

ARBOVIRAL SURVEILLANCE REPORT

September 25, 2023

SURVEILLANCE

This report provides data on Week 38 of surveillance for West Nile virus (WNV) in mosquitoes and includes data on other surveillance indicators. Gravid traps are placed throughout the City of Chicago and monitored twice a week for the duration of the mosquito-breeding season. For this reporting period, there were four (4) WNV positive mosquito pools.
