

HOW TO COMPLY WITH THE C&D RECYCLING LAW

Step 1
Pick up required forms when you pick up a demo or building permit at DCAP

Step 2
Identify materials that will be generated

Step 3
Determine on-site storage and container needs

Step 4
Contact a hauler and/or recycler that can take the materials

Step 5
Separate materials into dedicated containers on site

or
Arrange for recycler pickup and separation of mixed material

Step 6
Keep track of types & amounts of debris on the compliance form

Step 7
Have haulers and/or recyclers sign affidavits and keep all documentation (such as weight tickets & receipts)

Step 8
Return completed forms to DOE at DCAP and proceed to the Buildings Dept. for your Certificate of Occupancy

Note: Forms are due within 30 days of project completion. If you have any overdue forms, future permits may be withheld until all outstanding forms are returned.

Who: General contractors and demolition contractors on the following projects:

- Residential buildings with 4 or more units
- Non-residential buildings with more than 4000 sq. ft.
- Building rehabilitations that will require a Certificate of Occupancy from the Department of Buildings

WHAT: Uncontaminated, non-hazardous construction & demolition debris, such as:

- Concrete, asphalt, & masonry
- Wood materials
- Drywall
- Scrap metal
- Clean soil
- Landscape debris

WHERE:

- Sort on site and have hauled to a recycler
- Or hire a recycler that will take mixed material & sort it for you

WHEN: Starting with permits applied for March 1, 2006

WHY:

- It's required by City Ordinance
- It's good for business
- It's good for the environment!

CONSTRUCTION & DEMOLITION DEBRIS RECYCLING

RECYCLE LIKE THIS ...

CONSTRUCTION AND DEMOLITION SITES GENERATE A GREAT DEAL OF WASTE. A LARGE PERCENTAGE OF THIS MATERIAL CAN EASILY BE RECYCLED OR REUSED.

**For 2007
City of Chicago ordinance
requires 50% recycling**

City of Chicago
Richard M. Daley
Mayor

Richard L. Rodriguez
Executive Director

Sadhu Johnston
Commissioner

Michael J. Picardi
Commissioner

City Council passed a new ordinance to increase the amount of construction and demolition (“C&D”) debris that is recycled in Chicago. The new ordinance can be found at section 11-4-1905 of the Chicago Municipal Code.

Starting in 2007, contractors must recycle **50%** of the C&D debris produced on a job site.

To learn more about C&D recycling, visit the Chicago Department of Environment website at:

www.cityofchicago.org/environment

or call 312-744-7672 or 311

CONSTRUCTION & DEMOLITION DEBRIS RECYCLERS IN THE CHICAGOLAND AREA

WILL ACCEPT MIXED MATERIALS

North

BFI
5050 W. Lake St.
Melrose Park
(708) 345-7050
