Justification for Non-Competitive Procurement Worksheet

PROCUREMENT HISTORY

1. Describe the requirement and how it evolved from initial planning to its present status.

Nulinx International, Inc. provides the Child Outcome Planning and Administration (COPA) software application to the Department of Family and Support Services (DFSS) Children Services Division. DFSS first entered into a contract with Nulinx International, Inc. on June 1, 2004 under PO 6780. This contract was awarded to correct the final area of non-compliance for the City of Chicago's Head Start Program. The initial contract was procured as an emergency contract when it was realized that reconfiguring the tracking database in use at the time (the Head Start Eligibility Verification database) was taking longer than expected. Nulinx was identified with the assistance of Business Information Systems (now known as the Department of Innovation and Technology (DoIT)) as the only source which would meet all of our tracking needs for family and child data in addition to eligibility and enrollment. This functionality was important because it ties directly to DFSS' ability to reimburse its delegate agency service providers accurately and in a timely manner. These functions were and are still managed by Nulinx's COPA program.

Subsequently, it was also determined that Nulinx was the most cost efficient vendor to produce customized reports mandated by Head Start's grantor, the United States Department of Health and Human Services (HHS). Later, DFSS was able to also add to its COPA system allowing us to better manage our Illinois Department of Human Services (IDHS) Child Care grant's attendance tracking and billing functions. Over time, even more functions and features have been incorporated into the COPA platform, leading to the creation of a truly one of a kind data management tool that has become an integral part of DFSS's management of its Head Start and Child Care grants.

DFSS' current highly customized version of COPA is vital and unique because of the size of our Head Start grant and the complexity created by managing two child care programs in one database. The City of Chicago's Head Start program is one of the largest single operating Head Start grants in the country and our IDHS Childcare program serves an additional 1,400 children. As such, we track over 20,000 children and associated case files using the COPA system on a daily basis.

Effective July 1, 2017, DFSS will take over the responsibility and oversight for 15,000-20,000 children from the CPS Community Based Partnership Program and this system design will help us track data for 15,000 children participating in the CPS school-based programs.

Initially, DoIT and DFSS had hoped to transition COPA from Nulinx to Adsystem's ECM solution by 2018. In 2016, DFSS and DoIT worked with AdSysTech as an existing City of Chicago technology vendor to build an online application for preschool enrollment to help fulfill Mayor Rahm Emanuel's second term transition priorities to streamline the preschool enrollment process for families. After building and launching the system, it became clear that AdSysTech was not able to meet our long-term needs for enrollment and program management of the early childhood system in Chicago with their Enterprise Case Management (ECM) software licensed by the City of Chicago. There were three major issues that we addressed with Adsystem after the launch of the application in Spring/Summer of 2016, which included:

A) The usability of the system: the family portal that was open to the public was very difficult to navigate. We received a high number of complaints and support calls from parents that were unable to make their way through the system. In addition, a key component of the execution strategy was the availability of "application assistants" who were trained to help families support the application. The technology was so difficult to use that the efficacy of this role was severely limited and we did not see a rise in the accessibility of the application process that we anticipated.

B) The integration with other existing data systems: In order for the application system to function for our school and community-based preschool programs, it must be aligned and integrated into the other existing databases used for program monitoring and management. This was a significant challenge for Adsystem, and we were assured that this

**DEPARTMENT OF PROCUREMENT SERVICES
NON-COMPETITIVE REVIEW BOARD (NCRB) APPLICATION
JUSTIFICATION FOR NON-COMPETITIVE PROCUREMENT WORKSHEET**

issue could not be adequately fixed as we headed into the redevelopment for the 2017 application process.

C) Extracting usable data: In order to have a data-driven policy development process and to adequately evaluate our on the ground recruitment efforts, we need to receive timely, consistent, and reliable data from the application system. This was a significant issue in the first year of implementation. Our staff working on the system often had to spend days or weeks cleaning up and checking reports from ECM in order to provide the data to inform our marketing, outreach, and slot allocation distribution across the City.

After extensive deliberation with AdSysTech, DoIT, and the program management teams responsible for the application, we decided to maintain COPA and use the system's newly developed parent portal to replace the ECM parent application that was not working for Chicago's programming.

Due to our collaborative partnership with Nulinx, COPA is a sophisticated and flexible tool that will allow DFSS maintain a parent portal, run a variety of reports and manipulate data to help us make data-driven decisions.

2. Is this a first time requirement or a continuation of previous procurement from the same source?

This is a continuation of services. A contract (PO 34352) was recently awarded on January 25, 2017 for the term January 27, 2017 to January 26, 2018 with a one year renewal period. This contract was approved by the city as a non-competitive procurement on January 6, 2016.

The Department of Family and Support Services (DFSS) is requesting a vendor limit increase and approval to exercise the one year renewal period.

The vendor limit increase is to cover services for the renewal period January 27, 2018 to January 28, 2019 plus additional work that needs to be done to create the portal that is part of the Mayor's 2015 Second Term Priorities.

When DFSS met with the NCRB in 2015, we had initially planned to only continue COPA through 2018 while we transitioned to Asystech's Enterprise Case Management (ECM) solution with Adsystech, Inc. (PO 20935). This past summer, AdSysTech was supposed to deliver phase 1 of the parent portal. Unfortunately, there were many problems with the solution and some parents had to use paper applications. Additionally, the project came in over budget and key deliverables were not provided. Given the importance of this project to the City's federal and state funding and for parent access to our early childhood programming, it was determined that ECM was not the appropriate solution for Phase 2 of the parent portal.

Nulinx is able to launch the parent portal for the Universal Application by July 1, 2017 for the fall school year and provide the functionality that we need.

While not awarding this contract is possible, it would place the Head Start, Child Care and CPS programs in jeopardy with our grantors as we would not be able to collect family and child data, reimburse our delegate agency providers and report on outcomes. Additionally, based on the complexity of our needs, and the customization of COPA, the system cannot be readily duplicated.

DFSS and DoIT are focused on implementing the Universal Preschool Application and will work together to develop the appropriate IT solution for 2019. However, given the amount of work that needs to be done to take over the CPS delegate agencies and complete the Universal Application, the team is focused on the immediate project steps.

3. Explain attempts made to competitively bid the requirement.

DFSS began working with DoIT in 2015 to determine if the City's ECM solution was appropriate to manage the Head Start and Child Care program data. DFSS initially planned to participate in a POC process to determine if ECM was acceptable. However, in January 2016 the plan to do a POC was changed and a decision was made to move forward with ECM for developing the Early Learning Portal. From January 2016 to December 2016, DFSS and DoIT worked very hard to try and make the relationship with Adsystech work. However, in the end, the company was not able to deliver the project on time, within budget and with the appropriate deliverables. DFSS had to develop numerous work arounds and a maintain paper process for the 2016 enrollment process.

**DEPARTMENT OF PROCUREMENT SERVICES
NON-COMPETITIVE REVIEW BOARD (NCRB) APPLICATION
JUSTIFICATION FOR NON-COMPETITIVE PROCUREMENT WORKSHEET**

In January 2017, the decision was made by DFSS and DoIT to not proceed with ECM due to the system limitations and previous year's concerns. At the same time, Nulinx contacted the city and suggested that the company's parent portal could work as a solution for DFSS. It was determined that enhancements to the current COPA system would work as a feasible and timely solution while a longer term solution is determined.

4. Describe all research done to find other sources.

The previous contract with Nulinx International, Inc. was awarded through a non-competitive process. DFSS is working with DoIT to determine the most optimal solution to manage the child and family data without having a gap in service delivery.

5. Explain future procurement objectives. Is this a one-time request or will future requests be made for doing business with the same source?

A contract amendment is needed so that DFSS can continue to pay the current vendor for services in 2018. In order to have the time to support a competitive process for selecting a future technology solution given the comprehensive nature of the required grant management, we would like to sustain utilization of the COPA system through FY18. This will ensure that we have the time to thoughtfully review our needs and perform a competitive procurement.

6. Explain whether or not future competitive bidding is possible? If not, why?

DFSS will work with DPS and DoIT to draft requirements for a new RFP to purchase a system for our Early Learning Head Start, State Early Childhood Block Grant and Child Care data management services. However, time is needed to launch Phase 2 of the application, onboard the new CPS agencies and develop the RFP specifications. During the planning phases, access to COPA is still needed to handle reporting and program data to ensure we can keep the grant. Without access to the system, DFSS will not be able to complete basic tasks, including enrolling students, paying delegate agency service providers, tracking child and family data and running reports.

ESTIMATED COST

What is the estimated cost for this requirement?

For 2017, the cost will be increased from \$579,600 to \$887,600. \$579,600 was previously approved by the NCRB for FY17. The additional \$308,000 will support the rollout of the 2017 parent portal and the additional 20,000 children and families that will need to be enrolled in the system as a result of the CPS consolidation project. This is a 100% increase from the current number of children and families DFSS currently supports.

DFSS will use funds from its Head Start, Child Care and CPS grant money given that the primary purpose of COPA is to manage Head Start and early learning information. During this time, Nulinx will not only implement the parent portal/universal application, but also continue to provide data tracking and reporting functions, eligibility, attendance, assessment, assessment outcomes, health, disability goals, visits, child and family service provision, and state, federal and local reporting. COPA also will continue to provide human resource professional development tracking, e-mail reminders and calendar tasks and other resource management features.

For 2018, the cost of the subscription and maintenance of COPA and the parent portal will be \$1,011,200. The increase will support a full year of services described above.

2. What is the estimated cost by fiscal year?

The estimated cost for fiscal year 2017 will be increased to \$887,600 after the VLI of \$308,000.

**DEPARTMENT OF PROCUREMENT SERVICES
NON-COMPETITIVE REVIEW BOARD (NCRB) APPLICATION
JUSTIFICATION FOR NON-COMPETITIVE PROCUREMENT WORKSHEET**

The estimated cost for fiscal year 2018 is \$1,011,200.

3. Explain the basis for estimating the cost and what assumptions were made and/or used.

Due to the implementation of the parent portal, system enhancements are needed to support the universal application, and integration with other data sources. Additional fees are needed broaden the scope of work given that we are potentially increasing the number of families we serve from 21,000 to up to 50,000. We anticipate the usage on the system will double with the addition of new DFSS staff, delegate sites and families. Likewise, it is only natural that our costs for these services would increase. While we expect over a 100% percent increase in the number of children and families we will serve, the cost of services will only increase approximately by 74%.

4. Explain whether the proposed Contractor or the City has substantial dollar investment in original design, tooling or other factors which would be duplicated at City expense if another source was considered

Nulinx has provided services to DFSS's Children Services Division since June 1, 2004. While the system was initially purchased as an off-the-shelf system, the City has invested significant time and money in the customization of COPA. These customizations allow DFSS to maintain compliance with its Head Start and Child Care grants, as well as manage the caseloads and reporting requirements. Nulinx has worked with DFSS to create a system that is based around our specific needs and requirements. Before another system can be selected to provide program management and reporting services, our specific requirements need to be drafted, the system needs to be configured and tested and DFSS staff along with our delegate agencies will need time to transition from the COPA system to a new system.

5. Explain what negotiation of price has occurred or will occur?

DFSS has been in negotiations with Nulinx since February 2017 to discuss the most cost effective way to on board the additional 300 delegate agency sites and approximately 20,000 to 30,000 new children and families. Nulinx was very willing to negotiate its pricing and provide the reporting components at reduced rates. Additionally, given the cost for services we paid in 2016 with ECM, the current prices for Nulinx are very reasonable.

SCHEDULE REQUIREMENTS

1. Explain how the schedule was developed and what point the specific dates were known.

DFSS held a meeting with Commissioner Berman in March 2015. As a result of that meeting, DFSS staff was tasked to work with DoIT to set-up demonstrations of the ECM system by the end of March. The intention was to have Adsystem Inc. schedule a demonstration of the system with an agency that currently uses ECM for Early Childhood and Childcare Programs. The Community Action Partnership of Lake County was selected by Adsystem to present their ECM solution. Due to scheduling conflicts, the demonstration was rescheduled several times between March and July. The demonstration was finally held on July 7, 2015 at DFSS.

Based on the information that was provided in the demonstration, DFSS agreed to proceed with engaging Adsystem Inc. to develop a Proof of Concept (POC). In January 2016, the decision was made to not proceed with the POC and use ECM as the solution for the early learning program. Unfortunately, by December 2016, it was clear to DoIT and DFSS that ECM was not the appropriate solution due to the solution's limited capacity, project delays and unmet deliverables. It was agreed by DoIT and DFSS that we should continue with COPA as the solution for the 2017 – 2018 program year.

In order to achieve the necessary launch timeframe for the 2017-18 program year, we are requesting the ability to contract with COPA for the development of our second year of the online application. This will ensure that we can have our staff trained on the new functionality in time for the early summer launch. In order to have the time to support a competitive process for selecting a future technology vendor, we would like to sustain utilization of the COPA system through FY18. This will ensure that we have the time to thoughtfully perform a competitive procurement for the future.

We intend to begin a competitive bid process for a program management tool that can meet the evolving needs of our overall early childhood program, including bridging the information technology systems across various settings in

**DEPARTMENT OF PROCUREMENT SERVICES
NON-COMPETITIVE REVIEW BOARD (NCRB) APPLICATION
JUSTIFICATION FOR NON-COMPETITIVE PROCUREMENT WORKSHEET**

which our services are delivered (center-based child care, faith-based providers, schools, and family child care). This competitive process will include:

- A full internal analysis on the needs of a technology system in our new model of early childhood implementation, including universal full-day preschool
- Interviews with stakeholders from a variety of perspectives to help define the comprehensive suite of services needed from the new information technology system for managing the new program
- Development of a comprehensive set of requirements for an RFP that encompasses the full early childhood landscape needs

Finally, we intend to begin this process this fall, after the launch of the universal online application, to complete the necessary requirements with enough time to have a decision made prior to the launch of the application for the 2019-20 school year.

2. Is lack of drawings and/or specifications a constraining factor to competitive bidding?

This request does not require drawings or specifications.

3. Outline the required schedule by delivery or completion dates and explain the reason why the schedule is critical.

Below is an outline of the current implementation schedule

- a. Onboard new CPS agencies – March – July 2017
- b. Launch the parent portal/universal application – July – September 2017
- c. Ensure all staff, parents and delegate agencies are properly trained on the system – August – September 2017
- d. Draft scope for new RFP – Starting November 2017

The system updates will need to be completed by July to meet the Fall enrollment schedule for schools.

4. Describe in detail what impact delays for competitive bidding would have on City operations, programs, costs and budgeted funds.

We are requesting a contract amendment and VLI in order to launch the Phase 2 online application and continue services through FY18. By the fall of 2017, we will begin developing a RFP for competitive bidding.

Operating our Head Start, Child Care and Community Partnership programs without access to COPA would be detrimental to DFSS. Our ability to efficiently and effectively operate our Head Start, Child Care and CPS grants would be jeopardized and it would impede our ability to process vouchers for services to these delegate agency providers. In addition, we would be placed out of compliance with our funders and risk losing future funding. Currently, our Head Start grant with the U.S. Department of Health and Human Services is one of the largest grants the City receives, at approximately \$130,000,000 annually.

EXCLUSIVE OR UNIQUE CAPABILITY

1. If contemplating hiring a person or firm as a Professional Service Consultant, explain in detail what professional skills, expertise, qualifications, and/or other factors make this person or firm exclusively or uniquely qualified for the project. Attach a copy of the cost proposal, scope of services, and Temporary Consulting Services Form.

Not applicable.

2. Does the proposed firm have personnel considered unquestionably predominant in the particular field?

Nulinx International, Inc. is the developer, sole proprietor and operator of the COPA system. As such, their personnel

**DEPARTMENT OF PROCUREMENT SERVICES
NON-COMPETITIVE REVIEW BOARD (NCRB) APPLICATION
JUSTIFICATION FOR NON-COMPETITIVE PROCUREMENT WORKSHEET**

is highly skilled and well-trained in working with this unique system and in this field.

3. What prior experiences of a highly specialized nature does the person or firm exclusively possess that is vital to the job, project or program?

Nulinx International, Inc. is the developer, sole proprietor and operator of the COPA system. There are not other providers of COPA. While there are other providers who provide similar services (as determined by Head Start regulations), none of them provide the COPA system itself. Additionally, Nulinx International is the only organization in the country providing combined Head Start and Child Care tracking and reporting in combination with site monitoring, work flow process, and integrated billing and reimbursement functions under one platform. This alone makes COPA a unique system.

4. What technical facilities or test equipment does the person or firm exclusively possess of a highly specialized nature which is vital to the job?

Not applicable.

5. What other capabilities and/or capacity does the proposed firm possess which is necessary for the specific job, project or program which makes them the only source who can perform the work within the required time schedule without unreasonable costs to the City?

As the only provider of the COPA system, Nulinx is considered a unique and predominant leader in the child outcomes, assessment and reporting field. In addition, Nulinx has uniquely customized this application to DFSS to allow us to meet the needs of our funders and process large volumes of information. The system is able to process over 50,000 individual case files and provides significant reporting and monitoring capabilities based on the data that is entered. Based on our current requirements, it will take some time to develop the requirements for a new system that is as robust as COPA. Additionally, DFSS's experience with Nulinx has only been positive.

6. If procuring products or equipment, describe the intended use and explain any exclusive or unique capabilities, features and/or functions the items have which no other brands or models, possess. Is compatibility with existing equipment critical from an operational standpoint? If so, provide detailed explanation?

Not applicable.

7. Is competition precluded because of the existence of patent rights, copyrights, trade secrets, technical data, or other proprietary data (attach documentation verifying such)?

Nulinx's COPA system uses proprietary software. However, DFSS would a vendor limit increase and one year contract extension to develop system requirements and determine if other system solutions are available while we implement phase 2 of the online application.

8. If procuring replacement parts and/or maintenance services, explain whether or not replacement parts and/or services can be obtained from any other sources? If not, is the proposed firm the only authorized or exclusive dealer/distributor and/or service center? If so, attach letter from manufacturer on company letterhead.

Not applicable.

OTHER

1. M/WBE Compliance Plan - Nulinx has submitted a request for a waiver to DFSS. This is included in the submission.

2. The following documents are being submitted for reference:

- a. Nulinx Scope of Services
- b. Proposed Budget for 2017 VLI and 2018 Cost of COPA Services
- c. Insurance Certificate
- d. Proof of EDS
- e. Applicable Grant Agreements

MEMORANDUM

Department of Family and Support Services

Subject: 1 Year Contract
Vendor: Nulinx International, Inc.
Purchase Order: 34352
Specification: 134993
Requisition Number: 161620

Date: April 24, 2017

The Department of Family and Support Services (DFSS) is requesting a one year contract extension from January 27, 2018 to January 26, 2019 and vendor limit increase of \$1,319,200 for the COPA system with Nulinx International, Inc. (PO 34352) for our Children Services Division.

In 2016, the City of Chicago worked with AdSysTech as an existing City of Chicago technology vendor (PO 20935), to build an online application for preschool enrollment to help fulfill Mayor Rahm Emanuel's second term transition priorities to streamline the preschool enrollment process for families across the city¹. After building and launching the system, it became clear that AdSysTech was not able to meet our long-term needs for enrollment and program management of the early childhood system in Chicago with their Enterprise Case Management (ECM) software licensed by the City of Chicago. There were three major issues that we addressed with AdSysTech after the launch of the application in Spring/Summer of 2016, which included:

1. The usability of the system: The family portal that was open to the public was very difficult to navigate. We received a high number of complaints and support calls from parents that were unable to make their way through the system. In addition, a key component of the execution strategy was the availability of

“application assistants” who were trained to help families support the application. The technology was so difficult to use that the efficacy of this role was severely limited and we did not see a rise in the accessibility of the application process that we anticipated.

2. The integration with other existing data systems: In order for the application system to function for our school and community-based preschool programs, it must be aligned and integrated into the other existing databases used for program monitoring and management. This was a significant challenge for AdSysTech, and we were informed that this issue could not be adequately fixed as we headed into the redevelopment for the 2017 application process.
3. Extracting usable data: In order to have a data-driven policy development process and to adequately evaluate our on the ground recruitment efforts, we need to receive timely, consistent, and reliable data from the application system. This was a significant issue in the first year of implementation. Our staff working on the system often had to spend days or weeks cleaning up and checking reports from ECM in order to provide the data to inform our marketing, outreach, and slot allocation distribution across the City.

After extensive deliberation with AdSysTech, the Department of Innovation and Technology, and the program management teams responsible for the application, we determined that our current provider, Nulinx, was developing a parent portal to use with their COPA database system. Through extensive conversations and collaboration, it appears that this solution will help DFSS achieve the goals of the online application set forth by the Mayor in his second term. It will also help DFSS overcome the challenges that made the ECM system ineffective for Chicago’s preschool enrollment process.

On July 1, 2017, 104 community-based partners that contract with the Chicago Public Schools will become delegate agencies through DFSS. This is another step towards achieving the consolidated early learning application process. The vendor limit increase will support the additional services with developing the application and ongoing maintenance for 2018. The COPA system manages our \$145 million Early Childhood and Child Care Assistance Program grants plus the \$60 million grant from CPS for the Community Partnership Program. It is a risk to DFSS and the city if this system is not in place as it could jeopardize our super grantee status.

A DPS Project Checklist and supporting documents are included to the submission packet to the NCRB board on April 4, 3016.

If you should have any questions, please feel free to contact Brandie Knazze at 312-743-0155.

Re: Sole Source Provider

Dear Ms. Knazze,

COPA software is a proprietary software that has been developed exclusively by Nulinx International Inc. and it has been in use by more than 4000 users of Chicago's DFSS since 2004 and is being offered to a much larger pool of public schools and community based users across the City.

Over the last 12 years, COPA has been extensively enhanced and customized based on needs and requirements of the City and Department of Family and Support Services. This highly customized version of COPA is a unique solution with the complexity to manage multiple Federally, State and locally funded child care programs in one database.

In addition, COPA is in the forefront of the Early Childhood Education centralized application process, a Mayor Rahm Emanuel's *Chicago: Ready to Learn!* Initiative, and is further enhanced to help manage resources of CPS and the Department of Family and Support Services (DFSS) under one early education system. COPA will be used by programs across the city, expanding access to schools and community based organizations for improving the quality of early childhood programs' reporting, monitoring and data collection.

COPA's implementation of Chicago's unique parent facing universal application, enables families to seek services across the City and empowers providers to offer services to their full enrollment capacity.

No other readily available software solution in the market provides such comprehensive, specific and customized set of features. That makes COPA uniquely qualified as a sole source provider.

Subject: Information Technology Governance Board Approval – Nulinx International
Modification Number: 161620
PO: 34352

Date: March 30, 2017

I concur with the Department of Family and Support Services' (DFSS) request to extend the current Nulinx contract (PO 34352) for one year and increase the scope of the contract to include delivery of the parent portal for 2017. After working with AdSysTech in 2016 to deliver phase 1 of the project, it was determined that the AdSysTech does not have the capacity to further develop, maintain, and provide the requisite data integration needed with the parent portal. Nulinx will be able to deliver the services DFSS requires.

I find that this request is compliant with the guidelines for the City's technical environment and IT policies.

Re: MBE/WBE waiver

Dear Ms. Knazze,

We would like to extend our gratitude for the opportunity granted to Nulinx International Inc. to provide COPA software to the City of Chicago and Department of Family and Support Services (DFSS). Due to the nature of Nulinx's COPA software annual service agreement, we respectfully request a waiver of the city's MBE/WBE goals on this contract.

Nulinx International Inc. is committed to assisting in the growth of Chicago area MBE/WBE firms and will offer MBE/WBE subcontracting opportunities whenever possible. Unfortunately, this annual service contract does not provide for any.

COPA software is proprietary software that has been developed exclusively by Nulinx International Inc. No other company (except our authorized representatives) are permitted, qualified or authorized to provide the comprehensive scope of COPA services required by the City of Chicago and Department of Family and Support Services to manage, monitor and serve children and families from multiple funding sources.

Nulinx International Inc.'s COPA software is being provided to the City as a hosted solution accessible via the internet. Because of the proprietary nature of the service agreement, confidentiality of information, expertise on the technology and subject and scope of services provided, there is no direct local subcontracting opportunity, MBE/WBE or otherwise, for Nulinx International, Inc. to provide.

If you have any questions, please don't hesitate to contact me directly at hk@mycopa.com or by calling 818-304-0110.

Best regards,

Hamid Kelishadi

From:

Department of Family and Support Services

Subject: M/WBE Waiver Request for Contract Extension
Nulinx International, Inc.
Modification #: 161620/PO#: 34352

Date: April 4, 2017

The Department of Family and Support Services (DFSS) uses Nulinx International's Child Outcome Planning and Assessment (CPOA) system to manage, track, and report on child and family information related to its Head Start, Early Head Start, and Child Care Assistance programs. This system allows DFSS to manage two separate Federal and State funded child care programs in one database. Starting in July 2017, DFSS will also receive \$60 million from CPS to manage 300 community sites and approximately 20,000 to 30,000 children and families through the Community Partnership Program.

The COPA system is a proprietary software system that Nulinx has developed and customized primarily for DFSS. The system is a hosted solution that is accessible via the internet. In order to protect the source code and maintain the confidentiality of information, Nulinx does not partner or subcontract with other vendors including M/WBE vendors. Further, the headquarters of the firm is based in Los Angeles which makes obtaining indirect M/WBE participation from local Chicago vendors challenging.

We are requesting a waiver request for this amendment and vendor limit increase as there are limited options for compliance.

If you should have any questions, please contact Brandie Knazze at 312-743-0155 or brandie.knazze@cityofchicago.org.

Thank you.

Subject: Information Technology Governance Board Approval – Nulinx International
Modification Number: 161620
PO: 34352

Date: March 30, 2017

I concur with the Department of Family and Support Services' (DFSS) request to extend the current Nulinx contract (PO 34352) for one year and increase the scope of the contract to include delivery of the parent portal for 2017. After working with AdSysTech in 2016 to deliver phase 1 of the project, it was determined that the AdSysTech does not have the capacity to further develop, maintain, and provide the requisite data integration needed with the parent portal. Nulinx will be able to deliver the services DFSS requires.

I find that this request is compliant with the guidelines for the City's technical environment and IT policies.

If you have any questions, please contact Danielle DuMerer at 312-742-1221.

I have reviewed the Department of Family and Support Services (DFSS) Non-Competitive Review Board (NCRB) application for a new agreement with Nulinx International and have found that the application is compliant and within the guidelines for the City's technical environment and IT policies.

45 CFR 92.36(b) -- Procurement standards

45 CFR 92.36(b)(1) -- Grantees and subgrantees will use their own procurement procedures which reflect applicable State and local laws and regulations, provided that the procurements conform to applicable Federal law and the standards identified in this section.

45 CFR 92.36(b)(2) -- Grantees and subgrantees will maintain a contract administration system which ensures that contractors perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders.

45 CFR 92.36(b)(3) -- Grantees and subgrantees will maintain a written code of standards of conduct governing the performance of their employees engaged in the award and administration of contracts. No employee, officer or agent of the grantee or subgrantee shall participate in selection, or in the award or administration of a contract supported by Federal funds if a conflict of interest, real or apparent, would be involved. Such a conflict would arise when:

45 CFR 92.36(b)(3)(i) -- The employee, officer or agent,

45 CFR 92.36(b)(3)(ii) -- Any member of his immediate family,

45 CFR 92.36(b)(3)(iii) -- His or her partner, or

45 CFR 92.36(b)(3)(iv) -- An organization which employs, or is about to employ, any of the above, has a financial or other interest in the firm selected for award. The grantee's or subgrantee's officers, employees or agents will neither solicit nor accept gratuities, favors or anything of monetary value from contractors, potential contractors, or parties to subagreements. Grantee and subgrantees may set minimum rules where the financial interest is not substantial or the gift is an unsolicited item of nominal intrinsic value. To the extent permitted by State or local law or regulations, such standards or conduct will provide for penalties, sanctions, or other disciplinary actions for violations of such standards by the grantee's and subgrantee's officers, employees, or agents, or by contractors or their agents. The awarding agency may in regulation provide additional prohibitions relative to real, apparent, or potential conflicts of interest.

45 CFR 92.36(b)(4) -- Grantee and subgrantee procedures will provide for a review of proposed procurements to avoid purchase of unnecessary or duplicative items. Consideration should be given to consolidating or breaking out procurements to obtain a more economical purchase. Where appropriate, an analysis will be made of lease versus purchase alternatives, and any other appropriate analysis to determine the most economical approach.

45 CFR 92.36(b)(5) -- To foster greater economy and efficiency, grantees and subgrantees are encouraged to enter into State and local intergovernmental agreements for procurement or use of common goods and services.

45 CFR 92.36(b)(6) -- Grantees and subgrantees are encouraged to use Federal excess and surplus property in lieu of purchasing new equipment and property whenever such use is feasible and reduces project costs.

45 CFR 92.36(b)(7) -- Grantees and subgrantees are encouraged to use value engineering clauses in contracts for construction projects of sufficient size to offer reasonable opportunities for cost reductions. Value engineering is a systematic and creative analysis of each contract item or task to ensure that its essential function is provided at the overall lower cost.

45 CFR 92.36(b)(8) -- Grantees and subgrantees will make awards only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration will be given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources.

45 CFR 92.36(b)(9) -- Grantees and subgrantees will maintain records sufficient to detail the significant history of a procurement. These records will include, but are not necessarily limited to the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price.

45 CFR 92.36(b)(10) -- Grantees and subgrantees will use time and material type contracts only--

45 CFR 92.36(b)(10)(i) -- After a determination that no other contract is suitable, and

45 CFR 92.36(b)(10)(ii) -- If the contract includes a ceiling price that the contractor exceeds at its own risk.

45 CFR 92.36(b)(11) -- Grantees and subgrantees alone will be responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements. These issues include, but are not limited to source evaluation, protests, disputes, and claims. These standards do not relieve the grantee or subgrantee of any contractual responsibilities under its contracts. Federal agencies will not substitute their judgment for that of the grantee or subgrantee unless the matter is primarily a Federal concern. Violations of law will be referred to the local, State, or Federal authority having proper jurisdiction.

45 CFR 92.36(b)(12) -- Grantees and subgrantees will have protest procedures to handle and resolve disputes relating to their procurements and shall in all instances disclose information regarding the protest to the awarding agency. A protestor must exhaust all administrative remedies with the grantee and subgrantee before pursuing a protest with the Federal agency. Reviews of protests by the Federal agency will be limited to:

45 CFR 92.36(b)(12)(i) -- Violations of Federal law or regulations and the standards of this section (violations of State or local law will be under the jurisdiction of State or local authorities) and

45 CFR 92.36(b)(12)(ii) -- Violations of the grantee's or subgrantee's protest procedures for failure to review a complaint or protest. Protests received by the Federal agency other than those specified above will be referred to the grantee or subgrantee.

45 CFR 92.36(c) -- Competition

45 CFR 92.36(c)(1) -- All procurement transactions will be conducted in a manner providing full and open competition consistent with the standards of Sec. 92.36. Some of the situations considered to be restrictive of competition include but are not limited to:

45 CFR 92.36(c)(1)(i) -- Placing unreasonable requirements on firms in order for them to qualify to do business,

45 CFR 92.36(c)(1)(ii) -- Requiring unnecessary experience and excessive bonding,

45 CFR 92.36(c)(1)(iii) -- Noncompetitive pricing practices between firms or between affiliated companies,

45 CFR 92.36(c)(1)(iv) -- Noncompetitive awards to consultants that are on retainer contracts,

45 CFR 92.36(c)(1)(v) -- Organizational conflicts of interest,

45 CFR 92.36(c)(1)(vi) -- Specifying only a "brand name" product instead of allowing "an equal" product to be offered and describing the performance of other relevant requirements of the procurement, and

45 CFR 92.36(c)(2) -- Grantees and subgrantees will conduct procurements in a manner that prohibits the use of statutorily or administratively imposed in- State or local geographical preferences in the evaluation of bids or proposals, except in those cases where applicable Federal statutes expressly mandate or encourage geographic preference. Nothing in this section preempts State licensing laws. When contracting for architectural and engineering (A/E) services, geographic location may be a selection criteria provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.

45 CFR 92.36(c)(3) -- Grantees will have written selection procedures for procurement transactions. These procedures will ensure that all solicitations:

45 CFR 92.36(c)(3)(i) -- Incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description shall not, in competitive procurements, contain features which unduly restrict competition. The description may include a statement of the qualitative nature of the material, product or service to be procured, and when necessary, shall set forth those minimum essential characteristics and standards to which it must conform if it is to satisfy its intended use. Detailed product specifications should be avoided if at all possible. When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a "brand name or equal" description may be used as a means to define the performance or other salient requirements of a procurement. The specific features of the named brand which must be met by offerors shall be clearly stated; and

45 CFR 92.36(c)(3)(ii) -- Identify all requirements which the offerors must fulfill and all other factors to be used in evaluating bids or proposals.

45 CFR 92.36(c)(4) -- Grantees and subgrantees will ensure that all prequalified lists of persons, firms, or products which are used in acquiring goods and services are current and include enough qualified sources to ensure maximum open and free competition. Also, grantees and subgrantees will not preclude potential bidders from qualifying during the solicitation period.

45 CFR 92.36(d) -- Methods of procurement to be followed--

45 CFR 92.36(d)(1) -- Procurement by small purchase procedures Small purchase procedures are those relatively simple and informal procurement methods for securing services, supplies, or other property that do not cost more than the simplified acquisition threshold fixed at 41 U.S.C. 403(11) (currently set at \$100,000). If small purchase procedures are used, price or rate quotations shall be obtained from an adequate number of qualified sources.

45 CFR 92.36(d)(2) -- Procurement by sealed bids (formal advertising). Bids are publicly solicited and a firm-fixed-price contract (lump sum or unit price) is awarded to the responsible bidder whose bid, conforming with all the material terms and conditions of the invitation for bids, is the lowest in price. The sealed bid method is the preferred method for procuring construction, if the conditions in Sec. 92.36(d)(2)(i) apply.

45 CFR 92.36(d)(2)(i) -- In order for sealed bidding to be feasible, the following conditions should be present:

45 CFR 92.36(d)(2)(i)(A) -- complete, adequate, and realistic specification or purchase description is available;

45 CFR 92.36(d)(2)(i)(B) -- Two or more responsible bidders are willing and able to compete effectively and for the business; and

45 CFR 92.36(d)(2)(i)(C) -- The procurement lends itself to a firm fixed price contract and the selection of the successful bidder can be made principally on the basis of price.

45 CFR 92.36(d)(2)(ii) -- If sealed bids are used, the following requirements apply:

45 CFR 92.36(d)(2)(ii)(A) -- The invitation for bids will be publicly advertised and bids shall be solicited from an adequate number of known suppliers, providing them sufficient time prior to the date set for opening the bids;

45 CFR 92.36(d)(2)(ii)(B) -- The invitation for bids, which will include any specifications and pertinent attachments, shall define the items or services in order for the bidder to properly respond;

45 CFR 92.36(d)(2)(ii)(C) -- All bids will be publicly opened at the time and place prescribed in the invitation for bids;

45 CFR 92.36(d)(2)(ii)(D) -- A firm fixed-price contract award will be made in writing to the lowest responsive and responsible bidder. Where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs shall be considered in determining which bid is lowest. Payment discounts will only be used to determine the low bid when prior experience indicates that such discounts are usually taken advantage of; and

45 CFR 92.36(d)(2)(ii)(E) -- Any or all bids may be rejected if there is a sound documented reason.

45 CFR 92.36(d)(3) -- Procurement by competitive proposals. The technique of competitive proposals is normally conducted with more than one source submitting an offer, and either a fixed-price or cost-reimbursement type contract is awarded. It is generally used when conditions are not appropriate for the use of sealed bids. If this method is used, the following requirements apply:

45 CFR 92.36(d)(3)(i) -- Requests for proposals will be publicized and identify all evaluation factors and their relative importance. Any response to publicized requests for proposals shall be honored to the maximum extent practical;

45 CFR 92.36(d)(3)(ii) -- Proposals will be solicited from an adequate number of qualified sources;

45 CFR 92.36(d)(3)(iii) -- Grantees and subgrantees will have a method for conducting technical evaluations of the proposals received and for selecting awardees;

45 CFR 92.36(d)(3)(iv) -- Awards will be made to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered; and

45 CFR 92.36(d)(3)(v) -- Grantees and subgrantees may use competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby competitors' qualifications are evaluated and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The method, where price is not used as a selection factor, can only be used in procurement of A/E professional services. It cannot be used to purchase other types of services though A/E firms are a potential source to perform the proposed effort.

45 CFR 92.36(d)(4) -- Procurement by noncompetitive proposals is procurement through solicitation of a proposal from only one source, or after solicitation of a number of sources, competition is determined inadequate.

45 CFR 92.36(d)(4)(i) -- Procurement by noncompetitive proposals may be used only when the award of a contract is infeasible under small purchase procedures, sealed bids or competitive proposals and one of the following circumstances applies:

45 CFR 92.36(d)(4)(i)(A) -- The item is available only from a single source;

45 CFR 92.36(d)(4)(i)(B) -- The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation;

45 CFR 92.36(d)(4)(i)(C) -- The awarding agency authorizes noncompetitive proposals; or

45 CFR 92.36(d)(4)(i)(D) -- After solicitation of a number of sources, competition is determined inadequate.

45 CFR 92.36(d)(4)(ii) -- Cost analysis, i.e., verifying the proposed cost data, the projections of the data, and the evaluation of the specific elements of costs and profits, is required.

45 CFR 92.36(d)(4)(iii) -- Grantees and subgrantees may be required to submit the proposed procurement to the awarding agency for pre-award review in accordance with paragraph (g) of this section.

45 CFR 92.36(e) -- Contracting with small and minority firms, women's business enterprise and labor surplus area firms

45 CFR 92.36(e)(1) -- The grantee and subgrantee will take all necessary affirmative steps to assure that minority firms, women's business enterprises, and labor surplus area firms are used when possible.

45 CFR 92.36(e)(2) -- Affirmative steps shall include:

45 CFR 92.36(e)(2)(i) -- Placing qualified small and minority businesses and women's business enterprises on solicitation lists;

45 CFR 92.36(e)(2)(ii) -- Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;

45 CFR 92.36(e)(2)(iii) -- Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority business, and women's business enterprises;

45 CFR 92.36(e)(2)(iv) -- Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority business, and women's business enterprises;

45 CFR 92.36(e)(2)(v) -- Using the services and assistance of the Small Business Administration, and the Minority Business Development Agency of the Department of Commerce; and

45 CFR 92.36(e)(2)(vi) -- Requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in paragraphs (e)(2) (i) through (v) of this section.

45 CFR 92.36(f) -- Contract cost and price

45 CFR 92.36(f)(1) -- Grantees and subgrantees must perform a cost or price analysis in connection with every procurement action including contract modifications. The method and degree of analysis is dependent on the facts surrounding the particular procurement situation, but as a starting point, grantees must make independent estimates before receiving bids or proposals. A cost analysis must be performed when the offeror is required to submit the elements of his estimated cost, e.g., under professional, consulting, and architectural engineering services contracts. A cost analysis will be necessary when adequate price competition is lacking, and for sole source procurements, including contract modifications or change orders, unless price reasonableness can be established on the basis of a catalog or market price of a commercial product sold in substantial quantities to the general public or based on prices set by law or regulation. A price analysis will be used in all other instances to determine the reasonableness of the proposed contract price.

45 CFR 92.36(f)(2) -- Grantees and subgrantees will negotiate profit as a separate element of the price for each contract in which there is no price competition and in all cases where cost analysis is performed. To establish a fair and reasonable profit, consideration will be given to the complexity of the work to be performed, the risk borne by the contractor, the contractor's investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work.

45 CFR 92.36(f)(3) -- Costs or prices based on estimated costs for contracts under grants will be allowable only to the extent that costs incurred or cost estimates included in negotiated prices are consistent with Federal cost principles (see Sec. 92.22). Grantees may reference their own cost principles that comply with the applicable Federal cost principles.

45 CFR 92.36(f)(4) -- The cost plus a percentage of cost and percentage of construction cost methods of contracting shall not be used.

45 CFR 92.36(g) -- Awarding agency review

45 CFR 92.36(g)(1) -- Grantees and subgrantees must make available, upon request of the awarding agency, technical specifications on proposed procurements where the awarding agency believes such review is needed to ensure that the item and/or service specified is the one being proposed for purchase. This review generally will take place prior to the time the specification is incorporated into a solicitation document. However, if the grantee or subgrantee desires to have the review accomplished after a solicitation has been developed, the awarding agency may still review the specifications, with such review usually limited to the technical aspects of the proposed purchase.

45 CFR 92.36(g)(2) -- Grantees and subgrantees must on request make available for awarding agency pre-award review procurement documents, such as requests for proposals or invitations for bids, independent cost estimates, etc. when:

45 CFR 92.36(g)(2)(i) -- A grantee's or subgrantee's procurement procedures or operation fails to comply with the procurement standards in this section; or

45 CFR 92.36(g)(2)(ii) -- The procurement is expected to exceed the simplified acquisition threshold and is to be awarded without competition or only one bid or offer is received in response to a solicitation; or

45 CFR 92.36(g)(2)(iii) -- The procurement, which is expected to exceed the simplified acquisition threshold, specifies a "brand name" product; or

45 CFR 92.36(g)(2)(iv) -- The proposed award is more than the simplified acquisition threshold and is to be awarded to other than the apparent low bidder under a sealed bid procurement; or

45 CFR 92.36(g)(2)(v) -- A proposed contract modification changes the scope of a contract or increases the contract amount by more than the simplified acquisition threshold.

45 CFR 92.36(g)(3) -- A grantee or subgrantee will be exempt from the pre-award review in paragraph (g)(2) of this section if the awarding agency determines that its procurement systems comply with the standards of this section.

45 CFR 92.36(g)(3)(i) -- A grantee or subgrantee may request that its procurement system be reviewed by the awarding agency to determine whether its system meets these standards in order for its system to be certified. Generally, these reviews shall occur where there is a continuous high-dollar funding, and third-party contracts are awarded on a regular basis.

45 CFR 92.36(g)(3)(ii) -- A grantee or subgrantee may self-certify its procurement system. Such self-certification shall not limit the awarding agency's right to survey the system. Under a self-certification procedure, awarding agencies may wish to rely on written assurances from the grantee or subgrantee that it is complying with these standards. A grantee or subgrantee will cite specific procedures, regulations, standards, etc., as being in compliance with these requirements and have its system available for review.

45 CFR 92.36(h) -- Bonding requirements For construction or facility improvement contracts or subcontracts exceeding the simplified acquisition threshold, the awarding agency may accept the bonding policy and requirements of the grantee or subgrantee provided the awarding agency has made a determination that the awarding agency's interest is adequately protected. If such a determination has not been made, the minimum requirements shall be as follows:

45 CFR 92.36(h)(1) -- A bid guarantee from each bidder equivalent to five percent of the bid price. The "bid guarantee" shall consist of a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying a bid as assurance that the bidder will, upon acceptance of his bid, execute such contractual documents as may be required within the time specified.

45 CFR 92.36(h)(2) -- A performance bond on the part of the contractor for 100 percent of the contract price. A "performance bond" is one executed in connection with a contract to secure fulfillment of all the contractor's obligations under such contract.

45 CFR 92.36(h)(3) -- A payment bond on the part of the contractor for 100 percent of the contract price. A "payment bond" is one executed in connection with a contract to assure payment as required by law of all persons supplying labor and material in the execution of the work provided for in the contract.

45 CFR 92.36(i) -- Contract provisions A grantee's and subgrantee's contracts must contain provisions in paragraph (i) of this section. Federal agencies are permitted to require changes, remedies, changed conditions, access and records retention, suspension of work, and other clauses approved by the Office of Federal Procurement Policy.

45 CFR 92.36(i)(1) -- Administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as may be appropriate. (Contracts more than the simplified acquisition threshold)

45 CFR 92.36(i)(2) -- Termination for cause and for convenience by the grantee or subgrantee including the manner by which it will be effected and the basis for settlement. (All contracts in excess of \$10,000)

45 CFR 92.36(i)(3) -- Compliance with Executive Order 11246 of September 24, 1965, entitled "Equal Employment Opportunity," as amended by Executive Order 11375 of October 13, 1967, and as supplemented in Department of Labor regulations (41 CFR chapter 60). (All construction contracts awarded in excess of \$10,000 by grantees and their contractors or subgrantees)

45 CFR 92.36(i)(4) -- Compliance with the Copeland "Anti-Kickback" Act (18 U.S.C. 874) as supplemented in Department of Labor regulations (29 CFR Part 3). (All contracts and subgrants for construction or repair)

45 CFR 92.36(i)(5) -- Compliance with the Davis-Bacon Act (40 U.S.C. 276a to 276a-7) as supplemented by Department of Labor regulations (29 CFR Part 5). (Construction contracts in excess of \$2000 awarded by grantees and subgrantees when required by Federal grant program legislation)

45 CFR 92.36(i)(6) -- Compliance with Sections 103 and 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 327-330) as supplemented by Department of Labor regulations (29 CFR Part 5). (Construction contracts awarded by grantees and subgrantees in excess of \$2000, and in excess of \$2500 for other contracts which involve the employment of mechanics or laborers)

45 CFR 92.36(i)(7) -- Notice of awarding agency requirements and regulations pertaining to reporting.

45 CFR 92.36(i)(8) -- Notice of awarding agency requirements and regulations pertaining to patent rights with respect to any discovery or invention which arises or is developed in the course of or under such contract.

45 CFR 92.36(i)(9) -- Awarding agency requirements and regulations pertaining to copyrights and rights in data.

45 CFR 92.36(i)(10) -- Access by the grantee, the subgrantee, the Federal grantor agency, the Comptroller General of the United States, or any of their duly authorized representatives to any books, documents, papers, and records of the contractor which are directly pertinent to that specific contract for the purpose of making audit, examination, excerpts, and transcriptions.

45 CFR 92.36(i)(11) -- Retention of all required records for three years after grantees or subgrantees make final payments and all other pending matters are closed.

45 CFR 92.36(i)(12) -- Compliance with all applicable standards, orders, or requirements issued under section 306 of the Clean Air Act (42 U.S.C. 1857(h)), section 508 of the Clean Water Act (33 U.S.C. 1368), Executive Order 11738, and Environmental

Protection Agency regulations (40 CFR part 15). (Contracts, subcontracts, and subgrants of amounts in excess of \$100,000)

45 CFR 92.36(i)(13) -- Mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (Pub. L. 94-163, 89 Stat. 871).

Federal standards for purchasing services, supplies, and expendable property are described. Head Start grantee and delegate agencies will find this resource useful when purchasing supplies and other items.

Overview of Requirements

Head Start grantee agencies are required to establish their own written procedures based on Federal standards for purchasing services, supplies and other expendable property, equipment, and real property. The standards for procurement are found in regulations [45 CFR 74.40 - 74.48](#) for institutions of higher education, hospitals, and other non-profit organizations, and commercial organizations; and in [45 CFR 92.36](#) for local government organizations.

The Federal standards were established to ensure that grantee agencies obtain materials and services paid for with Federal funds in an effective manner and in compliance with Federal laws. Grantee agencies are directed to use Federal funds to purchase items and services in the most economical way, and to buy only what they need.

Within the parameters of the Federal standards, grantee agencies are allowed to design their own systems for procurement and use whatever forms and workflow processes best suit the organizational structure. Such systems may be more stringent than the Federal requirements, but not less. Local government grantee agencies also must comply with applicable State and local laws and regulations.

Purchases of equipment, purchase/construction/renovation of facilities, etc., must still comply with all applicable Federal requirements, including prior approval from ACF as the Head Start funding source, before being purchased. Any record keeping requirements associated with such purchases should reflect the definitions of the funding agency. For example, if your agency definition of equipment uses a benchmark of \$1,000 or more, your agency does not have to request Federal prior approval or maintain an equipment inventory for Federal purposes of items purchased for under \$5,000.

Clarifying Definitions

Contract, when used in this section, refers to procurement contracts under the Head Start grant award (or delegate agency agreement) to purchase services, supplies and other expendable property, equipment, and real property using Head Start grant funds.

Equipment means an item of personal property, which costs \$5,000 or more per unit, and which has a useful life of more than one year. A grantee agency may choose to establish a lower limit than \$5,000 as its definition of equipment so long as it is applied consistently.

Personal property, in this section, is used to refer to property of any kind except real property. For Head Start grantees, personal property would include equipment, supplies, computers, computer software, copiers, kitchen

appliances, fax machines, telephone systems, classroom desks and tables, playground equipment, etc.

Prior approval means the written approval by an authorized ACF official evidencing prior consent.

Property, when used alone, refers to both real property and personal property.

Real property means building structures and land. For Head Start grantees, this can include classroom facility buildings, administrative buildings, storage buildings, the land for the building or parking lots, playgrounds, etc.

Supplies means all personal property, excluding equipment and intangible property.

Narrative

Procurement standards

The Federal regulations, in 45 CFR 74.40 - .48 and 45 CFR 92.36, set standards for use by grantee agencies in establishing their own procedures for purchasing services, supplies and other expendable property, equipment, and real property with Federal funds. These standards were established to ensure that grantee agencies obtain materials and services with Federal funds in an effective manner and in compliance with Federal laws. The procurement standards include information for grantees on such subjects as competition, analysis of cost/price, contractual disputes, codes of conduct, procurement records, and written procedures.

A. Competition

Based on the Federal standard established in 45 CFR 74.43, all procurement transactions, regardless of amount, must be conducted in a manner that provides, to the maximum extent practical, open and free competition. This means that, even if it seems like a "good deal," grantee agencies cannot make the purchase until other vendors also are given consideration.

Also, to eliminate unfair advantage, contractors who develop or draft grantee applications or contract specifications or requirements (or statements of work, invitations for bids or requests for proposals) must be excluded from the competition for that procurement.

Soliciting competitive bid prices from vendors might be done in different ways. For example, a grantee agency could get vendor prices by advertising in newspapers, sending letters to prospective vendors, telephoning prospective vendors, or even by comparing prices in office supply catalogs.

Solicitations for bids should clearly state all the requirements the vendor must fulfill in order for the bid or offer to be evaluated by the grantee agency.

The procurement should be given to the vendor whose bid or offer is responsive to the solicitation, and is the most advantageous to the grantee agency (considering price, quality, and other applicable factors). Any and all bids or offers may be rejected when it is in the grantee agency's interest to do so. This means that Head Start grantees do not have to accept the lowest bid received because other factors, such as quality of the product or service record of the vendor, also may be considered by the grantee in making the decision.

Based on the Federal standard found in 45 CFR 74.44 grantee agencies must, whenever possible, make positive efforts to use small businesses, minority-owned firms, and women's business enterprises, and should take all of the following steps to further this goal:

- Ensure that small businesses, minority-owned firms and women's business enterprises are used to the fullest extent practical.

- Make information on forthcoming opportunities available and arrange time frames for purchases and contracts to encourage and facilitate participation by small businesses, minority-owned firms and women's business enterprises.
- Consider in the contract process whether firms competing for larger contracts intend to subcontract with small businesses, minority-owned firms, and women's business enterprises.
- Encourage contracting with consortiums of small businesses, minority-owned firms, and women's business enterprises when a contract is too large for one of these firms to handle individually.
- Use the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Department of Commerce's Minority Business Development Agency in the solicitation and utilization of small businesses, minority-owned firms, and women's business enterprises.

B. Cost/price analysis

The Federal procurement standard in 45 CFR 74.45 requires that some form of cost or price analysis must be made, and documented in the procurement files, in connection with every procurement action using Federal grant funds. This means that Head Start grantee agencies are required to analyze costs to determine if the amount seems reasonable.

Price analysis involves a comparison of marketplace prices. There are various ways to conduct a price analysis. These include comparing offered prices with those listed in commercial catalogs, or with those recently submitted for similar services. It can be done, for example, by comparing the price quotes submitted by vendors, or by telephoning other vendors to obtain their market price, or simply by comparing published market prices (such as from a classroom supply catalog, for example). Often grantee agencies have already done their price analysis without even realizing it, for example, by comparing catalog prices prior to making a purchase.

Cost analysis involves an examination of all the elements used in calculating a contract's total estimated cost. For example, when fixed-price contracts are based on cost estimates, grantee agencies should perform a cost analysis to determine the reasonableness of the prices. Cost analysis is the review and evaluation of each element of cost to determine whether it is reasonable, allocable to that grant program, and an allowable cost for that grant program. Every cost element listed in the vendor's offer must be examined. Through a cost analysis, determinations are made on which costs are reasonable, allowable under the grant regulations and grantee agency rules, and properly allocated to the work to be performed under the proposed contract. A cost analysis also is required when contract modifications introduce new conditions that were not examined under the previous analysis, or where more current information is needed.

C. Contractual disputes

The grantee agency, and not the Federal awarding agency, is the responsible authority regarding the settlement and satisfaction of all contractual and administrative issues arising out of procurements entered into in support of an award or other agreement. This includes disputes, claims, protests of award, source evaluation or other matters of a contractual nature. For example, if a vendor claims not to have been given fair treatment in the bid process or that another vendor unfairly won the bid, then the grantee agency must resolve the dispute using their own documentation of the procedures used. It cannot call upon ACF to resolve it. Also, if the grantee agency is dissatisfied with the services or product received from a contractor, the grantee agency must resolve the dispute, and cannot call upon ACF to resolve it.

Grantee agencies must maintain a system for contract administration, including vendor contracts, construction contracts, leases, and program or administrative service contracts. The system should include procedures regarding settlement and satisfaction of all contractual disputes. (Matters concerning violation of statute should be referred to whichever Federal, state or local authority has jurisdiction.)

D. Codes of Conduct

Grantee agencies must maintain written standards of conduct governing the performance of employees who are involved in the award or administration of procurement contracts, including vendor contracts, lease contracts, construction contracts, and program services and administrative services contracts. Generally this includes, at a minimum, the procurement officer (or whoever in the agency does the purchasing or leasing), contract administration officer, and all grantee agency officials who can sign or authorize procurement contracts (such as the executive director or program manager).

The written code of conduct must state that no grantee agency employee, officer, or agent shall participate in the selection, award, or administration of a procurement contract supported by Federal funds if a real or apparent conflict of interest would be involved. Based on the regulations, such conflict would arise when the employee, officer, or agent, or any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated, has a financial or other interest in the firm selected for an award.

The grantee agency's written code of conduct also must state that officers, employees, and agents of the grantee agency shall neither solicit nor accept gratuities, favors, or anything of monetary value from contractors, or parties to subagreements. However, grantee agencies may set standards for situations in which the financial interest is not substantial or the gift is an unsolicited item of nominal value.

The Head Start program regulations, in 45 CFR 1304.52(h)(2), require that all employees engaged in the award and administration of contracts or other financial awards must sign written statements that they will not solicit or accept personal gratuities, favors, or anything of significant monetary value from contractors or potential contractors.

The code of conduct must provide for appropriate penalties (meaning disciplinary actions) to be applied for violations of such standards by officers, employees, or agents of the grantee agency. Such disciplinary actions generally range from suspension without pay to termination of employment or removal from office, depending on the position of the offender and the nature of the offense.

E. Procurement Records

As stated above under Section B, the Federal standard found in 45 CFR 74.45 states that price or cost analysis is required and must be documented in the procurement files for every procurement transaction. For price analysis, this would mean keeping copies of all the documentation of the prices and vendors that were compared, identifying which vendor was chosen, and stating why that vendor was chosen. For cost analysis, it would mean keeping written documentation of the determination of whether a cost was reasonable, allocable to that grant, and allowable for that grant.

In addition, the procurement records for purchases in excess of the simplified acquisition threshold (41 U.S.C. 403(11))—currently set at \$100,000—must include the following at a minimum:

- Basis for contractor selection.
- Justification for lack of competition when competitive bids or offers are not obtained.
- Basis for award cost or price.

Grantee agencies are required to make available to ACF, on request, all procurement documents, such as requests for proposals or invitations for bids, and independent cost estimates when any of the following apply:

- The grantee agency's procurement procedures or operations fail to comply with the Federal procurement standards.
- The procurement is expected to exceed the simplified acquisition threshold (currently \$100,000), and is to be awarded to the vendor without competition, or only one bid or offer is received in response to a solicitation.

- The procurement, which is expected to exceed the simplified acquisition threshold, specifies a "brand name" product.
- The proposed award over the simplified acquisition threshold is to be awarded to other than the apparent low bidder under a sealed bid procurement.
- A proposed contract modification changes the scope of a contract or increases the contract amount by more than the amount of the simplified acquisition threshold.

F. Written Procedures

All grantee agencies must establish and follow written procurement procedures for making purchases with Federal funds (45 CFR 74.44 and 92.36).

The written procurement procedures must provide, at a minimum, that the grantee agency will:

- Take steps to make economical purchases and avoid purchasing unnecessary or duplicative items. (This means that the grantee agency must have some sort of mechanism for determining the items they already have.)
- Analyze, prior to leasing or purchasing, whether leasing or purchasing an item is the most economical and practical alternative in the long run, for both the grantee agency and for the Federal government. (Leasing should be used in lieu of purchasing when it is the more economical and practical alternative. This requirement essentially directs grantee agencies to buy only what they need and purchase items in the most economical way.)
- Provide solicitation advertisements for goods and services that contain all of the following:
 1. A clear and accurate description of the technical requirements for the material, product, or service to be procured—without including features which unduly restrict competition.
 2. Requirements which the bidder or offeror must fulfill and all other factors that will be used in evaluating the bids or proposals.
 3. A description, whenever practical, of technical requirements in terms of the functions to be performed or performance required, including the range of acceptable characteristics or minimum acceptable standards.
 4. The specific features of "brand name or equal" descriptions the bidders are required to meet when such terms are included in the solicitation.
 5. The acceptance, to the extent practical and economically feasible, of products or services with dimensions measured in the metric system.
 6. Preference, to the extent practical and economically feasible, for products and services that conserve natural resources and protect the environment and are energy efficient.

Audit Requirements

Under the Single Audit Act, and OMB Circular A-133, auditors are required to assess internal control and compliance. In the area of procurement, this would include assessing the grantee agency's written procurement procedures (including the approvals required, competition process, documentation records required, etc.), and may include reviewing a sample of actual purchases made during the audit year. However, since not all auditors perform their reviews in exactly the same way, the grantee agency may want to stipulate in the audit contract that the audit is to include assessment of the procurement process and controls.

Some of the types of audit findings in this area are:

- Not having required written procurement procedures (or having procedures that have not been updated to reflect the process actually in use).
- Not following grantee agency written procurement procedures.
- Not maintaining required supporting documentation in the procurement records.
- Not obtaining required approvals prior to purchase.
- Not determining whether a cost was allowable prior to purchase (which generally also results in a disallowance).
- Not providing open and free competition.

Grantor may terminate or suspend this Agreement, in whole or in part, without penalty or further payment being required, if (i) sufficient funds for this Agreement have not been appropriated or otherwise made available to the Grantor by the State or the Federal funding source, (ii) the Governor or Grantor reserves funds, or (iii) the Governor or Grantor determines that funds will not or may not be available for payment. Grantor shall provide notice, in writing, to Grantee of any such funding failure and its election to terminate or suspend this Agreement as soon as practicable. Any suspension or termination pursuant to this Section will be effective upon the date of the written notice unless otherwise indicated.

4.2. Illinois Grant Funds Recovery Act. Any Grant Funds remaining at the end of the Agreement period which are not expended or legally obligated by Grantee shall be returned to Grantor within forty-five (45) days after the expiration of this Agreement in accordance with the Grant Funds Recovery Act (30 ILCS 705/1et seq.). 4.4. Payments to Third Parties. Grantee agrees to hold harmless Grantor when Grantor acts in good faith to redirect all or a portion of any Grantee payment to a third party. Grantor will be deemed to have acted in good faith if it is in possession of information that indicates Grantee authorized Grantor to intercept or redirect payments to a third party or when so ordered by a court of competent jurisdiction.

Unless prohibited from doing so in 2 CFR 200.308, transfers between approved line items may be made without Grantor's approval only if the total amount transferred does not exceed the allowable variance of the greater of either (i) ten percent (10%) of the Budget line item or (ii) one thousand dollars (\$1,000) of the Budget line item. Discretionary line item transfers may not result in an increase to the Budget.

6.4. Non-discretionary Line Item Transfers. Total line item transfers exceeding the allowable variance of the greater of either (i) ten percent (10%) of the Budget line item or (ii) one thousand dollars (\$1,000) of the Budget line item require Grantor approval as set forth in Paragraph 6.2.

6.5. Notification. Within thirty (30) calendar days from the date of receipt of the request for Budget revisions, Grantor will review the request and notify Grantee whether the Budget revision has been approved, denied, or the date upon which a decision will be reached.

----- END OF PROGRAM: CHILD CARE-SITE ADMINISTERED -----

EXHIBIT B
DELIVERABLES OR MILESTONES

All contractors must have a community outreach plan which includes a detailed description for notifying the community of the program, hours of operation, and admittance/eligibility requirements into the program(s) they administer for IDHS. Each contractor must have available for inspection linkage agreements or memorandums of understanding with other community service agencies, IDHS Family and Community Resource Centers, and other outreach entities. IDHS must approve any publication and distribution of flyers, printed materials and brochures that are part of the IDHS funded program. All contractors must have a referral process that assists program participants with enrollment into public benefit programs such as TANF, Food Stamps, All Kids medical and disability assistance, as well as other resources that address the needs of the population targeted for service. All Child Care providers will review their contract exhibits for specific deliverables and requirements.

1. Provide child care services at daily/weekly times that are consistent with the parental/child needs.
2. Recruit eligible families and children to their child care service.
3. Determine and redetermine client eligibility as instructed in the Bureau of Child Care and Development Child Care Assistance Program (CCAP) Policy Manual. Providers will use the Child Care Application and supporting documentation to determine eligibility. If the supporting documentation is missing, Site Administered Child Care providers must issue a written Request for Additional information as outlined in Policy Section 02.02.02 to the applicant/client for all missing information before making a determination of eligibility within 10 working days of receiving the application or redetermination. Supporting documentation includes, but is not limited to: the two most recent and consecutive pay stubs for all employed family members (other than the applicant and/or the second parent) age 21 and older, verification of enrollment in a training/education program, and the client's TANF Responsibility and Service Plan. In addition, Site Providers must use other electronic data bases provided by IDHS to verify eligibility information from the child care application and/or redetermination including, but not limited to, family composition, earned and unearned income and employment or education/training schedules according to the processes listed in the IPACS Training Manual.
4. Charge the Department the standard daily rate based on geographic area the provider is located in and age of child served. Site Administered Child Care Providers may charge the Child Care Assistance Program (CCAP) families up to these maximums provided they do not charge more for subsidized children than they do for private pay families, nor can Site Providers charge the Child Care Assistance Program (CCAP) families higher than the child maximum rate for regular care services (excluding fees).

Site Administered Child Care Providers are required to provide a listing of the child care rates charged to IDHS subsidized clients vs. the rates charged to private pay families, via a Child Care Rate Certification Form. This form is to be completed and submitted annually with the Site Administered Child Care contract packets.

Site Administered Child Care contracts will not be processed unless this certification is received.

EXHIBIT B

The number of children served under the contract will be negotiated with each Site Administered Child Care Provider. Additionally Site Administered Child Care Providers will:

- a. Charge no more than \$2.00 per contracted child, per day, to offset the cost of eligibility determination services. For example: 35 children at \$2.00 per day for 250 eligible days would be \$17,500.
 - b. Family Child Care Networks will also be paid \$5.00 per contracted child, per day, to provide for additional training, resources and professional supports to licensed homes in the network.
5. Sites that have data entry access to CCMS must enter all application and redetermination information into the system within 10 working days of receipt. For Sites that do not have entry access into CCMS, the application/redetermination, along with all Request for Additional Information forms and notices of approval, denial or cancelation, must be sent electronically to IDHS BCCD CCElig within 10 working days after the eligibility decision has been made. This decision must be made within the first 30 working days of receiving the Application/Redetermination
 6. All Site Administered Child Care programs must provide either a Notice of Approval, Notice of Denial or Notice of Cancelation within 30 working days from the received date of the application, redetermination or change of information form.
 7. Calculate and collect parent fees (co-payments) based on income, family size, age of children in care, and the child care schedule per Policy Section 04.02.01.
 8. Develop a written agreement regarding parent fees that includes the case name, case number, amount and frequency of payments(s) and the consequences for failure to pay. This agreement is to be discussed with the parent(s) and signed by both the provider and the parent(s). A copy will be given to the parent(s) and a copy will be retained in the case file.
 9. Collect a minimum of 75% of parent fees (co-payments) during each year.
 10. Submit accurate monthly billing form(s), Monthly Enrollment Report (MER), to IDHS, Bureau of Child Care and Development, within 15 calendar days of the end of the month of service. Notations must be made to explain any changes to eligible days being billed for.
 11. Maintain appropriate fiscal records for review by IDHS or its designee.
 12. Provide services that are developmentally appropriate, culturally sensitive, linguistically appropriate and consistent with individual child needs.
 13. Seek parents' involvement in decisions affecting their children's care.
 14. Involve a Board of Directors and/or Advisory Council Committee in the operations of the program. If there are no parents on the Board of Directors, include them in an Advisory Committee or provide another mechanism for parental input to the agency's decision making process.
 15. Maintain licensed status with the Department of Children and Family Services (DCFS), meeting license standards during the entire contract period (licensed facilities). IDHS must be informed of any changes to the Site's licensing.
 16. Agencies operating networks of licensed family child care homes must assure that the

EXHIBIT B

chief program administrator and program coordinator are persons who meet the requirements for supervising a child care center under the Child Care Act of 1969 225 ILCS 10/1 et seq.

17. Cooperate with and coordinate information with caseworkers at the IDHS Family and Community Resource Center (FCRC, formerly known as Local Office), including but not limited to, posting the name and phone number of an IDHS contact person and notifying the FCRC whenever there are contracted slots available.

18. List their agency on the referral database of the appropriate child care resource and referral agency serving their area.

19. Make available to parents a list of the appropriate Child Care Resource and Referral (CCR&R) agencies serving the area.

20. Refer parents to community agencies, as needed. These would include, but are not limited to, mental health agencies, health and medical agencies, social service agencies, local school districts and early intervention agencies, e.g. Child and Family Connections (CFCs).

21. Have access to, and actively use, current technological capabilities, such as computer, internet access, long distance phone services, and fax and copying capabilities.

22. Sign-in and sign-out sheets are required in order to document the use of care. Site Providers must ensure that parents or authorized guardians have easy daily access to Sign-in and sign-out sheets. Provider participation in the Child Care Assistance Program may be terminated if the provider interferes with a parent or guardian's ability to complete the Sign-in and sign-out Sheet. This includes but is not limited to entering the times for the parent or guardian, signing the parent or guardian's name, or directing the parent or guardian to write in times other than what has actually occurred. Providers cannot sign the parent or guardian's initials or full signature on Sign-in and sign-out Sheets

23. Maintain case records for each eligible family receiving Child Care Assistance for at least five (5) years. These records may be reviewed in a monitoring visit. Designate staff that are responsible for the IDHS contract and ensure that staff is appropriately trained.

24. Assure job descriptions on file include the roles and responsibilities for administering the Child Care Assistance Program (CCAP).

25. Assure that designated staff attends all scheduled IDHS training regarding the Site Administered Child Care Program.

26. Distribute personnel policies upon employment and within 30 days of approved revisions.

27. In addition, all Site Administered contractors operating child care centers will:

b. Assure that each on-site manager is familiar with publicly funded professional development opportunities available to staff, e.g., CCR&R training, StarNet, Gateways, et al.

EXHIBIT B

- c. Assure that at least 10% of the teaching staff (staff in positions to be left alone with a group of children) will meet Great Start education requirements.
 - d. Assure the child care director and the child care staff will all participate in a minimum of 15 clock hours of professional development/in-service training annually.
 - e. Assure the child care director and child care staff have received training on the 10 health and safety topics required for CCDF providers.
 - f. Assure that at least 10% of child care staff will be trained in blood borne pathogen and universal precautions and certified First Aid and CPR.
 - g. Have health policies and procedures reviewed by a qualified health professional, e.g., CCR&R nurse consultant.
 - h. Have a health professional visit the center monthly if the center serves infants and toddlers.
 - i. Encourage family involvement in children's programs using a variety of alternatives.
 - j. Be accessible to parents during all hours of operation, by phone or in person.
 - k. Assure that automated phone systems contain the option of being connected to a live person.
 - l. Demonstrate that they have a QRIS rating above licensing (a copy of the current QRIS Award certificate must be submitted to IDHS) OR must submit an action plan detailing steps that will be implemented and result in application to the QRIS.
28. Family Child Care Networks (FCCN) will:

 - c. Assure that network providers are licensed by DCFS and have at least the minimum insurance required by licensing. Provide licensing process support to contracted homes.
 - d. Provide a current one-year contract to each licensed child care home in the FCCN. The family child care home providers are independent contractors and not employees of the FCCN. The contract will delineate the respective responsibilities of the agency and the family child care home (FCCH) provider. A copy of the contract boilerplate must be submitted to the Bureau of Child Care and Development. FCCH provider contract agreements must be on file and available for review by IDHS.
 - e. Work with local CCR&R to recruit license exempt FCCHs to become licensed and join networks.
 - f. Make, at minimum, monthly visits to all network FCCH's to support their continuous quality improvement, using an appropriate rating scale tool. Develop a quality improvement plan with each FCCH and provide technical assistance and monitoring of the plan on future visits. Maintain records of provider visits and contacts. Work with each FCCH provider and other monitoring entities, e.g. licensing, to schedule visits so that they minimize disruptions to children's care.

EXHIBIT B

g. Make ten (10) clock hours of professional development available annually, in addition to the fifteen (15) clock hours required by DCFS licensing, by linking with professional development entities, like CCR&Rs, and coordinating professional development opportunities. Require FCCN family child care home providers to participate in the professional development.

h. Pay FCCH providers their published rate, up to the IDHS daily rate, for child care services that have been determined eligible for the CCAP within 10 calendar days of payment to the Network from IDHS. (I don't know if there has been discussion on this or not, but given the issues with HDC network it may be good to add something like this here)

Sign-in and sign-out sheets are required in order to document the use of care. FCH Providers must ensure that parents or authorized guardians have easy daily access to attendance sheets. FCH Provider participation in the Child Care Assistance Program may be terminated if the provider interferes with a parent or guardian's ability to complete the Sign-in and sign-out Sheet. This includes but is not limited to entering the times for the parent or guardian, signing the parent or guardian's name, or directing the parent or guardian to write in times other than what has actually occurred. Providers cannot sign the parent or guardian's initials or full signature on Sign-in and sign-out Sheets

j. Maintain a regular communication system with network homes that includes routine communication, resource distribution, and at least quarterly group meetings with FCCHs.

k. Support FCCHs in obtaining information about the ISBE Child and Adult Care Food Program, health insurance coverage, community resources, and other benefits to improve operations.

l. Plan and engage in collaborative activities so that FCCN children can access Early/Head Start and PreK/Preschool for All programming.

m. A minimum of one staff person at each Family Child Care Network shall attend the QRIS Orientation required for licensed family child care home providers to participate in ExceleRate Illinois. Other QRIS trainings should be attended as necessary to provide technical assistance to providers. Attendance certificates must be on file and available for review by IDHS.
