**ID#:** 67-03 Overnight Inspections

---

The following information is provided in response to questions posed at our department's hearing on October 5, 2021, to discuss the proposed 2022 budget.

Alderman Reilly asked for information on overnight construction violations.

The Department of Buildings conducts after hour inspections during the summer months, May through the end of September. Our inspectors are investigating 311 request and often find work in progress that do not require any permits, no such address or no entry. The awareness of the department having Building Construction Inspectors working after hours has been instrumental in reducing the number of people doing work after hours.

The violations that are cited when necessary do not have a unique violation code, therefore we are unable to quantify the number of violations.

As always, please let me know if you have any further questions.

**Re:** Request for Information from Annual Appropriation Committee Hearing

**ID#:** 67-05 LEED Certification

The following information is provided in response to questions posed at our department’s hearing on October 5, 2021, to discuss the proposed 2022 budget.

Alderman Tunney asked for the number of larger building projects that are LEED certified.

DOB does not track participation in voluntary sustainability certification programs like LEED. DOB reached out to DPD to provide information related to your request:

DPD tracks the compliance of larger projects that are subject to DPD’s “Sustainable Development Policy.” One way to achieve the minimum required points under the Sustainable Development Policy is to participate in a voluntary certification program, such as LEED.

\*DPD noted that some projects may not be reflected in the above data, but the percentages of projects pursuing various certification routes over time are representative.

Some projects which meet all substantive requirements of a certification program do not elect to pursue certification because of the additional cost of verification, which can range from thousands to millions of dollars for third-party verification with program requirements. These

projects must use a different method to obtain a minimum score under DPD's Sustainable Development Policy.

**ID#:** 67-14 Building Inspectors

---

The following information is provided in response to questions posed at our department's hearing on October 5, 2021, to discuss the proposed 2022 budget.

Alderman Ervin asked for DOB research the building inspector's per capita in comparison to other major US cities.

In response to your inquiry, DOB compiled information about per capita building-related inspector staffing levels in large US cities based on publicly available budget and/or payroll data for New York City, Los Angeles, Chicago, Houston, and Phoenix. Useful data was not readily available for Philadelphia (the sixth-largest US city). As building-related inspection responsibilities are allocated differently in each city a perfect comparison is not possible.

For sake of comparison, DOB has attempted to identify inspection roles related to zoning, building construction, building/housing maintenance, building- or construction-related environmental protection, and fire prevention in new and existing buildings (building-related inspections) while excluding inspection roles related to things like food/restaurant safety, water and sewer utility infrastructure, and transportation infrastructure.

This information is summarized in a table on the following page.

As always, please let me know if you have any further questions.

**ID#:** 67-17 Periodic Inspections

---

The following information is provided in response to questions posed at our department's hearing on October 5, 2021, to discuss the proposed 2022 budget.

Alderman Vasquez asked for DOB review and provide an explanation why periodic inspections have decreased since 2017.

Under the license and inspection reform ordinance adopted February 22, 2017 (SO2016-8687), the Municipal Code was amended to explicitly credit a single inspection as meeting previously separate obligations for various departments (including DOB and CFD) to conduct periodic inspections, licensing inspections, and complaint-driven inspections of the same property within 12 months.

Since the enactment of that ordinance, and in anticipation to changes in the 311 system that went live in late 2018, DOB began consistently tracking an inspection which is conducted both as a periodic inspection and a complaint-based inspection as a complaint-based inspection in our permit and inspection records system (Hansen 7). This helps to ensure the inspection result is tied to the 311 data record across data systems. Hansen 7, which dates to 2006, does not have the ability to track that an inspection is conducted for more than one reason. DOB is working with AIS to address this in the system being built to replace Hansen 7.

The following information is provided in response to questions posed at our department's hearing on October 5, 2021, to discuss the proposed 2022 budget.

Alderman Reilly asked for the number of zoning inspections completed on behalf of DPD.

The Department of Buildings permit inspections ensure that permitted construction is completed in accordance with plans which have been reviewed and approved for compliance with the Zoning Ordinance.

The Department of Buildings also conducts complaint-based zoning-related inspections for illegal auto repairs, misuse of vacant lots, storage of vehicles in rear yards in Single Family Districts, and other complaints that are sent over from the Zoning Administrator. On average we refer 10 to 12 zoning violation cases to the Department of Law for enforcement each year.
