, with 73.8 percent and 15.6 percent supporting community services and affordable housing, respectively. The remaining 5.3 percent support economic development, and the same, 5.3 percent, support revitalization/stabilization.

The bank makes significant use of complex investments to support CD initiatives. Eighty-five qualified CD investments totaling $\$ 509.6$ million, or 61 percent of total area investments were complex. Transactions consist of Direct Investment LIHTCs, the use of many layers of financing (LITHC investment, construction loan, and permanent loan), complex financing structure that require multiple funding sources from multiple entities in order to implement and support the programs, and NMTC financings. Almost 12.0 percent of total qualified investments serve as a catalyst for future growth and other area improvements. The bank demonstrated leadership with one qualified investment.

Examples of community development investments in the AA include:

- The bank invested $\$ 44.8$ million in school district General Obligation Bonds. The general obligation bonds were approved for the purpose of construction of new school facilities and the modernization of existing school facilities.
- The bank originated a $\$ 13.9$ million NMTC equity investment for the redevelopment of 120,000 square feet of retail space in a shopping center. Located in two low-income census tracts, the project aligns with redevelopment plans created by the Housing Authority of the City of Los Angeles and the City of Los Angeles Department of City Planning.
- The bank invested $\$ 20$ million in Freddie Mac multifamily certificate bonds. Proceeds were used for the acquisition of a multifamily property geared to senior citizens, located in Santa Fe Springs. The property consists of 280 units, of which 160 are affordable to those earning less than 80 percent AMI.

## San Jose-San Francisco-Oakland CSA

Based on a full-scope review, the bank's performance in the San Jose-San Francisco-Oakland, CA CSA is excellent.

The bank has an excellent level of qualified CD investments and grants, rarely in a leadership position, particularly those that are not routinely provided by private investors. The current and prior period investments dollar volume represents 12.1 percent of tier 1 capital allocated to the AA. A significant majority or 85.5 percent of total investments represents current period investments.

The bank exhibits excellent responsiveness to credit and community economic development needs identified in the AA. Of total qualified investments, 87.8 percent supports affordable housing and 8.1 percent supports community services while less than one percent supports economic development. These are primary community development needs in the AA. Revitalization/stabilization represents 3.4 percent of total qualified investments. Included in the total is 181 grants totaling $\$ 22.6$ million, 87.8 percent support affordable housing, 8.2 percent support community services, 3.4 percent support revitalization/stabilization, and less than one percent supporting economic development.

The bank makes extensive use of complex investment to support CD initiatives. Fifty-two qualified investments totaling $\$ 564.4$ million or 81.0 percent of total investments were complex. Complex transactions consist of Direct Investment LIHTCs and NMTC financings. Of the 52, 25 are prior period qualified investments, and almost all are Direct Investment LIHTCs. Eight percent of total qualified investments serve as a catalyst for future growth and other area improvements.

Examples of community development investments in the AA include:

- The bank originated a $\$ 12$ million NMTC investment for construction of a kitchen and food manufacturing facility for an organization that delivers meals to homebound seniors. The bank partnered with San Francisco Community Investment Fund, Capital Impact Partners and Community Vision for this project. The facilities' production capacity will increase from 6,000 to 20,000 meals per day. The organization serves 3,600 low-income, homebound seniors. The project created 21 full time positions, filled by individuals in low-income communities due to an agreement to maintain a percentage of low-income employees.
- The bank invested $\$ 1.1$ million in a LIHTC fund, contributing to the creation of 100 affordable housing units.
- The bank provided $\$ 35.1$ million in a LIHTC investment, contributing to the creation of 287 affordable housing units.

## Bakersfield MSA

Based on a full-scope review, the bank's performance in the Bakersfield, CA MSA is excellent.
The bank has an excellent level of qualified CD investments and grants, often in a leadership position, particularly those that are not routinely provided by private investors. The current and prior period investments dollar volume represents 19.5 percent of tier 1 capital allocated to the AA. A majority ( 76.2 percent) of total investments represents current period investments.

The bank exhibits excellent responsiveness to credit and community economic development needs identified in the AA. Of total qualified investments, 80.9 percent supports affordable housing, 18.6 percent supports revitalization/stabilization, and less than one percent supports community services. Included is one grant supporting community services.

The bank occasionally uses of complex investments to support CD initiatives in this AA. Two current period investments or 18.6 percent of total area investments are considered complex supporting revitalization/stabilization. Almost 19 percent of total qualified investments serve as a catalyst for future growth and other area improvements.

Examples of community development investments in the AA include:

- The bank provided a $\$ 3$ million NMTC investment for a project which involves the development/new construction of a movie theater in a low-income census tract in Delano. This project helped to revitalize a low-income tract and acts as a catalyst for future retail development and investment. It also helped to increase local employment for low-income individuals within the City of Delano, including the creation of 115 permanent positions and 170 construction jobs.
- The bank provided $\$ 515,000$ through a LIHTC investment, which contributed to the creation of 204 affordable housing units.
- The bank provided $\$ 15.6$ million through a LIHTC investment, which contributed to the creation of 81 affordable housing units.

Prior Period Investments' means investments made in a previous evaluation period that are outstanding as of the examination date.
Unfunded Commitments' means legally binding investment commitments that are tracked and recorded by the institution's financial reporting system.

## Statewide Investments in State of California

The bank has qualified investments throughout the state of California with and without a $\mathrm{P} / \mathrm{M} / \mathrm{F}$ to serve AAs. These investments represent 2.0 percent of total qualified investment in the state of California. Seventy-one percent support community services, 19.0 percent support affordable housing, and 10.0 percent support economic development. Almost all statewide investments have a P/M/F to serve AAs. The broader statewide investments enhanced the bank's overall performance under the Investment Test for the state of California.

## Conclusions for Areas Receiving Limited-Scope Reviews

Based on limited-scope reviews, the bank's performance under the Investment Test in the Chico MSA, Fresno-Madera CSA, Modesto-Merced CSA, Sacramento-Roseville CSA, Salinas MSA, San DiegoCarlsbad MSA, San Luis Obispo-Paso Robles MSA, Santa Maria-Santa Barbara MSA, El Centro MSA and CA Non-Metro AAs is consistent than the bank's excellent performance under the Investment Test in full-scope areas. Strong performance is due to high levels of qualified investments in relation to tier 1 capital. The bank's performance under the Investment Test in the Visalia-Porterville-Hanford CSA, and Redding-Red Bluff CSA is weaker than the bank's excellent performance under the Investment Test in full-scope areas. Weaker performance is due to a lower level of investments. Overall, performance in limited-scope AAs did not affect the Investment Test rating for the state of California.

## SERVICE TEST

The bank's performance under the Service Test in the state of California is rated High Satisfactory.

## Conclusions for Areas Receiving Full-Scope Reviews

Based on the full-scope reviews, the bank's performance in the San Jose-San Francisco-Oakland CSA and Bakersfield MSA are excellent and the bank's performance in the Los Angeles-Long Beach CSA is good.

## Retail Banking Services

Service delivery systems are accessible to geographies and individuals of different income levels in the bank's full-scope AAs.

Examiners evaluated the data as outlined in the Scope section at the front of this document including bank-provided data on usage of branches adjacent to low- and moderate-income geographies by individuals residing in those geographies and on increases in the usage of alternative delivery systems.

## Los Angeles-Long Beach CSA

Based on the data in the table below and performance context, the branch distribution is good. In lowand moderate-income geographies, the distribution is below the percentage of the population in these respective geographies. The bank had 25 branches in low-income geographies and 90 branches in moderate-income geographies. The distribution was augmented by five MUI tract branches that serve low-income tracts and 74 MUI tract branches that serve moderate-income tracts. Examiners reviewed data on the accounts held and transactions conducted at the MUI branches and confirmed they were serving the adjacent low- and moderate-income populations.

## San Jose-San Francisco-Oakland CSA

Based on the data in the table below and performance context, the branch distribution is excellent. In low-income geographies the distribution is near to and in moderate-income geographies approximates the percentage of the population in these respective geographies. The bank had 19 branches in lowincome geographies and 55 branches in moderate-income geographies. The distribution was augmented by eight MUI tract branches that serve low-income tracts and 37 MUI tract branches that serve moderate-income tracts. Examiners reviewed data on the accounts held and transactions conducted at the MUI branches and confirmed they were serving the adjacent low- and moderate-income populations.

## Bakersfield MSA

Based on the data in the table below and performance context, the branch distribution is good. In lowincome geographies the distribution is near to and in moderate-income geographies is below the percentage of the population in these respective geographies. The bank had one branch in low-income geographies and two branches in moderate-income geographies. The distribution was augmented by one MUI tract branch that serves low-income tracts and three MUI tract branches that serve moderateincome tracts. Examiners reviewed data on the accounts held and transactions conducted at the MUI branches and confirmed they were serving the adjacent low- and moderate-income populations.

## Los Angeles-Long Beach CSA

Alternative delivery systems enhanced the delivery of banking systems to geographies and individuals of all income levels. The OCC considered the availability and use of alternative delivery systems over the evaluation period. This included review of the bank's 2,302 deposit-taking ATMs, online banking, mobile banking, and telephone banking to determine the effectiveness of these systems to make retail banking services available to individuals in low- and moderate-income geographies. The bank increased the deposit-taking ATMs in low- and moderate-income geographies by 87.4 percent over the prior rating period to 148 ( 6.4 percent) deposit-taking ATMs in low-income geographies and 508 (22.1 percent) ATMs in moderate-income geographies. Additionally, bank-provided data on use of online, mobile, and telephone banking showed increases in the adoption of these services by low- and moderate-income individuals from the prior rating period.

## San Jose-San Francisco-Oakland CSA

Alternative delivery systems enhanced the delivery of banking services to geographies and individuals of all income levels. The OCC considered the availability and use of alternative delivery systems over the evaluation period. This included review of the bank's 786 deposit-taking ATMs, online banking, mobile banking, and telephone banking to determine the effectiveness of these systems to make retail banking services available to individuals in low- and moderate-income geographies. The bank increased the deposit-taking ATMs in low- and moderate-income geographies by 46.7 percent over the prior rating period to 68 ( 8.7 percent) deposit-taking ATMs in low-income geographies and 202 ( 25.7 percent) ATMs in moderate-income geographies. Additionally, bank-provided data on use of online, mobile, and telephone banking showed increases in the adoption of these services by low- and moderate-income individuals from the prior rating period.

## Bakersfield MSA

Alternative delivery systems enhanced the delivery of banking services to geographies and individuals of all income levels. The OCC considered the availability and use of alternative delivery systems over the evaluation period. This included review of the bank's 51 deposit-taking ATMs, online banking, mobile banking, and telephone banking to determine the effectiveness of these systems to make retail banking services available to individuals in low- and moderate-income geographies. The bank increased the deposit-taking ATMs in low- and moderate-income geographies by 30.0 percent over the prior rating period to six ( 11.8 percent) deposit-taking ATMs in low-income geographies and seven (13.7 percent) ATMs in moderate-income geographies. Additionally, bank-provided data on use of online, mobile, and telephone banking showed increases in the adoption of these services by low- and moderate-income individuals from the prior rating period.

## Los Angeles-Long Beach CSA

The bank's opening of branches has improved the accessibility of its delivery systems in low- and moderate-income geographies and/or to low- and moderate-income individuals. The bank opened one branch and closed one branch in low-income geographies. It closed four branches and opened ten branches in moderate-income geographies. The bank closed a net of 20 branches in MUI geographies. Closures were due to reduced customer usage, close proximity to other Chase branches, the exiting of in-store locations, and safety issues. Despite the branch closures in MUI geographies, branch locations remained accessible to geographies and individuals of different income levels in the bank's AA.

Services, including where appropriate, business hours, do not vary in a way that inconveniences the AA, particularly low- and moderate-income geographies and/or individuals. Generally, branches are open Monday through Friday from 9:00 am to 6:00 pm and Saturday from 9:00 am to 4:00 pm. All retail banking services are available at all branches within the low- and moderate-income geographies.

## San Jose-San Francisco-Oakland CSA

To the extent changes have been made, the bank's opening and closing of branches has not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies or to low- and moderate-income individuals. The bank closed three branches and opened two branches in low-income geographies and closed six branches and opened three branches in moderate-income geographies. The bank opened a net of three branches in MUI areas. Closures were due to reduced customer usage and close proximity to other Chase branches. Despite the branch closures, branch locations remained accessible to geographies and individuals of different income levels in the bank's AA.

Services, including where appropriate, business hours, do not vary in a way that inconveniences its AA, particularly low- and moderate-income geographies and/or individuals. Generally, branches are open Monday through Friday from 9:00 am to 6:00 pm and Saturday from 9:00 am to 4:00 pm. All retail banking services are available at all branches within the low- and moderate-income geographies.

## Bakersfield MSA

The bank did not open or close any branches in low- and moderate-income geographies during the evaluation period.

Services, including where appropriate, business hours, do not vary in a way that inconveniences the AA, particularly low- and moderate-income geographies or individuals. Generally, branches are open Monday through Friday from 9:00 am to 6:00 pm and Saturday from 9:00 am to 4:00 pm. All retail banking services are available at all branches within the low- and moderate-income geographies.

## Community Development Services

Chase was a leader in providing CD services in the Los Angeles-Long Beach and San Jose-San Francisco-Oakland CSAs and provided a relatively high level of CD services in the Bakersfield MSA. The services were responsive to the needs of the full-scope AAs.

## Los Angeles-Long Beach CSA

Bank employees provided technical assistance and/or job-specific expertise for 2,270 CD service activities to 97 organizations for a total of 6,515 hours during the evaluation period. A majority of the of the bank's assistance was to organizations that provide community services to low- and moderateincome individuals and families. The services provided were responsive to identified needs in the community, particularly financial literacy, and homebuyer counseling. The following are examples of CD services provided in the AA:

- Bank employees provided 42 first time home-buyers seminars in conjunction with an affordable housing organization to benefit low- and moderate-income families. The number of participants was not indicated in records.
- Bank employees provided 59 financial literacy workshops to low- and moderate-income individuals and families with a non-profit organization that focuses on promoting financial health in the community. The number of participants was not indicated in records.

## San Jose-San Francisco-Oakland CSA

Bank employees provided technical assistance and/or job-specific expertise for 1,630 CD service activities to 76 organizations for a total of 8,292 hours during the evaluation period. Most of the bank's assistance was to organizations that provide community services to low- and moderate-income individuals and families. The services provided were responsive to identified needs in the community, particularly financial literacy, and homebuyer counseling. The following are examples of CD services provided in the AA:

- Bank employees provided 34 financial literacy seminars for low- and moderate-income youth through partnership with an organization focused on educating students. The number of participants was not indicated in records.
- Bank employees conducted 57 homebuyer education events in partnership with a local affordable housing non-profit. The number of participants was not indicated in records.

## Bakersfield MSA

Bank employees provided technical assistance and/or job-specific expertise for 78 CD service activities to five organizations for a total of 288 hours. A majority of the bank's assistance was to organizations that provide community services to low- and moderate-income individuals and families. The services provided were responsive to identified needs in the community, particularly homebuyer counseling. The following is an example of a CD service provided in the AA:

- Bank employees provided 21 pre-purchase homebuyer education events for low- and moderateincome consumers. The number of participants was not indicated in records.

## Conclusions for Areas Receiving Limited-Scope Reviews

Performance in the limited-scope AAs was factored into the state's overall High Satisfactory Service Test rating and did not significantly change the initial overall conclusions based on the AAs receiving full-scope review. Based on limited-scope reviews, the bank's performance under the Service Test in
the Redding-Red Bluff MSA, Salinas MSA, Sacramento-Roseville MSA, Santa Maria-Santa Barbara MSA, and CA Non-MSA AA is stronger than the bank's overall performance under the Service Test in the full-scope areas due to better branch distribution in low- and moderate-income geographies. The bank's performance under the Service Test in the Fresno-Madera MSA and San Luis Obispo-Paso Robles MSA, is consistent with the bank's overall performance under the Service Test in the full-scope areas. The bank's performance under the Service Test in the Chico MSA, El Centro MSA, ModestoMerced MSA, San Diego-Carlsbad MSA, and Visalia-Porterville-Hanford CSA is weaker than the bank's overall performance under the Service Test in the full-scope area due to worse branch distribution in low- and moderate-income geographies.

## State Rating

## State of Colorado

CRA rating for the State of Colorado ${ }^{\mathbf{1 0}}$ : Outstanding
The Lending Test is rated: Outstanding
The Investment Test is rated: Outstanding
The Service Test is rated: Outstanding
The major factors that support this rating include:

- An excellent level of lending activity.
- Overall good geographic distribution of home mortgage loans and small loans to businesses.
- Overall good borrower distribution of home mortgage loans and small loans to businesses.
- A leader in making CD loans, which positively affected the rating.
- The extensive use of flexible products, which positively affected the rating.
- An excellent level of CD investments that displayed excellent responsiveness to credit and community economic development needs.
- The extensive use of innovative and/or complex qualified investments.
- Retail service delivery systems are readily available to geographies and individuals of different income levels.
- Chase is a leader in providing CD services that are responsive to AA needs.

## Description of Institution's Operations in Colorado

The state of Colorado is Chase's $12^{\text {th }}$ largest rating area based on aggregate deposits of $\$ 14.0$ billion, representing 1.0 percent of the bank's total deposits. As of December 31, 2019, the bank operated 115 branches and 281 deposit-taking ATMs within the rating area, representing 2.3 percent of total branches and 1.7 percent of total ATMs. The bank originated and purchased approximately $\$ 27.5$ billion in loans or 3.9 percent of total bank loan originations and purchases during the evaluation period in the state.

According to the FDIC Deposit Market Share Data, as of June 30, 2019, there were 131 banks operating 1,446 branches in the state of Colorado. Chase ranked fourth in deposit market share with 10.0 percent. Major competitors in the state based on deposit market share include Wells Fargo Bank N.A. (22.4 percent), FirstBank (11.5 percent), and U.S. Bank, N.A. (10.7 percent).

The bank delineated four AAs in the state of Colorado. The Denver-Aurora, CO CSA (Denver CSA) received a full-scope review, accounting for 86.0 percent of the bank's deposits in Colorado. The Colorado Springs MSA, Fort Collins MSA, and Colorado Non-MSA received limited-scope reviews. Refer to appendix A for a complete description of the AA.

## Description of Full-Scope AA

## Denver CSA

[^109]The following table provides a summary of the demographic that includes housing and business information for the Denver CSA. Table A indicates that the volume of OOUs is very small in lowincome CTs and over 21.3 percent of families in the AA are low-income with 7.9 percent below the poverty level. The median housing value in the Denver CSA ranges from three to four times the median income, five times the moderate-income and eight times the low-income, indicating a limited proportion of OOUs are affordable to low-income borrowers. One simplistic method used to determine housing affordability assumes a maximum monthly principal and interest payment of no more than 30 percent of the applicant's income.

In the Denver CSA, assuming a 30-year mortgage with a five percent interest rate and three percent down payment, while not accounting for homeowners insurance, real estate taxes, or any additional monthly expenses, a low-income borrower making $\$ 35,229$ per year (or less than 50 percent of the FFIEC adjusted median family income in the CSA) could afford a $\$ 116,656$ mortgage loan with a payment of $\$ 1,057$ per month; a moderate-income borrower earning $\$ 56,357$ per year (or less than 80 percent of the FFIEC adjusted median family income in the CSA) could afford a $\$ 217,444$ mortgage loan with a payment of $\$ 1,691$ per month.

Median rents and the significant percentage of families below poverty level suggest rental housing is also unaffordable for many low- and moderate-income residents.

| Table A - Demographic Information of the Assessment Area Assessment Area: Denver-Aurora CO CSA 2017-2019 |  |  |  |  |  |  |

Due to rounding, totals may not equal 100.0 percent
(*) The NA category consists of geographies that have not been assigned an income classification.

## Economic Data

According to Moody's Analytics February 2020 report, the Denver area economy is strong. The area has a high concentration of knowledge-based industries; strong in-migration and population growth; a skilled workforce and high employment diversity. The pace of job growth in the area has been robust, with strong gains in professional services, healthcare, and construction. The unemployment rate has dropped to 2.4 percent, the lowest level on record. While this decline is partially because of slower labor force growth, the tight labor market and favorable mix of job creation are rapidly driving up average hourly earnings. Technology and professional services have propelled the area's economy. The area's share of white-collar workers is among the top 5 percent nationally. Major employment industries in the area include professional and business services; health and education services; and government. Major employers in the area include HealthOne; University of Colorado Hospital; Lockheed Martin Corp.; and Centra Health. Although the area economy is strong, the area has an elevated cost of living and a significantly over-valued housing market with low and falling affordability.

## Community Contacts

Examiners considered three community contacts completed during the review period with entities serving the area. The contacts were with organizations focused on providing financing for affordable housing and technical assistance to small business. Contacts noted that despite the strong economy; housing affordability and the tight labor market are growing concerns in the area; making it more difficult to attract lower level and mid-level skilled workers such as trade workers and workers with certifications. The area is served by several non-profit organizations; community-based organizations; and community development entities that provided opportunities for area financial institutions to help meet the needs of the community. Other needs identified in the community include access to affordable housing, education and technical assistance for small businesses, particularly minority-owned small businesses, financial education classes and access to traditional banking retail products.

## Scope of Evaluation in Colorado

The Denver CSA received a full-scope review. The CSA account for 86.0 percent of the deposits and 83.6 percent of the lending in the state. The remaining three AAs received a limited-scope review. Performance in limited-scope AAs and its effect on the CRA rating are discussed at the end of each test.

## CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS IN COLORADO

## LENDING TEST

The bank's performance under the Lending Test in the state of Colorado is rated Outstanding.
Performance in AAs receiving limited-scope reviews was factored together with performance from AAs receiving full-scope reviews to determine the state's overall Outstanding Lending Test rating. Limitedscope conclusions did not affect the initial overall conclusions based on the AAs receiving full-scope review.

## Conclusions for Areas Receiving Full-Scope Reviews

Based on a full-scope review, the bank's performance in the Denver CSA is excellent. Overall excellent lending levels and excellent geographic and borrower distribution of loans. The bank's leadership in
making CD loans affected the rating positively while product innovation and flexibility were also considered favorably.

## Lending Activity

Lending levels reflect an excellent responsiveness to the credit needs in the bank's AAs.
Examiners considered the number and amount of home mortgage, small business, small farm loans originated or purchased relative to Chase's capacity based on deposits, competition, and market presence. Lending activity for home mortgage and small loans to businesses received the most weight in reaching conclusions. Respectively, home mortgage lending and small loans to businesses account for 34.5 percent and 64.9 percent of the loan volume in the state by number and 90.0 and 8.0 percent of loan volume by dollar. Small farm lending is not a strategic focus of the bank and received minimal weight in reaching conclusions. Farm loans represented 0.52 percent of the loan volume in the state by number and 0.05 percent loan volume by dollar.

| Number of Loans* |  |  |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| Denver-Aurora CSA | $21,295,857$ | $1,854,077$ | 11,750 | 491,907 | $23,653,591$ | 85.9 | 86.0 |
| Colorado Springs MSA | $1,608,987$ | 171,442 | 776 | 18,014 | $1,799,219$ | 6.5 | 7.8 |
| Fort Collins MSA | $1,400,141$ | 170,024 | 1,457 | 35,000 | $1,606,622$ | 5.7 | 6.1 |
| Colorado Non-MSA | 470,750 | 9,397 | 124 | 0 | 480,271 | 1.9 | 0.1 |
| Total | $24,775,735$ | $2,204,940$ | 14,107 | 544,920 | $27,539,702$ | 100.0 | 100.0 |

*The tables present the data for all assessment areas. The narrative below addresses performance in full-scope areas only.
Chase ranked third in deposits in the AA out of 76 institutions with 11.9 percent market share.
In overall home mortgage lending, Chase ranked fourth with 4.2 percent market share. This is a very competitive market with 924 home mortgage lenders and no single lender dominated the market. Other major home lenders with respective market shares are American Financing ( 7.0 percent), Wells Fargo Bank, N.A. (6.2 percent) and U.S. Bank, N.A. (4.3 percent).

Chase ranked first in small loans to businesses with 24.2 percent market share. There are 217 lenders in the CSA. Other major lenders and market share are American Express National Bank ( 14.5 percent), Wells Fargo Bank, N.A. (11.8 percent), and Citibank, N.A. (9.8 percent).

Chase ranked first in small loans to farms with 20.7 percent market share. There were 31 lenders in the MSA. Other major lenders and market share are Bank of Colorado ( 15.3 percent), Wells Fargo Bank, N.A. (12.6 percent) and TBK Bank, SSB (10.4 percent).

## Distribution of Loans by Income Level of the Geography

The bank exhibits an excellent geographic distribution of loans in its AA.

## Home Mortgage Loans

Refer to Table O in the state of Colorado section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of home mortgage loan originations and purchases is excellent. The following information was taken into consideration when determining this rating.

- Between 2017 and 2019, the proportion of loans in low- and moderate-income areas consistently exceeded or substantially met the percentage of OOUs and aggregate distribution of loans.
- Performance in low- and moderate-income geographies between 2014 and 2016 was slightly weaker than the performance during the 2017-2019 period. The proportion of loans in low- and moderateincome areas was below both the percentage of OOUs and aggregate distribution of loans.

## Small Loans to Businesses

Refer to Table Q in the state of Colorado section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to businesses.

Based on the data in the table and the following considerations, the bank's overall geographic distribution of small loans to businesses is good. The following information was taken into consideration when determining this rating.

- Between 2017 and 2019, the proportion of loans to small businesses in low- and moderate-income areas was near to the percentage of small businesses located in those geographies but had weaker performance in comparison to the aggregate distribution.
- Performance in low- and moderate-income geographies during the 2014 and 2016 time periods was generally consistent with 2017 to 2019. Between 2104 and 2016, the proportion of loans to small businesses in low- and moderate-income areas was near to the percentage of small businesses located in those geographies and near to the aggregate distribution of loans.

## Small Loans to Farms

Refer to Table S in the state of Colorado section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to farms.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to farms is good. The following information was taken into consideration when determining this rating.

- The limited percentage of farms in low-income geographies, ( 6.3 percent) and constrained lending opportunities were noted; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of farms in those geographies.
- The high level of competition in the AA (31 lenders) and the fact that farm lending is not a focus of the bank, therefore examiners placed greater significance on performance compared to aggregate of lender.
- Between 2017 and 2018, the proportion of loans to small farms in low- and moderate-income geographies was well below and below the proportion of farms in those geographies and below the aggregate distribution.
- Performance in low- and moderate-income geographies during the 2014 to 2016 period was consistent with performance during the 2017 to 2019 period. The proportion of loans to small farms in low- and moderate-income geographies was well below and below the proportion of farms in those geographies and below the aggregate distribution.

## Lending Gap Analysis

A review of home mortgage loans, small loans to business, and small loans to farms including summary reports and AA maps did not identify any unexplained conspicuous lending gaps in the bank's activities.

## Distribution of Loans by Income Level of the Borrower

The bank exhibits a good distribution of loans among individuals of different income levels and businesses of different sizes.

## Home Mortgage Loans

Refer to Table $P$ in the state of Colorado section of appendix $D$ for the facts and data used to evaluate the borrower distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall borrower distribution of home mortgage loan originations and purchases for this evaluation is good. The following information was taken into consideration when determining this rating.

- Market profile data indicates housing affordability was a challenge for low- and moderate-income borrowers.
- Market profile information for the AA indicates the population of Denver is increasing faster than the housing supply, which has caused housing prices to substantially increase and outpace income of the low- and moderate-income population, making it difficult for low- and moderate-income to afford housing.
- Greater significance was placed on lending performance to moderate-income borrowers due to the challenges limiting opportunities in lending to low-income borrowers.
- Between 2017 and 2019, the proportion of loans to moderate-income borrowers exceeded both the percentage of moderate-income families in the AA and the aggregate distribution of loans.
- Between 2017 and 2019, the proportion of loans to low-income borrowers was well-below the percentage of low-income families in the AA. The proportion of loans to low-income borrowers met the aggregate distribution of loans, which offsets the weaker performance as a proportion of lowincome families in the AA.
- Performance in low-income geographies between 2014 and 2016 was consistent with 2017 to 2019 and moderate-income performance was slightly weaker than 2017 to 2019. The performance in the 2014-2016 period had no effect on the overall good lending performance.

## Small Loans to Businesses

Refer to Table R in the state of Colorado section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's origination and purchase of small loans to businesses.

Based on the data in the tables and the following factors, the distribution of the bank's originations and purchases of small loans to businesses by revenue category is good. The following information was taken into consideration when determining this rating.

- Greater significance was placed on performance against the aggregate distribution of lenders as it reflects the difficulties all lenders are experiencing due to competition and the economic constraints discussed above under the Description of the Full-Scope AA.
- Between 2017 and 2019, the bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was consistent with performance between 2017 and 2019. The bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was well below the percentage of businesses and exceeded the aggregate distribution.

## Small Loans to Farms

Refer to Table T in the state of Denver section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's origination and purchase of small loans to farms.

Based on the data in the table and the following considerations, the distribution of the bank's originations and purchases of small loans to farms by revenue category is good. The following information was taken into consideration when determining this rating.

- The high level of competition in the AA (31 lenders) and the fact that farm lending is not a focus of the bank was considered and examiners placed greater significance on performance compared to the aggregate of lenders.
- Between 2017 and 2019, the bank's percentage of loans to farms with revenues of $\$ 1$ million or less was below the percentage of businesses and substantially exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was consistent with performance between 2017 and 2019. The bank's percentage of loans to farms with revenues of $\$ 1$ million or less was below the percentage of businesses and substantially exceeded the aggregate distribution.

## Community Development Lending

The bank is a leader in making CD loans.

The Lending Activity Tables, shown above, set forth the information and data used to evaluate the institution's level of CD lending. These tables include all CD loans, including multifamily loans that also qualify as $C D$ loans.

The bank made 114 CD loans in the AA for a total of $\$ 492$ million, which represents 31.5 percent of the tier 1 capital allocated to the AA. The bank's CD loans were responsive to identified community needs with nearly 61.0 percent of CD loans were for affordable housing purposes and 38.5 percent were for revitalization purposes.

Examples of CD loans include:

- Chase originated a $\$ 19$ million loan for the new construction of apartments in Denver CSA. The project consisted of 130 units and a ground level shelter in Arroyo Village. The housing project has 35 permanent supportive housing units and 95 work force housing units. The permanent supportive housing units benefit from project-based vouchers and serve individuals and families earning up to 30 percent of the AMI and the workforce housing units serve families earning up to 50 percent of the AMI. Supportive services are provided to residents, which will also operate a homeless shelter on site including a kitchen, dining area, space for programs, dormitory-style sleeping area, community bathrooms, and showers.
- Chase originated a $\$ 350,000$ loan for a health services organization whose mission is to be the medical, behavioral health, and dental care provider of choice for low-income and other underserved people in south Boulder, Broomfield, and West Adams counties since 1977.

## Product Innovation and Flexibility

The bank makes extensive use of innovative and/or flexible lending practices to serve credit needs in the full-scope AA reviewed. Refer to the comments in the Product Innovation and Flexibility section in the front of this performance evaluation for program details.

The bank funded 7,442 loans totaling $\$ 1.9$ billion under the following innovative and/or flexible programs.

| Loan Type | Number of <br> Loans | Dollar Amount <br> $\mathbf{( \$ 0 0 0 ' s )}$ |
| :--- | :---: | :---: |
| DreaMaker | 1,514 | 438,453 |
| FHA | 1,932 | 461,941 |
| HARP | 1,252 | 181,700 |
| VA | 1,862 | 584,597 |
| SBA | 497 | 174,281 |
| USDA | 385 | 85,957 |

## Conclusions for Areas Receiving Limited-Scope Reviews

Performance in the limited-scope AAs was factored into the state's overall Outstanding Lending Test rating and did not change the initial overall conclusions based on the AAs receiving the full-scope review. Based on limited-scope reviews, the bank's performance under the Lending Test in the Colorado Springs MSA, Fort Collins MSA and Colorado Non-MSA is weaker than the overall excellent performance under the Lending Test in the full-scope AA. Weaker performance is due to weaker
geographical and borrower lending distributions. Performance in the limited-scope areas did not affect the overall Lending Test rating in the state of Colorado.

Refer to Tables O through T in the state of Colorado section of appendix D for the facts and data that support these conclusions.

## INVESTMENT TEST

The bank's performance under the Investment Test in the state of Colorado is rated Outstanding.
Performance in AAs receiving limited-scope reviews was factored together with performance from the AA receiving a full-scope review to determine the state's overall Outstanding Investment Test rating. Limited-scope conclusions did not affect the initial overall conclusions based on the AA receiving a fullscope review

## Conclusions for Area Receiving a Full-Scope Review

Based on a full-scope review, the bank's performance in the Denver CSA is excellent.
The bank has an excellent level of qualified CD investments and grants, but not in a leadership position, particularly those that are not routinely provided by private investors. Current and prior period investments dollar volume represent 18.3 percent of tier 1 capital allocated to the AA. A large majority ( 86.2 percent) of total investments represent current period investments.

The bank exhibits excellent responsiveness to the needs identified in the AA including affordable housing, community services, and economic development. Ninety-six percent ( $\$ 275$ million) of current and prior period CD investments focused on affordable housing, while 4 percent ( $\$ 10.5$ million) related to community service. Affordable housing investments created 6,142 low- and moderate-income housing units for individuals and families. The bank provided 48 grants totaling $\$ 7$ million to a variety of organizations primarily supporting community service through workforce development. In some occurrence's grants were made in multiple years.

The bank makes extensive use of innovative and/or complex investments to support CD initiatives. Current and prior period investments included 25 ( $\$ 286.1$ million) complex investments, primarily single or Direct Investor LIHTC transactions with participations from federal and state governments, local housing agencies, and real estate developers. Five investments were a catalyst for future growth and other improvements.

Examples of CD investments in the AA include:

- The bank invested $\$ 22.8$ million in a LIHTC fund for affordable housing development in the AA. After origination, the bank monitors construction quality, lease-up and performance of the property through stabilization. The bank also manages the asset for the entire fifteen-year hold period, ensuring compliance with the LIHTC program and conducting annual on-site inspection. The LIHTC provides a tax incentive to construct or rehabilitate affordable rental housing for low- and moderate-income households. It subsidizes the acquisition, construction, and rehabilitation of affordable rental housing for low- and moderate-income tenants.
- The bank partnered with a housing authority and made a $\$ 7.9$ million single investor fund and direct LIHTC investment to provide 41 affordable rental units to low- and moderate-income individuals and families in the AA. After origination, the bank will monitor construction quality, lease-up and performance of the property through stabilization. Additionally, the bank will manage the asset for the entire fifteen-year hold period, ensuring compliance with the LIHTC program and conducting annual on-site inspections.
- From October 2016 to December 2018, three grants totaling $\$ 4$ million were provided to a publicschool foundation. The grants will help the foundation assist the school system with its career program expansion by providing high school students with exposure to learning that links their school studies to future college and career pathways. Most students participating in this program are eligible for the Federal Free or Reduced Lunch program.
- The bank originated a $\$ 4.9$ million NMTC equity investment for a family health center located in southwest Denver, a Health Resources and Services Administration medically underserved community. The facility consists of approximately 40,000 square feet of building space dedicated to medical and dental services for low-income patients. The project also allows the hospital to hire approximately 142 new full-time employees including doctors, nurses, administration, food service, and cleaning/maintenance personnel.

| Statewide Investments with No (P/M/F) to Serve AAs | 18 | 2,505 | 0 | 0 | 18 | 11.0 | 2,505 | 0.7 | 0 | 0 |

* Prior Period Investments' means investments made in a previous evaluation period that are outstanding as of the examination date.
** Unfunded Commitments' means legally binding investment commitments that are tracked and recorded by the institution's financial reporting system.

## Statewide Investments in the State of Colorado

The bank has qualified investments throughout the state of Colorado whose $\mathrm{P} / \mathrm{M} / \mathrm{F}$ includes serving the AAs. Ninety-one percent support community services and 9.0 percent support economic development. Of these, 12 grants totaling $\$ 2.2$ million were provided to a variety of organizations administering small business, financial education, and food programs. Investments with no $P / M / F$ to serve AAs support affordable housing. Investments with and without a $\mathrm{P} / \mathrm{M} / \mathrm{F}$ to serve AAs represent 2.1 percent of total
state qualified investments. The level of investments in the broader statewide area supported the bank's overall performance under the Investment Test for the state of Colorado.

## Conclusions for Area Receiving Limited-Scope Reviews

Performance in the limited-scope AAs was factored into the state's overall Outstanding Investment Test rating and did not significantly change the initial overall conclusions based on the AA receiving fullscope review. Based on limited-scope reviews, the bank's performance under the Investment Test in the Colorado Springs MSA and the Fort Collins MSA is consistent with the bank's overall performance under the Investment Test in the full-scope AA. The bank's performance under the Investment Test in the Colorado Non-MSA AA is weaker than the bank's overall performance under the Investment Test in the full-scope area due to the absence of CD investments. The Colorado Non-MSA AA comprises one branch that was opened in December 2018. Performance in the limited-scope AAs did not affect the Investment Test rating for the state of Colorado.

## SERVICE TEST

The bank's performance under the Service Test in the state of Colorado is rated Outstanding.

## Conclusions for Area Receiving a Full-Scope Review

Based on a full-scope review, the bank's performance in the Denver CSA is excellent.

## Retail Banking Services

Service delivery systems are readily accessible to geographies and individuals of different income levels in the bank's full-scope AA.

Examiners evaluated the data as outlined in the Scope section at the front of this document including bank-provided data on usage of branches adjacent to low-and moderate-income geographies by individuals residing in those geographies and on increases in the usage of alternative delivery systems.

Based on the data in the table below and performance context, the branch distribution is excellent. In low- and moderate-income geographies, the distribution is respectively near to and exceeds the percentage of the population. The bank had seven branches in low-income geographies and 22 branches in moderate-income geographies. The distribution was augmented by one MUI tract branch that serves low-income tracts and 13 MUI tract branches that serve moderate-income tracts. Examiners reviewed data on the accounts held and transactions conducted at the MUI branches and confirmed they were serving the adjacent low- and moderate-income populations.

| Distribution of Branch Delivery System |  |  |  |  |  |  |  | As of December 31, 2019 |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

|  | Deposits in AA |  |  | Low | Mod | Mid | Upp | Low | Mod | Mid | Upp |
| Denver- <br> Aurora CSA | 86.0 | 91 | 79.1 | 7.7 | 24.2 | 34.1 | 34.1 | 8.6 | 23.9 | 34.4 | 33.0 |

[^110]Alternative delivery systems enhance the delivery of banking services to geographies and individuals of all income levels. The OCC considered the availability and use of alternative delivery systems over the evaluation period. This included review of the bank's 232 deposit-taking ATMs, online banking, mobile banking, and telephone banking to determine the effectiveness of these systems to make retail banking services available to individuals in low- and moderate-income geographies. The bank increased the deposit-taking ATMs in low- and moderate-income geographies by 55.9 percent over the prior rating period to 22 ( 9.5 percent) deposit-taking ATMs in low-income geographies and 70 ( 30.2 percent) ATMs in moderate-income geographies. Additionally, bank-provided data on use of online, mobile, and telephone banking showed increases in the adoption of these services by low- and moderate-income individuals from the prior rating period.

|  |  |  | Low | Mod | Mid | Upp |
| Denver-Aurora CSA | 4 | 5 | 0 | -2 | -1 | 2 |

The bank's opening and closing of branches has not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and/or to low- and moderate-income individuals. The bank did not open or close any branches in low-income geographies and the bank closed two branches in moderate-income geographies. Branch closures were due to reduced customer usage and proximity to other Chase branches. The branch closures in moderate-income geographies generally did not adversely affect the distribution of branches relative to the population residing in the geographies. Branch locations remained accessible to geographies and individuals of different income levels in the bank's AA.

Services, including where appropriate, business hours, do not vary in a way that inconveniences the AA, particularly low- and moderate-income geographies and/or individuals. Generally, branches are open Monday through Friday from 9:00 am to 6:00 pm and Saturday from 9:00 am to 1:00 pm. All retail banking services are available at all branches within the low- and moderate-income geographies.

## Community Development Services

The bank is a leader in providing CD services that are responsive to identified needs in the AA.
Bank employees provided technical assistance and/or job-specific expertise for 736 CD service activities to 46 organizations for a total of 3,134 hours of service, including 619 hours serving on boards. The majority of the bank's assistance was to organizations that provide community services to low- and moderate-income individuals and families. These services were particularly responsive to community needs for financial literacy and job training. The following are examples of CD services provided in this AA.

- A bank employee provided 239 hours of board service to a non-profit organization that provides job training to low-income women.
- Thirty bank employees provided 276 hours of financial literacy training to students.

## Conclusions for Areas Receiving Limited-Scope Reviews

Performance in the limited-scope AAs was factored into the state's overall Outstanding Service Test rating and did not significantly change the initial overall conclusions based on the AA receiving fullscope review. Based on limited-scope reviews, the bank's performance under the Service Test in the Fort Collins, CO MSA is consistent with the bank's overall performance under the Service Test in the full-scope area and the bank's performance under the Service Test in the Colorado Springs, CO MSA was weaker than the bank's overall performance under the Service Test in the full-scope area. The branch distribution in the Colorado Springs, CO MSA was good and weaker than the excellent distribution in the full-scope AA. There were no low- and moderate-income census tracts in the Edwards-Glenwood Springs, CO MSA which, had a neutral effect on overall conclusions.

## State Rating

## State of Florida

CRA rating for the State of Florida ${ }^{11}$ : Outstanding
The Lending Test is rated: Outstanding
The Investment Test is rated: High Satisfactory
The Service Test is rated: High Satisfactory
The major factors that support this rating include:

- An excellent level of lending activity.
- Good geographic distribution of home mortgage loans and small loans to businesses
- Good borrower distribution of home mortgage loans and small loans to businesses.
- Leadership in making CD loans, that had a significantly positive affect on the rating.
- The extensive use of innovative/flexible products, which positively affected the rating.
- A good level of qualified CD investments that displayed excellent responsiveness to credit and community economic development needs.
- The significant use of innovative and/or complex qualified investments.
- Retail service delivery systems that are accessible to geographies and individuals of different income levels.
- Leadership in providing CD services that are responsive to AA needs.

## Description of Institution's Operations in Florida

The state of Florida is Chase's sixth largest rating area based on aggregate deposits of $\$ 38.4$ billion, representing 2.9 percent of the bank's total adjusted deposits. As of December 31, 2019, the bank operated 418 branches and 1,593 deposit-taking ATMs within the rating area, representing 8.4 percent of total branches and 9.7 percent of total ATMs. The bank originated and purchased approximately $\$ 32.7$ billion in loans or 4.7 percent of total bank loan originations and purchases during the evaluation period in the state.

According to FDIC Deposit Market Share Data, as of June 30, 2019, there were 206 institutions operating 4,816 branches in the state of Florida. Chase ranks fourth in deposit market share with 6.4 percent. Major competitors in the state based on deposit market share include Bank of America, N.A. (19.2 percent), Wells Fargo Bank, N.A. (13.1 percent), and SunTrust Bank (8 percent).

Chase has delineated 11 AAs in Florida. The Miami-Fort Lauderdale-Port St. Lucie, FL CSA (Miami CSA) and Orlando-Lakeland-Deltona, FL CSA (Orlando CSA), which combined account for over 75 percent of the deposits and 62 percent of lending in the state, received full-scope reviews. The Cape Coral-Fort Myers-Naples CSA, Gainesville MSA, Jacksonville MSA, Lakeland-Winter Haven MSA, North Port-Sarasota CSA, Ocala MSA, Palm Bay-Melbourne-Titusville MSA, Tampa-St. PetersburgClearwater MSA, and Tallahassee MSA received limited-scope reviews. Refer to appendix A for a complete description of each AA.

## Miami CSA

The following table provides a summary of the demographics that includes housing and business information for the Miami CSA. Table A indicates that the volume of OOUs is small in low-income census tracts ( 2.5 percent) and over 22.8 percent of families in the AA are low-income.

The Miami CSA is a high cost housing area, limiting access to affordable homeownership among LMI borrowers. The median housing value is $\$ 221,822$, while the NAR 4Q2019 median sales price of a single-family home is $\$ 368,500$. One simplistic method used to determine housing affordability assumes a maximum monthly principal and interest payment of no more than 30 percent of the applicant's income.

Assuming a 30 -year mortgage with a 5 percent interest rate, and not accounting for down payment, homeowners insurance, real estate taxes, or any additional monthly expenses, a low-income borrower making $\$ 32,173$ per year (or less than 50 percent of the FFIEC adjusted median family income in the AA) could afford a $\$ 149,831$ mortgage with a payment of $\$ 804$ per month; a moderate-income borrower earning $\$ 51,471$ per year (or less than 80 percent of the FFIEC adjusted median family income in the AA) could afford a $\$ 239,703$, mortgage with a payment of $\$ 1,287$ per month.

The poverty level across the AA was considered in the evaluation of lending performance. Families living below the stated poverty rate are identified as having difficulty meeting basic financial needs and as such are less likely to have the financial wherewithal to qualify for a home loan than those with income above poverty. In the Miami CSA, the overall household poverty level was 16 percent. However, in low-income geographies, the household poverty level increases to 40 percent and in moderate-income geographies it increases to 24 percent. In MUI geographies, the combined poverty level is 11 percent.

## Economic Data

According to Moody's Analytics November 2019, the Great Recession had a lasting impact on Miami's economy. At the height of the previous expansion 12 years ago, average hourly wages in the Miami MSA were $\$ 1.70$ above the U.S. average. Wages fell below the national average during the recession, and the gap between the local and national average has widened ever since. Today, the average hourly wage is $\$ 4.30$ less than the national level among major metro areas with more than one million residents. Construction jobs are set to grow twice as fast as the national average, and some of this new employment can be traced to activity at Port Miami, the world's busiest harbor for passenger ships. Over the next three years, cruise lines will build four separate terminals and two corporate offices at the port at a total cost of more than $\$ 1.5$ billion.

Major employers in the AA include University of Miami, Jackson Health System, Publix Super Markets, Baptist Health Systems of Southern Florida, and American Airlines.

The Miami MSA is transitioning into a sanctuary for affluent retirees and wealthy expatriates. Miami has the second-highest level of income inequality among major metro areas, behind New York City. Since the wealthy in Miami sustain their lifestyle with nonwage income, the area's gross domestic product has increased even as wage growth has stalled. But a looming domestic downturn and global slowdown will reduce corporate profits and stock market returns over the next couple of years. This shock will be hardest felt in the wealthy enclaves flanking the central business district and in Miami Beach, but it will impact the entire metro division.

## Community Contacts

Six community contacts completed during the examination period were reviewed to gain an understanding of the needs in the community. Contacts were completed with organizations focused on affordable housing, economic development, and community services. Low relative wages are a significant challenge for households in South Florida. The income levels are insufficient to meet housing, transportation, and other costs of living in the MSA. A community contact identified that Miami exhibits a larger income discrepancy than most other parts of the United States and the economic conditions of Miami demonstrate extreme polarization. On one hand, tourist areas and wealthy individuals provide a large economic spark, but on the other hand, many low-income individuals struggle. Housing in Miami-Dade County is very expensive, making it unaffordable to both homeowners and renters. The supply of housing stock for low- and moderate-income buyers is scarce. High student loan debt is also a barrier to affordable homeownership. Strategies to provide and preserve affordable housing are imperative for the area. Other needs mentioned for the area include:

- Affordable rental housing in areas experiencing population growth
- Financial education for individuals and small business
- Small business assistance
- Small dollar loan, working capital and lines of credit
- Support for community organizations

## Orlando CSA

The following table provides a summary of the demographics that includes housing and business information for the Orlando CSA. Table A indicates that the volume of OOUs is small in low-income census tracts ( 0.9 percent) and over 20.7 percent of families in the AA are low-income._The Orlando CSA's high cost housing area also limits access to affordable homeownership among LMI borrowers. The median housing value in the Orlando CSA $(\$ 160,770$, ) is approximately four times the median income, over ten times the moderate-income, and up to six times the low-income, indicating a limited proportion of OOUs are affordable to low- and moderate-income borrowers. One simplistic method used to determine housing affordability assumes a maximum monthly principal and interest payment of no more than 30 percent of the applicant's income.

Assuming a 30-year mortgage with a 5 percent interest rate, and not accounting for down payment, homeowners insurance, real estate taxes, or any additional monthly expenses, a low-income borrower making $\$ 32,173$ per year (or less than 50 percent of the FFIEC adjusted median family income in the AA) could afford a $\$ 149,831$ mortgage with a payment of $\$ 804$ per month; a moderate-income borrower earning $\$ 51,471$ per year (or less than 80 percent of the FFIEC adjusted median family income in the AA) could afford a $\$ 239,703$, mortgage with a payment of $\$ 1,287$ per month.

The poverty level across the AA was considered in the evaluation of lending performance. Families living below the stated poverty rate are identified as having difficulty meeting basic financial needs and as such are less likely to have the financial wherewithal to qualify for a home loan than those with income above poverty. In the Orlando CSA, the overall household poverty level was 11.9 percent.

## Economic Data

According to Moody's Analytics February 2020 Report, the strengths of the Orlando CSA are in tourism, ample services related job opportunities, plentiful land for development and strong migration into the area. However, there is an abundance of low-wage jobs and low employment diversity. Also, Orlando has a high sensitivity to national and international economic conditions.

The major economic driver for the Orlando area is tourism. It is the home to Walt Disney World and Universal Orlando. These resorts house six of the eight most-visited theme parks in North America. Disney and Universal combined employ nearly 100,000 local employees. The Orange County Convention Center is the second largest conference center in the country. Among metro areas with more than 1 million residents, only the Las Vegas workforce has a larger share of employment in leisure/hospitality. The 2.8 percent unemployment rate is only fractionally higher than the lowest rate ever recorded. Major employment industries in the area include leisure and hospitality services, professional and business services, and education and health services. Major employers include Walt Disney World Resort, Universal Orlando (Comcast), Adventist Health System/Florida Hospital, Publix Super Markets Inc., and Orlando International Airport.

Although house price appreciation is slowing, the pace remains above average due to the rapid population growth.

## Community Contacts

Three community contacts completed with organizations serving the area during the examination period were reviewed to ascertain credit and community development needs. Contacts were completed with organizations focused on affordable housing, small business, and workforce development. Increased demand for housing and rising home prices has made affordable housing a primary concern for Orlando. Low-income households are cost burdened and pay more than 30 percent of their income for housing and some even pay more than 50 percent. Multi-family apartment complexes are being built at a rapid pace across Orlando. There is a lack of financial access in underserved communities. A community contact reported that financial education, poor credit scores and lack of equity are the biggest impediments to small business owner's access to capital. Other needs identified include the following:

- Affordable housing and financial education
- Affordable rental housing
- First-time homebuyer counseling
- Financial education for small businesses
- Loans to small businesses for working capital and general operations
- Workforce development
- Capacity building for nonprofits

## Scope of the Evaluation in Florida

The Miami CSA and the Orlando CSA received full-scope reviews. The two AAs combined account for over 75 percent of the deposits and 62 percent of lending in the state. More weight was placed on performance in the Miami CSA based on the bank's higher volume of deposits and lending. The remaining AAs in the state of Florida received limited-scope reviews. Performance in limited-scope AAs and its effect on the CRA rating are discussed at the end of each test.

## CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS IN FLORIDA

## LENDING TEST

The bank's performance under the Lending Test in the state of Florida is rated Outstanding.
Performance in AAs receiving limited-scope reviews was factored together with performance from AAs receiving full-scope reviews to determine the state's overall Outstanding Lending Test rating. Limitedscope conclusions did not significantly affect the initial overall conclusions based on the AAs receiving full-scope review.

## Conclusions for Areas Receiving a Full-Scope Review

Based on full-scope reviews, the bank's performance in the Miami CSA and the Orlando CSA is excellent. Overall excellent lending levels, good geographic distribution of loans, and good distribution of loans by income level of the borrower. CD lending had a significantly positive affect on the rating and product innovation and flexibility was considered favorably.

## Lending Activity

Lending levels reflect excellent responsiveness to AA credit needs in the bank's AAs.
Examiners considered the number and amount of home mortgage, small business, and small farm loans originated or purchased relative to Chase's capacity based on deposits, competition, and market presence. Lending activity for home mortgage and small loans to businesses received the most weight in reaching conclusions. Respectively, home mortgage lending and small loans to businesses account for 23.7 percent and 75.8 percent of the loan volume in the state by number and 79.3 and 17.9 percent of loan volume by dollar. Small farm lending is not a strategic focus of the bank and received minimal weight in reaching conclusions. Farm loans represented 0.45 percent of the loan volume in the state by number and 0.09 percent loan volume by dollar.

*Due to rounding, totals may not equal $100.0 \%$. The tables present the data for all assessment areas. The narrative below addresses performance in fullscope areas only.

## Miami CSA

The bank ranked third in deposits out of 90 institutions with a 9.2 percent market share.

In overall home mortgage lending, the bank ranked third out of 1,191 lenders with a 4.5 percent market share placing it in the top 1 percent of all lenders. There is strong competition for home mortgage lending. The top lenders were Wells Fargo Bank, N.A. (8.1 percent), Bank of America, N.A. (6.5 percent), and Quicken Loans (4.2 percent).

In small loans to businesses, the bank ranked third out of 248 lenders with a 15.3 percent market share placing it in the top 2 percent of all lenders. This is a very competitive market. The top lenders (and their market share) are nationwide lenders with substantial small business credit card portfolios and include American Express National Bank (27 percent), Bank of America, N.A. (14.7 percent), and Citibank, N.A. (7.9 percent).

In small loans to farms, Chase ranked first out of 26 lenders with a 31.4 percent market share. The other major lenders and respective market shares are Bank of America, N.A. (23.7 percent), Wells Fargo Bank, N.A. (15.3 percent), and U.S. Bank, N.A. (9.0 percent).

## Orlando CSA

The bank ranked fourth in deposits out of 50 institutions with an 8.2 percent market share.
In overall home mortgage lending, the bank ranked fifth out of 1,102 lenders with 3 percent market share placing it in the top 1 percent of all lenders. There is strong competition for home mortgage lending. The top lenders were Wells Fargo Bank, N.A. (7 percent), Quicken Loans (4.4 percent), and Bank of America, N.A. (4.2 percent).

In small loans to businesses, the bank ranked second out of 178 lenders with 14.4 percent market share placing it in the top 2 percent of all lenders. This is a very competitive market. The top lenders (and their market share) are nationwide lenders with substantial small business credit card portfolios and include American Express National Bank (27 percent), Bank of America, N.A. (14.7 percent), and Citibank, N.A. (7.9 percent).

In small loans to farms, Chase ranked first out of 19 lenders with a 32.2 percent market share. The other major lenders and respective market shares are Wells Fargo Bank, N.A. ( 16.5 percent), Bank of America, N.A. (15.5 percent), and U.S. Bank, N.A. (9.2 percent).

## Distribution of Loans by Income Level of the Geography

The bank exhibits good geographic distribution of loans in its AAs, relative to area demographics and aggregate lending data.

## Home Mortgage Loans

Refer to Table O in the state of Florida section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of home mortgage loan originations and purchases is good. The following information was taken into consideration when determining this rating.

## Miami CSA

- The limited proportion of housing units in low-income geographies, particularly OOUs ( 2.5 percent), constrained lending opportunities; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of OOUs in those geographies.
- The high level of poverty and competition in the AA (1,191 home mortgage lenders) was also considered and examiners placed greater significance on performance compared to the aggregate of lenders.
- Between 2017 and 2019, the proportion of loans in low- income areas were below the percentage of owner-occupied units and aggregate distribution of loans. In moderate-income areas the proportion of loans was below the percentage of owner-occupied units and near to the aggregate distribution of loans.
- During 2014 through 2016, performance in low-income geographies was well below both the percentage of owner-occupied units and aggregate distribution of loans, while performance in moderate-income geographies was well below the percentage of owner-occupied units and below the aggregate distribution of loans.

## Orlando CSA

- The limited proportion of housing units in low-income geographies, particularly OOUs ( 0.9 percent), constrained lending opportunities; therefore, performance in moderate-income geographies was given more consideration due to the higher percentage of OOUs in those geographies.
- The high level of competition in the AA (1,057 home mortgage lenders) was also considered and examiners placed greater significance on performance compared to the aggregate of lenders.
- Between 2017 and 2019, the proportion of loans in low- and moderate-income areas was below the percentage of owner-occupied units and near to the aggregate distribution of loans.
- During 2014 through 2016, performance in low-income geographies was well below the percentage of owner-occupied units and exceeded the aggregate distribution of loans, while performance in moderate-income geographies was below the percentage of owner-occupied units and near to the aggregate distribution of loans.

## Small Loans to Businesses

Refer to Table Q in the state of Florida section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to businesses.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to businesses for this evaluation is good. The following information was taken into consideration when determining this rating.

## Miami CSA

- The small proportion of businesses in low-income geographies (4.1 percent) and competition between 248 lenders constrained lending opportunities to existing businesses. Therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of businesses in those geographies.
- Between 2017 and 2019, the proportion of small loans to businesses in low-income geographies was below the proportion of businesses and the aggregate distribution, while the proportion of small loans to businesses in moderate-income geographies was near to both the proportion of businesses and the aggregate distribution
- During 2014 to 2016, the proportion of small loans to businesses in low-income geographies was below the proportion of businesses and near to the aggregate distribution, while the proportion of small loans to businesses in moderate-income geographies was near to both the proportion of businesses and the aggregate distribution

## Orlando CSA

- The small proportion of businesses in low-income geographies (1.6 percent) and competition between 178 lenders constrained lending opportunities to existing businesses. Therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of businesses in those geographies.
- Between 2017 and 2019, the proportion of small loans to businesses in low-income geographies was well below the proportion of businesses and near to the aggregate distribution, while the proportion of small loans to businesses in moderate-income geographies was near to both the proportion of businesses and the aggregate distribution.
- During 2014 to 2016, the bank's proportion of small loans to businesses in low-income geographies was well below both the proportion of businesses and the aggregate distribution. The proportion of small loans to businesses in moderate-income geographies was near to both the proportion of businesses and the aggregate distribution.

## Small Loans to Farms

Refer to Table S in the state of Florida section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to farms.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to farms is adequate. The following information was taken into consideration when determining this rating.

## Miami CSA

- The limited number of farms in low-income geographies (3.7 percent) constrained lending opportunities; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher number of farms in those geographies.
- The fact that farm lending is not a focus of the bank was also considered.
- Between 2017 and 2019, the proportion of loans to small farms in low-income geographies was well below the proportion of farms in those geographies and near to the aggregate distribution of all lenders. The proportion of loans to small farms in moderate-income geographies was well below both the proportion of farms in those geographies and the aggregate distribution of all lenders.
- Performance in low- and moderate-income geographies during the 2014 to 2016 period was weaker than performance during the 2017 to 2019 period. The bank had no farm loans in low-income geographies. The proportion of loans to small farms in moderate-income geographies was well below both the proportion of farms in those geographies and the aggregate distribution for the respective geographies.

## Orlando CSA

- The limited number of farms in low-income geographies, ( 3.7 percent in 2017-2019; 0.84 percent in 2014 to 2016), constrained lending opportunities; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher number of farms in those geographies.
- The fact that farm lending is not a focus of the bank was also considered.
- Between 2017 and 2019, the bank made no loans in low-income geographies. The proportion of loans to small farms in moderate-income geographies was well below both the proportion of farms in those geographies and near to the aggregate distribution of all lenders.
- Performance in low- and moderate-income geographies during the 2014 to 2016 period was weaker than performance during the 2017 to 2019 period. The proportion of loans to small farms in lowand moderate-income geographies was well below and below the proportion of farms in those geographies and well below and near to the aggregate distribution for the respective geographies.

## Lending Gap Analysis

A review of home mortgage loans, small loans to business, and small loans to farms including summary reports and AA maps did not identify any unexplained conspicuous lending gaps in the bank's activities.

## Distribution of Loans by Income Level of the Borrower

The bank exhibits good distribution of loans among individuals of different income levels and business and farms of different sizes, given the product lines offered by the institution.

## Home Mortgage Loans

Refer to Table P in the state of Florida section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall borrower distribution of home mortgage loan originations and purchases for this evaluation is good. The following information was taken into consideration when determining this rating.

## Miami CSA

- Greater significance was placed on performance against the aggregate distribution as it reflects the difficulties all lenders are experiencing due to competition and the economic constraints discussed above under the Description of this Full-Scope AA.
- Examiners particularly considered housing affordability challenges for low- and moderate-income borrowers. Particularly, the high housing cost, limited availability of housing that low-income borrowers can afford to acquire, and poverty levels within the AA constrained lending opportunities to low-income borrowers.
- Between 2017 and 2019, the proportion of loans to low-income borrowers was well below the percentage of low-income families and exceeded the aggregate distribution of lenders. The proportion of moderate-income loans was below the proportion of moderate-income families and exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was generally consistent with performance between 2017 to 2019. The proportion of loans to low-income borrowers was well below the percentage of low-income families and exceeded the aggregate distribution of lenders. The proportion of moderate-income loans was below the proportion of moderate-income families and was near to the aggregate distribution.

## Orlando CSA

- Greater significance was placed on performance against the aggregate distribution as it reflects the difficulties all lenders are experiencing due to competition and the economic constraints discussed above under the Description of this Full-Scope AA.
- Examiners particularly considered housing affordability challenges for low- income borrowers. Particularly, the high housing cost and limited availability of housing that low-income borrowers can afford to acquire constrained lending opportunities to low-income borrowers.
- Between 2017 and 2019, the proportion of loans to low-income borrowers was well below the percentage of low-income families and exceeded the aggregate distribution of lenders. The proportion of moderate-income loans was near to the proportion of moderate-income families and exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was generally consistent with performance between 2017 to 2019. The proportion of loans to low-income borrowers was well below the percentage of low-income families and significantly exceeded the aggregate distribution of lenders. The proportion of moderate-income loans was near to the proportion of moderate-income families and the aggregate distribution.

## Small Loans to Businesses

Refer to Table R in the state of Florida section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's origination and purchase of small loans to businesses.

Based on the data in the table and the following considerations, the distribution of the bank's originations and purchases of small loans to businesses by revenue category is good. The following information was taken into consideration when determining this conclusion.

## Miami CSA

- Greater significance was placed on performance against the aggregate distribution of lenders as it reflects the difficulties all lenders are experiencing due to competition and the economic constraints discussed above under the Description of the Full-Scope AA.
- Between 2017 and 2019, the bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was near to the percentage of businesses and exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was weaker than performance between 2017 and 2019. The bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and exceeded the aggregate distribution.

## Orlando CSA

## Community Development Lending

The institution is a leader in making CD loans.
The Lending Activity Tables, shown above, set forth the information and data used to evaluate the institution's level of CD lending. These tables include all CD loans, including multifamily loans that also qualify as $C D$ loans.

CD lending had a significantly positive affect on the Lending Test rating for the state of Florida.

## Miami CSA

The bank made 35 CD loans in its AA for a total of $\$ 340.2$ million, which represents 11.3 percent of the tier 1 capital allocated to the AA. Of total CD lending, 77.5 percent supported affordable housing, and 11.9 percent supported community services.

Examples of CD loans in the AA include:

- In December 2014, the bank provided an $\$ 8.1$ million loan to finance affordable housing as the National Low-Income Housing Coalition determined there was a shortage of affordable housing in this AA.
- In May 2017, the bank provided a $\$ 1.0$ million loan to an academic organization focused on implementing best practices regarding curriculum, academic intervention, and school improvement for low- and moderate-income students.
- In April 2019, the bank provided a $\$ 36.0$ million loan to the City of Pompano to assist in completing its plans that focus on low- and moderate-income individuals and reducing poverty among its residents. The city lost more than 250 jobs when a long-established manufacturing company relocated its plant operations. With the support of the bank, the city's project aims to bring new job opportunities that will help revitalize and stabilize the area.

## Orlando CSA

The bank made nine CD loans in its AA for a total of $\$ 208.5$ million, which represents 29 percent of the tier 1 capital allocated to the AA. Of total CD lending, 80.3 percent supported community services and 20 percent supported affordable housing.

Examples of CD loans in the AA include:

- In May 2015, the bank funded a $\$ 108.2$ million loan to the School Board of Orange County FL to provide an effective and complete education for low- and moderate-income students.
- In December 2017, the bank provided a $\$ 13.9$ million loan to develop affordable housing in DeLand, which is an area identified as having an affordable housing gap by the National Low-Income Housing Coalition. The project resulted in the creation of 100 low- and moderate-income units.
- In March 2019, the bank provided a $\$ 1.4$ million loan to develop affordable housing in the Palm Beach County section of the AA. This project resulted in the creation of 40 low- and moderateincome units.

## Product Innovation and Flexibility

The bank makes extensive use of innovative and/or flexible lending practices to serve AA credit needs, which was considered positively in determining the rating for the state of Florida.

## Miami CSA

A total of 8,011 loans were funded totaling nearly $\$ 1.4$ billion under the following innovative and/or flexible programs.

| Loan Type | Number of <br> Loans | Dollar Amount <br> (\$000's) |
| :--- | :---: | :---: |
| DreaMaker | 934 | 163,890 |
| Federal Housing Administration (FHA) | 2,477 | 411,386 |
| Home Affordable Refinance Program (HARP) | 3,218 | 451,312 |

| Veteran's Administration (VA) | 770 | 177,593 |
| Small Business Administration (SBA) | 213 | 50,578 |
| U.S. Department of Agriculture (USDA) | 1,325 | 185,421 |

## Conclusions for Areas Receiving Limited-Scope Reviews

Performance in the limited-scope AAs was factored into the state's overall Outstanding Lending Test rating and did not significantly affect the initial overall conclusions based on the AAs receiving fullscope review. Based on limited-scope reviews, the bank's performance under the Lending Test in the Gainesville MSA, Lakeland-Winter Haven MSA, North Port-Sarasota CSA, Palm Bay-MelbourneTitusville MSA, Tallahassee MSA, and Tampa-St. Petersburg-Clearwater MSA, Cape Coral, Fort Myers-Naples MSA, Jacksonville MSA and Ocala MSA is weaker than the bank's excellent performance under the Lending Test in the full-scope areas due to weaker geographic and/or borrower income distributions.

Refer to Tables O through T in the state of Florida section of appendix D for the facts and data that support these conclusions.

## INVESTMENT TEST

The bank's performance under the Investment Test in the state of Florida is rated High Satisfactory.

## Conclusions for Areas Receiving Full-Scope Reviews

Based on a full-scope reviews, the bank's performance in the Miami-Fort Lauderdale-Port St. Lucie CSA and Orlando Deltona-Daytona Beach CSA is good.

## Miami-Fort Lauderdale-Port St. Lucie CSA

The bank has an adequate level of qualified CD investments and grants, although rarely in a leadership position, particularly those that are not routinely provided by private investors. Current and prior period investment dollar volume represents 3.6 percent of tier 1 capital allocated to the AA. A significant majority or 66.9 percent of total investments represent current period investments.

The bank exhibits excellent responsiveness to the needs identified in the AA as affordable housing, affordable rental housing, and community service. Current period investments were 82.1 percent or $\$ 59.5$ million affordable housing, 15.1 percent community service, and 1.9 percent economic development. Current and prior period investments created or supported 5,371 low- and moderateincome housing units for individuals and families. The bank provided 163 grants totaling $\$ 17.1$ million to a variety of organizations that primarily support community service and affordable housing. In some occurrences the bank provided grants in multiple years.

The bank makes extensive use of innovative and/or complex investments to support CD initiatives. Current period investments include eight or $\$ 50.2$ million complex Direct Investor LIHTC transactions which require bank expertise and capacity in selecting projects and partners, negotiating agreements, overseeing project development and operations, and ensuring compliance. In addition, nine investments were a catalyst for future growth and other improvements.

Examples of CD investments in the AA include:

- The bank invested $\$ 1.2$ million in a LIHTC fund for affordable housing development in the MiamiDade County. The project was required to set aside a number of units for low- and moderate-income individuals or households that must earn either less than 50 percent or 60 percent of the (AMI) (depending on the set-aside option chosen by the property owner) to qualify for these units.
- The bank originated an $\$ 11.4$ million Direct Investor LIHTC investment for new construction of two 4-story, elevator buildings with 100 units located in Homestead FL. All units will benefit from a rental subsidy provided and administered by Miami-Dade County through its Public Housing and Community Development Department. A Section 8 HAP contract will cover 80 units and a Section 9 public housing Annual Contribution Contract (ACC) covers 20 units. The first phase of the multiphase development will replace a former public housing complex demolished in 2014. The project was financed with $\$ 15.5$ million tax exempt bonds purchased by the bank.

## Orlando Deltona-Daytona Beach CSA

The bank has an excellent level of qualified CD investments and grants, but not in a leadership position, particularly those that are not routinely provided by private investors. Current and prior period investment dollar volume represent 8.9 percent of tier 1 capital allocated to the AA. A significant majority or 84.6 percent of total investments represent current period investments.

The bank exhibits excellent responsiveness to the needs identified in the AA including affordable housing and affordable rental housing and community service. Eighty-two percent or $\$ 50.2$ million of investments focused on affordable housing and 7.0 percent or $\$ 3.8$ million on community service. Current and prior period investments created or supported 2,910 low- and moderate-income housing units for individuals and families. The bank provided 44 grants totaling $\$ 8.3$ million to a variety of organizations that primarily support affordable housing and community services.

The bank occasionally uses innovative and/or complex investments to support CD initiatives. Current period investments included three complex Direct Investor LIHTC transactions which require bank expertise and capacity in selecting projects and partners, negotiating agreements, overseeing project development and operations, and ensuring compliance. The bank also invested in one NMTC project.

Examples of CD investments in the AA include:

- The bank invested $\$ 16.3$ million in a LIHTC fund. This activity is responsive to the identified need for affordable housing within the bank's AA. The LIHTC provides a tax incentive to construct or rehabilitate affordable rental housing for low- and moderate-income households. It subsidizes the acquisition, construction, and rehabilitation of affordable rental housing for low- and moderateincome tenants.
- The bank made three grants totaling $\$ 5$ million to a community loan fund to increase affordable housing in the AA. The three-year investment allows development of stable affordable housing for low- and moderate-income renters by working with innovative developers to develop multifamily rental complexes using repurposed shipping containers, purchasing bulk other real estate owned properties and rehabilitating them for affordable rental housing; and acquiring and renovating existing multifamily properties to preserve long-term affordability.
- The bank invested $\$ 1.9$ million in a NMTC that provided financing to a service entity seeking to expand and create jobs in two grocery stores in the AA. The entity was unable to secure conventional financing and traditional financing would have been at a high cost. The bank partnered with a Central Florida Community Development Entity (CDE) to finance the project. Bank financing was the final component of allocation necessary to ensure the project's success. Anticipated job growth in the two stores was 90 full-time positions available to individuals with a high school diploma.

* Prior Period Investments' means investments made in a previous evaluation period that are outstanding as of the examination date.
** Unfunded Commitments' means legally binding investment commitments that are tracked and recorded by the institution's financial reporting system.

## Statewide Investments in the State of Florida

The bank has qualified investments throughout the state of Florida with and without a P/M/F to serve AAs. These investments represent 11.3 percent of total qualified investment in Florida. Three investments totaling $\$ 31.7$ million were made for affordable housing, including two complex Direct Investor LIHTC transactions. Sixty-four grants totaling $\$ 11.3$ million were provided to a variety of organizations, primarily agencies administering financial education services to consumers. Some grants
were made in multiple years. Almost all investments have a P/M/F to serve AAs. The level of broader statewide investments supports the Investment Test rating for the state of Florida.

## Conclusions for Areas Receiving Limited-Scope Reviews

Performance in the limited-scope AAs was factored into the state's overall High Satisfactory Investment Test rating and did not significantly affect the initial overall conclusions based on the AAs receiving full-scope review. Based on limited-scope reviews, the bank's performance under the Investment Test in the Gainesville MSA, Jacksonville MSA, Tampa-St. Petersburg-Clearwater MSA and Tallahassee MSA is stronger than the bank's good performance under the Investment Test in full-scope areas. Stronger performance is due to higher levels of qualified investments in relation to tier 1 capital. The bank's performance under the Investment Test in the Cape Coral-Fort Myers-Naples CSA, LakelandWinter Haven MSA, North Port-Sarasota CSA, Ocala MSA, and Palm Bay-Melbourne-Titusville MSA is weaker than the bank's good performance in the full-scope areas. Weaker performance is due to a lower level of investments.

## SERVICE TEST

The bank's performance under the Service Test in the state of Florida is rated High Satisfactory.

## Conclusions for Areas Receiving Full-Scope Reviews

Based on a full-scope review, the bank's performance in the Miami-Fort Lauderdale-Port St. Lucie, FL CSA is good and the bank's performance in the Orlando-Deltona-Daytona Beach, FL CSA is excellent.

## Retail Banking Services

Service delivery systems are accessible to geographies and individuals of different income levels in the bank's full-scope AAs.

Examiners evaluated the data as outlined in the Scope section at the front of this document including bank-provided data on usage of branches adjacent to low-and moderate-income geographies by individuals residing in those geographies and on increases in the usage of alternative delivery systems.

## Miami-Fort Lauderdale-Port St. Lucie, FL CSA

Based on the data in the table below and performance context, the branch distribution is good. In lowand moderate-income geographies, the distribution is respectively near to and below the percentage of the population. The bank had eight branches in low-income geographies and 37 branches in moderateincome geographies. The distribution was augmented by one MUI tract branch that served low-income tracts and 54 MUI tract branches that serve moderate-income tracts. Examiners reviewed data on the accounts held and transactions conducted at the MUI branches and confirmed they were serving the adjacent low- and moderate-income populations.

## Orlando-Deltona-Daytona Beach, FL CSA

Based on the data in the table below and performance context, the branch distribution is excellent. In low- and moderate-income geographies, the distribution respectively exceeds and is near to the percentage of the population. The bank had two branches in low-income geographies and 14 branches
in moderate-income geographies. The distribution was augmented by 15 MUI tract branches that serve moderate-income tracts. Examiners reviewed data on the accounts held and transactions conducted at the MUI branches and confirmed they were serving the adjacent low- and moderate-income populations.

## Miami-Fort Lauderdale-Port St. Lucie CSA

Alternative delivery systems enhanced the delivery of banking services to geographies and individuals of all income levels. The OCC considered the availability and use of alternative delivery systems over the evaluation period. This included review of the bank's 778 deposit-taking ATMs, online banking, mobile banking, and telephone banking to determine the effectiveness of these systems to make retail banking services available to individuals in low- and moderate-income geographies. The bank increased the deposit-taking ATMs in low- and moderate-income geographies by 47.0 percent over the prior rating period to 31 ( 4.0 percent) deposit-taking ATMs in low-income geographies and 166 (21.3 percent) ATMs in moderate-income geographies. Additionally, bank-provided data on use of online, mobile, and telephone banking showed increases in the adoption of these services by low- and moderate-income individuals from the prior rating period.

## Orlando-Deltona-Daytona Beach CSA

Alternative delivery systems enhanced the delivery of banking services to geographies and individuals of all income levels. The OCC considered the availability and use of alternative delivery systems over the evaluation period. This included review of the bank's 237 deposit-taking ATMs, online banking, mobile banking, and telephone banking to determine the effectiveness of these systems to make retail banking services available to individuals in low- and moderate-income geographies. The bank had 8 (3.4 percent) deposit-taking ATMs in low-income geographies and 55 (23.2 percent) ATMs in moderate-income geographies. Additionally, bank-provided data on use of online, mobile, and telephone banking showed increases in the adoption of these services by low- and moderate-income individuals from the prior rating period.

## Miami-Fort Lauderdale-Port St. Lucie CSA

The bank's opening and closing of branches has not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and/or to low- and moderate-income individuals. The bank opened two branches in moderate-income geographies, closed one branch in a low-income geography, and closed four branches in moderate-income geographies. Branch closures were due to reduced customer usage and proximity to other Chase branches. Despite the branch closures, branch locations remained accessible to geographies and individuals of different income levels in the bank's AA.

Services, including where appropriate, business hours, do not vary in a way that inconveniences its AA, particularly low- and moderate-income geographies and/or individuals. Generally, branches are open Monday through Friday from 8:30 am to 6:00 pm and Saturday from 9:00 am to 2:00 pm. All retail banking services are available at all branches within the low- and moderate-income geographies.

## Orlando-Deltona-Daytona Beach CSA

The bank's opening and closing of branches has enhanced the accessibility of its delivery systems, particularly in low- and moderate-income geographies and/or to low- and moderate-income individuals. The bank did not open or close any branches in low-income geographies, opened four branches in moderate-income geographies and closed one branch in a moderate-income geography. The branch closure was due to reduced customer usage. Branch locations remained accessible to geographies and individuals of different income levels in the bank's AA.

Services, including where appropriate, business hours, do not vary in a way that inconveniences its AA, particularly low- and moderate-income geographies and/or individuals. Generally, branches are open Monday through Friday from 9:00 am to 6:00 pm and Saturday from 9:00 am to 2:00 pm. All retail banking services are available at all branches within the low- and moderate-income geographies.

## Community Development Services

The bank was a leader in providing CD services in Miami-Fort Lauderdale-Port St. Lucie CSA and Orlando-Deltona-Daytona Beach CSA that are responsive to AA needs.

## Miami-Fort Lauderdale-Port St. Lucie CSA

Bank records show employees provided technical assistance and/or job-specific expertise for 1,551 CD service activities to 49 organizations for a total of 6,067 qualified hours of service. A majority of the
bank's assistance was to organizations that provide community services to low- and moderate-income individuals and families. These services were responsive to community needs, particularly, financial literacy and first-time homebuyer education. The following are examples of CD services provided in this AA:

- Bank employees conducted 15 first time homebuyer seminars serving 925 low- and moderateincome individuals in partnership with a non-profit housing organization.
- A bank employee conducted 20 financial literacy seminars serving 43 low- and moderate-income individuals in partnership with a local non-profit.

## Orlando-Deltona-Daytona Beach CSA

Bank records show employees provided technical assistance and/or job-specific expertise for 449 CD service activities to 15 organizations for a total of 2,074 qualified hours of service. A majority of the bank's assistance was to organizations that provide community services to low- and moderate-income individuals and families. These services were responsive to community needs, particularly, financial literacy and job training. The following are examples of CD services provided in this AA:

- Bank employees conducted 29 first time homebuyer seminars serving 272 low- and moderateincome individuals in partnership with a non-profit organization.
- Bank employees provided 89 financial literacy seminars to over 2,200 low- and moderate-income students through partnership with a non-profit organization.

## Conclusions for Areas Receiving Limited-Scope Reviews

Performance in the limited-scope AAs was factored into the state's overall High Satisfactory Service Test rating and did not significantly change the initial overall conclusions based on the AAs receiving full-scope review. Based on limited-scope reviews, the bank's performance under the Service Test in the Tampa-St. Petersburg-Clearwater, FL and Gainesville-Lake City, FL AAs is stronger than the bank's overall performance under the Service Test in the full-scope areas due to better branch distribution in low- and moderate-income geographies. The bank's performance under the Service Test in the Jacksonville-St. Marys-Palatka, FL-GA CSA is consistent with the bank's overall performance under the Service Test in the full-scope areas. The bank's performance under the Service Test in the North PortSarasota, FL; Cape Coral-Fort Myers-Naples, FL; Lakeland-Winter Haven, FL; Ocala, FL; Palm Bay-Melbourne-Titusville, FL; Tallahassee-Bainbridge, FL-GA; AAs is weaker than the bank's overall performance under the Service Test in the full-scope area due to a lower percentage of branch distribution in low- and moderate-income geographies

## State Rating

## State of Georgia

CRA rating for the State of Georgia ${ }^{12}$ : Outstanding
The Lending Test is rated: Outstanding
The Investment Test is rated: Outstanding
The Service Test is rated: High Satisfactory
The major factors that support this rating include:

- A good level of lending activity.
- Overall good geographic distribution of home mortgage loans and small loans to businesses.
- Overall good borrower distribution of home mortgage loans and small loans to businesses.
- A leader in making CD loans, which positively affected the rating.
- The extensive use of flexible products, which positively affected the rating.
- An excellent level of CD investments that displayed excellent responsiveness to credit and community economic development needs, and a significant level of broader statewide investments.
- Retail service delivery systems are accessible to geographies and individuals of different income levels.
- Chase is a leader in providing CD services that are responsive to AA needs.

## Description of Institution's Operations in Georgia

The state of Georgia is Chase's 16th largest rating area based on deposits of $\$ 5.7$ billion representing 0.4 percent of the bank's total deposits. As of December 31, 2019, the bank operated 89 branches and 257 deposit-taking ATMs within the rating area, representing 1.8 percent of total branches and 1.6 percent of total ATMs. The bank originated and purchased approximately $\$ 10.7$ billion in loans or 1.5 percent of total bank loan originations and purchases during the evaluation period in the state.

According to the FDIC Deposit Market Share Data, as of June 30, 2019, there were 213 banks operating 2,252 branches in the state of Georgia. Chase ranked eighth in deposit market share with 2.2 percent. Major competitors in the state based on deposit market share include SunTrust Bank (21.2 percent), Bank of America, N.A. (14.7 percent), and Wells Fargo Bank, N.A.(14.6 percent) share.

Chase has one AA in the state of Georgia and consists of a portion of the Atlanta-Athens-Clarke County-Sandy Springs, GA CSA (Atlanta CSA) which received a full-scope review. Refer to appendix A for a complete description of the AA.

## Description of Full-Scope AA

The following table provides a summary of the demographic that includes housing and business information for the Atlanta CSA. Table A indicates that the volume of OOUs is very small in lowincome CTs ( 3.3 percent) and over 22.2 percent of families in the AA are low-income, with 11.9 percent below the poverty level. The median housing value in the Atlanta CSA is three times the median income, four times the moderate-income and seven times the low-income, indicating a limited

[^111]proportion of OOUs are affordable to low-income borrowers. One simplistic method used to determine housing affordability assumes a maximum monthly principal and interest payment of no more than 30 percent of the applicant's income.

In the Atlanta CSA, assuming a 30-year mortgage with a five percent interest rate and three percent down payment, while not accounting for homeowners insurance, real estate taxes, or any additional monthly expenses, a low-income borrower making \$29,279 per year (or less than 50 percent of the FFIEC adjusted median family income in the CSA) could afford a $\$ 88,285$ mortgage loan with a payment of $\$ 878$ per month; a moderate-income borrower earning $\$ 46,846$ per year (or less than 80 percent of the FFIEC adjusted median family income in the CSA) could afford a $\$ 172,026$ mortgage loan with a payment of $\$ 1,405$ per month.

Median rents and the percentage of families below poverty level suggest rental housing is also unaffordable for some low-income residents.

## Economic Data

According to the Moody's Analytics February 2020 report, the Atlanta area economy is strong and growing. The economy is diverse, and the area has a business-friendly environment, strong demographics including a large pool of talent and healthy net migration. Job growth has a solid lead over the US with strong gains in most industries especially education, healthcare, and leisure hospitality industries. At 3.0 percent, the jobless rate is the lowest in three decades. The economic drivers for the area are high technology and logistics. The area is a major tech hub and has a deep talent pool of in-
migrants and graduates of area institutions Georgia Tech and Emory University. Hartsfield-Jackson airport is a well-established logistics hub that creates an $\$ 82$ billion economic impact and employs approximately 63,000 people. Top employers in the area include Delta Airlines, Inc., Walmart Stores, Inc., and The Home Depot Inc. Since 2013, the median prices for single family homes have increased 60 percent and dwindling the supply of affordable homes.

## Community Contacts

Examiners considered four community contacts completed during the review period with entities serving the area. The contacts were with organizations focused on affordable housing, economic development, workforce development, increase economic standards of low-income individuals, community services, and asset development and financial stability. Contacts addressed concerns regarding financing for affordable housing. Contacts noted that there are numerous opportunities for banks to help address credit and community development needs by offering flexible lending products for both affordable housing and small businesses; grant support; and technical assistance to non-profit organizations.

## Scope of Evaluation in Georgia

The Atlanta CSA received a full-scope review.

## CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS IN GEORGIA

## LENDING TEST

The bank's performance under the Lending Test in the state of Georgia is rated Outstanding.

## Conclusions for Area Receiving a Full-Scope Review

Based on a full-scope review, the bank's performance in the Atlanta CSA is excellent. Overall, excellent lending levels and CD lending offset weaker, but good geographic and borrower distribution of loans. Product innovation and flexibility was also considered favorably.

## Lending Activity

Lending levels reflect an excellent responsiveness to the credit needs in the bank's AA.
Examiners considered the number and amount of home mortgage, small business, small farm loans originated or purchased relative to Chase's capacity based on deposits, competition, and market presence. Lending activity for home mortgage and small loans to businesses received the most weight in reaching conclusions. Respectively, home mortgage lending and small loans to businesses account for 31.9 percent and 67.9 percent of the loan volume in the state by number and 83.5 percent and 13.4 percent of loan volume by dollar. Small farm lending is not a strategic focus of the bank and received minimal weight in reaching conclusions. Farm loans represented 0.2 percent of the loan volume in the state by number and 0.03 percent loan volume by dollar.

| Number of Loans* |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment <br> Area | Home <br> Mortgage | Small <br> Business | Small <br> Farm | Community <br> Development | Total | \% State <br> Loans | \% State <br> Deposits |
| Atlanta CSA | 34,129 | 72,671 | 260 | 11 | 107,071 | 100 | 100 |

*The tables present the data for all assessment areas. The narrative below addresses performance in full-scope areas only.

Dollar Volume of Loans* (in \$000s)

| Assessment <br> Area | Home <br> Mortgage | Small <br> Business | Small <br> Farm | Community <br> Development | Total | \% State* <br> Loans | \% State <br> Deposits |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Atlanta CSA | $8,905,832$ | $1,425,537$ | 4,141 | 334,691 | $10,670,201$ | 100 | 100 |

*The tables present the data for all assessment areas. The narrative below addresses performance in full-scope areas only.
Chase ranked fifth in deposits in the AA out of 213 institutions with 3.4 percent market share.
In overall home mortgage lending, Chase ranked fifth with 2.7 percent market share. This is a very competitive market with 917 home mortgage lenders, placing Chase in the top one percent. The top lenders in this market were Wells Fargo Bank, N.A. (8.0 percent), Quicken Loans (4.7 percent), and Bank of America, N.A. (4.1 percent).

Chase ranked second in small loans to businesses with a 11.5 percent market share. There are 207 lenders in the CSA. Other major lenders in the market were primarily nationwide credit card lenders with significant small business portfolios and include American Express National Bank (28.3 percent), Bank of America, N.A. (11.1 percent), and Wells Fargo Bank, N.A. (9.9 percent).

Chase ranked second in small loans to farms 26.2 percent market share. There are 30 lenders in the CSA. The other major lenders in the market are Wells Fargo Bank, N.A. ( 27.5 percent), and Bank of America, N.A. (10.2 percent).

## Distribution of Loans by Income Level of the Geography

The bank exhibits a good geographic distribution of loans in its AA.

## Home Mortgage Loans

Refer to Table O in the state of Georgia section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of home mortgage loan originations and purchases is good. The following information was taken into consideration when determining this rating.

- The limited proportion of housing units in low-income geographies, particularly OOUs (3.3 percent) and constrained lending opportunities were noted; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of OOUs in those geographies.
- The high level of competition in the AA (917 home mortgage lenders) was also considered and examiners placed greater significance on performance compared to the aggregate of lenders.
- Between 2017 and 2019, the proportion of loans in low-income areas was near to the proportion of OOUs in those geographies and the aggregate distribution of loans. The proportion of loans in moderate-income areas was respectively near to and below the proportion of OOUs in those geographies and the aggregate distribution of loans.
- The performance in low- and moderate-income geographies during the 2014 and 2016 time periods was inconsistent with 2017 to 2019. The proportion of loans in low-income geographies is well below the proportion of OOUs in those geographies, and below the aggregate distribution of loans. The proportion of loans in moderate-income geographies is below the proportion of OOUs but exceeded the aggregate distribution of loans.

## Small Loans to Businesses

Refer to Table Q in the state of Georgia section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to businesses.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to businesses is adequate. The following information was taken into consideration when determining this rating.

- The small proportion of businesses in low-income geographies ( 5.9 percent) and competition between 207 lenders constrained lending opportunities to existing businesses. Therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of businesses in those geographies.
- Between 2017 and 2019, the proportion of loans to small businesses in low- and moderate-income geographies was below both the proportion of small businesses in those areas and the aggregate distribution of loans.
- The performance in low- and moderate-income geographies during the 2014 and 2016 time periods was consistent with 2017 to 2019. The proportion of loans to small businesses in low- and moderate-income geographies was below the proportion of small businesses in those areas and below the aggregate distribution of loans in low-income geographies, and near to the aggregate distribution in moderate-income geographies.

## Small Loans to Farms

Refer to Table S in the state of Georgia section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to farms.
Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to farms is good. The following information was taken into consideration when determining this rating.

- The limited percentage of farms in low-income geographies, (3.8 percent) and constrained lending opportunities were noted; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of farms in those geographies.
- The fact that farm lending is not a focus of the bank was also considered.
- Between 2017 and 2019, the proportion of loans to small farms in low-income geographies was well below the proportion of farms in those geographies and significantly exceeded the aggregate distribution of all lenders. The proportion of loans to small farms in moderate-income geographies was below the proportion of farms in those geographies and exceeded the aggregate distribution of all lenders.
- Performance in low- and moderate-income geographies during the 2014 to 2016 period was weaker than performance during 2017 to 2019 period. The proportion of loans to small farms in low-income geographies exceeded both the proportion of farms in those geographies and the aggregate distribution. The proportion of loans to small farms in moderate-income geographies was well below both the proportion of farms in those geographies and the aggregate distribution.

## Lending Gap Analysis

A review of home mortgage loans, small loans to business, and small loans to farms including summary reports and AA maps did not identify any unexplained conspicuous lending gaps in the bank's activities.

## Distribution of Loans by Income Level of the Borrower

The bank exhibits a good distribution of loans among individuals of different income levels and business and farms of different sizes.

## Home Mortgage Loans

Refer to Table P in the state of Georgia section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall borrower distribution of home mortgage loans originations and purchases for this evaluation is good. The following information was taken into consideration when determining this rating.

- Greater significance was placed on performance against the aggregate distribution as it reflects the difficulties all lenders are experiencing due to competition and the economic constraints discussed above under the Description of this Full-Scope AA.
- Examiners particularly considered housing affordability challenges for low- and moderate-income borrowers.
- Between 2017 and 2019, the proportion of loans to low-income borrowers was well below the percentage of low-income families and exceeded the aggregate distribution of lenders. The proportion of moderate-income loans exceeded the proportion of moderate-income families and the aggregate distribution.
- During 2014 to 2016, the bank's performance was consistent with performance between 2017 to 2019. The proportion of loans to low-income borrowers was well below the percentage of lowincome families and exceeded the aggregate distribution of lenders. The proportion of moderateincome loans was exceeded the proportion of moderate-income families and the aggregate distribution.

## Small Loans to Businesses

Refer to Table R in the state of Georgia section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's origination and purchase of small loans to businesses.

Based on the data in the tables and the following considerations, the bank's overall borrower distribution of small loans to businesses by revenue code is good. The following information was taken into consideration when determining this rating.

- Greater significance was placed on performance against the aggregate distribution of lenders as it reflects the difficulties all lenders are experiencing due to competition and the economic constraints discussed above under the Description of the Full-Scope AA.
- Between 2017 and 2019, the bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below to the percentage of businesses and exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was consistent with performance between 2017 and 2019. The bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and exceeded the aggregate distribution.

## Small Loans to Farms

Refer to Table T in the state of Georgia section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's origination and purchase of small loans to farms.

Based on the data in the table and the following considerations, the distribution of the bank's originations and purchases of small loans to farms by revenue category is good. The following information was taken into consideration when determining this rating.

- Between 2017 and 2019, the bank's percentage of loans to farms with revenues of $\$ 1$ million or less was below the percentage of businesses and exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was consistent with performance between 2017 and 2019. The bank's percentage of loans to farms with revenues of $\$ 1$ million or less was below the percentage of businesses and exceeded the aggregate distribution.

## Community Development Lending

The bank is a leader in making CD loans.
The Lending Activity Tables, shown above, set forth the information and data used to evaluate the bank's level of CD lending. These tables include all CD loans, including multifamily loans that also qualify as CD loans.

The bank made 11 CD loans in the AA for a total of $\$ 334.7$ million. This represents 45.3 percent of the tier 1 capital allocated to the AA. The bank's CD loans were responsive to identified community needs with 51.9 percent and 45.9 percent of the lending supporting community services and revitalization efforts, respectively.

Examples of CD loans include:

- In February 2014, Chase originated a $\$ 62.5$ million loan to the Douglas County School System, which is a region that primarily serves low- and moderate-income students. Fifty nine percent of the school district's student population is eligible for the Federal Free or Reduced Lunch program based on information from the National Center for Education Statistics (NCES).
- In October 2016, Chase originated a $\$ 10.4$ million construction loan used to revitalize the downtown area of the City of Lithonia. The project is in a moderate-income census tract and was part of the city's comprehensive revitalization plan. The funds helped to clean up a site that was previously designated a brownfield due to contamination and newly constructed 75 affordable apartment units for LMI families.
- In April 2017, Chase originated a $\$ 97.3$ million loan to the Gwinnett County Board of Education, which is responsible for the school district's curriculum, academic intervention, school improvements, and capital projects. Approximately 54 percent of the school district's student population is eligible for the Federal Free or Reduced Lunch program (NCES).

## Other Loan Data

In November 2016, Chase provided a $\$ 19.1$ million letter of credit to a limited partnership. This financing will provide construction period credit enhancement for bonds being issued by the Housing Authority of the City of Augusta, Georgia. Proceeds of the bonds will be the primary source of construction financing for the new construction of 240 units of affordable housing for families in Augusta. All of which will be affordable to families earning 60 percent or less of the AMI. The project also received $\$ 16.1$ million in LIHTC equity.

## Product Innovation and Flexibility

The bank makes extensive use innovative and/or flexible lending practices to serve AA credit needs. Refer to the comments in the Product Innovation and Flexibility section in the front of this performance evaluation for program details.

The bank funded 10,207 loans totaling $\$ 1.5$ billion under the following innovative and/or flexible programs.

| Loan Type | Number of <br> Loans | Dollar Amount <br> $\mathbf{( \$ 0 0 0 ' s )}$ |
| :--- | :---: | :---: |
| DreaMaker | 1,067 | 192,461 |
| FHA | 4,472 | 606,245 |
| HARP | 2,704 | 349,009 |
| VA | 921 | 208,133 |
| SBA | 240 | 70,971 |
| USDA | 803 | 106,992 |

## INVESTMENT TEST

The bank's performance under the Investment Test in the state of Georgia is rated Outstanding.

## Conclusions for Area Receiving a Full-scope Review

Based on a full-scope review, the bank's performance in the Atlanta CSA is excellent.
The bank has an excellent level of qualified CD investments and grants, although rarely in a leadership position, particularly those that are not routinely provided by private investors. Current and prior period investments represent 23.6 percent of allocated tier 1 capital. A significant majority, or 91.6 percent of total investments represent current period investments.

The bank exhibits excellent responsiveness to the needs identified in this AA including affordable housing, economic development, and community service. Current period investments represent 89.7 percent affordable housing, 5.5 percent community service, 2.8 percent economic development and 2.0 percent revitalization/stabilization. Affordable housing represents 99.8 percent of prior period investments. Current and prior period investments created or retained 7,005 affordable housing units for low- and moderate-income individuals and families. Twenty-eight grants totaling $\$ 6.4$ million were provided to a variety of organizations for community service, affordable housing, and economic development.

The bank occasionally uses innovative and/or complex investments to support CD initiatives. Sixteen prior and current complex investments, represent 33.1 percent of total investments, including six Direct Investor LIHTC transactions which require bank expertise and capacity in selecting projects and partners, negotiating agreements, overseeing project development and operations, and ensuring compliance. The bank also made three NMTC investments. Three investments or 6.7 percent of qualified CD investments were catalysts for change and will encourage future growth and other improvements.

Examples of CD Investments in the AA include:

- The bank originated a $\$ 31.1$ million LIHTC equity investment for new construction of a 240 -unit development in Stonecrest, GA. All unit rents are set at 60 percent AMI. The bank will manage the asset for the entire fifteen-year hold period, ensuring compliance with the LIHTC program and conducting annual on-site inspections.
- The bank originated a $\$ 14.7$ million LIHTC equity investment for new construction of senior apartments in Atlanta, GA. The project consists of 180 units restricted to households earning at or below 60 percent AMI. Sixty-five ( 36 percent) of the units will be subsidized with a HUD HAP Section 8 contract. The project is required to provide four supportive services from three categories including social/recreational programs, on-site enrichment classes, and on-site health classes.

* Prior Period Investments' means investments made in a previous evaluation period that are outstanding as of the examination date.
** Unfunded Commitments' means legally binding investment commitments that are tracked and recorded by the institution's financial reporting system.

## Statewide Investments in State of Georgia

The bank has qualified investments with and without $\mathrm{P} / \mathrm{M} / \mathrm{F}$ to serve the AA in the state of Georgia. Investments with a $\mathrm{P} / \mathrm{M} / \mathrm{F}$ included affordable housing and community services. Seven investments or $\$ 47.2$ million were complex consisting of Direct Investor LIHTCs and NMTCs transactions. Four investments were a catalyst for change and will encourage future growth and other improvements. Current period affordable housing investments created 2,501 housing units for low- and moderate-income families and individuals. The bank made 23 grants or $\$ 2.8$ million to a variety of community service organizations primarily providing financial education services. In some instances, grants were provided in multiple years.

## SERVICE TEST

The bank's performance under the Service Test in the state of Georgia is rated High Satisfactory.

## Conclusions for Area Receiving a Full-Scope Review

Based on a full-scope review, the bank's performance in the Atlanta CSA is good.

## Retail Banking Services

Service delivery systems are accessible to geographies and individuals of different income levels in the bank's AA.

Examiners evaluated the data as outlined in the Scope section at the front of this document including bank provided data on usage of branches adjacent to low-and moderate-income geographies by individuals residing in those geographies and on increases in the usage of alternative delivery systems.

Based on the data in the table below and performance context, the branch distribution is good. In lowand moderate-income geographies, the distribution is respectively well below and is near to the percentage of the population. The distribution was augmented by one MUI tract branch that serves lowincome tracts and 11 MUI tract branches that serve moderate-income tracts. Examiners reviewed data
on the accounts held and transactions conducted at the MUI branches and confirmed they were serving the adjacent low- and moderate-income populations.

| Distribution of Branch Delivery System |  |  |  |  |  |  |  | As of December 31, 2019 |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | Deposits | Branches |  |  |  |  |  | Population |  |  |  |
|  | \% of Rated Area | \# of <br> BANK <br> Branches | \% of Rated Area Branches in AA | Location of Branches by Income of Geographies (\%) |  |  |  | \% of Population within Each Geography |  |  |  |
|  | AA |  |  | Low | Mod | Mid | Upp | Low | Mod | Mid | Upp |
| Atlanta CSA |  |  |  |  |  |  |  |  |  |  |  |
|  | 100 | 86 | 100 | 3.5 | 18.6 | 25.6 | 52.3 | 7.9 | 23.0 | 32.5 | 36.2 |

* May not add up to 100 percent due to geographies with unknown tract income level and rounding

Alternative delivery systems enhanced the delivery of banking services to geographies and individuals of all income levels. The OCC considered the availability and use of alternative delivery systems over the evaluation period. This included review of the bank's 247 deposit-taking ATMs, online banking, mobile banking, and telephone banking to determine the effectiveness of these systems to make retail banking services available to individuals in low- and moderate-income geographies. The bank increased the deposit-taking ATMs in low- and moderate-income geographies by 13.3 percent over the prior rating period to 10 ( 4.0 percent) deposit-taking ATMs in low-income geographies and 41 (16.6 percent) ATMs in moderate-income geographies. Additionally, bank-provided data on use of online, mobile, and telephone banking showed increases in the adoption of these services by low- and moderate-income individuals from the prior rating period.

| Distribution of Branch Openings/Closings |  |  |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment <br> Area | \# of Branch <br> Openings | \# of Branch <br> Closings | Net change in Location of Branches <br> $(+$ or -$)$ |  |  |  |  |
| Atlanta CSA | 15 | 9 | Low | Mod | Mid | Upp |  |

To the extent changes have been made, the bank's opening and closing of branches has adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and/or to low- and moderate-income individuals. The bank opened one branch in a moderate-income area and closed two branches each in each low- and moderate-income geographies. Branch closures were due to reduced customer usage. Despite the branch closures, branch locations remained accessible to geographies and individuals of different income levels in the bank's AA. Twelve branches in reasonable proximity provided services to individuals in the low-and moderate-income geographies with branch closures.

Services, including where appropriate, business hours, do not vary in a way that inconveniences, the AA, particularly low- and moderate-income geographies and/or individuals. Generally, branches are open Monday through Thursday from 9:00 am to 5:00 pm, Friday from 9:00 am to 6:00 pm and Saturday from 9:00 am to 1:00 pm.

## Community Development Services

The bank was a leader in providing CD services that were responsive to AA needs.
Bank employees provided their financial, job-specific expertise, and/or technical assistance for 750 CD service activities to 10 organizations since the last evaluation, logging a total of over 3,200 qualified hours. All assistance was to organizations that provide community services to low- and moderateincome individuals and families. The bank's community development services were responsive to the community needs in the AA, particularly affordable housing. The following are examples of CD services provided:

- Three bank employees provided 370 homebuyer education activities to low- and moderate-income bank customers benefitting 1,000 low- and moderate-income customers.
- Eight bank employees provided 99 technical assistance activities to a local nonprofit whose mission is advancing low- and moderate-income individuals to economic self-sufficiency through employment.

## State Rating

## State of Idaho

CRA rating for the State of Idaho ${ }^{13}$ : Satisfactory
The Lending Test is rated: High Satisfactory
The Investment Test is rated: Low Satisfactory
The Service Test is rated: High Satisfactory
The major factors that support this rating include:

- A good level of lending activity.
- Overall good geographic distribution of home mortgage loans and small loans to businesses.
- Overall good borrower distribution of home mortgage loans and small loans to businesses.
- No CD loans were made, which has a negative effect on the Lending Test rating.
- The use of flexible products did not affect the rating.
- An adequate level of qualified investments that displayed excellent responsiveness to credit and community economic development needs and an adequate level of broader statewide investments.
- Retail service delivery systems are readily accessible to geographies and individuals of different income levels.
- An adequate level of CD services in the full-scope AA.

## Description of Institution's Operations in Idaho

The state of Idaho is Chase's $26^{\text {th }}$ largest rating area based on aggregate deposits of $\$ 1.1$ billion, representing less than 0.1 percent of the bank's total deposits. As of December 31, 2019, the bank operated 20 branches and 30 deposit-taking ATMs within the rating area, representing 0.4 percent of total branches and 0.3 percent of total ATMs. The bank originated and purchased approximately $\$ 1.8$ billion in loans or 3.2 percent of total bank loan originations and purchases during the evaluation period in the state.

According to the FDIC Deposit Market Share Data, as of June 30, 2019, there were 29 banks operating 469 branches in the state of Idaho. Chase ranked ninth in deposit market share with 4.1 percent. Major competitors in the state based on deposit market share are include Wells Fargo Bank, N.A. (20.7 percent), U.S. Bank, N.A. (17.3 percent), and KeyBank ( 6.9 percent).

Chase has six AAs in the state of Idaho and the Boise City-Mountain Home-Ontario, ID-OR CSA received a full-scope review (Boise City MSA). The Idaho Falls MSA, Coeur d'Alene MSA, Pocatello MSA, Twin Falls MSA, and Idaho Non-MSA received limited-scope reviews. Refer to appendix A for a complete description of the AAs.

[^112]
## Description of Full-Scope AA

The following table provides a summary of the demographic that includes housing and business information for the Boise City MSA. Table A indicates that the volume of OOUs is very small in lowincome CTs ( 1.5 percent) and over 18.9 percent of families in the AA are low-income, with 10.0 percent below the poverty level. The median housing value in the Boise City MSA is four times the median income. One simplistic method used to determine housing affordability assumes a maximum monthly principal and interest payment of no more than 30 percent of the applicant's income.

In the Boise City MSA, assuming a 30 -year mortgage with a five percent interest rate and three percent down payment, while not accounting for homeowners insurance, real estate taxes, or any additional monthly expenses, a low-income borrower making $\$ 30,861$ per year (or less than 50 percent of the FFIEC adjusted median family income in the MSA) could afford a $\$ 95,892$ mortgage loan with a payment of $\$ 926$ per month; a moderate-income borrower earning $\$ 49,378$ per year (or less than 80 percent of the FFIEC adjusted median family income in the MSA) could afford a $\$ 184,153$ mortgage loan with a payment of $\$ 1,481$ per month.

Median rents and the percentage of families below poverty level suggest rental housing is also unaffordable for some low-income residents.

${ }^{(*)}$ The NA category consists of geographies that have not been assigned an income classification.

## Economic Data

According to the Moody's Analytics November 2019 report, the Boise City area has above-average population growth and favorable migration flows. The area has cheaper living costs and lower business
costs compared to other large west coast metro areas. The labor force has seen strong growth. Per capita income growth that is 20.0 percent above average is driving year-over-year house price appreciation of 2.5 times the U.S. rate. The area is becoming a prime retirement destination for those escaping spiraling costs in other West Coast metro areas. The inflow of new residents boosts economic activity but also harms the area's income distribution as more affluent individuals relocate to the area. The area's housing market is one of the hottest in the U.S. and housing affordability has fallen to 20 percent below average since 2016. Low-wage workers, who make up a significant portion of the labor force are being priced out of the area. Income inequality in the area, though still lower than average, has risen faster since 2009 than nationally. Major employment industries in the area include professional and business services; education and health services; and government. Major employers in the area include St. Luke's Health System; Micron Technology Inc.; Boise State University; and St. Alphonsus Regional Medical Center.

## Community Contacts

Examiners considered two community contacts completed during the review period with entities serving the area. The contacts were with organizations focused on affordable housing and small business. According to the contacts the local economy is doing well. The area has seen an influx of people from California and Seattle, Washington locating to the Boise City area as the housing is more affordable. However, available housing is in short supply. Contacts noted that West Boise/Garden City has a lot of manufacturing/industrial companies with an opportunity for housing developments and other revitalization efforts. Contacts noted that there are numerous opportunities for banks to help address credit and community development needs by offering affordable housing for low-income households, flexible loan programs for first time homebuyers, financial coaching and counseling, loans for businesses, including equipment loans, equity/debt loans for operational expenses, and inventory loans and financing and technical assistance for small businesses that are not yet bankable.

## Scope of Evaluation in Idaho

The Boise City MSA received a full-scope review. The MSA accounts for 74.6 percent of the bank's deposits and 66.2 percent of the lending in Idaho. The other five AAs received a received a limitedscope review. Performance in limited-scope AAs and its effect on the CRA rating are discuss at the end of each test

## CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS IN IDAHO

## LENDING TEST

The bank's performance under the Lending Test in the state of Idaho is rated High Satisfactory.
Performance in AAs receiving limited-scope reviews was factored together with performance from the full-scope AA to determine the state's overall High Satisfactory Lending Test rating. Limited-scope conclusions did not significantly affect the initial overall conclusions based on the AAs receiving fullscope review.

## Conclusions for Area Receiving a Full-Scope Review

Based on a full-scope review, the bank's performance in the Boise City MSA is good. Overall, lending
levels, geographic and borrower distribution of loans were good. No CD loans were made, which had a negative effect. The use of flexible products did not affect the rating.

## Lending Activity

Lending levels reflect good responsiveness to credit needs in the bank's AA.
Examiners considered the number and dollar amount of home mortgage, small business, small farm loans originated or purchased relative to Chase's capacity based on deposits, competition, and market presence. Lending activity for home mortgage and small loans to businesses received the most weight in reaching conclusions. Respectively, home mortgage lending and small loans to businesses account for 31.3 percent and 67.0 percent of the loan volume in the state by number and 88.8 percent and 10.9 percent of loan volume by dollar. Small farm lending is not a strategic focus of the bank and received minimal weight in reaching conclusions. Farms loans represented 1.6 percent of the loan volume in the state by number 0.2 percent loan volume by dollar.

| Number of Loans* |  |  |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

*The tables present the data for all assessment areas. The narrative below addresses performance in full-scope areas only.
Chase ranked fifth in deposits in the AA of 21 institutions with 7.0 percent market share.
In overall home mortgage lending, Chase ranked ninth with 2.2 percent market share. This is a very competitive market with 387 mortgage lenders. The top lenders in this market were Idaho Central ( 17.0 percent), Wells Fargo Bank, N.A. (5.1 percent), and Fairway Independent Mortgage (4.9 percent).

Chase ranked first in small loans to businesses with 17.6 percent market share. There are 81 lenders in the MSA. Other major lenders in the market are U.S. Bank, N.A. (12.9 percent) and American Express National Bank (12.7 percent).

Chase ranked third in small loans to farms 16.1 percent market share. There are 19 lenders in the MSA. Other major lenders in the market are Columbia State Bank (18.8 percent), U.S. Bank, N.A. (16.6 percent) and Wells Fargo Bank, N.A. (15.2 percent).

## Distribution of Loans by Income Level of the Geography

The bank exhibits a good geographic distribution of loans in its AA.

## Home Mortgage Loans

Refer to Table O in the state of Idaho section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of home mortgage loan originations and purchases is good. The following information was taken into consideration when determining this rating.

- Performance in the moderate-income areas was given more significance as there was a small percentage of low-income geographies in both time periods ( 2.3 percent between 2014 and 2016 and 6.8 percent between 2017 and 2019).
- Between 2017 and 2019, the proportion of loans in low- and moderate-income areas exceeded and met the percentage of OOUs and aggregate distribution of loans.
- Performance in the low- and moderate-income geographies between 2014 and 2016 was inconsistent with the performance during the 2017-2019 period. The bank did not make any loans in low-income geographies and the moderate-income performance was well-below the percentage of OOUs and below the aggregate distribution of loans. The weaker performance between 2014 and 2016 did affect the excellent performance during 2017-2019.

## Small Loans to Businesses

Refer to Table Q in the state of Idaho section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to businesses.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to businesses for this evaluation is adequate. The following information was taken into consideration when determining this rating.

- Between 2017 and 2019, the proportion of loans in low- and moderate-income areas was below both the percentage of small businesses and the aggregate distribution of loans.
- Performance in low- and moderate-income geographies during the 2014 and 2016 time periods was inconsistent with 2017 to 2019. Between 2104 and 2016, the proportion of loans to small businesses in low- and moderate-income areas was well-below the percentage of small businesses located in those geographies and below the aggregate distribution of loans.
- Consideration was given to demographic evidence that only one percent of businesses were in lowincome geographies during the 2014 to 2016. As a result, weaker performance in low- and
moderate-income areas during this period for geographic distribution did not affect the overall adequate performance.

## Small Loans to Farms

Refer to Table S in the state of Idaho section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to farms.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to farms is good. The following information was taken into consideration when determining this rating.

- The limited percentage of farms in low-income geographies (4.3 percent) constrained lending opportunities; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of farms in those geographies.
- The high level of competition in the AA (19 lenders) and the fact that farm lending is not a focus of the bank was also considered and examiners placed greater significance on performance compared to the aggregate of lenders.
- Between 2017 and 2019, the bank did not make any small farms loans in low-income geographies. The proportion of loans to small farms in moderate-income geographies was below both the proportion of farms in those geographies and the aggregate distribution.
- Performance in low- and moderate-income geographies during the 2014 to 2016 period was generally consistent with the performance during 2017 to 2019 period. Between 2014 and 2016, the bank did not make any small farms in low-income geographies. The proportion of loans to small farms in moderate-income geographies was below the proportion of farms in those geographies and near to the aggregate distribution.

## Lending Gap Analysis

A review of home mortgage loans, small loans to business, and small loans to farms including summary reports and AA maps did not identify any unexplained conspicuous lending gaps in the bank's activities.

## Distribution of Loans by Income Level of the Borrower

The bank exhibits a good distribution of loans among individuals of different income levels and business and farms of different sizes.

## Home Mortgage Loans

Refer to Table P in the state of Idaho section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall borrower distribution of home mortgage loans originations and purchases for this evaluation is good. The following information was taken into consideration when determining this rating.

- Profile data indicates housing affordability was a challenge for low- and moderate-income borrowers.
- Greater significance was placed on lending performance to moderate-income borrowers due to the challenges limiting opportunities in lending to low-income borrowers.
- Between 2017 and 2019, the proportion of loans to low-income borrowers was well-below the percentage of low-income families in the AA and significantly exceeded the aggregate distribution of loans. The proportion of loans to moderate-income borrowers was significantly exceeded both the percentage of moderate-income families in the AA and the aggregate distribution of loans.
- Performance in low-income geographies between 2014 and 2016 was consistent with 2017 to 2019. Between 2014 and 2016, the proportion of loans to low-income borrowers was well-below the percentage of low-income families in the AA and significantly exceeded the aggregate distribution of loans. Between 2014 and 2016, the moderate-income performance was weaker than 2017 to 2019. The proportion of loans to moderate-income borrowers was near to the percentage of moderate-income families in the AA and well-below the aggregate distribution of loans. The performance in the 2014-2016 period had no effect on the overall good lending performance.

## Small Loans to Businesses

Refer to Table R in the state of Idaho section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's origination and purchase of small loans to businesses.

Based on the data in the tables and the following considerations, the bank's overall borrower distribution of small loans to businesses with revenues of $\$ 1$ million or less is good. The following information was taken into consideration when determining this rating.

- Greater significance was placed on performance against the aggregate distribution of lenders as it reflects the difficulties all lenders are experiencing due to competition and the economic constraints discussed above under the Description of the Full-Scope AA.
- Between 2017 and 2019, the bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and significantly exceeded the aggregate distribution.
- Performance against both the aggregate and borrower distribution in 2014 through 2016 were consistent with 2017-2019. The bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and significantly exceeded the aggregate distribution.

## Small Loans to Farms

Refer to Table T in the state of Idaho section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's origination and purchase of small loans to farms.

Based on the data in the table and the following considerations, the distribution of the bank's originations and purchases of small loans to farms by revenue category is good. The following information was taken into consideration when determining this rating.

- Between 2017 and 2019, the bank's percentage of loans to farms with revenues of $\$ 1$ million or less was below the percentage of businesses and exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was consistent with performance between 2017 and 2019. The bank's percentage of loans to farms with revenues of $\$ 1$ million or less was below the percentage of businesses and significantly exceeded the aggregate distribution.

## Community Development Lending

The bank did not originate any CD loans during the evaluation period.
While the bank was unable to make any CD loans during the period, the bank continued to meet the needs of the low- and moderate-income individuals and geographies in Boise City MSA through qualified CD investments and service activities.

The Lending Activity Tables, shown above, set forth the information and data used to evaluate the bank's level of CD lending. These tables include all CD loans, including multifamily loans that also qualify as CD loans.

## Product Innovation and Flexibility

The bank uses innovative and/or flexible lending practices to serve credit needs in each of the full-scope AA reviewed. Refer to the comments in the Product Innovation and Flexibility section in the front of this performance evaluation for program details.

The bank funded1,033 loans totaling $\$ 257.2$ million under the following innovative and/or flexible programs.

| Loan Type | Number of <br> Loans | Dollar Amount <br> $\mathbf{( \$ 0 0 0 ' s )}$ |
| :--- | :---: | :---: |
| DreaMaker | 105 | 19,298 |
| FHA | 222 | 33,723 |
| HARP | 378 | 50,941 |
| VA | 212 | 48,206 |
| SBA | 22 | 3,584 |
| USDA | 94 | 101,401 |

## Conclusions for Areas Receiving Limited-Scope Reviews

Performance in the limited-scope AAs was factored into the state's overall Satisfactory Lending Test rating and did not significantly affect the initial overall conclusions based on the AAs receiving fullscope review. Based on the lending scope reviews, the bank's performance under the Lending Test in the Idaho Falls MSA and Coeur d'Alene MSA is consistent with the bank's overall good performance under the Lending Test in the full-scope area. The bank's performance under the Lending Test in the Pocatello MSA, Twin Falls MSA, and Idaho Non-MSA is weaker than the bank's overall good performance due to weaker geographic and borrower income distribution performance.

Refer to Tables O through T in the state of Idaho section of appendix D for the facts and data that support these conclusions.

## INVESTMENT TEST

The bank's performance under the Investment Test in the state of Idaho is rated Low Satisfactory.

## Conclusions for Area Receiving a Full-Scope Review

Based on a full-scope review, the bank's performance in the Boise City MSA is adequate.
The bank has an adequate level of qualified CD investments and grants, but rarely in a leadership position, particularly those that are not routinely provided by private investors. Current and prior period qualified investments represent 3.2 percent of tier 1 capital allocated to the AA. Majority, or 99.9 percent of total investment represent current period investments.

The bank exhibits excellent responsiveness to credit and community economic development needs, including affordable housing and community services. One direct investment of $\$ 3.2$ million focused on affordable housing, which is a primary community development need in the AA. Fourteen grants totaled $\$ 350,000$, with 57.1 percent and 42.9 percent supporting community services and affordable housing, respectively. The prior period investment relates to an investment in a LIHTC fund that supports affordable rental housing.

Examples of CD Investments in the AA include:

- The bank provided a $\$ 3.2$ million LIHTC investment that contributed to the creation of 98 affordable housing units.
- The bank provided a $\$ 45,000$ grant to a partnership for their career learning and workforce program. Per the organization, 100 percent of those targeted or to benefit from the program are low- and moderate-income individuals. The planning process for the workforce development program was establishing strategies and leveraging unique knowledge and resources of various cross sector leaders to achieve targeted career readiness outcomes for young adults. The bank's funding played a critical role for the program by supporting the planning process to establish a shared agenda.

The bank did not use innovative and/or complex investments to support CD initiatives.

Prior Period Investments' means investments made in a previous evaluation period that are outstanding as of the examination date. ** Unfunded Commitments' means legally binding investment commitments that are tracked and recorded by the institution's financial reporting system.

## Statewide Investments in the State of Idaho

The bank has 15 current and prior period investments with and without a $\mathrm{P} / \mathrm{M} / \mathrm{F}$ to serve AAs in the state of Idaho. These broader statewide investments represent 36 percent of total amount of state investments. Eighty-seven percent of the total amount have a P/M/F to serve AAs in Idaho. The CD investments support community service and affordable housing. The investments in the broader statewide area support the bank's otherwise adequate performance under the Investment Test in the state of Idaho.

## Conclusions for Areas Receiving Limited-Scope Reviews

Performance in the limited-scope AAs was factored into the state's overall Low Satisfactory Investment Test rating and did not significantly change the initial overall conclusions based on the AA receiving full-scope review. Based on limited-scope reviews, the bank's performance under the Investment Test in the Pocatello MSA is consistent with the bank's overall adequate performance in the full-scope area. The bank's performance in the Coeur d'Alene CSA is stronger than the bank's overall adequate performance in the full-scope area due primarily to a higher volume of prior period CD investments. The bank's performance under the Investment Test in the Idaho Falls CSA, Twin Falls MSA, and the combined Idaho Non-Metro AA is weaker than the bank's overall adequate performance in the fullscope area due to a lower volume of qualified investments.

## SERVICE TEST

The bank's performance under the Service Test in state of Idaho is rated High Satisfactory.

## Conclusions for Area Receiving a Full-Scope Review

Based on a full-scope review, the bank's performance in the Boise City MSA is good.

## Retail Banking Services

Service delivery systems are readily accessible to geographies and individuals of different income levels in the bank's AA.

Examiners evaluated the data as outlined in the Scope section at the front of this document including bank-provided data on usage of branches adjacent to low- and moderate-income geographies by individuals residing in those geographies and on increases in the usage of alternative delivery systems.

Based on the data in the table below and performance context, the branch distribution is excellent. In low- and moderate-income geographies, the distribution exceeds the percentage of the population in these respective geographies. The bank had two branches in low-income geographies and four branches in moderate-income geographies.

| Distribution of Branch Delivery System |  |  |  |  |  |  |  | As of December 31, 2019 |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| Area | Deposits in AA |  |  | Low | Mod | Mid | Upp | Low | Mod | Mid | Upp |
| Boise City MSA | 74.6 | 13 | 65.0 | 15.4 | 30.8 | 23.1 | 30.8 | 3.6 | 26.4 | 44.8 | 25.2 |

* May not add up to 100 percent due to geographies with unknown tract income level and rounding

Alternative delivery systems generally enhanced the delivery of banking services to geographies and individuals of all income levels. The OCC considered the availability and use of alternative delivery systems over the evaluation period. This included review of the bank's 19 deposit-taking ATMs, online banking, mobile banking, and telephone banking to determine the effectiveness of these systems to make retail banking services available to individuals in low- and moderate-income geographies. The bank increased the deposit-taking ATMs in low- and moderate-income geographies by 33.3 percent over the prior rating period to three ( 15.8 percent) deposit-taking ATMs in low-income geographies and five ( 26.3 percent) ATMs in moderate-income geographies. Bank-provided data on use of online, mobile, and telephone banking showed negligible changes in the adoption of these services by low- and moderate-income individuals from the prior rating period.

| Distribution of Branch Openings/Closings |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | \# of <br> Branch Openings | \# of Branch Closings | Net change in Location of Branches (+ or -) |  |  |  |
|  |  |  | Low | Mod | Mid | Upp |
| Boise City MSA | 0 | 2 | 0 | -1 | 0 | -1 |

The bank's opening and closing of branches has not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and/or to low- and moderate-income individuals. The bank did not close or open any branches in low-income geographies. The bank closed one branch in a moderate-income geography. The branch closure was due to reduced customer usage and unprofitability. Despite the branch closure, branch locations in general, remained accessible to geographies and individuals of different income levels in the bank's AA.

Services, including where appropriate, business hours, do not vary in a way that inconveniences the AA, particularly low- and moderate-income geographies and/or individuals. Generally, branches are open Monday through Friday from 9:00 am to 6:00 pm and Saturday from 9:00 am to 2:00 pm. All retail banking services are available at all branches within the low- and moderate-income geographies.

## Community Development Services

The bank had an adequate level of CD services in the full-scope AA.
Bank records showed employees provided technical assistance and/or job-specific expertise for 87 CD service activities to six organizations for a total of 382 qualified hours of service. A majority of the bank's assistance was to organizations that provide community services to low- and moderate-income individuals and families. These services were responsive to community needs, particularly for affordable housing. The following is an example of CD services provided in this AA:

- Two bank employees provided 147 hours of first-time home purchase seminars benefitting 505 lowand moderate-income individuals. The employees provided information on mortgage products, services, and programs targeting low-to moderate-income homebuyers.

## Conclusions for Areas Receiving Limited-Scope Reviews

Performance in the limited-scope AAs was factored into the state's overall High Satisfactory Service Test rating and did not significantly change the initial overall conclusions based on the AAs receiving full-scope review. Based on limited-scope reviews, the bank's performance under the Service Test in the Idaho Falls-Rexburg-Blackfoot and Coeur d'Alene AAs is consistent with the bank's overall performance under the Service Test in the full-scope area and the bank's performance under the Service Test in the Pocatello; Twin Falls; and Idaho non-metropolitan AAs is weaker than the bank's overall performance under the Service Test in the full-scope area due to lower percentage of branch distribution in low- and moderate-income geographies.

## State Rating

## State of Illinois

CRA rating for the State of Illinois ${ }^{14}$ : Satisfactory
The Lending Test is rated: High Satisfactory
The Investment Test is rated: High Satisfactory
The Service Test is rated: Low Satisfactory
The major factors that support this rating include:

- A good level of lending activity.
- Overall good geographic distribution of home mortgage loans and small loans to businesses.
- Overall good borrower distribution of home mortgage loans and small loans to businesses.
- A leader in making CD loans, the extensive use of flexible products, and stronger performance in the limited-scope areas, positively affected the rating.
- A significantly positive impact on investment activity by the limited-scope AAs as well as a significant level of broader statewide investments with a purpose, function, or mandate to serve AAs.
- Retail service delivery systems reasonably accessible to geographies and individuals of different income levels.
- An adequate level of CD services in the full-scope AA.

## Description of Institution's Operations in Illinois

The state of Illinois is Chase's 21 st largest rating area based on aggregate deposits of $\$ 3.1$ billion, representing 0.2 percent of the bank's total deposits. As of December 31, 2019, the bank operated 18 branches and 54 deposit-taking ATMs within the rating area, representing 0.3 percent of total branches and 0.3 percent of total ATMs. The bank originated and purchased approximately $\$ 1.1$ billion in loans or 0.2 percent of total bank loan originations and purchases during the evaluation period in the state.

According to the FDIC Deposit Market Share Data, as of June 30, 2019, there were 351 banks operating 1,837 branches in the state (excludes deposits and offices in the Chicago CSA, which is evaluated separately in the PE). Chase ranked fourth in deposit market share with 3.1 percent. Major competitors in the state based on deposit market share are State Farm FSB (10.6 percent), Busey Bank (4.0 percent), and PNC Bank, N.A. (3.1 percent).

Chase has six AAs in the state of Illinois and the Campaign-Urbana, IL MSA received a full-scope review (Champaign MSA). The Davenport-Moline, IL MSA, Peoria MSA, Rockford-MSA, Bloomington MSA, and Springfield MSA received limited-scope reviews. Refer to appendix A for a complete description of the AAs.

[^113]The following table provides a summary of the demographics that includes housing and business information for the Champaign MSA. Table A indicates that the volume of OOUs is very small in lowincome CTs (4.9 percent) and over 21.8 percent of families in the AA are low-income, with 9.9 percent below the poverty level. The median housing value in the Champaign MSA is five times the median family income, indicating a limited proportion of OOUs are affordable to low- and moderate-income borrowers. One simplistic method used to determine housing affordability assumes a maximum monthly principal and interest payment of no more than 30 percent of the applicant's income.

In the Champaign MSA, assuming a 30 -year mortgage with a five percent interest rate and three percent down payment, while not accounting for homeowners insurance, real estate taxes, or any additional monthly expenses, a low-income borrower making $\$ 35,317$ per year (or less than 50 percent of the FFIEC adjusted median family income in the MSA) could afford a $\$ 117,114$ mortgage loan with a payment of $\$ 1,059$ per month; a moderate-income borrower earning $\$ 56,507$ per year (or less than 80 percent of the FFIEC adjusted median family income in the MSA) could afford a $\$ 218,130$ mortgage loan with a payment of $\$ 1,695$ per month.

Median rents and the percentage of families below poverty level suggest rental housing is also unaffordable for some low-income residents.

Economic Data
According to the Moody's Analytics February 2020 report, the Champaign MSA area economy is stable for now due to few dynamic growth drivers. The economy is driven by the presence of the University of

Illinois and agriculture. Some other positives include low business costs especially office rents, a comparatively large pool of talent and good prospects for life sciences and information technology. Most recently, there was a surge of job additions at the University of Illinois. The unemployment rate is at a 20 year low of 3.3 percent. Further, average earnings in the private sector have risen over the past year at one of the fastest rates in the country. While the area is highly dependent on state government for jobs and income, the University of Illinois flagship campus relies less on state funding than the state's other public universities and boasts ample liquidity, a below average debt burden and strong student demand. These advantages have allowed the university to steadily add faculty and staff to keep up with the growing student body. The top three employers in the area include the University of Illinois, The Carle Foundation, and Kraft Foods Inc. The housing market is a mixed bag. Multifamily housing is propping up residential construction. Builders put up more apartment units in 2019 than in all but two other years since records have been kept. Single-family starts remain sluggish, and house price increases have lost their edge over the state.

## Community Contacts

Examiners considered five community contacts completed during the review period with entities serving the area. The contacts were with organizations focused on affordable housing, business start-up, and economic development/small business. Contacts indicated that the area maintains a high standard of living with the benefit of low housing prices in comparison to other growing communities in the nation. However, some low-income families have issues obtaining loans due to credit issues. Contacts noted that there is a shortage of commercial space which has driven up the value and as a result makes space more expensive and more difficult for a start-up business. Contacts identified a need for affordable housing, gap funding for start-ups and other small businesses, funding for younger entrepreneurs with limited credit history. Contacts noted that there are opportunities for banks to lend to projects being originated locally. In addition, there are opportunities for banks to support community development activities and financing programs.

## Scope of Evaluation in Illinois

The Champaign MSA received a full-scope review. The MSA accounts for 24.8 percent of the deposits and 18.6 percent of the lending in Illinois. The remaining five AAs received a limited-scope review. Performance in limited-scope AAs and its effect on the CRA rating are discuss at the end of each test.

## CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS IN ILLINOIS

## LENDING TEST

The bank's performance under the Lending Test in the state of Illinois is rated High Satisfactory.

## Conclusions for Area Receiving a Full-Scope Review

Based on a full-scope review, the bank's performance in the Champaign MSA is good. Overall, good lending levels and good geographic and borrower distribution of loans.

## Lending Activity

Lending levels reflect good responsiveness to the credit needs in the bank's AA.
Examiners considered the number and amount of home mortgage, small business, small farm loans originated or purchased relative to Chase's capacity based on deposits, competition, and market presence. Lending activity for home mortgage and small loans to businesses received the most weight in reaching conclusions. Respectively, home mortgage lending and small loans to businesses account for 27.5 percent and 70.0 percent of the loan volume in the state by number and 66.3 percent and 27.2 percent of loan volume by dollar. Small farm lending is not a strategic focus of the bank and received minimal weight in reaching conclusions. Farm loans represented 2.4 percent of the loan volume in the state by number 0.6 percent loan volume by dollar.

| Number of Loans* |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

*Due to rounding, totals may not equal $100.0 \%$. The tables present the data for all assessment areas. The narrative below addresses performance in fullscope areas only.

Chase ranked second in deposits of 30 institutions with 12.8 percent market share.
In overall home mortgage lending, Chase ranked ninth with 2.8 percent market share. This is a very competitive market with 265 mortgage lenders. The top three lenders in this market share are Busey Bank (16.8 percent), Prime Lending ( 6.7 percent), and Wells Fargo Bank, N.A. (4.7 percent).

Chase ranked first in small loans to businesses with 20.7 percent market share. There are 69 lenders in the MSA. Other major lenders in the market were primarily American Express National Bank (13.8 percent), U.S. Bank, N.A. (8.1 percent), and Capital One, N.A. (6.2 percent).

Chase ranked sixth in small loans to farms 4.7 percent market share. There are 22 lenders in the MSA. The other major lenders in the market are John Deere Financial, F.S.B ( 30.5 percent), First Mid Bank \& Trust, NA (16.3 percent), and Busey Bank (13.6 percent).

## Distribution of Loans by Income Level of the Geography

The bank exhibits a good geographic distribution of loans in its AA.

## Home Mortgage Loans

Refer to Table O in the state of Illinois section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of home mortgage loan originations and purchases for this evaluation is good. The following information was taken into consideration when determining this rating.

- Profile data indicates there is a limited proportion of OOUs available as well as a high level of vacant units in low-income geographies.
- Performance in the moderate-income areas was given more significance as there was a small percentage of low-income geographies in both time periods ( 2.0 percent between 2014 and 2016 and 4.9 percent between 2017 and 2019).
- Between 2017 and 2019, the proportion of loans in low-income geographies was below both the proportion of OOUs in those areas and the aggregate distribution of loans. The proportion of moderate-income geographies significantly exceeded both the proportion of OOUs in those areas and the aggregate distribution of loans.
- Performance in the low- and moderate-income geographies between 2014 and 2016 was inconsistent with the performance during the 2017-2019 period. Between 2014 and 2016, the proportion of loans in low-income geographies was significantly below both the proportion of OOUs in those areas and the aggregate distribution of loans. The proportion of moderate-income geographies was below the proportion of OOUs in those areas and significantly exceeded the aggregate distribution of loans. The weaker performance between 2014 and 2016 did affect the 2017-2019 performance.

## Small Loans to Businesses

Refer to Table Q in the state of Illinois section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to businesses.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to businesses for this evaluation is adequate. The following information was taken into consideration when determining this rating.

- The economic growth of 2.1 percent was much slower than the national rate of 3.4 percent, with population decline in the AA.
- Between 2017-2019, the proportion of loans to small businesses in low-income geographies was near to the proportion of businesses in those area and equaled the aggregate distribution of loans. The proportion of loans to small businesses in moderate-income geographies was below both the proportion of businesses in those area and the aggregate distribution of loans.
- Performance in low- and moderate-income geographies during the 2014 and 2016 time period was stronger than 2017 to 2019. Between 2104 and 2016, the proportion of loans to small businesses in low-income geographies exceeded both the proportion of businesses in those area and the aggregate distribution of loans. The proportion of loans to small businesses in moderate-income geographies was below the proportion of businesses in those area and near to aggregate distribution of loans.

## Small Loans to Farms

Refer to Table S in the state of Illinois section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to farms.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to farms is good. The following information was taken into consideration when determining this rating.

- The limited percentage of farms in low-income geographies ( 2.8 percent) constrained lending opportunities; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of farms in those geographies.
- Farm lending is not a focus of the bank, therefore examiners placed greater significance on performance compared to aggregate of lender. Chase ranked sixth in deposit market share with 4.7 percent amongst the high level of competition in the AA (22 lenders).
- Between 2017 and 2019, the bank did not make any small farm loans in low- and moderate-income geographies.
- Performance in low- and moderate-income geographies during the 2014 to 2016 period was generally consistent with the performance during 2017 to 2019 period. Between 2014 and 2016, the bank did not make any small farms in low-income geographies. The proportion of loans to small farms in moderate-income geographies was significantly below both the proportion of farms in those geographies and the aggregate distribution.

## Lending Gap Analysis

A review of home mortgage loans, small loans to business, and small loans to farms including summary reports and AA maps did not identify any unexplained conspicuous lending gaps in the bank's activities.

## Distribution of Loans by Income Level of the Borrower

The bank exhibits a good distribution of loans among individuals of different income levels and business of different sizes, given the product lines offered by the bank.

## Home Mortgage Loans

Refer to Table P in the state of Illinois section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall borrower distribution of home mortgage loan originations and purchases for this evaluation is good. The following information was taken into consideration when determining this rating.

- Competition is high relative to the market size.
- Between 2017 and 2019, the proportion of loans to low-income borrowers was well below the percentage of low-income families in the AA and below the aggregate distribution of loans. The proportion of loans to moderate-income borrowers significantly exceeded the percentage of moderate-income families in the AA and was near to the aggregate distribution of loans.
- Performance between 2014 and 2016 was stronger than the 2017-2019 period, which contributed to the overall good performance. The proportion of loans to low-income borrowers significantly exceeded the aggregate distribution but was below the proportion of low-income families. The proportion of loans to moderate-income borrowers significantly exceeded both the proportion of moderate-income families and the aggregate distribution.

## Small Loans to Businesses

Refer to Table R in the state of Illinois section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's origination and purchase of small loans to businesses.

Based on the data in the tables and the following factors, the distribution of the bank's originations and purchases of small loans to businesses by revenue category is excellent. The following information was taken into consideration when determining this rating.

- Between 2017 and 2019, the bank's distribution of loans to businesses with revenues of $\$ 1$ million or less was near to the proportion of businesses with revenues of $\$ 1$ million or less and significantly exceeded the aggregate distribution of loans.
- Performance in the 2014 to 2016 period was consistent with the performance between 2017-2019. The bank's distribution of loans to businesses with revenues of $\$ 1$ million or was near to the proportion of businesses and significantly exceeded the aggregate distribution of loans.

## Small Loans to Farms

Refer to Table T in the state of Illinois section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's origination and purchase of small loans to farms.

Based on the data in the table and the following considerations, the distribution of the bank's originations and purchases of small loans to farms by revenue category is good. The following information was taken into consideration when determining this rating.

- Between 2017 and 2019, the bank's percentage of loans to farms with revenues of $\$ 1$ million or less was below the percentage of businesses and significantly exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was generally consistent with performance between 2017 and 2019. The bank's percentage of loans to farms with revenues of $\$ 1$ million or less was below the percentage of businesses and significantly exceeded the aggregate distribution.

## Community Development Lending

The bank is a leader in making CD loans.
The Lending Activity Tables, shown above, set forth the information and data used to evaluate the bank's level of CD lending. These tables include all CD loans, including multifamily loans that also qualify as CD loans.

The bank made three CD loans totaling $\$ 21$ million. This dollar volume represented 21.2 percent of the tier 1 capital allocated to the AA. A substantial majority of the loans were used for affordable housing while the remaining supported community service, which are both community needs.

Examples of CD loans in the AA include:

- In February 2016, Chase originated a $\$ 3.2$ million loan to a school district. Sixty-nine percent of the students are eligible for the Federal Free or Reduced Lunch program.
- In November 2016, Chase provided a $\$ 4.8$ million loan for the new construction of an apartment building in a middle-income census tract in Urbana, IL. The project created 33 low- and moderateincome units, with 24 leased under Section 8 contracts and the remainder leased under a Projectbased Veterans Affairs Supportive Housing contract.
- In December 2018, Chase funded a $\$ 13$ million construction bond loan with proceeds used to finance new construction of a 122-unit senior housing project in Champaign, IL. Eligibility for 120 units is dependent upon low- and moderate-income qualification guidelines and the remaining two are market rate. Twenty-four of these units will also be supportive housing units with the Housing Authority providing two full-time case managers to coordinate service delivery.

## Product Innovation and Flexibility

The bank makes extensive use of innovative and/or flexible lending practices to serve AA credit needs. As outlined below, a total of 424 loans were funded totaling $\$ 49.3$ million. Refer to the comments in the Product Innovation and Flexibility section of this performance evaluation for additional details

| Loan Type | Number of <br> Loans | Dollar Amount <br> $\mathbf{( \$ 0 0 0 ’ \mathbf { s } )}$ |
| :--- | :---: | :---: |
| DreaMaker | 49 | 6,977 |
| FHA | 58 | 7,053 |
| HARP | 21 | 1,911 |
| VA | 30 | 5,080 |
| SBA | 8 | 498 |
| USDA | 258 | 27,800 |

## Conclusions for Areas Receiving Limited-Scope Reviews

Performance in the limited-scope AA was factored into the state's overall High Satisfactory Lending Test rating and did not change the initial overall conclusions based on the AA receiving the full-scope review. Based on limited-scope reviews, the bank's performance under the Lending Test in the Davenport-Moline IL MSA, Peoria MSA, and Rockford-MSA is consistent with the bank's overall good performance under the Lending Test in the full-scope AA. The bank's performance under the Lending Test in the Bloomington MSA and Springfield MSA is weaker than the bank's overall good performance due to a weaker borrower income distribution. The weaker performance did not affect the overall Lending Test rating for the state of Illinois.

Refer to Tables O through Tin the state of Illinois section of appendix D for the facts and data that support these conclusions.

## INVESTMENT TEST

The bank's performance under the Investment Test in the state of Illinois is rated High Satisfactory.

## Conclusions for Area Receiving a Full-Scope Review

Based on a full-scope review, the bank's performance in the Champaign-Urbana MSA is poor. Performance in the limited-scope AAs had a significantly positive effect on the overall Investment Test rating.

The bank has a poor level of qualified CD investments or grants, but not in a leadership position, particularly those that are not routinely provided by private investors. Current and prior period investments represent 0.8 percent of allocated tier 1 capital allocated to the AA. Nearly all the investments represent prior period investments.

The bank exhibits poor responsiveness to credit and community economic development needs. Identified credit needs are affordable housing, affordable rental housing, and economic and workforce development. While there were no CD investments, the bank made one current period grant totaling $\$ 30.0$ thousand or 3.8 percent of qualified investments, which supported affordable housing. Current and prior period affordable housing investments created or retained 221 low- and moderate-income housing units for individuals and families.

The bank rarely uses innovative and/or complex investments to support CD initiatives. One prior period investment made in 2009 totaling $\$ 749.7$ thousand was a Direct Investor LIHTC transaction which required bank expertise and capacity in selecting projects and partners, negotiating agreements, overseeing project development and operations, and ensuring compliance.

## Number and Amount of Qualified Investments

| Qualified Investments - State of Illinois |  |  |  |  |  |  |  |  |  |  |

Prior Period Investments' means investments made in a previous evaluation period that are outstanding as of the examination date.
Unfunded Commitments' means legally binding investment commitments that are tracked and recorded by the institution's financial reporting system.
Examples of CD Investments in the AA include:

- The bank provided a $\$ 30$ thousand charitable contribution to a non-profit company through their participation in the bank's REO Community Revitalization Program. The company's mission is to revitalize low- and moderate-income communities by helping low- and moderate-income families become and remain homeowners. This is done by providing education, counseling, and development services that ensure each family has the knowledge, management skills, and fiscal discipline to create and execute the right financial plan.
- The bank pledged to help families in high need neighborhoods achieve and sustain homeownership, by donating or selling bank real estate owned properties to government agencies, municipalities, non-profit organizations, and land banks across the country.

## Statewide Investments in State of Illinois

Statewide Investments with a P/M/F were primarily related to affordable housing, revitalization/stabilization, and community service. A significant majority or 99.7 percent of total investments represent current period investments. Responsiveness to identified community needs is excellent. Current and prior period affordable housing investments totaled $\$ 50.8$ million, with $\$ 6.2$ million for community service and $\$ 4.9$ million for revitalization/stabilization. Affordable housing investments created or retained 1,213 low- and moderate-income housing units for individuals and families. Investments included two complex Direct Investor LIHTC transactions which require bank expertise and capacity in selecting projects and partners, negotiating agreements, overseeing project
development and operations, and ensuring compliance. The bank also made one NMTC investment. Four investments were a catalyst for future growth and other improvements.

The bank made 29 grants totaling $\$ 3.4$ million to a variety of organizations supporting community service through consumer education. In some occurrences, grants were provided in multiple years. The level of investments had a positive impact on the Investment Test rating for the state of Illinois.

## Conclusions for Areas Receiving Limited-Scope Reviews

Performance in the limited-scope AAs was factored into the state's overall High Satisfactory Investment Test rating and significantly changed the initial overall conclusions based on the AA receiving fullscope review. Based on limited-scope reviews, the bank's performance under the Investment Test in the Bloomington MSA, Davenport-Moline-Rock Island MSA, Peoria MSA, Rockford MSA and Springfield MSA is stronger than the bank's overall poor performance under the Investment Test in the full-scope area due to a higher level of qualified investments compared to allocated tier 1 capital. Performance in the limited-scope AAs had a significantly positive effect on the overall Investment Test rating for the state of Illinois.

## SERVICE TEST

The bank's performance under the Service Test in the state of Illinois is rated Low Satisfactory.

## Conclusions for Area Receiving a Full-Scope Review

Based on a full-scope review, the bank's performance in the Champaign MSA is adequate.

## Retail Banking Services

Service delivery systems are reasonably accessible to geographies and individuals of different income levels in the bank's full-scope AA.

Examiners evaluated the data as outlined in the Scope section at the front of this document including bank-provided data on usage of branches adjacent to low-and moderate-income geographies by individuals residing in those geographies and on increases in the usage of alternative delivery systems.

Based on the data in the table below and performance context, the branch distribution is adequate. In low- and moderate-income geographies, the distribution is respectively significantly below and exceeds the percentage of the population. The bank had no branches in low-income geographies and one branch in moderate-income geographies. The distribution was augmented by two MUI tract branches that serve low-income tracts. Examiners reviewed data on the accounts held and transactions conducted at the MUI branches and confirmed they were serving the adjacent low- and moderate-income populations.

Charter Number: 8

| Distribution of Branch Delivery System |  |  |  |  |  |  |  | As of December 31, 2019 |  |  |  |

* May not add up to 100 percent due to geographies with unknown tract income level and rounding

Alternative delivery systems did not significantly enhance the delivery of banking services to geographies and individuals of all income levels. The OCC considered the availability and use of alternative delivery systems over the evaluation period. This included review of the bank's 12 deposittaking ATMs, online banking, mobile banking, and telephone banking to determine the effectiveness of these systems to make retail banking services available to individuals in low- and moderate-income geographies. The bank decreased the deposit-taking ATMs in low- and moderate-income geographies from the prior rating period to one ( 8.3 percent) deposit-taking ATMs in low-income geographies and three ( 25.0 percent) ATMs in moderate-income geographies. Bank-provided data on use of online, mobile, and telephone banking showed increases in the adoption of these services by low- and moderateincome individuals from the prior rating period.

| Distribution of Branch Openings/Closings |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | Net change in Location of Branches(+ or -) |  |  |  |
| Assessment Area | Openings | Closings | Low | Mod | Mid | Upp |
| Champaign MSA | 0 | 0 | - | - | - | - |

The bank did not open or close any branches during the evaluation period.
Services, including where appropriate, business hours, do not vary in a way that inconveniences, the AA, particularly low- and moderate-income geographies and/or individuals. Generally, branches are open Monday through Thursday from 9:00 am to 5:00 pm, Friday from 9:00 am to 6:00 pm and Saturday from 9:00 am to 1:00 pm. All retail banking services are available at all branches within the moderate-income geographies.

## Community Development Services

The bank provides an adequate level of CD services.
Bank records show that employees provided technical assistance and/or job-specific expertise for 46 CD service activities to two organizations for a total of 332 qualified hours of service. All the bank's assistance was to organizations that provide community services to low- and moderate-income individuals and families. The following is an example of CD services provided in this AA:

- A bank employee provided 190 hours of board service to a local Community Development Corporation

## Conclusions for Areas Receiving Limited-Scope Reviews

Performance in the limited-scope AAs was factored into the state's overall Low Satisfactory Service Test rating and did not significantly change the initial overall conclusions based on the AAs receiving full-scope review. Based on limited-scope reviews, the bank's performance under the Service Test in the Springfield, IL; Rockford, IL; Peoria, IL; Bloomington, IL; Davenport-Moline-Rock Island, IL AAs is consistent with the bank's overall performance under the Service Test in the full-scope area due to consistently weak branch distribution in low- and moderate-income geographies.

## State Rating

## State of Indiana

CRA rating for the State of Indiana ${ }^{15}$ : Satisfactory
The Lending Test is rated: High Satisfactory
The Investment Test is rated: Outstanding
The Service Test is rated: High Satisfactory
The major factors that support this rating include:

- A good level of lending activity.
- Overall adequate geographic distribution of home mortgage loans and small loans to businesses.
- Overall good borrower distribution of home mortgage loans and small loans to businesses.
- A leader in making CD loans, which had a significant positive affect on the rating.
- The extensive use of flexible products, which positively affected the rating.
- A good level of qualified investments, excellent responsiveness to credit and community economic development needs, significant use of complex investments, and the high level of investments in the broader statewide or regional area.
- Retail service delivery systems accessible to geographies and individuals of different income levels.
- Chase is a leader in providing CD services that are responsive to AA needs.

## Description of Institution's Operations in Indiana

The state of Indiana is Chase's $11^{\text {th }}$ largest rating area based on aggregate deposits $\$ 15.6$ billion, representing 1.1 percent of the bank's total deposits. As of December 31, 2019, the bank operated 129 branches and 262 deposit-taking ATMs within the rating area, representing 2.6 percent of total branches and 1.6 percent of total ATMs. The bank originated and purchased approximately $\$ 7.1$ billion in loans or 1.0 percent of total bank loan originations and purchases during the evaluation period in the state.

According to the FDIC Deposit Market Share Data, as of June 30, 2019, there were 144 banks operating 1,967 branches in the state of Indiana. Chase ranked first in deposit market share with 13.9 percent. Major competitors in the state based on deposit market share include PNC Bank, N.A. ( 7.83 percent), Fifth Third Bank ( 6.7 percent), and First Merchants Bank ( 5.4 percent).

Chase delineated six AAs in the state of Indiana. The Indianapolis-Carmel-Muncie, IN CSA (Indianapolis CSA) accounts for 72.0 percent of the bank's deposits in Indiana, received a full-scope review. The CSA consists of the Indianapolis-Carmel-Anderson, IN MSA, Muncie, IN MSA and Crawfordsville, IN MiSA. The Bloomington-Bedford CSA, Lafayette-West Lafayette MSA, Fort Wayne-Huntington-Auburn CSA, South Bend-Elkhart-Mishawaka CSA, and Indiana Non-MSA received limited-scope reviews. Refer to appendix A for a complete description of the AAs.

## Description of Full-Scope AA

The following table provides a summary of the demographic that includes housing and business information for the Indianapolis CSA. Table A indicates that the volume of OOUs is very small in low-

[^114]income CTs and over 21.5 percent of families in the AA are low-income with 10.7 percent below the poverty level. The median housing value in the Indianapolis CSA is three times the median income, two times the moderate-income and three times the low-income, indicating a limited proportion of OOUs are affordable to low-income borrowers. One simplistic method used to determine housing affordability assumes a maximum monthly principal and interest payment of no more than 30 percent of the applicant's income.

In the Indianapolis CSA, assuming a 30-year mortgage with a five percent interest rate and three percent down payment, while not accounting for homeowners insurance, real estate taxes, or any additional monthly expenses, a low-income borrower making $\$ 25,968$ per year (or less than 50 percent of the FFIEC adjusted median family income in the CSA) could afford a $\$ 72,555$ mortgage loan with a payment of $\$ 779$ per month; a moderate-income borrower earning $\$ 41,548$ per year (or less than 80 percent of the FFIEC adjusted median family income in the CSA) could afford a $\$ 146,801$ mortgage loan with a payment of $\$ 1,246$ per month.

Median rents and the significant percentage of families below poverty level suggest rental housing is also unaffordable for many low-income residents.

## Economic Data

According to Moody's Analytics February 2020 Report, at just below 3 percent, the unemployment rate in Indianapolis is stable at a two-decade low and the labor force is at an all-time high. Average hourly earnings are up more in the area than they are nationwide over the past few years because of tight labor supplies and a rising concentration of high-wage jobs. The area's strengths include highly affordable
housing; strong demographics with positive net-migration; low cost of doing business; a growing hightech hub; and a diversified industrial structure and well-developed distribution network. In November, Amazon broke ground on a fulfillment center in Hancock County, its second addition in the area in 2019. Major employment industries include education and health services; business and professional services; and government. Major employers in the area include Indiana University Health; St. Vincent Hospitals and Health Services; Lilly and Co.; and Community Health Network. The housing market has benefited from earlier job and income gains. Consistently a top Midwest performer in population growth, Indianapolis' economy is well positioned to outshine the region's in coming years. Much of the area's ability to buck the region's negative demographic patterns is tied to low costs for businesses and households. Construction activity will build off current momentum this year and next. While new supply will slow house price appreciation, the risk of a sharp deceleration as new supply comes online is low given above-average affordability and valuations that are anchored to underlying fundamentals.

## Community Contacts

Examiners considered four community contacts completed during the review period with entities serving the area. Contacts were completed with organizations focused on affordable housing, economic development and community and social services. According to the contacts, public resources for affordable housing are limited and not adequate to meet community needs. Parts of the region are struggling to maintain their population. Disinvestment persists in the inner core of the cities. There continues to be persistent poverty in certain neighborhoods and communities. The opioid crisis is impacting many communities. Much of the workforce is undereducated and lacks the skills needed by local businesses. Other needs identified in the community include, financing to support the development of affordable housing, workforce housing to create neighborhood stability, funding support and capacity building for area non-profits that work directly with low- and moderate-income populations, affordable mortgages for low- to moderate-income residents, technical assistance and training for small businesses, including financial education, small dollar loans and start-up funds for small businesses and workforce development training to give low-income individuals access to better paying jobs.

## Scope of Evaluation in Indiana

The Indianapolis CSA received a full-scope review. This CSA accounts for 72.0 percent of the deposits and 68.6 percent of the lending in Indiana. The remaining five AAs received a limited-scope review. Performance in limited-scope AAs and its effect on the CRA rating are discuss at the end of each test.

## CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS IN INDIANA

## LENDING TEST

The bank's performance under the Lending Test in the state of Indiana is rated High Satisfactory.

## Conclusion for Area Receiving a Full-Scope Review

Based on a full-scope review, the bank's performance in the Indianapolis CSA is good. Overall, good lending levels and good borrower distribution of loans with adequate geographic distribution of loans.

## Lending Activity

Lending levels reflect good responsiveness to credit needs in the bank's AA.
Examiners considered the number and amount of home mortgage, small business, small farm loans originated or purchased relative to Chase's capacity based on deposits, competition, and market presence. Lending activity for home mortgage and small loans to businesses received the most weight in reaching conclusions. Respectively, home mortgage lending and small loans to businesses account for 37.2 percent and 61.2 percent of the loan volume in the state by number and 79.1 percent and 17.5 percent of loan volume by dollar. Small farm lending is not a strategic focus of the bank and received minimal weight in reaching conclusions. Farm loans represented 1.0 percent of the loan volume in the state by number and 0.6 percent loan volume by dollar.

*Due to rounding, totals may not equal $100.0 \%$. The tables present the data for all assessment areas. The narrative below addresses performance in fullscope areas only.

Chase ranked first in deposits out of 48 institutions with 20.2 percent market share.

In overall home mortgage lending, Chase ranked first with 5.3 percent market share. This is a very competitive market with 636 home lenders and no single lender dominated the market. Other major lenders are Huntington National Bank (5.2 percent), Caliber Home Loans, Inc. (4.6 percent), and Wells Fargo Bank, N.A. (3.6 percent).

Chase ranked first in small loans to businesses with 23.1 percent market share. There are 147 lenders in the CSA. Other major lenders are American Express National Bank ( 15.3 percent), PNC Bank, N.A. ( 9.1 percent), and Capital One, N.A. (5.5 percent).

Chase ranked second in small loans to farms with 19.5 percent market share. There were 36 lenders in the CSA. Other major lenders and market share are John Deere Financial, F.S.B (21.7 percent), First Farmers Bank and Trust (11.8 percent) and First Merchants Bank (8.0 percent).

## Distribution of Loans by Income Level of the Geography

The bank exhibits adequate geographic distribution of loans in its AA.

## Home Mortgage Loans

Refer to Table O in the state of Indiana section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of home mortgage loan originations and purchases for this evaluation is adequate. The following information was taken into consideration when determining this rating.

- The limited proportion of housing units in low-income geographies, particularly OOUs ( 6.1 percent), constrained lending opportunities; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of OOUs in those geographies.
- The high level of competition in the AA (636 home mortgage lenders) was also considered and examiners placed greater significance on performance compared to the aggregate of lenders.
- Between 2017 and 2019, the proportion of loans in low-income areas was well-below the proportion of OOUs in those geographies and below aggregate distribution of loans. The proportion of loans in moderate-income areas was near to the proportion of OOUs in those geographies and exceeded the aggregate distribution of loans.
- The performance in low- and moderate-income geographies during the 2014 and 2016 time periods was inconsistent with 2017 to 2019. The proportion of loans in low-income geographies is significantly below the proportion of OOUs in those geographies and below the aggregate distribution of loans. The proportion of loans in moderate-income geographies was well-below the proportion of OOUs and near to the aggregate distribution of loans.

## Small Loans to Businesses

Refer to Table Q in the state of Indiana section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to businesses.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to businesses for this evaluation is adequate. The following information was taken into consideration when determining this rating.

- During the 2017 to 2019 period, the proportion of loans to small businesses in low- and moderateincome geographies was below both the proportion of businesses in those areas and the aggregate distribution of loans.
- The performance during the 2014 to 2016 time periods was inconsistent with 2017-2019. Between 2104 and 2016, the proportion of loans to small businesses in low-income areas was well-below both the percentage of small businesses located in those geographies and the aggregate distribution of loans. The proportion of loans to small businesses in moderate-income areas was below both the percentage of small businesses located in those geographies and the aggregate distribution of loans.

## Small Loans to Farms

Refer to Table $S$ in the state of Indiana section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to farms.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to farms is good. The following information was taken into consideration when determining this rating.

- The limited percentage of farms in low-income geographies (4.5 percent) constrained lending opportunities; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of farms in those geographies.
- Farm lending is not a focus of the bank, therefore examiners placed greater significance on performance compared to aggregate of lender. Chase ranked second in deposit market share with 21.7 percent amongst the high level of competition in the AA (36 lenders).
- Between 2017 and 2019, the proportion of loans to small farms in low-income geographies was near to the proportion of farms in those geographies and significantly exceeded the aggregate distribution.
- Between 2017 and 2019, the bank did not make any loans to small farms in moderate-income geographies therefore the proportion of loans to small farms in moderate-income geographies was significantly below the proportion of farms in those geographies and the aggregate distribution.
- Performance in low- and moderate-income geographies during the 2014 to 2016 period was generally consistent with performance during the 2017 to 2019 period. The proportion of loans to small farms in low-income geographies was near to the proportion of farms in those geographies and significantly below the aggregate distribution. The proportion of loans to small farms in moderateincome geographies was significantly below the proportion of farms in those geographies and significantly exceeded the aggregate distribution.

## Lending Gap Analysis

A review of home mortgage loans, small loans to business, and small loans to farms including summary reports and AA maps did not identify any unexplained conspicuous lending gaps in the bank's activities.

## Distribution of Loans by Income Level of the Borrower

The bank exhibits a good distribution of loans among individuals of different income levels and business and farms of different sizes, given the product lines offered by the bank.

## Home Mortgage Loans

Refer to Table $P$ in the state of Indiana section of appendix $D$ for the facts and data used to evaluate the borrower distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall borrower distribution of home mortgage loan originations and purchases for this evaluation is good. The following information was taken into consideration when determining this rating.

- Greater significance was placed on performance against the aggregate distribution as it reflects the difficulties all lenders are experiencing due to competition and the economic constraints discussed above under the Description of this Full-Scope AA.
- Examiners particularly considered housing affordability challenges for low- and moderate-income borrowers.
- Between 2017 and 2019, the proportion of loans to low-income borrowers was well-below the percentage of low-income families and near to the aggregate distribution of lenders. The proportion of moderate-income loans exceeded the proportion of moderate-income families and the aggregate distribution.
- During 2014 to 2016, the bank's performance was consistent with performance between 2017 to 2019. The proportion of loans to low-income borrowers was well below the percentage of lowincome families and exceeded the aggregate distribution of lenders. The proportion of moderateincome loans was exceeded the proportion of moderate-income families and the aggregate distribution.

## Small Loans to Businesses

Refer to Table R in the state of Indiana section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's origination and purchase of small loans to businesses.

Based on the data in the tables and the following factors, the distribution of the bank's originations and purchases of small loans to businesses by revenue category is good. The following information was taken into consideration when determining this rating.

- Greater significance was placed on performance against the aggregate distribution of lenders as it reflects the difficulties all lenders are experiencing due to competition and the economic constraints discussed above under the Description of the Full-Scope AA.
- Between 2017 and 2019, the bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and significantly exceeded the aggregate distribution.
- Performance against both the aggregate and borrower distribution in 2014 through 2016 were consistent with 2017-2019. The bank's percentage of loans to businesses with revenues of $\$ 1$ million or less was below the percentage of businesses and significantly exceeded the aggregate distribution.

## Small Loans to Farms

Refer to Table $T$ in the state of Indiana section of appendix $D$ for the facts and data used to evaluate the borrower distribution of the bank's origination and purchase of small loans to farms.

Based on the data in the table and the following considerations, the distribution of the bank's originations and purchases of small loans to farms by revenue category is good. The following information was taken into consideration when determining this rating.

- Between 2017 and 2019, the bank's percentage of loans to farms with revenues of $\$ 1$ million or less was near to the percentage of businesses and substantially exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was consistent with performance between 2017 and 2019. The bank's percentage of loans to farms with revenues of $\$ 1$ million or less was below the percentage of businesses and substantially exceeded the aggregate distribution.

## Community Development Lending

The bank is a leader in making CD loans.
The Lending Activity Tables, shown above, set forth the information and data used to evaluate the bank's level of CD lending. These tables include all CD loans, including multifamily loans that also qualify as CD loans.

The bank made 11 CD loans totaling $\$ 186.4$ million. This dollar volume represented 12.9 percent of the tier 1 capital allocated to the AA. Ten loans ( 90 percent) supported community services, while the remaining loan supported revitalization/stabilization and affordable housing.

Examples of CD loans include:

- In October 2016, the bank made a $\$ 154.4$ million loan to a school district that educates a student population where 71.8 percent are eligible for the Free and Reduced Lunch Program. The funds were used to implement a program of best practices in curriculum, academic intervention, and other school improvements.
- In November 2014, the bank provided $\$ 6.4$ million in funding towards constructing new affordable housing for senior citizens in Beech Grove, IN. The project includes 11 single-story buildings with a total of 60 units that are for low- and moderate-income seniors age 55 or older.
- In November 2017, the bank provided $\$ 10.7$ million in funding to develop 72 new affordable units in Muncie, IN. The project includes three properties with 23 two-bedroom units and 49 three-bedroom
units that are restricted to low- and moderate-income households. The project was considered a key component of neighborhood revitalization and clean-up of Muncie's south side.

## Product Innovation and Flexibility

The bank makes extensive use of innovative and/or flexible lending practices to serve AA credit needs. As outlined below, a total of 5,574 loans were funded totaling $\$ 718.2$ million. Refer to the comments in the Product Innovation and Flexibility section of this performance evaluation for additional details regarding the programs.

| Loan Type | Number of <br> Loans | Dollar Amount <br> $\mathbf{( \$ 0 0 0 ' s )}$ |
| :--- | :---: | :---: |
| DreaMaker | 787 | 107,567 |
| FHA | 2,384 | 271,216 |
| HARP | 729 | 79,412 |
| VA | 696 | 119,526 |
| SBA | 189 | 44,864 |
| USDA | 789 | 95,617 |

## Conclusions for Areas Receiving Limited-Scope Reviews

Performance in the limited-scope AA was factored into the state's overall High Satisfactory Lending Test rating and did not change the initial overall conclusions based on the AAs receiving the full-scope review. Based on limited-scope reviews, the bank's performance under the Lending Test in the Bloomington-Bedford CSA, Lafayette-West Lafayette MSA, and Indiana Non-MSA is consistent with the bank's overall good performance under the Lending Test in the full-scope AA. Based on limitedscope reviews, the bank's performance under the Lending Test in the Fort Wayne-Huntington-Auburn CSA and South Bend-Elkhart-Mishawaka CSA is weaker than the bank's overall good performance in the full-scope AA. Performance is weaker primarily due to the lack of CD lending. Performance in limited-scope AAs did not affect the overall Lending Test rating for the state of Indiana.

Refer to Tables O through T in the state of Indiana section of appendix D for the facts and data that support these conclusions.

## INVESTMENT TEST

The bank's performance under the Investment Test in the state of Indiana is rated Outstanding. A good level of qualified investments was enhanced by excellent responsiveness to credit and community economic development needs, significant use of complex investments, and the high level of investments in the broader statewide or regional area.

## Conclusions for Areas Receiving Full-Scope Reviews

Based on a full-scope review, the bank's performance in the Indianapolis CSA is good.
The bank has a significant level of qualified CD investments and grants, occasionally in a leadership position, particularly those that are not routinely provided by private investors. The current and prior period investments dollar volume represents 5.0 percent of tier 1 capital allocated to the AA. Sixtyseven percent are current period investments.

The bank exhibits excellent responsiveness to credit and community economic development needs identified in the AA. Twenty-three current period CD investments totaling $\$ 42.6$ million are responsive to community development needs. Seventy-one percent support affordable housing, 23.1 percent support community services, and 6.1 percent support revitalization/stabilization. Seventy-five grants totaled $\$ 6.0$ million, with 48.3 percent, 34.0 percent, 12.7 percent, and 5.0 percent supporting community services, revitalization/stabilization, affordable housing, and economic development, respectively. Forty-two prior period CD investments totaling $\$ 23.3$ million are complex with nearly all supporting affordable housing. In addition, 21 current period investments supporting community services and revitalization/stabilization serve as catalysts to encourage future improvement and growth in the AA.

The bank makes significant use of complex investments to support CD initiatives. Eight current period CD investments totaling $\$ 21.2$ million were complex. Of those, 41.5 percent, 46.2 percent and 12.3 percent support affordable housing, community services and revitalization/stabilization, respectively. Nine of ten prior period complex investments or $\$ 14.2$ million, support affordable housing consisting of Direct Investment LIHTCs transactions.

Number and Amount of Qualified Investment

| Qualified Investments - State of Indiana |  |  |  |  |  |  |  |  |  |  |

| IN Non-Metro AA | 3 | 7 | 0 | 0 | 03 | 1.1 | 7 | 0 | 0 | 0 |
| Other: |  |  |  |  |  |  |  |  |  |  |
| Statewide Investments with Purpose, Mandate or Function (P/M/F) to Serve AAs | 0 | 0 | 47 | 33,612 | 47 | 17.9 | 33,612 | 22.5 | 0 | 0 |
| Statewide Investments with No Purpose, Mandate or Function (P/M/F) to Serve AAs | 24 | 8,242 | 1 | 30 | 25 | 9.5 | 8,272 | 5.5 | 0 | 0 |

Prior Period Investments' means investments made in a previous evaluation period that are outstanding as of the examination date.
Unfunded Commitments' means legally binding investment commitments that are tracked and recorded by the institution's financial reporting system.
Examples of community development investments in the AA include:

- The bank originated a $\$ 2.3$ million NMTC equity investment for the construction of a 16,000 square foot (SF) grocery store, a $12,000 \mathrm{SF}$ re-sale store, and $12,600 \mathrm{SF}$ of additional retail space in Avondale Meadows within the city of Indianapolis. The facility was constructed in a community that is both low-income and a USDA-defined food desert. The bank's investment served as the catalyst to spark more development within this community and to attract businesses offering healthy
food options. The facility acted as a cornerstone business and supported over 100 full-time and parttime jobs in the area.

## Statewide Investments in the State of Indiana

The bank has 72 current and prior period CD investments and grants with and without a $\mathrm{P} / \mathrm{M} / \mathrm{F}$ to serve AAs in the broader statewide or regional area. Ninety-eight percent supports affordable housing, and two percent supports community services. One small investment supports revitalization/stabilization. These broader statewide investments enhanced the bank's overall performance under the Investment Test in the state of Indiana.

## Conclusions for Areas Receiving Limited-Scope Reviews

Performance in the limited-scope AAs was factored into the state's overall Outstanding Investment Test rating and did not significantly change the initial overall conclusions based on the AA receiving fullscope review. Based on limited-scope reviews, the bank's performance under the Investment Test in the Fort Wayne-Huntington-Auburn CSA, South Bend-Elkhart-Mishawaka CSA, and Lafayette-West Lafayette CSA are consistent with the bank's overall good performance under the Investment Test in the full-scope area. Performance in the Bloomington-Bedford CSA is stronger than the bank's good performance in the full-scope area. Stronger performance is due to a high level of investments in relation to tier 1 capital. The bank's performance in the IN Non-Metro AA is weaker than the bank's performance in the full-scope area. Weaker performance is due to a very low level of investments. Performance in limited-scope AAs did not affect the overall Investment Test rating for the state of Indiana.

## SERVICE TEST

The bank's performance under the Service Test in the state of Indiana is rated High Satisfactory.

## Conclusions for Area Receiving a Full-Scope Review

Based on a full-scope review, the bank's performance in the Indianapolis CSA is good.

## Retail Banking Services

Service delivery systems are accessible to geographies and individuals of different income levels in the bank's AA.

Examiners evaluated the data as outlined in the Scope section at the front of this document including bank-provided data on usage of branches adjacent to low-and moderate-income geographies by individuals residing in those geographies and on increases in the usage of alternative delivery systems.

Based on the data in the table below and performance context, the branch distribution is good. In lowand moderate-income geographies, the distribution is respectively below and exceeds the percentage of the population. The bank had five branches in low-income geographies and 20 branches in moderateincome geographies. The distribution was augmented by one MUI tract branch that serves low-income tracts and eleven MUI tract branches that serve moderate-income tracts. Examiners reviewed data on
the accounts held and transactions conducted at the MUI branches and confirmed they were serving the adjacent low- and moderate-income populations.

| Distribution of Branch Delivery System |  |  |  |  |  |  |  | As of December 31, 2019 |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | $\begin{gathered} \text { Deposits } \\ \hline \% \text { of Rated } \\ \text { Area } \\ \text { Deposits in } \\ \text { AA } \end{gathered}$ | Branches |  |  |  |  |  | Population |  |  |  |
|  |  | \# of <br> BANK <br> Branches | \% of <br> Rated <br> Area <br> Branches <br> in AA | Location of Branches by Income of Geographies (\%) |  |  |  | \% of Population within Each Geography |  |  |  |
|  |  |  |  | Low | Mod | Mid | Upp | Low | Mod | Mid | Upp |
| Indianapolis -CarmelMuncie CSA | 72.0 | 69 | 69.7 | 7.2 | 29.0 | 30.4 | 33.3 | 10.7 | 21.9 | 31.5 | 35.3 |

* May not add up to 100 percent due to geographies with unknown tract income level and rounding

Alternative delivery systems enhanced the delivery of banking services to geographies and individuals of all income levels. The OCC considered the availability and use of alternative delivery systems over the evaluation period. This included review of the bank's 184 deposit-taking ATMs, online banking, mobile banking, and telephone banking to determine the effectiveness of these systems to make retail banking services available to individuals in low- and moderate-income geographies. The bank increased the deposit-taking ATMs in low- and moderate-income geographies by 30.4 percent over the prior rating period to 16 (8.7 percent) deposit-taking ATMs in low-income geographies and 57 (31.0 percent) ATMs in moderate-income geographies. Additionally, bank-provided data on use of online, mobile, and telephone banking showed increases in the adoption of these services by low- and moderate-income individuals from the prior rating period.

| Distribution of Branch Openings/Closings |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | \# of <br> Branch <br> Openings | \# of <br> Branch <br> Closings | Net change in Location of Branches$(+ \text { or }-)$ |  |  |  |
| Assessment Area |  |  | Low | Mod | Mid | Upp |
| Indianapolis-Carmel-Muncie CSA | 1 | 20 | -6 | -6 | -6 | -1 |

The bank's closing of branches has generally not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and/or to low- and moderate-income individuals. The bank closed six ( 50.0 percent) branches in low-income geographies and six ( 23.0 percent) branches in moderate-income geographies. The branch closures in low-income geographies had a negative effect on the accessibility of services to the population residing in those geographies and the closures in moderate-income geographies did not negatively affect the accessibility relative to the population residing in those geographies. Branch closures were due to reduced customer usage and proximity to other Chase branches. Despite the branch closures, branch locations in general remained accessible to geographies and individuals of different income levels in the bank's AA.

Services, including where appropriate, business hours, do not vary in a way that inconveniences, its AA, particularly moderate-income geographies and/or individuals. Generally, branches are open Monday
through Friday from 9:00 am to 6:00 pm, and Saturday from 9:00 am to 2:00 pm. All retail banking services are available at all branches within the low- and moderate-income geographies.

## Community Development Services

The bank was a leader in providing CD services that are responsive to AA needs.
Bank records show that employees provided their financial or job-specific expertise and/or technical assistance for 947 CD Services to 55 organizations, logging 4,358 qualified hours. All of the bank's assistance were to organizations that provide community services to low- and moderate-income individuals and families. The bank's CD services were responsive to the community needs in the AA, particularly financial literacy, and affordable housing. The following are examples of CD services provided:

- The bank was responsive to a significant need in Indianapolis by educating 1600 low- and moderateincome seniors about how to prevent and report financial abuse.
- The bank partnered with a non-profit organization to host a financial inclusion seminar for low- and moderate-income physically challenged individuals.
- The bank provided homebuyer workshops and pre-purchase homebuyer education seminars, impacting over 350 low- and moderate-income individuals.

## Conclusions for Areas Receiving Limited-Scope Reviews

Performance in the limited-scope AAs was factored into the state's overall High Satisfactory Service Test rating and did not significantly change the initial overall conclusions based on the AA receiving a full-scope review. Based on limited-scope reviews, the bank's performance under the Service Test in the Fort Wayne-Huntington-Auburn, IN CSA is stronger than the bank's overall performance under the Service Test in the full-scope area due to stronger branch distribution. The bank's performance in the Bloomington-Bedford, IN; Lafayette-West Lafayette, IN; Indiana non-metropolitan; and South Bend-Elkhart-Mishawaka AAs is weaker than the bank's overall performance under the Service Test in the full-scope area due to a weaker percentage of branch distribution in low- and moderate-income geographies.

## State Rating

## State of Kentucky

CRA rating for the State of Kentucky ${ }^{16}$ : Satisfactory
The Lending Test is rated: High Satisfactory
The Investment Test is rated: Outstanding
The Service Test is rated: High Satisfactory
The major factors that support this rating include:

- A good level of lending activity.
- Overall good geographic distribution of home mortgage loans and small loans to businesses.
- Overall excellent borrower distribution of home mortgage loans and small loans to businesses.
- No CD loans were made, which has a negative effect on the Lending Test rating.
- The extensive use of flexible products, which positively affected the rating.
- An excellent level of qualified investments, excellent responsiveness to credit and community economic development needs, significant use of innovative and/or complex investments, supported by the level of investments in the broader statewide area.
- Retail service delivery are readily accessible to geographies and individuals of different income levels.
- An adequate level of CD services in the full-scope AA .

## Description of Institution's Operations in Kentucky

The state of Kentucky is Chase's $23^{\text {rd }}$ largest rating area based on aggregate deposits of $\$ 2.0$ billion, representing 1.5 percent of the bank's total deposits. As of December 31, 2019, the bank operated 23 branches and 39 deposit-taking ATMs within the rating area, representing 0.4 percent of total branches and 0.2 percent of total ATMs. The bank originated and purchased approximately $\$ 1.3$ billion in loans or 0.2 percent of total bank loan originations and purchases during the evaluation period in the state.

According to the FDIC Deposit Market Share Data, as of June 30, 2019, there were 148 banks operating 1,144 branches in the state Kentucky. Chase ranked fourth in deposit market share with 4.1 percent. The top three banks and their deposit market share are Community Trust Bank (5.7 percent), U.S. Bank, N.A. (5.0 percent), and Truist Bank (4.6 percent).

Chase has delineated four AAs in the state of Kentucky. The Lexington-Fayette-Richmond-Frankfort, KY CSA (Lexington CSA) was selected for a full-scope review. The CSA consists of the LexingtonFayette, KY MSA and Richmond-Berea, KY MiSA. The Bowling Green KY MSA, Owensboro KY MSA, and Kentucky Non-MSA received limited-scope reviews. Refer to appendix A for a complete description of the AAs.

[^115]
## Description of Full-Scope AA

The following table provides a summary of the demographic that includes housing and business information for the Lexington CSA. Table A indicates that the volume of OOUs is very small in lowincome CTs and over 23.1 percent of families in the AA are low-income with 13.0 percent below the poverty level. The median housing value in the Lexington CSA is three times the median income, three times the moderate-income and four times the low-income, indicating a limited proportion of OOUs are affordable to low-income borrowers. One simplistic method used to determine housing affordability assumes a maximum monthly principal and interest payment of no more than 30 percent of the applicant's income.

In the Lexington CSA, assuming a 30-year mortgage with a five percent interest rate and three percent down payment, while not accounting for homeowners insurance, real estate taxes, or any additional monthly expenses, a low-income borrower making $\$ 22,993$ per year (or less than 50 percent of the FFIEC adjusted median family income in the CSA) could afford a $\$ 58,369$ mortgage loan with a payment of $\$ 690$ per month; a moderate-income borrower earning $\$ 36,789$ per year (or less than 80 percent of the FFIEC adjusted median family income in the CSA) could afford a $\$ 124,149$ mortgage loan with a payment of $\$ 1,104$ per month.

Median rents and the significant percentage of families below poverty level suggest rental housing is also unaffordable for many low-income residents.

Source: 2015 ACS and 2019 D\&B Data
Due to rounding, totals may not equal $100.0 \%$
(*) The NA category consists of geographies that have not been assigned an income classification.

## Economic Data

According to Moody's Analytics December 2019 Report, the Lexington-Fayette CSA economy is expanding at a modest tempo. Job additions in the private sector have slowed since mid-2019, and the complete count of payrolls from the Quarterly Census of Employment and Wages suggests that initial estimates of job growth from mid-2018 to mid-2019 overstate gains and will be adjusted down. The area's strengths include low business costs; an educated workforce; favorable location and infrastructure for shipping; and abundant developable land compared to other metro areas. However, the area has a high reliance on state government and slowing population growth. Public sector employment accounts for a significant portion of jobs in the area, led by the presence of the University of Kentucky. The state of Kentucky is facing budgetary issues which will curb government spending and will impact government payrolls. In addition, manufacturing will also prove to be one of the area's weakerperforming industries over the near term, with risks skewed to the downside. Transportation equipment manufacturing accounts for a well above-average two-fifths of factory jobs. Statewide exports of transportation equipment to China fell 7.0 percent in the first 11 months of 2019, compared with a similarly sized increase in exports of such goods to other countries.

Major employment industries in the area include government; professional and business services; and education and health services. Major employers in the area include University of Kentucky; Toyota Motor Manufacturing; Xerox; St. Joseph Hospital. The area is well-suited for growth in white-collar industries because of the presence of University of Kentucky. In addition to its below-average office rents, the area has a wealth of talent with the share of adults with a bachelor's degree or higher near 40 percent. Lexington ranks highest in housing affordability among South metro areas with above-average shares of college-educated residents.

## Community Contacts

Examiners considered six community contacts completed during the review period with entities serving the area. The contacts were with organizations focused on affordable housing, economic/small business development and community services. Contacts noted that affordable, quality, housing is a need in the area as during the housing crisis many homes in the area that were in relatively good shape, were bought by investors and have since been flipped and price higher. This reduced the availability of affordable homes in low-income areas. Other needs identified included affordable housing, particularly for the elderly, workforce development, financial education for youth, micro-loans for small businesses and housing rehabilitation loans.

Contacts also noted that financial institutions could support the needs in the community by providing construction financing; supporting the development of affordable housing; and providing technical assistance to area small businesses.

## Scope of Evaluation in Kentucky

The Lexington CSA received a full-scope review. The CSA accounts for 84.5 percent of the bank's deposits and 77.7 percent of lending in the state. The remaining three AAs received limited-scope reviews. Performance in limited-scope AAs and its effect on the CRA rating are discussed at the end of each test.

## CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS IN KENTUCKY

## LENDING TEST

The bank's performance under the Lending Test in the state of Kentucky is rated High Satisfactory.

## Conclusions for Area Receiving a Full-Scope Review

Based on a full-scope review, the bank's performance in the Lexington CSA is good based on overall good lending levels and good geographic distribution of loans and excellent borrower distribution of loans.

## Lending Activity

Lending levels reflect good responsiveness to the credit needs in the bank's AA.
Examiners considered the number and amount of home mortgage, small business, small farm loans originated or purchased relative to Chase's capacity based on deposits, competition, and market presence. Lending activity for home mortgage and small loans to businesses received the most weight in reaching conclusions. Respectively, home mortgage lending and small loans to businesses account for 37.5 percent and 60.5 percent of the loan volume in the state by number and 80.4 percent and 17.7 percent of loan volume by dollar. Small farm lending is not a strategic focus of the bank and received minimal weight in reaching conclusions. Farm loans represented 2.0 percent of the loan volume in the state by number 1.9 percent loan volume by dollar.

| Number of Loans* |  |  |  |  |  |  |  |

| Total | 1023376 | 225311 | 23931 | 0 | 1272618 | 100 | 100 |

*The tables present the data for all assessment areas. The narrative below addresses performance in full-scope areas only.

Chase ranked first in deposits of 36 institutions with market share of 17.7 percent.
In overall HMDA lending, Chase ranked third with 5.0 percent market share placing. This is a highly competitive market with 368 mortgage lenders. No lender dominated the mortgage market. The top two lenders and their market share are University of Kentucky Federal Credit Union (6.4 percent) and Central Bank and Trust (5.7 percent).

In small loans to businesses, Chase ranked second with 16.8 percent market share out of 98 institutions. American Express National Bank led the market with 20.1 percent market share and PNC Bank, N.A. followed Chase with 7.4 percent of the market.

Chase ranked first in small loans to farms 29.23 percent market share. There are 18 lenders in the CSA. The other major lenders and their market are John Deere, Financial, F.S.B. (16.92 percent) and Central Bank and Trust (13.3 percent).

## Distribution of Loans by Income Level of the Geography

The bank exhibits a good geographic distribution of loans in its AA.

## Home Mortgage Loans

Refer to Table O in the state of Kentucky section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of home mortgage loan originations and purchases for this evaluation is good. The following information was taken into consideration when determining this rating.

- The limited proportion of housing units in low-income geographies, particularly OOUs (4.3 percent), constrained lending opportunities; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of OOUs in those geographies.
- The high level of competition in the AA (368 home mortgage lenders) was also considered and examiners placed greater significance on performance compared to the aggregate of lenders.
- Between 2017 and 2019, the proportion of loans in low-income areas was near to the proportion of OOUs in those geographies and the aggregate distribution of loans. The proportion of loans in moderate-income areas exceeded the proportion of OOUs in those geographies and near to the aggregate distribution of loans.
- The performance in low- and moderate-income geographies during the 2014 and 2016 time periods was inconsistent with 2017 to 2019. The proportion of loans in low-income geographies is well below the proportion of OOUs in those geographies and the aggregate distribution of loans. The proportion of loans in moderate-income geographies was below the proportion of OOUs and near to the aggregate distribution of loans.

## Small Loans to Businesses

Refer to Table Q in the state of Kentucky section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to businesses.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to businesses for this evaluation is good. The following information was taken into consideration when determining this rating.

- Between 2017 and 2019, the proportion of loans to small businesses in low- and moderate-income was near to the proportion of small businesses and well-below the aggregate distribution of loans.
- The performance in low- and moderate-income geographies during the 2014 and 2016 periods was consistent with 2017 to 2019. The proportion of loans to small businesses in low- and moderateincome was near to the proportion of small businesses and well-below the aggregate distribution of loans.

## Small Loans to Farms

Refer to Table S in the state of Kentucky section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to farms.

Based on the data in the tables and the following considerations, the bank's overall geographic distribution of small loans to farms is good. The following information was taken into consideration when determining this rating.

- The limited percentage of farms in low-income geographies (4.6 percent) constrained lending opportunities; therefore, performance in moderate-income geographies was given slightly more consideration due to the higher percentage of farms in those geographies.
- Between 2017 and 2019, the proportion of loans to small farms in low-income geographies exceeds both the proportion of farms in those geographies and the aggregate distribution of loans. The proportion of loans to small farms in moderate-income geographies was significantly below both the proportion of farms in those geographies and the aggregate distribution of loans.
- Performance in low- and moderate-income geographies during the 2014 to 2016 period was inconsistent with the performance during 2017 to 2019 period. Between 2014 and 2016, the proportion of loans to small farms in low-income geographies was well below the proportion of farms in those geographies and exceeded aggregate distribution of loans. The proportion of loans to small farms in moderate-income geographies was below the proportion of farms in those geographies and exceeded the aggregate distribution of loans.

## Lending Gap Analysis

A review of home mortgage loans, small loans to business, and small loans to farms including summary reports and AA maps did not identify any unexplained conspicuous lending gaps in the bank's activities.

## Distribution of Loans by Income Level of the Borrower

The bank exhibits an excellent distribution of loans among individuals of different income levels and business and farms of different sizes, given the product lines offered by the bank.

## Home Mortgage Loans

Refer to Table P in the state of Kentucky section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's home mortgage loan originations and purchases.

Based on the data in the tables and the following considerations, the bank's overall borrower distribution of home mortgage loan originations and purchases for this evaluation is excellent. The following information was taken into consideration when determining this rating.

- Profile data indicates that there are high levels of poverty in the AA, resulting in difficulty in lending to low-income families.
- Greater significance was placed on the performance against the aggregate distribution as well as the moderate-income borrower distribution.
- During 2017 to 2019, the proportion of loans to low- and moderate-income borrowers was near to the proportion of low- and moderate-income families in the AA and exceeded the aggregate distribution of loans.
- Performance in low- and moderate-income geographies between 2014 and 2016 was consistent with performance in 2017 to 2019. The proportion of loans to low- and moderate-income borrowers was near to the proportion of low- and moderate-income families in the AA and exceeded the aggregate distribution of loans.

## Small Loans to Businesses

Refer to Table R in the state of Kentucky section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's origination and purchase of small loans to businesses.

Based on the data in the tables and the following factors, the distribution of the bank's originations and purchases of small loans to businesses by revenue category is good. The following information was taken into consideration when determining this rating.

- Greater significance was placed on the aggregate performance.
- In all time periods, the bank's distribution of small loans to businesses with revenues of $\$ 1$ million or less was below the percentage of small businesses located in the AA and exceeded the aggregate distribution.

## Small Loans to Farms

Refer to Table T in the state of Kentucky section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's origination and purchase of small loans to farms.

Based on the data in the table and the following considerations, the distribution of the bank's originations and purchases of small loans to farms by revenue category is good. The following information was taken into consideration when determining this rating.

- Between 2017 and 2019, the bank's percentage of loans to farms with revenues of $\$ 1$ million or less was below the percentage of businesses and significantly exceeded the aggregate distribution.
- During 2014 to 2016, the bank's performance was consistent with performance between 2017 and 2019. The bank's percentage of loans to farms with revenues of $\$ 1$ million or less was below the percentage of businesses and significantly exceeded the aggregate distribution.

## Community Development Lending

The bank did not originate any CD loans during the evaluation period.
While the bank was unable to make any CD loans during the period, the bank continued to meet the needs of the low- and moderate-income individuals and geographies in Lexington CSA through qualified CD investments and service activities.

The Lending Activity Tables, shown above, set forth the information and data used to evaluate the bank's level of CD lending. These tables include all CD loans, including multifamily loans that also qualify as CD loans.

## Product Innovation and Flexibility

The bank makes extensive use of innovative and/or flexible lending practices to serve AA credit needs. As outlined below, a total of 1,724 loans were funded totaling $\$ 232.4$ million. Refer to the comments in the Product Innovation and Flexibility section of this performance evaluation for additional details regarding the programs.

| Loan Type | Number of <br> Loans | Dollar Amount <br> $\mathbf{( \$ 0 0 0 ' s )}$ |
| :--- | :---: | :---: |
| DreaMaker | 341 | 50,540 |
| FHA | 269 | 31,734 |
| HARP | 152 | 16,752 |
| VA | 171 | 32,507 |
| SBA | 30 | 4,944 |
| USDA | 761 | 95,919 |

## Conclusions for Areas Receiving Limited-Scope Reviews

Performance in the limited-scope AAs was factored into the state's overall High Satisfactory Lending Test rating and did not change the initial overall conclusions based on the AA receiving the full-scope review. Based on limited-scope reviews, the bank's performance under the Lending Test in the Bowling Green KY MSA, Owensboro KY MSA, and Kentucky Non-MSA is weaker than the bank's overall performance under the Lending Test in the full-scope area. This is primarily due to the weaker geographic distribution performance. Performance in the limited-scope areas did not affect the overall Lending Test rating for the state of Kentucky.

Refer to Tables O through T in the state of Kentucky section of appendix D for the facts and data that support these conclusions.

## INVESTMENT TEST

The bank's performance under the Investment Test in the state of Kentucky is rated Outstanding.

## Conclusions for Area Receiving a Full-Scope Review

Based on a full-scope review, the bank's performance in the Lexington CSA is excellent.

The bank has an excellent level of qualified CD investments and grants, but not in a leadership position, particularly those that are not routinely provided by private investors. The current and prior period qualified investments represent 14.2 percent of tier 1 capital allocated to the AA. A large majority ( 76.3 percent) of total investments represent current period investments.

The bank exhibits excellent responsiveness to credit and community economic development needs. All current and prior period investments are considered responsive to credit and community economic development needs such as affordable housing and community service. Nearly all the current period investments support affordable housing, which is an identified need in the community. Additionally, the bank made two grants totaling $\$ 119$ thousand to support community services. All prior period investments are LIHTC investments that support affordable housing.

The bank makes significant use of innovative and/or complex investments to support CD initiatives. One current period investment, which accounted for 57.5 percent of the total dollar amount of current investments is considered complex as it is a Direct Investment LIHTC transaction. Additionally, one prior period investment, which accounted for 40.1 percent of the total dollar amount of prior investments still outstanding, is considered complex as a Direct Investment LIHTC transaction.

| Statewide Investments with Purpose, Mandate, or Function (P/M/F) to Serve AAs | 27 | 23,123 | 1 | 45 | 28 | 22.95 | 23,168 | 17.99 | 0 | 0 |

Prior Period Investments' means investments made in a previous evaluation period that are outstanding as of the examination date.
Unfunded Commitments' means legally binding investment commitments that are tracked and recorded by the institution's financial reporting system.
Examples of CD Investments in the AA include:

- The bank made two investments totaling $\$ 1$ million in a LIHTC fund. This affordable housing property created 206 affordable units and was included in this fund's portfolio at the time of the bank's investment.
- The bank provided a $\$ 74,500$ grant to a community and technical college to support their relationship with a local high school. A college program was developed and enrolled approximately 125 students allowing them to spend time on the college campus interacting with students and faculty, participating in educational opportunities, and hearing presentations from academic and business leaders. Sixty-two percent of the student population is eligible for the Federal Free or Reduced Lunch Program in Jefferson County.
- The bank provided a $\$ 45,000$ grant to an organization for their economic empowerment project targeting low-income individuals in Fayette County. The organization collaborated with the community and technical college system to provide financial economic empowerment services such as financial education classes, credit building, Individual Development Accounts, micro-loans, and free tax preparation. The partnership enabled the expansion of its recognized economic empowerment project to serve students in a ready-to-work program that is designed to assist and support low-income parents.

## Statewide Investment in the State of Kentucky

The bank has 82 current and prior period investments with and without a $P / M / F$ to serve AAs in the state of Kentucky. These CD investments and grants primarily support affordable housing, with a few supporting community service, and one supporting revitalization/stabilization efforts. These investments enhanced the bank's performance in the state of Kentucky.

## Conclusions for Areas Receiving Limited-Scope Reviews

Based on limited-scope reviews, the bank's performance under the Investment Test in the Bowling Green MSA, Owensboro MSA and the combined Kentucky Non-Metro AA is consistent with the bank's overall excellent performance under the Investment Test in the full-scope area.

## SERVICE TEST

The bank's performance under the Service Test in state of Kentucky is rated High Satisfactory.

## Conclusions for Area Receiving a Full-Scope Review

Based on a full-scope review, the bank's performance in the Lexington CSA is good.

## Retail Banking Services

Service delivery systems are readily accessible to geographies and individuals of different income levels in the bank's full-scope AA.

Examiners evaluated the data as outlined in the Scope section at the front of this document including bank-provided data on usage of branches adjacent to low- and moderate-income geographies by individuals residing in those geographies and on increases in the usage of alternative delivery systems.

## Lexington CSA

Based on the data in the table below and performance context, the branch distribution is excellent. In low- and moderate-income geographies, the distribution is respectively near to and exceeds the percentage of the population. The bank had one branch in a low-income geography and four branches in moderate-income geographies. The distribution was augmented by two MUI tract branches that serve low-income tracts and four MUI tract branches that serve moderate-income tracts. Examiners reviewed data on the accounts held and transactions conducted at the MUI branches and confirmed they were serving the adjacent low- and moderate-income populations.

| Distribution of Branch Delivery System |  |  |  |  |  |  |  | As of December 31, 2019 |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | Deposits <br> \% of Rated <br> Area <br> Deposits in <br> AA | \# of <br> BANK <br> Branches | Branches |  |  |  |  | Population |  |  |  |
|  |  |  | \% of <br> Rated <br> Area <br> Branches <br> in AA | Location of Branches by Income of Geographies (\%) |  |  |  | \% of Population within Each Geography |  |  |  |
|  |  |  |  | Low | Mod | Mid | Upp | Low | Mod | Mid | Upp |
| Lexington CSA |  |  |  |  |  |  |  |  |  |  |  |
|  | 84.5 | 15 | 71.4 | 6.7 | 26.7 | 46.7 | 20.0 | 8.1 | 23.4 | 35.7 | 32.9 |

* May not add up to 100 percent due to geographies with unknown tract income level and rounding

Alternative delivery systems did not significantly enhance the delivery of banking services to geographies and individuals of all income levels. The OCC considered the availability and use of alternative delivery systems over the evaluation period. This included review of the bank's 31 deposittaking ATMs, online banking, mobile banking, and telephone banking to determine the effectiveness of
these systems to make retail banking services available to individuals in low- and moderate-income geographies. The bank decreased the deposit-taking ATMs in low- and moderate-income geographies from the prior rating period to two ( 6.5 percent) deposit-taking ATMs in low-income geographies and eleven ( 35.5 percent) ATMs in moderate-income geographies. However, bank-provided data on use of online, mobile, and telephone banking showed increases in the adoption of these services by low- and moderate-income individuals from the prior rating period.

| Distribution of Branch Openings/Closings |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment Area | \# of Branch Openings | \# of Branch Closings | Net change in Location of Branches (+ or -) |  |  |  |
|  |  |  | Low | Mod | Mid | Upp |
| Lexington, CSA | 0 | 3 | -1 | - | -1 | -1 |

The bank's opening and closing of branches has generally not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and/or to low- and moderateincome individuals. The bank closed one branch in a low-income geography and did not open or close any branches in moderate-income geographies. The branch closure was due to reduced customer usage and unprofitability. Despite the branch closure, branch locations remained accessible to geographies and individuals of different income levels in the bank's AA.

Services, including where appropriate, business hours, do not vary in a way that inconveniences, the AA, particularly low- and moderate-income geographies and/or individuals. Generally, branches are open Monday through Thursday from 9:00 am to 5:00 pm, Friday from 9:00 am to 6:00 pm and Saturday from 9:00 am to 1:00 pm. All retail banking services are available at all branches within the low- and moderate-income geographies.

## Community Development Services

The bank provides an adequate level of CD services.
Bank records show that employees provided technical assistance and/or job-specific expertise for 238 CD service activities to 10 organizations for a total of 819 qualified hours of service. All the bank's assistance was to organizations that provide community services to low- and moderate-income individuals and families. The services were responsive to the needs of the AA, particularly financial education. The following are examples of CD services provided in this AA:

- Three bank employees provided 27 hours of home ownership education benefitting 195 low- and moderate-income individuals. The employees provided information on mortgage products, services, and programs targeting low- and moderate-income homebuyers.
- Two bank employees provided 39 hours of financial literacy education benefitting 1,499 low- and moderate-income individuals. The employees provided personal finance education in savings methods, budgeting, consumer rights, and the value of money via an educational workshop.

## Conclusions for Areas Receiving Limited-Scope Reviews

Performance in the limited-scope AAs was factored into the state's overall High Satisfactory Service Test rating and did not significantly change the initial overall conclusions based on the AA receiving a full-scope review. Based on limited-scope reviews, the bank's performance under the Service Test in the Bowling Green-Glasgow, KY, Owensboro, KY, and KY non-MSA AAs is weaker than the bank's overall performance under the Service Test in the full-scope area. Weaker performance in the Bowling Green-Glasgow, KY and Owensboro, KY AAs is due to weaker branch distribution in low- and moderate-income geographies. For the KY non-MSA AA, the OCC based these conclusions on the provision of services to the AA in general, as there are no low- and moderate-income census tracts in the MSA.

## State Rating

## State of Louisiana

CRA rating for the State of Louisiana ${ }^{17}$ : Satisfactory
The Lending Test is rated: Low Satisfactory
The Investment Test is rated: High Satisfactory
The Service Test is rated: High Satisfactory
The major factors that support this rating include:

- A good level of lending activity.
- Adequate geographic distribution of home mortgage loans and small loans to businesses.
- Good borrower distribution of home mortgage loans and small loans to businesses.
- A low level of CD loans, which negatively affected the rating.
- The extensive use of innovative/flexible products, which positively affected the rating.
- A good level of qualified investments that displayed excellent responsiveness to credit and community economic development needs.
- The occasional use of innovative and/or complex investments to support CD initiatives.
- A good level of statewide investments.
- Retail service delivery systems that are readily accessible to geographies and individuals of different income levels.
- An adequate level of CD services that were responsive to AA needs.

## Description of Institution's Operations in Louisiana

The state of Louisiana is Chase's $10^{\text {th }}$ largest rating area based on deposits of $\$ 17.5$ billion, representing 1.3 percent of the bank's total deposits. As of December 31, 2019, the bank operated 119 branches and 346 deposit-taking ATMs within the rating area, representing 2.4 percent of total branches and 2.1 percent of total ATMs. The bank originated and purchased approximately $\$ 7.0$ billion in loans or 1.0 percent of total bank loan originations and purchases during the evaluation period in the state.

There were 128 institutions operating 1,435 offices in the state of Louisiana. Chase ranked second in deposit market share with 16.5 percent. The other major banks and their deposit market share are Capital One, N.A. (16.9 percent), Hancock Whitney Bank (12.7 percent), and Iberia Bank ( 8.4 percent).

The bank delineated nine AAs in Louisiana. The Baton Rouge MSA and Monroe-Ruston CSA, which combined account for 41 percent of the deposits and 23 percent of lending in the state, received fullscope reviews. The Alexandria MSA, Houma-Thibodaux MSA, Lafayette-Opelousas-Morgan City CSA, Lake Charles MSA, Louisiana Non-MSA (DeRidder), New Orleans-Metairie-Hammond CSA, and Shreveport-Bossier City MSA received limited-scope reviews. Refer to appendix A for a complete description of each AA.

## Baton Rouge MSA

The following table provides a summary of the demographics that includes housing and business information for the Baton Rouge MSA. Table A indicates that the volume of OOUs is small in lowincome census tracts ( 4.0 percent) and over 25.9 percent of families in the AA are low-income. The Baton Rouge MSA's cost of housing is generally affordable. The median housing value in the Baton Rouge MSA is 2.5 times the median income, three times the moderate-income, and five times the lowincome, indicating the proportion of OOUs that are affordable to low-income borrowers is more limited. One simplistic method used to determine housing affordability assumes a maximum monthly principal and interest payment of no more than 30 percent of the applicant's income.

In the Baton Rouge MSA, assuming a 30 -year mortgage with a five percent interest rate, three percent down payment, and accounting for homeowners insurance, real estate taxes, but no other monthly expenses, a low-income borrower making $\$ 32,797$ per year (or less than 50 percent of the FFIEC adjusted median family income in the MSA) could afford a $\$ 105,102$ mortgage with a payment of $\$ 984$ per month; a moderate-income borrower earning $\$ 52,450$ per year (or less than 80 percent of the FFIEC adjusted median family income in the AA) could afford a $\$ 198,796$ mortgage with a payment of $\$ 1,574$ per month.

Median rents and the percentage of families below poverty level suggest rental housing is also unaffordable for some low-income residents.

## Economic Data

According to Moody's Analytics January 2020 Report, payrolls in the Baton Rouge area are rising rapidly after a year of almost zero growth. The construction industry is a major driver of this growth, with new industrial projects lifting demand for contractors. The uptick in net hiring has spurred workers to re-enter the labor force, which is now expanding for the first time since early 2018. The unemployment rate has risen since the summer, but labor force expansion is to blame rather than layoffs. Unfortunately, most new jobs pay low wages, slowing income growth. Moody's identifies several strengths in the area including low business costs; high housing affordability; and the presence of a large research university that is a source of stable employment. An expanding chemical manufacturing industry will be the predominant positive force in the area's economy over the next few years. Many new chemical plants are opening across the state to take advantage of cheap natural gas feedstock, pipeline access, and proximity to shipping routes for export. Baton Rouge will reap rewards from new investment given that several companies including Methanex, ExxonMobil, and Shell have announced significant investments for the construction of new facilities, creating a boost for the construction industry. Major employment sectors in the area include construction, education and health services, and government. The area's major employers include Turner Industries Group LLC (a construction engineering company); Louisiana State University; Performance Contractors; and Our Lady of the Lake Regional Medical Center. Net hiring in the area has been fast enough to spur increased demand in the housing market. House price gains accelerated in 2019.

## Community Contacts

Three community contacts completed during the examination period with organizations and entities serving the community were reviewed to ascertain community credit needs. The organizations contacted focus on activities such small business as well as community and economic development. Contacts noted that the area is currently experiencing a boom in housing construction and several contractors are in the area. This increase in construction and renovation is partly due to the flooding that occurred in 2017 due to the hurricanes. The area is also seeing an increase in the manufacturing and retail sectors. Contacts indicated that there are opportunities available for bank involvement. While banks are providing donations to local organizations, financial education is a greater need. Banks could become more involved by providing face-to-face training on credit awareness, small business consulting, and entrepreneurial education. Other banking and credit needs include:

- Financial education
- Low-income housing
- Business lines of credit
- Startup/expansion business loans
- Refinance business loans

## Monroe-Ruston CSA

The following table provides a summary of the demographics that includes housing and business information for the Monroe-Ruston CSA. Table A indicates that the volume of OOUs is smaller in lowand moderate-income census tracts ( 8.5 and 11.5 percent) than in MUI geographies. and over 26.9 percent of families in the AA are low-income. The Monroe-Ruston CSA's cost of housing is generally affordable. The median housing value in the Monroe-Ruston CSA is two times the median income, three times the moderate-income, and five times the low-income, indicating the proportion of OOUs that are affordable to low-income borrowers is more limited. One simplistic method used to determine
housing affordability assumes a maximum monthly principal and interest payment of no more than 30 percent of the applicant's income.

In the Monroe-Ruston CSA, assuming a 30-year mortgage with a five percent interest rate, three percent down payment, and accounting for homeowners insurance, real estate taxes, but no other monthly expenses, a low-income borrower making $\$ 24,087$ per year (or less than 50 percent of the FFIEC adjusted median family income in the MSA) could afford a $\$ 63,574$ mortgage with a payment of $\$ 723$ per month; a moderate-income borrower earning $\$ 38,538$ per year (or less than 80 percent of the FFIEC adjusted median family income in the AA) could afford a $\$ 164,174$ mortgage with a payment of $\$ 1,156$ per month.

Median rents and the percentage of families below poverty level (19.5 percent) suggest rental housing is also unaffordable for some low-income residents.

## Economic Data

According to Moody's Analytics January 2020 Report, the area economy is in trouble. Nonfarm employment fell throughout 2019. Between mid-2018 and 2019, employment fell by about 1.5 percent. Employment declines are widespread, with about 70 percent of industries currently trimming payrolls. Most of the recent job losses have been high-paying positions. The population is declining in the area. The area has a low-per capita income and below average educational attainment. Despite recent investment in manufacturing, the industry will not be a source of new jobs. Manufacturing in Monroe is concentrated in paper production and poultry processing and neither segment is poised for an immediate turnaround. Weak demographics along with poor income growth has led to a decline in demand for consumer services. Retail is already shedding staff, and employment in leisure/hospitality is flat. Total income is rising more slowly than inflation, limiting household spending. Major employment industries include education and health services; retail trade; and government. Major employers in the area include Centurylink; Foster Farms; St. Francis Specialty Hospital, Inc., and JP Morgan Chase. Poor labor market outcomes have reduced housing demand. House prices have fallen since midyear, more than erasing gains made in early 2019.

## Community Contacts

Two community contacts completed during the examination period with organizations and entities serving the community were reviewed to ascertain community credit needs. The organizations contacted focus on activities such as small business as well as community and economic development. Contacts indicated that there was a need to develop more affordable multi-family housing for low-income residents in the area. The area is also in need of small business incubators to provide workshops, seminars, classes, advice, and financial options to new and existing small businesses. There are opportunities for participation by local financial institutions to support area needs, including developing partnerships with area non-profits. Contacts also indicated that there was a need to repurpose vacant and abandoned commercial properties. Other identified needs in the area include:

- Workforce development training to align skills with employer needs
- Small dollar loans/micro-lending to small business owners
- Support for programs to promote entrepreneurship for low-income individuals

## Scope of Evaluation in Louisiana

The Baton Rouge MSA and Monroe-Ruston CSA received full-scope reviews. The two areas account for 41 percent of the deposits and 23 percent of the lending in the state. More weight was placed on performance in the Baton Rouge MSA based on the bank's higher level of deposits and lending. These AAs were selected as they had not received a full-scope review in recent performance evaluations. The remaining seven AAs in the state of Louisiana received limited-scope reviews. Performance in limited-scope AAs and its effect on the CRA rating are discussed at the end of each test.

## CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS IN LOUISIANA

## LENDING TEST

The bank's performance under the Lending Test in the state of Louisiana is rated Low Satisfactory.

Performance in AAs receiving limited-scope reviews was factored together with performance from AAs receiving full-scope reviews to determine the state's overall Low Satisfactory Lending Test rating. Limited-scope conclusions did not significantly affect the initial overall conclusions based on the AAs receiving full-scope review.

## Conclusions for Areas Receiving a Full-Scope Review

Based on full-scope reviews, the bank's performance in the Baton Rouge MSA and MonroeRuston CSA is adequate. Overall good lending levels and good borrower distribution of loans offset adequate geographic distribution of loans, and a low level of CD lending. In addition, product innovation and flexibility were considered favorably.

## Lending Activity

Lending levels reflect good responsiveness to the credit needs in the bank's AAs.
Examiners considered the number and amount of home mortgage, small business, and small farm loans originated or purchased relative to Chase's capacity based on deposits, competition, and market presence. Lending activity for home mortgage and small loans to businesses received the most weight in reaching conclusions. Respectively, home mortgage lending and small loans to businesses account for 27.9 percent and 71.1 percent of the loan volume in the state by number and 68.2 and 28.0 percent of loan volume by dollar. Small farm lending is not a strategic focus of the bank and received minimal weight in reaching conclusions. Farm loans represented 0.83 percent of the loan volume in the state by number and 0.32 percent loan volume by dollar.
