Re: Agency Authorization to Proceed with Remediation

Mrs. Worthington:

Agency personnel have worked with your staff and contractors over the last several months to review and amend planning documents and associated procedures that provides reasonable assurance that human health and the environment will be adequately protected during the upcoming remediation of the former Carnotite Reduction Company site.

This letter authorizes the City to proceed with the planned remediation, detailed in numerous plans and procedures, associated with and tied to the recently issued Amendment 5 of your radioactive materials license.

If you have any questions, please contact me at 217-558-5135 (kelly.horn@illinois.gov) or Kelly Grahn at 630-293-8242 (kelly.grahn@illinois.gov).

Sincerely,

for  
Kelly Horn, Branch Chief  
Radiation Protection Services  
Division of Nuclear Safety
