Re: Request for Information from Annual Appropriation Committee Hearing

ID#: 84-01

The attached information is in response to questions posed by Alderman Hairston at CDOT's hearing on October 20th to discuss the proposed 2017 budget.

Alderman Tunney asked: How much has been collected to date for dumpster permits and who is responsible if there is damage to curbs and sidewalks?

Dumpster permits are issued based on location and duration. Anytime a dumpster is to be placed in the public way, the City of Chicago requires a permit to be obtained for the duration the dumpster will occupy the street or alley. The permit has a fee range of \$50-\$400 per dumpster depending on size, location and length of time. Central Business District permits are double the price of a Non- Central Business District permit. As of October 31, 2016 we have collected \$701,037.28.

CDOT does not require a description of use for a dumpster application. A typical use of a dumpster is for road construction debris, building debris, street sweeping debris and typical house cleaning activity. If there is damage to the site where a dumpster is located, the permittee is responsible for the damage if witnessed by the inspector.
