BUILDING PERMIT

Void without Commissioner's Signature

PERMISSION is hereby granted, as provided in Chapter 11-4 of the Municipal Code of Chicago, to the above-named Applicant to install, repair, modify, and/or operate the equipment, device, process or area described above at the address above, subject to any special conditions which may be attached hereto, in accordance with the permit application and any supplemental information submitted as part of the application, including drawings, plans and specifications, all of which are incorporated into this permit by reference. The Permittee shall comply with all applicable local, State, and Federal regulations and standards regarding the construction, operation, maintenance, and closure of the subject Facility. Any changes, modifications and/or additions to the equipment, area or the approved plans and documentation shall require a new air pollution control permit. This permit shall be posted in a conspicuous place at or near the permitted equipment, device or area as required by Section 11-4-620(b) of the Chicago Municipal Code.

In addition to this Permit, an annual Certificate of Operation is required in accordance with Section 11-4-660 of the Code.

SPECIAL CONDITIONS:

This permit authorizes installation of the regulated equipment listed above, as well as limited testing solely in order to verify proper installation and/or operation of the regulated equipment. The regulated equipment shall otherwise not be operated unless and until all other required approvals and permits have been issued, including a CDPH recycling facility permit.

Allison Arwady
Commissioner
