PART FOUR: POTENTIAL IMPACT OF THE PROPOSAL

FOURTEEN POLICIES

- 1. Complete the publicly owned and locally controlled park system along the entire Chicago lakefront.**

Policy 1 is not applicable to the proposed development because the subject property is located west of Lake Shore Drive in the Private Use Zone, and therefore will not affect the publicly owned and locally controlled park system.

- 2. Maintain and enhance the predominately landscaped, spacious and continuous character of the lake shore parks.**

The proposed development is in the Private Use Zone and will have no adverse impact on pursuit of this policy.

- 3. Continue to improve the water quality and ecological balance of Lake Michigan.**

The proposed development includes storm water management features such as green roof areas and storm water detention facilities that reduce the quantity and rate of storm water entering the combined city sewer system. The green roof areas help remove suspended solids from storm water and improve the quality of the water that may enter the combined city sewer system.

- 4. Preserve the cultural, historical, and recreational heritage of the lakeshore parks.**

The proposed development is in the Private Use Zone and will have no adverse impact on pursuit of this policy.

- 5. Maintain and improve the formal character and open water vista of Grant Park with no new above-ground structures permitted.**

The proposed development is in the Private Use Zone and not in Grant Park and will have no adverse impact on pursuit of this policy.

- 6. Increase the diversity of recreational opportunities while emphasizing lake-oriented leisure time actives.**

The proposed development is in the Private Use Zone and will have no adverse impact on pursuit of this policy.

- 7. Protect and develop natural lakeshore park and water areas for wildlife habitation.**

The proposed development is on private property in the Private Use Zone and will have no adverse impact on pursuit of this policy. The proposed development includes

landscaped areas at grade level which provides a variety of habitat environments for birds and insects.

8. Increase personal safety.

The proposal contemplates development that will increase personal safety by reusing and revitalizing an underutilized parcel and maintaining the residential character of the property, consistent with the surrounding neighborhood. The development of active uses and additional residents in the neighborhood 24/7 will assist in increasing the personal safety of the neighborhood.

9. Design all lake edge and lake construction to prevent detrimental shoreline erosion.

The proposed development is not located on the lake edge or within the lake.

10. Ensure a harmonious relationship between the lakeshore parks and the community edge, but in no instance will further private development be permitted east of Lake Shore Drive.

The proposed new building is west of Lake Shore Drive, within the Private Use Zone.

The proposed new building is designed to create a harmonious relationship between the lakeshore parks and the community edge. The proposed development will provide improvements in the Private Use Zone that will enhance landscaping by adding a green roof, remove a surface parking lot, provide bicycle parking, and result in continued residential use in the neighborhood.

11. Improve access to the lakeshore parks and reduce through vehicular traffic on secondary park roads.

The proposed development will have no negative impact on access to the lakeshore parks. The property will be accessed via a 15' wide public alley on the west side of the property.

12. Strengthen the parkway characteristics of Lake Shore Drive and prohibit any roadway of expressway standards.

The proposed development will have no adverse impact on pursuit of this policy.

13. Ensure that all port, water supply, and public facilities are designed to enhance lakefront character.

The proposed development is in the Private Use Zone and includes no port, water supply or other public facilities.

14. Coordinate all public and private development within the water, park and community zones.

The proposed development will be integrated with the pattern of existing development in the surrounding neighborhood. The proposed quantity of dwelling units will result in a residential density on the subject property that does not exceed the prevailing density level in the surrounding neighborhood and the density level permitted by the proposed zoning.

THIRTEEN PURPOSES

- 1. To promote and protect the health, safety, comfort, convenience, and the general welfare of the people, and to conserve our natural resources;**

The proposed development will further Purpose 1 by adding high-quality dwelling units to the neighborhood. The proposed development provides for 78 dwelling units, which is less than the 112 dwelling units that are permitted on the property under the B3-5 District. The proposed development will have no impact upon open space within the Public Use Zone of the Lake Michigan and Chicago Lakefront District. The block is developed with multi-story residential buildings. The development will utilize transit-oriented principals by reducing parking and providing more bike parking than is required.

- 2. To identify and establish the Lake Michigan and Chicago Lakefront Protection District and to divide that District into several zones wherein any and all development or construction, as specified in Article V hereinafter, shall be specifically restricted and regulated;**

This purpose does not apply to individual projects.

- 3. To maintain and improve the purity and quality of the waters of Lake Michigan;**

The proposed development will be designed with a storm water management system that will reduce suspended solids and assist in improving the purity and quality of the waters of Lake Michigan.

- 4. To insure that construction in the Lake or modifications of the existing shoreline shall no be permitted if such construction or modification would cause environmental or ecological damage to the Lake or would diminish water quality; and to insure that the life patterns of fish, migratory birds and other fauna are recognized and supported;**

6. To promote and provide for continuous pedestrian movement along the shoreline;

The proposed development is in the Private Use Zone and not on the shoreline and will have no adverse impact on pursuit of this purpose.

7. To promote and provide for pedestrian access to the Lake and Lakefront Parks from and through areas adjacent thereto at regular intervals of one-fourth mile and additional places wherever possible, and to protect and enhance vistas at these locations and wherever else possible;

The proposed new building is west of Lake Shore Drive, within the Private Use Zone.

The proposed new building is designed to create a harmonious relationship between the lakeshore parks and the community edge. The proposed development will provide improvements in the Private Use Zone that will enhance landscaping by adding a green roof areas on Level 5 and Level 2 of the proposed building, remove a surface parking lot, provide bicycle parking, and result in continued residential use in the neighborhood.

8. To promote and provide for improved public transportation access to the Lakefront;

The proposed development is in the Private Use Zone and will have no adverse impact on pursuit of this purpose.

9. To insure that no roadway of expressway standards, as hereinafter defined, shall be permitted in the Lakefront Parks;

The proposed development is in the Private Use Zone and will have no adverse impact on pursuit of this purpose.

10. To insure that development of properties adjacent to the Lake or the Lakefront Parks is so defined as to implement the above-stated purposes, provided, however, that with respect to property located within the Private Use Zone as established by Article V, VI, and IX of this Ordinance, the permitted use, special use, lot area per dwelling unit, and floor area ratio provisions of the Chicago Zoning Ordinance, Chapter 194A of the Municipal Code of Chicago, shall govern except where such provisions are in substantial conflict with the purposes of this Ordinance or the fourteen Basic Policies of the Lakefront Plan of Chicago;

11. To achieve the above-stated purposes, the appropriate public agency should acquire such properties or rights as may be necessary and desirable;

The proposed development involves private property within the Private Use Zone. The Applicant is a non-governmental entity.

12. To define and limit the powers and duties of the administrative body and officers as provided herein;

This purpose is not applicable to individual projects.

13. Nothing contained in the Lake Michigan and Chicago Lakefront Protection ordinance shall be deemed to be a waiver or consent, license or permit to use any property or to locate, construct, or maintain any building, structure or facility or to carry on any trade, industry, occupation or activity which may be otherwise required by law.
