ACCESSIBILITY FOR PERSONS WITH DISABILITIES

DFSS is committed to ensuring that all individuals requesting program assistance provided by the Homeless Services Division have access to homeless shelters and any of its related services. To ensure this access, DFSS has listed policies that DFSS staff and the Delegate Agency must follow in working with persons with disabilities.

Check either Yes or No for each site location to inform DFSS if the Delegate Agency:

- a) is compliant with the **Americans with Disabilities Act (ADA)**. For more ADA information, refer to <https://www.ada.gov/>; and/or
- b) adheres to policies ensuring accessibility for persons with disabilities via **Section 504** which includes **Reasonable Accommodations**. For more information, refer to https://www.hud.gov/program_offices/fair_housing_equal_opp/disabilities/sect504faq

Section 504 requires DFSS and the Delegate Agency to take proactive steps to ensure equal access for homeless persons with disabilities, as long as such actions do not require a fundamental alteration of the program or impose an undue financial and administrative burden. This means that DFSS and Delegate Agency must ensure that homeless persons with disabilities are able to request shelter, access shelter, and benefit from services provided in shelters.

Adherence with Section 504 policies includes ensuring reasonable accommodation for persons with disabilities. A reasonable accommodation is a change, adaptation, or modification to a policy, program, or service that will allow a qualified person with a disability to participate fully in a program or take advantage of a service. For DFSS and its Delegate Agencies, this includes locating and accessing emergency shelters, including public and common use spaces, and participating in services offered to clients at these facilities.

SECTION B – PROGRAM GOALS

DFSS HOMELESS DIVISION GOALS

The DFSS Homeless Services Division seeks to create an effective crisis response system that prevents homelessness whenever possible and rapidly returns people who experience homelessness to stable housing. The Division does this by supporting a range of services and infrastructure for people experiencing (or at risk of) homelessness including prevention, shelter, outreach, and engagement, housing supports, and system planning/coordination efforts. The Division also works closely and collaboratively with the Chicago Continuum of Care (CoC), the CoC's designated Collaborative Applicant (All Chicago), the CoC's Coordinated Entry System (CES), other City agencies, and community-based organizations to coordinate across the broader ecosystem of homeless services in the City towards the ultimate aim of preventing and ending homelessness in Chicago.

DFSS is committed to working with its partners to build and advance equity goals, with the recognition that identifying and addressing systemic racism and inequity within homeless services, programs, and policy is critical to our goal of preventing and ending homelessness.

PROGRAM GOALS

The goal of the RAP Manager is to reduce the number of individuals and families who ultimately become homeless by quickly providing those at risk of losing their current rental housing with short-term financial assistance through DFSS' network of six Community Service Centers (CSCs). The RAP Manager will also administer and oversee financial assistance including rent, utility, and security deposit payments; monitor program expenditures; and perform housing habitability inspections on behalf of households approved through the DFSS RAP. The selected Respondent will provide these services in conjunction with the DFSS CSCs. The CSCs will provide direct services to clients while the RAP Manager will work directly with property owners/managers to conduct housing inspections and provide them with direct payments once a property has passed inspection.

TARGET POPULATION

The target population for RAP includes individuals or families who are at immediate risk of becoming homeless because of their inability to make their rent payment. The causes of housing instability for the target population vary but are frequently due to unexpected circumstances as defined by the U.S. Department of Housing and Urban Development (HUD) – HUD Criteria for Definition of At-Risk of Homelessness can be found via this link:

SCOPE OF SERVICES
January 1, 2024 – December 31, 2024

SECTION C – PERFORMANCE MEASURES

To track progress toward achieving the outlined goals and assess success of the program, DFSS will monitor a set of performance indicators that may include, but is not limited to:

- 100% of third-party payments to property owners or their agents will be made within 5-business days of receipt from DFSS
- 100% of habitability inspections requests will be performed within 5-business days of receipt from DFSS

To monitor and recognize intermediate progress toward the above performance indicators, DFSS also intends to track output metrics that may include, but are not limited to:

- 100% of all assisted units meet HUD habitability standards prior to providing rental assistance
- Average number of days from check request from CSC to payment made to property owner/managers

DFSS will also monitor the above metrics by race, ethnicity, gender, age, and other characteristics as appropriate to track equity in outcomes and outputs.

The DFSS Homeless Services Division will work with the delegate community to further develop this measurement framework to ensure appropriate metrics are tracked for specific programs and sub-populations. DFSS is especially interested in monitoring trends in performance over time, with the goal of continuous improvement against these metrics.

In addition to the performance indicators and output metrics listed above, DFSS encourages Respondents to propose additional indicators and metrics, including those that demonstrate early success and are indicative of participants' progress.

Within this framework, DFSS is focused on continuous improvement against these metrics. We are committed to working with delegate agencies to monitor performance against these indicators, including establishing relevant baselines or benchmarks and sharing data with delegate agencies to assess and understand our progress. DFSS expects that performance by these metrics will vary by sub-population served, and DFSS will continue to work with the delegate community to understand the factors influencing performance and to set appropriate performance expectations based on specific programs and sub-populations.

DFSS plans to track performance throughout the term of the contract and will use this information (including absolute and relative performance on metrics and improvement over time) to inform future funding decisions. DFSS therefore may add metrics in contracts as we continue to refine our approach to understanding and managing performance in upcoming contracts and over the years to come.

DATA REPORTING

As part of DFSS' commitment to become more outcomes-oriented, the Homeless Services Division seeks to actively and regularly collaborate (such as periodic meetings) with delegate agencies to review program performance, learn what works, and develop strategies to improve program quality throughout the term of the contract. Reliable and relevant data are necessary to ensure compliance, inform trends to be monitored, evaluate program results and performance, and adjust program delivery and policy to drive improved results. As such, DFSS reserves the right to request/collect other key data and metrics from delegate agencies, including client-level demographic, performance, and service data, and set expectations for what this collaboration, including key performance objectives, will look like in any resulting contract.

Upon contract award, delegate agencies will be expected to collect and report client-level demographic, performance, and service data, including applications processed, households assisted, units inspected, and fiscal expenditures, as stated in any resulting contract. These reports must be submitted in a format specified by DFSS and submitted on a monthly and, occasionally, weekly basis.

During these meetings, Agencies are encouraged to raise any concerns or challenges they have in serving their target population.

DFSS intends to utilize Delegate Agency performance data in these meetings, with the goals of:

- a) Monitoring performance progress, highlighting accomplishments, and identifying concerns.
